GOVERNORS SEND MESSAGES FIRST DAY OF THE YEAR

Associated Press Given Messages and Greetings From Several of Executives.

Cox, Lowden and Harding Are Strong for Peace and Hope for More Happiness.

BY ASSOCIATED PRESS. COLUMBUS, O., Jan. 3. In a New Year's message, Governor James M. Cox of Ohio, democratic candidate for president, declares that parliamentarism has been making too high in this country.

The Governor's message, written for distribution thru The Associated Press, follows: The New Year holds much of opportunity for service.

It will endure if the people of the earth rise above prejudice, recognize that a changed order has established new social and national dependences, and devote themselves to the welfare of humanity in its organized forms.

Personally, I hope the New Year brings order in the world and that in America every person will give loyal support to governmental authority.

Gov. Frank O. Lowden, Illinois. More than anything else, I wish for the New Year that the American people may recapture the spirit which during the war made them united and invincible.

William M. Harding, retiring governor of Iowa, today addresses the following greeting to the people of Iowa: The Associated Press.

Gov. Brough of Arkansas. As the chief executive of the State of Arkansas, I feel that our State, despite the severe times of depression and the low price of our agricultural commodities has much to be thankful for.

Our people have exhibited generosity of their substance, and all activities are being carried on with a new vision and a new idealism.

Gov. Robert of Oklahoma. We should begin the New Year as an added opportunity for service to our country and a sympathetic understanding of its needs.

RUMORS FAIL TO JAR LOCAL FORD DEALER

L. K. Edwards Does Not Worry About Reports Shut-down of Plant.

"I Am Preparing to Take Care of Increased Business," Said Mr. Edwards Today.

The newspapers reports that have been current for the past week in regard to Ford activities or rather inactivity does not seem to worry the local dealer.

Mr. Edwards said this morning, "I am perfectly aware of the fact in regard to the Ford plant being closed. It is always closed for a couple of weeks sometime during the year to take an inventory and this year the work was undertaken in December."

"There has been a slump in automobile sales for the past six months or more and that will be very few sales during the winter months, especially in the Northern country," he said.

HARDINGS TO SELL THEIR OHIO HOME WHEN THEY LEAVE

It Is Claimed That if It Is Not Sold, It Will Be Rented For Long Term.

(By United Press)

MARION, Ohio, Jan. 3.—Strange feet may tread the famous front porch at 229 Marion avenue here after March 1, if present plans of the Harding family are carried out.

Having engaged a home on Pennsylvania avenue in Washington for the next year, they hope to dispose of their home in Marion and the brick house on Wyoming avenue in Washburn, where Harding lived during his term in the Senate.

President-elect Harding, however, has no intention of selling the Marion place, as this little newspaper made him several times his Senate salary last year. In fact, he is planning to erect a large, modern plant in the near future.

The Harding home in Marion probably will either be leased or sold in the next few weeks. The home was built in 1890 and is one of the finest in the city.

When the Hardings leave Marion, they will leave behind a large fortune. It is estimated that they will leave behind a fortune of \$1,000,000.

CHICAGO CLUB WILL OCCUPY MISLAUNO INN

Famous Island Now Owned by Wealthy Sportsmen; Exclusive Hunting and Fishing Club.

MARINETTE, Jan. 3.—The advantage of Marinette county with its great natural supply of lakes, rivers, streams and waterfalls, for outing and resort purposes, are being demonstrated on a large scale by the Chicago club, which is preparing the Mislauno Island club for occupancy next year.

This Menominee river and Mislauno creek island was equipped for resort purposes by the late John R. Walsh, a number of years ago, at a time when he expected the Wisconsin & Michigan railroad to be a most profitable venture. The island was lavishly built up. It never was properly developed as a resort and for the past seven years has been idle.

Big Crew at Work. A few years ago the property became the possession of Olaf Johnson, Dr. Sawbridge and William Winther, of Stephenson. They recently sold it to Chicago interests, who have organized the Chicago club and are preparing for next summer. The island has a number of buildings, the hotel proper being furnished elaborately. It was provided with a handsome Wisconsin & Michigan station, which now will be diverted to other uses.

MINGO COUNTY IN KENTUCKY IS BATTLE GROUND

Starting With Indian Warfare Trouble Has Been Rampant There for Many Years.

WILLIAMSON, W. Va., Jan. 3.—Since the early days when first settlers from Virginia fought their way to the western county against bands of hostile Indians, Mingo county, West Virginia, and Pike county, Kentucky, just across its border, have been almost continuous battle grounds.

Mingo county's fiercest struggle is between the coal operators and the miners, but after a series of outbreaks which attracted county wide attention, federal troops are maintaining order.

After the early settlers had disposed of the Indians the moonshiners took the field and for years fought and sometimes vanquished the hated revenue agents, protected as they often were against attack in the high hills section. Then came the famous Hatfield-McCoy feud of the early 80's and 90's, which resulted in the practical wiping out of the McCoy family and which caused two state governors to take a hand in its suppression.

These fights have caused all settlers to hark back to the day when the Hatfield clan, following the killing of one of their brothers, under the leadership of "Devil Anse" Hatfield swore what was known as the "Black Oath." The story is told that twenty members of the clan, kneeling around a camp fire in the hills of Mingo county, pledged themselves absolute destruction of the McCoy family. As a result men, women and children of the enemy clan found no mercy and the feud became known far and wide as one of the bloodiest in the history of the mountains.

HEALTH ADVICE

Conducted Under Direction of United States Public Health Service.

TREATMENT OF BURNS.

The pain following a burn is usually intense and is increased by exposure of the part to the air. Shock is usually present to a very marked degree. The pain and shock should be promptly treated. If a large surface has been burned, only a small portion should be exposed and dressed at a time. If the clothing sticks to the burn, moisten it with oil or water until it can be removed without using force. Exclude air by covering all of the burned surface with a paste made of water and baking soda, starch or flour. Fresh lard, any fresh oil or fat, creosote, vasoline or cold cream are also useful. Take a cloth or bandage, saturated with a thick coat of the above substances you have used on the burn, and cover the entire reddened surface with it. Then lay on the burned surface a thin layer of the same substance over the injury. Rub water in the strength of a teaspoonful of salt to a pint of water. Melted paraffin is one of the best applications, but it should be used only by a physician or other persons trained in its application.

CANCER.

Q. Is cancer hereditary?
A. All the evidence collected by years of painstaking investigation in deaths that it is not. Send your name and address to "Information Editor, U. S. Public Health Service, Washington, D. C." and ask for the bulletin on cancer issued by U. S. Public Health Service.

LESS MEAT IF BACK AND KIDNEYS HURT

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

MEDICAL MEN ARE ASKED TO ATTEND MEET JANUARY 13

Dr. Burton of the University of Ann Arbor Wants Co-operation of the Medical Profession.

BY ASSOCIATED PRESS

ANN ARBOR, Mich., Jan. 3.—All physicians and surgeons of the state have been asked by Dr. Marion LeRoy Burton, president of the University of Michigan, to come here January 13 for a conference with university officials regarding the new university hospital, now under construction, and that is expected to be ready for occupancy within the next two years.

The subject of the meeting, according to Dr. Burton and Dr. Christopher G. Parrall, director of the hospital, is to impress upon the men of medicine in Michigan the importance of the hospital to the people of the state. An effort will be made to prove that the hospital is not competing with physicians and surgeons in private practice. The cooperation of doctors in all parts of Michigan with the hospital staff is to be sought.

"With thousands of patients coming to the hospital from all parts of the state, it is important that the physicians and surgeons should be thoroughly in sympathy with the methods in vogue at the hospital," Dr. Burton said in issuing the invitations to the meeting.

The conference will take place at 2 o'clock in the afternoon.

COUNTY PAYS LARGE AMOUNT FOR BOUNTIES

Total of \$5,933.35 Paid Out by County Clerk for Killing Pests.

In Reading the List It Would Seem That Most Everything You Kill Has a Price.

Delta county has been set back this year to the extent of \$5,933.35 in payment of bounties upon the heads of the different animals and birds that are considered dangerous to the peace and lives of the people of the state of Michigan.

Wolves, of course, are at the top of the list. The bounty was \$25 the first part of the year and later raised to \$30. The wolves cost this county \$1,785 in 1920.

Rats with only a bounty of ten cents cost the county \$300, but this is small compared with \$350.00 which was paid to one rat catcher over at the home.

Woodchucks added \$1,814.50 to the expense and the bounty is only 50 cents a head. Weasels cost \$92. Sparrows at 2 cents a head counted up to \$18.90. Thirty-two members of the wise old owl family got caught and the county clerk had to pay 50 cents each for them. The hawk is said to be pretty foxy, but at 50 cents a head he cost the county \$301.50.

The common crow is worth 25 cents at the county house and he added to the expense by hitting it up for \$195.25. The Foxey fox contributed but 65 cents for his tribe at \$1.00 each.

OUCH! BACKACHE! RUB LUMBAGO OR STIFFNESS AWAY

Rub pain from back with small trial bottle of old "St. Jacobs Oil."

When your back is sore and lame or lumbago, sciatica or rheumatism has stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! The soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints!

DETROIT REACHES OUT FOR GREATER WHOLESALE TRADE

Wholesale Merchants Bureau Are Going After Business in Adjoining States.

DETROIT, Mich., Jan. 3.—An effort to make Detroit the wholesale center for all of Michigan and for those parts of Ohio, Indiana and Illinois that are nearest Detroit, will be made during the coming year by the Wholesale Merchants Bureau of the Detroit Board of Commerce, it is announced.

During the past year the bureau is declared to have overcome many difficulties that retarded development of wholesale business here. Chief of these improvements has been obtained by action of the railroads in establishing through-freight systems between Detroit and cities in the territory. By this means a thorough service is provided several days each week for the various points.

Retail merchants here have organized a bureau for protection against burglars, shoplifters and dishonest employees. A credit bureau later is to become a part of the organization, it is said.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking laxatives, or trying to patch up a poor digestion they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a heavy, listless feeling, no ambition, no energy, trouble with undigested food? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with sweet oil. You can know them by their olive color. They do the work without irritate, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 10c and 30c.

If Petroleum Were Wiped Out Today

If petroleum were wiped out today, factories would close their doors, agricultural machinery could no longer be made or operated, food could be raised only by primitive methods, and the transportation of food would be confined to horse power and water, for railroads could no longer run their trains, and before any adjustment could be made our great urban population would literally be starved to death.

The prosperity of all industrial nations is based upon petroleum.

The peak from which floats the flag that symbolizes the prosperity of the United States arises from a basic foundation of crude oil.

The underlying foundation of this prosperity is lubricating oil, for without this essential product of petroleum, the machinery of the world would stop and the world's reserve of lubricating oils, though vast in volume, would last but a few weeks at our present rate of consumption.

The next essential factor is kerosene and gasoline, for without the first, one half of the population of the world would be without light at night, and without the second, all types of internal combustion engines would be useless, and the automobile, tractor, truck, marine and aviation engine would be mere curiosities.

If lubricating oil, kerosene, and gasoline were available, but the hundreds of by-products made from the residue of petroleum were wiped out, many industries would be closed and unemployment general, for in nearly every industry one or more of these by-products are necessary in the manufacturing processes.

Thus is visualized by an extreme presentation—purely imaginative—of what might happen if petroleum, or any of its major derivatives, were wiped out over night. Also it shows the importance of the work the Standard Oil Company (Indiana) is doing in helping supply one of the basic, economic needs of the nation, and emphasizes the importance of the service the Company renders in promoting the comfort, health, and happiness of the individual citizen.

Big Advertising Fair Brings Out Bunch of Kings and Queens.

Take Pride in Winning Prizes and Mix With Others Who Are Attending Fair.

(BY ASSOCIATED PRESS)
LONDON, Jan. 3.—Two kings, four queens and two princesses lined up today just like ordinary citizens at the fountains where the prizes from the "Lucky Dip," a popular feature of the White City Advertising Exhibition, were handed out.

King George of England, amid much laughter, drew a sponge and a packet of cigarettes. He promptly offered the sponge to his guest King Christian of Denmark, who had drawn a diamond. Queen Alexandra of Greece, Queen Mary of England received a box of soap and a box of toilet cream. A silver case of soap went to the Queen of the Netherlands, a box of peppermint cream to Queen of Norway, Princess Mary's prize was a box of soap and Princess Alexandra a box of tooth powder.

All the royalists enjoyed the fun of the fair to a thoroughly democratic fashion, and laughingly stuffed their pockets with prizes.

An impressed style of typewriter at the fair. King of Denmark, "I wish you would use one," he said tentatively to her wife, who turned all her conversation on ordinary machines.

When King George was told that the fair's annual expenditure on advertising was close upon 100,000,000 the king said in amazement, "This is really very good for big industries. I didn't know it before."

By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. and for farmers and land holders, those of California and Washington will have before their legislatures important measures. An important Act of 1919, designed to place on an equal basis a husband and wife when it comes to the power of a woman to sue her husband, an extraordinary offense.

Measures correlated with this will come up in Connecticut, Massachusetts, and Nevada. Reorganization of state militia will be discussed in several states, including Delaware and four states expect to forward new public utility legislation, namely, Connecticut, Colorado, Maine and North Dakota.

Through 1926 movements for wage raises and fewer working hours, 233 of which culminated in strikes and four in lockouts, labor organizations making up the Swiss Trade Union League won wage increases totaling 70,785,623 francs and reduced their working hours 10,000,000 annually in 1921. Strikes and lockouts involved wage losses of 4,931,500 francs and payment of 1,289,816 francs in strike benefits. At present exchange rates a Swiss franc equals about 15 cents. In 1913 the last pre-war year, there were only 353 wage and hour movements in Switzerland.
