NOW IS THE TIME FOR ALL BOOSTERS TO AID THE CLUB

Escanaba Team Virtually All Set for Opener With Gladstone Here Sunday.

Although the weather is not to the liking of hot players, they are nevertheless going to the park every afternoon for practice. Yesterday afternoon and again this afternoon, Manager Perrin's bunch were out loosening up their arms and legs, taking batting and fielding practice and generally setting themselves for the opening day Sunday.

Escanaba booster tickets haven't been very encouraging and it certainly is a pity the fans to get in behind the team. It is they want high class baseball here this year. No solicitation is to be made among the merchants by funds, the team depending wholly upon the receipts from the sale of booster tickets to get the game under way here successfully. Right off the bat the team needs about \$1,000 for the repair of fences, grandstand and benches, conditioning of the playing field, uniforms, bats, balls, etc.

LASSOES MARE AFTER AN 8-MILE CHASE IN STREET

New York Policeman Has Exciting Experience With Runaway Plug.

NEW YORK, May 11.—A gray mare belonging to Giuseppe Carmicko, of the Bronx, slipped the halter to which she was tied to Carmicko's peddler wagon at Griswold and Bayview avenues today, and ran through crowded streets for eight miles before she was finally lassooed and brought to a stop by John C. Egan, mounted patrolman of the Westchester avenue station.

The runaway was constantly almost running into some one or something, but caused no damage until it reached Hoe avenue, where it crashed into the rear of an automobile driven by Dr. Jacob Washburn. The mare regained her feet and started for-

**SAGINAW TRAIN CRASH VICTIM SUES RAILROAD**

SAGINAW, Mich., May 11.—Charles Bradley has filed suit in circuit court to collect \$3,600 damages from the Pere Marquette Railway Company, as a result of the smashing of his truck by a train on a Pere Marquette crossing, in August, 1921. He alleges that because of a curve in the track he could not see the approaching train, that the engineer did not sound a warning, and that the train was going 70 miles an hour and hurled the truck 60 feet.

**ESCAPED PATIENT FOUND IN PRISON**

Serves Nearly Four Years Before Discovery.

(By the Associated Press)  
 PROVIDENCE, R. I., May 11.—Nearly four years ago, Francis Read, an inmate at the State Hospital for Mental Diseases, at Howard, succeeded in making his third escape from that institution. He was located in the state prison, where he has served three years and seven months of a five-year term to which he was sentenced in the Kent county court for larceny committed about three months after he had escaped from the state hospital.

Gaining his freedom from the hospital where he was registered as Francis Read, he held up Mrs. Rose Love, 90, on Cahoon road, about two miles from Greene. The woman battled with him and when she became exhausted he stole her handbag.

Read was arraigned after arrest under the name of Peter Francis Joseph Read and sentenced to five years in the state prison. Officials say that the two additions to his name are responsible for the fact that he has been in the prison for more than three years. Nothing that Read did while in jail indicated that he was insane, prison officers say, but he was brought before Judge H. D. Dubois in the Eighth district court, Knightsville, and upon recommendation of physicians at the state institution was recommended to the State Hospital for Mental Diseases.

The mistake was discovered in looking up his name at the office of the Penal and Charitable Commission when it was found Read had been committed to the state hospital on three different occasions and had each time escaped. He would have been eligible for parole from the prison in less than one more year, and prison officials were forced to parole him this week in order that he might be recommitted to the hospital.

**SEN. MOSES FEARS SPLIT IN G. O. P.**

Just Back from Europe, Senator Warns Harding on World Court Plan.

(By the Associated Press)  
 NEW YORK, May 11.—Still the irreconcilable, are farther away than ever from the "League of Nations or any of its creatures," United States Senator George H. Moses, of New Hampshire, a member of the foreign relations committee, returned to America this week with the prediction that the Republican party would "split upon the issue of the world court, if President Harding is successful in making it an issue." Moses is a Republican.

"After two months in Europe, during which I was unable to determine definitely whether the old world nations hate each other or the United States the most, I have come back more convinced than ever before of the righteousness of the cause of the irreconcilables," Senator Moses declared.

Opposed to Court.  
 "I am against this court—absolutely opposed to it," he said. He also expressed interest in the reaction of the country to the recent visit of Lord Cecil, British advocate of the League of Nations.

"From what I read abroad," he said, "Lord Cecil left the country still cold upon the question. I saw Lord Cecil in Europe before he sailed and I told him what we needed most in America was some authoritative foreigner to come over and tell us what we ought to do."

Asked his opinion of the probable result of making the "world court a party issue, Senator Moses countered with the query:  
 "Then is the ticket already named? I suppose it will be Harding and Cecil."

Much Propaganda.  
 Complaining that he had been "propagandized to death" on his trip, Senator Moses said he was now advocating a regulation in the immigration laws to uniform all propagandists.

Senator Moses said he had gained the impression abroad that the Ruhr invasion was a success politically, but he did not know whether it had been a success economically.

"Europe is in a much improved financial condition," he said. "American tourists are flooding the various countries and will spend a half billion dollars there this season."  
 "The American dollar is the most hated commodity in the world today. They want it in terms of million, but they think it is despoiling them."  
 "The old world countries are hotbeds of hatred. More than ever, we ought to stay out."

Capital Agog Over Reports U. S. Officials Were on "Freedom" Payroll.

(By the Associated Press)  
 WASHINGTON, May 11.—Washington officials were apprehensive Monday over press reports from Manila that senators, representatives and others prominent in government officialdom were on the payroll of the Philippine independence commission which, it is charged, has been spending a million pesos voted from government funds for independence propaganda.

The report that Governor General Leonard Wood had ordered an investigation of the payroll vouchers and was about to make public a list of names of Washington officials and others who have been on the independence payroll, created considerable stir here, but nothing has been received in government departments confirming the press dispatches.

Charges Denied.  
 The Philippine commissioners are both absent, having left for home soon after the adjournment of congress. The Philippine press bureau here, however, issued a statement denying any knowledge of the charges.

"The dispatch from a Manila newspaper correspondent, printed in an afternoon newspaper," said the statement, states:  
 "Senators, representatives prominent officials in Washington . . . have been receiving payments running into five figures."  
 "The plain inference is that members of the American congress have been receiving bribes from the Filipinos to favor Philippine independence."  
 "If this is true it is more of an indictment of such American legislators than of Filipinos. It would mean that the Filipino people have had to resort to bribery to obtain the independence which was solemnly promised them by congress, and which is justly theirs by divine right and the principles enunciated in the declaration of independence."

**WIDOW WINS BATTLE OVER ADMINISTRATOR**

MUSKOGON, Mich., May 11.—Fred M. Breuninger is named as administrator of the estate of Norman H. Holthe, prominent insurance man, in a stipulation filed in probate court this week, by attorneys for Mrs. Julia Holthe, the widow, whom Holthe's mother, Mrs. Anna Holthe, had petitioned to have divested of this authority.

An agreement between Mr. and Mrs. Holthe was revealed, providing for a property settlement based largely on the obtaining of a divorce by Mrs. Holthe. Under the terms of the settlement, Mrs. Holthe was given \$5,000 at the time and an additional \$10,000 was placed in trust until such time as she should be granted the divorce.

It is the opinion of Holthe's mother that the widow is entitled to no share in the estate, because of the property settlement.

**LARGE SALARIES PAID FILM STARS**

Exhibitor Tells of Fabulous Sums Received by Players.

(By the Associated Press)

NEW YORK, May 11.—Well known motion picture stars receive from \$100,000 to \$250,000 for each picture they work in, it was revealed by John D. Williams, organizer of the First National Exhibitors' Circuit, Inc., who testified at the federal trade commission hearing as to whether the Famous Players-Lasky corporation and its subsidiaries constitute a trust.

Williams told of the salaries paid the stars after his testimony that the Famous Players controlled sixty per cent of the leading film men and women in 1916.

Charlie Chaplin, he said, had received \$1,000,000 in 1917 to produce eight pictures, while between 1917 and 1918 Mary Pickford received \$350,000 for each of three pictures. Norma Talmadge, he said, first received \$100,000 each with a share in the profits of eight pictures and later had been engaged at \$350,000 for each of twelve more pictures.

Constance Talmadge appeared first in twelve pictures at \$110,000 each and later had received \$150,000 each for a second dozen. Katherine McDonald had received \$600,000 for six pictures.

**COMET AND STAR ADDED TO KNOWN HEAVENLY SPOTS**

Discoveries by Two U. S. Astronomers Announced at Harvard.

(By the Associated Press)

CAMBRIDGE, Mass., May 11.—A new comet and a new star were added to the known spots in the heavens, by discoveries announced at the Harvard

college observatory this week.

The Rev. Joel H. Metcalf, of Portland, Maine, clergyman-astronomer, who has to his credit the discovery of several stars and comets, added another to his achievements by finding a comet in the constellation Ophiuchus. His discovery, made on the night of May 7, is a comet of ninth magnitude, too faint to be seen with the naked eye. It was near the star Alpha Ophiuchi and was moving slowly. It appeared round, he said, and brighter on the southwest side.

From the Lowell observatory at Flagstaff, Ariz., Carl Otto Lampland, an astronomer who has discovered many variable stars and changes in nebulae, announced that he had found a new star in the great spiral nebulae Messier 83. It is a tiny spot, of fourteenth magnitude, visible only through a powerful telescope. This nova was found by Lampland on May 3.

**FORGERS' HOAX TRICKS MARKET**

Huge Sum of Bogus Checks and Spurious Orders Play Havoc With Stocks.

(By the Associated Press)

NEW YORK, May 11.—A gigantic hoax, which may have resulted in tremendous profits for the as yet unidentified perpetrators, was played upon Wall Street and stock brokerage houses in Boston, Philadelphia and other eastern cities the first part of this week.

Spurious buying orders, accompanied by forged checks, were dumped into brokers' offices by the first mail. The market went up with a boom. New York Central, buying of which was directed in many of the false orders, jumped two points.

Reaction Brings Crash. Then the checks proved to have been forged, and the market reacted with a crash, the whole list dropping to new low levels. Steel common broke to a new low for the year.

Wall Street observers believe the perpetrators made an inestimable amount of money from this manipulation of the entire New York stock market, one of the greatest known frauds in history of the street.

The spurious letters giving the buying orders were all written on the same kind of paper, while the checks were printed on "safety" paper.

The letters received in New York were mailed Saturday afternoon from various towns, including Harrisburg, York, Allentown, Bethlehem, Reading, Pa.; Amsterdam, Schenectady and Utica, N. Y.; North Adams and Pittsfield, Mass., and other places.

Arrivals Well Timed. All were timed to arrive in the morning's mail before the opening, indicating a large number of persons must have taken part, wittingly or unwittingly.

Most of the names mentioned as clients, for whom stocks were to be bought, were those of companies representing baking, grocery and produce trades.

In Schenectady, N. Y., for example, spurious cashier's checks were used, two being for the sum of \$15,000 on the Union bank of Schenectady. The perpetrators of the hoax apparently had taken the names signed to the false checks from a bank directory, for in one instance a bank president, whose name was used, had been in Europe for some time, while the cashier had been killed in an automobile accident seven months before the date of the check.

It was pointed out that there were two ways in which the swindlers working on a vast scale, could have profited by the fraud. They could have bought for the rise they knew their buying orders would precipitate, or they could have been short of stocks in anticipation of the crash which followed disclosure of the true nature of the orders and accompanying checks.

Bank Stationery Faked. In Boston several brokerage houses received orders to buy stocks on stationery imitating that of a prominent western Massachusetts banking institution.

A considerable number of the checks reaching Wall Street covered buying orders in New York Central. One house rushed a spurious check up to a large national bank for identification and was told that about 20 similar checks were already under investigation there.

More than 40 New York houses have turned in examples of spurious checks and orders.

Evidence that the plot was hatched some time ago, was seen in the fact that several of the banks on which the forged checks were drawn have consolidated or otherwise changed names recently.

**ALIEN INFLUX HELD AMPLE**

Labor Chiefs Allege 18,000 a Month Come From Canada and Mexico.

WASHINGTON, May 11.—Demands of employing interests in the next congress for a relaxation of the three per cent limit on immigration will be strongly countered, it was learned here Monday, by presentation of new figures just made public by the bureau of immigration.

These figures show that alien workers are sweeping into this country from Canada and Mexico, which are unaffected by the limitation, law, at the rate of nearly 18,000 a month. This new influx, in the opinion of labor leaders who will combat any lifting of the percentage limitations, is proving ample to fill all jobs available.

9,000 Mexicans Monthly. The immigration from these contiguous countries has in fact developed a striking increase in the last six or eight months, the immigration bureau's figures show. Whereas in the eight months from July, 1921, to February, 1922, only a few more than 9,000 Mexicans entered the United States, they are now coming in at the rate of 9,000 a month, and are also drifting from the southwest, originally the main employing field, up into the industrial districts of the east and central states.

From Canada at the same time there is flowing over the border an immigration that runs over 9,000 a month and promises to total more than 80,000 for the fiscal year ending June 30, as compared with 46,000 in the previous year. If this rate of immigration from these countries alone keeps up for a year it will bring into the United States, it is pointed out by labor leaders, more than half as many workers, as are admissible yearly from all the 43 other "percentage" nations together.

Intimation that Mexicans were being hired to meet the common labor shortage in the larger industrial centers came just a few days ago from Eugene C. Grace, president of the Bethlehem Steel corporation, who announced that his plants have more than 1,000 on the job.

"Bootlegged" Aliens Charged. According to W. W. Husband, commissioner general of immigration, his office has also noticed recently, the tendency of Mexican immigrants to work farther north and west than in former years. While no complaints have been made by the labor leaders against this Mexican influx in principle, the immigration bureau receives continual charges from labor sources that these invading Mexicans have slipped in irregularly.

Investigations have shown so far, however, that only a minor percentage have failed to pay their \$8 head tax and pass the physical tests for admission.

"Bootlegging" of other aliens, however, is proving a big problem for the bureau of immigration, Mr. Husband says. Figures on these illegal entries have been placed as high as 1,000 a day, but the commissioner general believes that 100 a day is probably closer to the mark.

These "bootlegged" aliens, coming most entirely from the European and Asiatic countries against which the percentage limit is applied.

U. S. Emigration Declines. That the influx of Canadian workers is not being balanced by the emigration of American farmers to Canada, which existed in a large degree some years ago, is also shown by immigration bureau figures. While more than 11,000 American citizens emigrated to Canada in 1917, for example, the total last year had

**ALIEN INFLUX HELD AMPLE**

dropped to less than 15,000 and will not run 9,000 this year.

Although American farmers are leaving the farms at the rate of about 1,000,000 a year, they are taking city jobs in this country. American emigration to Canada has dropped steadily since 1916.

While those from Canada to the United States are apt to remain here permanently, the same is not true of the Mexican influx, in the opinion of Commissioner Husband. There was a considerable Mexican immigration immediately after the World war, he says, some of which worked up into the industrial districts, but which with the coming of the 1920 depression, became an acute charity problem in several large centers, particularly in the middle west.

The Mexican immigrant seldom brings a family, Mr. Husband says, and therefore floats about the country in construction and railroad work, drifting back to Mexico or to the southwest, where the climate is more congenial, when work and wages decline.

BOSTON, May 11.—The navy department was criticized for appointing officers who are not graduates of the naval war college to the highest positions in the navy, in an interview by Rear Admiral Wm. S. Sims, retired, at Newport, R. I., Tuesday.

"In my opinion," said Admiral Sims, "the attitude of the navy department toward the naval war college has long been a crime. This appointment of an officer who is not a graduate of the war college to be commander-in-chief of the great United States fleet is a crime against the people of this country, and so is the appointment of a non-graduate to the most important position in the navy department, that of chief of naval operations."

Johnson Way. A pretty nuptial party, in which Miss Mable Johnson, formerly employed in the office of the L. Stephenson Company, and Tyler Way, local motive engineer for the Northwestern, figured as principals, was held yesterday afternoon at three o'clock at the First Presbyterian Manse. The Rev. Harry W. Sauer read the marriage service of the church.

The bride wore a beautiful gown of brown tulle, adorned by a corsage of yellow tulips, and hat of contrasting color. She was attended by bridesmaid, Mrs. Oscar Ruzok, of Wells, whose gown was of brown crepe with hat to match. Her bouquet was also of yellow tulips. Ernest Johnson, brother of the bride, served as best man. Accompanying the wedding party were Mr. and Mrs. Roy Hammond, on a visit to America from Paris, France, and returning next month to their home.

After a two weeks' honeymoon trip to Milwaukee, Chicago, and Gary, Mr. and Mrs. Way will be at home to their friends at 425 South Sixteenth street, this city.

"Personal influences bring greater rewards than war college training. Making bureau chiefs of officers who lack this training is an extremely serious matter."

The war college, he said, gave the officers training "in the application of those doctrines which enable widely separated elements of a great fleet to co-operate as a single team and which enable the commander to make sound tactical decisions in time—that is, before the enemy can seize the initiative."

Before his retirement Admiral Sims was president of the naval war college at Newport.

MADISON, Wis., May 11.—Timber is being cut off in Wisconsin at a rate that, if maintained, will denude the state of its forests within twenty years, is the statement made today by Superintendent Haffington of the state forests and parks. He made

the statement to the United States senate committee, who are making an investigation on forest policies in this city today.

He urged the necessity for forest production in Wisconsin as an important part of the development of the state and pointed out the impossibility of building up a national forest reserve in the timber section by the present methods of exploitation, which he said would not result in reforestation on a scale commensurate with the present cutting of timber.

**GREAT PROGRAM  
IS ARRANGED FOR  
LOCAL HOSPITAL**

**Sisters at St. Francis Hospital  
to Observe National Day  
Saturday, Mother's Day  
Sunday.**

What will be one of the biggest events of the history of St. Francis hospital in many years, will be the observance of National Hospital Day tomorrow and the Mother's Day program to be carried out on Sunday.

Doors of the hospital will be thrown open and the hospital will be ready for inspection by the public between 1 and 6 p. m. Saturday.

For Mother's Day an elaborate and fitting program has been prepared. A general invitation is extended to the public to attend this meeting. The program begins at 2:30 o'clock and strangers in the city, as well as all residents of the county, are cordially invited to be present. The Sisters desire that everyone enjoy this program.

**Outdoor Program.**  
Seats will be placed on the lawn where the program will be given. Girl Scouts will check the baby carriages and babies will be registered at the door. All babies who were born at St. Francis since the new hospital has been built are requested to be registered. They will also be given a souvenir. Visitors will also be given refreshments both days. Refreshments will be served free to all visitors. Cars will be parked on the streets on the north, south and west sides of the building. No cars will be permitted to park on 14th street in the hospital block. Traffic officers will instruct car drivers accordingly.

**Baby Show.**  
A big surprise awaits the visitors at the hospital immediately after the program. This is to be the biggest baby show ever held in the upper peninsula. All the babies are invited whether were born there or not.

Gold-star mothers, mothers and daughters, fathers and sons and especially grandmothers and grandfathers, will be given the best seats during the program.

The Sisters, members of the medical staff, and a large committee of women and girls will be there to greet visitors and will make them feel at home so that they will never regret attending the first Hospital Day ever held in the city.

The merchants are co-operating by having unusually attractive window displays appropriate for the day and for the occasion, showing such beautiful tributes for mothers that one must linger at the windows to gaze awhile.

**Sunday Program.**  
The following program will be rendered Sunday afternoon at 2:30:

Selection, "Under the Eagle's Wing"—St. Joseph's High School Orchestra  
America—Audience.  
Song—Girl Scouts.  
Song, "Hats of Other Days"—Pupils of Franciscan Sisters' Music Class.
