17 WOUNDS ARE FOUND IN BODY OF JOHN HOLT

Insane Man's Body Like a Sieve; Coroner Jury Could Not Tell Shot That Killed.

MARINETTE, Wis., May 23.—A coroner's jury which yesterday heard the evidence explaining the circumstances under which John Holt, 60, met his death, decided that "Mr. Holt had come to his death from bullets fired by recognized officers of the law in full pursuance of their duties."

At a post mortem held yesterday afternoon in Marinette, examination of Holt's body made by two Marinette physicians showed that Holt had received 17 bullet wounds. Of the seventeen wounds, eight were of such seriousness that any one would have proved fatal. This finding of the doctors creates a situation which makes it impossible to affix Holt's death to any one of the officers who fired into the shack in which Holt sought refuge after he had murdered Deputy Sheriff Emmet Butts Monday morning.

The foot of Leonard street in East Marinette, where the tragedy occurred was a regular mecca yesterday for curious people of the twin cities. After the papers were read last night hundreds of automobiles wended their way to "Squatter Town," a veritable village of shacks on the bay shore of Marinette's first ward. Hundreds of cars were parked on the side streets while the people crowded on foot to get a close-up of the little cabin in which Holt was barricaded, and to view the spot where the dead body of Butts remained while a fusillade of bullets were fired over him through the walls of the Holt shack.

St. Joseph's School To Give Fine Play Monday, May 28th

"The House of Hunter," which is to be shown at St. Joseph's High school, Monday, May 28, promises to be one of the finest plays seen here in some time. Those who are taking part have been practicing for two weeks and all is going nicely. A special picture will be shown Friday afternoon for the children. Prices will be announced later.

St. Joseph's High School orchestra, which took a prominent part in the program at St. Francis hospital, May 12, will take a big part in the play, rendering several selections before the performance and between acts.

SLEEP in Your Ford

Avoid hotel bills—and flimsy tents. Sleep comfortably in your Ford Sedan. No weather worries. Stop and sleep anywhere. Plenty of room for two large people in the Foldaway Ford Bed. Roomy dressing space. Ready for use in 4 minutes—collapses to golf bag size and weighs only 13 pounds. Easy to set up—doesn't injure Ford. Sedan or open car models—\$14.50. Also made for other open cars—write for details. Ask for catalog of Wayside Outing Clothing.

EXPECT LARGER ORE SHIPMENTS

Lake Superior Operators Are Confident of Record Business.

(By the Associated Press)
DULUTH, May 23.—Encouraged by reports from the lower lake smelters that iron ore is being melted on a larger scale than had been anticipated, controllers of the Lake Superior mining district and its kindred industries are looking forward to a season of new records.

Everything depends upon the demand for ore from the Lake Erie ports, but with the dock stores diminishing sharply under the heavy consumption at the smelters, district operators are confident of a rushing business.

Experts who last winter estimated the output for the district at between 55,000,000 and 60,000,000 tons have raised their maximum estimates 5,000,000 tons. In case this latter figure is reached there will be a new record for annual shipments from the Lake Superior mines.

With the Lake Superior docks already piling up with cargoes for the freighters, experts assert there is sufficient equipment and man-power available to force the movement past the 64,000,000 ton record mark set in 1916.

New ships have been added to the Great Lakes fleet, increasing the sea-

board capacity several million tons. Operators are reported to be hiring all available laborers for work in the huge open-pit mines which supply most of the ore.

MICHIGAN FOLKS ARE MORE HUMANE

Better Treatment of Dumb Animals Is in Evidence, an Authority Says.

(By the Associated Press)
DETROIT, May 23.—Michigan people are becoming more humane in their treatment of dumb animals, according to P. E. Hutchinson, manager of the Detroit Humane Society, basing the statement upon personal observations here over a period of many years, and upon letters from those engaged in similar work in various cities of the state.

"There are two reasons for the success of the humane movement," Manager Hutchinson said. "The most important is the work that is being carried on in the public schools of the country. School children are having drilled into their minds from the kindergarten on that it is manly and womanly to be kind to all of the helpless creatures about them. As a result boys and girls are looking out for the interests of the birds and animals as never before. They personally are watering and feeding animals in need of attention and no not hesitate to call to the attention of the proper authorities any cases of inhumane treatment that they chance to observe.

"The second reason for the strides in humane work is the fact that men dealing in animals have discovered that it pays in dollars and cents to be humane. W. E. Smith, superintendent of the Detroit stock yards, has told me repeatedly that cattle buyers are beginning to insist that the animals under their charge be humanely treated in every respect. To do otherwise decreases the value of the cattle and brings them heavy losses. Some of the animal dealers now are our warmest exponents of humane treatment of animals. They are compelling their employees to practice this.

"There is still another reason why the public is becoming more humane and that is the American spirit of fair play. No normal American cares to injure anything that cannot fight back. The old saying 'don't kick a man when he is down' is just as applicable to defenseless animals."

FLUFF RUGS.
Ladies, I am only here a few days longer for your carpet and rugs, so please call 178-W after 7 p. m. Monday and Tuesday evening. J. D. Thomas. 143

STATE POLICE TO EXTEND PLAN OF CONVICT PAROLES

State Pardon Commissioner Finds More Work for Hands of Constabulary.

(By the Associated Press)
LANSING, May 23.—The state will extend its plan of placing state police in charge of paroled convicts to Grand Rapids, Flint, Kalamazoo and Jackson next month, according to Fred E. Janette, state commissioner of pardons and paroles.

The system has been in operation in Detroit, where approximately 25 per cent of the state's paroled convicts report, for some time. It has worked out so satisfactorily, Mr. Janette said, that it is to be extended to the cities named, shortly, and later will be put into force in Bay City, Battle Creek, Saginaw and other large centers.

The idea of making the state police responsible for paroled persons was conceived when the state pardon commissioner decided that it would be better to have some one responsible for the former convicts than making the paroled men and women responsible to some one. Under the old system, paroled persons were required to report to the parole officer periodically. The parole officer, in turn, reported to the state commissioner that he and so reported he was living at such and such a place, had conducted himself in a certain manner, and was employed by such and such a firm.

These reports, according to Mr. Janette, originated with the paroled person, and were not always reliable. Under the state police system, each paroled person is assigned to a member of the state police staff. It is up to the officer to look out for the persons assigned to him. The officer is held responsible for securing truthful reports, inquire into their conduct, and look after their welfare, and make a report to the state commissioner based on his own findings rather than on the say-so of the former convict.

The state police will look after the parole work in connection with their other duties. Aside from the reported efficiency of the system, the state will save about \$1,200 a month in fees. Parole officers, under the present system, are allowed \$1 a month for each person in their charge. There are about 1,200 paroled men and women in the state, more than 200 of whom are in Detroit.

FOR SALE—Practically new Stand and one-ton Ford truck equipped with cord tires and tubes; run less than three thousand miles; tires less than one hundred miles. Will exchange for city property. J. Kortzen, Foster City, Mich. 150

Pansy Plants Plant Now!

INPUT OF LOGS HITS HIGH MARK

Heaviest Harvest Since War, Reports Indicate.

Reports indicate that the log input in Wisconsin and upper Michigan last winter was the heaviest since the war. It is estimated from figures given by operators that approximately 750,000,000 feet of logs were harvested. The input during the previous winter was 752,000,000 feet.

Plans are under way for considerable summer logging work in the north woods, early estimates contemplating an input of more than 270,000,000 feet by more than fifty firms. The heaviest input in recent years was during the winter of 1918 when more than 800,000,000 feet were reported.

Some of the northern operators are planning to peel hemlock bark this summer, and the early estimates are that they will get out about 25,000 cords. In this activity the availability of labor is an important factor. The pool of bark has been gradually decreasing in the northern territory.

The production of hardwood and softwood is exceeding shipments, as is usual the first half of the year, but the cut and shipments since January 1 are running above the 10-year average and forty per cent over last year.

Hemlock and hardwoods, including birch, maple, beech, basswood and elm, are beginning to move from the mills to the trade by water in heavy volume. Vessels of the lumber carrying fleet are loading at different ports, and the general report is that lumber traffic on the Great Lakes this season will be the most active in many years.

Some of the vessels which will engage in the lumber carrying trade are the Stephenson, Argo and Nessen, owned by the J. O. Nessen Lumber Company; the Sawyer of the Edward Hines Lumber Company fleet, and the Herman H. Hettler and T. S. Christie, owned by the Herman H. Hettler Lumber Company.

STATE LEGION DETERMINED TO HAVE BILLET

Going Right Ahead Despite Obstacles, with Previous Plans.

DETROIT, May 23.—The same "do or die" spirit that brought victory to the American army on French battlefields will bring the American Legion billet into being, despite obstacles that now seem almost insurmountable, according to Lyle D. Taylor, state adjutant of the American Legion.

The Michigan Legion some time ago accepted as a gift from the counties in the Seventh congressional district a summer resort property at Otter Lake, for use as a home where the dependent children of dead or ill world war veterans in this state

might have a permanent home. Just as plans were taking shape for starting the institution the hotel building on the property, intended to house the youngsters, burned to the ground.

Hardly had the ashes of the structure grown cold, however, before Legion officials were making plans for carrying on the work and now they hope to begin the task of taking care of scores of children within the next few months. The major program contemplates the procuring of 40 additional acres adjoining the site of the Otter Lake property, and the erection of a number of cottages where the war orphans and other dependents may be placed in charge of women who were made widows through the war.

In the meantime it is proposed to start a temporary billet at a farm near Millford, Mich. A wealthy farmer has offered to donate the use of his farm and farm buildings for a time, and 30 or 40 children could be taken care of on the property, as the farm house is a large one. Steps toward obtaining the place for a short period now are being considered.

EDUCATORS FACE COURT OVER DANCE

CLARE, Mich., May 23.—A court order signed by Judge Ray Hart of the Clare judicial district has been served upon members of the Clare public school board, demanding they appear in the circuit court at Mt. Pleasant, to show cause why injunction should not be sustained restraining the school board from allowing a public dance in the gymnasium of the new school building.

A large public dance promoted by the young people of this city was scheduled to take place at the high school gymnasium. Fisher's orchestra of Kalamazoo was to furnish the music.

Feeling over the present situation is tense and petitions have been circulated with hundreds of signatures which will be presented to Judge Hart, at the Mt. Pleasant hearing requesting him to disband the action.

DICKINSON IRON MINES VALUED AT \$6,080,770

IRON MOUNTAIN, Mich., May 23.—Iron mines in Dickinson county are valued at \$6,080,770, according to the figures of the state tax commission. This is an increase of \$172,000 over 1922.

Of the mines in this county, the Chapin valuation is \$2,696,000; West Chapin, \$76,000; Millie, \$50,000; Traders, \$36,500; and the Indiana, \$50,000. The valuation of other mines in the county are: Aragon, \$958,000; Penn, \$1,250,000; Munro, \$20,000; Penn group, \$30,000; Loreto, \$315,000; and McKenna, \$100,000.

The Chapin mine shows a decrease of \$105,270. Mining men declare this property, once the best and largest iron mine in the world, is declining.

An Aerial Warfare On Moths, Is Plan of U. S. Balloonist

DAYTON, Ohio, May 23.—Major H. A. Strauss, expert balloonist, is planning aerial warfare on the gypsy moths in the New England states.

Strauss announced he will take his OA-1, the smallest two-engine lighter-than-air craft ever built to Concord, N. H., June 1 and that Concord will become the base of his operations.

The OA-1 is being equipped with a hopper, from which Strauss will sprinkle insect powder on the moths, which are said to be taking a heavy toll of New England vegetation.
