ESCANABA, MICH., THURSDAY, MAY 11, 1922

SINGLE COPIES, FIVE CENTS

FOUR PAPER COMPANIES BOLT COMBINE

SETTLE WITH STRIKERS AT A REDUCED WAGE

Total Amount of the Reductions About Fourteen Percent.

Seven Large Companies Claimed to Have Signed With Semi-Skilled and Skilled Workers.

(By Associated Press)
New York, May 11—Reports that four of the largest paper companies had bolted from the manufacturers organization were corroborated this morning by officials of the companies affected.

The Penobscot Paper company settled on these terms: A five per cent reduction in wage for all skilled labor and a minimum scale of 35 cents an hour for unskilled workers. Shift workers will remain at the minimum of 38 cents an hour, but will be reclassified according to a graded system.

The total average reduction will be approximately 14 per cent.

The Great Northern Paper company settled on a basis of a 15 per cent reduction. This, however, is proportionately smaller than the reduction offered by the Penobscot Paper company, because it is the first to take place in two years.

Old Contract Conditions

The Spanish River Paper company settled on practically the scale contained in the old contract. They operate mills on the Spanish river at Espanola and Sault Ste. Marie, Ont.

Other individual agreements with the St. Croix Paper company is expected to be signed Friday at a conference between union officials and employers.

Seven large companies, it is said, have signed the agreement with the semi-skilled and skilled workers today by which the wage scale will be increased some places but will include no reduction.

The agreement provides for a minimum scale of 38 cents an hour for semi-skilled workers up to one dollar an hour for skilled men.

Another Version

New York, May 11—Officials of the unions representing the 300,000 unskilled workers in the news print making industry conferred today with manufacturers as to whether they would accept or reject the proposal to abolish their international wage scale.

Leaders asserted that a strike of the unskilled men was probable, although the skilled workers, including the International Brotherhood of Paper Makers, yesterday agreed to sign a new contract and upon the outcome to the conference today will depend the life of the organization among unskilled men in the industry, it was asserted, since the unionized craftsmen have agreed to leave them out of consideration in future wage negotiations.

The manufacturers are now in a position to enforce their demands that unskilled labor

NIGHT PROWLER IS SHOT IN HIP; CASE DROPPED

Effort to Enter Groos Home Prevented by Owner.

A shooting affray in which one man at least, was "stung" occurred last Monday morning about 1 o'clock at the residence of Peter Groos on the Ford River road. At various times during the winter Mr. Groos' home has been entered by destroyers, but Monday night he happened to be at home.

He was awakened by some one trying the front door. Mr. Groos yelled to the party to wait a minute, and asked who was there. On receiving no response, he decided it might be well to be on his guard, and securing a small 22-caliber rifle he threw open the door. Seeing and hearing no one he fired a couple of shots at random and returned to the house.

The next day Sheriff O'Brien appeared at the Groos home with the information that a man had been shot by Mr. Groos and wanted to know what it was all about.

The man was not seriously hurt and the matter, apparently has been dropped.

BELIEVE HARRIS HAS ACCEPTED CITY LEADERSHIP

Wires Today He Will Advise On or Before Next Tuesday, the Date He Can Be Here.

That Fred R. Harris, chief engineer of the state public utilities commission has decided to accept Escanaba's offer to become her first city manager, is believed to be indicated by the telegram received from him today by Mayor Judson.

When Mr. Harris was here, he made a proposition to the city council. Council advised him the matter would be considered and that its decision would be wired to him. The decision was favorable and Mr. Harris was invited by wire to accept the city manager ship. When here he told council that in the event they should accept his application, it would probably be 30 days before he could be on the job, this point being largely in the hands of the state commission, as to when Mr. Harris could be released.

Receive Message Today

Today the following message was received from Mr. Harris: "Will wire reply immediately following conference with state commission, two members of which are not at present in city. You may expect definite and detailed reply, stating date, on or before Tuesday, May 16. I assure you of my appreciation."

This is taken to mean that Mr. Harris will inform the city council by Tuesday, May 16, as to the date he can be in Escanaba to take the position and is not construed as meaning that he will decide on the acceptance by that time. Briefly it is figured here that he has already accepted and that his message refers to the date when he will arrive for business.

Every member of council was deeply impressed by Mr. Harris' splendid equipment for the position, both in temperament and education, and it is sincerely hoped that he has accepted the proposition to take hold here at an early date.

Lloyd George Will Stick to Ship and Try to Work Her

LONDON, May 11—A dispatch from Genoa to the Evening Standard says that if France and Belgium concludes to quit the conference, Premier Lloyd George will remain, "and try to work the ship to port with a short hand crew."

Three People Killed By Nebraska Tornado

OMAHA, Neb., May 11—Three people were killed and wide spread damage was done as the result of a wind storm that hit various places in Nebraska yesterday and last night according to advices received here today.

be paid at going rates in the localities where they are employed, union officials declared.

REFUSE WRITS FOR RELEASE OF SUSPECTS

Court Believes Chicago Is Now in a State of Warfare.

Lafferty and Shea will Be Held Until Saturday in Connection With Murder of Policemen.

(By Associated Press)

CHICAGO, May 11—Declaring that he agreed with the contention made by the police that "Chicago is in a state of warfare," Judge Scanlon today refused to issue writs of habeas corpus releasing Cornelius Shea and John Lafferty, labor leaders arrested in connection with the murder of two policemen yesterday morning during a series of labor bombings.

He told the police these two men could be held by the police until Saturday.

The cases of Shea and Lafferty were the first to come up and Judge Scanlon took only a few minutes to rule on them. About a dozen other applications for writs were held up before other judges.

Shea is an ex-convict who once served a term in Sing Sing and is at the head of one element of the teamsters' union. Lafferty is a lieutenant in "Big Tim" Murphy, known as Chicago's labor czar, who also was arrested.

George Gorman, assistant state's attorney in opposing habeas corpus proceedings for the two men stated that "Chicago is in a state of warfare" and to release these men will only mean more murders, more bombings and more violence.

Judge Scanlon interrupted, by telling Mr. Gorman that he agreed about the warfare and denied the writ.

RAPS DAYLIGHT SAVING PLEADS FOR HOUSEWIFE

Senator Dial Protests "Mother" Already Has Burdens Enough.

WASHINGTON, May 11—Senator Dial, Democrat, South Carolina, in the Senate to protest, he explained, on "behalf of the Housewives of Washington, against any turning of the clock back "because of this fool daylight saving business."

"The good housewives have trouble enough on their hands already, getting a cup of coffee for the husband who has over slept and getting the children off to school, without being compelled to get out of bed an hour earlier because somebody wants to monkey with the time clocks in a lot of government departments," said Dial.

Escanaba Rotary Club Plans Night For The Ladies

Announcement is made by the entertainment committee of the Escanaba Rotary club to the effect that Ladies' Night is to be celebrated the evening of May 22 and that elaborate preparations will be made for the big event. It is planned to hold the affair in the Masonic hall, a "big banquet" being served at 6 o'clock and an address to be made by Attorney McDonald of Marquette.

Repair Contracts Being Farmed Out Is Not Approved

CHICAGO, May 11—Decision again at contracting shop repair work to outside firms by railroad companies in an order handed down by the railroad board yesterday will not stop the strike vote being taken by the 500,000 union shop men on the contract question.

Gov. Small's Trial Gets Under Way at 10 O'Clock Today

WAUKEGAN, Ill., May 11—The trial of Governor Len Small, charged with a conspiracy to embezzle funds, got under way at 10:10 o'clock this morning when C. Fred Marthimer state's attorney for Sangamon county, began his opening address for the prosecution. Less than 50 spectators were in court at the time. The governor was accompanied by his son and daughter-in-law.

HAZING PRANK AT STATE "U" IS GOING UP

Father of Victim to Appeal to the School Faculty.

Council of Students Declares Student Body Had Nothing to Do With Van Tyne Case.

ANN ARBOR, Mich., May 11—Excitement that attended the recent refusal of Louis Orr, a Chicago student in the University of Michigan to wear a freshman cap, was revived today when it became known that Joseph Van Tyne, a freshman who also refused to wear the cap had been abducted last night, dunked in a creek, his hair clipped and with his hands tied behind his back left at a point four miles from the city.

Van Tyne is the son of Prof. Claude Van Tyne of the university history department, and after the abducting party left him, made his way to a farm house, where he was untied and directed back to the city.

Prof. Van Tyne announced that he will vary the matter to the faculty and demand immediate action. The identity of the students who abducted the youth had not been established.

According to Van Tyne all of these were masks. The council of students organized to make rules for governing the student body, denies that body had anything to do with the case.

The council committee waited upon Van Tyne several weeks ago and requested that he conform to the freshman traditions. It is said that he agreed to do so.

COMMITTEE ON CO-OPERATIVE SALE AT WORK

Meeting with Great Encouragement in New Movement.

The cooperative advertising committee of the chamber of commerce, which has been busy on the plans for the first cooperative shopping day for Escanaba some time in June, reports that it is meeting with the greatest encouragement in its work. Virtually every merchant approached sees the great possibilities of developing greater trade for this city and manifests a cheerful willingness to cooperate, which, it is stated, is making the work of the committee a real pleasure.

It is believed that the first day of this kind attempted here will be most successful and that more and more merchants will unite with the new movement as the months go by. An extraordinary bargain day will be staged once each month, under the plan, and all those participating will share cooperatively the expense of the advertising campaign which is just one more force added to the many now made operative for the purpose of "making Escanaba a Better City."

Escanaba Men Taken Before Federal Court

U. S. Marshal Tim Hurley was down from Marquette yesterday afternoon and served warrants on John Cedar and Fred Froelichson to appear in U. S. District court there on charges in connection with the sale of moonshine liquor. They were taken to Marquette last night.

Freighter Rams A Tug Which Sinks; Crew Was Rescued

DETROIT, Mich., May 11—Ten men comprising the crew of the tug Annie Molles were rescued with a rope ladder early today after the tug had been rammed in a collision with the freighter J. G. Hutchinson in the St. Clair river off Tashmoo park. The tug sank in 15 minutes but the freighter was not damaged.

THE WEATHER
Unsettled weather, tonight and Friday, probably rain. Moderate to fresh S. E. to S. winds.

FIFTY SHEETS OF BOND PAPER ARE MISSING

No Material Output of Illegal Bonds Is Believed Out.

Treasury Department Probe Shows Slight Discrepancy Which Is Not Considered Vital.

(By Associated Press)

WASHINGTON, May 11—The report of the special treasury committee which made an inventory of the supplies and equipment of the bureau of printing and engraving following the recent reorganization of the bureau's personnel, completed today is understood to be a substantial vindication of the declaration of treasury officials that no material output of illegal bonds notes or stamp issues had taken place, within recent years.

The report which is expected to go to Secretary Mellon this afternoon, will report, however, that a discrepancy of some fifty sheets was found when a check was made of the special paper used in the bureau for printing of bonds and notes.

Since the discrepancy occurred within the period covered by the last four years of operation of the bureau and was not confined to any one section of the institution, officials said that the missing material would not have been sufficient, if even devoted to illegal purposes, to have given foundation to the charges that the country had been "flooded" with duplicate bonds.

MORE DELTA COUNTY MEN FOUND GUILTY ON LIQUOR CHARGES

MARQUETTE, May 11—Four jury trials in federal court yesterday, defendants in which were charged with violating the Volstead act, resulted in the conviction of three men and the acquittal of two.

Sylvester Griffin and Louis Mallette, of Marquette, and James Parrette, of Rapid River, are the men found guilty. Joseph Rochafort, of Rapid River, and Asa C. Palmer, of Calderwood, were found not guilty.

The Palmer case was that in which testimony of Leo J. Grove, upper peninsula prohibition enforcement chief, and James R. Davis, state chief, that they smelled moonshine mash before raiding Palmer's home, was the government's only evidence. The officers raided the house and found distilling apparatus, but when the case was brought up at Sault Ste. Marie, the search warrant was declared faulty and thrown out. The district attorney then brought the case to trial on the "smell" evidence.

After the testimony was in, Judge Sessions directed a verdict of not guilty. Palmer was defended by Michael J. Doyle, Monominee attorney.

Arraign Marquette Woman

Mrs. Joseph LaVigne, 518 West Washington street, was arraigned yesterday on a charge of selling intoxicating liquor. She pleaded not guilty.

Dan McCarthy, of Escanaba; Ray Bondeau, of Wilson; Larry Bondeau, of Northland; Frank Grenier, of Marquette; Waldemar Anderson, of Ensign, and Joseph LaLumbar, Alex. LaLumbar, Andrew Larson, and Henry Ross, of Rapid River, stood mute when arraigned on indictments charging liquor law violation and pleas of not guilty were entered for them.

John Laurick, of Powell township, Marquette county, pleaded not guilty when arraigned. He was arrested by Sheriff Aron Johnson who raided his place with a federal officer.

William Ottenhoff, of Manistique, was arraigned and pleaded guilty.

Two Men Sentenced For Beating Wife Of One Of Them

Justice C. D. McEwen yesterday afternoon sentenced Stanley Parker to 60 days in jail and imposed a similar sentence on George Laco, who is employed by Parker in his restaurant known as the West End Cafe.

Parker was found guilty of assault on his wife, and the evidence showed that Laco had also participate in the ceremony of mistreating her.

NEW BIDDER FOR SHOALS IS ON THE JOB

Would Take Over Property for 25 or 50 Years on Suitable Terms.

(By Associated Press)

WASHINGTON, May 11—A new proposal for the lease and operation of the Muscle Shoals, Alabama, government property submitted by L. Stern, consulting engineer and manufacturer of Baltimore, was made public today by Chairman Norris of the senate agricultural committee, which is investigating the various offers filed with the committee.

Mr. Stern offers to take over the property for operation for a term of 25 or 50 years or such other time as may be agreeable and to complete the plant and to pay all other money expended by the government at the rate of 2 per cent annually.

The power development would be used to manufacture fertilizer to such an extent as may be feasible.

MRS. C. M. FROST VICE PRESIDENT OF FEDERATED CLUBS

Escanaba Woman Highly Honored by Upper Peninsula District of Woman's Clubs.

MARQUETTE, May 11—Manistique was chosen as the 1922 meeting place of the upper peninsula district, Federation of Women's clubs. In the closing business session of the fifth annual convention in the First Baptist church yesterday morning, Manistique was the only city to extend an invitation to the federation and it was chosen unanimously for the next year.

Mrs. C. M. Frost, of Escanaba, was elected vice-president of the district and Mrs. R. L. C. Bond, of Wakefield, was named recording secretary. Mrs. Robert King, of Escanaba, was chosen as corresponding secretary, an appointive office. Mrs. W. W. Woodward, of Marquette, was named president to expire next year.

Yesterday morning's session opened at 8:30 o'clock with a conference of presidents. This conference was informal, the officials discussing their local problems and giving suggestions to each other.

The regular session opened at 9:30 o'clock, when the Rev. Horace E. Perry pastor of the First Presbyterian church, gave an invocation. This was followed with an organ solo by Mrs. F. W. Nichols, of Houghton, state chairman of music.

The Woman's Welfare club, of Marquette, Marquette citizens, pastors of churches and those who assisted in the musical program were given hearty votes of thanks for the entertainment provided visiting delegates during the meeting. Mrs. Bess Leoni and Mrs. Helen Fryfole Pohlmann, who, with Mrs. Jean McDonald Kepler, presented a musical recital of exceptional merit Tuesday night, were especially thanked.

Mrs. Woodward closed the meeting by expressing her personal appreciation to the Marquette club women for their hospitality and urged the delegates to carry the lessons they had learned at the meeting back to their home clubs.

Sight-Seeing Tour

Following luncheon served at the Presbyterian church automobiles were provided and the delegates were taken on a sight-seeing tour to several points of interest in this district.

From 3 to 5 o'clock tea was served in the Welfare club's rooms in the 12-ter White public library. This was termed a final informal "get together" meeting and most of the delegates who did not leave on afternoon trains attended.

Two Men Sentenced For Beating Wife Of One Of Them

Justice C. D. McEwen yesterday afternoon sentenced Stanley Parker to 60 days in jail and imposed a similar sentence on George Laco, who is employed by Parker in his restaurant known as the West End Cafe.

Parker was found guilty of assault on his wife, and the evidence showed that Laco had also participate in the ceremony of mistreating her.

RUSSIAN NOTE DELIVERED TO ALLIES TODAY

Soviet Russian Minister Delivers It in Person.

First Part Is Argumentative and Second Part Deals Constructively With Finances.

(By Associated Press)

GENOA, Italy, May 11—Prime Minister Tschitcherin of Soviet Russia personally handed the Russian reply to the allied memorandum today to Foreign Minister Schanzer of Italy in the latter's rooms at the Plaza Cavour and the only other person present was Francesco Giannini, the Italian financial expert.

A convention of 45 minutes followed in which the Russian minister stated that the reply had been prepared by direct instruction from Moscow. M. Tschitcherin repeated assurance of his good will and his desire to cooperate with the other delegations.

After the Russian foreign minister had left Signor Schanzer read the note which consists of 15 pages. The first part of the note is argumentative but the second half is reported to be constructive, making proposals dealing with financial questions.

The note it was stated suggests the appointment of a new special commission by the conference to continue the negotiations after the close of the Genoa meeting.

PYTHIANS HOLD A GREAT MEETING HERE YESTERDAY

Big Class of Candidates From Gladstone Receive Degree.

Escanaba Lodge Knights of Pythias joined with Gladstone lodge in a business and social session in this city last night which proved to be one of the most interesting held in months. Nineteen Gladstone candidates received the rank of Esquire, the work being done by members of both the local and the Gladstone Pythian degree teams.

Upward of 50 visitors from the other end of the bay were here to take part in the work and participate in the festivities which followed in the nature of a fine spread, which was most thoroughly enjoyed.

Also a large number of transient Pythians were present at the meeting and the local lodge was highly complimented upon the completeness of its arrangements.

President's Views On Bonus Delayed Until Next Week

WASHINGTON, May 11—Transmission by President Harding of his views of pending soldier bonus legislation to Republican members of the senate finance committee, will await the return of the executive from his week end trip into New Jersey, it was said by Senator Watson, one of the Republican committee members after a conference today at the White House.

Croker's Estate to Be Subjected to An Action in Courts

DUBLIN, Ireland, May 11—Working in behalf of the late Richard Croker's two sons, in the United States, attorneys have served notice today that they have been instructed to enter caveat in an Irish court, against the will of Richard Croker, when it is lodged for probate.

This, it was said would make a trial necessary to prove the will and the competency of the testator.

Local Officers Are In Marquette Court Giving Testimony

Chief of Police Tolon, Assistant Chief Carney, Motorcop Swanson and Officer Carlson are all in Marquette today attending sessions of the federal court as witnesses in liquor cases in which they had a hand in bringing the suspects into court.

Rebellion By Indians Threatened In Canada

Farm Eviction Attempt Brings Differences to Crisis On Tuscaraora Reserve.

MONTREAL, Quebec, May 11—A state of incipient rebellion exists on the Tuscaraora reserve, south of Brantford, Ontario, as a culmination of disputes between the council of the Six Nations and the Dominion government.

In the meantime Indians from the neighboring farms poured into Vise's farm and adopted a hostile attitude. Chief Deskaheh (Levi General) speaker of the council, declared that at this point Constable Kerr drew a revolver and stuck it on the stomach of one of the Indians, threatening to shoot if he interfered.

"Let's Make Escanaba A Better City"

A CLEAN ESCANABA.

Escanaba's spring time is here. This is said with a mental reservation but a strong, unflinching hope that the weather man is going to help us make good on it.

It brings many privileges and pleasures; but it brings many duties and responsibilities, too.

"Clean up!" is spring's command.

Escanaba voters did it.

Off with the old; on with the new.

'Tis nature's will and way.

Good health means everything; and good health depends largely upon environment; and environment is largely at our command.

Clean up!

Public authorities are helping clean up the streets and alleys, the highways and byways.

Private citizens are asked to clean up their premises. Clean up your yards and gardens, your stables and outlying grounds.

Clean up your residences. Throw them open; air them out. Sweep them with fresh air; soak them in sunshine. Use plenty of hot water, soap and elbow-grease. If you have had cases of disease in the home, don't depend upon fumigation to get rid of the germs.

Fumigation, as ordinarily carried out, is a sorry joke; be content with nothing less than thorough cleanliness. Burn and boil, and scrub and scour.

Don't wait for the health officer to visit you. Dispose of decaying refuse; look carefully after the condition of all closets, sewers, drains and pools of stagnant water. Dispose of all accumulated manure; abate all nuisances—remove all possible sources of stenches and offensive odors; make free use of oxidizers and deodorizers.

"Swat the fly!" is the cry. Bah!

Swat one fly—and a dozen more will attend its funeral.

Bar the entrance of the fly, by the use of efficient screens; and, better still, have no foul places about your premises where flies can breed. Flies are dangerous—and carriers of diseases. But the presence of flies can be prevented; the presence of flies is a reproach.

Clean up—and keep clean!

Value fresh air at its true worth—while you work, while you play, while you sleep. Let your skin know cleanliness, and let it have ventilation—by wearing light, porous clothing, and by frequent bathing. Eat sparingly; excess food, like excess baggage, exacts a toll. Keep your teeth and fingernails clean; in these situations lurk many disease germs.

And don't drug yourself—don't!

If you're well—you don't need medicine; if you're not well—you need the advice of a physician.

Don't smoke too much—don't chew too much; don't drink too much coffee or tea; and—in a woman's name—don't try to tone yourself up by the use of bootleg whisky!

Clean up—and keep clean!

And may the springtime bring you a blessing!

THREE DEANS TAKE SIDES.

Admission that a critic may sometimes be an artist comes, haltingly, to be sure, from no less authority than three eminent deans of the University of Michigan.

In their report on the artistic fellowship conducted at Ann Arbor this year, with Poet Frost as the first holder, the deans observe that "it should be understood that a critic of distinction might, sometimes, be considered as a creative artist."

Thus have the deans ranged themselves on one side of a terrific controversy that has raged within the covers of sedate magazines and more sedate times for generations. Some have said criticism is no art, but mere reporting, recording and interpreting the works of the elect for the people. Others have countered that the object criticized is only incidental to the manner of criticism, and that, therefore, the critic may be artist also. Neither side has scored to the persuasion of the other.

A symposium with contributions from Ruskin, Matthew Arnold, Shaw, Brander Matthews and George Jean Nathan would be interesting in the light of the conclusion of the deans.

IS FRENCH NECESSARY?

At a convention of chief cooks—they prefer to be called chefs—in Chicago the old discussion about the use of French in bills of fare was thrashed over and it seemed to be agreed that English should be used as much as possible. However, it was contended that cooks can no more dispense with foreign languages than doctors can get along without Latin for prescriptions.

It is dangerous to dispute the word of an expert in his own field, but the prescription which a doctor writes goes to a pharmacist who fills it. The man who it to take it does not need to understand for he has no choice. At the table, however, every man writes his own prescription and if it is really true that the cooks cannot get along without French the great unlearned public must continue to take occasional chances, or else fall back on the waiter, and right at this point occurs a curious question. A good waiter can always interpret a bill of fare in plain English and if that is possible to the inferior functionary, why can not the High Mogul of the kitchen use the same language?

Police are wondering just what interpretation to place on Judge Tuttle's announcement that in enforcing the dry law they must be governed by the same standards as federal prohibition agents.

GIRLS MEN MARRY

By Laurel Gray

RESOURCEFUL girls are standards in the marriage mart—and there are not enough of the variety to go around. Men marry resourceful girls for a quick-witted, courageous and capable sweetie develops into a wife who will be a help-mate, not a dragging anchor. Most of the big fellows in history had wives who were homely and plain, maybe, but they had a corner on brains and ingenuity, the basic points of a resourceful mind. Men, as a rule, are not resourceful. They drop into groves and niches which fit them and they lack the imagination to go on, to climb, to step up another wrung in the ladder. Men will snuff at this, but it's true. A resourceful wife will furnish the inspiration to advance; not to leap and perhaps fall back, but to climb steadily and purposefully upward. These slow, steady steps are made upon resource which is the twin of inspiration, and ambition. This sounds like an Uplift Sermo and maybe it is. Anyway, it works!

then be taken from Ninety Mile beach if the Einstein theory is proven a fact of nature, there will be shown on the places a distortion of the rays of the stars so photographed due to the gravitational attraction of the sun's gravitation on the stars, Prof. Campbell states.

SPORTING GOODS FIRM IS FORMED BY LOCAL PEOPLE

Gerald A. Cleary and Jack Perrin, two well known and very popular young men of this city, announce that they will open an up-to-date sporting goods store in Escanaba the latter part of this month. Arrangements already have been made for occupying the room at 1009 Ludington street, soon to be vacated by Mrs. H. M. Breitenbach, who will remove her millinery store to the Greenlaw location. Messrs. Cleary and Perrin expect to carry an exclusive and high grade line of sporting sundries, everything from football, baseball, basketball, track work, fishing tackle, in short everything for the sportsman and athlete.

USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching Eczema Helped Over Night.

For using skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even frey, itching eczema is dried right up.

Get a small jar from any good druggist and use it like cold cream.

Johnstown and Gloversville, N. Y., are said to supply more than one-half of the gloves and mittens worn in the United States.

TO TEST THEORY OF EINSTEIN BY ECLIPSE OF SUN

(By Associated Press)

SAN FRANCISCO, May 11—Astronomers and physicists will prove or disprove the Einstein theory of relativity on ninety miles back a desolate and almost inaccessible point on the northwestern shore of Australia, Sept. 21, according to Prof. W. W. Campbell of Lick observatory Mount Hamilton Cal, who will head the party of scientists from America.

The first section of the expedition from Lick observatory is now in Tahiti taking observations of a group of stars which are moving behind the sun. These photographs are being taken at night. During the day of Sept 21 there will be an eclipse of the sun in the region of Australia and the South sea, and at that time this same group of stars will be immediately behind the sun and in the best position for observation. Photographs will

"BABE KALISHEK TO TRY A DROP OF FIVE MILES"

Daring Escanaba Girl After New Laurels in Reckless Field.

Carrying a picture of "Babe" Kalishek, Escanaba girl who has started the flying world by her feats of daring the Chicago Tribune has the following to say regarding her next ambition, which is to break the parachute jump record for women. She will attempt to drop 20,000 or 25,000 feet in a parachute, from an airplane. This means this Escanaba girl will risk her life in seeing whether it is possible for a human being to drop a distance of nearly five miles. The Tribune says: "Would you care to dance on the wing of a plane? "If you would just call of Babe Kalishek for she's game if you are. She claims the title of champion woman aerial acrobat and to trip the light fantastic on the wing of a ship sailing along a few thousand feet in the air is a mere nothing to her. She has been giving breath taking exhibitions

throughout the United States, Japan, China, Australia, and New Zealand. She is going after the parachute jump record for women next and intends to leap from a height of 20,000 or 25,000 feet."

Dies After Living 45 Years Without Sleep

PITTSFIELD, Mass., May 11—William Warner, 82 years old, blind and without sleep for forty-five years, died at the home of Mrs. Alexander Hough tling in New Marlboro, Mass.

He was a wounded civil war veteran, and as a result of nearly half a century had been unable to sleep. He managed to get rest in a rocking chair but never lost consciousness.

Medical men and scientists had studied his case and vouched for his sleep less state.

GETS 3 TO 5 YEAR TERM BREAKING, ENTERING

CHARLOTTE, Mich. May 11—Judge Smith in circuit court, sentenced Harley Badger to 90 days in the Detroit House of Correction for larceny, and Homer Zimmerman, convicted of breaking and entering in the day time, from three to five years in Jackson prison.

ECZEMA

Torturing, itching eczema is immediately relieved by the application of Dr. A. W. Chase's Ointment. This Ointment has an extraordinary control over all itching skin diseases. Pure, healing, soothing—it is not injurious to the most delicate skin. Best for children and remarkable in its effect on all skin irritations, insect bites, ring worm, chilblains, chafing, sore feet, chapped hands, pimples, blackheads. At all good druggists. To be sure of getting the genuine, see that portrait and signature of Dr. A. W. Chase is on the box—a trademark that protects you against imitations.

Unknown Foods

You do not ask your family to sit down to the table with unknown guests.

Are you equally careful about the meats you invite them to eat? Equally sure of where they come from, what they are, who stands sponsor for them?

Nowadays, fortunately, the risk is not great. But with Swift & Company's products there is none.

Swift & Company's products are the result of years of experience, of careful, conscientious effort.

Their quality is a constant factor, always to be depended upon. The consumer is doubly protected because, in addition to the care used by Swift & Company, Swift's food products are carefully inspected by government employes and bear the federal inspection stamp.

The word "Premium" on ham or bacon means that we stake our pride and the reputation of years on that ham or bacon.

These products have been selected, cured, smoked, and handled by workmen who take the same pride in our products that we do.

Be sure of Swift's products and thus make certain that no strange or unknown food is introduced into the family circle!

Good Will Farm Work Is Highly Successful

At the semi-annual meeting of the board of directors of Good Will Farm at Houghton, to the support of which worthy charity many Escanabans donate a stipulated amount annually, the following report was submitted:

"The past six months have been months of extreme effort in every way. They have called upon every resource of mind and body of financial strength and moral backing, and have found us struggling for our very existence, as has been the case with many of our Copper Country people. But we are looking forward hopefully to better times, and sincerely trust that the hardest is past. Not in many years has Good Will Farm faced such a serious situation. This too at a time when the heaviest demands have been made upon us to relieve distress among children. Our family has been close to sixty all winter. The closing of the iron and copper mines worked a great hardship on us, for the mines and miners have been our main support.

Christmas High Light

"However, the one bright spot in the year was Christmas. In spite of the hard times the appeal from these kiddies always meets a generous response, and we had sent in everything that a child's heart could wish for, fruit, candies, much of it homemade, nuts, turkeys, cookies, baseballs, book balloons, dolls and toys, lovely ones of every description, plenty for all and their arms and eyes were fairly bulging. Our house that day I know was the happiest in the county. One little girl in comparing her last Christmas (spent at home) with this said: "All the Christmas we had last year was at the church, and we couldn't go to that because we had no shoes."

A pair of twins six years old who had lived in the backwoods, had never heard of Santa Claus. He had never visited their home. All the excitement and preparation of that time meant no thing to them, until the day came, and they have been talking about it ever since. Our tables also were quite festive, arranged with pretty candy napkin rings that had been sent in and with lovely net silverware, also a gift from a silver ware firm in the East, and a generous one it was consisting of 4 dozen (each) knives and forks, 4 dozen teaspoons and 4 dozen serving spoons, 4 dozen kitchen knives and a half a dozen pocket knives. A neighbor who dropped in to see our tree Christmas morning, finding the children so happy said on leaving, "Thank you for giving me my very nicest Christmas." From all over the Upper Peninsula we received Christmas gifts and from below as well, so that it would be impossible to tell of all, but I do want to mention some of them. Markham's of Houghton sent candy, Neison's candy, Mr. Hill turkey, Mr. H. H. Herrick cookies, Dale and Nicholas flowers, and many many others, so that nothing was missing. The people of Menominee contributed largely to the Christmas joys. Thru the efforts of the ladies of the Eastern Star they had a campaign there for clothing, money and toys, which they gave generously, and then had an entertainment for our benefit, which was a great success.

Gifts For Children

"Other nice things have been done for the children. One of our Houghton friends gave two teeter swings, his own invention, and they have been a continual source of pleasure; particularly to the new comers. When all other efforts have failed to comfort them in the first hours of homesickness amid strange surroundings we will find them taking consolation in the teeters.

"Another pleasure which they always enjoy is the entertainment given them by the Vance Orpheum Co. and Mr. Kerredge never fails to remember them when he is showing something of particular interest to little folks.

"An all important feature of our work is the prompt and careful medical attention given when needed. Dr. Harkness and Dr. Scott have been our family physicians for years, and have enabled us to keep up a remarkable health record. Doctors Messinger and Nilson have also ministered to their several needs. All of these men give their time freely and generously and it is a service we never cease to be grateful for.

A splendid showing

"It was distinctly gratifying to us to have so many people remark on the splendid showing which our family made at the recent weighing of the children at the J. A. Hubbell school, which our kiddies attend. Especially so when it is remembered that a boon is their service in supplying trousers, blouses, bloomers dresses etc. Last fall before the cold weather came on they supplied us with much needed bedding, no less than twenty comforters. The best part of the work is that they learn just what we need, and then meet that need. I have never heard of another institution benefiting to such an extent from the kindness and industry of such a group of splendid women.

Keep Families Intact

As you know, one of our policies has always been that wherever possible to do so brothers and sisters of a

family be placed together or near together. In our placement work of this year we have been able to do more of this than ever before was possible. Many times when applying for a child on learning of brothers or sisters, the prospective foster-parent has taken two. We are always happy over a placement of this kind for it means much to the child, now and in later years to have the companionship of his own kin.

All things considered I feel that in spite of the depression that has made itself felt so deeply, cutting down our income and increasing our work, the year for us has been successful in amount and quality of that which we have accomplished. This is due to the loyalty and devotion of the people of the entire Upper Peninsula, and particularly the Copper Country. To quote the words of a man who comes into this Northern Peninsula in the interests of a similar work in the Southern part of the state, "Miss MacDougal, nowhere have I found such loyalty to any work as exists in the Upper Peninsula toward your Good Will Farm."

Respectfully submitted,

E. MAC DOUGAL,

Sup't.

Farmers Seek Aid

BAY CITY—Northeastern Michigan farmers and development leaders are considering means to obtain aid for the farmers from the Federal Farm Loan Bank.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if kidneys feel like lead or Bladder bothers you—Meat forms uric acid.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless! Inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Community Spirit Awake

BAY CITY—Bay City is making plans to organize a community council composed of representatives of every group and organization in the city. Efforts will be made to foster community activities.

To Establish Aquariums

DETROIT—The Northeastern Michigan Development Bureau, with headquarters in Bay City, is arranging to establish three aquariums in the Michigan central station here in which will be displayed specimens of brook trout from northeastern Michigan.

W.C.T.U. DEMANDS ENFORCEMENT OF ALL STATE LAWS

Will Insist On Rigid Application of All Laws On State Books, at Muskegon Meeting.

(By Associated Press)

DETROIT, Mich., May 11—Demands for a state-wide educational campaign in behalf of rigid enforcement of all laws on the statute books, will be voiced by speakers at the annual state convention of the Women's Christian Temperance Union, to be held in Muskegon June 9 to 14, inclusive. It is announced by Mrs. Norma F. Mudge, of Detroit, corresponding secretary of the state organization.

The convention will be featured this year by appearance of the three chief officials of the national W. C. T. U., who will come to Michigan from the national headquarters at Evanston, Ill. They are Miss Anna Gordon, national president; Mrs. Frances Parks, national corresponding secretary, and Mrs. Margaret Mann, national treasurer. Those in charge of the convention also are hopeful of obtaining as speakers the men who have charge of liquor law enforcement in this state.

The convention will be opened the night of Friday, June 9, with a banquet, business sessions of the convention opening the following morning. Three sessions will be held daily thereafter, except on Sunday. On the latter day prominent W. C. T. U. workers will occupy Muskegon pulpits. In the afternoon and evening mass meetings will be held.

Law Enforcement Talks

One night during the convention the session will be devoted to discussions of law enforcement. On another night Muskegon men and women will be the only speakers.

Although National prohibition for which we worked so hard and earnestly for so many years, has come, the fight has just begun," Mrs. Mudge said. "This especially is true in Michigan because we are confronted with the prospect of an attempt being made to amend the state constitution to permit sale of beer and wine in the event the national prohibition amendment should be repealed.

"Our organization is working, not only in behalf of ending traffic in liquor, but also in the interests of law enforcement in every direction. The general public must be educated to the need for abolition of all laws. During the last several years there has been a general laxness with regard to law enforcement and this spirit has not subsided.

May Change Organization

The question of changing the organization's state constitution to abolish either the county or district W. C. T. U. organizations is likely to come up at the convention and provide the theme for considerable debate. At present each district has an organization under jurisdiction of the state body. Under each district organization are grouped the various county organizations, the local units being maintained in addition. In some quarters it is desired to do away with either the district or county units. This proposal is bitterly opposed, however, from other quarters.

The state organization now is in the midst of an extensive membership campaign, by which it is hoped to double the present state membership of 12,500.

The Muskegon convention will bring together representatives from every county in the two peninsulas, according to Mrs. Mudge, Mrs. E. L. Calkins of Ypsilanti, state president will preside at the meetings and deliver an address.

Aims and Purposes of U. P. Sportsmen's Ass'n

Although this association, as its name implies, is state-wide in scope, the majority of people are unfamiliar with its purposes and the benefits that will result from a thorough-going organization of this kind.

It has also been found in soliciting memberships that people who do not fish, hunt or camp are under the impression that membership does not apply to them. This is a mistaken idea and we desire to correct it.

Until recently in all conservation matters the American people have traveled along the lines of least resistance, permitting a wasteful destruction of our forests and wild life.

Our Forests

The recreational side of our forests, game, fish, wild fowl and song-birds demands that they be preserved in order that the coming generations and tourists may enjoy them and profit in health and mind and body. Where is the man, woman, boy or girl who even in these materialistic times does not feel the call of the woods? It does not matter whether that call is fishing, hunting, camping, motoring, bird study, botany, hiking, picnicing, but it is the mysterious, fascinating something called a Nature that calls us out. The time has come when we must concern ourselves about these things that endow nature with charm that makes her so interesting if we do not they simply will not stay with us. Let fires kill your trees and your forest is despoiled. Take away the fish and game and your woodland is a desert. Still the voices of our song birds and the woods is a lovely, uninteresting place. Forest protection is true conservation, because in protecting the forests we hold considerably in protecting the fish and all wild life. Trees not only beautify our surroundings in our drives and varied outdoor life, but they purify the air we breathe as well.

An Altruistic Movement

Apart from the commendable standard of sportsmanship that these organizations build, men who are interested in this work are rendering a great service to mankind, a service that will live and multiply long after we have passed out of this life. The bigness of this work is not given a thought by the masses who are prone to view it from the standpoint of the sportsman alone, when, in fact, its benefits cover such a wide range that it is of vital interest to all. Not unlike some other great services this a volunteer work in which men not only serve without pay but go to some expense out of their own pockets to further the work. Those of us who have taken the lead in this work have yet a great work to do, and some of us will have to sacrifice time in order to get our aims across. I will take time and it will take money to do the things we want to do, but it is worth the time and it is worth the money.

What We Hope to Do

Enroll every sportsman and lover of nature in Northern Michigan. Grow big enough so the legislature will give us what we want. Get a dozen fish hatcheries. Plant duck and fish food in every lake and stream adapted to it. Prevent places valuable as public boating, fishing, hunting or camping from being drained or flooded or closed to the public. Teach both farmers and sportsmen that they have much in common, can benefit one another by cooperating through the association, and by getting the other fellow's viewpoint, to pull together. Create game refuges in northern Michigan. Stop violations by example. Secure more game and better shooting; more fish and better fishing; in-

fluence more people to seek the fountain of life and find it in nature; attract more tourists and get better business.

What We Are Doing

Organizing units in all parts of the counties just as fast as we can get to them.

Assisting the state department of conservation in the planting of fish in lakes and streams.

Planting fish and wild fowl food in the lakes and streams.

Studying stream pollution.

Devising means of saving waters available for public uses.

Thru press campaign, urging study of conditions, appreciation of needs, yet unmet, creating public interest in wild life, giving facts about the animal and birds that kill our game.

Cooperating with Federal officials and bureaus in distributing game laws, bulletins, etc.

Reporting violations of game laws to proper authorities and checking up to see that investigation is made.

Studying how to bring about truly BETTER HUNTING, FISHING, CAMPING AND ALL OUT-DOOR LIFE.

Seeing to it that forest fires are put out and conducting press campaign against the starting of fires through carelessness.

What You Can Do

What you will do if a true sportsman and citizen.

Join the Northern Michigan Sportsmen's Association now. Only costs \$1.50.

Get a new member. No trouble.

If no unit is established in your locality, help organize one; if there is one, then help the officers and members by active work and helpful suggestions; do not just kick.

Consider membership a privilege as well as carrying duties with it.

Be a true sportsman, not a hog.

Observe the law, always taking less than the limit. Put back the small ones and leave birds for seed.

By example and suggestion, teach boys and girls to do the right thing and to love Nature.

Report law violations. To do less is un-American. Warden can not be everywhere and know everything.

Talk the association and its objects every time you get a chance. Point out its usefulness program and plans.

DO IT RIGHT NOW.

JOSEPH BOTTKOL.

Tolosa, Ohio, boasts of the largest goldfish hatchery in the world. Last year the firm controlling the hatchery shipped 25 carloads of goldfish and 20 carloads of fish globes.

Not a Bootlegger, He Just Fools 'Em With Near Beer, He Avers

CHICAGO, May 11—Daniel W. Davis came to Chicago from New York to make \$1,000,000 selling "near beer" under the guise of real beer to residents of the "gold coast," the home of many of Chicago's wealthiest citizens. On Monday he sat behind the bars in the lockup in the Federal building and defied agents to prove that the "kick" in his brew registered more than one-half of 1 per cent.

"I came here all the way from New York," he told federal officials, "because I knew from newspaper reports that Chicago was one of the best cities in the country to make money on booze. I am not a bootlegger; and I am not a fool; but when a fellow can figure out that there are enough fools in the world to give him \$1,000,000 thru being fooled, I believe he is entitled to the dough."

"Here was my proposition. I knew that there was a number of beer-lovers among the wealthy. I knew, too, that they would buy beer if it was delivered safely to their homes. You know, after these years the average man forgets the taste of real beer. He can be fooled in the most stuff."

"So I bought up a lot of near beer and just sold it as being the real thing. I never knew the difference."

Department records show. The 1922 total is 670, equivalent to 682 deaths among every 100,000 of the population. This is the lowest tuberculosis death rate ever reached in Michigan, authorities say, and one of the three or four lowest in the country. With 763 deaths in the same period the preceding year the rate stood at 79.9, or 11.4 more deaths to every 100,000 persons.

Of the 670 deaths this year, 431 occurred in the state outside of Detroit and correspond to a rate of 80.9 but not reported 274 deaths, giving the city a rate of 82.5. The average rate for the state for 1921 was 71.6.

"Prevention of disease," says Dr. R. M. Olin, commissioner of health, "is a matter of education. The declining tuberculosis death rate proves this. On no health subject is the public so well informed as on tuberculosis. When we become as well informed on other diseases and health measures Michigan will, indeed, be first in health."

Eighty-three fewer persons died from tuberculosis in the state during the first three months of 1922 than in the corresponding quarter of 1921.

When Hungry Little Muscles Say, "Please Help Me"

DID you ever stop to think who it really is that's talking, when childish voices raise a clamor, "Mother, I'm hungry?"

It's really muscles and bones and nerves and cells worn in the stress and strain of play—that are calling for rebuilding material.

What kind of an answer? The right thing, or just anything? It makes a big difference.

Grape-Nuts, so deliciously crisp and appetizing to taste, and so quick and convenient to serve, is a splendid food for rebuilding young bodies. All the wonderful nutrient put in wheat and barley by Nature, including the vital mineral elements, is there—and Grape-Nuts digests easily, quickly and completely. Served with cream or milk, Grape-Nuts is exceptionally nourishing.

"That's splendid!" says appetite. "That's just the need!" say the hungry muscles, nerves and bones.

Ready to serve right from the package—always crisp and fresh. A favorite dish with all the family. Sold by grocers.

Grape-Nuts—the Body Builder

My Home and Personal Property For Sale

Due to the fact that I have sold my school to Mr. L. Walker, of this city, I am now offering my fine home at 1124 Eighth Avenue South for sale. The house is practically new, with seven good-sized rooms besides closets, pantry, and halls. There are four large bedrooms with clothes press off each, roomy and convenient bathroom, full basement under the house, a very efficient hot water heating system, hardwood floors throughout, gas, gas heater, electric lights, telephone, work-bench, vegetable cellar, outside coal bin, beautiful lawn, shade trees, roomy and convenient garage with water and lights connected, stable for one cow, silo, park and coop for chickens, splendid garden, about 100 strawberry plants due to fruit this season, one dozen raspberry plants also due to fruit this year. To see the home is to appreciate it and want it. I will be pleased to show you through if you will let me know in advance. My price is right.

Rather than Move It, I Offer the Following Personal Property

Good family cow, young and now milking, due to freshen in August; 12 pure-bred White Wyandotte hens laying about 90% now; Washing Machine; Kitchen Cabinet; Refrigerator; Majestic Kitchen Range; Sewing Machine; Dining Set consisting of six chairs, table, buffet, all solid oak; Hall Tree and Seat, solid oak; Three-burner Gas Plate and Cupboard Stand; Long Mirror Dresser; Library Table, oak; Grinnell Brothers Player-Piano; Lawn Mower; Victor Talking Machine with Records; Baby Carriage in good condition; Baby Sully Cart; 50 Egg Size Incubator; 50 Hen Size Out Sprouter; 75 feet Skinner Sprinkler System; 1 Auto Casing 32x4, Firestone; 1 Cutting Box; 1 Clover Cutter.

Also School Fixtures Not Taken by Mr. Walker

One Regulator Clock, good time keeper; 1 Edison Disk Mimeograph; 1 Mimeoscope; 1 No. 2 Educational Filing Cabinet, quarter sawed oak, in fine condition. To the purchaser of my home there is a splendid opportunity to rent rooms to teachers of the High School, as it is right across the street.

\$6.85

Big Clean-Up

Tweed Suits

Have punched together a lot of Tweed Suits in small sizes; losing them out at a low price. Every one in a style most popular this season. Choice

\$9.65

Why I Selected a Western Electric Clothes Washer

Here's What One Woman Had to Say:—

"Every woman who maintains a home, realizes that either to keep her health by saving her strength, or to retain her laundress, she must cease the old-fashioned and laborious, clothes-destroying, wash-board method of washing clothes and institute the modern method of accomplishing this work by means of electricity. With this thought in mind, I started out to find a washer that would clean all my clothes clean, with the least amount of time, expense and labor. It had previously been convincingly demonstrated to me, that the wood drum type was by far the most

efficient of all. Among the many washers which I examined, the Western Electric, with its exclusive safety features, its strong, sturdy mechanical construction, attracted my eyes, so I was immediately impressed with it as the best from every view point."

You, too, will be impressed the same way when you have the Western's many exclusive special features demonstrated to you—and they are many. Before deciding on what to buy—by all means see Escanaba's leading and most popular washer—The Western.

OBITUARY

DOROTHY ALICE WILLIAMS
Little Dorothy Alice Williams, age two years and seven months, daughter of Mr. and Mrs. Earl M. Williams, 711 South Tenth street, passed away at the home at 3:40 this morning, after a gallant struggle against the greatest odds for about one year. Mr. and Mrs. Williams had taken the child to specialists in various parts of the country and for a time the little one seemed to respond to their treatment, but she had gradually declined until the end early this morning. Dorothy Alice had been ill for the greater part of a year and always her devoted parents hoped for an improvement in her condition, sparing neither time nor expense in seeking to prolong the precious little life.

Mr. and Mrs. Williams will have the sincerest sympathy of their wide circle of good friends in their sorrow. The child was a precocious infant and won the hearts of all friends of the Williams family. The little body was taken to the Anderson & Buchanan undertaking parlors to be prepared for burial, which will be made in Lakeview cemetery, although the time has not yet been definitely fixed, pending the receipt of word from relatives of both Mr. and Mrs. Williams who reside in Illinois. The body will be returned to the Williams home tomorrow.

JUSTIN P. FULTON

Justin P. Fulton, a farmer residing at Minor Spur, passed away at 9:00 o'clock this morning at the home of Mr. and Mrs. John Broeckart, No. 17 Second street, Gladstone, where he was taken about one week ago when his condition became serious. Mr. Fulton was 49 years of age. He had been ill for some time from a complication of diseases, and it so happened that just when his condition reached the most serious stage, his wife and daughter Gladys, also were stricken by illness, so that they were powerless to help each other, for which reason Mr. Fulton was taken to Gladstone.

He is survived by his wife, daughter, one brother, Andrew, of Gladstone, and a sister, Mrs. Olive Potvin, of Gladstone, and two other sisters: Mrs. Fere Trombley, of Wyandotte, Mich., and Mrs. Frank LaFave, Alpena, Mich. The body was brought to the Anderson & Buchanan parlors in this city to be prepared for burial and will be taken back to Gladstone tomorrow afternoon. Funeral arrangements have not been completed, but burial is to be made in Gladstone.

Orange and Black Society to Put On Show Tuesday Eve

Arrangements were completed today by the Orange and Black Literary Society of the Escanaba high school, for an entertainment at the high school auditorium next Tuesday evening. This will be something out of the ordinary and it is for a splendid purpose.

When Wendell Land won oratorical honors of the upper peninsula recently, it meant that he had to go to the state meeting to uphold the good name of the local school. This involves some expense and it is for the purpose of raising money to meet this expense that the entertainment is being put on Tuesday evening. The state meeting is May 19th.

Tuesday night's entertainment will consist of 15 acts of vaudeville and a moving picture. An admission of 15 cents for adults and 10 cents for children has been fixed and it is hoped that every well wisher of the school will attend this splendid performance for such a laudable purpose.

Special Sale, Thursday, Friday and Saturday, all Hats at reduced prices for this sale range from \$1.50 to \$10.50. Wonderful bargains in the lot. Model Hat Shop, 203 South Tenth St. 132

GARBAGE DUMPED SEVERAL PLACES WHEN WAGONS PASS

The police have received numerous complaints in the last few days relative to citizens dumping garbage and refuse in alleys since the city wagons have gone thru and cleaned up. Not only this, but instead of dumping this matter on their own premises, they place it on the premises of some one in their near neighborhood, thus creating trouble for the unsuspecting property owner.

The police wish it understood that this practice cannot continue and the health department is emphatic in its statement that garbage cannot be dumped in alleys, nor will the city attempt to clean up after the wagons have once passed thru a given territory.

Due notice was given citizens to have their old cans, waste paper, rubbish and garbage placed in suitable containers and placed where the collectors could get them, a week ago. Now the wagons have completed their work in several districts and cannot be expected to cover the territory again. Failure to have the trash out in time makes it incumbent on the property owner, or occupant, to dispose of it themselves and this rule will be enforced.

Local Man Finds He Has Valuable Coin; To Get Information

Henry Barkell, local drayman, figures he may have been carrying a small fortune around in his pocket for the last 17 years and he's going to investigate.

Wednesday's Mirror carried the following news item from Ionia, Mich.:

"Fire Chief William Habersumpf has a United States one-cent piece, the large penny dated 1847, which was found by men digging up gas pipes on Washington street in front of the fire barn. It is regarded as a curiosity and he has been offered a large sum of money for it."

Knowing that he had one of the old-fashioned big one-cent pieces, Mr. Barkell drew it from his pocket and looked at the date, which, he was surprised to find, is 1847. He found the coin 17 years ago while helping tear down an old house and has been carrying it ever since as a pocket piece. He will write the Ionia man to learn the value of the coin.

SOCIAL NOTES

Surprise Party

Mrs. James Cousineau was the guest of honor at a very pleasant surprise party at her home 1501 Ludington st. when a number of her friends came to the house unannounced and proceeded to have a good time. Cards were played followed by a musical program which was enjoyed by all present.

Dainty refreshments were served at the close of the evening's diversions.

Club Holds Meeting

The plot thickens we have been guessing for many moons what the meaning of T. E. P. G. could be. The Club is very secretive about the name and will not divulge one thing about it. Nevertheless they find time to hold meetings and entertainments, one of which was held at the home of Miss Phalen Tuesday evening. Dancing, games and music were the main diversions after which the thirteen members enjoyed a fine lunch.

Hart-Vandenberg

A marriage license was issued at the county clerk's office yesterday to Miss Melvina Hart and James Vandenberg.

Epworth League

The members of the Park River Epworth League are kept busy these days. They have a number of social gatherings planned which will no doubt attract a large attendance.

This evening the League will meet at the church to hold election of officers, followed by serving of refreshments. Friday, May 12, service and quarterly conference will be held in the church at which time Rev. Anderson will preach and also conduct the meeting.

The auction sale which was scheduled for May 8 will be held Saturday May 13, under the auspices of the Epworth League. This sale will also be held.

"Mite Box" Opened

The Woman's Home Missionary Society of the First Methodist church will have their "Mite Box" opening at the home of Mrs. F. L. Baldwin. An interesting program is being arranged and all ladies are asked to come and bring their boxes. The meeting will be Friday afternoon at 2:30.

SCHOOL PARTY FRIDAY

The Junior Class of the high school will entertain the Senior Class Friday evening, instead of May 19th, as has been previously announced. It was stated today. This entertainment is for Juniors and Seniors and members of the school board only.

GIRL SCOUT SALE

Members of Girl Scout Troop No. 7, will hold a pantry, candy and flower sale at the Ed Erickson store on Saturday of this week. It was announced today. The young women will have

PANTRY SALE

The Woman's Guild of St. Stephen's Episcopal church will conduct a pantry sale Saturday, May 13, at the millinery store of Mrs. H. M. Breitenbach. The sale will begin at 10 o'clock Saturday morning and continue until the supplies are exhausted.

Perron Bros. Take Over Contract for a Nine Mile Road

Perron Brothers of this city have been awarded the sub-contract, which Louis Harmon held for the construction of nine miles of road north of Rapid River to the Delta county line. Information to this effect was wired here by H. I. Davies, district road engineer. Mr. Davies wired the information following a conference with the state highway board.

It is understood that the work will be taken up at once by the new firm of contractors and will be pushed through with all possible speed during the summer. When completed, it will connect up the last link of good roads between Escanaba and Marquette, a condition which will meet with the approval of many auto owners in this city.

Headquarters For Eagle Convention At the Eagle Hall

Due to an error in the copy for the program prepared by the Escanaba Aerie of Eagles for the state convention to be held in this city, June 19-21, it was stated that headquarters would be in the K. of C. club. This should have read, Headquarters, Eagles Hall, South Ninth street.

Railway Enginemend Endorse LaFollette

(By Associated Press)
HOUSTON, Tex., May 11—The International Brotherhood of Locomotive Firemen and Enginemend, in convention here today endorsed Senator R. M. LaFollette of Wisconsin for re-election for United States senator.

Printing Instructor to Take Up Dentistry

J. A. Valeska, printing instructor of the Escanaba high school, has announced that he will not return next year, as he intends taking up a dental course in Marquette university in Milwaukee next year.

Initial Plans For Industrial Exhibit Being Made Now

O. L. Randon, secretary of the Chamber of Commerce is in receipt of a wire from the General Organization Co. of Chicago, promoters of community business propositions, stating that they will have men here about May 15 for the purpose of taking initial steps for the industrial survey which is proposed here within the next few weeks.

It is proposed to make the industrial exhibit the peep-show thing ever attempted in this section of the country and work will soon be started on a scale which will be the best evidence of the broad scope of the enterprise.
