

FATE OF LOCAL TAX BILL IS IN BALANCE

SAID TO HANG ON WEIGHT TAX LAW UNDER FIRE

Complicated Condition Exists on Last Day of Session.

Despite Appearances Local Observers Believe Escanaba Tax Bill Will Pass.

Lansing, Mich., May 5.—The final day of the present session of the legislature found several appropriation bills and the highway financing measure awaiting action by the law makers.

The house and senate had before them the message of Governor Groesbeck urging them not to let mere differences of opinion as to methods interfere with the passage of the Smith weight tax measure for licensing automobiles which aims to provide fourteen million dollars annually for highway financing.

No opposition to the Smith bill developed Friday and it was advanced to third reading. Members of the house who supported the two-cent gasoline tax measure vetoed by the governor are expected to throw their strength against the bill when it comes up for final action probably late today.

THE ESCANABA BILL. Information received here today indicates that the fate of the Escanaba tax bill—the Equal School Opportunity measure—which was evolved in this city, was hanging in the balance and was dependent upon what action the house took on the Smith weight-tax bill. It is understood here that the Escanaba bill has become a trading measure; that Governor Groesbeck is determined to bring influence to bear to defeat the school bill unless friends of the school bill whip enough house members into line to pass the Smith weight tax bill.

The Escanaba bill is understood to have been reported out of the senate committee and is on the order-of-business for today. Late this afternoon there was no definite information available as to what could be depended upon. The merits of the Escanaba bill are not disputed except by Detroit and Grand Rapids and that is from selfish motives.

The situation seems to be that if the weight tax bill goes through the Escanaba bill will have a chance in the senate. Otherwise there is a grave likelihood that the local bill will be defeated before adjournment tonight. At any rate, the last minute rolling of the waters at Lansing has considerably muddled the aspect of the school tax measure.

Seek Compromise. The senate bill increasing the appropriation for the university and various institutions included in the omnibus bill failed of house approval yesterday and conference committees are today seeking some kind of a compromise so that the measure will be ready for passage some time tonight before the session ends.

The house went on record favoring an \$80,000 appropriation to extend the area of the state park at Mackinac Island. The house and senate conference report on the corporation tax bill accepted the senate's \$50,000 maximum levy, \$10 minimum and two and one-half mill rate. The house had demanded a \$450,000 maximum.

Small Fire Does But Little Damage Today

The fire department was called to extinguish a small fire in the warehouse of the S. C. Stille plumbing shop at 4 o'clock this afternoon. Flames from a bonfire in the alley ran through the dry grass and communicated with the warehouse. A portion of one of the walls was burning and was torn off. Little damage was done. A chimney call took the department to 1361 First avenue, north, about 9 o'clock last night.

Mr. and Mrs. B. B. Sensiba returned by motor from Florida, where they have spent the winter.

Forest Fires in Wisconsin Peril Farmers' Homes

LACROSSE, Wis., May 5.—Doz- (ens of bluffs, fields and forest fires, which have started during an excessively long dry spell and which are unprecedented this time of the year were sweeping over thousands of acres of land in Wisconsin.

The most serious fires are in the timber lands up in the country near Milston, which is twenty miles north of Tomah. Many of these fires, it is declared were started by trout fishermen who carelessly threw cigarettes and cigars into the dry grass, while other fires had their origin in camp-fires which burned over the grass until timber or dry fallen branches were reached. This far no buildings have been burned. No rain has fallen in this section for over two weeks.

PINE RIDGE BOY DISAPPEARS FROM HOME MYSTERIOUSLY

John Lang, Gone Since April 27th, Sought by Authorities in Vain.

Delta county authorities are confronted by the problem of another mysterious disappearance in addition to that of Emil Rudiger, aged dock watchman, whose whereabouts have sorely puzzled local authorities since his disappearance on April 21st, was not reported until May 1st.

On Thursday, the sheriff's department was notified of the disappearance of John Lang, 16 years of age, from his home at Pine Ridge, where his parents reside on a farm. This boy disappeared on April 27th without saying a word to his parents or so far as the officers have been able to learn, to anyone else in that section. Sheriff Carney and his department have spent several days in trying to locate the youth but thus far have been unable to get their fingers on anything that would afford the slightest clue.

Left April 27th. John was about the farm as late as 10 o'clock on the morning of April 27th. At noon he did not appear at the house and it was thought that he might have gone over to some neighbor's house—a not uncommon thing in the neighborhood. Nor was much attention given to his absence when he did not come home that night, as it was not unusual for boys of the section to remain over night at the homes of other boys.

However, as several days passed, and it was learned that John was not in the neighborhood, the matter was finally reported to the sheriff and he has been busy on the case since, but without absolutely no results so far.

Wore Overalls. John was a medium sized boy for his age, light complexioned and wore a suit of khaki overalls when he left the farm.

Investigation fails to reveal any motive for his leaving. So far as can be learned he had had no trouble at home and the mysterious manner in which he just simply faded out of the picture is the subject of much grave speculation in the Pine Ridge neighborhood.

CITY MANAGER SOON TO MAKE ANNUAL REPORT

Audit of Books Expected to Be Completed During Week.

It is expected that C. E. Kelso will have completed his audit of the city books about the middle of next week and immediately the figures are available City Manager Harris will start on the making out of his annual report, showing what has been achieved by the city utilities and what has been done in all other branches of the city government up to January 1 of this year. The report will embody prognostications for the future and be a most comprehensive review of what has taken place here since the city manager took over the responsibility for conducting city-affairs under the supervision of the city council.

The proceeds for the benefit party at the North Star Hall this evening will go to help care for unfortunate tubercular patients. All should do their mite to this worthy cause.

Hint At Suicide In Death of College Student

LAWRENCE HARTWIG WINS OUT IN ORATORICAL CONTEST FOR UPPER PENINSULA SCHOOLS

For the second time in two years, Escanaba has been awarded the high school interscholastic oratorical honors for the upper peninsula, and will send one of her brilliant young men into the state contest to compete for state honors.

This second honor comes to Escanaba through the thoughtful, scholarly and brilliant oration of Lawrence Hartwig, whose work at Marquette last night proclaimed him the undoubted peer of the representatives of all other schools in the upper peninsula.

The Escanaba boy's subject was "The Tragedy of Today," which is an appeal for the abolition of child labor. His oration was a masterpiece of thought and composition as well as delivery, the Escanaba boy being fortified by an amazing array of facts and figures descriptive of child labor conditions in many sections of the United States, but particularly right here in our own state of Michigan, where our best sugar fields are taking the strength and vitality of boys and girls and coining them into coin of the realm.

Hartwig was awarded the decision of two of the three judges on thought and composition, and also received an equal number of votes on delivery.

Enters State Contest. As a result of his victory he will deliver his oration in the state contest, which, by the way, may be held in Escanaba, as strong efforts are being made to have the next state contest held here.

In view of the fact that Wendell Lund, an Escanaba boy, won last year's state honors, and Escanaba again wins the U. P. championship, it is felt that Escanaba fairly deserves the next state meeting.

Second place went to Ralph Schwartzberg of Negaunee, his subject being "A Crime of the Industrial World." This young man was also second in last year's meeting.

Some Contentions. First place in the declamatory contest was awarded to Miss Bernice Vanderheyson of Norway, the subject of her declamation being "A Soldier's Reprieve." Lenore Eckstrom of Marquette was awarded second place for her "A Plea for Cuba." There is said to be some possibility of displacing Miss Vanderheyson on the ground that her presentation was a dramatic reading and not a declamation.

The contest was presided over by W. E. Olds, superintendent of the Escanaba schools. The judges were: Thought and Composition—President Hanson, Central State Normal; Prof. George Stran, Western State Normal; Prof. H. C. Cooley, Lawrence college.

Delivery. School Superintendents O'Hara of Gwinn, Piper of L'Anse and Prof. Lautner of Northern State Normal.

CITY BUYS BONDS OF DELTA HOTEL; GETS SIX PERCENT

A neat little stroke of business for the city was consummated yesterday when City Comptroller Ham purchased \$5,000 worth of the Delta Hotel Company's first mortgage six per cent bonds, taking the money out of the sinking fund and putting it to work. Sinking fund money is computed on the basis of four per cent, so that the city is earning more than had been originally contemplated on this money.

Mr. Ham selected bonds which will mature just at a time when the city needs the money to retire bonds of the city, which is the purpose of the creation of the sinking fund.

This is the initial step in this sort of money earning and money saving investments which the creation of a reserve fund will permit and it is regarded as the very best kind of business to have the city money earning six per cent on a good local investment which benefits both a local business and the city as well.

Icebound Boats Released From Whitefish Bay

SUPERIOR, Wis., May 5.—The first steamer from lower lakes is expected to reach the local harbor today, according to reports received by local vesselsmen. Boats which were ice bound in Whitefish Bay Thursday were released Friday morning and were making headway at a point north and west of the point.

The steamers Court and Neilson of the Pittsburgh Steamship Company's fleet led the way into open water.

BROCK THRILLS BIG CROWD AT THE CITY HALL

Predicts Strenuous Progress Campaign in U. S. in 1924.

Declaring that the Progressive Voters' League was leading the fight on special privilege and class legislation in the state of Michigan, Eugene J. Brock last night told an enthusiastic audience of laboring men and women at the city hall, that the work done last fall was merely a beginning and that it was the entering wedge for the campaign of 1924, which, he said, would be the most strenuous and hardest fought in the history of this nation.

Mr. Brock complimented the Delta county organization on the very splendid record it made in this county at the last fall election and predicted still further victories for it, if the organization is kept intact and incursions.

They First Blow. It was the first time the speaker declared, that laboring men and farmers had stood shoulder to shoulder to put a dent in the old machine and results spoke for themselves.

In view of the fact that the organization was young and inexperienced and that it was sadly handicapped for financial resources—spending only \$3,000 in the entire state campaign—he thought wonders had been achieved, in such a campaign as that of last fall, the speaker said, Newberry or Townsend would have spent at least \$10,000, but the people have become so thoroughly saturated with the insincerity of the old machine that they pretty largely took the bit in their teeth and bolted last fall.

Unjust Measures. Mr. Brock referred briefly to the Smith weight-tax bill, which is now one of the night terrors before the legislature, as typifying the unjust legislation which is proposed. He contended that the only just tax measure on automobiles was the gas tax, which rightly put the burden on the man who used his car or truck the most and not on the man who had a heavy car which he used infrequently.

Advocating a change in the constitution the speaker cited recent "five to four" decisions of the supreme court on child labor and minimum wage cases. He pointed out that where the court itself was so nearly evenly divided, there could be but one assumption, and that was that, so much of justice reposed on the minority side that an injustice was created by the decision being governed by one vote.

Child Labor Laws. The child labor law as proposed would take thousands of children out of the best sugar fields of Michigan and give them that rightful opportunity which all are presumed to enjoy in this country, but one man sitting on the supreme court bench has it in his power to keep these children at the grinding labor of long hours in the hot sun and depriving them of their birthright.

As to the minimum wage matter, he declared that a minimum wage of \$16.50 was absolutely essential to the safeguarding of the moral welfare of working girls and women. If the constitution permits anything less than this, then it's time to change the constitution, he said.

The meeting was very largely attended and the speaker was frequently interrupted by lengthy applause.

MOUNT CLAIMED TO HAVE TALKED OF "ENDING IT"

Scope of Investigation Is Being Widened by Authorities.

Pershinger Repudiates His Story of Being Lashed Head Downward to a Pile.

Investigation of the various angles in the mystery surrounding the death of Elnora Mount, the Northwestern University freshman who disappeared in September, 1922, and whose skeleton was found under an Evanston pier last Monday, was expected to be widened by the authorities today. The way to a solution of the case seems to be more confused than it has been heretofore.

Thomas J. Allan Mills, reported to be a freshman leader in 1921, was in Chicago—has caused a search to be started here for him today. Two outstanding features of the case developed yesterday when Miss Dora Fuchs, a friend of Mount, said that the youth had threatened to take his own life. Another development was the denial by Pershinger that he was tied head downward on one of the piles. Two other students also said that the former story of the student being lashed to a pile head downward, was not so.

TAIL LIGHT WEEK BRINGS TROUBLE FOR THE POLICE

One Man Wants Warrant Issued and Then He Will Go Out for Decision.

Did you ever, by chance, meet up with a family of agitated bumble bees who were willing to give physical expression to their peculiar form of woes? If so, you have some idea of what happened in police court yesterday and particularly today.

Several days ago the police issued a statement that all persons who did not keep their auto tail lights burning, would be picked up and that it would be Dollar Day for them. Well, the thing happened. Yesterday, seven persons faced the court, paid a dollar and costs and departed mumbling or breathing hard and glaring viciously.

Today eight more were brought in, but there was trouble today. One man, a well known local character, is going to see what sort of savadust is inside the law. He contends that the tail light law is all wrong and can't be enforced. He was asked to enter a plea of guilty, be fined and then appeal the case, but he isn't going to test it out that way; he's going to make the police department issue a warrant for his arrest and then go to the mat to test out the validity of the law. It is to be a friendly suit, it is understood, and it will be watched with deep interest by all who own or drive cars.

All Have Alibis. "In 98 per cent of all these tail light cases, the driver insists that the light must have gone out while driving and that they did not notice it. In some cases it is found that something is wrong with the connection, or the bulb, or perhaps the system, but there is always a good excuse found in the statement, "Why, that's funny; it was burning when I started out. Must have gone out."

At any rate, it is understood that the matter is to be threshed out and a decision sought for the governing of similar cases in the future. Many of those who have contributed small fines feel that they should have been warned, at first, and then if they failed or refused to remedy the defect, in their lights, it would be time to take police action.

The meeting was very largely attended and the speaker was frequently interrupted by lengthy applause.

OFFICERS OFF TO HONDURAS AFTER CLARA

Undersheriff, His Wife and Another Deputy Making Trip.

Have Two Pairs of Handcuffs and Pair of Leg Irons to Adorn "Hammer Murderess."

Los Angeles, May 5.—Two pairs of hand-cuffs and a set of leg irons are to accompany the undersheriff and his wife and another deputy who are to leave late today on their trip to Honduras to bring back a woman under arrest there believed to be Clara Phillips, the escaped "hammer murderess."

The officers expect to sail today on the steamship Venezuela and hope to reach their destination on May 17 and to sail for home on May 30, reaching Los Angeles again on June 10th.

Extradition papers, it is understood, will be sent direct from Washington to Honduras and will reach there in ample time so that the Los Angeles officials will not be delayed.

TWO SCHOOL BILLS ARE PUT THROUGH BY REP. CARTER

Delta County Representative Makes Fine Record for First Time in Legislature.

E. H. Carter, Delta county's representative in the state legislature, has stepped right to the front during his first term as a member of that body and his high standing with his fellow legislators is indicated by the fact that every one of the six bills introduced by him, have been passed and become laws.

The bills of his in which Delta county is particularly interested relate to school matters and in both instances relieve a condition which was found most oppressive.

One bill corrects an error and allows the city of Escanaba to assess not to exceed 15 mills on the city valuation for public school purposes. When City Comptroller C. W. Ham got to nosing around into the city's financial affairs following his arrival here, he soon discovered that the law limited Escanaba to the assessment of only 12 mills. Manifestly this was an error. It was intended to be 22 mills, but the error had gone through, being adopted by both the house and senate and signed by the governor. Escanaba labored long under that handicap until Representative Carter got on the job and introduced a measure calculated to correct the difficulty. He succeeded in getting an 18-mill limit.

The other school measure affecting this county relates to a situation in Gladstone. Formerly the city of Gladstone could not borrow money in anticipation of the collection of taxes for school purposes and its valuation was not large enough to permit the raising of enough money to run the schools without borrowing. Mr. Carter introduced a bill having for its purpose the correction of this manifest injustice, and now Gladstone can borrow funds to run its schools and pay the loan out of taxes to be raised later.

THE WEATHER

For Escanaba and Vicinity: Fair tonight and probably Sunday; warmer tonight; gentle to moderate variable winds.

NEXT WEEK'S WEATHER Washington, May 5.—The weather for the week beginning Monday for the region of the Great Lakes: Generally fair with temperature near or slightly below normal.

TOURIST CAMP ON LUDINGTON STREET IS ADVOCATED NOW

Suggestion Made that Ground Along Bay Shore at Foot of Street Be Utilized This Summer.

There is considerable agitation in certain quarters just now for the completion of arrangements for installing a tourist camp site within the city limits. It has been strongly suggested, and the suggestion seemingly meets with the approval of the city manager—that the spot at the foot of Ludington street along the bay shore could be converted into a suitable and most convenient camp for tourists this summer.

It is argued, and many tourists have confirmed this, that a tourist party would much rather camp within a town, close to supplies, than to be sent four or five miles out of the road after arriving in the town, in order to get to some designated camping spot.

Unquestionably the suggestion will meet with the approval of the business men of the city and it would appear that some action may be taken on the matter before the tourist season is formally under way.

CITY CONTINUES IMPROVES ITS PUBLIC SERVICE

Filtration Plant Is Overhauled and New Power and Light Circuits Now Being Built.

The city filtration plant overhauling which has been in progress for some time has now been completed and is in better condition to function satisfactorily than for several years. New filter heads have been installed and all new piping has been put in, while the sand and gravel has been given a thorough and complete washing. The piping taken out was about eight years old and has not been giving the proper sort of service.

With the completion of this work, another step has been taken along the lines of bringing all city utilities up to the highest standard possible under present conditions.

At the same time a city crew is busy rebuilding the power and light circuits in the alleys paralleling and north and south of Ludington street. New 45-foot poles are being installed and new circuits placed upon them. This will permit the removal of the litter of small, unsightly poles from these alleys, give a much better service and probably prevent a recurrence of the trouble experienced during the last holidays when several stores were left in darkness during the rush hours, due to an overloading of the circuit then in use.

The pole line extends from the Olceer coal dock to Stephenson avenue on the north side and from Stephenson avenue to the bay shore in the alley on the south side.

This change, also is in line with the program of betterment outlined by the present administration, which is ever doing something to give taxpayers a greater service for their money.

Tonight's event is the party given by the North Star Society at the North Star Hall. Dancing from 9 to 12. Bohr's Kittens.

Take in the Benefit Party at the North Star Hall this evening. Bohr's Kittens will furnish the music.

Churches

First Methodist Episcopal Church.
Corner Second Ave. So. and 7th St.
9:30 a. m.—Sunday School.
10:30 a. m.—Morning worship. Sermon: "The Religion of Jesus."
6:30 p. m.—Epworth League.
7:30 p. m.—Evening worship and sermon by the pastor; subject: "Hope or the Prisoner Who Was An Optimist."
Thursday evening—Prayer service.
Wednesday evening—The Epworth League will give a Michigan state per. The public is invited.
Friday afternoon—The Women's Home Missionary Society will have their annual May Box Opening in the Church parlors, at 2:30.
Monday evening—Monthly meeting of the Official Board of the Parish—Charles M. Merrill, Pastor.

Swedish Methodist Church.
Corner 13th St. and First Ave. South
Sunday School—9:30 a. m.
Morning service—10:45 a. m.
Evening service (English)—7:30 p. m.
Annual "Gabbfest" Tuesday evening at 8 o'clock. Rev. A. G. Pearson will be in charge.
Prayer meeting—Thursday, at 7:45 p. m.
O. R. Palm, Pastor.

Norwegian Danish Lutheran Church.
Corner 15th St. and First Ave. So.
Sunday School at 9:30 a. m.
Morning services at 10:30.
Bible Class at 6:45.
Evening services in the English language at 6:45.
Agony service for the week.
Choir rehearsal, Tuesday evening.
Prayer meeting on Wednesday evening.
L. Lawrence B. Sateren, Pastor.
Phone 233. Res. 1511 First Ave. So.

Swedish Mission Church.
Corner 14th St. and First Ave. South.
Sunday School—10:30 a. m.
Morning service—11:00 a. m.
Evening service—7:30 p. m.
Rev. H. W. Johnson of Chicago, will be the speaker at both the forenoon and evening meetings.
Prayer meeting Wednesday evening at 8:00 o'clock.
The "Ladies of Liberty" Society will give a program Thursday evening at 8 o'clock. After the program, refreshments will be served.
A. N. Anderson, Pastor.

First Baptist Church.
Corner 14th St. and Third Ave. South.
9:45 a. m.—Sunday School.
11:00 a. m.—Morning service. Subject: "The Religion of Jesus."
7:30 p. m.—Evening service. Subject: "The Religion of Jesus."
1:00 p. m.—Thursday Girl Scouts.
7:30 p. m.—Prayer meeting.
7:30 p. m.—Friday, Boy Scouts.
C. H. Skinner, Pastor.

Salem Evangelical Lutheran Church.
Twelfth St. and Fourth Ave. So.
With Sunday after Easter.
9:15 a. m.—Sunday School.
10:30 a. m.—German sermon.
7:30 p. m.—English service.

(Commemoration of the Ascension)
Ascension Day, May 10, 7:30—German service.
Announcements for the week—Tuesday at 4, and Saturday at 9—Senior Catechism Class.
Wednesday at 4—the Junior Catechism Class.
The Choir, Wednesday, 7:30 p. m.—Christ Doehler, Pastor.
Residence, 1211 Fourth Ave. So. Tel. 1031-J.

Christian Science Society.
25 South 13th St.
Sunday School—10:00 a. m.
Sunday Service—11:00 a. m. Subject: "Everlasting Punishment."
Wednesday evening meeting at 8:00 o'clock.
Reading room at church edifice opened Wednesday p. m. from 3 to 5 o'clock.
A cordial welcome to all.

First Presbyterian Church.
Corner Ninth St. and First Ave. So.
Bible School 9:30 a. m. Our newly-elected Superintendent, W. E. Olds, will be in charge.
Morning service—10:45 a. m. Subject: "The Church and the Child."
Christian Endeavor—6:30 p. m. A cordial invitation is extended to all young people.
Evening service—7:30 p. m. Book Review Session. The pastor will use Hawthorne's story, "Ethan Brand," the story of the man who went in search of the unpardonable sin—what it was, and where he found it.
Next Sunday—Special Mother's Day service at the morning hour of worship. In the evening a sacred concert and book-review sermon.
Rev. Harry W. Saver, Pastor.

St. Stephen's Episcopal Church.
Corner Third Ave. South and Sixth St.
Fifth Sunday after Easter.
Church School—9:30 a. m.
Holy Communion and Sermon—10:30 a. m.
A hearty welcome always awaits all.
Next week:
Sunday School—9:30 a. m.
The Vestry
Thursday Devotion—10:30, 9:30 a. m. Holy Communion.
Thursday, 7:00 p. m. Junior Boys Club, at the home of David Peterson.
Rev. A. L. Ernest, Pastor.

Barx River Methodist Church.
Sunday School at 9:30 a. m.
Sunday Service at 10:30 a. m. and 7:30 p. m.
Everyone is heartily welcome to our meetings.
Rev. T. O. Carlstrom, Pastor.

Swedish Baptist Church.
Sunday School—10:30 a. m.
Morning service—11:00 a. m.
Evening service—7:30 p. m.
All interested are welcome to attend.
The Salvation Army.
115 North Sixteenth St.
The meetings are held as follows:
English Meeting every Thursday evening at 8:00, and Sunday School at 2:30 p. m.
Swedish Meeting every Sunday evening at 8:00.
Everybody is cordially invited to these meetings.

St. Joseph's Church.
Corner First Ave. South and 7th St.
8:00 a. m. Low Mass and Com-

munion.
9:15 a. m.—Children's Mass.
10:30 a. m.—High Mass and sermon.
1:30 p. m.—Baptism.
7:30 p. m.—Vespers, Instruction and Benediction.
7:30 p. m. Friday—Holy Hour.
Rev. Fr. Bertrand, O. F. M., Pastor.
Rev. Fr. Daniel, O. F. M., Ass't.

St. Patrick's Church.
Corner Second Ave. So. and 12th Street
Sunday services:
8:00 a. m.—Low Mass and Communion.
9:15 a. m.—Children's Mass.

Children's Mass, English sermon—9:15 a. m.
High Mass—10:30 a. m.
Baptism—2:00 p. m.
Vespers and Benediction—3:00 p. m.
Friday—Holy Hour, 7:30 p. m.
Fr. Raymond G. Jacques, Pastor.
Fr. Albert S. Pellissier, Assistant.

Patriotism Book Given Applicants For Citizenship
County Clerk George Harvey has recently a number of copies of "Manual of the United States," which is published by the national organization of the D. A. R., to be distributed to all applicants for citizenship papers. The books were furnished by the local chapter of the D. A. R. of this city and no charge is made for them.

The work was compiled by Elizabeth C. B. Buel, of the national organization's committee on patriotic education. The address of welcome by Amy Rogers Minor, president general, presents an interesting and instructive explanation of the immigration laws, labor laws, procedure of naturalization and educational opportunities.

A valuable feature to the newcomer is the list of major industries of the country, showing where work of any sort may be found. There is also a summary history of the United States, with citation of the advantages of citizenship and the responsibilities which attend it. The work is given with a simplified outline of the laws of the country.

PROFITS FOR ONE MICHIGAN MOONSHINER
IRON MOUNTAIN, Mich.—While some persons engaged in the manufacture of moonshine will live in obscurity to continue their business where they feel safer than from raids by federal agents and the sheriff and his deputies, one moonshiner, whose name was not disclosed, has just left the lumber camps in Ontonagon county, \$25,000 for his winter's business, according to a local man. It is said he received a liberal patronage from lumber camps; the woods near Ontonagon.

The United States government paid \$25,897,583 in soldiers' pensions last year.

BIG BOATLOAD OF SWEETHEARTS TO BE IN "ALL ABOARD"

Rehearsals Progress Rapidly for Woman's Club Musical Comedy Here May 16 and 17.

There are thirty sweethearts in "All Aboard," the modern musical comedy which the Women's Club will present at the Delta theatre on May 16 and 17. The "Sweethearts" now assembled were selected by the director and talent committee and will compose a chorus singing and dancing a number called "I've a Sweetheart in Every Port."

This group is divided into Spanish, French, Irish, Holland and American sweethearts properly costumed and doing a dance typical of the country which they portray.

OBITUARY

MRS. ANNA NELSON.
The body of Mrs. Anna Nelson was removed from the Anderson Funeral Parlors to the residence of her daughter, Mrs. Godfrey Swanson, 1213 First avenue north, Friday afternoon. Funeral services will be held Sunday afternoon at two o'clock at the residence. Rev. O. R. Palm, pastor of the Swedish Methodist church will officiate. Burial will be in Lakeview cemetery.

MRS. NICHOLAS WURTH, JR.
Mrs. Nicholas Wurth, Jr., passed away at her home, 211 North Fourteenth street, at one o'clock Friday morning, after an illness of several months' duration. Mrs. Wurth, who was formerly Miss Exilla Groleau, was known to a large number of persons in this city and in the surrounding towns. She was 23 years of age, and leaves to mourn her besides her husband and two small children, her parents and several sisters.

The body was taken to the Alto Funeral Home and prepared for burial and was removed to residence of the family this afternoon where it will remain until the hour of the funeral.

The services will be held Monday morning at 9 o'clock, at St. Joseph's church. Rev. Fr. Bertrand will be the celebrant at the requiem high mass. Burial will be in St. Joseph's cemetery.

FOR SALE—One good mare and some pigs. Will sell very cheap as my health does not permit me to care for them. Inquire at 1721 First Avenue South. 132

LEE Tires

Cord or Fabric Puncture Proof

"Smile at Miles"
A & J. DeGRAND COMPANY

Puncture-Proof with Every Cord-Quality

LEE Cord Puncture-Proofs are the only cord tires that can win an argument with steel.

Let the thinnest, toughest, sharpest nail or stoutest spike try to pierce the triple thickness of steel discs. They cannot pass. Your tube is safe. The cord construction is uninjured. Not a cord cut or weakened, for the steel discs are placed between the cords and the tread.

For eighteen months Lee Cord Puncture-Proofs were subjected to the severest tests before being offered to the public. They were everything that a cord tire should be—not a single cord quality had been sacrificed to make them puncture-proof.

Let us show you the quality and construction of this remarkable tire.

The Lee Tire Distributor

FANTASY WILL BE GIVEN BY GIRL SCOUTS

Clever Playlet to Be Put On Next Monday Evening.

There are so many that could help the children whose lungs she is mending, the parents of the children and the public.

The public wants to help but his eyesight being very poor, he is unable to do so.

Out of the highway between Fairyland and Earth a procession can be seen moving towards the earth; it is "The Passing of the Little Pageant," a fantasy to be presented by Girl Scouts of Troop 11 at the city hall Monday evening, promptly at 7:30. Admission will be free. The public is invited.

Regarding the playlet which is to be staged Monday evening at the city hall by the members of Troop 11, Girl Scouts, previous to the lecture on "Child Hygiene" by Mrs. Alta Fulcher, of the State Department of Health, the following statement has been issued:

While the clock ticks on and time is passing, Mother Nature is busy mending little lungs. For years she has waited, thinking that some one would come to her help with her work.

OHIO FINDS WAY TO RUSH TARDY ELECTION RETURNS

COLUMBUS, O., May 5.—After working since its existence under an election system which made it almost impossible to obtain results of a state-wide election until many days, and often weeks, after an election had been held, Ohio, this fall, will be operating under a law which its sponsors believe will make it possible to obtain semi-official totals from every county by noon of the day following an election.

Backed by newspapers which in the past have spent thousands of dollars collecting results every time a state-wide election was held, the state legislature has enacted a law which gives the secretary of state power to remove county election officials who fail to send him complete county returns by noon of the day after election.

The new law will be given its first trial at the election next November, when three constitutional amendments and possibly one referendum will be voted upon. Next year it will be given a thorough test as there will be two state-wide elections and the general election.

Value Rises Like a Spire

Overland ascendancy has come surely and steadily. Fifteen years of experience have given this new and better Overland a plus value that looms spire-like in its field. Overland value is creating record sales. We are squarely behind it with all the fervor and confidence so good a car inspires.

Health of 3,000,000 Menaced by Wasteful Attack on Sanitary District of Chicago

Attorney General of Michigan in Futile Law Suit.

HITS TAXPAYERS

By WILLIAM J. HEALY
President of The Sanitary District of Chicago.

Engineering facts by Edward J. Kelly, chief engineer of the Sanitary District of Chicago; member American Society of Civil Engineers, Western Society of Engineers, engineering member original Illinois Waterways Commission, South Parks Commission of Chicago, and by George M. Wisner, consulting engineer and lake level expert; member American Society of Civil Engineers, American Society of Mechanical Engineers, Western Society of Engineers.

CHICAGO, May 3.—The controversy today over the Chicago Water Division is the cast of a few Middle West radicals vs. The Health and Prosperity of Chicago and the Chicago market.

The Sanitary District offers the most practical, economical solution of this years-old controversy, which has flamed on in agitation as futile as it is misinformed, and in spreading throughout the Great Lakes region.

The solution offered, and urged upon Congress to accept, will restore the Great Lakes to their pristine fullness as great mill pond reservoirs and keep them restored through all the years to come.

That they shall be completely restored is, we believe, the desire of all, including the radicals pressing agitation against the Sanitary District. The only apparent split attends the question "How shall it be accomplished?" On the one hand is a destructive criticism, no solution, waste of public funds, disaster—because agitators refuse to look sanely at the engineering facts. On the other hand is the Sanitary District with the engineering facts and the solution of the problem.

To understand the situation that now confronts Chicago, it is necessary to turn the light on the present background of misrepresentations and their consequences.

In sequence the problem resolves itself into these major divisions:

1. The dangers involved and the agitation that brought them about;
2. The real facts about the relationship between the diversion of water at Chicago for sewage purposes and the levels of the lakes;
3. The proposal to restore those levels, that is, the solution of this controversy.

THE DANGER.

Prostration of Chicago, one of the world's greatest markets, a great metropolitan center, is seriously threatened by a misguided attack that radicals from surrounding states have instituted against the Chicago Sanitary District, the public agency created by Illinois statute to keep physical Chicago clean and healthy.

The health of the city's 2,000,000 people and that of thickly populated environs, the wealth of the Chicago market, the prosperity of industry and commerce radiating throughout the world, in fact the entire welfare of the capital of the middle west, are endangered by a program that, even partially successful, would make ours an unclean city, turn our intracety water areas into cesspools and crush Chicago.

Wisconsin office holders are the chief offenders. They have seized on the lowering of the lake levels from natural causes as the lever for their campaign. There have been sporadic campaigns in the past, but none that could compare with the present in extent and viciousness. The present campaign, foisted on the public by surrounding states as a fight for the people, is a campaign to cripple Chicago by reducing far beyond the safety point the amount of water taken at Chicago for the disposal of our sewage and that of our neighbors.

Radicals have thrown a truth to the winds and are beating their chests and down the lakes, crying that Chicago is draining the lakes, destroying harbors, knocking shipping into a cocked hat, stealing water for power purposes.

"Chicago, the Great Water Thief," agitators are crying. "We must work fast or Chicago will steal the lakes."

POLITICIANS IGNORE SOLUTION.

The agitation dragged public officials into the foreground, but perhaps not all needed dragging. And

presently, out of the hue and cry, the attorney general of four states—Wisconsin, Michigan, Minnesota and Indiana—appeared in Chicago to hold a conference. It proved to be an abortion.

When we began taking water, because of that fact, the War Department limited the permit we had then calling for 10,000 cubic feet per second, not because there was any objection to more water being taken, or because of any effect on the level of Lake Michigan, but solely because of the excessive current which would have resulted from the current being throttled down to 1 1/2 miles per hour.

We overcame an objection by widening the channel of the river to its present depth, thus making it navigable. We removed obstructions in the river channel and straightened the river. In all we spent \$1,000,000 in those improvements, which were of considerable benefit to the interests of surrounding states.

The War Department not acquiescing in the program of deepening the channel and improving the river, but expressly authorized the improvement knowing its purpose, and that was the taking of water and needed water. That was the reason the War Department never removed the limitation even though the cause had been eliminated.

AUTHORITY TO USE WATER.

There came into existence the International Waterways Commission, composed of Canadians and Americans from the United States, jointly appointed, on Jan. 1, 1907.

They submitted a joint report on the diversion of water through the Chicago Drainage Canal. They said, to quote their own words:

"The diversion of Lake Michigan water from Lake Michigan to the Chicago Drainage Canal was approved by Congress, but they approved it on the condition that the diversion would be made in the original 10,000 cubic feet per second, as originally planned."

The Illinois statute under which we were operating had said we would require 10,000 cubic feet per second for each square mile of area or 10,000 cubic feet per second for a city of 2,000,000.

Later the Boundary Waters Treaty between the United States and Canada was written in 1909, and ratified May 8, 1910. The American and Canadian versions of the International Commission's report on the diversion of 10,000 cubic feet at Chicago at just in the formation of the treaty. While the treaty is silent on the Chicago Drainage Canal, it is unquestionable that certain articles of the treaty authorize the diversion of water from Lake Michigan to the Chicago River and Lake Level experts ask if it is reasonable to believe that the formulators, Secretary of State Elihu Root and Ambassador James Bryce, knowingly intended to safeguard the public interest of the people of Illinois while "casually" surrendering the private city of Chicago to the State of New York and of the "provinces of Ontario." He does not think so.

THE FACTS ABOUT THE SANITARY DISTRICT.

What are the facts, the truths they could have proven for themselves had they desired to proceed in behalf of the public welfare?

One third of a century ago Chicago was a city subject to frequent epidemics, an unhealthy city, in its arms a stinking muck heap known as the Chicago River. We were discharging our sewage into the river and the lake. The river flowed into the lake when not completely inert. Lake Michigan wore a black pecklace of semi-transparent sewage.

To protect its undermined health, Chicago rose in arms and the State created the Sanitary District by legislative act in 1882. The State said, "We hereby create a public corporation to handle the sanitary requirements of Chicago and its environs."

In the ensuing 19 years the district built the Drainage Canal connecting the Chicago River at Robey street with the Desplaines and Illinois Rivers. Sewers discharged into the lake were pointed to the river and the Drainage Canal. Our lake shore from the far north to the far south side was cleaned of effluent or sewage pollution. Chicago brightened up as never before, the air and found it wholesome. The city began to thrive. The Government looked on, fondly beneficent.

When we began to take water, the level of Lake Michigan rose. At the city grew, we increased the amount we were taking. The lake rose still higher. The lake has been rising and falling for years and still are—from natural causes.

When we opened the Drainage Canal the Chicago River, which is a part of the drainage system, had a depth of but 17 feet. Consequently, what was called an "excessive current" was set up in the river

when we began taking water. Because of that fact, the War Department limited the permit we had then calling for 10,000 cubic feet per second, not because there was any objection to more water being taken, or because of any effect on the level of Lake Michigan, but solely because of the excessive current which would have resulted from the current being throttled down to 1 1/2 miles per hour.

We overcame an objection by widening the channel of the river to its present depth, thus making it navigable. We removed obstructions in the river channel and straightened the river. In all we spent \$1,000,000 in those improvements, which were of considerable benefit to the interests of surrounding states.

The War Department not acquiescing in the program of deepening the channel and improving the river, but expressly authorized the improvement knowing its purpose, and that was the taking of water and needed water. That was the reason the War Department never removed the limitation even though the cause had been eliminated.

The Illinois statute under which we were operating had said we would require 10,000 cubic feet per second for each square mile of area or 10,000 cubic feet per second for a city of 2,000,000.

Later the Boundary Waters Treaty between the United States and Canada was written in 1909, and ratified May 8, 1910. The American and Canadian versions of the International Commission's report on the diversion of 10,000 cubic feet at Chicago at just in the formation of the treaty. While the treaty is silent on the Chicago Drainage Canal, it is unquestionable that certain articles of the treaty authorize the diversion of water from Lake Michigan to the Chicago River and Lake Level experts ask if it is reasonable to believe that the formulators, Secretary of State Elihu Root and Ambassador James Bryce, knowingly intended to safeguard the public interest of the people of Illinois while "casually" surrendering the private city of Chicago to the State of New York and of the "provinces of Ontario." He does not think so.

By the express provisions of the treaty with Canada and by the terms of the Illinois statute, we are entitled to 10,000 cubic feet per second.

The War Department limited the amount of water we were permitted to take to 10,000 cubic feet per second, not because there was any objection to more water being taken, or because of any effect on the level of Lake Michigan, but solely because of the excessive current which would have resulted from the current being throttled down to 1 1/2 miles per hour.

ROBBER TAKES DARING PLUNGE

Leaps From Second Story Window Upon Passing Motor Truck.

CINCINNATI, O., May 5.—Police were on the trail today of a bold daylight burglar who entered the residence of George A. Mann, Hyde Park, of the Wirthlin-Mann company, while Mrs. Mann was on the first floor, and ransacked the upper portion of the house. The burglar, a young Negro, was seen by neighbors and leaped from the second story to the ground and escaped after drawing a revolver upon his pursuers.

Shortly after 3 o'clock yesterday Mrs. Mann jumped from the rear door of her home into the rear yard. She said that she was not out of the house more than 10 minutes and that all the other doors and windows were locked so that the burglar must have slipped by her and entered the open back door. She returned to the kitchen and turned on the hydrant and it is believed that the noise of running water alerted the burglar's movements. Mrs. Mann said that the water was running for about ten minutes.

Found by Maid. The presence of the burglar was discovered by a maid at the residence of W. P. Anderson, across the street from the Mann home. She saw him with a large bundle in his arms, leap from the second story window of the yard, a distance of nearly 30 feet. She called to Anthony Porter, a Negro employed by the Manns, who was working in the yard, and he started in pursuit of the fleeing burglar. The latter jumped on an auto truck, but Porter caught it in the street.

At Observatory and Madison roads, the driver of the truck noticed his unbidden passenger, and ordered him off. As he leaped from the truck, Porter ran up to him but the burglar disappeared into a hole from his pocket. Porter turned to turn around and "beat it."

Police Arrive. The officers of the Mann lot called the police, and a patrol with two police men arrived on the scene. It was not until 10:30 p. m. that Mrs. Mann learned that her home had been burglarized. Investigation showed that the burglar, although knowing that Mrs. Mann was downstairs, had worked his way up to the second story and the roof of another suit and tied them up in a bundle. Other clothes had been examined and discarded. A powder puff had been removed from a box of powder and the powder dumped out in a search for jewels. The latter were overlooked. Drawers had been opened and their contents examined. A window and screen of each side of the house had been opened, evidently in preparation for a hurried exit should one have been necessary. However, it seemed that the Negro completed his work and then selected the side of the house where he believed he would not be observed, and took the leap without hesitation.

The police said that they believed the burglar to be the same one who had committed several daylight robberies in Hyde Park recently.

\$50.00 REWARD!

The above reward will be paid for confidential information leading to the arrest and conviction of persons who stole a 16-foot Thompson-built smooth side row boat from under the bridge at the Oliver Coal dock, Escanaba, during the past winter. Boat is deep and wide and was built for use with outboard motor. Equipped for two sets of oars. Was painted green when hauled up. Owner has clues pointing to guilty parties, but will not issue warrant until evidence is complete. The boat is valued at \$30, or \$20 less than the reward. Notify Sheriff of Police, or Chief of Police, Escanaba.

THE BOOK CENSORSHIP QUESTION.

In the midst of a perfectly justifiable feeling of protest over the efforts of certain zealous and busybodies to establish a censorship of literature, it is proper and prudent to remember that there are a good many stories coming from the press today that constitute a nuisance, and are an offense against refinement, good taste and ordinary decency.

So there are a great number of books that are sheer refuse, and that clutter the world, and undoubtedly do considerable harm to immature, defective and poorly balanced people, and their presence as a part of American "literature" is a sad thing.

But it does not follow that a censorship is either practical or proper. It is impractical because no law can be drawn that will get back of the letter into the spirit, because when an attempt at this is made, we get into the realm of personal opinion and bias which is an interminable labyrinth.

A censorship that will not do more harm than good is utterly unattainable. A censorship is improper, too, because it must either be a joke, or it inflicts violence to the whole spirit of American institutions.

THE "DRY" SHIP RULING.

Unless signs and portents are wrong the Supreme Court has started something in holding that the prohibition amendment cannot legally be applied to prevent American ships from selling intoxicating beverages, but that the dry regulations do apply to all vessels regardless of nationality once they are within the three-mile limit.

The general effect of this decision is to transfer responsibility for future dryness or wetness of ships of American registry from the shoulders of the President to the shoulders of congress. This is made plain in the passage which says: "We do not mean to imply that congress is without power to regulate the conduct of domestic merchantships when on the high seas or to exert such control over them when in foreign waters as may be affirmatively or tacitly permitted by the territorial sovereign; for it long has been settled that congress does have such power over them."

Whether this situation extends to the boats operated by the shipping board may, however, be another question. The President has considerable control over these vessels. It may be that by executive order he can still forbid the sale of intoxicants aboard them.

If the next congress desires to make American vessels dry as Sahara, it evidently has the power to do so, meantime, the matter is taken from the hands of President Harding.

The prevalent buyers' strike against the high price of sugar comments itself strongly "in principle," aside from any consideration of the practical side of the movement. It gets away from the whining attitude that has been growing up in the country of late. It refrains from clamor to the government to step in immediately and fix up a matter that is really no affair of the government.

THE RIGHT WAY.

The movement is thoroughly American in its spirit. The people engaged in it believe they have a grievance. They think, too, that it is within their power to get relief from that grievance in a peaceful and lawful way. So instead of asking some paternalistic power to rectify their wrongs, they take matters into their own hands, as intelligent, capable people ought to do, and they undertake to discipline those against whom they believe there is cause for complaint. They are setting out to fight their own battles.

That is a healthful sign. The more of this spirit the country shows, the better. Dry raiders in Chicago found 50 pints of home brew in a safe. Indicating the possibility of a self-blowing safe.

PERSONAL

Mrs. George Weingartner of Rock visited in the city yesterday.

Hand ironers wanted at the Escanaba Steam Laundry. Married women can be given half days' work. Inquire at once.

Albert Larson of Maple Ridge was a business caller in the city Friday.

Mrs. Fred Armstrong of Racine returned to her home after a week's visit in this city with relatives and friends.

Help the world to better milk by using DANISH PRIDE MILK.

Miss Mabel Jensen of Belvidere, Ill., is visiting with friends in the city.

Rev. Fr. P. N. Jurras of Schafer was a business visitor in the city Friday.

Cut flowers for Mother's Day, roses, carnations, peonies, snapdragons, sweet peas, and big assortment of potted plants. Mrs. H. Kamrath, 510 S. 10th St. 125

Rev. Fr. A. Cognard of Perkins moved to this city yesterday on business.

Allen Nelson of Morup, Sweden, is expected to arrive soon to visit at the home of Mr. and Mrs. John Hojmgren, Ludington street.

The quality of DANISH PRIDE MILK is even better than we claim for it. Try it.

Mrs. W. J. Taylor returned from a visit at Green Bay, Wis.

Mrs. J. D. Murray and three children, Jack, Betty and Francis, are spending the week-end with relatives at Ishpeming.

Mrs. Joseph Levin was called to Ann Arbor by the illness of her daughter, Mrs. Leo Gosselin.

Chemical analysis prove DANISH PRIDE MILK to contain 43% cream.

Edward Arnold of Detroit, who has been visiting his father, James Donovan, who is a surgical patient at St. Francis hospital, left for Ann Arbor Friday to visit with relatives before leaving for his home.

Prosperity is largely a state of mind. Your milk supply is largely a state of economy. Use DANISH PRIDE MILK—at your grocer.

John Paul Morgan of Oshkosh is in the city on business.

Andrew Erickson of Stockholm, Sweden is expected to arrive soon and will visit friends in this city and at Ensign, Mich.

Call Mrs. H. Kamrath, 510 S. 10th St., phone 1272-J for your cut flowers for Mother's Day. 125

Mrs. James Kentonally is visiting friends at Ishpeming.

Miss Marion Finley left Friday to spend the week-end with friends at Marquette.

Hand ironers wanted at the Escanaba Steam Laundry. Married women can be given half days' work. Inquire at once.

Born to Mr. and Mrs. E. Nanderburgh of Hartlett avenue, a son at St. Francis hospital.

W. Z. FOSTER FACES A SECOND TRIAL

"Red" Labor Leaders' Conviction Assures New Action.

ST. JOSEPH, Mich.—Conviction of Charles E. Ruthenberg, Cleveland, in the Michigan communist case Wednesday night, assures a revival of William Z. Foster, liberal labor leader, state authorities declared on Thursday.

A jury found Ruthenberg guilty of violating the Michigan criminal syndicalist law by advocating overthrow of the United States government by force. The verdict makes the defendant liable to a ten year prison term, a \$5,000 fine or both.

Judge Charles W. White deferred sentence until June 4, pending appeal of the case.

Sees More Convictions. O. L. Smith, assistant attorney general, issued a statement declaring "it is a righteous verdict by an all-American jury."

"Had Ruthenberg, a draft evader and a war obstructor, gone free after the evidence presented, it would have been a blot on the country. The jury showed its Americanism with a quick verdict and only three ballots. We shall convict the rest of the defendants just as Ruthenberg was convicted."

Foster, Ruthenberg and several others were arrested in a raid on a communist convention at Bridgman, Mich., by state and federal operatives. Much literature of the communist party was seized.

The jury which tried Foster recently disagreed.

Ruthenberg Calm. Ruthenberg, a member of the executive committee of the communist par-

PERSONAL

ty of America, heard the verdict calmly. He refused to comment.

Eight farmers, a former justice of the peace, an American Legion member and two salesmen comprised the Ruthenberg jury. Judge White instructed them that presence at the Bridgman convention did not make the communists guilty of law violation unless they advocated a crime in proposing to change the American government. On the first two ballots the jury stood 9 to 3 for conviction.

NECK BROKEN, MAN WILL OPEN STORE

Green Bay Hails Former Engineer as Champion Opticist of U. S.

GREEN BAY, Wis.—Arthur Whitbeck, 57 years old, a former railroad engineer, Green Bay, might well lay claim to the twentieth century's champion opticist, according to friends of Whitbeck, who had his neck broken in three places in a railroad accident nearly 25 years ago.

Whitbeck's suffer his accident, which occurred while he was working as a dispatcher in the Northwestern yards, has suffered since paralytic strokes, but a superabundance of optimism and an exceptionally strong constitution has enabled him to overcome his misfortune to a large degree. In the opinion of physicians:

A specially constructed brace, which Whitbeck wears around his neck when on the street, is the only visible effect of the accident of Oct. 16, 1921. In equipping his store he has taken advantage of many labor saving devices, and will retain managements, although members of the family will assist him in the actual work to a large degree.

RED PEPPER FOR COLDS IN CHEST. Ease your tight, aching chest. Stop the pain. Break up the congestion. Feels like cold loosen up in just a short time.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, headache, stiff neck or sore muscles, just get a jar of Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.

TO DARKEN HAIR APPLY SAGE TEA. Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

REINDEER IN U. P. ARE DOING WELL

Stoll Reports On Condition of Herd Near Newberry

A report on the condition of the reindeer herd in the Lake Superior forest reserve, twenty-six miles north of Newberry, has been made by Albert Stoll, Jr., secretary of the conservation commission. The report comes in the form of a letter to the Upper Peninsula Development Bureau, and is to the effect that the condition of the herd has improved since its location in the Upper Peninsula.

The letter follows, in part: "This herd is confined on what is known as the Lake Superior forest reserve, twenty-six miles north of Newberry on the Deer Park road. We have erected ten miles of fence within which the herd is enclosed. Since their transportation to the Upper Peninsula, where they have existed solely upon the moss found in that area, we have noticed a great change in the animals. They have grown fatter in addition to appearing to be in the best of health and condition.

"The calving time of the reindeer will be some time in May or June. There seems to be no question in our minds, unless some unforeseen circumstances should arise, but what the reindeer industry could be made a success in the Upper Peninsula. The environment seems to be right and much to the liking of the animals.

"It is the intention of this department some time in the fall of 1923 to secure three pair of woodland caribou from Isle Royale and interbreed these animals with our semi-domesticated reindeer. We know that this is practical and possible and developments naturally will be awaited with interest."

INDIAN MUST ESCHEW LIQUOR, OR GO TO JAIL

WASHINGTON, May 5.—Joseph Spynack, a Shawnee Indian, was given the dubious alternative of abstinence from alcoholic beverages during the next three years inside or outside of a prison. He chose to remain outside without the liquor. Spynack, who is married, drafted in his third year at Carlisle Indian school and honorably discharged from the army. He was arrested February 22, charged with drunkenness and assaulting Walter Harris who is crippled. He was fined once for drunkenness.

The United States has tentatively fixed at \$1,187,736,867 the amount which it will demand from the German government in payment of the claims of the American government and its citizens growing out of the World War.

U. P. LIBRARIANS WILL MEET SOON IN MENOMINEE

Eleventh Annual Session to Be Held in State-Line City May 24-25.

MENOMINEE, Mich., May 5.—The Upper Peninsula Library Association will hold its eleventh annual convention in Menominee on May 24 and 25. The membership of this organization, which was formed eleven years ago to promote library work in the Upper Peninsula, is comprised of librarians, assistant librarians and trustees of the eighteen libraries located in the principal cities of the Upper Peninsula.

Miss Helen Le Fevre, librarian at the Spies Public Library in Menominee, is the president of the association and Mrs. F. H. Scott of Houghton, librarian at the Michigan College of Mines, is vice-president. The association, which meets here the last of May, performs the same work in this section which the State Library Association accomplishes in lower Michigan and the convention here will be very similar to that which will be held at Kalamazoo next fall and at which State Library Association delegates will gather.

The Spies Public Library officials will sponsor the gathering here jointly with the high school librarian. No definite program for the convention has as yet been drawn up by Miss Le Fevre, but preliminary arrangements indicate that some well known library workers from the lower peninsula will deliver one of the principal addresses.

30 Delegates Expected. Most of the meetings will be held at the Spies Public Library and at least one will be held at the high school. Thirty delegates are expected to attend the meeting from out of town, representing the eight principal libraries in Cloverland.

Library work in all of its many and varied phases will furnish the topics for discussion and consideration at the convention and the county library service plan is expected to be the big item of interest.

Menominee is numbered among the pioneers in this county library service, which was instituted here some time ago by Miss Le Fevre. To date there are five counties in Michigan which have adopted this plan. They are the counties in which the cities of Muskegon, Manistee, Port Huron and Detroit are located in the lower

peninsula, and Menominee in the upper peninsula.

Rub Rheumatic Pain From Aching Joints

Rub Pain right out with small trial bottle of old "St. Jacobs Oil."

Stop "dozing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacobs Oil" is a harmless rheumatism liniment which never disappears and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia. Limber up! Get a small trial bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment, you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

FISHING SEASON EMPTIES SCHOOL AT REED CITY

REED CITY, Mich., May 5.—Youthful like Ike Walton disrupted the local school system here Friday, celebrating the advent of the trout season.

So many were away that in the afternoon the classes were suspended entirely and high school faculty took a vacation, too.

Camp Fire Girls, especially, were enthusiastic anglers and one group of 25 girls went up the Hersey river for the day. More students went out this day than ever before.

'BRIDE WITH GUN IN HER BELT' SEEN NEAR BY MADOO

N. Y. Magistrate Says Revolver U.S. Badge; Craze for Firearms.

NEW YORK, May 5.—Chief City Magistrate MeAdoo foresees the day when the American bride will go to the altar with the family gun strapped to her waist, if the craze for carrying firearms grows. In an address before the International Police Conference, in which he urged a more rigorous control of firearms, he said: "The revolver is the badge of an American and we are known as a gun-carrying, shooting nation. The bullets of America have taken to the

DRUGGISTS RECOMMEND Dr. A.W. Chase's Medicines

The druggist is the one family friend and adviser to whom everybody has implicit confidence. No druggist who values his reputation in his neighborhood will recommend any proprietary medicine unless he is absolutely sure it has outstanding merit. It would be business suicide for him to sell and endorse an inferior article. That's why we take great pride in presenting below the sincere opinions of a few of the many thousands of druggists who are now selling and recommending Dr. A. W. Chase's Medicines:

The Vancouver Drug Co., Ltd., Victoria, B. C., writes: "Dr. Chase's Medicines are always in demand, and there are many repeat orders. There is a reason—Dr. Chase's Medicines are reliable."

Mr. T. T. Beattie, Druggist, 462 Bronson Ave., Ottawa, Ont., writes: "I always recommend Dr. Chase's Medicines with perfect confidence, as I receive continual evidence that they are splendid relief-givers. In particular I have found Dr. Chase's Kidney-Liver Pills very efficacious. They are among the very best staple sellers, and the handling of these goods is highly satisfactory."

Mr. Frank Hyde, Druggist, Woodstock, Ont., writes: "Among our best selling proprietary medicines, Dr. Chase's have a foremost place. They are necessary in every drug store, and permanent in the demand for them."

Mr. A. P. Chown, Druggist, Kingston, Ont., writes: "Dr. Chase's Medicines have for many years had a steady sale and give good results and satisfaction."

Macartney's Drug Store, Stratford, Ont., writes: "The demand for Dr. Chase's Medicines is very steady and in considerable proportion. Our investigation clearly shows that Dr. Chase's Medicines are recognized by the Druggists and the people as staple sellers and reliable medicines."

Mr. Frank J. Hoag, Druggist, Kingston, Ont., writes: "Having handled the Dr. Chase's line of family medicines for fully twenty five years, I have no hesitancy in saying that we consider them among our best sellers, as well as most reliable family medicines."

Mr. A. E. DeBerger, Druggist, Sherbrooke, Que., writes: "I have handled Dr. Chase's line of medicines for years, and I find that, as proprietary medicines, this line is one of the ones—if not THE one—that gives the most general satisfaction to my customers."

Mr. O. J. Gill, Druggist, Ingersoll, Ont., writes: "Dr. Chase's Medicines have a steady sale with us the year round, and we have always found them to be very reliable medicines."

Mr. E. G. Moxon, Druggist, Truro, N. S., writes: "For a considerable length of time Dr. Chase's preparations have been one of our staple lines of medicines. Our patrons find them highly reliable and satisfactory. We consider them among the leading sellers and we aim to always keep them for sale."

Mr. C. A. McQuarrie, Druggist, Truro, N. S., writes: "We have known Chase's Medicines from childhood. Their sales were great then, but greater now, and Chase's goods are among the fastest selling lines. The motto 'Chase's Goods are Good' seems to be upheld throughout their entire line."

Mr. W. D. Mitchell, Druggist, Prince Albert, Sask., writes: "We have handled Dr. Chase's Medicines for a considerable number of years, and find them one of the most satisfactory staple lines, and among the best sellers. They are easy to sell, and we feel that having made a sale of Dr. Chase's Medicines, we have gained a satisfied customer."

Dr. A.W. Chase's Medicines

DAIRY AND ALFALFA MEETINGS WILL OPEN IN COUNTY MONDAY

Authorities From M. A. C. to Conduct Series of Meetings in Various Sections.

Beginning Monday a series of 40 meetings to discuss dairying and the alfalfa possibilities of Delta county farms will be started by County Agent Joseph Turner who will be accompanied by G. W. Putnam, head of the state department of farm crops at Michigan Agricultural College. Prof. Dennison and other speakers from M. A. C. will be members of the party. Both Prof. Putnam and Prof. Dennison are acknowledged authorities in their respective departments and through the series of meetings it is hoped to improve the standards of the dairy herds in Delta county and to greatly increase the alfalfa acreage in this county. The raising of alfalfa and dairying are closely allied and because of that fact the meetings promotion of each will be held simultaneously.

Following is the complete schedule of meetings opening on Monday:

- Ford River, May 7.**
- Hodgkins Bros.—8 a. m.
- Otto Dietrich—10 a. m.
- William Van Eakvort—2 p. m.
- Henry Witte—4 p. m.
- Night meeting—7:30 p. m.
- Bark River and Schaffer, May 8.**
- Axel Granath—8 a. m.
- John Heim—10 a. m.
- Alfons Derocher—2 p. m.
- Herman Hawkinson—4 p. m.
- Night Meeting—Schaffer.
- Flat Rock and Danforth, May 9.**
- John Muel—8 a. m.
- Walter Kicher—10 a. m.
- Morris LeMarch—2 p. m.
- Carl Moser—4 p. m.
- Night Meeting—Danforth.
- Corral, May 10.**
- Cheerman Bros.—8 a. m.
- Aur Lundquist—10 a. m.
- E. J. Triax—2 p. m.
- Night Meeting—Cornell.
- Maple Ridge, May 11.**
- Henry Hall—8 a. m.
- Ed Maki—10 a. m.
- Matt Brander—2 p. m.
- L. I. Malloy—4 p. m.
- Night Meeting—Finnish Hall.
- Perkins, May 14.**
- N. J. Shorkoy—8 a. m.
- O. A. Soderstrom—10 a. m.
- Jule Van Damme—2 p. m.
- Andric Laitinen—4 p. m.
- Night Meeting—Perkins.
- Stonington, May 15.**
- Andrew Barbeau—8 a. m.
- John Wickstrom—10 a. m.
- Pederson Bros.—2 p. m.
- John K. Olson—4 p. m.
- Night Meeting—Alton.
- Garden, May 16.**
- Jack H. Bar Peterson—8 a. m.
- Bonus Spooling—10 a. m.
- John Watkinson—2 p. m.
- Night Meeting—Garden.

Belgium Declines Terms of German Reparation Offer

PARIS, France, May 5.—The Franco-Belgian reply to the German reparations proposals will be handed to Myron T. Herrick, the American ambassador, at the same time as it is handed to the German embassy and the allied diplomats in Paris, early this afternoon. The note will be given out for publication late tonight.

BRUSSELS, Belgium, May 5.—The Belgian council of ministers today examined officially the German reparation proposals and unanimously decided they were not acceptable.

LEADERS OF GIRL SCOUTS DELAY MEET

Will Be Held Wednesday Instead of Monday as Planned.

Although cards have been sent to the Girl Scout Leaders, reminding them of the regular monthly meeting for Monday, May 7, it has been decided to postpone the meeting until Wednesday evening, May 9, at 7:30. There is to be a lecture in the city hall by Mrs. Alta Fulcher, given under the auspices of the Woman's Club and Parent-Teachers' Associations and it is suggested that the leaders attend that meeting instead. Wednesday evening there are many important matters to come before the Girl Scout Leaders, so it is desired that as many as possible be present.

Delta County Men Enter Pleas in the U. S. District Court

Several Delta county people entered pleas in the federal court yesterday. Napoleon LaChapelle, of Escanaba, charged with sedition, pleaded not guilty. Joseph H. Chollette and James Reed, Escanaba, stood mute. They are charged with possession. Peter Muetin of Wilson, charged with sale, pleaded guilty. Stanley Parker, formerly of this city, but now of Iron Mountain, charged with sale and possession, offered a plea of guilty.

NORTH STAR SOCIETY TO GIVE DANCE

Big Party Arranged Tonight in Form of Hospital Benefit.

Members of the North Star Society anticipate a large crowd at the North Star hall this evening when a dance is being given for the benefit of the Swedish tuberculosis hospital in Denver, Colo. Each year the organization raises funds for this hospital and this year it was decided to do this by giving a dancing party. Music is to be furnished by Boh's Kittens and a pleasant time is assured all who attend. A cordial invitation is extended to the public to participate in the enjoyment and contribute the price of a ticket to this worthy cause.

Thrilling Races at the Coliseum On Sunday Night

Floyd Atkins of Detroit arrived in the city this afternoon and declares he is in splendid condition for his mile race with Wallace Cobb at the Coliseum rink Sunday night. Atkins is the unbeaten champion of Detroit and Cobb has many victories to his credit in this vicinity. Friends of the local boys expect to see him win. The races start at 10 o'clock. There will also be a half mile race for skate boys.

Many Pupils of St. Anne's Get On Honor Roll

The Mirror herewith presents the names of pupils of St. Anne's schools who have had average grades of 90 or better during the month of April. It is noticeable that many of the same names appear in these honor roll lists from month to month and there is great rivalry among the pupils to get their names on the list.

- Following is the list for April:
- Henry Newitt, Noel Savard, Isabelle Valliere, Gladys Dena, Adelaide Lavolette, Doris DeCaire, Genevieve Lacroix, Arleon Barkhurst, Leone Bero, Edna Besson, Laverne Cayen, Clarence Cloutier, Stanford LeDuc, Gilbert LaChapelle, Emma Besson, Emmanuel Darr, Rose DeCaire, Denise Guindon, Cecelia Hubert, Leo Lacroix, Agnes Moreau, Wilfred Moreau, Arthur Pepit, Helen Pintak, Irene Richer, Lucille Roberge, Yvonne St. Pierre, Yvonne Trotter, Marie Therese Boileau, Cecile Dubard, Marie Girard, Lawrence Joint, Katherine LaChapelle, Marguerite LeDuc, Alice Richer, Frederick St. Jacques and Leah Guindon.

THE "BOOTERY"

Presents Public-Profit Participating Purchase Plan

READ THIS CAREFULLY CONSIDER SERIOUSLY THEN DECIDE
 We join with the banks in assisting you to increase your savings.

Banks Pay 3% on Saving's Deposits
We Pay 5% on Cash Purchases

Many of the large corporations have adopted profit-sharing plans with their EMPLOYEES to their mutual benefit. We are adopting a profit-sharing plan with our CUSTOMERS which we feel confident will be mutually beneficial.

Here Is The Plan

On all goods purchased from us, we will allow a Discount of FIVE PER CENT at time of purchase. This will be a CASH consideration.

On all goods paid for in full FIFTEEN DAYS from date of purchase, a Discount of TWO PER CENT will be allowed.

On all goods not paid for within fifteen days, the price will be NET.

This is not an advance in prices, but an honest endeavor to increase our volume of business, thereby reducing our overhead expenses. Where our credit accounts at certain periods are heavy, we are forced to borrow money from the bank on which we must pay an interest charge of 7%. If we can make it profitable for you to pay CASH for your purchases, we can easily pay you 5% Discount instead of paying the bank, and we both save money.

Our merchandise is QUALITY MERCHANDISE and our PRICES without the discount will compare very favorably with other lines of equal value. In fact, you can depend on getting your money's worth PLUS the extra savings offered you as above.

We do not want the impression conveyed that it is our aim to discontinue granting a fair amount of CREDIT to deserving patrons, for such is not our intention. We have a number of very loyal customers who have stood by us faithfully in helping us to the success we have attained during the critical stages of a new business enterprise, and we herein wish to express our sincere appreciation to them, and courteously solicit a continuance of their patronage on the same terms as before if they so desire. We feel confident however they will appreciate the benefits to be derived in taking advantage of this offer we are making.

THINK IT OVER.
 Yours very sincerely,
