"Y" PLANS HERE ARE TENTATIVE

No Agitation Will Be Carried On, Declare Field Men.

Plans for the construction of a "Y" building here will be left entirely to the residents of the city and no agitation is being carried on here for the erection of such a structure, declared F. S. Goodling, Jr., field director of the upper peninsula for the Young Men's Christian Association.

Mr. Goodling and A. I. Pelter have been here several days in the interest of "Y" work. Mr. Pelter will return to Detroit tonight, but Mr. Goodling probably will remain the balance of the month.

Would Help Residents.
"If the town wants a building badly enough, we'll come in and help them get it," said Mr. Goodling, "but we don't want them to get the impression that we are to agitate for the erection of a 'Y' building. On the contrary, we are here at the response of a number of prominent men of the city who believe the time is ripe for a building.

"Right now we are getting the sentiment of the people. In all probability, there will be no action taken yet for several months."

The state is divided into seven districts and the upper peninsula has but one district, the balance being below the straits, it was pointed out by Mr. Pelter, so Mr. Goodling will not have an opportunity to spend as much time here as he would desire.

Gain Mistaken Idea.

"And I hope some people who are somewhat mistaken about it will gain the right impression of the Y. M. C. A. work," said Goodling, "and that is that it is not for Protestant any more than it is for Catholic. The 'Y' is working for a cause that none can condemn—to make young men realize that clean living is the only way to live."

Mr. Pelter expects to return to Escanaba some time later. He, too, is of the opinion that no action will be taken for several months at least toward establishing "Y" work here, except in a small way.

4 BURNED WHEN GAS TANKS ARE EXPLODED TODAY

(BY ASSOCIATED PRESS)
Byonnes, N. J., July 24—Eighty thousand gallons of gasoline contained in eight tank cars exploded on the switching track of the Texas Oil company here this morning causing fire which resulted in serious injury to 4 persons with many others suffering minor burns. Property loss is heavy. The cause of the explosion has not been determined. Buildings two miles away were rocked.

Lenroot Declares 14 Points Almost Ignored in Treaty

(BY ASSOCIATED PRESS)
Washington, July 24—Acceptance of the league of nations with reservations to protect the independence of American action was advocated in the senate today by Senator Lenroot, Republican, Wisconsin. The right to determine domestic questions, to administer the Monroe Doctrine and to decide upon its course in any case arising under Article X, he asserted should be carefully protected by reservations. Of President Wilson's fourteen points the speaker said only six had been complied with in the treaty while four had been "clearly violated" and four "not included at all."

OSCAR HERBST IS STRICKEN; DEATH OCCURS SUDDENLY

Aged Resident of Escanaba Dies at 7:30 o'clock This Morning Unexpectedly.

Stricken with heart failure, Oscar Herbst of 415 First avenue (Wells) south died at 7:30 o'clock this morning. He was at the A. C. Barras residence on Lake Shore drive when stricken.

A residence of 40 years in this city established Mr. Herbst as one of the pioneers of the city. He was born in Milwaukee 62 years ago, moving to this city when he was a young man. Thirty eight years ago he was married to Mrs. Herbst, one of the surviving members of the family.

Crippled in 1900.
In 1900 Mr. Herbst was employed at the Escanaba wooden ware plant where he suffered an injury to an arm that made him a cripple for life. Since that time he had been unable to do work that would require the use of both arms to any extent.

The death of Mr. Herbst this morning was unexpected as he had not complained of being in ill health other than that which generally grips a man of his age.

Three sons and the wife survive. They are Fred Herbst, who lives in Detroit; William Herbst, machinist linotype operator of the Mirror, and Roy Herbst, who is on the government vessel Hyacinth. A telegram was dispatched this morning to Fred Herbst and it is probable that Roy Herbst will be located some time during the day. Just where the Hyacinth is stationed today is not known.

Brother in Menominee.
Another survivor is G. B. Herbst, brother, who lives in Menominee. He will be here to attend the funeral services. Pending word from the sons who were telegraphed today, no arrangements will be made for the funeral.

OBJECT TO JAP NATION TAKING PART IN TRIAL

(BY ASSOCIATED PRESS)
Tokio, Sunday, July 20—The citizens of Fuzushima have staged a movement against Japan participating in the international tribunal to try the former German emperor on the grounds that such action would have a bad effect upon the Japanese people. Viscount Kato, member of the house of peers and former foreign minister, addressing a meeting of the opposition party at Osaka expressed doubt whether the league of nations would restrict armament and said he believed that expansion of the Japanese navy was necessary in the interests of the empire.

Services Friday For Mrs. Nygaard

Funeral services for Gunder Nygaard will be held at 2:30 o'clock tomorrow afternoon at the family home 615 Twelfth street. The body was taken from the Alto parlors to the residence today. The Rev. Frank H. Cookson of the First Methodist church will officiate. Burial will be in the family lot at Lakeview.

No Improvement In Tilbert's Condition

There is no decided improvement in the condition of Joseph Tilbert, brother of Harry Tilbert, who was injured when he fell into the hold of a boat at Erie, Pa., according to a letter received by Tilbert yesterday. The man suffered the fracture of both legs and his back was badly hurt. He is still in the hospital at Erie.

14 Candidates to Lodge, Initiated

Fourteen candidates for admission to the Odd Fellows lodge here will be initiated at a special meeting to be held Monday night, when a special program will be carried out. It is also planned to serve refreshments.

Miss Eloise Judson left last night for Jackson to visit Miss Dorothy Spence for a few days.

TREE FALLS AND BREAKS GIRL'S BACK

Berry Picker Victim Of Peculiar Accident Yesterday

Her back broken when a tree fell on her as she was picking berries, Miss Irene Simord, 14, daughter of Mr. and Mrs. John Simord of 322 Wisconsin street, Gladstone, lies at the point Attendants this afternoon would express no opinion as to how long she would live, as the girl's condition today was somewhat improved.

In Woods Near Flat Rock.
The accident occurred about 3 o'clock yesterday afternoon in the woods near Flat Rock, but it was more than an hour later before the girl could be brought to the hospital here. An automobile was hurriedly pressed into use and the helpless child was rushed to this city.

Miss Simord was picking berries, with a party of Gladstone people, including her mother. The high velocity of the wind yesterday, caused one of the large dead trees in the vicinity of where they were picking berries to be felled to the ground. It trapped Miss Simord before she could be warned and pinned her beneath. The tree struck her across the back, breaking the back bone.

10 inches in Diameter.
Help was hurriedly procured to lift the large tree, about ten inches in diameter, off the prostrate body of the girl. She was in a semi-conscious state. One of the party of berry pickers who had an automobile volunteered to take the girl to this city and she was brought here as soon after the accident as possible.

Fred Erickson Is Home From France After Year's Stay

After serving as a 'Y' director in the French army for nearly a year, Fred L. Erickson, son of Edward Erickson of this city, arrived in Escanaba this morning. He will remain here but a short period, as he plans to go to Ann Arbor to take up a summer course at the University of Michigan.

Erickson was one of few Americans to be assigned by the Y. M. C. A. to work with an organization of the French army that is similar to the 'Y' but which was financed by the American organization. His ability to speak both French and German fluently made him a valuable member of the 'Y' corps in France. He was in Paris as a student in 1914 during the battle of the Marne, returning to the United States in September of that year.

Organist and Choir Master.
Since that time Mr. Erickson was engaged as organist and choir master of the Emmanuel church of Baltimore, Md., one of the biggest churches of the country. He was given a year's leave of absence by the church to enter the field of the Y. M. C. A.

Asked what he thought of the French spirit, Mr. Erickson replied: "I liked to work with the French—it was very gratifying. The French are very appreciative—much more so than the American. If shown courtesy they can't do too much for one, and if they're given half a chance to be courteous they'll do so."

Many of the complaints with regard to overcharging, of which the French have been generally accused are greatly exaggerated, said Mr. Erickson, especially in instances where one is familiar with the ways and tongue of the French.

Cites Price of Haircut.
"I paid 40 cents for a haircut here this morning, he said, and I paid eight cent for a haircut in France just before returning home."

Woman Pays Fine; Indecent Language

Mrs. Angelina Auger paid a fine and costs amounting to \$12.75 when arraigned before Judge C. D. McEwen today. She was charged with using indecent language.

Miss Katherine Burns has returned from a visit at Iron River.

SEVERAL DECREES ARE GRANTED BY JUDGE FLANNIGAN

Divorces Given in a Number of Cases Tried at Recent Court Term.

Several decrees were given by Circuit Judge Richard C. Flannigan late yesterday before his departure from Escanaba. He held a short special session of court here to clean up several matters left pending since the regular period of court last week.

The court decreed that Henry Rice is the owner of a piece of land, following the suit filed against heirs of John B. Duronseau, Jr. and Louis Duronseau. The land is the Northwest quarter of the Northeast quarter of section 19, township 41 north 21 west this county.

A decree was granted Margaret Cusson in a foreclosure of mortgage against Charles Collins.

Margaret Johnson was granted a divorce from Harry Johnson and given alimony.

Ruby Burkholder was granted a divorce from Henry Burkholder and permitted to assume her maiden name, Ruby Hager.

Louise Little was given a divorce from Roscoe Little and also granted the custody of their two children.

Caroline Lund was granted a divorce from Ole Lund.

All of the divorce cases were heard at the recent term of circuit court.

Kessler Named To Attend Caucus Of League at the Soo

Ted Kessler, former captain in the service overseas, today was named by the president of the American Legion post here to attend the caucus of the American Legion in the eleventh congressional district.

The caucus will be held at Sault Ste. Marie Monday and Tuesday, July 28 and 29. Kessler probably will leave early Monday morning.

On his return to this city, a report of the caucus will be read at a special meeting to be called. It is also planned to organize for a charter in the course of a week or ten days.

Banquet Monday Night.
Delegates attending the caucus will be guests of Sault Ste. Marie at a banquet to be held Monday night.

Tuesday morning will be taken up with business of the legion, this meeting taking place in the Sault Club rooms, Sault Savings Bank block. The departure of delegates will commence Tuesday afternoon, but those who do not leave until Tuesday night will go to the Canadian Soo that afternoon.

Ex-Governor Chase S. Osborn will be the principal speaker at the Monday evening banquet, and Col. Guy F. Wilson of Flint, will also speak and possibly State Secretary Lyle D. Tabor, of Detroit. Through arrangement with state headquarters, the expense of those delegates who cannot afford to pay the same will be paid by drawing on the state treasurer for the necessary amounts.

The American Legion in Michigan in the few months it has been organized, has become a powerful factor for the accomplishment of good, and the extension of its work is deemed a wise and necessary thing. The business and professional men of Sault Ste. Marie have recognized what the caucus in Sault Ste. Marie means to the city, and have volunteered to do all in their power to make it a success. It is through them that the caucus is made a reality. Private subscription is paying for the banquet at the Country club, and many of these same men are loaning their automobiles for the use of delegates during their stay in this city.

May Be Permanent.
The district caucus will probably become a permanent thing and it is likely that a permanent organization, with headquarters in Sault Ste. Marie, will be established during the sessions of the caucus and that bids will be made for the next district caucus at whatever time it is decided to hold the same. A state caucus is to be held in Grand Rapids early this fall preparatory to the national convention, which is to be held in Minneapolis, November 10, 11 and 12.

Coal Exportation Forbidden, Order

(BY ASSOCIATED PRESS)
London, July 24.—The exportation of Cardiff coal has been stopped by a government order issued late today.

FIND BODY OF SAILOR LOST HERE

Decomposed Corpse Is Washed Ashore By High Winds.

The body of Seaman Clair Parmelee, accidentally knocked off the lighthouse tender Hyacinth and drowned in the vicinity of Drisco shoal buoy, about 14 miles from Escanaba, was found yesterday where it was washed up by the heavy winds blowing yesterday.

The body was brought to this city and taken to the Anderson-Buchanan parlors where it will be kept until relatives of the sailor advise what disposal is to be made of the body.

Body Badly Decomposed.
Except for the uniform he wore and the fact that the lighthouse tender had been warned that the body probably would be washed up in that vicinity, identification was impossible because of the badly decomposed condition of the body.

Mr. Armstrong, tender of the lighthouse, told two boys to look along the beach for the sailor's body, as he had been notified by authorities to keep a sharp lookout for it. About one mile north of the Peninsular lighthouse they discovered the body and immediately notified Mr. Armstrong.

He made a rough box and wrapped the body in canvas having difficulty to keep the body together because of its condition.

Parents at Grand Rapids.
Clair Parmelee was a son of A. L. Parmelee of 1066 Fairmount avenue, Grand Rapids, Mich.

Roy Herbst, Escanaba boy on the Hyacinth whose father died suddenly this morning was a member of the ship's crew when Parmelee was accidentally drowned near her.

They dragged the bay for several hours but without success.

Pioneer Sheep Grower Here to Look Over Land

Frank J. Hagenbarth, Sault Lake City, recognized as the biggest sheep man in the country, arrived this morning and this afternoon accompanied C. W. Kates, general manager of the E. & L. S. railway, to view sheep and cattle land along the railroad.

Mr. Hagenbarth is president of the National Sheep Growers' Association.

Major Norton Home From Army Service

Major George B. Norton, brother of John P. Norton of this city, arrived in Escanaba last night to visit relatives for several days. He was discharged at Camp Grant Monday, having arrived in the states from overseas duty about two weeks ago.

Major Norton won the distinction of being one of the youngest majors in the American army. Named a second lieutenant at the first officers' training camp, he was assigned to the 42nd (Rainbow) division and went over with that unit, one of the first to leave the states for duty in foreign lands. Later he was assigned to a regular army outfit.

It was through "short cut" methods he devised in intelligence and personnel work that Major Norton won recognition and was soon appointed captain and later major. After serving for a long period as divisional personnel adjutant, Norton was named personnel adjutant of the Seventh army corps, which he served as until he left for the United States.

\$3 PRIZE FOR SOMEBODY BUT WHOP QUESTION

Here's a prize that was supposed to have been given during the Fourth of July celebration here. In checking over the accounts of the July 4 celebration, George F. McEwen found he still had \$3 on hand, to be awarded to the stoutest soldier or sailor in the parade, exclusive of former officers. The exclusion was made at the request of Capt. L. D. Goddard, who knew he "stood ace high" to win the prize and wanted some one else to get a chance at it.

According to figures and estimates, etc., either Elmer St. Martin or William Ehnerd is entitled to the \$3. Either one, by proving beyond doubt he was the stoutest service man in the parade, can have the prize by calling on the president of the American legion post here.

Bombing Plane Starts Flight Over Country

(BY ASSOCIATED PRESS)
Washington, July 24.—An army bombing plane carrying a crew of five, commanded by Lieut. Col. Hartz, left the ground here at 10 o'clock this morning on the first leg of a flight of nearly 8,000 miles around the rim of the country. The flight is the longest ever attempted by the army air service and will carry the machine through thirty-one states and over 95 cities.

The first stop today will be at Hazelhurst field, L. I., after which the airman will proceed to Augusta, Me., and thence to Cleveland, O., a distance of 650 miles.

The general line to be followed will carry the machine in order to Duluth, Minn., Seattle, Wash., San Diego, Calif., Reno, Nev., Miami, Fla., and back to Washington.

Lotha Smith, Menominee boy who has gained prominence in the air service, is believed to be one of the crew of five of the machine. He was scheduled to a pilot of the plane some time ago and undoubtedly is directing the flight of the machine.

It is not generally believed that the plane will cross the upper peninsula at any point, as no upper peninsula city has been named as a stopping place. Duluth is the closest point within reach of Cleveland that the plane will touch, proceeding due west from that city.

Victor Berger On Stand in Hearing; No Results Today

(BY ASSOCIATED PRESS)
Washington, July 24.—Victor Berger representative elect from Wisconsin took the stand today before the special committee investigating his right to a seat in the house. For two hours he discussed international and Socialist party questions without getting down to the point of America's entry into the war, which members insisted where the investigation should begin. During the examination the witness leaned across the table and talked with members by name except Representative Eggle, Democrat, Texas, who sat with his back to him. The hearing may continue for weeks.

Lloyd George and Miners Talk Wage

(BY ASSOCIATED PRESS)
London, July 24.—The executive committee of the Miners Federation met Premier Lloyd George and three other members of the government today in an effort to settle the dispute of the Yorkshire coal fields. No settlement was reached at the morning session. The conference adjourned until evening.

Heavy Rain Stops West Forest Fires

(BY ASSOCIATED PRESS)
Spokane, Wash., July 24.—Heavy rains last night in Western Montana and in Northern Idaho were believed at district forest service headquarters today to have greatly improved the forest fire situation.

BIGGEST OF WORLD WILL BE FLOATED

Vessels To Cross Sea In Four Days To Be Built.

(BY ASSOCIATED PRESS)

Washington, July 24.—Two gigantic ocean liners, larger than any ships now afloat and designed to cross the Atlantic in four days, are to be built by the shipping board. They will be 1,000 feet longer and of 30 knots speed and will be equipped for use as commerce destroyers in the event of war.

Announcement was made today by the board that plans for the ship had been commenced and that work on them would start in the near future. It may be that two similar liners will be constructed later.

Larger Than Leviathan.
The ships will be 50 feet longer than the famous Leviathan, now the largest vessel afloat, and will have a gross tonnage of 55,000. Their draft will be 35 feet, depth 74 feet, beam 102 feet and accommodations will provide for 1,000 saloon passengers, 800 second cabin passengers and 1,200 steerage.

The crew will number 1,000 officers and men and the ships will be of the oil burning type with a cruising radius of 7,000 miles, which will enable them to complete the round trip on the Atlantic without loading fuel overseas. They will be driven by four propellers, on which will be thrown the strength of 110,000 horse power.

Converted for War.
In order that the vessels may be converted into commerce destroyers in time of war, gun emplacements will be built on the decks and the after decks will be constructed with a view of transforming them into landing and launching space for seaplanes.

ASK ALANDS TO BE NEUTRALIZED BY PEACE HEAD

(BY ASSOCIATED PRESS)
Paris, July 24.—The Baltic commission of the peace conference represented a report today recommending that the Aland islands between Sweden and Finland be neutralized under guarantees of the league of nations.

The Aland islands have a population of about 12,000. The islands formerly was held by Sweden but were taken over by Russia in 1809.

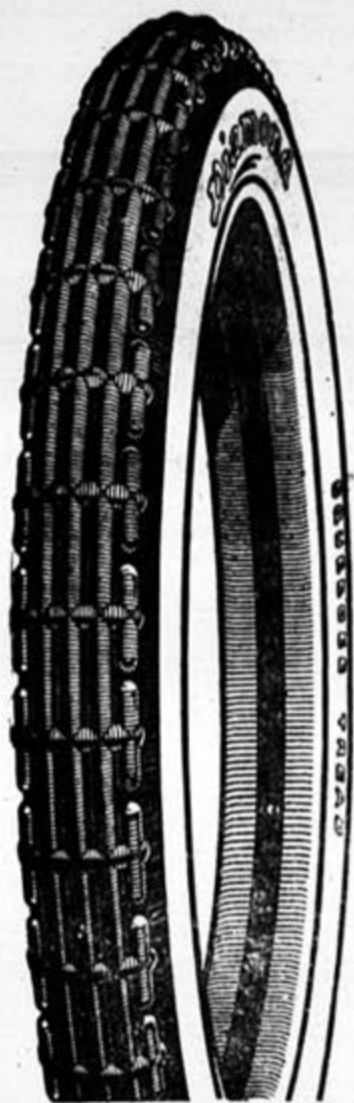

Ask President To Submit Treaty Of Paris To Senate

(BY ASSOCIATED PRESS)
Washington, July 24.—A resolution requesting President Wilson to submit to the senate the treaty by which the United States would promise to aid France in the event of an unprovoked attack by Germany was offered in the senate today by Chairman Lodge's committee.

Unanimous consent for its immediate consideration was refused by Senator Robinson, Democrat, Arkansas. Senator Lodge offered the measure after a sharp debate, during which the spokesman declared that forms of the treaty required that it be submitted to the senate for ratification at the same time as the treaty with Germany.

Ford-Tribune Case To Jury in a Week

(BY ASSOCIATED PRESS)
Mt. Clemens, Mich., July 24.—In all probability the hearing of the Henry Ford-Chicago Tribune million dollar libel suit will reach the jury late next week.

Diamond SQUEEGEE TREAD Tires
Are Motorists Confirmed Gamblers?

Will motorists always put their good money up for unknown tires and gamble that they'll get their money's worth?

Will they eternally shop around, trying first one make and then another? Or will the time come when they'll choose one of the well-known makes of tires, certain to give splendid average of the service—and then stick to that!

Business houses don't shop for "bargains"—they buy tires on a business basis. When they find that Diamonds right in this town are running 5,000, 6,000 and 8,000 miles as often as any other tires, and COST LESS than most tires, they concentrate on Diamonds.

There's no gamble in such tires! We would like to get your tires on a business basis.

DELTA HARDWARE CO.

OFFICIAL PROCEEDINGS

Escanaba, Mich., July 15, 1919.
 A regular meeting of the City Council of the city of Escanaba was held in the Council Chambers on the above named date.

Present: Mayor O. P. Chatfield, Ald. Ramsey, Tolan, Hoffman, Beauchamp, Sheahan, Pepin, Kennedy, Pryal, Follo, Jernstrom and North.—11.

Absent: Ald. Bissell, Genesse and Pettier.—3

Ald. Sheahan seconded by Ald. Beauchamp, moved that the minutes of the previous meeting be approved without being read.

Ayes unanimous.

Ald. Sheahan, seconded by Ald. Pryal, moved that the communication of Nelson Thomasson & Co. relative to the building of a canal between AuTrain, Michigan, and Gladstone, Mich., be referred to the Special Committee composed of Ald. Genesse, Beauchamp and Ramsey.

Ayes unanimous.

Ald. Hoffman, seconded by Ald. Kennedy, moved that the recommendation of the Board of Public Works that Mgr. L. D. Goddard be empowered to expend approximately \$400.00 towards the roofing of a storage warehouse in the yard of the Escanaba Municipal Water Plant be approved, and that the Manager, L. D. Goddard, be authorized to proceed with the repairs.

Ayes: Ald. Ramsey, Tolan, Hoffman, Beauchamp, Sheahan, Pepin, Kennedy, Pryal, Follo, Jernstrom and North.—11.

Ald. Hoffman, seconded by Ald. Kennedy, moved that the recommendation of the Board of Public Works that the East 1/2 of Lot 10, of Block 41, of the Original Plat to the city of Escanaba, owned by C. M. Thatcher, be purchased as per contract submitted by the said C. M. Thatcher, whereby on the payment of Seventy-five (\$75.00) dollars monthly on the 11th day of each month beginning with July 1919—with interest at 6% per annum on all sums unpaid thereon, payable annually, be approved and the said property purchased, and the Mayor and Clerk be authorized to sign the said contract.

Motion was lost by the following vote:

Ayes: Ald. Ramsey, Tolan, Hoffman, Sheahan, Pepin, Kennedy, Pryal, Jernstrom, and North.—9.

Nays: Ald. Beauchamp and Follo.—2.

Ald. Pryal, seconded by Ald. Pepin, moved that the report of the Street Committee recommending that an arc light be placed at the crossing of the Escanaba & Lake Superior Ry. Co.'s crossing on Stephenson Avenue, abutting property of the Chatfield Machine & Foundry Co., be accepted and placed on file; and the Board of Public Works be instructed to install said arc light.

Ayes: Ald. Ramsey, Tolan, Hoffman, Beauchamp, Sheahan, Pepin, Kennedy, Pryal, Follo, Jernstrom and North.—11.

Ald. Ramsey offered the following resolutions and moved their adoption:

Whereas, The owners of a majority of the lands liable to taxation on the west line of Nineteenth street in Blocks Seventeen, Eighteen and Nineteen (17, 18 & 19) of the S. H. Selden Addition, and Blocks Eighteen and Nineteen (18 & 19) of the Selden Addition to the city of Escanaba, have petitioned this Council to construct a sanitary sewer in that part of the city of Escanaba, and it is the opinion of this Council that it is necessary to provide sewerage and drainage for that part of the city which would be benefited by a sanitary sewer, and it is hereby declared the intention of the city of Escanaba to construct such sanitary sewer.

Therefore, Be it Resolved, That the Board of Public Works of the city of Escanaba be, and is hereby instructed and directed to devise or cause a plan of such sewerage or drainage to be prepared a diagram and plat of that part of the sewer district of the city of Escanaba, showing all streets and public grounds, lands, lots and subdivisions thereof in that part or district of the city and the proposed route and location of the sewer, and the depth, grade and dimensions thereof, and also to procure an estimate of the cost of said improvement and to submit the same to this Council as soon as may be.

Whereas, The owners of a majority of the lands liable to taxation in Blocks Twelve and Thirteen (12 & 13) of Campbell's Addition to the city of Escanaba, have petitioned this Council to construct a sanitary sewer in that part of the city of Escanaba, and it is the opinion of this Council that it is necessary to provide sewerage and drainage for that part of the city which would be benefited by sanitary sewer, and it is hereby declared the intention of the city of Escanaba to construct such sanitary sewer.

Therefore, Be it Resolved, That the Board of Public Works of the city of Escanaba be, and is hereby instructed and directed to devise or cause a plan of such sewerage or drainage to be prepared a diagram and plat of that part of the sewer district of the city of Escanaba, showing all streets and public grounds, land, lots and subdivisions thereof in that part or district of the city and the proposed

route and location of the sewer, and the depth, grade and dimensions thereof, and also to procure an estimate of the cost of said improvement and to submit the same to this Council as soon as may be.

Whereas, The owners of a majority of the lands liable to taxation in Block Forty-four (44) of Campbells Third Addition to the city of Escanaba have petitioned this Council to construct a sanitary sewer in that part of the city of Escanaba, and it is the opinion of this Council that it is necessary to provide sewerage and drainage for that part of the city which would be benefited by a sanitary sewer, and it is hereby declared the intention of the city of Escanaba to construct such sanitary sewer.

Therefore, Be it Resolved, That the Board of Public Works of the city of Escanaba be, and is hereby instructed and directed to devise or cause a plan of such sewerage or drainage to be prepared a diagram and plat of that part of the sewer district of Escanaba, showing all streets and public grounds, lands, lots and subdivisions thereof in that part or district of the city and the proposed route and location of the sewer, and the depth, grade and dimensions thereof, and also to procure an estimate of the cost of said improvement and to submit the same to this Council as soon as may be.

Whereas, The owners of a majority of the lands liable to taxation in Blocks Twenty, Twenty-three and Twenty-eight (20, 23 & 28) of Campbell's Second Addition to the city of Stephenson Co.'s 1st Addition to the Escanaba, have petitioned this Council to construct a sanitary sewer in that part of the city of Escanaba, and it is the opinion of this Council that it is necessary to provide sewerage and drain for that part of the city which would be benefited by a sanitary sewer, and it is hereby declared the intention of the city of Escanaba to construct such sanitary sewer.

Therefore, Be it Resolved, That the Board of Public Works of the city of Escanaba be, and is hereby instructed and directed to devise or cause a plan of such sewerage or drainage to be prepared a diagram and plat of that part of the sewer district of Escanaba, showing all streets and public grounds, lands, lots and subdivisions thereof in that part or district of the city and the proposed route and location of the sewer, and the depth, grade and dimensions thereof, and also to procure an estimate of the cost of said improvement and to submit the same to this Council as soon as may be.

Whereas, The owners of a majority of the lands liable to taxation in Blocks Twenty-two, Twenty-three and Twenty-six (22, 23 & 26) of the 1. City of Escanaba have petitioned this Council to construct a sanitary sewer in that part of the city of Escanaba, and it is the opinion of this Council that it is necessary to provide sewerage and drain for that part of the city which would be benefited by a sanitary sewer, and it is hereby declared the intention of the city of Escanaba to construct such sanitary sewer.

Therefore, Be it Resolved, That the Board of Public Works of the city of Escanaba be, and is hereby instructed and directed to devise or cause a plan of such sewerage or drainage to be prepared a diagram and plat of that part of the sewer district of Escanaba, showing all streets and public grounds, lands, lots and subdivisions thereof in that part or district of the city and the proposed route and location of the sewer, and the depth, grade and dimensions thereof, and also to procure an estimate of the cost of said improvement and to submit the same to this Council as soon as may be.

Resolved, That the five resolutions as read by the clerk for the construction of sanitary sewers, be adopted.

Ald. Hoffman, seconded by Ald. Ramsey, moved that the resolution be adopted.
 Ayes: Ald. Ramsey, Tolan, Hoffman, Beauchamp, Sheahan, Pepin, Kennedy, Pryal, Follo, Jernstrom and North.—11.

MAZOLA

The Perfect oil for Cooking and Salads

How To Make Perfect Pie Crust

Here is a Pie Crust recipe that will convince you of the wonders of Mazola. And remember, too, that pie crust made with Mazola is perfectly digestible.

Follow this recipe—you can get Mazola at your grocer's.

- 2 cups Flour
- 1/2 cup Mazola
- Pinch of Salt
- Ice Cold Water

Work Mazola well into the flour and salt, add enough ice water to hold together, about one-fourth of a cup; roll crust out at once.

FORD AS LOVER OF BIRDS, LATE ROLE SEEN IN BY JURY

Manufacturer Dislikes to Talk About War Work, Revealed at Trial.

Mt. Clemens, Mich., July 24.—A new Henry Ford appeared on the witness stand Tuesday. The jury has seen this chief figure in the \$1,000,000 libel suit, which he has brought against the Chicago Tribune, as a manufacturer, as a humanitarian and as a patriot. They have heard him both denounced as an anarchist and praised for the war work which he did for the government without profit. But it was not until the Tribune ceased its examination and Ford counsel took the witness that this particularly human facet in the personality of Henry Ford was turned to the light. The only legislation ever sought by this man of millions, whose interests reach every part of the globe, has been legislation for the protection of birds. He had never sought for special laws to protect or advance his own interests, he has never asked for his vast holdings any special enactments, but he has found time and has had the interest to love, to seek to protect birds. It was a curious bit of testimony and it left a deep impression.

The testimony developed as a result of Alfred Lucking's questions concerning Mr. Ford's friends. Counsel sought out the fact that Mr. Ford had never affiliated with anybody which was in conflict with the government, and that he had no friends among such organizations.

His best friends, he said, were Thomas Edison and John Burroughs. "Who is John Burroughs?" asked Mr. Lucking.

"He is a writer and naturalist." "Are you interested in common?" "Yes; I like birds." "Have you introduced a number of new varieties to America?" "Yes."

"They come at your call; you know them all?" "Yes."

"Have you ever sought any legislation during your life, Mr. Ford?" "Yes; laws for bird protection."

"Outside of that have you ever tried to get any legislation passed?" "None whatever."

The questions then turned to litigation in which Mr. Ford has been concerned.

It developed that when his business was in the first years of its growth, he found his path blocked by the so-called Selden patent on internal combustion engines to which all manufacturers were paying tribute.

"I fought that for seven years," said Mr. Ford.

"Seven years of legislation." "And you won?" "Yes."

"And in winning freed the entire automobile industry?" "Yes."

"Mr. Ford," continued counsel, "have you ever, at any time or place, advocated that the United States should disarm, except as part of general world disarmament?" "No, I never did."

"Do you believe it was a good thing for Great Britain and the United States to agree to disarm along the Canadian border?"

"Well, I don't know about the history of it, but it seems to be working pretty well."

The surprise of the examination came when Mr. Ford's attorney attempted to draw from him a recital of the war work done by his company.

"I did all I could," answered the witness briefly.

"But tell us some of the things you did."

"We did all we could. That is all there is to it."

A third time counsel tried to draw Mr. Ford out but the witness doggedly refused to attempt to glorify himself.

"We did all we could. Let it go at that," said Mr. Ford finally, and the subject had to be dropped.

"Did you ever do anything to discourage men from going to the border?"

"Not a thing."

"Have you some Mexicans in your employ?"

"About 115. We brought them to our tractor plant in co-operation with the Mexican government so that we

PRINCE ALBERT

the national joy smoke

TALK about smokes, Prince Albert is geared to a joyhandout standard that just lavishes smokehappiness on every man game enough to make a bee line for a tidy red tin and a jimmy pipe—old or new!

Get it straight that what you've hankered for in pipe or cigarette makin's smokes you'll find aplenty in P. A. *That's because P. A. has the quality!*

You can't any more make Prince Albert bite your tongue or parch your throat than you can make a horse drink when he's off the water! Bite and parch are cut out by our exclusive patented process!

You just lay back like a regular fellow and puff to beat the cards and wonder why in samhill you didn't nail a section in the P. A. smokepasture longer than you care to remember back!

Buy Prince Albert everywhere tobacco is sold. Tippy red bags, tidy red tins, handsome pound and half pound tin humidors—and that clever, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

Stop Itching Skin

There is one safe, dependable treatment that relieves itching torture and skin irritation almost instantly and that cleanses and soothes the skin.

Ask any druggist for a 35c or \$1 bottle of Zemo and apply it as directed. Soon you will find that irritations, pimples, blackheads, eczema, blotches, ringworm and similar skin troubles will disappear.

A little Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

THE BABY CROP.
 America's baby crop for 1919 promises to be the largest in the history of the country, according to the annual survey of the New York milk committee, just completed.

This prediction is made in the face of a reduction of nearly 100 per cent in the excess of births over deaths during 1918 as compared with 1917. This was caused by an unprecedented number of deaths approximating 2,150,000 in part due to the influenza epidemic and war conditions.

Computations by the committee, based upon figures obtained from health officials in 167 of the largest American cities reveal these facts.

That deaths in the United States last year increased 540,000 over 1917. This total is exclusive of the 75,000 soldiers who gave their lives on foreign soil.

That 2,700,000 births occurred in 1918, an increase of 27,000 over the previous year.

That the natural national increase in population is estimated at 150,000 compared with 1,000,000 in 1917.

That the general infant mortality rate, founded upon reports received from cities comprising 26 per cent of the population jumped from 97.5 per thousand births to 104.1.

Although estimates show that the baby death rate for the country increased seven points, the New York milk committee believes this figure to be remarkably low when all the elements conspiring against him—war unrest, high cost of food and the influenza epidemic—are carefully weighed. The figures for 1918 reflect increased activity on behalf of the newborn and shows that the campaign of the Federal government to conserve the lives of 10,000,000 infants during America's second year of participation in the war was not without its reward. This movement combined with prenatal care work carried on with increased zeal by sundry organizations, particularly in the larger cities shows conclusively that the public's interest in the welfare of the baby is growing steadily.

Capital punishment for food speculators is provided in a bill in the French Chamber of Deputies. Simultaneously, the United States House of Representatives finds that the War Department has entered into an agreement with the cannery association not to make available to the public millions of pounds of surplus canned vegetables in order to maintain prices for the canners.

State Department officials are now giving it out that they are advised the Carranza government is making a real effort to deal with bandits and rebels in Mexico and capture and punish those guilty of outrages upon Americans. The Carranza troops have not yet arrested those Mexicans who murdered J. W. Correll, of Oklahoma.

PLANS FIGHT ON WHITE PLAGUE

Government to Take Leading Part in National Program.

62,000 REJECTED FOR ARMY

Figures Revealed in Tabulation of Draft Reject Slips Arouses Officials to Necessity of Taking Vigorous Action to Stamp Out Tuberculosis—Over Million Active Cases in Country—150,000 Deaths a Year.

Alarmed by the loss of man power caused by tuberculosis during the war, Uncle Sam is polishing up the M. D., which is among the many letters that follow his name, and preparing to take a leading part in the national program for the prevention of the disease.

Final tabulation of the draft reject slips, just completed, reveals: Sixty-two thousand men were rejected when called for service in the National Army because medical examination showed they had tuberculosis.

Another 20,000 men were discharged at army camps for the same reason.

Six thousand, still in service, are now being cared for in the army's special tuberculosis hospitals.

As these figures show, the government, at a time of a great national emergency, was robbed of the services of approximately enough men for five army divisions by the ravages of this one disease. But this is not all, for, although progress has been made in the control of the disease during the last ten years, it still is the cause of 150,000 deaths annually in this country, and as scientific investigation has shown, for every death from the disease there are eight active cases.

1,200,000 Cases in United States.

This indicates that at the present time there are in the United States at least 1,200,000 active cases of the white plague.

At the annual meeting of the National Tuberculosis association in Atlantic City, June 14 to 17, federal, state and local public health authorities outlined a co-ordinate national plan of battle against the disease. One result of this, it is expected, will be the creation of a division of tuberculosis in the United States public health service, a bill for which will soon be introduced.

Already, as the government's first step in protecting the nation's health during the reconstruction era, the United States public health service has been authorized to provide free hospital care for soldiers and sailors suffering from tuberculosis, honorably discharged on or after October 6, 1917. These patients will be treated in government sanitariums.

Caring for 62,000 Sufferers.

The even graver problem of caring for the 62,000 sufferers who were turned back into civil life by the draft boards has been assumed by the National Tuberculosis association in co-operation with the surgeon general's office, through 1,500 state and local societies which are affiliated with the national association, and some 600 sanitariums and 500 dispensaries are already available for the work.

The situation is so serious, however, that the national program calls for hospital and sanitarium provision in every state in the Union that will provide, as a minimum, at least two beds for every annual death, as well as dispensary and clinic care so that every man, woman and child in the state who has tuberculosis, or thinks he has it, or who may have been exposed to it in any way, can secure free advice and treatment or treatment at moderate expenses.

MAN LIVES A CENTURY

Activity, Optimism and Temperance Will Lead to Longevity.

The wish of Abner Lincoln's friends, often expressed, that he might live to be 100 years old, has come true, the former having just celebrated in Philadelphia the occasion of that many years in the world. Mr. Lincoln, who is still going strong, has asked his friends to raise the ante ten years more now that he has passed the century mark. Congratulatory letters and birthday cards from China and Korea were received by the aged man on his natal day, while friends here literally showered him with flowers.

Asked for a recipe for such a long life, Mr. Lincoln replied that they were activity, optimism and temperance, with the accent on the last qualification. "Liquor never did good for anyone except as medicine," declares the centenarian, "and it has been the cause of a great deal of harm."

Lincoln thinks that though prohibition won't come in a day, it will arrive eventually. Awaiting that happy time he is still taboing tobacco and alcohol, as he has done all his life, and is eating his three squares a day. Though not directly related to Abner Lincoln, some connection exists generations back. His grandfather fought in the revolution and his grandsons are veterans of the late war. He was born in New England.

Satisfactory Situation

"And do you think the patient will recover?" asked the Ordinary Doctor "Maybe not," said the Consulting Specialist, fingering his bill, "but if the patient doesn't recover, at least I will."

The Standard Oil Company (Indiana) and the Old Employee

The Standard Oil Company (Indiana) has emphasized its belief in the rights of its employees to look to the Company as a source of livelihood even after the productive years have passed.

For the protection of those who have grown old in the employ of the Company an annuity has been provided.

This annuity cannot be less than \$300.00 a year, and may be as much as 75 per cent of the average annual remuneration received during the last ten years of service.

This is but one of the factors which have served to promote a bond of sympathy, understanding, and respect between the Company and its employees.

It has been a potent factor in promoting the general efficiency of the Standard Oil Company (Indiana) and has enabled this organization to fulfill its obligation as a public servant in a manner satisfactory to the stockholder, the employee, and the public generally.

AMERICA'S IMMORTALS

EARL J. CHEEVERS, Sergeant, Headquarters Co., 182nd Infantry. Sergeant Cheevers received the Distinguished Service Cross for extraordinary heroism in action near Bois de Forges, France, September 28, 1918. While engaged in maintaining a line of communication, Sergeant Cheevers saw four of the enemy enter a dugout during an attack. Armed with only a pistol, he followed. Upon reaching the dugout he ordered the men to come out. When they refused, he entered and routed out and captured twelve prisoners.

BULLDOG WATCHES BABY

Takes Up His Post When the Mother Goes into a Store. Most mothers find shopping a hardship when they are forced to take their babies with them. Such is not the case with Mrs. E. B. McCutcheon of Denver. Dan, a white bull terrier of good size, is the best little guard and watchdog in the world and when his mistress goes into a store she leaves the baby in its buggy outside, with Dan on guard. The other morning the baby, whose name is Betty, was satisfying herself with a bottle of milk, and Dan was watching over her. Many pedestrians stopped for a few moments to look at the baby and the dog, which refused to let any person get near the youngster.

"I have no fear at all about the baby with Dan on the job," said Mrs. McCutcheon as she came out of the store. "He always takes good care of baby and would not allow anyone to touch her. Betty never cries when she is left alone with Dan."

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath. Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter. Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs. The millions of people who are bothered with constipation, biliousness, spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Navy Enlistments For Period of But Two Years, Ruling

The navy appropriation bill was approved on July 11, 1919, and provides in part until June 30, 1920, that enlistments in the Navy may be for terms of two, three or four years, and all laws applicable to four years enlistments shall apply under such regulations as may be prescribed by the Secretary of the Navy to enlistments for a shorter period with proportionate benefits upon discharges and reenlistments. Enlistments, authorized for two, three or four years at the option of recruit in all ratings now open for first enlistment except that applicants for machinists mates school and for aviation mechanics schools will not be enlisted for a shorter period than three years. Minors under eighteen years may be enlisted for two or three years, or period of minority at their option, with consent of parents or guardian as before. Men reenlisting for two, three or four years are entitled to extra pay for reenlistment under continuous service, extra pay for citizenship, and to two, three or four months honorable discharge gratuity respectively, if reenlisting after honorable discharge. Present war pay now permanent for men during current enlistment and for all men enlisting or reenlisting prior to July, 1920; for the term of such enlistment or reenlistment.

WYETH'S SAGE AND SULPHUR COMPOUND. The law gives the finder no title to lost property until he has made a "reasonable effort to find the owner." The reasonable effort is to advertise it in the "Lost and Found" column. Apply the golden rule.

WILL FORM WOMEN'S POSTS. Women will have a direct interest and an active participation in the American Legion, the national organization of veterans of the war. Not only will local posts of women who are entitled to full membership in the legion by reason of their enlistment in the service be formed, but posts will also be formed by those who are interested in the legion and who desire to co-operate with former service men in founding local posts.

CALIFORNIA WOMEN INVESTORS. Several California women are picking up bargains in land by bidding property sold for delinquent taxes which they hold for five years, when, if unredeemed by the original owner, they receive title for the land, and may resell at a good profit. Another invasion of "man's rights."

Miss Anna Mulvaney returned from Chicago last evening where she has been visiting friends.

Miss Ruby Bell is leaving for her home in Menominee tomorrow where she will visit her parents.

Dave Rahn, who was formerly employed at the Groos Drug Store, arrived in this city this morning from his home in Iron Mountain to visit with friends.

Miss Mary Schram and Miss Rose Belland motored to Nahma yesterday.

NOTES of the DIAMOND. Jack Smith is playing great ball these days. Alexander has added to the Cubs' chances by getting into shape. Connie Mack claims not to be the least discouraged with the Athletics. Bobby Veach of the Detroit Tigers continues to club all kinds of pitching. Bill Ariz, recently released as umpire in the Texas league, caught on in the Eastern. The Brooklyn club left Rube Marquard in Cincinnati to take treatment for his cracked leg. What became of all this talk about the Red Sox repeating in the world's series next October? Harry Davis is still acting as first lieutenant for Connie Mack and making a good job of it. Otto Knabe will probably start on a scouting tour soon. The Cubs have their eyes on several youngsters in the minors. Pitcher Carl Williams, just out of the army, has rejoined the Waterbury club, thus giving Jack Flynn a staff of five twirlers. Scoring from first on a pop fly and a technicality indicates that Ty Cobb is slowing up like one drummer playing in 11 jazz bands. Old Johnny Bates still looks pretty good among the youngsters of the Southern league. He is playing the outfield for Chattanooga. Harry Harper, star left-handed pitcher for the Washington Americans, has some of the best curves of any pitcher in any major league. The wonderful fielding for Chicago is what is counting for the White Sox these days. Joe Jackson's work is nothing short of remarkable. The collapse of the Brooklyn pitching staff is one of the upsets of the season, for the Dodgers were supposed to have pitching above all else. All things considered the Mobile team has been making a fine showing and interest and attendance in the Gulf City is reported at a higher stage than for years. Boston fans have been riding the Red Sox pretty hard, which is something new in Boston. Recently Jack Barry even had to take hoots from the crabbing Hub fans.

JIM THORPE MUST PRODUCE. With Boston Braves, Famous Indian Athlete Will Have to Show Major League Ability. Jim Thorpe, famous Indian athlete, sold recently to the Boston Braves by Manager McGraw of the Giants, must stand upon his own feet in the future. The celebrated Fox and Sac Indian's sale this time is a strictly bona fide proposition, and unless he can prove he has major league caliber he will be shunted to the minors. Thorpe's passing from the Giants indicates that he has completed his post-graduate course in baseball. Signed as a ball player at a time when he was at the peak of his fame as an athlete, Jim Thorpe failed to win a regular berth, but was held because his contract was an ironclad one and also because McGraw believed he was capable of annexing as many laurels on the ball ground as he had annexed on the gridiron and the cinder path. Jim Thorpe may possess major league class, but he does not possess the sort of class that McGraw demands. The Indian is aggressive and he has

Jim Thorpe.

Hoyler Building Is Being Rushed; Soon Finish Brick Walls

With the flooring practically laid, the foundation, entirely completed and two brick walls nearing completion, the new Hoyler baking shop on Ludington street is being rushed by a large crew of workmen. When it is completed it will be one of the most modern bakeries in this section of the country. Fred Hoyler, son of Richard Hoyler, will have charge of the bake shop. The new building was made necessary by the rapid increase in business in the past several years. The business was established here by Richard Hoyler many years ago.

Until the foundation for the Greenlaw building is finished, work on the other Hoyler building, to be an ice cream parlor and delicatessen, cannot be started.

New Tables Here For Scanlan Hall

Two new billiard tables were received by Frank Scanlan yesterday as a part of the additional equipment for his cigar store and billiard hall to be moved one door east of the present building he occupies. It is probable the renovating to be done in the new building will be completed so that it will be ready for occupancy some time next week.

MILLER PLANT, MARINETTE, IS A TOTAL LOSS

Marinette, Wis., July 24—(Special) The Miller Sash & Door company plant was completely destroyed by fire late yesterday, the flames starting at 3:30 o'clock in the afternoon. The loss is estimated at \$50,000. The whole eastern end of the city was endangered by the flames that threatened to spread to residences adjoining. Both the Marinette and Menominee fire departments were called out and fifty volunteer firemen were used in addition. So hot was the fire at one time that it melted the telephone cables

near the plant and threatened to spread to the Sawyer-Goodman plant.

Hungarians fight Rumanians, Report

(BY ASSOCIATED PRESS) Vienna, July 24—Skirmishing continues between Rumanians and Hungarians. The latter have crossed the river Theiss at points more than 100 miles north of Budapest.

Rumania And The Ukraine Friendly

(BY ASSOCIATED PRESS) Berne, Switzerland, July 24—Diplomatic relations have been resumed between Rumania and the Ukraine.

REFUSES MILLION FOR METHOD USED TO PRODUCE GOODS

Lloyd's Patent Interest Many Manufacturers Who Visit Big Plant.

Menominee, Mich., July 24—(Special)—One million dollars was refused here today by Marshall B. Lloyd for his new method of producing reed and fiber goods and his machine for weaving the fabrics.

A group of American men interested in the manufacture of baby carriages, furniture and baskets inspected the device in Mr. Lloyd's factory and saw, for the first time in the history of the world, a machine that would weave reed and fibre. Up to the present time this costly operation has been done by hand. The Lloyd Loom, however, will weave the fabric thirty times as fast as the most expert hand worker can and with far greater superiority.

A "jack pot" of \$1,000,000 was made up by the manufacturers during the noon hour and offered Mr. Lloyd. He turned it down. A short while ago the Australian government purchased rights to Mr. Lloyd's invention for \$250,000 in order to give industrial assistance to returned wounded soldiers. The sight of a one-armed man operating the machine in the Lloyd plant here convinced the Hon. G. M. S. Manifold member of the Australian parliament, that his country needed the machine to help out its returned and crippled heroes.

One million dollars has been raised here for the erection of a factory in Menominee in which the Lloyd method of production and loom will be used. Construction of a plant that will employ 800 men and women is now under way.

Largest in World. When completed it will be the largest baby carriage and woven furniture factory in the world.

French Attacked By Bulgarians; 4 Are Killed In Skirmish

Geneva, July 24.—As a result of an attack on French soldiers by Bulgarians, a French regiment equipped with rapid fire guns has arrived at Sofia, the Bulgarian capital, to disarm the local garrison, according to a Berne dispatch.

Paris, July 24.—A French regiment was attacked by Bulgarians as the regiment was landing at Lam Palanka on the Danube, 32 miles southeast of Vidin, a few days ago, according to a Belgrade dispatch. A lively exchange of shots ensued, lasting three hours. Three French soldiers were killed.

British Firm To Manufacture Autos

(BY ASSOCIATED PRESS) London, July 24.—A large British engineering company has announced its entry into the field of motor car production with a model which is openly regarded as an attempt to meet American competition by adopting methods of mass production. The company hopes to put 20,000 cars on the market in the first year. This car, says the American Chamber of Commerce in London, is to be of 16 to 20 horse power, to carry five passengers and sell at approximately \$14-90. Thus far only one car has been built and this was for testing purposes.

ROMEO—D. J. Smith, 40 years old, who for the last 10 years has been deputy sheriff, is dead at his home.

Mrs. J. J. Corcoran and daughter, Marguerite, are visiting in Chicago.

Mr. and Mrs. Joe Gallery, South Pekin, Ill., are visiting friends here.

Taft Suggests That Treaty Be Changed

(BY ASSOCIATED PRESS) Washington, July 24.—Former President Taft has written to several Republican senators and leaders suggesting reservations to the peace treaty which might be acceptable to both sides, as an open correspondent on the subject, with prominent Democratic senators. Senator Hitchcock one of the leading spokesmen in the administration in the senate fight, received the letter today from Mr. Taft.

Senator Hitchcock and other administration senators declared today that for the present at least they would continue in their efforts for ratification without reservation.

Steering Committee Is Not Increasing

(BY ASSOCIATED PRESS) Washington, July 24.—Efforts of some house Republicans last night to increase the steering committee from five to seven or nine were voted down. A recess of a month to begin in August practically was agreed on, but all committee inquiries now under way and contemplated will continue during the recess.

SEEKS NEW PROFESSION

Man Has Tried Many and is Still Undecided.

Maybe this man is the original Jack-of-all-trades. If he isn't, those who know his story agree that he's a close second.

With a puzzled look in his eye he strolled into the San Francisco Y. M. C. A. and sought Prof. W. M. Proctor of Stratford, who gives free vocational advice to discharged soldiers and sailors. And here is what he said:

"I attended a college east up to three months of graduation time. Then I decided that a degree wasn't of any particular value, so I left. I went in to a business school and became an accountant. But I didn't like accountancy and I entered law school.

"A few months before I would have been graduated I decided that I was not made to be a lawyer, so I left and started studying salesmanship.

"After selling for a time, I decided I'd rather be a dentist. One year in dental college was all I could stand. Now I want to get into some new occupation that will give me a chance to satisfy my inclination toward idealistic philosophy.

The professor advised him to cultivate a liking for one occupation he had followed and develop his philosophical interests as an avocation.

"But I don't know which of my near professions to cultivate," said the man, shaking his head.

WANTED—We have an opening for a willing young man to do delivering. Inquire of the Central Cash Market. 184-206.

WANTED—Waitresses at the Hotel Menominee, Write Hotel Menominee, Menominee Mich. 185-210

M. B. Wallace, St. Louis, arrived yesterday to look after affairs of the Escanaba Manufacturing Company here. He is president of the concern.

Discontinue Parties The card party which was scheduled to take place at the Golf Club on July 26 has been postponed. No other card parties will be held until later in the season and due notice will be given of their continuance. The last few parties lacked the necessary attendance to make them interesting. The nights have been too warm for cards and it was thought it would be a good plan to discontinue the parties until further notice.

Miss Ruth Seeger, Mantowoc, who has been visiting Miss Eloise Judson, has returned to her home.

Lemons

You have all of the 35c lemons we had bought for you. This same lemon has been whole selling these 6 weeks past at 40c and over per case. Living up to and true to the dictates of Your Central Cash Market we sold you the very last one of these lemons at 35c per dozen. We shall have to buy again—the price we will sell them at will be on that self same live and let live margin of profit on which we sell you all of our meats and groceries.

Central Cash Market

Small Fires Rage In County; Plains Are Being Swept

Reports that a special train equipped to fight fires on the Felsh branch had been sent out late yesterday were denied at the offices of the North Western here today. A crew was sent to Beaver, however, to pull several cars out of danger of a fire that appeared to be threatening.

Forest fires continued to rage here yesterday because of the high wind and when it was feared that the Birds Eye Veneer plant would be endangered by a fire in the thicket near the plant the fire department here was called for assistance. Fire Chief Arvid Johnson and Fireman William Bray went to the aid of the men and directed the work of fighting the blaze. Because no main has been laid to the plant, the fire could not be fought with water.

Confined to Plains So far as is known, the fires are largely confined to arvas of plains in the county.

A heavy pall of smoke hanging over the South Ford River and vicinity, about ten miles southwest of Escanaba, almost stopped automobiles from venturing farther. Several turned back, fearing to go through the dense smoke caused by fires in the vicinity.

A number of people were picking raspberries through that section of the country and not a few of them were forced to leave the more dense smoke area. Fanned by the high wind that did not lessen its velocity until about 5:30 o'clock yesterday afternoon, the fires continued to spread and for a while it was feared there would be no chance to check them.

Rain Sorely Needed. Everywhere it was pointed out that rain is needed in the next 48 hours to check considerable more destruction of timber and other property by forest fires.

Calls Brit Phone A 'Ghastly Joke'

London July 24—"A ghastly joke" is what Joseph Ralph, of Sansulito, Calif calls the English telephone system, in a letter to the Daily Telegraph. "I am absolutely mystified how a practical people like the British can tolerate for twenty-five minutes the pathetic travesty for a telephone service with which you are afflicted," he also says. He writes approvingly of American telephone facilities.

We've No Use for Thousands of Remnants—Have You?

What a Joy for the Women Folks Here This Week!

A chance at the accumulated Remnants of six months past and six busy months, too.

You know how deeply we slash prices on such occasions—right in half. Take for example, the reduction on black dress silk that sold at \$3.00 a yard, and get it at \$1.50. Everything is cut in two—here we are facing a great loss. But these are "Remnant Days," so we don't mind. We want to get rid of the odd lots and you want to own them—a happy state of affairs that will call crowds.

Final Clearance of

Summer Skirtings

Reduced Friday and Saturday
