## UPPER SILESIA UP TO LEAGUE OF NATIONS

### POLICE OF FRISCO SEARCH FOR TWO MORE IN MURDER FATHER HESLIN

William Hightower is charged with murder of the priest. Police do not favor his story and believe he was dominant character in the murder plot.

(By Associated Press.) SAN FRANCISCO, Aug. 12.—Search went forward today for two persons, a woman and a man, in the drama which reached its climax in the discovery of the body of Rev. Father Patrick Heslin in a shallow grave with bullet holes in his head and body.

### GUN THAT MAY HAVE KILLED KENNEDY HAS BEEN FOUND

Shot gun butt discovered in sands on the Pacific shore. Finder did not know it was connected with murder and failed to turn it in to police.

(By Associated Press.) LOS ANGELES, Cal., Aug. 12.—The discovery of the butt of a double-barreled shotgun in the Pacific ocean near Santa Monica was announced today by the district investigating the murder of J. P. Kennedy. The butt was found last Saturday by a camper. It was announced it was on the shore at Santa Monica.

William Whyte, of Los Angeles, who found it said that he did not turn it in yesterday that the shooter he found had any connection with the Kennedy slaying.

### Standards of Taste of College Youths Is Lower Since War

STATE COLLEGE, Pa., Aug. 12.—Just as is lowering the standards of taste and the moral responsibilities of many college students, according to Prof. A. B. Warner, dean of men at Pennsylvania State college.

### Tug Boat Comes in During the Night; Wakes Up the City

Considerable excitement was created about midnight last night when a tug boat from Green Bay, came into port hauling a long drag of logs. Blast after blast of shrill whistles came from the boat. Escanaba people were awakened at the terrible noise, thinking all the factory whistles around the city were blowing for a fire or some other dread-ful happening.

### MAN WHO KILLED PRIEST HAS BUT LITTLE TO SAY

Stephenson, who killed him, was not member of any particular church, is claimed.

(By Associated Press.) BIRMINGHAM, Ala., Aug. 12.—Edward R. Stephenson, barber and some times preacher who yesterday shot and killed Rev. Father Croke, pastor of St. Paul's church, had little to say today regarding the slaying.

### London Protests Tax on Movie Films of U. S. Government

(By Associated Press.) LONDON, Aug. 12.—A letter protesting against the proposed American import tax upon motion picture films as "prohibitive and detrimental to the international interchange of ideas of life" appeared in a recent issue of the London Times, signed by sixteen British film producers who appended their signatures to the letter as members of the Incorporated Association of Kinematograph Manufacturers.

Mr. and Mrs. G. B. Elvid, 87, 1275 Stephenson avenue were pleasantly surprised at their home yesterday by a large number of their friends who called upon them to celebrate their silver anniversary. The couple were presented with a beautiful loving cup with their names engraved upon it, a nurse of silver and numerous other presents.

### ABOUT THIS TIME O' YEAR

### GULF STREAM OF BEER IN DETROIT RIVER IS DENIED

New Ruling of Ontario Courts Takes Ban From Exporting.

Michigan Prohibition Officers Say They Are Watching Carefully for Any Violations.

(By Associated Press.) DETROIT, Mich., Aug. 12.—Although a large amount of beer and whiskey is reported to have come across the border last night as a result of the Windsor, Ontario, court ruling in the temperance act, which does not prohibit exportation of intoxicating liquor to a foreign country, prohibition agents here said today that the situation was not as serious as public reports would indicate.

### Robbers Enter Hardware Store at Gladstone

Robbers enter through two doors and window; small arms ammunition is taken, but no money.

A band of robbers last night entered the Gladstone Hardware company store at Gladstone, drilling the locks on the doors and smashing one window to gain entrance. The job of drilling the locks was nearly done and the only thing in the place that was smashed was the window.

Chief of Police Louis Danielson, of Gladstone, stated this morning that five rough looking characters came into the upper bay city in a box car. Members of the Gladstone police department ordered them on their way as soon as they arrived. They took the advice and left. The chief stated that strangers continue to pour into the city every day from all over, making it necessary to be continually on the watch.

### LEVI OLIVE NON-SUPPORT CASE TO BE HEARD TODAY

Complaint is made against Gladstone man by mother-in-law; bonds fixed at \$300.

The preliminary hearing in the case of Levi Olive, of Gladstone, charged with non-support will be held in Judge C. D. McEwen's court this afternoon.

Olive was arrested on August 5th by Chief of Police Louis Danielson, of Gladstone, on complaint of the man's mother-in-law.

### Weather

For Escanaba and vicinity—Generally fair tonight and Saturday. Little change in temperature; gentle to moderate variable winds.

Weather Conditions—Pressure varies considerably this morning, limited high area, occupying the south Atlantic states, the upper lake region, and the British northwest. Moderate depressions prevail in the plateau region and in the lower St. Lawrence valley. Within the last twenty-four hours showers occurred in the greater portion of the lake region, the north Atlantic states, Tennessee and the Gulf coast.

### Three Booze Gases Will Be Heard the Early Part of Week

The preliminary hearing in the cases of G. H. Cleary, Ralph Cleary and Florian Sont, all three being held on two charges of manufacture and possession of intoxicating liquor, is scheduled for the first part of next week. The arrest of the three young men, who were alleged to be wholesale manufacturers of moonshine, was made on July 21 by Usher Sheriff Andrew Iverson, a number of deputies and members of the state constabulary.

### LETTER SENT BY DE VALERA IS EXPLAINED

It neither accepted nor rejected Irish peace proposals. Simply asked more information and it is thought will not interfere with the conference.

(By Associated Press.) DUBLIN, Ireland, Aug. 12.—The letter from Eamon de Valera, the Irish republican leader, delivered to Premier Lloyd George yesterday, is neither an acceptance nor a rejection of the Irish peace proposals, it was learned here today.

### SECOND BIG GROUP MEETING OF C. OF C HELD LAST NIGHT

L. C. Schrader, General Chairman, Presided Over Meeting; Will Get Back of New Charter.

The interest and enthusiasm last night in the group meetings held at the Elks temple were not one bit abated when the members gathered to make their suggestions for the program of work for the newly organized Chamber of Commerce.

### YEGG IS CAUGHT BY WATCHMAN; 2 MAKE ESCAPE

Safe cracker is believed to be the man who smashed three safes in Escanaba on Aug. 3.

Reports received in Escanaba this morning from Manitowish contain information that leads local police and others to believe without a doubt that one of the worst caught in Manitowish on the night of Tuesday, August 9, was one of a trio that smashed open three safes in Escanaba on the night of Wednesday, August 3. Three men were found in the act of smashing a safe in the same manner that the safe was smashed here at Manitowish on last Tuesday evening. One of the men was caught and the other two got away.

On Friday night, August 6, just two days after three safes in Escanaba had been smashed at the Standard Oil Company, Chafford Machine and Foundry Works and the Raymond Lox Leader company, had been smashed and entered, two safes at a coal office in Green Bay were entered and two German 1,000 mark notes and some loose change was taken. The safes at Green Bay were entered the same way as they had been here, and the job was done evidently by the same men.

On the night of August 9, a watchman on guard in one of the Manitowish business houses apprised the trio in the act of entering a safe. One man, said to be a young Finlander, was caught. The others made their getaway. This man was taken to Green Bay last night and will be held. From this one man it may be possible to get the rest of the gang that has been operating in this district.

### SUPREME COUNCIL FAILS TO SETTLE BOUNDARY MATTER

Premier Briand and Lloyd George Agree to Thus End the Question. France is Pleased With the Way Their Statesman Settled the Controversy at Session.

(By Associated Press.) PARIS, Aug. 12.—France and Great Britain have decided to refer the Upper Silesia question to the League of Nations, it was announced here today. This question involves throwing a spotlight between Poland and Germany in Upper Silesia and the decision which has been made, probably had saved a break in the supreme council.

This decision was considered here today to have solved the crisis which arose between France and England. The announcement said that "certain differences which had arisen between Italy, Japan and England on one hand, and France on the other, had given rise to the solution which had been decided upon."

At a meeting of the French cabinet which was held today, Premier Briand outlined what had been done by him and other representatives and the cabinet concluded in his actions by a unanimous vote. The premier went into detail especially concerning Upper Silesia, and the position which had been taken by the French delegation. The decision to refer the whole Silesian problem to the League of Nations was unanimously approved by both Premier Lloyd George and Premier Briand.

### Safe Cracker Is Believed to Be the Man Who Smashed Three Safes in Escanaba on Aug. 3.

Reports received in Escanaba this morning from Manitowish contain information that leads local police and others to believe without a doubt that one of the worst caught in Manitowish on the night of Tuesday, August 9, was one of a trio that smashed open three safes in Escanaba on the night of Wednesday, August 3. Three men were found in the act of smashing a safe in the same manner that the safe was smashed here at Manitowish on last Tuesday evening. One of the men was caught and the other two got away.

On Friday night, August 6, just two days after three safes in Escanaba had been smashed at the Standard Oil Company, Chafford Machine and Foundry Works and the Raymond Lox Leader company, had been smashed and entered, two safes at a coal office in Green Bay were entered and two German 1,000 mark notes and some loose change was taken. The safes at Green Bay were entered the same way as they had been here, and the job was done evidently by the same men.

On the night of August 9, a watchman on guard in one of the Manitowish business houses apprised the trio in the act of entering a safe. One man, said to be a young Finlander, was caught. The others made their getaway. This man was taken to Green Bay last night and will be held. From this one man it may be possible to get the rest of the gang that has been operating in this district.

The temporary forum committee held its first session at the Chamber of Commerce headquarters this morning to take up the initial steps for the organization of the members' forum. The first meeting of the forum will be held the first of next week. The committee in charge is working out an interesting program for the meeting. The members of the temporary forum committee are as follows: A. J. Young, chairman; J. A. Also, Gen. A.

# 1924 WILL SEE A BIG NEW TUNNEL BENEATH HUDSON

### Vehicular Tunnel and Bridge Will Be Built at a Cost of \$200,000,000, Completed in 1924.

NEW YORK, Aug. 12.—Projects for linking Manhattan with New Jersey by a vehicular tunnel and a bridge are expected to diminish the number of persons who reside on the island below Central Park.

The resident population of lower Manhattan decreased by 260,000 in the decade of 1910 to 1920 and every time a new building is erected it seems to strike still more. This is because the motive for nearly all construction from Fifty-ninth street down to the Battery is business, not bedroom.

New means of communication with New Jersey are expected to result in further business demands upon lower Manhattan's limited space.

New Jersey and New York are now linked only by ferries, trolleys and one railroad tunnelled beneath the Hudson.

The vehicular tunnel built by public funds of New York and New Jersey is expected to be completed in 1924. Construction of the approaches to the tube was begun several months ago. It leaves Manhattan Island downtown at a point below Fourteenth street.

The proposed bridge, which private interests are promoting, would cost \$200,000,000. A corporation has been organized to raise the capital.

This bridge would cross from New York island, Fifty-ninth street, and extend into New Jersey at Weehawken. Most of the ferries and all the tubes are below this point, but the growth of business in New York has already driven out many dwellings as far north of Fifty-ninth street and established office and loft structures.

The bridge's lower deck would accommodate twelve railroad tracks while on the upper span there would be room for sixteen vehicular paths, eight four-tray lines and two horse promenade. Supporting towers on either end of the overwater span would be taller than the Woodworth building.

In addition to these pathways between the two states a third is proposed in a bill introduced in congress to give a private corporation permission to build a pontoon bridge across the Hudson at Yonkers, just above New York City. Promoters of this scheme point out that the vehicular tunnel may not be ready for five years, while it would take even longer to erect the proposed bridge at Fifty-ninth street, but pontoons could be strung across the water quickly.

## Albuquerque C. of C. Tells Shipping Board Schooners Not Sought

WASHINGTON, Aug. 12.—The Albuquerque, New Mexico, Chamber of Commerce has informed Chairman Lusk of the Shipping Board that it is unable to figure out how to make use of a wooden ship in New Mexico.

Having received the board chairman's circular letter in wooden ship disposal, the chamber apparently devoted much thought to the problem and found that only the "Prairie Schooners" of the portage and the later schooners such favored for cargoes "made in Milwaukee, Cincinnati and St. Louis" had ever been successfully navigated in the state.

Secretary H. H. Watkins of the chamber, wrote:

"We are schoonerless. We are afraid we will be schoonerless for some time to come. It seems a pity for the reason that our population here were once sailors and coasters and many a coasting schooner."

"We are sorry we can't help you in procuring these wooden schooners. The 100 Grande just can't float here but we wish you luck. Adios."

A girl twenty years of age recently swam around Manhattan Island, forty miles in less than sixteen hours. In 1915 another woman performed a feat in eleven hours and fifty-five minutes.

## First-Woman to Be Speaker of House Is Given a Bouquet

WASHINGTON, D. C., Aug. 12.—When Representative Alice Robertson presided over the House recently during adoption of a resolution authorizing the United States to participate in the 100th anniversary of Peruvian independence, Ambassador F. A. Pezet of Peru sent to the first woman who has ever swung the House gavel a great bouquet of American beauty roses.

Republican Leona Mondell stopped proceedings in the House to spread in the record the official letter which accompanied the flowers for Oklahoma's Republican woman member.

"My dear Congresswoman," Ambassador Pezet wrote. "For the first time in the annals of history a lady representative in the parliament of a great nation became speaker pro tempore, the motion under debate being the passage of a joint resolution of the Senate and House of Representatives to the United States to participate in the

ple of the United States at the celebration of the one hundredth anniversary of the proclamation of independence in the sister republic of Peru.

"As the representative of the Peruvian government and nation in this capital I wish to express to you on this day my gratification in that the first event of a lady presiding over one of the branches of the legislature should have coincided with the taking of a vote in reference to a participation in my country's celebration. I wish in the name of the Peruvian government and people to present these flowers to you, bound with the colors of Peru, as a token of our respect and admiration for the great American democracy, the beacon light which guides the other free nations of America.

Very sincerely yours,  
F. A. PEZET,  
Ambassador of Peru."

## NEWSPAPER PUT BETWEEN TISSUE WILL LAST LONGER

### Important Files May Be Kept for Ages When Using This Method, Is Claimed.

NEW YORK, Aug. 12.—The problem of preserving for posterity important newspaper files which since wood pulp superseded rags in the manufacture of newspaper has baffled librarians all over the world at last apparently has been solved by officials of the New York Library.

After seven years of experimentation, backed by the cooperation of three New York daily papers each of which has spent \$5,000 a year to find the best preservative method the officials believe they have discovered the correct solution, that of mounting each newspaper sheet between two sheets of thin Japanese tissue.

This shuns the original sheet from the air, reduces its legibility but slightly, strengthens the page and permits its free handling without danger of disintegration.

As almost everyone knows the newspapers of fifty years ago were printed on rag stock and were tough and durable. You see them in the libraries almost in as good a condition as the day they were printed. Not so with the journals printed since the 70's and 80's of the past century, according to Harry M. Lydenberg, chief reference librarian of the New York

Public Library. Wood pulp paper becomes yellow and brittle after exposure, he said.

Bound volumes treated by the new process have been in daily use at the library for some time and are free from the marks of wear and tear shown by less fortunate contemporaries.

The library has a regular department for the treating of newspapers of three New York dailies. With the aid of recently perfected mechanical equipment it prepares the papers at a cost of about \$35 to \$40 a bound volume, which is paid for by the publishers in order that their papers may be preserved in the library archives.

The tissue paper used in the process is imported from Japan where it is made by hand. It is applied with rice paste, and adds only one-thousandth of an inch to an individual

sheet, making a volume about one inch thicker than it would be ordinarily.

"The paper problem is acute only in the case of papers printed on ground pulp stock," continued Mr. Lydenberg.

"Papers of the present period are certainly complete disintegration within a short time. Paper makers could make better stock if the pressure for speed was not so great and more time could be taken to wash the chlorine and other bleaching elements from the pulp. But makers must keep their cost down and that usually means a weaker grade of quality."

Mr. Lydenberg said that extensive experiments with chemical solutions put on new stock by spray or brush had failed because no chemical treatment would patch up torn sheets or fill in broken spots. The use of this form of thin light silk, also failed to

come up to the tests made with the Japanese paper.

Experiments are being continued at the library with the hope that some still better process of preservation may be found. He said experiments also were being made with an American manufacturer of tissue paper.

"We may also use this method to preserve old books," he added, "as it will work out the same there as with newspapers."

The new York method, Mr. Lydenberg said, is now used by a Chicago newspaper.

A prominent woman explorer from England who recently crossed the Sahara Desert deplores the custom of cutting off the hair and the adoption of mannish garb by women. She believes women should be better women—stronger men, and declares she could have worn a Paris gown in the desert if possible.
