

## IT IS "THE IRISH FREE STATE" NOW

### PEACE TERMS COME AT THE LAST MOMENT, BRINGING AN END TO LONG NEGOTIATIONS

British Cabinet Adopts Draft Agreement at Meeting Today.

Stain Fell Are Satisfied With Every Part of the New Agreement, Dail and Parliament Next.

LONDON, Dec. 5.—The British cabinet today adopted a draft agreement for peace with Ireland, which is expected to be signed by the British government and the Irish Free State.

The cabinet meeting was held in the presence of the prime minister, Mr. Lloyd George, and the foreign secretary, Mr. Curzon. The agreement provides for the establishment of a free state of Ireland, with a view to the withdrawal of British troops from the island.

The agreement is expected to be signed by the British government and the Irish Free State, and is expected to be a landmark in the history of the island.

The agreement is expected to be a landmark in the history of the island, and is expected to bring an end to the long negotiations that have taken place since the outbreak of the Irish revolution.

# LEE Puncture Proof Tires

withstood this

## "Torture Test"

TO PROVE beyond question that Lee Puncture Proof Pneumatics live up to their name, a car equipped with four of these sturdy tires was subjected to the "Torture Test" pictured above.

The car, containing four men, was run repeatedly back and forth upon improvised tracks—two planks from which 5,000 thirty-penny nails protruded, points upward.

Twenty-four keen-bladed butcher knives, edge up, formed part of the track. Fifty pounds of broken glass and 100 yards of barbed wire littered the approaches.

The tires used were not "special" in any way, and were not new—they had already delivered nearly 5,000 miles of non-puncture service.

Yet, this record is no more remarkable than the performance of Lee Puncture Proof Tires, year in and year out, in ordinary, every-day use, for the past ten years.

Equipped with Lee Puncture Proof Pneumatics, your car can be driven anywhere and everywhere, without fear—protected by our cash-refund guarantee against puncture.

# Dalton ADDING AND CALCULATING MACHINE

### SAVES MONEY AND CUSTOMERS FOR RETAILERS

Consider the thousands of dollars lost daily through mistakes made in totaling customers' purchases.

If a mistake is in favor of the customer it is often overlooked, if in favor of the merchant the customer wonders if the error is accidental—both ways you lose.

With a Dalton on your counter you can furnish customers with a neatly printed slip showing the price of items purchased and the total in cash. This slip shows Mrs. Brown that she has not been overcharged and inspires her confidence in the store, because she knows that you have installed modern accounting methods to protect her account.

At the same time, you will

be safeguarding your profits—you know positively that all items are charged for and that your total is absolutely correct.

The Dalton will also check your account register, check invoices, make out your statements and bank deposit slips, balance your daily cash, total outstanding accounts, and compute sales by days, weeks, months and years—enabling you to keep your finger on the pulse of your business at all times.

The 10-key Dalton is the simplest, fastest, most versatile and most durable adding calculating machine. With no obligation to yourself, ask to have one brought to your office and see how it can help you.

Duluth, Minnesota

## CARRIER RATES IN MICHIGAN ARE TO BE REVISED SOON

### Michigan Manufacturers' Association Appeared Before Public Utilities Commission Today.

LANSING, Mich., Dec. 6.—Representatives of the Michigan Manufacturers' Association and several civic organizations appeared before the state public utilities commission today to support their position that railroad rates on all carriers operating in Michigan be revised.

The Manufacturers' Association has filed a petition for revised rate schedules on the contention that railroad labor wages have been cut. Its representatives believe that a reduction of from 12 to 15 per cent in intra state rates should follow. Representatives of the Michigan Traffic League were also present at the hearing prepared to testify. They have filed a petition asking that rates be lowered to make them commensurate in other states and to make them more nearly equal to prevailing interstate rates. Support for the Michigan Traffic League is the State Traffic Bureau and nearly a score of national and commercial organizations. No hearing date has been set for the Traffic League representatives. The Michigan Manufacturers' Association petition.

According to officials of the Manufacturers' Association, rates in Michigan are almost everywhere the lowest in the country. They are being kept from the upper position to the lower position of neighboring states because the freight tariff amount equals the market price. This is done to protect Michigan producers.

The petitioners of today's hearing claim that they have collected data to set forth in detail how the present rates in this state are and how they should be. They are asking for a hearing on the subject before the public utilities commission and it is anticipated that the Michigan Manufacturers' Association will continue for several days to present its case. The hearing will be held in the first of the two petitions submitted are attracted considerable attention because of the state's position of its great number of large and influential manufacturers supporting the campaign for lowered rates.

## MANY STATIONS WILL LISTEN IN TRANS-ATLANTIC WIRELESS TEST

### Trans-Atlantic Wireless Test Will Begin Tomorrow at 7 P. M. Eastern Standard Time, Close December 16.

HARTFORD, Conn., Dec. 6.—Some two hundred stations in each state and in practically every city in the country are ready today for the first extensive trans-Atlantic wireless test ever planned. These will begin tomorrow at 7 p. m. Eastern Standard Time and close Dec. 16.

In all, between 15,000 and 20,000 stations will transmit during the tests which will be under the auspices of the American Radio Relay League. It is estimated that more than 10,000 stations will listen in.

To date there is no authentic record of an amateur station having been heard across the ocean, but it is predicted by Major F. H. Armstrong, former chief of the U. S. Army radio telegraph division, who is cooperating with the amateurs in the tests, that only twenty stations will be heard on the other side.

Hiram Percy Maxim, of Hartford, Conn., president of the Radio League, believes if the experiment is successful it will mean that amateur communication between this country and Europe will become a matter of every day occurrence, and that the non-commercial operator in any part of this country or Canada can forward messages to friends across the ocean at will.

Paul Godley will know wireless in vector, who five years ago protected the reparative receiver for amateur use is now in England cooperating with the British stations which will attempt to catch the messages from America.

Mr. Godley is acting as the representative of the Radio League overseas, and will be in touch with amateurs in France and Holland as well as with those in England. One receiving station he took with him has been installed near London, another in the north of Scotland.

## Cables Carry 47,000 Telephone Wires Under Single Corner of New York's Busiest Street

## HARDING HONORARY PRESIDENT MAGNA CHARTA DAY CLUB

### President Accepts Honorary Presidency of Magna Charter Day Association.

ST. PAUL, Minn., Dec. 6.—President Harding has accepted the honorary presidency of the Magna Charter Day Association, which seeks to further the cause of the Magna Charter.

The Magna Charter Day Association is a national organization which seeks to further the cause of the Magna Charter. The association has been organized in St. Paul, Minn., and has elected President Harding as its honorary president. The association's purpose is to promote the study and observance of the Magna Charter, which is the foundation of the American system of government.

## Science Cuts Frame House Fire Risk In Half

Plan by N. L. M. A. Shows Illustrates New Features of Fire Resistant Construction.

DAVIDSON from the fire insurance business has been reduced fifty per cent through improvements in construction worked out by the most conservative engineers in the industry today.

The improvements in construction are based on the use of fire-resistant materials and methods. These include the use of fire-resistant framing, the use of fire-resistant sheathing, and the use of fire-resistant roofing. These improvements have been shown to reduce the fire risk in frame houses by fifty per cent.

All That Was Left of a Frame Dwelling Built by Old Methods.

- (1) Fire stopping at all intersections of walls and partitions with floors, ceilings and roof.
- (2) Herring-bone fire stopping in partitions midway between floor levels.
- (3) Partition and wall corners framed solid.
- (4) Wall between porch and house sheathed solid.
- (5) Header beams 20 inches from the fireplace breast. Incombustible hearth.
- (6) Wooden members 2 inches from chimney, space between filled with loose incombustible material.
- (7) Plaster applied directly to chimney breast.
- (8) Flue lining in chimneys.
- (9) Top of chimney 2 feet above peak of roof.
- (10) Protection over heating plant.
- (11) Roof framing 2 inches from chimney, bashed, permitting free movement of chimney.
- (12) Top of heating plant 15 inches from ceiling.
- (13) Furnace 8 feet from warm air riser.
- (14) Sinker pipe 1 1/2 inches in diameter below the ceiling.
- (15) Heat pipes 6 inches below ceiling.
- (16) Doubled tin pipes, 3/4 inch air space between in partitions, kept 1 inch from all woodwork. Steam and hot water pipes 1 inch from woodwork.
- (17) Heat pipes running through floors, fire stopped with loose incombustible material.

# AN APPEAL TO THE ESCANABA PEOPLE

The Following Appeal Is Made by the Chamber of Commerce to Those in the City Who Are More Fortunate.

Unusually busy days marked the opening of the employment bureau established by the Chamber of Commerce yesterday and today men and women have been going in and out of the Chamber headquarters applying for jobs and positions. It cannot be too strongly urged upon citizens of Escanaba that it is a civic duty to make all jobs possible for those in need of work. Up to 10 o'clock this afternoon had applied for jobs.

Our unemployed do not ask for charity. They ask for an opportunity of earning a living wage. All applicants for employment will be classified according to the urgency of their need. Jobs will not be assigned to applicants in the order in which they apply, but a preference will be given to residents of Escanaba and vicinity who are most worthy and most in need of work, other things being equal. For identification each party assigned to a job will be given a card of introduction to the party who has agreed to furnish employment.

Everything is now in readiness at the Chamber of Commerce office to handle this important work. Men and women who need employment are invited to call in person and register. There is no charge of any kind for securing employment through this bureau. The Chamber of Commerce is only too glad to render such services.

Anyone who goes out of his way to provide a job for someone in this time lends his community a distinct service. For the people of Escanaba, no better opportunity has existed in recent years to apply the Golden Rule among our own people to render an unselfish service to the city in which we live and make our living than now. During the week to come we must have jobs and many of them.

The Chamber of Commerce headquarters are back of the Fair National Bank. The telephone number is 2434.

Any person who has marked the opening of the employment bureau established by the Chamber of Commerce in this city and who has been given a card of introduction to the Chamber of Commerce headquarters is invited to call in person and register. There is no charge of any kind for securing employment through this bureau. The Chamber of Commerce is only too glad to render such services.

These registers are being divided into three groups. First group, those who have been given a card of introduction to the Chamber of Commerce headquarters in this city and who have been given a card of introduction to the Chamber of Commerce headquarters in this city and who have been given a card of introduction to the Chamber of Commerce headquarters in this city.

Billy Moore and Billy Murphy, comedians with "Listen 74 Me" as "Chocolate Dog" and "Peppermint Stick" coming to the Deft Theatre, Wednesday Night, December 14th.

Four Men Arrested and Given Fines. Police officers charged with the task of enforcing the prohibition law in the Hamilton and Kane cottages at Forest Beach, which were broken into last night.

seems control the first of the year. Under the proposed new plan the White Wax, with its softest leaf, would be done away with. The effort would be made to make the leaf a purely educational institution.

## HORTICULTURAL CONVENTION WAS OPENED TODAY

Fifty-first Annual Convention of Michigan State Horticultural Society Opens Today in Grand Rapids.

(By Associated Press) GRAND RAPIDS, Mich. Dec. 7.—Members of the Michigan State Horticultural Society gathered here today for their fifty-first annual convention, which opened in a number of addresses by experts in fruit raising and in the holding a business session in which reports will be presented.

## BREAK CHEST COLD WITH RED PEPPER

Take your light, aching chest, stop the pain, break up the congestion. Feel a hot, red, burning in your chest. Red Pepper Rub is the only remedy that brings quick relief. It penetrates and drives the congestion and soreness right out. Nothing has ever concentrated so much relief in so few drops, and when hot, penetrating steam goes into cold, congested, aching nostrils, and warms stiff joints, relief comes at once.

## THAT DULL ACHING

Don't worry and complain about a dull back. Don't rub it. For week after week, your back aches, your muscles tremble, your knees rattle, your nerves twitch. You're not getting any younger. You're not getting any weaker. You're not getting any sicker. You're just getting that dull, aching back. It's not a sign of old age. It's a sign of a dull back. It's a sign of a dull back. It's a sign of a dull back.

### J. W. Fordney Shows Need For United States Valuation

Congressman Points Out Necessity for New System Incorporated in Tariff Bill

We are importing at the rate of about \$300,000,000 worth of foreign goods per month into the United States, declares Congressman J. W. Fordney, Chairman of the House Ways and Means Committee. Most of these goods could be made here. There is not a manufactured article produced in the United States in which the labor cost is less than 50 per cent of the total cost—1 man, following the raw material from start to finish. Now, if that is true, of the \$300,000,000 that we are importing abroad each month to buy foreign-made goods, \$250,000,000 is going out from the people of the United States to employ German, French, English, Japanese and Chinese labor, while our laborers are waiting the streets in idleness.

Congressman J. W. Fordney, Chairman of House Ways and Means Committee.

Under free trade we must come to a common level somewhere, if we compete with all the countries of the world. Today German labor is getting from 60 to 75 cents per day in gold for the average hours' Japanese and Chinese labor today is 12 to 18 cents per day in gold for twelve hours' work. How can we be placed on a par with the laborers from those countries, no, you believe we could fit those foreign countries up to the standard of living of the U. S. We have got to show them a common level, we have got to show the rest of the world that we are not going to do it.

Revisions Demanded  
The people of the country are demanding that the tariff be revised so that it will be a fair and equitable one. There is no place in the world where the value of the goods is higher than in Canada. Canada has a tariff which is higher than the rate here of 10 per cent. It is not fair to have a tariff here which is lower than that of our neighbors. Last year Canada collected \$1,000,000,000 in import duties and every year she collects more. It is not fair to have a tariff here which is lower than that of our neighbors. Last year Canada collected \$1,000,000,000 in import duties and every year she collects more. It is not fair to have a tariff here which is lower than that of our neighbors.

will be very suitable and pretty Xmas gifts. Every lady is urged to make a special effort to drop in at the Style Shop and make a selection of some of those Xmas gifts. A light lunch consisting of coffee, sandwiches and cake, will be served for which a small charge will be made.

NOTICE

### 35,000 Armenian Kiddies, American Trained, the Hope for Future Peace

Boy Scouts of Near East Relief Orphanage at Alexandropol, Armenia, where 18,000 youngsters are cared for.

The baseball diamond, the football gridiron, boy and girl scout organizations, and other institutions of the American youth will play their part in the final peace in the Levant, according to Charles V. Vickrey, general secretary of the Near East Relief, who is now on a tour of inspection of the work being done by that organization in Transcaucasia.

Behind the walls of American schools and orphanages, one finds the only tranquil spots in this whole troubled territory," he writes. Here, despite disorder, pestilence and starvation, outside the gates, ambitious young Armenian boys and girls are making the best of the opportunities offered them by their American teachers. If only our work can be continued until these children reach maturity, a new generation will arise to face the problems of the Near East with the benefit of their American training to help them. At present, however, we are confronted by the possibility of having to abandon them because of lack of funds. This will mean not only the wasting of what has already been accomplished but will also mean the death of the new
