

# Rally to Call for "Red Blooded Men"

Many Heed Request of Baptists to Aid in Big Task Assist in Raising \$15,000,000 Fund by End of April

An extraordinary new organization of men was recently formed in Chicago. "By men, with men and for men," was announced as its motto. It asked "Red-blooded men to dead earnest" to take "a man's work in a big man's job."

With this slogan and this purpose in view the Northern Baptist Laymen's Council came into being. It is acknowledged that, in these modern times men consider church work their work. Heads of great business enterprises regard denominational undertakings as a part of their business. Religion challenges "red-blooded men" efforts worth their while. All over the Northern Baptist Convention, which consists of 34 states, men are rallying to the needs of their denomination.

The first "big job" of the Northern Baptist Laymen's Council is to aid in raising \$15,000,000 by the end of April, for denominational work at home and abroad. Northern Baptists are in the midst of a great denominational crisis. Unless the money they are striving to raise is on hand by the first of May, work on the home and foreign fields, so carefully built up and added to through many years, must be retarded at a moment of greatest opportunity. Without the money no new work can be begun. No new missions can be appointed, and some of those already at work may even have to be recalled.

This was the situation that needed men. The Northern Baptist Laymen's Council accordingly met, organized, appointed Judge F. W. Freeman, of Denver, Colo., as national chairman, and pledged its services to take "a man's part in a big man's job" to Dr. John Y. Aitchison, General Director of the General Board of Promotion of the Northern Baptist Convention. Today men all the way from some of our national leaders in Washington to plain-day citizens of villages are joining together in a vast, man's effort to bring victory to the campaign. Religion has taken a step forward when men thus unite in laying aside their own interests, and together put their shoulders to the wheel for humanity.

"Our immediate objective is to put our whole force behind the movement to pay our debts," Judge Freeman recently announced. "Our permanent objective will be to get our men to recognize and practice Christian stewardship of life, talent, time, opportunity and money."

"At present we are trying to present the call of our denominational crisis so as to enlist the intelligent, enthusiastic, devoted and sacrificial response of every man in every church in every state within the bounds of the Northern Baptist Convention. We want to acquire ourselves as men, to the glory of God in the day of our opportunity."

After the waging of the present campaign is over, we will take up the matter of permanent policy and method, and find a way to serve our day and generation, according to the will of God."

The officers of the Northern Baptist Laymen's Council include Judge F. W. Freeman, of Denver, Colo., chairman; E. H. Rhoades, of Toledo, Ohio, secretary; A. M. Harris, of New York, N. Y., treasurer; and six vice-chairmen: Albert L. Scott, of Boston, Mass.; E. L. Ballard, of New York City, N. Y.; Fred A. Grow, of Chicago, Ill.; D. C. Shull, of Sioux City, Iowa; George P. Cortner, of Redlands, Calif.; and C. J. Erickson, of Seattle, Wash.

### Beauty Advice by Radio is Latest Stunt

Beauty advice has at last been elevated to its proper importance in life. The other night, one of our radio broadcasting stations sent forth along with its opera music, a talk on "A Budget for Beauty." It rivaled any song or orchestration on the program. The talk was given by Mrs. Cora Van Norden Coppinger, daughter of the late Warner Van Norden, Wall Street financier. Mrs. Coppinger has taken up an interest in the creation and preservation of personal beauty as a protest against the battle-torn scenes which filled her life during the World War, when she made a splendid war record of her own. She insists that beauty is a responsibility to be heeded by every woman according to her ability. It seems strange, until one hears her reasoning that this is the woman who served under the French Service de Sante in Serbia and Macedonia, and later, when we came into the war, worked with the Salvation Army canteens under Colonel Barker in his First Division. She was recommended four times for the D.S.M., once for the D.S.C., and has the Croix de Guerre from the French Government. She is the only American woman to have received regimental, brigade and army citations.

Adolph Wickland and Pearl Mayotte, Escanaba.  
Felix King and Rose Herbert, Escanaba.

### W. B. A. Meeting

The members of the Women's Benefit Association are urged to attend the regular meeting which will be held at the Grenier hall this evening. Important business matters will be taken up which are of vital interest to all members and it is the duty of every member to make a special effort to be present.

### Woman's Auxiliary

The Women's Auxiliary will hold their meeting at St. Joseph's hall tonight at 8 o'clock. All members are urged to attend.

### Farewell Party

Oscar Rudiger who is to leave soon for Detroit to make his home permanently, was the guest of honor at a farewell party given Sunday afternoon by a number of his friends. The young people motored to the country where they picked arbutus. They returned to the home of the young man's parents, 1429 First avenue south, where they partook of a six o'clock dinner after which they spent the evening in playing games and music.

### Rebekah Meeting

The Rebekahs will hold a special meeting at the Old Fellows hall, Wednesday evening at which time they will initiate a large class of candidates. A social time will follow the initiatory exercises. It is expected there will be a large attendance.

### Women's Relief Corps Meeting

The Women's Relief Corps will hold a meeting at 2:30 Wednesday afternoon at the North Star hall at which very important business will be transacted. All members are requested to attend this meeting which will be called to order at 2:20 sharp.

### F. R. A. Old Fashioned Party

Arrangements are now going forward for the giving of an "Old Fashioned" party by the F. R. A. in the Eagle hall next Monday evening. The affair will follow the regular meeting when a class of candidates is to be initiated. Nothing but the old-fashioned dances will be used in this party and a big crowd is expected, inasmuch as many married folks are embraced in the membership and most of them favor the old dances as against the "new fangled" style.

### Parent Teacher Club Meeting

The Parent Teachers' Club of the Washington school will hold its regular meeting on Wednesday evening at the Washington School Annex at 7:20. All parents are urged to attend this meeting. After the business session lunch will be served and a social hour enjoyed.

### Surprise Party at Wilson

A number of friends of August Kleinman of Wilson came to the home of the family Saturday evening unannounced and surprised Mr. Kleinman. The occasion being his fiftieth birthday anniversary. Mr. Kleinman has had no hints of the affair being planned and when he saw a number of autos stop at his gate he went to investigate and found they had called to help him celebrate his anniversary. His surprise was genuine.

### Evening Star Meeting

There will be a meeting of the Evening Star Society at the North Star hall Thursday evening when very important business will be taken up. Members are urged to attend. A committee of ladies have taken charge of the refreshments and they will serve after the business meeting.

### Ore Season Getting Under Way with More Speed Than Thought

That the ore business is beginning to be more active, is evidenced by the fact that several more crews have been added in the last two days, for handling ore between the mines and the local docks. It is thought that more crews will be added during the week and an active ore season is rather expected, although it is not anticipated that it will start out any too briskly.

### Blue Is Willetta's Favorite; Says It Smells Like Ink

CHICAGO, May 2—Blue is Willetta Huggins' favorite color, although it does not smell as good as some other colors. It smells like ink, but Miss Huggins, who is 17, and a pupil of the Wisconsin School for the Blind, says she doesn't mind the way blue smells—it's a pretty color.

"Green smells like glass," explains Miss Huggins, although she did not say just what glass smells like. "Blue smells like ink, pink, like wool; black smells like a newspaper office and white really has no smell at all."

The blind girl was able to read headlines in newspapers by passing her fingers over the paper, and could distinguish figures in newspaper pictures by smelling the amount of ink on different portions of the picture. She "saw" one picture with four ladies, one having gray hair accurately, judging thru her sense of smell, she said to the light and dark spots in the picture and consequently the amount of ink used.

### CLERGYMEN SPLIT ON SLEEPING IN CHURCH

LONDON, May 2—Clergymen took sides today on the question of a person's right to sleep in church, following the request of Rev. H. R. J. Sheppard of St. Martin-in-the-Fields, that sleepers in the congregation be left undisturbed. The pastor ruled that snoring, however, was objectionable during services.

The war department is planning military training 27,000 men next summer, embracing for the first time all components and agencies of the United States army. Twenty-seven thousand civilians will be included in the work.

## SOCIAL NOTES

### Herbert-King

Mrs. Rose Herbert and Felix King, both of this city, were united in marriage at St. Joseph's church early yesterday. The ceremony was read by the Rev. Fr. E. Dooley. Attendees were Mr. and Mrs. Ovid Demars. Mr. and Mrs. King left immediately on a trip to Marinette, Kenosha, Milwaukee and Chicago.

### Fraternal Entertain

More than 200 persons were present last night at the Fraternal Reserve Association dancing party in the Arcade hall. The hall was prettily decorated with May flowers. Another party will be given by the association next Monday night at the Eagle hall.

### W. B. A. Benefit Dance

The Women's Benefit Association have made final plans for the benefit dance which they are giving at the

### Myotte Wicklander

In a pretty ceremony performed by the Rev. Dr. Barth at St. Patrick's church yesterday afternoon, Miss Pearl Myotte, daughter of Mr. and Mrs. Thomas Myotte, Fifteenth avenue north, was united in marriage to Adolph Wicklander, this city. The couple was attended by Miss Alice Larson and Arthur Munday, friends of both. The bride was prettily attired in a

### Marriage Licenses

Marriage licenses were issued yesterday at the court house to the following:  
August Sundquist, Rapid River; Ella Friberg, Fusion.  
John Laska, and Anatacia Rasmus, Rock.

## More Mileage at Less Fuel Cost

**For Any Car Any Size—Old or New**

THE foremost item to consider in the upkeep of your car, is fuel consumption. Are you getting every ounce of energy from the gas you buy? There is a way—the New Stromberg Carburetor makes a slave of the gas—gets a "full days' work" from every drop—makes a gallon go farther. It means actual economy through the saving of fuel.

THE make of your car—its age or condition cannot alter the fact that a substantial saving, a noticeable increase in efficiency of operation and additional power is evident where the Stromberg is installed.

Made by Stromberg Motor Devices Company  
64 East 25th Street, Chicago, Ill.

"Let's Make Escanaba A Better City"

MAKING ESCANABA A BETTER CITY.

The city council meets tonight. According to statements made at the last meeting Mayor Judson will ask for authority to apply the knife to the city payroll, lopping off several departments and parts of departments. It will be an opportunity to see your new city council at work with its sleeves rolled up.

At the last meeting it was stated that visitors would be given opportunity to be heard, if they had complaints or suggestions. At any rate, Escanaba citizens will do well to show an interest in the big problems which the city council faces. Attendance at these meetings will give them more information upon which to base intelligent discussion and it is the fixed idea of the new council that the more the people know about their own business, the more certainly will city business be handled satisfactorily.

Service is the watchword of the new body. It wants to render, to the utmost, that service which Escanaba is expecting, but it must have the good will and co-operation of all citizens, and those citizens must fully understand all the angles of the multitudinous problems which face council.

So, if you haven't a mighty important engagement tonight it might be the best service you could render your city to up and see how your new city council is taking hold of problems.

This is one way in which you can help to "Make Escanaba A Better City."

LET'S CLF'

It is hoped that Escanaba citizens generally will manifest that same fine spirit of citizenship in the city clean-up, in progress this week, which is the representative of the new Escanaba spirit in all things. The city health department and street department are working with the people and it is the desire of all departments to make this spring clean-up the most thorough ever held here.

Teams will be in the east end of the city today and work westward. It is asked that garbage, refuse and rubbish and ashes be placed in the alleys where collectors can get them conveniently. Don't put it off until after the teams have passed; get going today.

Escanaba has a new city government and a new city spirit. Don't worry about your neighbor, but get your own yard and premises cleaned up. Your neighbor will probably be busy doing the same thing.

This clean-up ought to partake something of the nature of a contest. With that spirit behind the movement, Escanaba will be the cleanest, most sanitary and most healthful city in the upper peninsula.

Cut right in this evening, climb into your old duds and get the old rake and shovel going, if you haven't already made their acquaintance this year.

GLADSTONE MAKES MISTAKE

The new city-council of Gladstone, in its excess of zeal to function first as a political organization, has committed as its initial error, one of the gravest blunders of which it could be guilty at any time.

This mistake comes in the form of a refusal to reappoint Louis Danielson as Chief of Police. "Louie" has been head of the police department in the sister city for the last nine years. During that time he has become known as one of the most efficient officers in the entire upper peninsula. He is calm and judicious at all times; is systematic and thorough in his work and his experience is such that Gladstone should have been more than glad to have such splendid assurance of a sane and efficient administration of the police department.

The writer happens to know that "Louie" Danielson is regarded all over the peninsula as a real officer and that his work has given to Gladstone a reputation which most small towns do not enjoy.

"Louie" has taken the office of chief of police of Gladstone out of the chin-whiskered, large tin-star, vaudeville class of country "con-sti-bule," and elevated it to the dignity of a real office. He has worked out a card system of identification, posted himself on fingerprinting, gets camera evidence of a good many things that prove helpful and he has the reputation of preparing a case more carefully and thoroughly than nine officers out of ten, so that the prosecuting attorney may feel sure of himself when he gets information from Mr. Danielson.

We don't presume to speak of the qualifications of Mr. Danielson's successor, but we do know that when Gladstone politicians turned Chief Danielson down, it made the most monumental blunder in its recent history.

A THOROUGH AIRING NECESSARY.

The story regarding Liberty bond duplications to the amount of half a million dollars more or less, doesn't register convincingly all at once. It is rather vague, seems a trifle fairy-like, and it is broadcast in a strangely belated way after smouldering for a long time, just as a general political campaign is opening up. So while it would not do to assume that the narrative is myth and that Representative Johnson has been misled and is mistaken in making his charges, still it is reasonable to listen with some reserve, and before arriving at any conclusion, hear what the department of justice, and the treasury department have to say.

There must, however, be a careful investigation, for the charge made by Representative Johnson is exceedingly serious and sensational, and nothing except total disapproval of complete revelation of the facts will meet the situation.

SINGING MOVIE PROMISED FOR OPERA SCORES

De Forest Says Talking Picture Device Nearly Perfected.

(By Associated Press)

NEW YORK, May 2—Lee DeForest, pioneer in wireless telegraphy and telephone, returned from Germany yesterday on the Mauritania, with an announcement that he had perfected a device for taking motion pictures. The action of the photoplay and the voice were registered on the same strip of film, which could be used in an ordinary projection machine with an attachment, he said.

Enthusiastic over his invention, which he predicted opened great possibilities. Mr. De Forest exhibited a strip of film of a speaking movie. The voice, he said, was registered on the narrow margin of the strip by action of the light on the sensitive cells. The margin thus bore a picture of the voice. Thru the medium of a special device, the voice was reproduced in perfect synchronism with the motion picture.

"I am convinced my invention will revolutionize the motion picture industry," Mr. De Forest said. "An entire play or opera of an evening's length will be one of the novelties of the speaking movies." Mr. De Forest said his voice registration method could be applied to the phonograph—ordinary films could be played without a needle. He said experiments with the "phonograph" demonstrated that musical sounds were more pronounced than those from the phonograph.

Mr. De Forest, who is president of the De Forest, Radio Telegraph Telephone company, said he returned to Germany in two months to continue his work on the motion picture machine. He expects to put on the market a device which he found easier to obtain and use under conditions more favorable. While here he would visit his factory to his business of manufacturing radio telephone products, he said.

Kansas Town to Make Flies Real Curiosity

MCPHERSON, Kan., May 2—As far as the city commission can make it this town will be "flyless" this summer. McPherson, in fact, is going to be a town where a fly will be as much a curiosity as a horse in Detroit.

An ordinance has been passed which contains these provisions for taking all the joy out of a fly's life.

All barns, stables, chicken houses and other animal abodes must be thoroughly cleansed three times a week and the refuse carted outside the city limits to a place where it will be burned.

Every home and business place must have a garbage can kept covered. The city will collect the garbage.

Wire fly traps must be placed at the front and rear of every business place.

The Federation of Women's Clubs and the Chamber of Commerce also are planning anti-fly unpleasantness which will make the buzzers think McPherson is starving Russia as far as flies are concerned.

Adopt 'Blue Laws' for Evanston Flappers

CHICAGO, May 2—Social standards for flappers looked upon by them as "blue laws" have been adopted by parents of the younger set in Evanston to protect the health and standards of the community.

The rules include promises of the parents to aid by influence and example to the establishment of a simple and modest standard of dress for high school girls.

To agree to combat the movies, ice cream parlors and other semi-public places where flappers congregate by opening up the homes for simple amusement.

To discourage too frequent dancing by encouraging wholesome outdoor games. To recommend that attendance at the movies be discouraged during school days.

PLUNGES TO DEATH FROM TWENTIETH STORY

CHICAGO, May 2—J. Walter Knott, 40 years old, insurance broker, plunged to his death from a twentieth story window of the Marshall Field building during the noon rush hour on Thursday. His body lodged on an iron railing at the seventh floor, just outside a window of a cafe where hundreds were dining.

MOTHER SAVES 7 FROM SURE DEATH

Strange Presentment Leads Woman to Take Brood and Escape.

PEACE RIVER, Ala., May 2—A presentment of impending tragedy saved a mother and her seven children from a terrible death beneath the grinding ice wall of the loosened Smoky river early Sunday morning, according to news received here. Mr. and Mrs. William Green of West Peace River, with their seven children, all under 11 years of age, were planning to float down the Peace river behind a large raft that the father had constructed. The raft with its cabin and \$3,000 worth of settlers' effects was built on an island, in mid-stream, at the junction of the Peace and Smoky rivers, with the idea of launching it as soon as the ice went out.

Late Saturday evening, Mrs. Green, alone on the raft with her children, felt a strange presentment. Gathering up her brood, she made her way across the ice to a friend's home several miles away.

At four o'clock Sunday morning the rafters of the Smoky rose with a rush

and the island was covered under thirty feet of ice blocks by daylight. The father, returning from looking after livestock, thought at first all his family had been wiped out. At it was the family lost all its possessions. The ice jam is of record dimensions.

GEMS MYSTERIOUSLY PLACED IN HAND BAG

MURRAY CITY, Ohio, May 2—On her recent return trip between Florida, Mrs. Sarah Bridgewater, a local resident, carried a traveling bag which had a ripped place.

Three weeks after her arrival here, Mrs. Bridgewater found that a considerable amount of jewelry had been thrust into the traveling bag through the ripped place. Suspecting that a thief had his stolen plunder in her bag while on a sleeping car, Mrs. Bridgewater is making inquiry in an effort to locate the owner of the jewelry.

The first Ohio World war veteran to turn back his state bonus check of \$185 to a fund to establish a hospital for disabled soldiers of that state was Captain Eddie Rickenbacker, America's premier ace.

Bent Over With Rheumatism Pains

Stop drugging and get quick relief with a bottle of old reliable St. Jacobs Oil

St. Jacobs Oil stops any pain and rheumatism is pain only.

Not one case in fifty requires internal treatment. Stop drugging! Rub soothing, penetrating St. Jacobs Oil right into your sore, stiff, aching joints and relief comes instantly. St. Jacobs Oil is a harmless rheumatism liniment which never disappoints and can not burn the skin.

Linger up! Quit complaining! Get a small trial bottle of old, honest St. Jacobs Oil at any drug store, and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief awaits you. St. Jacobs Oil is just as good for sciatica, neuralgia, lumbago, backache, sprains.

Let Us Fix THAT RADIATOR

We have just installed a complete outfit for repairing leaky radiators.

Don't drive your car when the radiator leaks; save trouble and expense by having it repaired.

Adopt 'Blue Laws' for Evanston Flappers

CHICAGO, May 2—Social standards for flappers looked upon by them as "blue laws" have been adopted by parents of the younger set in Evanston to protect the health and standards of the community.

The rules include promises of the parents to aid by influence and example the establishment of a simple and modest standard of dress for high school girls.

To agree to combat the movies, ice cream parlors and other semi-public places where flappers congregate by opening up the homes for simple amusement.

To discourage too frequent dancing by encouraging wholesome outdoor games. To recommend that attendance at the movies be discouraged during school days.

PLUNGES TO DEATH FROM TWENTIETH STORY

CHICAGO, May 2—J. Walter Knott, 40 years old, insurance broker, plunged to his death from a twentieth story window of the Marshall Field building during the noon rush hour on Thursday. His body lodged on an iron railing at the seventh floor, just outside a window of a cafe where hundreds were dining.

MOTHER SAVES 7 FROM SURE DEATH

Strange Presentiment Leads Woman to Take Brood and Escape.

PEACE RIVER, Ala., May 2—A presentiment of impending tragedy saved a mother and her seven children from a terrible death beneath the grinding ice wall of the loosened Smoky river early Sunday morning, according to news received here. Mr. and Mrs. William Green of West Peace River, with their seven children, all under 11 years of age, were planning to float down the Peace river behind a large raft that the father had constructed. The raft with its cabin and \$3,000 worth of settlers' effects was built on an island in mid-stream, at the junction of the Peace and Smoky rivers, with the idea of launching it as soon as the ice went out.

Late Saturday evening, Mrs. Green, alone on the raft with her children, felt a strange presentiment. Gathering up her brood, she made her way across the ice to a friend's home several miles away.

At four o'clock Sunday morning the waters of the Smoky rose with a rush

and the island was covered under thirty feet of ice blocks by daylight. The father, returning from looking after livestock, thought at first all his family had been wiped out. At it was the family lost all its possessions. The ice jam is of record dimensions.

GEMS MYSTERIOUSLY PLACED IN HAND BAG

MURRAY CITY, Ohio, May 2—On her recent return trip between Florida, Mrs. Sarah Bridgewater, a local resident, carried a traveling bag which had a ripped place.

Three weeks after her arrival here, Mrs. Bridgewater found that a considerable amount of jewelry had been thrust into the traveling bag through the ripped place.

Suspecting that a thief had his stolen plunder in her bag while on a sleeping car, Mrs. Bridgewater, is making inquiry in an effort to locate the owner of the jewelry.

The first Ohio World war veteran to turn back his state bonus check of \$183 to a fund to establish a hospital for disabled soldiers of that state was Captain Eddie Rickenbacker, America's premier ace.

Laddie, a Champion Salesman

One of the most successful real estate agents in the United States is a collie dog, Laddie, belonging to I. A. Stout, of New York. Mr. Stout has sold more farms than any one else in the country, but he admits that Laddie was responsible for selling at least 100 of them.

Enthusiastic dog lovers make wild claims about the intelligence and usefulness of dogs, collie dogs in particular. Some stories are true and some are not. But the story of Laddie is not only true, but is one of the greatest tributes ever paid to a dog. Here it is as told by Mr. Stout:

"Up in New York State there were a large number of farms for sale in a certain section. The cheapest farm of all was advertised, 'with horses,

Mr. and Mrs. H. C. Anderson returned to their home in Marinette after a week-end visit here with relatives and friends.

All month of May we will wash curtains at 60c a pair. Escanaba Steam Laundry.

GOT ANY ODD JOBS?

Call Chamber of Commerce for Men Who Are Deserving and Need Work if You Are Doing Any Little Repair Jobs.

With the coming of Spring, comes the necessity of doing repairing about the home—policing, varnishing, etc. Many men having families, some of whom are taxpayers in the city, are badly in need of work.

If the people of Escanaba have work of this kind which they would ordinarily do themselves, but because of the present emergency would be in a position to give the employment to some less fortunate, they are requested to call the Chamber of Commerce office, Phone 1190. The Employment Bureau will thereupon send some deserving party to take the job. xx

The Service Rendered by Specialized Knowledge

CRUDE petroleum, the raw material employed by the Standard Oil Company (Indiana), is so varied in character, that to manufacture products of standard quality, requires a profound knowledge of petroleum chemistry and the utmost skill in refining. Long experience has proved that the greater the scientific knowledge employed the more perfect will be the products manufactured.

The responsibility for the manufacturing of Standard Oil products is placed upon the shoulders of men trained to recognize the delicate variance of each complicated operation. This work also is checked carefully by highly trained scientists employed in the laboratories.

The Standard Oil Company (Indiana) bases its standards of manufacture upon the service which its products shall render the consumer. The maintenance of such standards is dependent upon the technical knowledge of the experts who formulate them.

There is no factor in the activities of the Standard Oil Company (Indiana) which yields greater benefit to the consumer, and which is followed more insistently, than that the men who have charge of each process must have highly specialized knowledge of every step in the process under their jurisdiction.

This fact is so well established that each division of the manufacturing department has come to be a separate enterprise, and because of this extreme specialization every product coming from the refinery is in effect a primary product.

For instance, the department which is responsible for manufacturing Polarine and other greases is in charge of men who have made a profound study of lubricants of this class; men who know intimately every step and every reaction which is necessary if these lubricants are to meet the high standards of quality which the laboratories have set.

And so it is in every department of the organization. The men in charge of the several departments are recognized by the industry generally as masters of the intricate problems of manufacturing and marketing.

It is this fact which has made this Company a leader in its field.

Women Throw Pepper; Eight Arrests Made

(By Associated Press)  
UNIONTOWN, Pa., May 2.—Eight women here greeted a number of state policemen and deputy sheriffs with bits in a riot at Tower Hill mine No. 2 of the Tower Hill Coal and Coal Company in Fayette county region yesterday. The women were led to jail here and will be given a hearing on Friday. The riot was closed by the use of force several weeks ago.

Deputy sheriffs attempted to disperse a crowd of several hundred women who threatened men employees at the pumps and boilers of the mine. The situation got beyond their control and the state police were summoned. Some of the officers were seriously hurt the injuries having been inflicted by stones, bricks and paper.

WIND SETS STRAY SILO BACK WHERE IT BELONGS

(By Associated Press)  
JANESVILLE, Wis., May 2.—Henry Weiland, headless farmer, living near Galesburg, who has overcome many hardships, has always been a believer in the business of State farms. "If I should be kind that profit, nobody," and it was renewed a week ago. A silo on his farm, was blown three feet from its foundation by one of the largest gales about two weeks ago. Weiland got in a claim to claimers with the insurance company. The claim continued in its upright position. A week ago another wind blew from the opposite direction and the silo was set back within two inches of its original position.

Of the 25 former carrier men of the United States army, who were awarded the Congressional Medal of Honor during the World war, the whereabouts of 20 of them are only vaguely known while 104 others have vanished without leaving the slightest trace.

DAILY MIRROR CLASSIFIED ADS

Let this Wonder Worker do one Washing for You

**Coffield**  
MODEL "C"  
ELECTRIC  
WASHER

FIRST you'll be impressed by how simple it is. So easy to understand. Just as easy to operate. No chance for confusion.

Then you'll be amazed by how quietly it works. Just the faint hum of the motor and the "swish-wash" of the suds. This silence is due to the perfect balance of the entire machine, and one of the reasons for the long life and endurance of the Coffield is this same perfect balance.

The next surprise will be how quickly a tubful is washed perfectly clean and how very little electricity is used.

Then with the washing all on the line, see how fresh and untired you are. Honestly, lots of home keepers say, "It's fun to wash with the Coffield."

**\$10 DOWN—A YEAR TO PAY**

The purchase of your Coffield can be arranged so that your saving will take care of the payment. A few months and, having paid for itself, the Coffield begins to pay you for your selection. Years after the purchase you'll begin to understand more fully what a splendid selection you made. There are Coffields in use today that have completed the equivalent of over 30 years average family work. How much will your have saved you in that time!

**OILLESS BEARINGS**

As an example of the thoughtfulness built into your Coffield, consider the oilless bearings. These are the same bearings used in high-priced automobiles and airplanes. As long as you use this washer you'll never need to oil it. The full quarter horse power motor needs lubrication only twice a year. This motor has more than enough power to drive both wringer and washer at once.

**THE NEEDHAM ELECTRIC COMPANY**
