

MORE PARKS TO AID IN MAKING PEOPLE HAPPY

Iowa Leads in Providing Recreation Spots for Citizens.

Tourists Traveling Through Will Be Provided With Camping Sites and Conveniences.

(BY ASSOCIATED PRESS)

DES MOINES, Ia., Jan. 11—Unrest among the people can be stopped by the development of parks, particularly those being by the state, Richard L. Bland, governor of the Indiana department of conservation, told the nation at a conference on parks here today. He stated that the conditions in the cities are such that recreation for the people is a social safety valve on the city.

"The road leads to misery," Mr. Bland said. "In the city, misery is not only a result of the lack of recreation, but also of the lack of recreation spots for the workers."

"Travel has largely given way to the motor car, and the motor car has become a necessity for the modern man. It is necessary to provide the modern man with recreation spots for his leisure."

"All of us have seen automobiles in the highways, and we know that the automobile is a necessity for the modern man. It is necessary to provide the modern man with recreation spots for his leisure."

"Iowa has largely given way to the motor car, and the motor car has become a necessity for the modern man. It is necessary to provide the modern man with recreation spots for his leisure."

MINERS OPPOSE ANY WAGE CUT

Semi-Official Statement Made by International President of the Union.

"OPEN SHOP" IS DENOUNCED

Return to Prowar Wage Scales and Conditions Will Be Vigorously Fought — Labor Movement Confronted With Danger.

The United Mine Workers of America will not stand for any reduction in wages, according to the December issue of the United Mine Workers' Journal. This policy is stated in connection with a discussion of the movement among employers throughout the country for a reduction of wages in the various industries. In the article John L. Lewis, international president of the miners' union, is quoted as follows:

"Under no circumstances will we permit any reduction in the wages of the mine workers of the country. There is no going to be any return to prowar wage conditions. Any reduction in wages is an economic mistake. It will produce only more unemployment. What the mine workers have to do is to stand up for their wages and to continue to make progress instead of going backward."

"It is well known that there is in the country today a well-defined, high level of unemployment. This is the result of the open shop movement on the part of employers, opposed to trade unions to lower down the industry and reduce the workers to the open shop low wage system," the Journal says. "That is one of the greatest dangers that now confront the labor movement."

GENERAL LABOR NEWS

Logging camps and mills in northwestern Wisconsin and the Upper Michigan Peninsula have cut wages 10 per cent.

The University of Missouri Teachers' union, which was affiliated with the American Federation of Labor, has disbanded. It was announced.

It is expected that the 1920 census will show that one-third of all 181 years in the United States who are actually employed are women.

The opening of iron-ore facilities, which was contemplated in the steel industry, will be realized in a \$3,000,000 plant to be erected near Warren.

A national railroad strike has begun in Norway. It is reported that the other trade unions plan to strike in sympathy. Food is being distributed by cooperative stores and motor trucks.

Bristol, England, is to start at once the erection of 200 dwellings in an effort to revive the housing situation.

Now don't just say that is a good idea and let it go at that but come in with your dollar today, with the determination to buy a stamp regularly.

CONSTANCE'S HUSBAND

Constance Talmadge, the movie star, is pictured here with her husband, John Plalagou, wealthy New York importer. They eloped to Greenwich, Conn., after a courtship which began a year ago. They met at a social function in New York. Plalagou was born in Constantinople of Greek parents.

STATE NEWS

Dundee—A. D. T. & L. freight train derailed into the railroad station here and almost derailed it.

Callahan—Warning has been given by the postmaster that "spooners" caught in the corridor of the postoffice will be prosecuted.

Kalamazoo—Right Rev. Msgr. Thomas Dowd, rector, 58, of St. Raphael's parish, Alpena, died in New Haven hospital here, after a short illness.

Adrian—An increase of more than 20 per cent in the birth rate and a decline of 10 per cent in the death rate for 1920 over 1919 are reported in Adrian.

Marquette—After a dog's search for the body of Mack Saeed, 28 years old, a lumberjack, found hanging by a piece of hemlock from the canopy of a becomative.

Kalamazoo—There were 230 deaths reported in Kalamazoo County in 1920, one-fifth the number of marriages. Births increased from 1,134 in 1917, a gain of 20 per cent.

Benjamin—Robbers backed up a ditch at the door of Herman Katelus' house here and snatched away a safe weighing 280 pounds. Katelus said there was only \$25 in the safe.

Pontiac—More than 74,000 trout eggs have been shipped here from Grand Coteau, Canada, to be planted in Michigan streams for breeding with the domestic brook trout.

Corvallis—Joseph McDonald, an engineer formerly employed by the state has been appointed construction engineer of Shiawassee County by the board of supervisors at a salary of \$3,200.

Traverse City—Dr. G. A. Holliday has been elected commander of the Holliday Post, American Legion. The post was named after his son, Lieut. Harry Holliday, who was killed in France.

East Lansing—Injures made in draining large area of swamp land in Michigan will be reported at the third annual meeting of the Michigan Muck Farmers' Association, which opens here Feb. 1.

Grand Rapids—Three buildings in the center of the business district of S.W. a small village east of Grand Rapids, were burned at a loss of about \$10,000. For a time it was feared the town would be wiped out.

Menominee—John W. Ward, former city engineer of St. Johns, is under arrest in Astoria, Oregon, on a charge of bribery. Ward is said to have married a society woman in Seattle while having a wife in Michigan.

Kalamazoo—A proposition to create an office for a purchasing agent for Kalamazoo county is being given serious consideration by the supervisors. There is every indication that action of a favorable nature will be taken.

Iron Mountain—Four liquor law violators received jail sentences ranging from three to six months from Judge R. C. Flannigan of circuit court here. The sheriff was ordered to make the prisoners work hard whenever possible.

Muskegon—Peter Larson, 76, veteran employee of the wood yards of the Central Paper company, was killed while taking his first vacation in 18 years. Larson was deaf and while strolling about, was run down by a slowly moving switch engine.

Paw Paw—With officials searching for Charles P. Cox, missing highway engineer for whose arrest a warrant was issued on a charge of embezzlement and larceny, petitions are being circulated in Van Buren County asking the abolition of the present road system.

LOG CONTRACTS ARE CANCELLED BY COMPANIES

Ford Has Notified His Jobbers Not to Cut Any More Logs; Hauling Now in Full Swing.

(BY ASSOCIATED PRESS)

CRYSTAL FALLS, Mich.—Another annoyance has appeared to provoke the loggers of this section. Jobbers who have contracts with lumber manufacturers are receiving cancellation notices.

This is especially true of the jobbers with whom the Ford mills contracted. A gentleman connected with the Perch Creek Logging Co. was in Crystal Falls Thursday and he was very much disturbed because of the turn events had taken.

He stated that a representative of the Michigan Iron Land & Lumber Co. visited him and notified him to stop cutting, that any logs cut after the notification was given would not be taken on the contract.

He said that his greatest dilemma was due to the fact that he had a lot of work to finish up with whom he had contracts and many of whom had just got fairly well started after making a comparatively great outlay in preparations. He was afraid that these small jobbers will come back upon him in an effort to compel him to take timber that he is unable to dispose of.

Shipping in Progress

Many of the Ford jobs are being shipped to the mills at Iron Mountain and a crew is at work there unloading as fast as they arrive. Reports were to the effect that a total of 70,000,000 feet had been contracted for. With the early shutting off of cutting operations it is certain this amount will be shaved a whole lot.

While there isn't supposed to be any disposition on the part of other log buyers to cancel their contracts, there is no disposition to expand in any instance. Log buyers are more particular about stock this year than last year so that the life of a jobber isn't a bed of roses by any means.

The indications very for a fairly active shipping season along both the St. Paul and the North-Western roads a month ago and preparations to haul logs rapidly were being made.

It now looks as if there will not be the activity that was promised at that time.

If the weather turns cold for a week or so so that the ice can be thoroughly hauled up, the loggers, using ice roads will have exceptionally fine weather conditions. So far the conditions haven't been good.

Old timers are warning those who have logs in the woods to get them out before March month. One reason given for the warning is that the fog that encrusts the trees and the storms with frost so frequently this year indicates a short winter.

Most people think that we will have a reasonably long winter and are not scared by the weather prophets.

279 WORDS A MINUTE

Nathan Behrin

Nathan Behrin, official reporter of the New York County supreme court, can take shorthand faster than the average person can talk. He broke his own world record recently when he jotted down 279 words in a minute, during a contest held by the New York State Shorthand Reporters' Association. His previous record was 278, made in 1917.

Distant relatives seldom attend the funeral of a man who dies poor.

LAST CARRIERY OF THE SEASON IN MENOMINEE SAT.

Ann Arbor No. 5 Byings in Five Car Loads Machinery for the Hoskin-Morainville Paper Company.

MENOMINEE, Jan. 11—Ann Arbor No. 5 was in port Saturday, the last carryery of the season. The big carryery unloaded five carloads of machinery for the new mill of the Hoskin-Morainville Paper company which will speed up the completion of the new industry. Just one more carload of machinery is expected by the concern.

The No. 5 came by way of Sturgeon Bay and returned by way of Door. On both trips she signalled the light keepers at various points, including Green Island and the Door, that it was her last trip of the Ann Arbor for the season and the government lights will probably be extinguished for the season now, as no other craft are expected.

The bay and lake are still open and the Ann Arbor could easily equate trips but the company concluded their arrangements and these will be carried out.

HAWAII PRODUCES OWN MOTOR FUEL

HONOLULU, T. H., Jan. 11—(Correspondence of The Associated Press.) Within two years the Territory of Hawaii will produce enough motor fuel for its own needs, including the requirements of the army and navy forces here, should their bases of supply be cut off, according to Colonel Howard Hathaway, collector of internal revenue.

Commercial manufacture of fuel alcohol from sugar molasses has been made practicable on a large scale by amendments to internal revenue regulations governing the manufacture of denatured alcohol, Col. Hathaway said.

The store ads are printed in your interest—or they would represent wasted money for the merchant.

BELGIUM MAKING GOOD PROGRESS WITH ITS FARMS

(BY ASSOCIATED PRESS)

WASHINGTON, Jan. 11—Belgium is making good progress in rebuilding farms and rehabilitating its agricultural production. Reports from the American consul at Brussels show that at the end of the first nine months of 1920 more than 64,775 acres out of about 148,250 acres of war-wrecked soil had been put into condition for cultivation.

Since the signing of the armistice Belgium has put forward every possible effort to rebuild and intensify its agricultural industries. Assistance in many different ways have been given by the Belgian Department of Agriculture in order to encourage speedy reconstruction.

The total area under cultivation last year was a marked increase over the 1919 area and the number of farm animals has shown large increase.

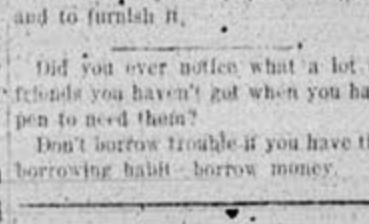

American Hospital in Constantinople

CONSTANTINOPLE—An American Hospital is to be established here to provide for several hundred patients without regard to race or creed, and will be staffed by American and Turk doctors, and nurses, it is announced. The decision to found the institution was reached by a committee comprising the ranking American naval officer, the president of the Constantinople College for Girls, the American Chamber of Commerce and the American relief agencies now operating in the Near East. The American Red Cross will help to equip the hospital and to furnish it.

Did you ever notice what a lot of friends you haven't got when you happen to need them?

Don't borrow trouble if you have the borrowing habit—borrow money.

GETS BIG JOB

Dr. Nora E. Dowell

Dr. Nora E. Dowell has been appointed assistant geologist of the U. S. Geological Survey—the first woman to hold such an office. Few women in the government hold jobs as big.

Some of the New York clothing manufacturers whose shops have been shut down pending negotiations with the Amalgamated Clothing Workers of America, will attempt to reopen upon an open-shop basis, it is said. A concerted open-shop movement by the manufacturers will follow. It was pointed out, unless demands made by the Clothing Manufacturers' Association of New York upon the Amalgamated are speedily adjusted.

Increases of 20 per cent in rates and 10 per cent in salaries to employees, effective December 1, were announced by the Postal Telegraph and Cable company through its secretary, William J. Deegan.

Pennsylvania's production of bituminous coal in 1920 fell from 151,000,280 tons to 137,668,999, although the number of persons employed in mining was 153,207 last year, against 151,455 the year before. The wages paid last year approximated \$196,924,700, against \$220,653,750 in 1918 and the average number of days worked was 703.

Many a small boy grows up to be a little big man.

THE ASSOCIATIVE SPIRIT
As you look over any American community it is amazing how universally the idea prevails of organizing the social forces of the people.

Old world towns also have social forces fairly well organized. But this spirit is more highly developed in this country than elsewhere.

It is astonishing what a group of people can achieve when they unite for a common end. Individually they have little social energy...

The mirror business ought to be very good now that a lot of new people have entered the city...

Some of these people who can't remember anything about their previous lives have a clear recollection of the things which they are making out of their heads.

It is not only in our own minds that our memories are being carefully stored, but probably because they are not at hand, it is inevitable that they are being stored in the minds of others.

According to reports from Matten, the "mirrors" seem to be disintegrating as rapidly as the folks that don't remember.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water
Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a rosy, clear skin and a natural, rosy, healthy complexion are assured only by pure blood.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening, and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds, and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of Limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and appreciable change in both health and appearance, awaiting those who practice internal sanitation.

BRITISH UNABLE TO GET LARGE A NAVY AS U. S. A.

Cannot Compete With This Country Building Battleships.

Newspapers in British Isles Are Crying Down Steps to Equal America.

LONDON, Jan. 11.—Any attempt by Great Britain to build a big navy in competition with the United States would be "absolutely disastrous," say some of the leading weekly periodicals of London, in commenting on the navy estimates for the current year.

The Spectator condemns the post-war reversion of "navalism" under the caption "The Naval Skin Game." "Against what should we be building?" it asks. "Either against America or Japan. We should not be building against both for an alliance between them against Great Britain is inconceivable."

"We want to say most emphatically that in our opinion a competition with America would be absolutely disastrous. We hope the nation will never consent to it."

Incidentally, the Saturday Review puts in a strong plea for the sale of the West Indies by Britain to America. In order to reduce British indebtedness to America, without sacrificing British trade interests.

The Shadow of the Sheltering Pines

By GRACE MILLER WHITE

A New Romance of the Storm Country

CHAPTER VI

"Tony" Swears an Oath. When Tom had bent over the bunk, she saw her mother's eyes were open. She smiled softly down upon her, sat on a stool and took one of the woman's thin hands in hers. "Where's your daddy?" murmured Mrs. Devon. "He's gone, mummy dear," breathed Tony. "I guess he thought some one was after him. You're feeling a lot better, huh, honey?" "Yes, but I'm thirsty, awful thirsty, baby dear."

The Mexican Embassy at Washington declares that United States bankers are ready to invest in Latin America not less than \$1,000,000,000 in banks and industries.

Why Keep Advertising

"Things are slow this time of the year; why should I advertise now?" is the question a man asked me one day last week.

That man has driven an automobile. He knows that you can't start an automobile on high. First, you get the engine going; then you "put her in low." When she's moving a little faster, you change her to second speed and finally, when the wheels are going round at a pretty good clip, you shift into high.

Some Mirror readers are just as anxious to buy your goods as you are to sell them. But they don't know about em. Tell them what you have got. Start it at once. Tell them facts in your advertisement every day and when they are buying—YOU'LL GET YOURS.

Escanaba Daily Mirror

To Organize Steel Workers.

The executive council of the American Federation of Labor dealt with further jurisdictional controversies and referred indirectly to the western Pennsylvania steel situation. One of the first moves in the preliminary campaign looking to the organization of the steel-workers will be a survey of the local legislation through which officials in western Pennsylvania cities, it is alleged, cooperate with the steel companies to discourage organization efforts by forbidding public meetings or demonstrations without permits.

Just as Scores of Escanaba People Have. Waiting doesn't pay. If you neglect kidney backache, urinary troubles will follow. Doan's Kidney Pills are for kidney backache, and for other kidney ills. Escanaba citizens endorse them. Ask your neighbor! Mrs. Mike Snyder, 1207 1st Ave. N., Escanaba, says: "Two years ago kid my trouble began to bother me and I surely was miserable with rheumatic pains. The pain would shoot all through my body at times. My ankles were so swollen at one time that I couldn't walk. I would get these pains when I would stoop over and it would be impossible to straighten. I was advised to try Doan's Kidney Pills and I got a few boxes at Gross' Drug Store. They cured me in a splendid way. Other members of my family have also used Doan's successfully." See at all dealers. Foster Milburn Co., Mfrs., Buffalo, N. Y.

The Following Letter Has Been Received by L. K. EDWARDS

December 29, 1920.

Several inquiries have recently come to us concerning the likelihood of another reduction in the price of our cars, and as these inquiries no doubt emanate from prospective purchasers, we want to state again with greater emphasis that Ford cars are already being sold at a figure actually below cost, and for an indefinite period another reduction or change in design is entirely out of the question and not at all contemplated.

We believe the public will be fair enough to fully appreciate the frankness of the above when they consider the extent of our recent price cut, which was, in fact, the equivalent of several reductions in one, in our desire to contribute toward satisfying their demands for lower living costs notwithstanding our sacrifice in marketing our cars at a loss until we are able to materially reduce present costs through lower material prices and greater manufacturing efficiency. While we have of course made some progress in bringing down operative costs, we still have a long way to go before any thought can be given to further reductions in car prices; so we have no hesitancy in making these open statements to acquaint you with the true situation.

You can therefore give assurance to prospective purchasers of Ford cars that now is their real opportunity to buy below cost and obtain delivery. Everyone is familiar with the heavy demand for Ford cars in the Spring, and this year will be no exception, as in spite of conditions, business is already rapidly accumulating, so that many who desire Ford cars will be obliged to wait perhaps until mid-summer for delivery, causing considerable inconvenience and possibly financial loss, particularly to commercial customers.

We expect you to protect the interests of prospective buyers in your community by placing these facts before them.

Yours very truly,

FORD MOTOR COMPANY

About the Town

Fred Soper and John Whiston arrived in the city yesterday from Pekin, Ill. They had been employed as foremen on the Peoria and Pekin Division of the C. & N. W. road. They reported that work on railroad lines in the Pekin district is very active.

A son was born to Mr. and Mrs. Edmund Lantieri at their home at Flat Rock Sunday.

C. E. LeRoy is an Escanaba visitor from Chicago.

D. A. Southerton has returned from a business visit in Boney Falls.

Mr. and Mrs. Ray Lewis of Lansing are the proud parents of a daughter, born last week. Mrs. Lewis was formerly Miss Leda Burley of this city.

J. Christensen of Stockholm is in town on business.

The Misses Florence and Edna Ambrose left Saturday for a visit in Rhine Center, Wis.

H. P. Frederick of Milwaukee is transacting business in the city.

Miss Anna Beauvais of Milwaukee has arrived in the city for a two month visit with relatives.

A son was born to Mr. and Mrs. Herbert S. Bennett of Schaefer at St. Francis hospital.

A son has been born to Mr. and Mrs. Lawrence Johnson of this city at St. Francis hospital.

The Misses Agnes O'Donnell and Vivian O'Donnell returned yesterday morning from a visit with friends at Alpena.

Miss Toth left for a visit to her parents in Milwaukee. She was accompanied by Mrs. P. M. Conroy who passed several days here.

Miss VanDusen arrived in the city from Detroit Sunday morning and will spend several days visiting at the home of her parents, Mr. and Mrs. Lynn VanDusen, 1115 Second Avenue South.

Henry Perrin left this morning for Montreal, Canada, where he will visit with his father, who is 105 years old. Henry Perrin, who is 70 years of age is the father of Alex Perrin and Mrs. C. N. O'Connell, both of this city. There will be a big family reunion in the Canadian city.

Edward Mussen and family of Milwaukee have just returned home after visiting at the home of his mother, Mrs. Anton Knabner of Kipling.

Mrs. Aileen Ferguson of Kipling was in the city on business today.

L. C. Stockbridge is an Escanaba business visitor from Milwaukee.

Mr. and Mrs. Peter Johnson are the proud parents of a son born Sunday at the St. Francis Hospital.

J. Lallemand of Marquette is visiting in the city.

Fred H. Mason of Chicago is an Escanaba business visitor.

Mrs. P. H. McCauley of Wilson spent the week end in the city.

R. H. Wells of Milwaukee is an Escanaba business visitor.

Lloyd Webster of Flint has returned to his home after a three weeks visit in town.

Ray McKinnon of St. Louis is transacting business in the city.

Miss Marjorie Johnson left last night to spend the week end in Milwaukee.

Miss Webb has returned to her home in Milwaukee after a weeks visit in town.

F. G. Fuller of Green Bay is in town on business.

David Gault has returned from a hunting trip in Pine Ridge.

W. J. Moore of Green Bay is an Escanaba business visitor.

Miss Pearl Gould has resigned her position at the Woolworth Store.

Miss Mable Johnson of Flint is visiting at the Johnson home in Rose St.

J. R. Schneider has returned to Milwaukee after spending several days in the city.

W. R. Harwood of Kaukauna, Wis. is in the city on business.

Mr. and Mrs. Frank Fay returned last night to their home in Chicago after a weeks visit in town with relatives.

Mr. and Mrs. Wallace Finch of So. Pekin, Ill. are guests at the home of Mrs. N. A. Ross.

GETS TWO YEARS

COUNTESS MARKIEWICZ
Countess Markiewicz, Irish Sinn Feiner, has been sentenced to two years' hard labor by a British court-martial, which found her guilty of "conspiracy to organize a seditious society"—a boys' Sinn Fein organization.

PRAGUE THE ENVY OF CENTRAL EUROPE

PRAGUE (By Mail)—Beautiful Prague is the envy of all Central Europe.

The Czechs have great factories, a highly educated population, a very efficient government and great nation of wealth in the form of mines, forests, and agriculture.

Their sugar crop, for example, will total 2,000,000 tons this year and there is a serious sugar shortage over most of the European continent.

Wherefore the starting towns of Vienna, Warsaw and Budapest think Prague is a luck town.

Although the fact that the Czechs are better off than the rest of their neighbors, everything is not exactly as it should be. There are plenty of things to work about from the point of view of Prague.

For example, the country must maintain a big army at huge expense, to curb any sudden warlike move on the part of Hungary and also guard the valuable Trochen coal basin from Polish aggression.

Furthermore there is a very trouble some job here keeping the 2,000,000 hundred percent Germans from taking trouble. The Germans bitterly resent Czech rule—a viewpoint the Czechs don't worry about in the least remembering the hundreds of years the Czechs were oppressed by the German Austrian rule.

President Masaryk, who happens to be the George Washington of this sturdy country, lives in a huge palace containing Prague, being only a few of the 800 rooms, while other portions of the palace buildings have been assigned to other families because of the housing shortage.

While the food supplies of Czechoslovakia are almost adequate for the support of the country, poor distribution causes much suffering, mainly in Slovakia and Ruthenia.

And there is not enough food in Bohemia, Moravia and Silesia, where 100,000 tons of oats and 100,000 tons of other foods will have to be brought outside the country this year.

Three years ago this hard working little country was part of the great Austro-Hungarian Monarchy, while German proprietors owned almost one-third of all the cultivated land and acted as benchmark of the Hapsburgs.

One of the first things the newly created Czech government did was to pass legislation that broke up these estates comprising 17,000 square miles.

The Czechs are depending on America for great supplies of cotton. There is also great need of hides and wool.

Everywhere in the country there is a lack of sympathy for the plight of Vienna, because the people cannot get the countries when Vienna fattened and grew rich at the expense of the Czechs, as well as the other smaller nationalities of that great Austrian empire.

However, the hatred against Vienna is subsiding somewhat. Dr. Benes, the Czech-Slovak foreign minister, has recommended renewing neighborly relations with Vienna in the not distant future.

BURTON TALKS TO TEACHERS

DETROIT, Mich., Jan. 11.—Dr. Marston LeRoy Burton, president of the University of Michigan, will be the chief speaker at the January institute of Detroit school teachers late this month. It was announced at the board of education offices here.

Dr. Burton will speak on "The Function of the High School."

A son has been born to Mr. and Mrs. A. L. Robinson of L'Anche. Mrs. Robinson was formerly Mrs. Whiston Cooper, of L'Anche.

ONE-COLOR FROCK

In a season when glittering metal cloths and scintillating, jeweled trimmings predominate, a simple, one-color frock like this has a definite charm. It is an evening gown of peach-tinted satin with white tulle draped across the back in great, outstanding bows whose ends slip under the narrow sat'n sash and travel down over the skirt, forming an irregular tunic. Artificial tulips caught to the girde at one side lend the note of emphasis.

MUCH TIME LOST RIDING TO WORK IN STREET CARS

Detroit Board of Commerce Sits Up Nights to Figure Out Time Spent Going to Work.

(BY ASSOCIATED PRESS)

DETROIT, Mich., Jan. 11.—The average Detroit citizen who rides to work and home again on street cars, if he began work when 20 years of age and continued until he was 60 would spend enough time in car riding during the 40 years to take a four year course in law at any University and have about 3,000 hours left, according to figures compiled by officials of the Detroit Board of Commerce.

The average Detroit citizen rides on the street cars at least one hour each day, in going to and from work, or six hours a week, according to official data. This means 200 hours a year, figuring out two weeks annually for vacation. In the course of 40 years he spends 12,000 hours in riding.

Four years are required to obtain a law education at the University of Michigan. Students spend on an average of not more than 10 hours a day five days a week, and about 10 months a year in this study, figuring 50 hours a week spent in study and class work and 15 weeks in a year, the student would consume 2,500 hours in four years at this rate.

Some workers in automobile factories here are said to spend as high as three or four hours a day in going to and returning from work each day. These are instances where men living in a remote part of the city work in a plant located in the outskirts of Detroit in an opposite corner of the municipality from that where the worker resides.

LOWER PRICES HIT GOVERNMENT INCOME

DETROIT, Mich., Jan. 11.—Although the public is benefiting by price reductions in Detroit and other cities of the state, Uncle Sam is apt to find his revenue cut in a marked degree from the price drops, in the opinion of federal sales tax collectors here.

The reduction in the price of soda water and ice cream at ice cream

parlors and drug stores will bring down the government revenue. It was pointed out. Drinks that formerly sold for 15 cents brought a two cent return to the government, the law providing a one cent tax for each cent purchase or fraction thereof. When the soda and ice cream prices were reduced to 10 cents here the government revenue was cut to one cent on each soda or dish of ice cream.

"ME FOR FLYING" SAYS FRENCH ACE

PARIS, Jan. 11.—Charles Nungesser, the French ace, who ranked second to Fonck as a successful military aviator during the war and who has been prominent at aerial meetings since the armistice, has decided to give up driving his automobile, saying it is too dangerous and expensive. Nungesser was racing thru Nonilly recently when he knocked down and killed a cyclist as a result of which the court ordered him to pay the widow of his victim \$20,000 francs for damages.

"I think I'll stick to my airplane hereafter," he told the judge. "If anything breaks there I'll be the one to suffer."

SNOW NEEDED TO PROTECT CROPS IN LOWER STATE

Roots Are Going to Suffer If They Are Not Protected With Snow Covering Very Soon.

(BY ASSOCIATED PRESS)

LANSING, Mich., Jan. 11.—Hope that snow will come to Michigan soon to protect the wheat and rye crops is expressed by Verne H. Church, agricultural statistician of the cooperative crop reporting service, in his semi-monthly report. Mr. Church does not believe these crops have been injured as yet. His report follows:

"It is not believed that the growing crop of wheat and rye has suffered any damage from freezing up to the first of January. The weather has been mild, with the exception of a few days, mild during the period the ground was covered with snow. However, the ground again is bare and alternate freezing and thawing undoubtedly will injure the roots unless snow comes soon.

The condition of live stock is normal or above normal. There is no epidemic of any kind. Feed is plentiful and the weather has been favorable. Retail meat prices are relatively high in comparison with the price paid to the farmer for his live stock."

BUGS DINE ON WOODEN HOMES

(BY ASSOCIATED PRESS)

HONOLULU, T. H., Jan. 11.—Construction of frame buildings in the territory of Hawaii is impracticable owing to ravages of insects, according to D. T. Fallaway, etymologyist of the board of commissioners of agriculture and forestry for the territory.

Quoting Japanese experts in Formosa, where similar conditions prevail, Fallaway said that iron and stone were the only positively safe materials to use.

MEETING OF THE HEALTH HEADS A GREAT BENEFIT

Ideas Exchanged at Meeting in Detroit Will Work to Advantage of Country.

(BY ASSOCIATED PRESS)

DETROIT, Mich., Jan. 11.—The national health conference held here Nov. 30 and Dec. 1, and attended by many health department heads from the larger cities of the country, will exert a marked influence upon the health of the nation as a whole, in the opinion of Dr. Henry F. Vaughan, health commissioner for Detroit, who was one of the leading figures at the meeting. Dr. Vaughan believes that the wide publicity given the meeting has focused the attention of the public in the homes and that better conditions will prevail in the larger cities as a result.

Speaking of hospice conditions in Detroit since economic conditions changed, Dr. Vaughan said reports to his office showed a large percentage of single men had left the city. He declared many of these men had room their removal had helped relieve congestion in certain quarters of Detroit. He expressed the opinion that health conditions here would improve gradually as a consequence.

BIG AIR STATION IS PROPOSED FOR HAWAIIAN ISLANDS

(BY ASSOCIATED PRESS)

HONOLULU, T. H., Jan. 11.—Plans for a million-dollar naval air station at Pearl Harbor, the navy's big base in Hawaiian waters, have been passed on by the navy and forwarded to Washington for final approval.

The outstanding feature of the navy's air plans for Hawaii, he said, is a proposal to maintain an air base here with machine power of enough to link Hawaii by air with the continental United States and the Far East.

Many Women Hold Office This Year

(BY ASSOCIATED PRESS)

DETROIT, Mich., Jan. 11.—With the advent of the new year, change was made in the personnel of various offices in the state and for the first time in Michigan history women are serving in elective positions. Two counties, Berrien and Ingham, elected women sheriffs while a number of others have women as register of deeds, constable clerks and treasurers and in other positions.

A woman, Mrs. Eva Hamilton, represents a Kent county district in the state senate. Two counties, Washtenaw and Macomb have women as party leaders. Five have appointments in Detroit.

Fillion Jumps Board Bill and Leaves City

(CONTINUED FROM PAGE ONE)

had left open, whereupon she claims she said that if she ever locked the door again when he left it open, he would lock it in. After the affair arrived, they held a conference with Fillion, according to Miss Roswell and they told her that he was on business and the door would have to be left open, one of the men transferring the cargo to the auto.

Some time ago Fillion docked at several Marquette people that he was working under orders from Washington and told them that he was working out of Chicago, to investigate Grove and his assistants, here. Fillion claims to hold affidavits charging Grove with negligence in releasing seized liquor from the federal building without proper authority, and other agents with participating in drunken parties while on duty. He secured over twenty affidavits by so representing himself.

A writ to the office of Frank D. Hebertson, supervising federal prohibition agent at Chicago, brought a return wire that Fillion's connection with the trees had ceased on December 18, and that if he represented himself further as a government agent, to have him arrested and held for charges of impersonating an officer.

Fillion appeared confident that warrants would be issued on the information given in the affidavits, but no such action has been taken.

Relations Strained
Relations between Fillion and other agents in the Marquette office had not been the best for several weeks. It is claimed friction arising on several occasions, and his dismissal under date of December 18 followed investigation by agents from the Chicago office, who alleged that independent on Fillion's part had been discovered. No word has been received as to his present whereabouts, but it is thought he may have gone to the Soo, where it is claimed, he was subpoenaed as a witness for federal court.

Upper Peninsula Jews On Outs With Fork

(CONTINUED FROM PAGE ONE)

The nature of this work is such a desire to make the facts known to the people. Other matters have of course been mentioned to it, but the nature of the present is fairly strong enough to support such an investigation as this.

The general attitude concerning with one critical. The Jew in Chicago and in business. In short, the anti-Jewish people to share have the Jew as prime in a struggle, how he gradually is taking a part of the money resources of the nation. The author estimates the number of Jews at 4,000,000.

In this country, this advent of Jews to develop the argument that there is a definite Jewish program which is Jewish domination of the world this time.

The articles mentioned are not only easily obtainable, ones to the Jew it is the case that follow up the Jew in previous determination that he has directed with the secret program of Russia and he spread himself the world. The last article of the series is entitled, Jewish Testimony in Favor of Bolshevism in which it is sought to point out that the Jews having gained political power of this state will endeavor to plan in advance the Jew's world.

Ford Owns the Paper

The "Herald Independent" is owned by Henry Ford. It isn't claimed that Ford owns the paper, but it is claimed that he is responsible for the publication of things that he didn't sanction them they wouldn't have appeared.

Such a series of articles, no matter how worthy the intention of the writer may be, cannot help but stir up animosity in the minds of those who read them against the Jew.

This naturally has led the Jew to hit back and just where the end will be no one can tell for both sides are well fortified with wealth and a constant should one come into a contact with others who do not sympathize with such an agitation.

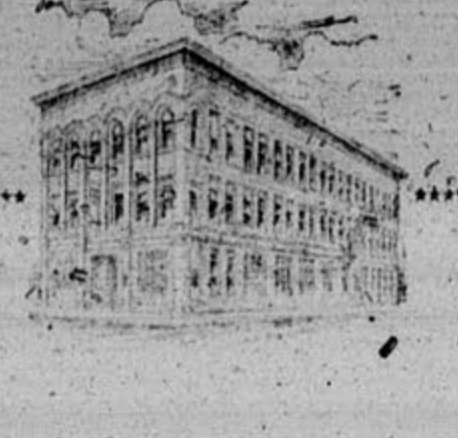

The Jews are striking at a vulnerable point when they attack Mr. Ford's business. It remains to be seen if this movement has any organized backing. If it has, a struggle of great intensity may ensue.

HIBBING CARPENTERS VOTE FOR WAGE CUT

HIBBING, Minn., What is to be an unprecedented action on the part of labor organization in Minnesota was taken last night when the Carpenters' union voluntarily voted a reduction of 10 cents an hour in the scale. The new rate, which will take effect on April 1, was announced.

The "High Cost of Living"—even of living thriftily—should have made all readers, ere this, of ALL householders. And it HAS made all readers of the wisest and most prudent of them.

German potato experts called January 4 for a conference with American business men looking for a revival of the potato trade.

Safety Convenience Accuracy

You get all three when you maintain a CHECKING ACCOUNT in this bank and pay your bills by check.

You get SAFETY because your money is always safe in the bank—it cannot be stolen, lost or destroyed. You get CONVENIENCE because your money, in the form of checks, is always available. You get ACCURACY because we do your bookkeeping for you.

Aren't these things worth while? Ninetyfive per cent of people think they are. That's why you should open a CHECKING ACCOUNT in this bank TODAY.

THE FIRST NATIONAL BANK
