THE WRECKING OF A CITY—AS SEEN FROM THE SKY

This airplane photograph of Pueblo, Colo., taken when the flood was at its worst, shows the junction of the Arkansas and Fountain rivers. Normally these streams are little more than creeks, but here the angry waters formed a rushing current a mile wide. In the left foreground is the wing of the plane from which the picture was taken. Center, the river bridge, swept from its foundations. Right, the railroad yards. Note the long line of cars, overturned by the water. Others are being carried down stream. Lower right-hand corner, a house and several box cars floating down the river. The streets visible in the picture are white streaks of foaming water.

### TWO WOMEN ARE HELD WITHOUT BAIL IN LOCKUP

Mrs. Kaber and Daughter Both Enter Pleas of Not Guilty.

Are Confronted by the Woman Medium Who Tells of Plans of Wife to Get Rid of Husband.

(BY ASSOCIATED PRESS)  
CLEVELAND, O., June 11.—Mrs. Eva Kaber, widow of Daniel Kaber a Lakewood, Ohio, publisher and her daughter, Miss Marian McArdle plead not guilty to the charge of first degree murder, of Kaber, when arraigned before Judge Bernon. The court set the hearing for June 28th and remanded both to jail without bonds. Mrs. Kaber was submitted to a severe grilling upon her arrival here last night. The two persons were confronted by the woman, from whom Mrs. Kaber went for advice as to how to get rid of her husband. This woman who posed as a medium told Mrs. Kaber what was alleged to be poison which was given to the published in food by his wife. Both Mrs. Kaber and Miss McArdle identified the two men who were implicated in the murder of the husband. It was alleged by the woman who hired the two men to pose as ghosts in the room of Kaber that on one occasion she had introduced Mrs. Kaber to a man and that Mrs. Kaber had offered this man the sum of \$3,000, if he would make away with her husband.

### THOUSANDS GO TO MUSIC HALL TO VIEW BODY

Marshal Foch Sends a Cable of Sympathy to Wife of Deceased.

Orations Were Given by Several Friends and Representatives of the Army, Navy, and Legion.

(BY ASSOCIATED PRESS)  
CINCINNATI, June 11.—Not since the funeral of General Joseph J. Hooker, of Civil war fame, which took place in the 70s, has there been such a military cortege as that which part of the services which will be held this afternoon over the body of Colonel Galbraith, commander of the American Legion and well known business man of this city.

The funeral was given an international fame by the presence of the French high commander of the United States and by an attaché of the French embassy at Washington, who is here to represent Ambassador Jovanovic.

CINCINNATI, June 11.—Thousands of persons attended today the funeral services at Music hall for Colonel F. W. Galbraith who was killed in an automobile accident at Indianapolis this week.

For hours before the services thousands passed the Bier of the dead soldier, which rested in the rotunda of Music hall. There were men and women from every walk of life. Friends of dead soldiers who served under him and mothers and fathers and other relatives and friends of those here who were the colonel's pride.

Services were simple. Orations were delivered by Roy John Herget, who was chaplain in the regiment of which the deceased was the colonel in France, Assistant Secretary of the Navy, Theodore Roosevelt, represented the government. Marcel Kenecht, who is at the head of the French information service in the United States represented the French government.

The body followed by one of the largest funeral processions ever seen here was taken to the Spring Grove cemetery, where it was consigned to a vault preparatory to burial with high military honors in Arlington National cemetery at Washington.

Among the many messages of condolence which have been received by Mrs. Galbraith today was the following from Marshal Foch of France. I wish to express to the American Legion and to Mrs. Galbraith my sentiments of sorrow and my heartfelt condolence and profound sympathy in the sorrow which the French people and the French army have lost such a notable and noble friend.

DEMPSEY-CARPENTIER FIGHT IS THIRD NO DECISION BOUT TO BE STAGED IN THE U. S. A.

Following Article Tells of Some of the Great Fights Since 1882.

Sullivan-Kilrain Bout Went for 75 Rounds Before Sullivan Won Victory.

NEW YORK, June 11.—The third bout for the world's heavyweight championship under no-decision rules at a limited number of rounds will be underway when Jack Dempsey and George Carpentier square off in the Jersey City ring, July 2. The only previous title contests held under similar conditions were the Willard-Moran 10-round battle at New York, March 25, 1917, and the Willard-Dempsey contest at Toledo, O., July 4, 1913. The first bout was the Bull Willard vs. the dog the popular verdict. At Toledo, Sullivan-Kilrain duel, however, stretched this average and examination of the records shows that 11 of the 21 battles have stopped short of the 12-round mark, while the most recent championship fight, in New York last December ended with the knockout of Bill Brennan by Dempsey in the twelfth round.

MINIMUM WAGE LEVEL, \$2,385.27

Philadelphia Body Sets That Sum as the Lowest Amount Required.

FIGURES APPEAR TOO LOW

Admittedly, Such a Scale Does Not Represent a "Health and Comfort" Level for the Family of Husband, Wife, and Three Children.

The minimum wage level for Philadelphia of present is \$2,385.27 a year, according to a survey completed by the Labor Bureau, Inc., for the Philadelphia District Council of the Brotherhood of Painters, Decorators and Paperhangers.

The report states this figure represents a wage level "below which no family can afford to live without danger of physical and moral deterioration," adding that it represents not a "health and comfort" level but a "minimum of health and decency level."

The budget used is described for husband, wife and three children below the age of fourteen.

The husband, according to the budget, is allowed one-half and the wife one-third of an overcoat a year. The wife is allowed only two night-gowns a year. The husband can get his suit pressed once a year. The wife is allowed a winter hat every other year.

One cheap motion picture show a week is the only amusement mentioned. No provision is made for a trip or vacation outside the city. Food takes \$700, or 25.5 per cent, of the total yearly outlay. Clothing is the next largest item with \$154, or 10.4 per cent, allowed.

Judge Says Protect Property.

In granting an injunction to Schwartz & Jaffe, clothing manufacturers in Brooklyn, against picketing by the members of the Amalgamated Clothing Workers of America, Justice Van Sicken said that the issue was part of the war between capital and labor and he gave his conception of the duty of the courts as follows:

"They must stand at all times as the representatives of capital, of captains of industry, devoted to the principle of individual initiative, protect property and persons from violence and destruction, strongly opposed to all schemes for the nationalization of industry, and you save labor from oppression and expropriation toward the removal of the laborer's just grievances."

Suggest Three-Day Week

Manufacturers of Catalonia, Spain, have submitted to Governor Audo, a proposal having as its object the relief of the industrial crisis. It suggests a general introduction of a three-day week in factories in order to provide workers with sufficient wages to enable them to purchase absolute necessities. The manufacturers hint that the government, with assistance from the Bank of Spain, should furnish help, and also indicate reasons to be adopted for reducing articles of prime necessity. Governor Audo has forwarded the document to a commission, who is investigating the problem and who is investigating the problem and who is investigating the problem.

PUT MANY MEN TO WORK

How Government Operation Affects the Railroads of the Country is Shown by Report.

In 1917, before government operation was adopted, the railways employed 392,828 machinists, boiler-makers, blacksmiths, electricians, air-brakeners, car inspectors, car repairers, other skilled shop employees and mechanics, helpers and apprentices. In 1920, when the number of locomotives and cars to be maintained was only slightly larger than in 1917, they had 413,774 employees of the above classifications, an increase of 14,946, or 4.7 per cent. The total wages paid to these employees in 1917 was \$317,879,540, while in 1920, after the advance 40 wages granted by the railroad labor board last July, their wages were running at the rate of approximately \$880,000,000 a year, an increase over 1917 of 180 per cent.

OTHER LABOR NOTES

The Colorado legislature has an anti-strike measure. During the fiscal year of 1919-20 nearly 50,000 child labor permits were issued in Wisconsin.

A wage reduction of 25 per cent has been announced by the Albany (N. Y.) tubbers' exchange.

In the best grade of cotton yarn there may be found about 388,000 yards of single thread in one pound.

Nearly \$150,000,000 worth of building work is being held up in Philadelphia, due to labor and material prices.

Second attempt to dissolve Amalgamated Clothing Workers' Union made in Supreme court of New York by J. Friedman & Co.

Representatives of workers in United States and Canada pulp and paper mills, conferring in New York, reject 30 per cent wage cut proposed. The wage reductions being put in force in the United States have thus far failed to affect wages paid to workers in Great Britain.

LABOR CONDITIONS IN ITALY

The industrial situation in Italy has reached a crisis. The number of unemployed has now reached 1,200,000 and more than 500,000 are working at reduced wages and on short shifts.

Fewer Fatalities in Metal Mines

Fewer men lost their lives in metal mine accidents in this country during 1919 than in any previous year for which statistics of accidents have been compiled, according to a report issued by the United States bureau of mines.

Up to Federal Wage Board

Reduction of wages of shop employees on the New York, New Haven & Hartford railroad to the schedule which prevailed prior to the last decision of the federal wage board, was announced by General Manager C. L. Barde to a conference committee, which appeared before him. The matter will go to the stage court for a decision.

Unionism for the Japanese

Unionism is making progress in Japan although not to the same extent as the growth of industry. There are now 25,000 mills and factories with 2,000,000 workers. Thirty-six years ago there were only 125,000 workers in Japan, employing 15,000 people.

DOG HATERS "CALLED DOWN"

When the New York Newspaper Says "Dog Haters Call Down" on the Dog, It Means Things About Enemies of the Canine Race.

A story circulated to make dog haters cut their teeth first in any way into print, remarks the New York Tribune. An East-side cattle breeder named his master, told him things were not as they should be, but that he would be a prompt turning in of a dog alarm, which saved "Tommy" lives.

At rare intervals a case of rabies develops. With this as a basis the dog haters have secured a case whose severity is such that once in a while it naturally breaks down some dog's nervous system. Leashed and wearied, a husky or law straggler, man's best friend is denied a natural life. If his patience exhausted and his temper frayed, he bites anything no matter whether by accident or with ample justification, he is thrown into jail without trial. Not satisfied with this, there is a constant outcry for a practical extermination of the species, with only enough left to provide raw material for vivisectionists.

Yet if it were more kept showing in one column the number of human lives man's devoted servant has saved and in another the number in any-wise lost through him, the dog-hater, in favor of the dog would be grieved. A dogless civilization would be one wherein life insurance rates would be raised.

The psychology of the dog hater has never been satisfactorily explained. He exists—that is all we know about him. He can scarcely be said to take pleasure in his malignancy, for he is gloomy and somber, and he mutters things in his frenzy, but in his more inventive ebulliences which look into a dog's honest and loyal eyes sufficiently repay.

GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat less meat if you feel Backache or have Bladder trouble—Salts fine for Kidneys.

Most forces are well which excite and overwork the kidneys in their efforts to filter it from the system. Regular exercise of most men such as the kidneys occasionally. You must relieve them like you relieve your heart, etc., removing all the acids, poisons and poison, else you feel a dull misery in the back or side, headache, dizziness, your stomach sour, trouble in eating and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, the channels often get irritated, obtaining an occasional two or three times during the night.

To neutralize these irritating acids and flush off the body's noxious wastes get about four ounces of salt water from any pharmacy, take a table-spoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with other acid and has been used for centuries to clean and stimulate stomach, kidneys and bladder irritations. Eat Salts is inexpensive, harmless and makes a delightful refreshment. Drink water which contains mineral salts and then this valuable action: Kidney and Bladder diseases.

PAGO, PAGO, American Samoa, June 11.—Homeickness and the hard rule of the quarterdeck caused thirteen Americans, who wanted to tour the world seeking adventures, to leave the yacht Wisdom II by the time she reached here recently from Los Angeles, Cal. on a trip of scientific research round the globe.

All America wanted to see, Frederick O'Brien, author, one of the ship's company, said in telling of the requests made before sailing for berths on the boat. There were twenty officers, sailors and movie picture men aboard when the vessel left California.

The Wisdom, commanded by Captain Edward E. Salisbury of New York and California, arrived here April 11. She left Los Angeles January 19. On arriving here Captain Salisbury entered the naval hospital for a few days.

The Marquesas Islands and points in Tahiti, Bora Bora and Raiatea were visited before the boat arrived here. When she left for Apia, all Pago Pago went to the beach to bid her farewell.

O'Brien and Dr. Malcolm Douglas, New York, another of the ship's company, plan to leave the boat for a time, they said here, and visit the unique Valley of Maloata in American Samoa. This place is known by the natives as the "haunted valley."

Seldom visited places like the New Hebrides, New Guinea, and New Caledonia are to be visited by the Wisdom before she heads for the Far East and India.

Bolsheviki to March to Turkey, Planned

CONSTANTINOPLE, June 11.—We are marching to Constantinople, the new war song of the Bolsheviki is considered here to be significant in connection with the Bolsheviki propaganda, looking to the taking of the city.

All railways leading to the chief Black Sea ports are said to be undergoing repairs to prepare them for heavy traffic. Hagl Kun, Bolsheviki commissary in the Crimea, is said to be putting the Crimean ports in good condition, meantime arranging to get coal from the Donetz basin and encouraging the peasants to increase their crops.

Unemployment in New York

There are 441,000 people out of work in New York city, according to figures compiled by a board of education committees. The estimate is based on the factory employment only. 'The present unemployment emergency is much more serious than it was in 1914, when the whole community was aroused to consider ways and means of relieving it,' the report states.

Agree to Conference

The International Ladies' Garment Workers' union has voted to appoint a committee to confer with the Manufacturers' Protective association at the latter's request on wages and working conditions. The union concedes nothing the association has been demanding, but takes sharp exception to the statement that labor cost causes high prices.

Type Printing May Be Stopped for Camera (BY ASSOCIATED PRESS) LONDON, June 11.—Suggestion that printing from type is likely to be superseded was made by William Gamble at the recent World's Congress of Printers held here in connection with the International Printing and Allied Trades exhibition. Mr. Gamble said that at least three inventors were trying to develop a photographic process to take the place of printing from type. He predicted that the machines for printing by photographic process would hardly occupy more space than a typewriter nor be any more complicated. He expressed the opinion that eventually the great printing presses would hardly occupy more space than smaller, self-running and comparatively noiseless machines which would turn out printed matter with almost the facility as the moving picture operator reels off his film.

MACKEREL ALWAYS SWIM FROM LEFT TORIGHT--WHY?

Question Which Puzzled British Naturalists Answered by American Woman.

(BY ASSOCIATED PRESS) BRIGHTON, June 11.—The question why the mackerel in the aquarium here always swim from left to right round the rock in their tank and never vary the direction of their endless journey has puzzled many and even when the question was recently asked at a meeting of the Sussex Sea Fisheries committee no one was able to supply the information. At a later meeting of the committee the clerk offered a solution of the question. He said he had received a letter from Mrs. Gilbert, of Greenacote, Pa. who said she had read an article in an American paper about this mystery. She was of the opinion that the reason for the one-way swimming of the mackerel was that they swim in harmony with nature, or, in other words, with the motion of the earth. The letter has been sent to the British board of agriculture.

Lawn Soils Said to Need Special Care

(BY ASSOCIATED PRESS) EAST LANSING, June 11.—Proper care of lawns and lawn soils is needed even after the lawns are established, if good results are to be obtained, according to Dr. M. M. McCool, head of the Soils Department at the Michigan Agricultural College. Time of clipping and such matters as fertilizing the soil and adding water in the approved manner must be observed by the modern lawn care taker, who would have his grounds in good condition. "Long grass should never be permitted to go to seed," says Dr. McCool, in discussing the care of lawns. "It is all so a mistake to flip too close in the late autumn for lawn grasses, especially on new lawns, should pass into the winter with a considerable growth. Many of the most successful lawns are rolled or compacted in some manner. This causes the grass roots to take firm hold and assists in the establishment of a good turf. Many mistakes are also made in the application of water to lawn soils. It is usually better to soak the soil thoroughly by laying the hose on the ground and permitting the water to flow freely, on one part for an hour or so before moving to another place. The sprinkling method is satisfactory if continued long enough, but frequent by this is not done and the grasses suffer in consequence. Fertilizers may be

used to advantage on lawn soils, and proper selection is made to meet conditions. Shrewd, careful buyers read the want ads. This page is a reliable indicator of real estate values and activities.
