

PASTOR ABDUCTED AND THROWN IN A DITCH

MARRIED PAIR IN BATH SUITS; FLOCK PEEVED

Knocked Senseless and Tossed Into An Automobile.

Found Later in Muddy Ditch, Bound and Gagged and Suffers No Ill Effects.

(By Associated Press)
Lawton, Okla., May 1—All factions of his congregation here today were discussing the abduction last Saturday night of Rev. Thomas Irwin, pastor of the First Presbyterian church who was found lying in a mud-filled ditch, twelve miles east of here, early Sunday morning, bound and gagged and in a semi-conscious condition.

Rev. Irwin, whose removal is sought by a portion of his flock, because he has moving pictures in the church and also because he married a couple in a public bathing pool, will be tried on May 9th by the Presbytery for conduct unbecoming to a minister. Recently the pastor announced that certain persons were trying to intimidate him and force him to leave town.

According to his story, three men stopped him on Saturday night and knocked him senseless, with a blow on the head. When he awoke, he said he was in a moving automobile and was tied hand and foot as well as being gagged. One of the men was sitting upon him.

Soon afterward, he claims he was thrown from the motor car into a ditch and although he succeeded in hailing several automobiles, none of them would stop. He says he was in the mud hole for three and a half hours, when some people came along in a car and took him to a nearby residence. Today he appeared none the worse for his experience.

OLDEST ENGINEER ON DIVISION PUT ON PENSION LIST

Tom Greene Pulls Train Into Escanaba for Last Time Yesterday Morning.

Thomas Greene, the oldest engineer on the Peninsular Division of the Northwestern, brought his train into Escanaba from Green Bay for the last time in his official capacity yesterday morning.

Mr. Greene yesterday went on the pension list. He is 71 years of age and has passed that time of life when the road rules make it incumbent on him to retire.

Thomas Greene became a fireman in 1871. Two years later, during 1873, he made his first run as an engineer and he has been pulling trains ever since. His record is splendid and he has hosts of friends in both this city and Green Bay, between which towns he has run for years.

GREAT THIRING PAYS A FINAL TRIBUTE OF RESPECT TO DEAD

Impressive Funeral Services Held Sunday Afternoon for Mr. and Mrs. Leonard Spaulding.

Deeply impressive funeral services were conducted at Garden yesterday afternoon by Rev. Hoehfeld, pastor of the Congregational church, for Mr. and Mrs. Leonard Spaulding, whose deaths resulted from a San Line freight train crashing into their automobile at Masonville last Wednesday morning.

The funeral was one of the largest ever held in the eastern part of the county, where Mr. and Mrs. Spaulding had lived for years. Hundreds of persons from all over the county assembled to pay their last respects to the aged couple who had spent so much joy and sunshine throughout the community during their long life in it and the church was wholly inadequate to the demands made upon it for seating capacity.

MILK PRODUCERS HOLD ANNUAL MEET IN THE CITY HALL

Old Board of Directors Re-elected and Management Complimented on Success Last Year.

The annual meeting of the Delta County Milk Producers Association was held in the city hall today. About 230 stockholders were present and the meeting proved extremely profitable and enjoyable.

Reports were submitted by the secretary in which it was shown that the year had been very successful considering the fact that last fall a great many pastures were burned up and a large part of the milk supply was cut off, only about half as much milk and cream coming to the creamery as it could handle.

SOCIAL NOTES

Kositzke-LaForest
A pretty marriage ceremony was performed Saturday afternoon at one o'clock when Miss Martha Kositzke, daughter of Mr. and Mrs. Paul Kositzke, of 613 South 17th street, became the bride of Henry LaForest, son of Mr. and Mrs. Henry LaForest, of Flat Rock. The ceremony was performed by Rev. C. A. Doehler at the German Lutheran parsonage.

The bride was attired in a gown of navy blue tulle and carried roses while the bridesmaid, Miss Bertha Kositzke, a sister of the bride, wore a dress of navy blue silk and carried roses. Otto Kositzke, a cousin of the bride, acted as best man.

After the ceremony a wedding dinner was served at the home of the bride's parents, covers were laid for 25. The bride is very popular among the younger set, having been born and reared in this city. The bridegroom has been located at Detroit for some time where he is employed as a carpenter. The couple left today by motor for Detroit, where they will make their home.

Sunday School Worker to Speak
The day evening, May 2, this city will be especially favored by having John H. Engle, executive secretary of the Michigan Sunday School Council of Religious Education, speak at both an afternoon and evening session. This new organization is the bringing together of the work carried out by the Michigan Sunday School Association and also the Sunday School and Young People's department of sev-

eral prominent denominations of the state. Arrangements are being made for him to speak at the High School in the afternoon on the subject, "Public Schools As I Saw Them in the Orient" from information gained by him during his trip to the World's Sunday School Convention in Tokio, Japan. In the evening he will speak at the Presbyterian church, the service beginning at 7:30. This meeting should be of interest not only to people engaged in Sunday School work, but to every person who has at heart the uplifting of the community through the proper education of its young people. Mr. Engle is a man of wide experience, having spent about seventeen months in Sunday School work in a neighboring state before coming to Michigan. This is his first tour of the Upper Peninsula and the public is especially urged to hear him while in this city.

In The Hollow Of Your Hand!

By ELLIS PARKER BUTLER

IN your hand today is the life of a little child. No one but you can save that child. You can save it, if you wish, or you can leave it to die a slow death from the horrors of starvation. The Near East Relief, facing a dwindling treasury, cannot save it. If you do not rescue it, no one can. YOU HOLD ITS LIFE IN THE HOLLOW OF YOUR HAND

THE SLAUGHTER OF THE INNOCENTS

A FEW days ago one of the greatest tragedies of modern times was decreed in New York City. With a few words and a few strokes of a pen thousands of innocent little children were condemned to die within the next ninety days.

All the train wrecks, shipwrecks, murders and suicides of a whole year do not involve as many lives, as much sorrow or as cruel injustice as must follow this one act.

There was no alternative. The jury that pronounced the death sentence was composed of big-hearted, warm-hearted, judicious men—themselves fathers of little children, but they were forced to sentence to death children as rightly entitled to life and happiness as the children in their own homes.

This jury was the committee of the Near East Relief. Before them lay seventy pages of cablegrams and reports from Jerusalem, Beirut, Cilicia, Constantinople, Asia Minor, the Russian Caucasus. In the cablegrams were these words:

"Hunger spreading over new areas"
 "Death from starvation increasing"
 "Hasten food"
 "Never have seen such suffering and tragedy"
 "Next two months most critical. Death rate appalling unless additional funds available!"

"Alexandropol reports 25,000 destitute starving"
 "Unless seeds secured Armenia finished"
 "American seed wheat for Armenians is only hope of preventing worse conditions next winter"
 "Impossible to tell of misery in spite of enormous work of Near East Relief"
 "Children dying in all corners of Erivan"
 "Armenian Government at end of resources"

"Two hundred thousand Cilician refugees now scattered through Beirut-Constantinople areas"

"Mersine shore crowded with refugees"

"Ten thousand Armenian refugees with many children arrived Beirut; thousands Tripoli, Tyre, Sidon"

"Emergency demands immediate action; thousands camped by roadside"

"Widow refugees begging us to save their children"

What did the Committee do? This cry for help demanded that it send twice what was

being sent. What did the Committee do? Even an additional 50% increase might save thousands. What did the Committee do? It was forced to vote, not an increase, but a 25% cut in the already inadequate appropriations.

Why? Because contributions were decreasing and the treasury balance already depleted. Money was lacking. The children must die.

In the Near East 100,000 children are now in orphanages under American protection. These have been invited to our table and cannot be driven away to die. These children, the Committee is determined to save, and will save.

Unless We Come to the Rescue, 25,000 Children Will Die

But there are at least another hundred thousand orphaned children, many now dying in spite of

all that can be done. The 25% cut in appropriations in actual fact orders the slaughter of 25,000 of these innocents in the Bible lands. Their death is as certain as if they were lined up and shot down with machine guns.

They are the children—there are other hundreds of thousands of equally helpless women and girls, driven from their homes by war and famine. These, too—Christian refugees in Bible lands—now stand sentenced to death by starvation. War and famine and chaos still have their death grip on the Near East. Without help the committee can do no more. Shall the children die?

The Life of One of these Little Children is Actually in the Hollow of Your Hand Today

The Near East Relief has been forced to place it there. Five dollars a month—\$60 a year—saves a life. Will you give in order to preserve a life or will you countersign the death sentence of one more innocent child?

American Generosity has saved the lives of a million Armenians
 Over 100,000 Near East orphans are being fed, clothed, housed and educated.
 179 Near East Relief orphanages in the Near East. The mess tables, if placed end to end, would extend over 24 miles.
 18,000 boys and girls—probably the largest collection of orphans in the history of the world—in the orphanage at Alexandropol.
 1,000 in an orphanage at Constantinople in a former Turkish Military School.
 As many as 200,000 persons served a day at the food stations.
 At the Russian Garden at Tiflis, a cup of cocoa and a quarter of a pound of bread a day keeps 6,259 children healthy and happy.
 These children are not only orphans, fatherless and motherless, but most of them have no known relative and many of them, orphaned in infancy, do not know their own names.
 They are children of Christian martyrs and have no hope except help from America.
 Will you let them perish?

"Let's Make Escanaba A Better City"

PACIFISM GETS AN ANSWER.

Those pacifist gentlemen in Washington who have allowed themselves to be misled by the idea that the men of America have no interest in the question of national defense might learn something by considering with open mind the figures given out from the war department in connection with the plans for providing military training in the summer camps this season. The department estimates that 227,000 men will participate in the activities of these camps. Of this number, 27,000 will attend the citizens' military training camps, 30,000 will attend the organized reserves' camps, 160,000 will attend the National Guard camps, and 10,000 the R. O. T. C. camps.

This is an impressive showing when one remembers that the work will all be volunteer work inspired by an enlightened sense of patriotism. But to get the real effect one must also understand that less than one-third of those who desire to receive training can be accommodated in the camps at the disposal of the war department, although three times as many men are to be trained as were trained last year. In other words, if the war department could take care of all applicants, nearly three-quarters of a million Americans would be at school within a few months learning the rudiments of military science and service.

This eagerness to become a part of the reserve fighting strength of the nation is not due to any spirit of pugnaciousness. It would be a very simple person, indeed, who would imagine anything of the sort. It is for the most part, a result of thoughtful desire among the young men of the country to become part of the reserve fighting strength of America so that in the event of another great emergency the United States will not go into war unprepared, and obliged to depend upon the protecting power of another nation's fleet while she trains her millions of raw recruits.

So spontaneous a mass action by hundreds of thousands of the most intelligent element in the republic's citizenship, is a direct and sharp rebuke to the destructionists in Washington who have been operating with direful effect on the regular army establishment and have begrudged every cent allowed for citizen training. Perhaps these "statesmen" may wake up when they realize the feeling among a great mass of men of intelligence all of whom have votes and can influence votes and are likely to do so, once they are aroused to a sense of their responsibility for the country's safety.

ILLINOIS MINERS EDGING OFF.

The statement by Frank Farrington, president of the Illinois coal miners that a conference between his organization and the Illinois operators is not far off, will not be particularly good news for the heads of the national body, because a separate state settlement will mean that about ninety thousand men will return to work. But on the other hand, the union leaders have no right to be surprised at Farrington's announcement, and if they are wise they long ago took into account the probability that something of the sort would happen.

The Illinois miners never were more than luke warm regarding the walkout. Before it occurred, they publicly served notice through an authorized spokesman that they would remain on strike as long as possible in order to "support their weaker brothers," but would bolt the ranks of the strikers before they the Illinois men) became demoralized. And John F. Walker, president of the Illinois Federation of Labor, speaking as a miner, provided a significant revelation of the condition of mind among his fellows by remarking, "For fifteen years we struck, struck every year, when April 1 came. We struck whether we had anything to strike for or not, just to show them that we had an organization. The cemeteries in the Egypt coal fields are dotted with the white stones that mark the graves of women and children who starved to death in those strikes."

Plainly the Illinois miners of today have no intention of continuing what they think was a great piece of foolishness. And it is no secret that they carefully avoided anything like a rupture of good feeling with their employers when they quit work. Nor is there any reason to support that they will have much trouble in obtaining a conference if they ask for one, because the operators from the beginning have stood ready to meet them.

THE STRIKE IN DUBLIN.

The one day strike in Dublin proved, after numerous conflicting and disquieting rumors, to have been an orderly protest of labor against the disorder, and bloodshed due to the activities of the Republican army. What the strikers demanded was peace, and one army under one command. All accounts agree that the demonstration tied-up the industries of Dublin and put a stop to every form of public service.

That could have been accomplished only by a large number of well organized men, and the episode suggests strongly the correctness of the view that a great majority of Irishmen disapprove the violence which disturbs their country, and favor a settlement of the questions now confronting Ireland by lawful means.

How far the demonstration will affect the conduct of de Valera and his followers remains to be seen, but if they do not take the broad hint that was conveyed to them by the strike, it may be that they will be taught by more effective means. Certainly an organization which worked smoothly and effectively in a peaceful demonstration of power, can use that power in less good humored ways.

WRECKS NERVOUS SYSTEM WITH HEADACHE DOPE!

Victim Thankful for Recovery After Taking Well-Known Remedy

Any reliable physician will tell you that thousands of people are today suffering from various serious ailments brought on by the use of so-called headache tablets, powders or capsules. These remedies are only temporary in their nature and leave the system in an exhausted condition. Read what one victim of headache powders has to say on the subject:

"I feel that if anyone can recommend Dr. A. W. Chase's medicines I certainly can. I suffered for ten years from severe headaches, and although I took all kinds of headache powders they just relieved me at the time. I became very nervous and run down and everything seemed to trouble me. I have taken eighteen boxes of Dr. A. W. Chase's Tonic Pills and it has made an entirely new person of me. I felt that could not have lived with out them. I do not have one headache now for every

hundred I used to have, and my nerves are good and strong." Mrs. Lena A. Smith, Country Harbor Cross Roads, N. S.

Dr. A. W. Chase's remedies can be obtained at any first class drug store. To be sure of getting the genuine, see that the portrait and signature of A. W. Chase, M. D., are on each box. This trade mark is your protection against imitations and substitutes. —Advertisement. 6

NATIONAL O. R. C. IS HAVING CONVENTION IN CLEVELAND NOW

President Sheppard Will Outline the General Policies of the Order.

CLEVELAND, O., May 1.—The thirty-seventh session of the Grand Division of the Order of Railway Conductors, which has a membership of sixty thousand, will be held here May 1 to 11, with the Ladies Auxiliary meeting at the same time.

A public session on the evening of Monday, May 1, will open the convention, with Governor H. L. Davis of Ohio, Mayor Fred Kohler of Cleveland, Newton D. Baker, former secretary of war, and L. E. Sheppard of Cedar Rapids, Ia., president of the order, on the program for addresses. Mr. Baker is expected to speak as a representative of the business interests of the city.

Mr. Sheppard will give a general outline of the policies of the order. The Order of Railway Conductors was organized under the name of "The Conductors' Brotherhood" in 1895, as a social, fraternal and insurance organization. In 1899 it became what is known as a protective labor organization, being the last of the four organizations in train service to adopt a protective policy. Soon after the change in policy it began collective bargaining with representatives of the railroad companies thru committees chosen by conductors on the various lines. It reports that now conductors on ninety-nine percent of the railroads in the United States have contracts with the companies governing rates of pay.

The organization conducts an insurance department a relief department for the care of disabled or incapacitated members, and contributes to the maintenance of a home for disabled railway employes at Highland Park, Chicago. It also has pension and accident insurance departments. While asserting that the order does not participate in sympathetic strikes President Sheppard states that it gives "all moral and financial support, possible to every consistent labor organization and is taking an active part in political, non-partisan labor efforts." It maintains a vice president in Washington to keep in touch with national legislation.

The cross of Military Valor, given by the Italian government to World war heroes, was bestowed recently upon Oscar F. Miller, Jr., of Los Angeles, Cal., in the name of his father, Major Miller, who was killed in the battle of the Argonne. The Congressional Medal of Honor was also bestowed posthumously upon Major Miller.

The first lead of graphite pencil was made in England in the reign of Queen Elizabeth.

NOTICE TO CONTRACTORS

Bridge File Number 490,801. Sealed proposals will be received on May 12th, 1922, at 1:30 P. M. Central Standard Time, at the office of the District Engineer, State Highway Department, Escanaba, Michigan, by Frank F. Rogers, State Highway Commissioner, for the construction of a 45-foot span reinforced concrete bridge located on Trunk Line Route No. 12 on T. I. Project No. 12-22 at approximately Sta. 262, crossing Brevoort River in Section 13-14, Town 42 N. Range 6 W., in Moran Township, Mackinac County, about 9 1/2 miles north-west of Moran, being bridge file Number 490,801. Description—The general nature of the work to be done is as follows: Substructure will consist of two 11 inch plain concrete abutments and will contain about 149.5 cubic yards of 1:7 1/2 concrete and about 614 pounds of steel dowels. Superstructure will consist of one 45-foot reinforced concrete girder with 22-foot roadway on a 4 1/2 degree angle of crossing, and requires about 169.9 cubic yards of 1:5 concrete and about 18,500 pounds of reinforcing steel. Foundations—The nature of the material to be excavated for abutments is not known. The Engineer will decide as to the necessity for piling after excavations are completed. General—Removal of the old bridge is required. Traffic will be maintained by temporary bridge and detour. The contractor will supply his own cement. Plans, specifications and proposal blanks may be received by writing to Frank F. Rogers, State Highway Commissioner, Lansing, Michigan. A certified check in the amount of \$500.00 is required with all proposals. The right is reserved to reject any or all bids. Lansing, Michigan, April 21st, 1922. FRANK F. ROGERS, State Cement Commissioner, 121

Alumni Program Is Unsatisfactory Here Saturday Evening Many local alumni of Michigan University were somewhat disappointed Saturday night by failure to bet the program sent out from Detroit. Static troubles developed and it was impossible to get anything but brief snapshots of the program now and then. Big crowds gathered at both the Blomstrom & Peterson and the Needham stores but there was "trouble in the air," to speak, and results were not satisfactory.

PHYSICAL CULTURE

WEEK STARTS TODAY COVERING NATION

Campaign to Improve Health of All Citizens Is to Be Made Intensive.

In the personal program to be followed this week, Rule No. 3, says, "Treat your stomach with respect." The habit of overeating is very common. It is an evil habit because it produces a great many ills.

We have been appalled at the large percentage of malnourished children found in some of our cities within recent years. Regardless of this, we are told that there are more people who die from overeating than from starvation. Some of our malnourished people have ravenous appetites and eat a great deal more than would, under normal conditions be necessary. One reason for this is a lack of certain elements in the food that are necessary for health. The body misses these elements and there is a craving for them. The person mistakes this craving, thinks it is ordinary hunger, and eats more food, regardless of whether the food contains the needed substances or not.

The following is a well-balanced menu, wholesome, palatable meals, containing all the elements necessary for health, and which can be prepared at a reasonable cost. At the present time when milk and eggs are being sold at a reasonable price, the economic housewife will use these articles of food in place of meat, as often as possible. With milk selling at eight cents a quart, three quarts of milk can be bought for practically the same amount as we would pay for one pound of meat. One dozen eggs can be bought for the same price as one pound of meat.

Milk and eggs take the place of meat as meat substitutes. When we consider the actual value of food, not in dollars and cents, but in giving nourishment to the body and promoting health, milk and eggs at any price are cheap, but at the present price they are a source of economy in feeding the family.

Milk can be used in a great many ways. Milk soups are delicious, easily digested, wholesome and nourishing. Some people, especially children, who do not care for vegetables, will eat them if prepared with a cream sauce.

Green vegetables and fresh fruits are sold at a price that would seem to be beyond the means of people with small incomes, but when one compares dollars and cents with good health, and knowing the health promoting substances obtained from these articles of food, the economic housewife will omit pastries and rich sweet foods and judiciously buy the vegetables and fruits that are so necessary for health.

Balanced menu for one day: Breakfast Oatmeal with top milk Toast and butter Stewed figs Coffee for adults, milk for children Dinner Broiled Hamburger Steak Baked Potatoes Cabbage Salad Bread and butter Creamy rice pudding Tea for adults, milk for children Supper Tomato soup with wafers Whole wheat bread Peanut butter Milk Stewed prunes

Marcus McRae, who is a student at the Michigan College of Mines at Houghton, arrived in the city last night and will spend a week's vacation at the home of his parents here.

GIRLS MEN MARRY

By Laurel Gray

When a girl marries, she may be sure to have a very romantic and happy life. It is not, as many people think, a life of monotony and dullness. In fact, it is a life of adventure and excitement. The girl who is loyal is one with high courage. A loyal girl must make sacrifices, before and after the episode of the altar. Loyalty is one of the most useful of human attributes, yet it is the one which of ten returns the greatest rewards. Discerning men discount many feminine weaknesses and even vices, but a girl who is wavering in her loyalty, finds it difficult to hold a regular sort of a fellow very long, and her marriage is invariably a sad affair.

KEMP'S BALSAM for that COUGH!

Indigestion Unchecked Leads to Poisoning!

Fermentation of Food in Digestive Organs Causes of Trouble

If you suffer from indigestion it is a sure sign that your system is being slowly poisoned by the fermentation in the intestines. This condition produces heartburn, choking sensations in the chest, a feeling of heaviness or drowsiness, irritability, discouragement and despondency. Mr. M. J. Christopher, 8724 Keyser Street, Germantown, Pa., long a sufferer from indigestion, writes: "Before using Dr. A. W. Chase's medicine, I felt so badly that I did not care whether I lived or died. I suffered from indigestion and my stomach would be so upset that even a piece of bread and a cup of coffee would give me great pain. Since taking Dr. A. W. Chase's K-L Pills I can eat almost anything without feeling any after-effects. The sore, acy feeling which I used to have in the lower part of my back is gone, and I feel so ambitious to do many things which I could not do before."

You can buy Dr. A. W. Chase's medicine at all drug stores. To be sure of getting the genuine, see that portrait and signature of A. W. Chase, M.D. are on each box. This trade mark is your protection against imitations and substitutes.—Advertisement

OBITUARY

MRS. JAMES BEDORE

Mrs. James Bedore, 24 years of age, passed away at a local hospital Sunday afternoon at 4 o'clock, following an illness dating back to last November, although she was not in a critical condition until Saturday night, when she was hastened to a hospital.

Mrs. Bedore was a daughter of Mr. and Mrs. Michael Foy and had many warm and sincere friends here who will learn of her death with the most profound regret. She is survived by her husband and one daughter, 7 years of age. She also leaves, besides her father and mother, the following brothers and sisters: Mrs. George Kemot, Merrill, Wis.; Mrs. Alice Dittke, Maurice Foy and Edward Foy, of Milwaukee, and Mrs. Nellie Lawrence of this city.

The body was taken to the Anderson & Buchanan undertaking parlors to be prepared for burial and was returned to the home at 328 South Ninth street. Arrangements for the funeral had not been completed this afternoon.

FRANCIS JOHNSON

Francis, seven-months-old son of Mr. and Mrs. Otto Johnson, 1108 First Avenue North, passed away at a local hospital Sunday evening following a brief illness of pneumonia. The body was taken to the Allo Funeral Home to be prepared for burial and was returned to the Johnson home at 3:00 o'clock this afternoon. Funeral services will be held at 2:00 o'clock to-morrow afternoon at the home, Rev. C. A. Lund officiating, and burial will be made in Lakeview cemetery.

CURRIE FUNERAL

Funeral services were held in Manistiquet at 2 o'clock this afternoon for Mrs. Duncan Currie, who was killed in an automobile tragedy seven miles this side of Manistiquet last Friday evening, following a visit to this city. Mrs. Currie's neck was broken. It was said, although she was not thrown from the car, when a front wheel came off, nor were any marks discovered on her body. Several Escanaba people attended the services this afternoon.

Mothers' Club Asks Public Co-operation

(CONTINUED FROM PAGE ONE)

tional Congress, and in this work we need the co-operation of parents, fathers as well as mothers. We feel that the homes and the schools are developing future citizens, future law makers as well as those who will merely abide by the laws as made. Co-operation, team work and a genuine understanding and sympathy between home and school is absolutely essential if either home or school is to function to its maximum capacity. We hope to develop an organization that will so function as to assure our boys and girls the best environment that it is in our power to provide for them.

Aims Of Association

The aims of the Parent Teacher's Associations are, in part, as follows: To raise the standard of home life. To develop wiser, better-trained parenthood.

To bring into closer relations the home and the school that parent and teacher may co-operate intelligently in the education of the child.

To surround the childhood of the whole world with that loving, wise care, in the impressionable years of life, that will develop good citizens, instead of lawbreakers and criminals.

To interest men and women to co-operate in the work for purer, truer homes, in the belief that, to accomplish the best results men and women must work together.

To rouse the whole community to a sense of its duty and responsibility to the blameless and neglected and dependent children, because there is no philanthropy which will so speedily reduce our taxes, reduce our prison expenses and reduce the expenses of institutions for correction and reform.

To Better National Life

The work of the Congress is civic work in its highest sense and is an organized effort for a higher, nobler national life which can only be attained through the individual homes.

Our next regular meeting will be held in the Barr School building, Wednesday afternoon at four o'clock. We hope that every mother in the Barr School district will plan to be present at this meeting and that many will come prepared to join our association. Please do not wait for a personal invitation to join with us, for there are many parents in this district and it is practically impossible to see each one personally. Do your bit by joining without further solicitation. We need the parents, and we hope to become so efficient an organization as to be indispensable to the parents.

Cedar River Bridge Out and Crossing Is Now Being Repaired

Information from autoists is to the effect that persons going from here to Menominee should be advised that the bridge over Cedar River is out and about 150 feet of the road has been washed away. Work is understood to be in progress on this bridge, which has been replaced by a small footbridge but it will be some time before the river can safely be crossed.

THE WEATHER

For Escanaba and Vicinity—Increasing cloudiness tonight, rising temperature; Tuesday probably showers; moderate south winds tonight, becoming fresh Tuesday.

THRIFT

Save and prosper in the management of one's resources

AN AGENT in writing of his experiences said that one of his clients had let his policy lapse because he was "too thrifty" to pay his premiums. "He is mean enough to skin a flea for its pelt," said the agent.

This sounded like a mistaken idea of thrift, and we turned to the dictionary, where we found the definition quoted above. We also learned that both "thrift" and "thrive" are derived from the Icelandic word "thrifta," meaning "grasp."

This is a suggestive thought, one cannot thrive (i.e., grow or prosper) without thrift, and thrift does not imply merely getting, but grasping, or holding with a firm grip that cannot be loosened.

Most people give more thought to getting than holding. They may accumulate property, but is that a sign of thrift? Not necessarily—not unless there also be full provision for holding what has been acquired. This means the elimination of all avoidable risk.

Fire loss is one of the greatest of these avoidable risks and Fire Insurance is a perfect tool of thrift.

However industrious and saving a man may be, if he is in a position to be ruined by fire he cannot claim to be thrifty.
