STATE DEPARTMENT AWAITS WORD

GAS MIGHT BE SOLD AT LESS MONEY IN CITY

Experts Make Lengthy Report to Mayor On Their Findings.

The Present Price of \$2.25 Per Thousand Must Might Be Cut Down to Flat Two Dollars.

Mayor Joseph F. Dwyer yesterday received the report made by Fred R. Harris, chief engineer of the Public Utilities Commission of the state in which it is recommended that people of Escanaba might be getting their gas at the rate of \$2.00 per thousand feet instead of flat, which is now being charged.

A report was also made on the water plant—but the result of the investigation into the electrical department of the city will not be ready for some time yet owing to lack of instruments to be used in making necessary tests.

The investigation of the local utility was made by J. K. Pottigill who had years of experience in such matters, and his statements can be relied upon by the public as being almost 100 per cent correct.

The report, in part says:

"The Escanaba plant has a capacity of 20,000 cubic feet of gas daily but the average daily output is but 10,000 cubic feet, leaving facilities for a large increase in business. There are 475 miles of main, 1,200 consumers and ample opportunity for adding customers without a great drain of expense."

The original installation should have been a coal gas plant rather than water gas as local conditions could have made it possible to produce gas much more econmically from coal than from gas and oil.

The plates were not held deep enough to protect them from the freezing weather, if any which adds to the expense of distribution.

Although up to 50 pounds of solder and 1000 cubic feet of water used in each window could not be greater than 15 cents, it may result in excess of this amount and could reflect poor operation."

The first year's cost is approximately but too much of the advantage being gained, however, the quality of the gas and may save this expense. During the winter ending March 1, 1920, the plant used an average of 175 gallons of oil per 1000 feet of gas. This can be reduced to 25 cents. At a 12 cent price for oil, the saving would be 9 cents per 1000 feet. The city has no subcontractor but should have installed one long ago.

Generating labor is costing the city \$100 per 1000 feet and this figure is reasonable.

Better house labor is costing \$3.16 per 1000 feet so two cents less should do.

Meter reading labor is costing .035 per 1000 feet to take what it should cost. Two cents should be sufficient.

Repairs are costing .25 cents per 1000 feet. This is very reasonable but 5 cents should be sufficient.

Distribution costs are .05-.07 per 1000 feet. They are very reasonable but service can be improved materially if attention is paid to the distribution system.

The commercial cap rate is .1255 per 1000 feet. This is unreasonably high. A rate of .085 would be the maximum required. The reason for this is the employment of too many clerks in the collection and billing department. The entire force should and can be arranged so that at least the services of two of the present force can be dispensed with.

The general expense is .233 per 1000 feet.

Post Office Lobby Closes Nights Now

Conforming with an order sent out by the department Post Master John O'Meara today, announced that the main lobby at the post office would close between 4:30 and 6 o'clock every night and will remain closed until the following morning at 5 o'clock. A place to drop letters will be placed in a convenient place for those who are not able to mail letters early in the evening.

Ernest Dufrene has opened a short order cafe on Jenny street in the rear of 3201 Ludington street. He will make a specialty of chop suey both the Chinese and French style.

Specialist Comes to See Dr. Wm. Elliott Who Is Very Ill

Dr. A. Church of Anthony, in the vicinity of Chicago, arrived in Escanaba today for consultation with medical physician in the case of Dr. William Elliott, who has been seriously ill for many weeks. Gleeson, Elliott's son, who has been attending medical clinics in Chicago and a daughter Miss Myrtle who has been attending the Milwaukee Dowmeyer college came home this morning to be with their parents.

NEW GOVERNOR PUTS BAN UPON FLOGGING MEN

Issues Orders to Wardens that Under No Conditions Are Men to Be Flogged in Prison.

(CONTINUED FROM PAGE ONE)

One of the first orders issued by Governor Gageback was to the wardens of the Michigan prisons and it was to the effect that there was to be no more flogging in any of the state institutions. He said such practices are nothing more or less than relics of the dark ages and will not be tolerated by him.

A report was also made on the water plant—but the result of the investigation into the electrical department of the city will not be ready for some time yet owing to lack of instruments to be used in making necessary tests.

The investigation of the local utility was made by J. K. Pottigill who had years of experience in such matters, and his statements can be relied upon by the public as being almost 100 per cent correct.

especially the

THE WEATHER

For Escanaba and vicinity—Know and understand today's weather conditions.

The Canadian situation is now central over the Lake Superior and extends southward over the Lake region and central valleys where it has received precipitation to cause quite generally within the last four days, being in the form of snow in the northern districts and rain in the interior and southern sections. Pressure is quite low in the districts west of the Rocky Mountains.

Temperatures are generally somewhat higher in the southern portions of the Plains States and in the Mississippi Valley and all other sections to the east thereof.

Temperatures recorded are as follows:

7 a. m. Last Night

Denver 32 22

Escanaba 22 23

Green Bay 18 18

S. Ste. Marie 24 20

Winnipeg 2 7

ECONOMY WILL PREVAIL

ESCANABA MEN ARE FOUND GUILTY IN 500 U. S. COURT

It Took Jury About Ten Minutes to Decide Upon Case of McGuire and Beaudin.

John McGuire and Louis Beaudin, of Escanaba, were charged with aiding and abetting in the breaking and entering of a safe in the office of the Escanaba Daily Press on January 10, 1920. The jury was shown a photograph of the safe which was broken open and the door was found to be bent. It was shown that the safe contained \$1,000 in cash and \$1,000 in silver.

Charles N. P. Morrissey, attorney for McGuire, said he had no objection to the trial of the two men.

Attorney Riley said there were no conflicts of interest in the case.

Federal grand juries sat with a special array of 12 men and 5 women.

John McGuire and Louis Beaudin were found guilty of breaking and entering the woods. The two men, according to the trial, were A. J. Beaudin, 34, and John McGuire, 34, of Escanaba.

Both men were sentenced to 10 months in the federal penitentiary at Leavenworth, Kansas.

He pointed out that circumstances as shown up by some of the witnesses were against his boys, but he believes another trial will place the boys in a different light before the community.

Father stands firm.

John McGuire, who was confined to his bed in a member of his family, says he knows his boys are innocent of the crime which has been charged against them. However, he has the confidence in his sons that any father ought to have in their own sons and he is going to stand by every cent he has in the world to try to clear them from the stigma placed upon them.

OFFICIAL NOTICE SENT OUT BY THE CITY HEALTH DEPT

Dr. Defnet Says He Is Determined to Enforce Terms of the Health Order to the Letter.

Dr. H. J. Defnet, city health officer says to the community that it is going to be waited for the vaccination of every teacher and every student in the public schools, there will be no holding down. There is many cases enough now in the city and it would be very easy to allow it to spread during the winter.

Vaccination is not especially painful and has been proven to be a sure preventive of small pox. No expense will be incurred with the vaccination, unless people prefer to have their family physician perform the service. The following is a copy of the notice which has been sent to all schools by Dr. Defnet:

To the People of Escanaba:

On account of the prevalence of small pox epidemic in our city, the Department of Health has directed an immediate presentation and protection of the school index, especially all infants and children in the public and parochial schools of Escanaba, Keweenaw Peninsula. This is to insure that each of their students can exhibit sufficient evidence of vaccination or evidence of having had the disease.

The following is a copy of the notice which has been sent to all schools by Dr. Defnet:

CHARLES E. SAWYER

Will Dr. Charles E. Sawyer, close friend of President-elect Harding and for years his personal physician, be made an associate or a general after March 4? Sawyer's friends are wondering.

President Wilson used to say that he was his personal physician, and so it is.

It is said that at the time of the

declaration of war, Sawyer was

still in Europe, but he has

been home since the

beginning of December.

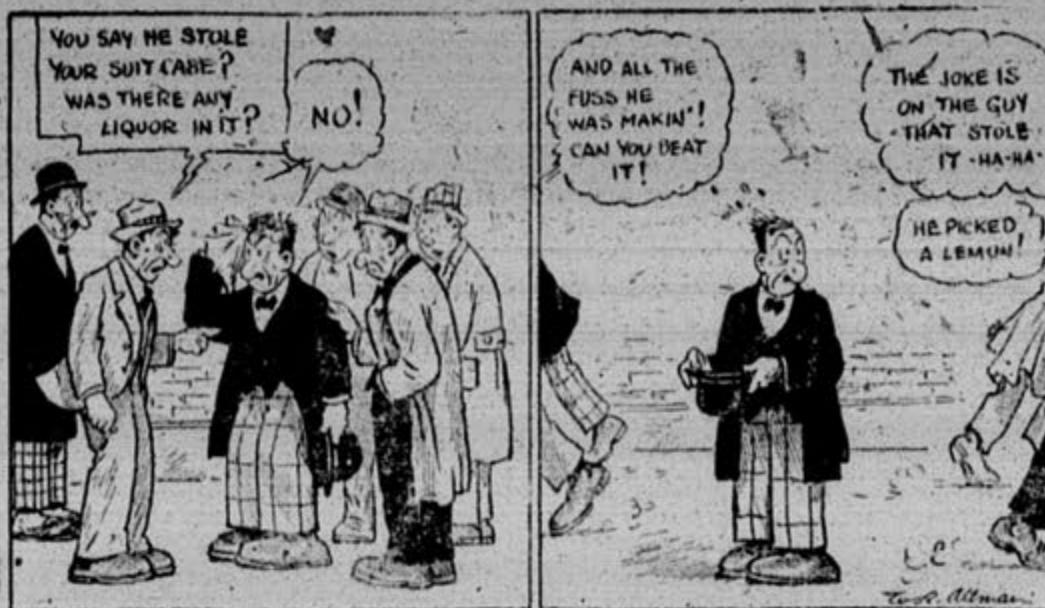

He has been staying in

London ever since.

Break Chest Colds With Red Peppers

Rub It on Congested, Aching Chest—Loosens Up that Tight Feeling at Once—Surely Brings Quickest Relief.

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings the quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

In three minutes the congested spot is warmed through and through. When you are suffering so you can hardly get about, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.

Hall's Auto Radiator Service

202 S. 10th St. Escanaba, Mich.

The Chamber of Deputies at Santiago, Chile, has approved the proposal reducing to \$5,000,000 in gold the amount of the proposed loan on behalf of the state railways.

The American Federation of Teachers is affiliated with the American Federation of Labor.

When heat penetrates tight, down into colds, congestion, aching muscles and sore, stiff joints, relief comes at once.

The ways have been found to relieve such concentrated penetrating heat as red-pepper. The moment you apply Red-Pepper Rub for colds, backache, sore muscles, stiff neck, lameness, or the pains of rheumatism or neuralgia, you feel the tingling heat.

In three minutes the congested spot is warmed through and through.

When you are suffering so you can hardly get about, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.

Nothing has such concentrated penetrating heat as red-pepper. The moment you apply Red-Pepper Rub for colds, backache, sore muscles, stiff neck, lameness, or the pains of rheumatism or neuralgia, you feel the tingling heat.

THRIFT WEEK

The National Thrift Week Committee
has set the week January 17-23
to be observed as Thrift Week. Here
is a comic that is fit for every man,
woman, and child here in Escanaba
and everywhere else.

The financial difficulties from which
the country now suffers have occurred
largely because thrift was not more
generally practised. The capital re-
serves of the country which are paid
up by the savings of the people have
proved insufficient to float the coun-
try's burdens. Now if prosperity is
to be maintained, the people must
learn to save enough so that business
can be helped.

Thrifty work should be observed in
every school. Thrifty habit is an
essential in education. Every school
child should be taught to have his
own little saving account, to while
he is making regular additions.

In some places thrifty campaign
have been successfully conducted
among factory workers, with oval box
that such employees are frequently
made from their pay to establish bank
accounts. Where this is done, no
money are large sums made available
for business investment, but the work
ers become better citizens, and feel
they are sharing in the business ad-
vance of the community.

It would pay the banks to make
more interest campaign for deposits.
All other kinds of business use some
of solicitation to attract attention.
Banking houses that make free use
of newspaper advertising, feel that it
is interesting many spenders in the
thrift idea. There is abundant
prosperity in the country to provide
the capital needed, but it can't
be collected so long as people put
money into luxuries instead of into
permanent equipment.

THE VASTNESS OF SPACE
It makes a human being feel that
the most insignificant insect, to be
told that the star, Belvedere, in the
familiar constellation of Orion, has
recently been measured by a new sys-
tem of astronomical calculation and is
found to have a diameter of 400,000,
000 miles. This is about 37,000 times
as large as the Earth.

In spite of facts like these showing
the awesome vastness of the universe,
you have a vivid realization of the
power that keeps all this tremendous
system in motion. It makes one feel
that the universe is a place of brief
and regulated activity, and that if
things were conform to the laws of
its being, it will pass thru existence
as safely and quickly as those swinging
spheres.

PROTECTING THE UNIFORM
While the majority of veterans of
the war have treasured their uniforms
some had been thru such difficult ex-
periences that they gave away their
army clothes, never wishing to see
them again. Some of these uniforms
thus now worn by men who never
served in the army and whose conduct
brings discredit on the organization.
This uniform fits the symbol of patri-
otic service, and it should not be cheap-
ened.

The Department of Justice has given
instructions how far such army
clothing can be worn without violation
of law. Those who use its distinctive
features without right to do so, affront those who offered their all
to support the ideals for which the
uniform stands.

According to estimates, the con-
struction cost of the new Parliament
buildings at Winnipeg, Saskatchewan,
will not be more than \$6,500,000. The
cost of the building when completed,
including grounds, decorative work
etc., will amount to approximately
\$8,000,000. The annual charge to the
Province for interest and upkeep will
amount to \$600,000.

Systematic study of the Ads
always makes for intelligent
buying—not for mere penny
saving, but for value-finding.

OUTBURSTS OF EVERETT TRUE By Condo

—AND IT'S JUST ONE THING AFTER ANOTHER LIKE THAT! FOR INSTANCE FOUR NIGHTS LAST WEEK I INVITED A DOZEN OF MY LADY FRIENDS IN FOR A GOOD TIME AND IT MADE HIM IRRITABLE AND HE WENT OUT SOMEWHERE AND DIDN'T COME BACK TILL THEY HAD GONE. HE SAID HE COULDN'T STAND OUR "EMPTY CHATTER" AND THIS MORNING I SAYS TO HIM, I SAYS, "JIM, I'M ON THE VERGE OF A NERVOUS COLLAPSE AND—"

RENTING OF FARMS ON INCREASE HERE

Lack of Adequate Credits Said
to Be Cause of Renting.
Uniform Co-operation
Is Needed.

BY ASSOCIATED PRESS:

LANSING, Mich., Jan. 14.—Fewer
of farms rented in Michigan have
increased two per cent in the last
ten years according to a survey of
forty counties, embracing 32,561
farmers, made by the Michigan Farm
Bureau.

Rented farms totalled 5,637 in the
forty counties. Farms operated by own-
ers totalled 32,924. The tendency to-
ward the increased renting of farm
land has been on a fairly steady in-
crease for the last 50 years. In 1880
only 10 per cent of Michigan farms
were rented, according to the United
States census.

State Farm Bureau officials believe
that probably the greatest cause for
the increase in rented land is the
lack of adequate long term rural
credit that would enable the farmers
to buy property without taking on an
immediate heavy burden of financial
obligations. Other reasons cited by
the farm bureau for an increasing
number of renters are the lack of ini-
tial cooperative method that would
take the extreme elements of chance
out of farming, the greater desirability
of the comforts of the larger city
and the disproportionate raise in price
of country real estate as compared
with the raise in crop values.

Estimates in 18 of the counties show
that renting was increasing in six
centuries the situation was unchanged
and in six others the percentage of
rented farms was judged to be some-
what smaller. The counties surveyed
were well scattered over the entire state.

Results of this survey, combined
with the recent United States census
report that 57 Michigan counties had
lost population in the last ten years,
minishes the state farm bureau. Its
officials assert that the state's bus-
iness needs attention. The sur-
vey was made during November and
December.

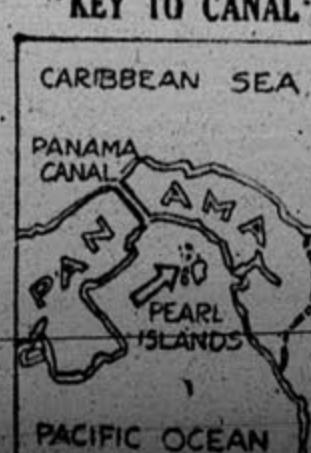

**War Record Used
to Build New Guard**

BY ASSOCIATED PRESS:

DETROIT, Mich., Jan. 14.—The reg-
iment during the war in the Thirty-
second division, composed of Michi-
gan and Wisconsin men, is being ex-
ploited in an effort to obtain recruits
to the new national guard by Sergeant
A. J. Merrick in charge of recruiting
for the guard in Detroit. Sergeant
Merrick has written an article pointing
out the fame won by the division
and citing the fact that the division
was made up largely of members of
the old national guards of the two states
who spent years in preparation dur-
ing times of peace to fit themselves
for war.

The achievements of the division
should act as a spur to recruiting for
the guard organization, now recogniz-
ed in Washington as the nucleus for
an American army," the sergeant said.

Many congressmen favor the
purchase by Uncle Sam of the 12
Pearl Islands, key to the Pacific
and the world's commerce.

GROWERS WANT TO RAISE THE PRICE OF RAW TOBACCO

Movement to Force Tobacco
Prices Higher Is Again Re-
newed with Increased
Vigor.

BY ASSOCIATED PRESS:

LEXINGTON, Ky., Jan. 14.—Although
a cent of 1921 for the forcing
tobacco prices to a higher level, in
Kentucky probably is more general
than ever before, tobacco over tobacco
is nothing new. Efforts to cut
the crop because of low prices
have taken place periodically for the
last thirteen years, resulting in 1908
in what amounted to virtually a war
between growers who did not plant
and those who did.

These tobacco beds were burned
farmer-hopped and some instances
killed and a general reign of terror
was brought on. State troops were
called in with the situation and the
trouble died down until when Gov.
A. E. Willson issued a proclamation
saying that the killing of the night rider
would be followed by an immediate
pardon for the slayer. There
were no sales of tobacco last year
in any of the principal markets of the
tobacco belt other in the cigarette
tobacco section of Central Kentucky
or the "Black Patch" or black burley
section of West Virginia.

INDIAN STUDENTS PLAN BOYCOTT ON BRITISH SCHOOLS

Children Being Withdrawn
From All Educational In-
stitutions Supported
by British Gov't.

BY ASSOCIATED PRESS:

NEW YORK, Jan. 14.—According to
advise received by the India Informa-
tion Bureau, the movement for non-
cooperation with the British govern-
ment in India is being developed in
the boycott of government-supported
colleges and schools. The withdrawal
of children from all educational insti-
tutions which receive government sup-
port was one of the planks in the Boy-
cott platform formulated by M. K.
Gandhi, native leader, and accepted
by the country at the special session of
the Indian National Congress in
September last. To date several Indian
colleges have declared them-
selves in sympathy with Gandhi's move-
ment and students have abandoned
their classes and set up new colleges.

In Ahmedabad, under the chair-
manship of Gandhi, a National College
was recently opened. The inaugural
ceremony was attended by over 3,000
parents and students.

The student movement is not spor-
adic and fleeting, according to the in-
formation reaching the India Bureau,
but rather a serious attempt at estab-
lishing a new national educational
system. To consider further the stu-
dents of the student body in India at
the present time of national crisis
a conference of college students from
all over India has been announced.
The appeal which has been issued relative
to this conference declares that
"it is now high time that the students
should assert their corporate exist-
ence and decide together the line of
action that may be desirable in the best
interests of the country."

In the wake of the new movement
has come considerable apprehension
on the part of the government, follow-
ed by measures of repression, as in 1919,
the India Bureau is informed.
Two editors of the Punjab have been
arrested, one already convicted. Fol-
lowing the arrests, demonstrations of
sympathy took place in Lahore and
Amritsar, principal cities of the Pan-
jab, and at public meetings held in
these cities resolutions were passed
congratulating the editors and expressing
sympathy for them. A partial
(cessation of business) is also report-
ed to have taken place in both cities.
In Calcutta about 450 students of the
Madrasat College went out
on strike as a protest against the
conviction of one of the editors.

Canal traffic in New York state for
1920 increased 15 per cent over the
preceding year, according to the an-
nual report of Superintendent of Pub-
lic Works. The total for 1920 was
1,421,314 tons, an increase of 182,590
tons over 1919.

How would You Like to Be Tax Collector

BY ASSOCIATED PRESS:

PITTSBURGH, Jan. 14.—So many
Pittsburgh women are taxpayers and
so many of them carry their money in
their stocking that Joseph G. Arm-
strong, county treasurer, has arranged
a room adjacent to the cashier's
office where they may retire, re-
trieve the bills from their hiding place
and then make settlement with the
county.

The practice of women carrying
money in their stockings received a
technological impetus during the recent
epidemic of robberies in the shopping
district when C. R. Pritchard, director
of public safety advised them to dis-
card pocketbooks and bags and use
their stockings.

pation. Take one or two nightly and note the pleasing results.

Tilbert's Café

Home of the Best and Cheapest Food in This Section of the Country

We have reduced the prices on food since the first of the year.

We serve the public at the same prices as few years ago.

We are equipped with the best cooks.

We are fortunate in securing the services of Mr. Hamm who was in the employ of C. & N. W. as head dining car chef for 10 years and we know he will please all whom he serves.

We serve home-made pies, cakes, doughnuts, rolls, breads, baked in our kitchen by Maggie Pearson. Martha Washington waffles with pure maple syrup, made in the window.

At the low prices of our meals, you cannot afford to eat at home.

Try Us--You Will Like It.

Detroit Soldiers Who Died in France to Be Given Military Burial

BY ASSOCIATED PRESS

LONDON, Jan. 14.—The bodies of 10 Detroit men who were members of the 1st "Arrow" division and who died on the battlefields in France will be given a military burial when returned here, according to announcement by field officers of the division. Eight bodies of their "Arrow" comates already have been recovered here and have been given military burials. It is explained that perhaps the men have

additional bodies now to be received in Detroit. Wherever possible, pall bearers are being chosen from among the members of the company of which the dead soldier was a part. A firing squad composed of regular army soldiers from Fort Wayne here fires a volley over the grave. Large numbers of Red Arrow, or Thirty-second division men, are attending the funerals of their former comrades.

You may use the same shrewdness and timeliness in buying from a merchant that he uses in buying from the manufacturer or wholesaler—if you read the Ads.

About the Town

Mrs. Paul S. Kirk and daughter Neilia were called to Kenosha, Wis., last night for the serious illness of Mrs. Kirk's father, who is not expected to live.

Miss Lynn of Bark River is visiting Escanaba.

Miss Dorothy Peart of Gladstone visited the city yesterday.

Miss Patricia Kold, 17, visiting in town.

Debbie, 18, a girl, is in Iron River on business.

Charles Chisholm left yesterday for Chicago, where he has taken a position with the C. & N. W.

Miss Viola Macomber of Oconto visited in the city yesterday.

Ben Hart left last night for Detroit after spending the holiday weeks with relatives in the city.

Elmer Roberts and Robert Rehlin continue vacation from a visit in Macinette.

Miss Bobbie Hodgson arrived today from Iron Mountain to visit Miss Mary Garetz Center of this city.

Mrs. John H. Lee returned to Atlanta after visiting in the city for several days.

Mrs. Edna Hartman will return Sunday from Chicago where she has been spending the week with her brother.

Miss T. W. McNaugh left yesterday for a visit in Green Bay.

George Eustis of Appleton, Wis., transacting business in town.

Joseph Hoffman has remained to care for a visit in the city.

Osmer Johnson left this morning for a visit in Brampton.

William Kuhn of Oshkosh is a business visitor in Escanaba.

W. J. McCleary of Norway is visiting in town.

Mrs. Ruth Parker has been called to answer on account of the serious illness of her mother.

R. J. Hathaway of Norway is visiting in the city.

George Hoffman has returned to the city after a visit at Stevens Point, Wis.

John Trotter returned yesterday from a business visit in Keganske.

H. M. Bowes of Norway is visiting in Escanaba.

George Morris, of Houghton, is in the city on a business mission.

David Russel arrived in the city from Fond du Lac yesterday to visit his parents.

Arcil Maginnigan has returned from Milwaukee, where he spent five non-days with friends and relatives.

A. Lundberg of Cornell spent yesterday in the city.

G. T. Sulivan of Marquette is an Escanaba business visitor.

John Manning returned yesterday from Ypsilanti where he attended the funeral of C. H. Williams.

Miss Lottie Froehle of Back Bay visited in the city yesterday.

Miss Ora Faule who has been confined to her home in S. 18th St. is reported to have recovered.

L. S. Merrin of Chicago is in Escanaba on a business mission.

Miss Jessie Nadeau of Nadeau is visiting in town.

John Manning returned yesterday from Ypsilanti where he attended the funeral of C. H. Williams.

No figures were made public after the "run" had been stemmed, but it was estimated unofficially that close to half a million dollars in cash were deposited by business men and others who have seen a general panic in the tobacco belt of Kentucky under the institution were saved. The example of business men pouring their cash into the bank coffers finally had the effect of voicing the confidence of the frightened depositors.

There Are Other Escanaba People Similarly Situated.

BY ASSOCIATED PRESS

LONDON, Jan. 14.—The tide of emigration or considerable numbers from England in the hope of finding suitable "Hillside Jacks" for England in the United States, according to Sir Arthur, Chancellor of Scotland. His comments on England's marriageable women who may never marry before the National Birth Rate Commission some time ago were widely discussed in the British press.

Government figures show there is a surplus of a million women in England whose only hope of marrying depends on their migrating to some part of the earth where there is more even distribution of the sex. According to Miss March they are doing it. She says she is receiving letters from America that are significant of the loneliness of some married lives.

WOMAN KNOWN HERE SENATOR'S MOTHER SHARES IN ESTATE OF PASSED AWAY LAST LATE HORACE DODGE SUNDAY, NEWAYGO

Mary Estlander widow and partial heir, who left in widow of the Senator's Mother Club will be present to know that Mrs. Delphine Dodge, widow of sister of late Horace Dodge, was interred remunerated in the will of the deceased which had just been filed for probate in the probate court of Wayne County. Mrs. Aspinwall is one of the foremost women in the state and visited her son, Dr. Lemire, yesterday, to attend the funeral of his mother who was buried in that city yesterday. When Dr. Lemire went to Lansing the first of the year he gave over to Newaygo, the home of his mother, and at that time had condition was serious. A year or more ago she suffered a stroke of paralysis from which she did not recover.

Dr. W. A. Lemire returned last night from Houghton where he went to attend the funeral of his mother who was buried in that city yesterday. When Dr. Lemire went to Lansing the first of the year he gave over to Newaygo, the home of his mother, and at that time had condition was serious. A year or more ago she suffered a stroke of paralysis from which she did not recover.

Mrs. Delphine Dodge, the deceased, was 70 years of age and up to the time of the stroke was in the best of health. The family formerly made their home at Chassel and a lot was purchased in the Houghton cemetery. In addition to her husband Mrs. Lemire is survived by several grown up sons and daughters.

MAPLE RIDGE GETS ACQUAINTED WITH INDUSTRIAL PLAN

(Communicated)
Maple Ridge enjoyed its first Community audit luncheon this afternoon. Father, mother and the kids were there, as well as the young folks of the town.

The meeting was arranged and carried out jointly by the Upper Peninsula Industrial Relations Association and interested people of the town, the hall being furnished by Larson Bros., the advertising and other arrangements handled by Mr. Johnson, manager of the local factory.

The Industrial Relations Association furnished three reels of motion pictures one showing the treatment of wounded soldiers Fort Sheridan, another on the Cincinnati Zoo and one comedy film. A Delco portable battery furnished the power for the movies.

Following the pictures Mr. H. H. Hughes explained the plan and purpose of Community centers in this district. Mr. P. H. Long a local teacher led the school children in a special song and Mr. E. M. Ross led the community singing.

Following the formal program a local orchestra of five pieces played for a few modern dances and a two set square dance which was called by Mr. Ben Larson. Following are the names of those who played in the orchestra: Mr. G. E. Weingartner, cornet; Miss Ross Leckie and Miss Larson, piano; Richard Burkhardt, saxophone; Stephen Rabidoux, trombone; Henry Burkhardt violin.

STATE DEPARTMENT AWAITS WORD

GAS MIGHT BE SOLD AT LESS MONEY IN CITY

Experts Make Lengthy Report to Mayor On Their Findings.

The Present Price of \$2.25 Per Thousand Mbtu Might Be Cut Down to Flat Two Dollars.

Mayor Joseph E. Pivat, yesterday received the report made by Fred H. Harris, chief engineer of the Public Utilities Commission of the state in which it is desired that the people of Escanaba might be getting their gas at the rate of 20¢ per thousand cu. ft. instead of 25¢ which is now being charged.

A report was also made on the gas plant but the result of the investigation into the electrical department of the city will not be ready for some time yet owing to lack of instruments to be used in making necessary tests.

The investigation of the local utilities was made by J. R. Pugh who had years of experience in such matters and his statements can be relied upon by the public as being almost 100 per cent correct.

The report, in part, says:

The Escanaba plant has a capacity of 300,000 cubic feet of gas daily and the average daily output is but 160,000 cubic feet, leaving capacity for a large increase in business. There are 175 miles of mains, 1,282 consumers and ample opportunity for adding customers without a great deal of expense.

The original installation should have been a coal gas plant rather than water gas as local conditions would have made it possible to produce gas more economically from coal than from coke and oil.

The main will not last long if it is to go from year to year which adds to the expense of production.

Although 25¢ per unit of heated fuel per hour can still be had by heating the boiler, and that is great, even 17¢ would be good in view of the fact that it would add to other power companies.

The price paid for oil is reasonable but the major of this substance is being used to increase the quality of gas and increasing the expense. During the year ending March 1, 1920, the plant used an average of 175 gallons of oil per day, or 1¢ per gallon. This was reduced to 2 gallons. At 12 cents per gallon, the saving is 9 cents per day or 32¢ per day. The city has no exhaust meter but should save installed oil 10¢ per day.

Generator losses are costing the city \$611 per month and this figure is reasonable.

Boiler house labor is costing \$346 per 1,000 feet of steam which it should cost.

Miscellaneous labor is costing .62¢ per 1,000 feet or twice what it should cost. Two cents should be sufficient.

Repairs are costing .56¢ per 1,000 feet. This is not unreasonable but amounts should be sufficient.

Distribution costs are .50¢ per 1,000 feet. This is very reasonable but services can be improved materially if attention is paid to the distribution system.

The commercial expense is .625¢ per 1,000 feet. This is unreasonably high. A cost of 1¢ would be the maximum required. The reason for this is the employment of too many clerks in the collection and billing department. The office force should and can be arranged so that at least the services of two of the present force can be dispensed with.

The general expense is .625¢ per 1,000 feet.

Post Office Lobby Closes Nights Now

Conforming with an order sent out by the department Post Master John O'Bryan today announced that the main lobby of the post office would be closed forever at 10 o'clock every night and will remain closed until the following morning at 6 o'clock. A place to drop letters will be placed in a convenient place for those who are not able to mail letters early in the evening.

Ernest Dutrois has opened a short order cafe on Main street in the rear of 1201 Lexington street. He will make a specialty of soups, both the Chinese and French style.

Specialist Comes to See Dr. Wm. Elliott Who Is Very Ill

In a Church of North India Ursuline nuns arrived in Escanaba today for consultation with their physician in the case of Dr. William Elliott, who has been seriously ill for many weeks. Gilbert Elliott's son, who has been attending medical college in Chicago and a daughter Mrs. Myrtle, who has been attending the Milwaukee Dauner college came home this morning to be with their parents.

NEW GOVERNOR PUTS BAN UPON FLOGGING MEN

Issues Orders to Wardens that Under No Conditions Are Men to Be Flogged in Prison.

CONTINUED FROM PAGE ONE

One of the first orders issued by Governor Grossbeck was to the warden of the Michigan prisons and it was to the effect that there was to be no more flogging in any of the state institutions. He said such practices are nothing more or less than relics of the dark ages and will not be tolerated by him.

BROKEN PLATE GLASS VALUED AT OVER \$1500

Windows Replaced Last Week Cost Insurance Companies and Others Large Sum of Money.

One day last week John S. Lindsey, the head contractor had a crew of men at work at different points on Lexington street replacing several windows, broken by robbers during the winter. Most of them, however, were the large plates knocked out in order to rob the display windows.

The round figures, says the contractor, the total cost of the glass replaced that day amounted to the sum of over \$1000. He also stated that the price of plate glass has shown a considerable alusion in the last thirty days and that the next campaign of window smashing is not going to cost so much money.

AMERICAN LEGION MEETING TONIGHT

There will be a meeting of all members of the American Legion at 8:30 p.m. auditorium at 10:30 this evening. Matters of vital importance to every previous service man are to be discussed and acted upon.

Every man who saw service in the world war is urged to attend the meeting and become a Legion member. The annual dues, which includes a yearly subscription to the American Legion weekly are but two dollars.

A banquet will be served by some of the ladies interested in the work of the Legion and everyone present will be assured of a good time.

THE WEATHER

For Escanaba and vicinity—Snow and cold tonight. To-day partly cloudy.

The Canadian depression is now central over the Lake Superior and extends southward over the Lake region and central valleys where it has caused precipitation to occur quite generally within the last forty-four hours being in the form of snow in the northern districts and rain in the interior and southern sections. Pressure is also quite low in the districts west of the Rocky Mountains.

Temperatures are generally some what higher in the southern portion of the Plains States and in the Mississippi Valley and all other sections to the east thereof.

Temperatures recorded are as follows:

Denver	32	22
Escanaba	32	22
Green Bay	18	18
S. Ste. Marie	24	20
Winnipeg	2	2

ESCANABA MEN ARE FOUND GUILTY IN SOO U. S. COURT

It Took Jury About Ten Minutes to Decide Upon Case of McGuire and Beaudin.

John McGuire and Leslie Beaudin of Escanaba have pleaded guilty to the charge of violating the禁酒令.

Charles McIntyre, of Ford River was charged with being a public nuisance and obstructing justice yesterday, but he failed to convict on the part of the Soo U. S. government.

McGuire and Beaudin were indicted for violating the禁酒令.

Attorney Riley says there are many conflicting statements in the testimony given in the trial, he feels that the verdict of the jury should be reversed.

Father Stands Firm

John McGuire, who was sentenced to life imprisonment for robbing a bank, says he is innocent of the crime which has been charged against him. He says he has the confidence in his sons that any talk of death to have their own flesh and blood and he is going to spend every cent he has in the world to try to clear them from the stigma placed upon them.

He admits that circumstances, as shown up by some of the witness, were against his sons, but he believes another trial will place the boys in a different light before the community.

EDWARD L. STANTON

Edward L. Stanton, of Sault Ste. Marie, pleaded guilty to a charge of possession of moonshine whiskey and was fined \$50.

Edmund L. Stanton, of Sault Ste. Marie, pleaded guilty to a charge of having in his possession four sacks, one of them containing \$50,000 which was sent here from Louisville to pay off some workers in the afternoon and that sentence will be pronounced tomorrow morning.

Judge Flanagan always puts off passing sentence until the last thing before he leaves. He says it is one of the duties of his office connected with the duties of his office.

CAMPAIGN IS ON TO REDUCE MANY MINOR ACCIDENTS

Liability Company Sends Man Here to Aid in Campaign for "Safety First" Method.

Charles H. W. Merrill, Detroit representative of the Michigan Mutual Liability Company of the same city has arrived in Escanaba and will spend the time here as a campaign to reduce industrial accidents which cost the lives of many workers every year has been started in Escanaba.

Short pictures of accident-prone work are being shown in the factories accompanied by a snappy talk by Charles Merrill, a representative of the company. He says that 75 per cent of all accidents are preventable and that most accidents happen when a person goes off the job.

The pictures are also being shown in the limited scope of the Upper peninsula by means of a 12-volt battery. These deal with various accidents in the woods and how they can be prevented. Working less than one minute a day can be prevented by thinking and using safety.

ATTORNEY RILEY TO ASK FOR ANOTHER CHANCE FOR DEFENSE

John McGuire and Leslie Beaudin of Escanaba have pleaded guilty to the charge of violating the禁酒令.

Charles McIntyre, of Ford River was charged with being a public nuisance and obstructing justice yesterday, but he failed to convict on the part of the Soo U. S. government.

WANTS ASSURANCE THAT JAPAN WILL TAKE STEPS TO MAKE ANY FURTHER TROUBLE IMPROBABLE

President Wilson Shows Improvement

BY ASSOCIATED PRESS

President Wilson planned last evening to attend a show but when the time came for leaving the White House a snow storm came up and he called his maid and remained at home. Those who have seen the president recently say that he is regaining his health and that the attempt to have him attend the inauguration was attended by many difficulties. His improvement indicated that his health was improving.

LA CROSSE COURT SPEEDED UP WHEN LANDIS GETS BUSY

Famous Judge Says He Will
Rush the 110 Liquor Cases
Right Through; Jury-
men Ready.

BY ASSOCIATED PRESS
La Crosse, Wis., Jan. 15.—When the United States district court convened here this morning with a double set of juries in attendance, Judge Landis said that he wanted the attention of all court clerks and everyone else connected with the trial of 110 liquor cases which were to come before the court. He says he wants to clean up the cases, which have been dragging since last November, when the regular judge, Mr. Paul, died and since which time his successor has not been appointed.

FUNERAL OF DR. ELLIOTT IS TOMORROW

Masons and Medical So-
ciety to Attend in a
Body.

Death of Prominent Member
of Medical Society; Passed
Away at Home Late
Saturday.

The funeral of the late Dr. William Elliott, whose death occurred in his family home, 316 Seventh avenue south, will be held from the home tomorrow afternoon at 2 o'clock. Rev. Harry Stiles of the First Presbyterian church officiating.

The death of Dr. Elliott has been the cause of general regret throughout the state and particularly in the ranks of the medical society of which he was one of the early members and one who maintained the highest standing of the profession at all times.

It had been hoped by his friends that he could overcome the headache which came in November, and regain his former good health, for up to the time when he had a slight headache he was "tough," exceptionally healthy and one of the hardest students and workers in the profession. Many years ago after a difficult operation for some time at Powers, Dr. Elliott specialized in eye diseases and throat and for almost ten years has had offices in this city and enjoys a practice that is well established throughout the peninsula.

The funeral will be under the auspices of the Masonic Lodge of which the physician was a member and the Community will all attend in a body.

Friends have been members of the Masonic Lodge and the funeral will meet to attend.

Dr. Elliott is survived by his son and one daughter, who are away with him who, Dr. Gibson, was away from the North Side of Chicago while engaged in the business of Miss Mystic, a woman known as "the woman in the window." The body of the

departing person will be given to the family home at 9 o'clock.

Dr. Elliott had very little time outside of his practice and his family. He was a strong supporter of the Presbyterian church and likewise gave a great deal of time to Masonic activities. He was also a member of the Elks Lodge and was also a member of the Knights Templar. He was born in Canada and received his medical training in Canada.

CHAPTER MEETING

The regular meeting of the B. P. C. Pathway chapter No. 49 O. O. F. will be held in the Elks Lodge Temple, Tawas City, Saturday evening, Jan. 18, at 7:30 o'clock.

All numbers are urged to be present.

Washington, Jan. 15.—The Supreme Court has decided that the law against moonshiners is constitutional.

The court held that it was constitutional to prohibit the manufacture and sale of intoxicating liquors.

Chief Justice Taft, in writing for the majority, said that the禁酒法 was constitutional because it did not interfere with the right of individuals to drink.

Justice Brandeis, in a dissenting opinion, said that the禁酒法 was unconstitutional because it interfered with the right of individuals to drink.

Justice Holmes, in another dissenting opinion, said that the禁酒法 was unconstitutional because it interfered with the right of individuals to drink.

Justice Harlan, in another dissenting opinion, said that the禁酒法 was unconstitutional because it interfered with the right of individuals to drink.

BUILDING INDUSTRY TO ADOPT GREATER ACTIVITY THIS YEAR

As General Conditions Become Normal Again Greater Activities Will Be Seen in Building Line.

Commenting on the building situation S. W. Schatz of S. W. Schatz Co. says:

"It is becoming continually more apparent that private business houses, August 1 by means of 1,000,000 of the part of the public will be one of the chief factors in making up the active building conditions during the 1921 season."

"Forces and agencies that have been up here in America for 1920-21 will be in existence and will again become normal. As the present time however seems to be increasing rapidly and a spirit of optimism is manifested. Conditions are beginning to improve. As this improves, it will be found that a resuscitating building activity will come with it."

"The people of this country are at a great extent settled now in the fact that they act and move, and spend what money they have. They are making that is the conditions will be brought about that the general application of principles of merit. With so many possibilities within the range of the mind however should be done by having both an extensive building, must be based in mind that the duties and responsibilities rest upon private contractors and contractors."

It will be noted that the building line has had the greatest of encouragement from the government, and the largest number of new buildings have been put up during the past year.

It is a fact to bear in mind that a greater and more concentrated base in great cities and towns of this nation and that the principles and ideas which have been the mainstay of the success of the construction of the great cities of the world will make the most important factor in the reconstruction of our home conditions."

The need of individual initiative is a factor throughout the building industry in the past year which is just now being recognized.

There is a great enthusiasm less in the field of construction and it is apparent in an active and home construction especially. The actual amount of additional space contracted for here was slightly more than half as much as the amount contracted for in 1919. New construction last year was 26 per cent less than in 1919. One-third of our building activities in 1919 were devoted to residential buildings while the proportion in 1920 was about one-fifth of the total.

MANY VACCINATED BY PHYSICIANS

The order of the health department is being issued to a large number of people according to reports from different physicians. Many people have taken their children to the family doctor and had them vaccinated and those who go in school this winter will be safe from the influenza, showing that they are law-abiding citizens.

Of course there has been some opposition to the order of the department of health. There is always some opposition to any move, but Dr. Deines says there will be no arguments with teachers, parents or pupils. The answer is "Get vaccinated or stay at home."

The latest certificate on the Cutout shows that for the season 1920-21 it is to be expected that it will be slightly more than 4,000,000 tons.

Look at this picture before you answer! It is little Princess Julianne of Holland, out skating. No games, no playmates, nothing but six—count 'em—six stiff old guardians, three men and three women. The arrow indicates the little princess. 1—Secret service guard. 2—Military guard. 3—Male attendant. 4—Chaperone. 5—Woman attendant. 6—Tutor.

A. B. REDELL OF EX-SERVICE MEN FURNISH MUSIC DURING HOLIDAYS

Well Known Resident of That City Passes Away at Hospital; Funeral Services Today.

One of Menominee's oldest and most prominent citizens, Alvin H. Redell, passed away at St. Joseph's Hospital Saturday morning after a long and delightful residence there. His death was unexpected.

President of U. P.

Redell was prominently known among Menominee and the Upper Peninsula as a good, up-to-date citizen, who in his long life did much for the welfare of his town and the state.

In the work, he continued, he did a great deal of social work for the government until one year ago when he was dismissed by his employer.

At the time, he said, he was engaged in carrying on social work for the government until one year ago when he was dismissed by his employer.

Mr. Luis Redell, son, wife and three grandchildren, Bernice and Milton of Menominee, and a son-in-law, George.

A funeral was held from the First Methodist Church this afternoon at 2 o'clock. The Rev. A. R. Strand will be in charge of the Masonic order of which the deceased was a member.

Interment is to be made in Riverside Cemetery.

Sweden Suffering by German Competition

By ASSOCIATED PRESS
STOCKHOLM, Jan. 15.—Sweden can do very little for the people of the country something. Its agriculture has become a great drain upon its resources and industrial and other enterprises have been compelled to enter into negotiations with our experts, including letters from the Ministry of Agriculture, regarding a reduction of wages.

And so far as that you're able to see, the wage is still in operation at the same rate of financial loss.

The mechanical engineering industry is particularly hard hit by competition from Germany where wages are lower than in Sweden.

Some little item in one of today's "Ads" may make a quick trip to the stars a very profitable journey for you.

Unemployed Ex-Service Men
Employed Ex-Service Men
Take Roles of Street Entertainers, Shoppers
Very Generous.

BY ASSOCIATED PRESS
LONDON, Jan. 15.—A steady decline in the consumption of distilled spirits and medicinal liquors has been observed recently by the commissioners of excise due to the uncompromising efforts made by the excise department to reduce the consumption of such articles by the use of various devices.

They apply to all kinds of distilled spirits and medicinal liquors, which are now sold in smaller quantities than ever before, and the sales of "carry on" spirit, which is sold in bottles containing less than two pints, are gradually going down to enable the public to realize the cost and dangers of waste in spirit purchases.

Some of these devices are tax masks, indications of past taxation for the masked and unmasked officers.

In front of jeweler windows there are brilliant displays of gold and silver jewelry and ornaments, but their value is decreasing. Everything in London, from George's and other popular amusement places, for example, the Victoria Palace, and the like, is going down.

And in this respect the losses which could be easily made in a few hours by the sale of such articles are enormous.

Big Money in Petsels Properly Cared For

BY ASSOCIATED PRESS
EAST LANSING, Mich., Jan. 15.—Farms are properly bred, housed and fed, unless they can be made a profitable proposition on the farms of the future, according to Prof. C. H. Burgess, head of the poultry husbandry department of the Michigan Agricultural College.

Prof. Burgess was discussing the opportunities for profit in the poultry business. In view of statements made by poultry departments of agricultural colleges in other states that money was to be made in these in view of the high price of eggs, of poultry, and the relatively low cost of feed.

A wage reduction of from 20 to 25 per cent has been announced by manufacturers affecting all workers in leather dressing and the tanning industry, according to a dispatch from Gloversville, New York.

Year of Prohibition; People Recovering

CONTINUED FROM PAGE ONE

as we may be able to understand the manufacturer and other trade, whether it has been a difficult and dangerous job for us to do, we see changes for the better, the "ring" and combination. But there remains much to be done, Mr. Kramer declared. He told how the bureau had gathered a new and strong rebirth of the bureau, if he thought in some way there is an increasing and measurable increase in prohibition which eventually caused many men to give up.

Fewer Ask Permits

Records of the prohibition bureau show that fewer dealers are asking permits to engage legitimately in the business of handling liquor than ever. Many of them, Mr. Kramer said, in advance they would be refused because they had "taken a chance" with the law. There were more than 10,

monitored in the enforcement work. Mr. Kramer said, in the variation in the points of view of federal attorneys and courts. It has been difficult to obtain interpretations of the law that are similar, he continued, while

United States attorneys have deferred to the powers and the intent of the law, where there has not been a majority of citizens favoring prohibition, federal courts have dealt lightly with offenders.

Mr. Kramer believes, however, that in recent years will show an increase in this connection also. He said uniform plans of court procedure were certain to come and that as a result prosecutions would be better handled.

Alcohol Offers Puzzle

Enforcement officials have struck a snag and continually are confronted with problems concerning the manufacture and sale of industrial alcohol. It has been a source of daily trouble for the agents, the commissioner declared. Rules and regulations governing its production and handling have been promulgated from time to time but in every instance according to the bureau head, there comes a new flood of complaints. These always require a new determination of what is or what is not product that can be used as a beverage.

"The bureau fully comprehends the importance of industrial alcohol," Mr. Kramer asserted. "We do not desire to ban or hinder its legitimate use but there are so many persons who will drink any concoction that has a 'kick' that we just have to be strict."

Patent Medicines

Mr. Kramer said many manufacturers of patent medicines refuse to believe their product has become a popular prohibition beverage. They attribute the increase in sales to an awakening of the people to the importance of medicinal value.

"But we know differently here," the commissioner declared. "The medicine and not the medicinal potion contained in those bottles for several months and the new law will be held to the strictest minimum, the commissioner declared.

During the first ten months of constitutional prohibition, 35,569,000 gallons of distilled spirits were withdrawn from bonded warehouses. On this basis, it was officially estimated that withdrawals for the year ending tonight would exceed 61,000,000 gallons.

Such withdrawals are permitted for medicinal purposes and production officials are available to check directly in the amount which is diverted to such use, but Mr. Kramer said, however, that large quantities are taken from bonded and it is one of the tasks of the Bureau to restrain this transfer.

Official revenue records show that for the fiscal year ended June 20, 1919, the last full pre-prohibition withdrawal for all purposes aggregated \$1,697,000 gallons. The records also show that withdrawals for non-beverage uses during the months of that year averaged only about one-fourth of the amount taken out of bonded storage for drinking purposes.

take a drink now when they never thought of swallowing a drop while the saloons were all about them. The cause for that is found in the spirit of adventure born in most Americans. It will continue to cause some trouble rather indirectly, for a while but it will gradually disappear.

Says Desire Is Passing

Disappearance of the "appetite" of the steady drinker also is predicted by Mr. Kramer who forecast in that connection practically the end of the bootlegger. He asserted that while there always would be some demand for "hard liquor" prohibition enforcement in若干 years would have resolved into a simple problem of exacting against the production of moonshine and the patrolling of the border and coasts against smuggling.

Liquor smuggling like the freedom of moonshiners, which has developed into a business of high profits since the advent of prohibition. In fact, revenue officers assert that the value of liquor thus brought in exceeded the estimated worth of all other smuggled commodities.

Mr. Kramer said the enforcement of the禁酒令 and that the combined forces of prohibition and that the combined forces of prohibition and that the enforcement agent's worst problem with respect to internal revenue could keep on his

read for the moonshiner too and that the enforcement agent's worst problem with respect to internal revenue could keep on his

lakes area and along the St. Lawrence employment of men for that purpose.

Port cities, especially along the Atlantic Coast, have given the ban on foreign markets are willing to help Americans obtain quantities of any kind of beverages no longer sold here. But a weeding out of the enforcement staff, the elimination of such men who have not visited the smuggling of liquor from foreign ships is expected by officials to correct that condition eventually.

Always Have Moonshine

As for the moonshiner, Mr. Kramer candidly stated that "we always will have some of him with us." Operating in the mountain fastnesses his still will spring up again and again, but the enforcement of the禁酒令 in the field of the dry forces is optimistic. He declared the sentence had been read for the moonshiner too and that the combined forces of prohibition and that the enforcement agent's worst problem with respect to internal revenue could keep on his

lakes area and along the St. Lawrence employment of men for that purpose.

Things Change Rapidly in the Stores These Days

NEW THINGS ARE COMING IN ALL THE TIME, TO BUY INTELLIGENTLY, YOU MUST KNOW NOT ONLY THE GOODS, THE STYLES, THE VARIETIES, THE PRICES AND THE LIKE, BUT YOU MUST KNOW WHERE THE GOODS ARE TO BE HAD.

The one sure way to keep up with the times is to be a regular reader of the advertisements in your paper.

They are full of suggestions. Often your eye will catch the very article you need, at an advantageous price—or something new to you, something out of the

ordinary that will be helpful to you.

If you don't buy today, you will tomorrow. You are not wasting your time when you are learning to know goods and how to talk knowingly to the clerks and salespeople.

Reading the advertisements makes you a posted buyer—an up-to-date buyer.

THE HIGH Fliers.

During a time of peace we have seen followers of small life like themselves to be found in every country and in every place in our own borders.

Many of them are poor folk and though they are a pleasant sight especially for a child bearing his flag.

Others are those who have deserted their West Indies and elsewhere. There are no degenerates or scoundrels, while gambling with the exception of those who have been captured, and those who have given up their original home, and all kinds of persons of every kind of character.

Certainly no one can find that anyone has got past finding that they have a very bad life. And there are a lot who have made money in military time. That's why you see them in uniform. They always bring up their heads in an inferior position. The United States is a nation well off some of those disgruntled theorists, pernicious

THE GAME OF SWIFTNESS.

It is a game in which will be decided the battle for a great trophy of the day. Every soldier comes back to this country as the result of the victory of India and Johnston in New Zealand.

People who are products of their parents' brains, the little small "old" in their respiratory function have no idea what an intense game it can be. There is something marvelous in the force and the energy by which the expert drives it. Little girls, to the consternation of the court where it is most difficult to get it.

Aspirin, founds physician should be the best. This is natural yet for quick action in this sport. It is a game that could be played in every neighborhood. It takes up logical people and requires quick decision and agility of foot.

WORKING CHILDREN.

Herbert Hoover recently remarked that child labor is poisoning the progress of the nation at their source. The long hours of the past two years, with many of labor, have led to a great number of children to leave school at an early age. In Chicago alone, in excess of 3,000 in the number of working children was reported last summer, and similar indications came from many other cities.

The child who quits school at 14 is said to have an earning capacity at the age of 25, of just half as great as the one who keeps in school until 18. And when such a child does go to work at the earlier age, he is not the only one who suffers.

The community loses as the result of his inefficient production. His brains and his standards of achievement are underdeveloped, and he is a drag on community progress.

Although buying of household necessities is said to have fallen off a good deal, no decline in the sales of clothing stores is reported.

Some newspapers used to be required that putting a three column head on a tire in a children's cap, does not make it a great event.

Some of the people who haven't painted their buildings for eight or ten years, would be useful if any one called. Enclosed a dead looking place.

The price of furniture recently paying have made many people in doubt whether it is better to stand up or sit on the floor.

While the girls of course can't feel comfortable unless they wear bangles and bracelets, yet it is not absolutely necessary to wear them unbroken.

The American Locomotive Company plan to build a large plant in St. Louis at a cost which may reach \$25,000,000. The initial outlay will be between \$5,000,000 and \$10,000,000.

France plans to bring out a 400,000-tonnes issue of new bronze and aluminum alloy subsidiary coinage in 2, 1½, and 1 franc pieces, to replace the paper money issued during the war in the same denominations. It is expected that completion of the issue will take two or three years.

To make of "buying for the home" a problem of first importance in the home-making is to find more of the joy of living—so advises Dr.

OUTBURSTS OF EVERETT TRUE

UNCLE SAM, M.D., EXPLAINS

THE PROCESS OF VENTILATION

BY U. S. PUBLIC HEALTH SERVICE

In consequence of the inability of investigations to prove and an increase of carbon dioxide and a diminution of oxygen are in any way injurious, attention has been focused upon the physical changes in the air.

Healthy individuals have been placed in a cabinet of three cubic meters' capacity for periods up to four hours. After a time symptoms of headache, dizziness and depression were observed.

Those in the cabinet were then allowed to breathe the fresh outside air through a tube, but this gave no relief; nor did the air to the cabinet produce any symptoms when breathed through a tube by a person outside, but the discomfort experienced by those in the cabinet was almost instantly relieved by all or any one of the three following procedures:

FIRST—Drying of the air in the cabinet, which meant that the air contained excessive humidity.

SECOND—Cooling of the air, which had been maintained at too high a temperature.

THIRD—The stirring up of the air by means of fans, keeping the air constantly in motion.

None of these procedures involved any chemical change in the air. The explanation underlying the foregoing observations is as follows:

Normally, a certain heat interchange occurs between the human body and the air surrounding it.

In order that this interchange may take place with the greatest facility, the air surrounding our bodies must be in motion, so that the heat given off by our bodies is changed as fast as it is heated. Secondly, the air must be cooler than the body so that the proper amount of heat may be lost by radiation.

It must also be relatively dry (50 to 60 per cent) so that the heat may be lost in evaporation of the perspiration.

The ventilated atmosphere of a densely populated, badly ventilated room, fails to provide any one of these conditions. The temperature is high, the humidity is high, and there is little air movement.

Obviously, then, it is plain that the ill-effects resulting from vitiated atmosphere are not due to an increase of carbon dioxide, or a decrease of oxygen, but are the result of physical changes in the air.

However, a reasonable supply of fresh air is necessary at all times, inasmuch as it has been found to be not humanly possible to maintain the necessary physical conditions of the air in any room without bringing a certain amount of air in from outside.

It is especially important that we should understand what constitutes safe ventilation in view of the severity of our winters, and the high cost of coal.

The price of furniture recently paying have made many people in doubt whether it is better to stand up or sit on the floor.

While the girls of course can't feel comfortable unless they wear bangles and bracelets, yet it is not absolutely necessary to wear them unbroken.

The American Locomotive Company plan to build a large plant in St. Louis at a cost which may reach \$25,000,000. The initial outlay will be between \$5,000,000 and \$10,000,000.

The Shadow of the Sheltering Pines

A New Romance of the Storm Country

By GRACE MILLER WHITE

Copyright by the H. K. Foy Company.

SYNOPSIS.

CHAPTER I—Loudy and almost friendless, Tommied Devon, living on a canal boat, child of a brutal father and a worn-out, disengaged mother, wanders into a Salvation Army hall at Ithaca, N. Y. There she meets a young boy, Tony MacCauley, captain Philip MacCauley.

CHAPTER II—Uncle Devon, Tony's father, returns to the boat from a protracted "tour" and announces he has arranged for Tony to marry a worthless companion of his, Rosina Brown. Mrs. Devon objects and Uncle beats her. She indicates there is a secret connected with Tommied.

CHAPTER III—In clothes that Uncle has bought, Tony finds a baby's picture with a notation of a reward for its return to a Lydia Pendleton. She goes to return the picture.

CHAPTER IV—With the Pendletons, a family of wealth, live Mrs. Curtis, a cousin, her son and daughter, Katherine Curtis and Edmund Brown. Katherine is deeply in love with Philip MacCauley.

CHAPTER V—Tommied learns the picture to Doctor John, and learns it belongs to his brother, Dr. Paul Pendleton. It is a portrait of Doctor Pendleton, who had been stolen in his infancy, and her less has increased Doctor's life. Doctor John goes with Tony to the canal boat and introduces to Mrs. Devon while she is unconscious.

CHAPTER VI—Returning to consciousness, Mrs. Devon is influenced by Tony's behavior. She is deeply irritated, makes Tony swear she will never tell of Devon's brutality, and disappears.

CHAPTER VII—Tony's personality and her loneliness appeal to Doctor John and he arranges to take her into his house as a companion to his invalid brother.

(Continued from Saturday.)

It was before the world at the top that she said again MacCauley by one mighty effort, left the struggling life of the other man and threw him into the lake. Doctor John goes with Tony to the canal boat and introduces to Mrs. Devon while she is unconscious.

Uncle Tommied is moment and leaves off to the hills. There, during 3000 in the cabin he waits to where Bergie lies on the shore and helps him back to the boat.

To Be Continued.

YARD WIDE HOPE MUSLIN	19c

In order to meet new conditions and follow out our policy of always giving our patrons the lowest prices possible, the J. C. Penney Company, with 312 Department Stores located in 27 States, has at a TREMENDOUS LOSS, reduced all selling prices to absolute BED ROCK, based on actual replacement values. Our enormous purchasing power, plus our policy of large volume and small profits, makes it possible for us to regularly undersell our store competitors.

FEDERAL AGENT TO GO ON TRIAL FOR WISCONSIN MURDER

Killed Madison Man in Making
Raid; Claims Self Defense;
Government to Aid in
Defense.

(BY ASSOCIATED PRESS)

SPRINGFIELD, Ill., Jan. 17.—S. Glen Young, Federal prohibition enforcement officer, was scheduled to go on trial in Federal court here today on a murder charge in connection with the shooting of Lukas Vukovich at Madison, Nov. 6, last.

Vukovich was killed by Young when the latter, accompanied by Walter Cowgill, a Granite City policeman, entered the Vukovich home in search of their superior. Elight bullets were fired into Vukovich's body. Young admits he fired the shots, but asserts Vukovich attacked him, and that he fired in self-defense. Vukovich, a laborer, was 45 years old.

A coroner's jury exonerated the Federal officer, but State's Attorney Stremper conducted an investigation which resulted in the return of the murder indictment.

The government has rallied to Young's defense. Attorney General Palmer has appointed Robert Patten of Saukenuk county to assist United States District Attorney Edward Knott in defending the prohibition agent. Mr. Stremper will conduct the prosecution.

The case was to have been tried in Madison county, but was removed to the Federal court under a law which guarantees government employees federal protection when arrested in the discharge of their duties.

Young was arrested, following his indictment, and placed in jail here, where other prisoners who ascribed their incarceration to his activities, assaulted him. He was buffeted and drenched with hot water and finally released by prison officials.

A month ago a statutory charge against him was dismissed on the grounds of insufficient evidence. In this case, Emma Bombardier, 16 years old, declared Young attacked her while raiding the Bombardier home at Stanton in search of forbidden liquor. This charge was declared a "franchise" by Young.

Reports from Russia Say Whole Families Dying; Lack of Food

PITTSBURGH, Jan. 17.—Friends' Service Committee (Quakers), who recently returned from Russia, brought back information that many children are starving in Russia. Mr. Wallis obtained his information from Arthur J. Wallis, an English friend, who has been engaged in relief work in Russia. Mr. Wallis

LARGE MEMBERSHIP IS NOW ASSURED FOR RAILROAD WOMEN

Over One Hundred Members
Have Signed Up; Big Meet-
ing will Be Held Here
Tomorrow.

Mrs. Frank Nossan, announces that all plans for the organization of the Feminine Division of the Chicago & North-Western Railroad-Women's Club at Odd Fellows Hall tomorrow afternoon have been completed, and that 125 women will be ready to elect officers and men. Mrs. W. J. Towne and Mrs. A. M. Easte, of Chicago, who will be here tomorrow to give the good club a start off.

Mrs. Frank Nossan, president and vice-president of the five clubs which are under the present organization of the railroad. Mrs. Nossan says that at least 150 married women are qualified to join this club on the permanent division and she hopes in time to get to 200 all in.

The Odd Fellows hall will be open tomorrow afternoon at 4:00 o'clock and the meeting will be called to order at 2:00. After a vote in order that the women may return to their homes a social session had been planned for tomorrow night at which time the members will invite their husbands to be present.

Mrs. Nossan, wife of a woman in Elgin, who is listed as employe of the Chicago & North-Western, attended the organization meeting to-morrow afternoon.

ARMY, NAVY SHOW A LARGE INCREASE, REPORT OF DETROIT

Increase Is Said to Be On Ac-
count of Educational Op-
portunities Offered in
These Branches.

(BY ASSOCIATED PRESS)

DETROIT, Mich., Jan. 17.—Enlistments in the army, navy and marine corps in the Detroit district during 1920 showed decided increases over 1919, according to figures announced yesterday by the recruiting headquarters here. Navy enlistments were 1,396 in 1920 against 1,169 in 1919; marine corps en- listments were 413 in 1920 against 361 in 1919; and army enlistments were 4,504, compared with 2,157 in 1919.

The Detroit naval recruiting district comprises all of the lower peninsula of Michigan and that part of Ohio in vicinity of Toledo. The Marine Corps district comprises all of the lower Michigan peninsula and the upper district includes Eastern Michigan.

Increase in naval and army en- listments is ascribed to vocational and educational opportunities provided men in the branches of the service and to the economic conditions of the past few months when recruiting took a decided spurt.

Mrs. Julian Longfellow of Lakeview has arrived in the city to visit Mr. Walker home in 1st Ave. No.

J-HOP IS OFF; U. OF M. BLUE

Senate of University Cancels
Historic Event; Use of
Whiskey at 1920 Hop
Is the Cause.

(BY ASSOCIATED PRESS)

ANN ARBOR, Jan. 17.—The drinking that went on at the 1920 "Junior Hop" and at previous hops, was responsible for the order issued by the University of Michigan senate for discontinuing the annual ball which has been a chief factor in the social life of the college for 50 years. This was announced by university authorities Saturday.

Since the edict went forth last Thursday, abolishing the hop, indignation meetings have been held by the students.

The J-hop is a tradition at Michigan. It is the oldest, largest and most brilliant social function at the university. Belles and debonairantes from all sections of the country are bid to it.

They are feted from the minute they arrive at noon on the day of the party, which is always given on a Friday night, to the Sunday afternoon following. Students spend thousands of dollars on the party.

Hundreds of invitations have been accepted already for this year's hop, despite the fact that the hop was not to be given till the night of April 9. Today the telephone wires are being kept hot by Ann Arbor, Evans telling her that the hop is off. Other students, who lacked either the money or the nerve to invite their home town girls, are now evading their fate that they did not because of the standing it would have given them.

The Nation-Wide "READJUSTMENT"—a readjustment which, if it is to be speedily accomplished, must have the earnest, sincere co-operation of every business in the Land.

At this store present day stock of Shoes must be turned into cash. Every pair of Shoes in our store bought in the higher market, must go, regardless of intrinsic worth or cost to us, at prices based on wholesale cost of today. We have resolved to stand the tremendous losses this drastic action means to us, and these rock-bottom prices quoted in today's Ad DO mean actual losses. But they also mean QUICK

SALES—A VOLUME of quick sales—and

CLEAN DECKS for Spring Shoes. And judging from present indications, Spring Shoes of the same high character as the ones offered here today, will be considerably higher than quoted sale prices in this advertisement. Quality shoes at such radical reductions as are listed here are almost unbelievable; but your closest inspection will reveal the absolute truth of every word in this advertisement.

THE WEATHER

Legislature Starts
Week at Lansing

CONTINUED FROM PAGE ONE

Weather conditions since Saturday morning the duration which has been prevalent in northern Michigan has spread westward across the western portion of the country to the Atlantic and extending into western Europe. In most of the northern districts temperatures and depressions are moving westward in the course of the depression, and indications of the former are becoming more evident. The heavy and alternating rainstorms now continue and in temperature are gradually decreasing, prevailing on the 18th being cold with some ice formations.

Winds, which started as to

the north, have shifted to the south and are blowing from the southwest.

W. H. MEETING POSTPONED

It was decided Saturday night to postpone the W. H. meeting which was originally scheduled for Saturday evening last week, until Thursday afternoon. This was done after it was learned that the members of the W. H. would be unable to attend the meeting due to the weather.

HOLY TRINITY LODGE

Meeting of Holy Trinity Society Lodge members, which was held yesterday at the Legion hall on North Main, the adjoining office was used.

Paul V. Coughlin, president; Steve Gribble, vice-president; Harry Smith, treasurer; and George and secretary; Mike McNamee, treasurer.

WELLS CHILD DIES TODAY

Wells Marie, the little daughter of Mr. and Mrs. A. J. Wells, died at the home of the family at No. 12 Highland avenue, Wells this morning at 9:45 o'clock, after a short illness. Funeral arrangements have not been made yet, but it is thought it will be held from the home on Wednesday.

LORTY—A strong of peaks with sharp ridges, on 7th st. or between 11th St. and 13th St. Reward offered if returned to the Wm. office.

WANTED—A reliable young man who is a lithographer, experienced engraver especially in Standard Oil Co.

Wells, J. H. Kohler and wife of Eliza Orlina, expected to arrive at Keweenaw tomorrow to visit with Billie, John and sons, Mr. and Mrs. C. E. Hartman at 1409 Lexington street.

AND HE WAS

He said, "If any other boy...
it will be the same before
long."

AND HE DIDN'T

That didn't prevent the boy
from running away.

AND HE DIDN'T

He said, "I'm not going to
die, I'm not going anywhere."

AND HE DIDN'T

The other chap said, "YOU
YOU!"

AND HE DIDN'T

Our friend's brother said, "We
can't bring him in."

AND THEY DIDN'T

He said his lawyer is a bit of
a fool, he doesn't know what
the rest of the world is up to.

AND HE WASN'T HE?

There was a chapter in one
and we had told Max about it.
he thought he knew better.

Let me tell you, he's a bit of
a fool. COMPLAINTS, PROTESTS
we'll furnish the lawyer,
investigate the claim, demand payment
and pay all fees within the
time of our policy.
