

## "WHIPPING BOSS" DENIES HIS GUILT

### CLAIMS BUT 10 LASHES GIVEN DEAD VICTIM

Ten Lashes Were Specified as Proper Punishment by Prison Head.

Witness Ward Says He Counted 87 Lashes But Didn't Know Whether Tabert Was Victim.

(By the Associated Press)  
Lake City, Fla., June 28.—Efforts by the state to show that "excessive" flogging given Martin Tabert, a young North Dakota man by Thomas Higginbotham, was directly responsible for Tabert's death, was vigorously fought today when the trial of the former convict whipping boss of the Putnam Lumber company's camp, was resumed.

Higginbotham is under indictment for murder in connection with Tabert's death. The defense made no effort to deny that Tabert was whipped by Higginbotham but will attempt to show that the prisoner was whipped in accordance with prison regulations by the specified punishment of ten lashes.

The contention of the defense is that the death of Tabert was due to pneumonia, but witnesses have already testified that he was given from 50 to 87 lashes by Higginbotham.

Cross-examination of Graham Ward, who yesterday testified that he had witnessed the whipping of Tabert and counted 87 lashes, brought denial that he was offered \$5,000 to testify or that he had made a statement to that effect.

Further questioning brought from Ward a statement that he did not know whether the man he saw whipped was Tabert or not. "It was a man and I saw it," he said, "but I did not know the name of the man."

### Authors' Head Denies Writing Poison Letters

NEW YORK, June 28.—George Maxwell, president of the Authors, Publishers and Composers Association of America, surprised in general sessions court yesterday and pleaded not guilty to a charge of writing poison letters to Allan A. Ryan, financier. Judge Keating fixed bail at \$5,000, which it was said Maxwell was ready to post.

### HURT ON STREET CAR—GETS \$10

Broken window crash cuts policy holder. He had a policy to help out on fast time and expense.

Harry Maxon, of Hornell, N.Y., subscriber for the Elmira Advertiser, and at the same time spent 75 cents for a policy which was to pay his heirs \$1,000 in case of his death and pay him \$10 a week in case of injury. Before three months had rolled around Mr. Maxon was riding upon a street car which was struck by a heavy truck. The shock threw Mr. Maxon part way through a window and he was cut and bruised. For four weeks he was not able to attend to his usual duties and the North American Accident Insurance Co. sent him a check for \$40 on the day his claim arrived at the Chicago office.

The Mirror congratulates the Elmira newspaper. The newspapers in the United States now using a service policy are doing great and good work and thousands of dollars are paid out annually to newspaper readers all over the United States by the big insurance company behind the Newspaper Insurance League. Mr. Maxon did not wait until after he was hurt to get protection.

### Aviators Plan to Break Record in New Flight

SAN DIEGO, Cal., June 28.—In their second attempt to make a flight endurance, as well as speed records, Capt. Lowell H. Smith and Lieut. J. D. Richter, army aviators who were forced down by generator troubles yesterday, took off at 4:16 this morning on what was planned to be a flight of four days and four nights.

### HEALTH CLINICS TO BEGIN HERE IN SHORT TIME

City Hall Basement Nearing Completion as Headquarters for New Health Movement in City.

Plans are now rapidly nearing completion for the initial steps in the city health program which contemplates a regular and permanent series of clinics. This work is to be in charge of the city health department, Dr. Harry J. Defnet in charge, assisted by Mrs. C. E. Ruggles, city nurse, and in cooperation with the Escanaba Woman's Club.

Although the program has not been completely formulated at this time, it is sufficiently far advanced to indicate that it is to be the broadest, most comprehensive and efficient campaign ever undertaken here for the systematic improvement of health conditions.

New Quarters Being Fitted.  
For several weeks the basement of the city hall has been in process of alteration. The place would not be known now, but the work has not been completed and probably will not be for another two weeks. There will be a reception room, an examination room, a private room for the nurse and mother for Dr. Defnet and ample space for the installation of the apparatus of the city health department.

A regular program of clinics will be mapped out the program at this time having been only tentatively worked out. However, there will probably be three days a week devoted to children's clinics. These will be Monday, Wednesday and Friday and will be conducted between 10 and 12 a. m. and 2 and 4 p. m. These clinics will be open to all citizens.

Free Examination and Advice.  
People will have opportunity to bring their children for examination and advice. The Woman's Club will cooperate in every way in the matter of persuading parents of sickly children to take them to the clinic or to their own family physician.

Monday, probably, will be devoted to a clinic for venereal cases. Thursday to pre-natal cases and one Thursday each month will be given over to a tuberculosis clinic.

Between the hours of 7 and 8 p. m. on Wednesday and Friday, it is planned to conduct general clinics.

Plan General Opening.  
This is but a rough outline of the program proposed and, of course, it will be changed to fit whatever new conditions might arise. Being the first of this sort of work to be done here, it is likely that some alterations may have to be made in the tentative program.

More definite announcements regarding the opening clinic and the exact time and character of the clinics will be given out later.

### Changed Time for Holding Services at St. Anne's Church

The changed time for services at St. Anne's church for the months of July and August shows that low masses will be held at 6 and 7:30 a. m., high mass and benediction at 9:15 and baptisms at 11 o'clock. The weekly masses will be at 6:45 and 7:30 p. m. on Friday. It had been previously stated that a low mass would be held at 8 a. m. This was a mistake and should have read 7:30.

Mr. and Mrs. J. E. Gingrass are expected to return tonight from Marquette, where they attended the funeral of Mr. Gingrass' mother.

## St. Paul Bidding For Dempsey-Gibbons Fight

### SEIZE 'EM! United States May Decide to Grab Foreign Ships Which Violate Federal Laws Regulating Liquor Shipments.

WASHINGTON, June 28.—The increasing number of foreign ships which are docked in American waters with more liquor than permitted under the Supreme Court ruling, has brought government officials to the point of considering application of a provision of the Volstead act for seizure of foreign vessels.

No decision has yet been announced on the question, but officials feel that the present situation cannot be tolerated much longer. In case a decision is reached to promulgate a new treasury regulation putting into effect the seizure clause of the Volstead act adequate notice will be given to foreign governments.

### FIND WOMAN IS GUILTY IN FIRST DEGREE

Mrs. Buzzi Held for Slaying of Wealthy New Yorker.

Collapses in Court When Verdict That Carries Death Penalty Is Returned by Jury.

(By the Associated Press)  
NEW YORK, June 28.—Convicted of first degree murder and facing the electric chair, Mrs. Anna Buzzi, slayer of Frederick Schneider, wealthy Bronx contractor, with whom she lived several years, collapsed in the court room late last night when the jury, in Justice O'Malley's court brought in the verdict after deliberating for ten hours.

White and shaking and with her composure broken for the first time since her arrest four months ago, Mrs. Buzzi was committed to the Bronx county jail to await sentence on July 9. The penalty for first degree murder in this state is electrocution.

Schneider, who was the owner of the world's largest apartment house, was found dead in his automobile with two bullets in his brain on a lonely road in the Bronx on February 26. Mrs. Buzzi, the following day, was held as a material witness. William Burke, her brother-in-law, declared Mrs. Buzzi had quarreled with Schneider and had a pistol, saying that "if I get her a pistol, you one else will have him."

She was indicted for first degree murder but continued to declare her innocence and openly charged Burke with the murder. During the trial, which began last week, the prosecution brought out the fact that when a neighbor reached the apartment of Mrs. Buzzi shortly after the murder, Mrs. Buzzi was cleaning blood stains from her coat.

### GERMANS OF RANK IN WAR IN BAD NOW Claimed to Be French Prisoners in Ruhr District.

LONDON, June 28.—Three German "U" boat commanders who escaped after their exploits in the war are now prisoners of the French in the Ruhr and are likely to receive stern justice, says the Dusseldorf correspondent of the Daily Mail. The first of these is Paul Audler, who commanded the submarine 9-A. He is charged with complicity in the explosion that partly wrecked the Rhine-Herne canal.

The second is Otto Horden, accused of sabotage in the Bochum district. The third is Commander Rose, who navigated the U-53 on its trip to the American coast in 1915. He now is suffering from the effects of a severe beating by Belgian officers whom he insulted.

### "War Indictments" Against Many Firms and Individuals Dismissed By Government

INDIANAPOLIS, Ind., June 28.—Indictment against 226 coal operators, officials of the United Mine Workers and mining companies, returned on February 24, 1921, charging conspiracy to violate the Sherman anti-trust law were dismissed in the United States District Court today by Judge Anderson upon motion of Attorney General Dougherty.

Cause For Dismissal.  
WASHINGTON, June 28.—The department of justice announced today that Attorney General Dougherty had moved in Federal Court at Indianapolis to nolle prosequere the long pending indictment returned there against union leaders and certain corporations charging conspiracy to restrain trade in the production and sale of bituminous coal.

"Careful investigation," said Mr. Dougherty, "strongly supported the protest of the defendants that many of the things complained of were in no small measure due to the efforts of government officials during the war to bring about more cooperation between miners, railroads and mine owners in production and transportation of coal."

### URGE FARMERS TO ATTEND ROUND-UP AT CHATHAM SOON

Annual Affair This Year to Be Better and More Interesting Than Ever.

An urgent appeal to every farmer in the Upper Peninsula of Michigan, to attend the annual Farmers' Round-Up to be held at the Upper Peninsula Experiment Station, Chatham, August 5 to 11, is being made by E. G. Amos, assistant state leader of county agents, who has been operating in this effort with J. McMillan, superintendent of the station.

The annual Farmers' Round-Up is one of the most valuable educational institutions which is available for the upper Michigan farmer today. Mr. Amos declared: "Here there are being prepared a great number of experimental plots, emphasizing the most economical and the most scientific methods of securing the best results from the plowed acre."

"Here the farmer finds a model which he can safely and profitably follow. Correct methods of raising and caring for dairy animals, poultry, sheep and, in fact, the approved methods of conducting every department of the farm, are clearly demonstrated and carefully explained by men who have had a life-time of training and experience."

There are the clever seed tests—a series of thirty plots showing red clover secured from various points throughout the United States and other countries as well. There are the out variety tests, the potato plots and the alfalfa experimental plots.

Indeed, the annual Round-Up is a wealth of education for the farmer, and the educated city man as well. No live-wire, up-to-date farmer or business man should miss it. Then there is the social feature, for an opportunity is afforded to get acquainted, to compare notes and to take an outing which, for the farmer at that time of the year, is usually well timed.

"You farmers of Cleveland don't miss the Round-Up this year."

### Roof Fire at Wilson Place Does Damage

The fates just naturally won't let Wilson get that roof on his restaurant fixed. Several weeks ago a roof fire did considerable damage. Carpenters are working on one side of the roof now and while they were working about 3:45 this afternoon, sparks from the chimney set fire to the other side. The high wind whipped the sparks into a vigorous blaze before it was noticed and the blaze had attained considerable headway before the department was notified. The fire was extinguished by the use of chemicals after a stiff fight and considerable damage was again done.

### JACOB'S SECOND TRIAL IS BEGUN IN SAN DIEGO

SAN DIEGO, Cal., June 28.—The second trial of Dr. Louis L. Jacobs, who is accused of the murder of Fritz Mann, dancer, opened here this week. Interest in the second trial centers around the possibility of Dr. Jacobs taking the stand, and several "surprise" witnesses said to have been found by the prosecution since the first case. The first morning session was occupied in securing the jury.

### Weeks Opposes Use of Army to Force Dryness

WASHINGTON, June 28.—Opposition to using the army to assist in the enforcement of prohibition was voiced by Secretary Weeks, speaking at the graduating exercises at the Army War college. "I cannot believe," he said, "that persons who advocate the unusual employment of the army such as the enforcement of the prohibition laws have given serious thought to the possible consequences of such an action."

### SPIRITED BUYING MARKS COOPERATIVE SELLING PLAN HERE

Prizes Attract Shoppers from Long Distances and Merchants Are Well Satisfied.

Spirited shopping continues to characterize the "Greater Escanaba Week" which is being conducted by a number of local stores this week. Crowds yesterday and today were freely availing themselves of the many special price bargains which are being offered during the week as a means of convincing shoppers that Escanaba is their very best shopping center.

The daily awarding of prizes continues to be most interesting. Persons desiring to compete for the different prizes given away each day, should register at the Hill Drug Store between the hours of 9 a. m. and 9 p. m. The winners of each day's prizes are announced at 3 o'clock each evening at the Hill Drug Store.

Wednesday's Winners.  
Winners of yesterday's offering were L. D. Pierce, 100 bars of soap given by the Fair Store. Mr. Pierce brought six shoppers from 16 miles south of Harris and won the prize for bringing the largest party from the longest distance.

Mrs. S. V. Kneist of Houlton was the Boston Store \$5 coupon, for making the largest purchase in the co-operative stores.

Mrs. Emil Myrvall of Wilson won the \$5 hat awarded by the Ed. Erickson Company to the woman bringing in the largest number of women shoppers in her car.

Today's Prizes.  
Today's prizes are as follows: \$5.00 Candy Jar—To woman making the largest purchase at any of the Greater Escanaba stores. Given by the Ed. Erickson Company.

100 Bars of Soap Free—To the largest load of people coming in an automobile from the longest distance. Given by The Fair Savings Bank.

\$5.00 Purchase Coupon—To the shopper making the biggest day's purchase in any or all stores advertising in this circular. Given by the Boston Store and good for face value in any department of its store.

1 Year's Subscription to The Mirror—To largest family attending the co-operative sale. Insurance for every member of the family between the ages of 16 and 70 included with subscription. Given by the Escanaba Daily Mirror.

### Delta Hardware Co. Employees Enjoy a Great Picnic Today

The Delta Hardware Company was closed all day today while employees of the various departments and their families enjoyed a picnic at Fayette where boating, swimming, base-ball, fishing and other sports were enjoyed to the fullest. Great picnic baskets bulging with things to make the inner man jovial, formed an important part of the paraphernalia accompanying the picnickers.

### Green Bay Banker Drops Dead Today

(By the Associated Press)  
GREEN BAY, Wis., June 28.—P. F. Dorschel, 58, president of the Bank of Green Bay for the last fifteen years, dropped dead at the cottage of Henry Herrick on the Bay Shore last night. Death was due to apoplexy.

### DARK SHADOW HANGING OVER SHELBY, MONT.

Mayor Johnson Willing to Pledge Private Fortune in Venture.

Resignation of Pioneer Mining Man as Manager at Last Moment Creates Grave Doubt.

(By the Associated Press)  
ST. PAUL, Minn., June 28.—While William P. Kennedy, vice president of the Great Northern railroad, has declared that it is altogether improbable that his road will help finance the Shelby fight, the St. Paul Boxing Club has wired an offer to Jack Kearns of \$200,000 for the fight in St. Paul.

In other words the refusal of the Great Northern to aid the fight in Shelby may bring it to St. Paul. The railroad takes the attitude, Mr. Kennedy said, that the promotion of prize fighting was not railroad business.

Up to Kearns.  
GREAT FALLS, Mont., June 28.—The prospect of holding the Dempsey-Gibbons fight at Shelby on July 4th, today revolved around Jack Kearns, the manager for the world's champion, who has arrived here from Shelby with Mayor Johnson.

With the resignation of Don Tracy, pioneer Great Falls mining man and hotel owner, from the position of manager of the business end of the fight, a dark shadow is cast over the situation and the prospect of meeting the final \$100,000 installment due Dempsey on his \$200,000 guarantee is very remote.

Tracy resigned last night without warning to the promoters. He said that he had been unable to make any headway towards collecting the \$17,000 subscribed by Great Falls business men to complete the second \$100,000 payment which was recently paid to Dempsey.

Mayor Johnson Game.  
Mayor Johnson of Shelby already has practically spent a fortune of \$150,000 in the venture, but declares that retirement of Tracy would not interfere in any way with the holding of the fight and that plans to bring the champion and his challenger together on July 4th would go forward without interruption.

Johnson declared he was prepared to personally guarantee the final payment to Dempsey, backing his statement with the assertion that he had property valued at \$250,000 which he would pledge if necessary.

### WHITFIELD TO GO ON TRIAL IN CLEVELAND

Slayer of Forest City Officer Denies Knowledge of Killing.

CLEVELAND, Ohio, June 28.—Arraignment of John R. Whitfield on a charge of first degree murder of Dennis Griffin, a Cleveland policeman, was set for today. Whitfield was placed in the county jail here last night about four hours after he was brought back from Detroit, where he was arrested on Tuesday.

The police questioned him all night trying to wring from him a confession, but when Whitfield made a voluntary statement of what happened on the morning of May 11, the date on which the policeman disappeared, the police abandoned the idea. Whitfield denied any knowledge of the burying of the body in a shallow grave.

### Troops March in Free State's Biggest Parade

DUBLIN, June 28.—The biggest military parade in Dublin since the establishment of the Free State occurred Monday. Thousands of troops, representing all branches of service and accompanied by several bands, marched from the army headquarters to the government buildings, where President Cosgrave took the salute. General Richard Mulcahy, minister of defense, marched at the head of the column with the Free State staff.

### RESEARCH AIDS HUMAN TASKS

Engineering Foundation Activities During Year Told by Chairman Rand.

NEW YORK, June 28.—Civilization must choose between research and retrogression, it is asserted in the annual report of the Engineering Foundation, which, reviewing the eight years of its history, finds that, particularly as the outcome of this war, research effort is growing among American engineers, industrialists and business men.

Founded by Ambrose Swasey, a Cleveland manufacturer and a native of New Hampshire, with an endowment of \$500,000, the Foundation, in the report, made public by Chairman P. H. Rans, tells of numerous achievements accomplished during the past year in association with the National Research Council and other agencies.

Problems Being Solved. A nationwide campaign to check the ravages of the shipworm, which has inflicted millions of damage in American ports, is under way under the direction of a committee headed by local committees in New York, San Francisco and elsewhere. An investigation of arch dams, to solve problems centuries old, and designed by engineers of the far west, has been organized, and a project for a study of concrete arches in cooperation with the American Society of Civil Engineers has developed.

An annual foot of millions to American industry through fatigue of metals has been shown to exist, and program of research is now under way. The foundation has cooperated with the division of engineering of the National Research Council in numerous enterprises, including highway research.

Engineering Foundation's scope embraces the human as well as the material elements of engineering. As the report says, "The Foundation is a liaison between engineers and scientists and between engineers and the industries."

Engineering Foundation is independent of commercial interests, free from technical bias, uncommenced by social or political considerations. A joint instrumentality of national engineering societies for research, investigation and kindred activities, it is an expression of the spirit of progress and service among engineers.

Eight years of beginnings, in distinct retrospect, will soon be the surprise of a summer day in the experience of a great institution founded to seek truth and apply it to the advancement of the profession of engineering and the good of mankind.

Principles Remain the Same. The complexity of modern scientific development are emphasizing to the engineering mind the unity of truth. Truth has many facets and applications but it is fundamentally a unit. Consequently, the fact is being

## Clear as Crystal—

The absolute purity of

# "SALADA"

GREEN TEA

is reflected in every cup.

The most delicious GREEN TEA in the world.

JUST TRY IT

more generally apprehended that research, the seeking for truth, cannot be dismembered into pure and industrial, or fundamental and engineering. Differences in magnitude and technique there may be, but principles remain the same.

There are many research tasks and many workers, and each worker has but a portion of the great field. Results of research in any branch of science may, however, be of great value in many other branches and in a variety of arts or technologies. Such a variety of arts or technologies could not have been anticipated when the discoveries were made. Ap

provements of research, grow among engineers, industrialists and business men. That research pays in many ways and that support of research is necessary to the prosperity and the continued existence of civilized people is being perceived even by persons remote from laboratories. The choice is between research and retrogression.

Scientific research is developing on both sides of the Atlantic. It is said by engineers. Paul C. Ting, Mr. Swasey's grandchild, Sir Alfred Yarrow, noted shipbuilder, recently gave 100,000 pounds for work in this sphere.

## First Class Hardwood Sawyer

In Northern Michigan. Mill operates year around.

Address, "SAWYER," Daily Mirror  
Escanaba, Mich.

To the Public:

## LUMBER PRICES ARE BELOW 1920 LEVELS

Proposals of one kind and another has lead the average citizen to believe that lumber has not descended from wartime peak prices.

The delay of this impression is conclusively demonstrated by a survey just completed by the Wisconsin Retail Lumbermen's Association.

The result of this survey, on figures submitted from every section of the state, shows that retail sales prices on typical lumber bills for ordinary building construction on today's market are 24% less than in June 1920.

The lumber merchant is doing his full share to stabilize the construction program and to keep the cost down.

The prospective home builder has every reason to proceed with confidence.

COUNTY BOARD PAYS TRIBUTE TO BRAVE OFFICER

Passes Resolutions of Sympathy on Death of Deputy Frank Curran.

The Delta County Board of Supervisors, in session this week, adopted the following resolution regarding the death of Frank Curran, a deputy sheriff, who was killed by George Natchoff, an escaped convict, while Curran was in the performance of his duty:

Whereas, it has come to the knowledge of this Board of Supervisors of Delta County that on Wednesday, the twentieth day of June, A. D. 1923, Frank Curran, of Maple Ridge Township, Delta County, Michigan, came to an untimely death at the hands of one George Natchoff, an escaped life-term inmate of the Michigan State Prison at Marquette, Michigan; and

Whereas, the said Frank Curran, at the time of his death, was engaged in the worthy cause of pursuing and attempting to capture said Natchoff, that he might be returned to the proper state authorities having him in charge and custody prior to his escape; and

Whereas, he, the said Frank Curran, an American citizen and son of Michigan, had nobly answered the call of his State when the necessity to uphold the laws and protect the people by the capture of said convict seemed to become manifest to him; and

Whereas, he, the said Frank Curran, accepted in the hour of her need the challenge to perform his full duty as a citizen of Michigan, and came to the aid of her property and other duties, as a special deputy sheriff under appointment from the Sheriff of Delta County; and

Whereas, he, the said Frank Curran, and courageous citizen of this County of Delta went forth upon his sacred mission unflinchingly and unhesitatingly, and in the performance of his duty, and in the performance of his duty, gave up his life in the discharge of his duty;

Now, Therefore, Be It Resolved, That the Board of Supervisors of Delta County, in session assembled, do hereby express our genuine sorrow and regret for the sad death of our brave and noble citizen and county officer, Frank Curran, and that we do hereby advise to be bereaved widow, son and the friends

of his family, our profound sympathy, however pitifully unable we are to say just how we feel about this unfortunate event, and that, in everlasting memory of the heroic deed of the deceased officer, and in token of our esteem and appreciation, this simple tribute to the memory of Frank Curran, deputy sheriff of Delta County, be spread at length in the record of the proceedings of this session, and that engrossed copies thereof be transmitted by the Clerk of this Board, to the members of the immediate family, as a perpetual reminder of the debt of gratitude of the people of this County.

Respectfully submitted: HARRY S. HALL, FRED ROBBINS, L. J. JACOBS, Committee.

'PENNSY' GIVEN FLAYING BY THE RAIL LABOR BODY

Held in Contempt of Unanimous Decision of United States Supreme Court.

(By the Associated Press) CHICAGO, Ill., June 28. The Pennsylvania Railroad System, after ignoring the decision of the U. S. Labor Board, in refusing to acknowledge the elected representatives of the clerks' organization, has persisted in such violation in contempt of the unanimous decision of the United States Supreme Court, which sustained the board's jurisdiction, the Railroad Labor Board declared today in a decision.

The certification of the Pennsylvania system the record of similar nature within 11 days resulted when the system refused to deal with the elected representatives of the clerks' organization as officials, representing employees' organization, although the system was ready to consider them as individuals.

The board, in its opinion, declared that the position of the Pennsylvania System in this case was "devoid of merit, and violative of the will of the congress, and destructive of the rights of the employees." "There was no proposal to arbitrarily control the carrier to deal with any particular labor organization," the opinion said. "The only issue was one of such insignificant import to the carrier as to make its flagrant course

one of astonishment to disinterested citizens. The issue is tersely stated in the following question and answer quoted from the record of the statement at the hearing of a vice-president representing the Pennsylvania System.

"Question: 'Simply drawing this distinction, that if they will agree to deal with you as individuals, you will deal with them, but if they deal with you as officials representing employees' organizations you will not deal with them?'"

"Answer: 'You have stated it correctly.'"

In the face of this statement of the carrier's position the fact remains that the carrier had negotiated agreements with the four train and engine service brotherhoods, which are signed by the officials of those organizations as such and not as individuals. This inconsistent course involves the admission on the part of the road that it respects the rights of employees when they are backed by the four powerful train and engine brotherhoods, but not when they have only the support of the newer and less potent clerks' organization."

The opinion declares that if the same sort of recognition has been accorded the clerks' organization the Pennsylvania system would not find itself in the lone attitude among all the great railroads of the United States of attempting to nullify the Transportation Act, and that, not in the defense of its rights, but in the oppression of its employees."

The decision of the board also calls attention to the fact that, through out this controversy, the employees concerned and their representatives have borne themselves in a manner worthy of commendation. "Approved of their rights," the opinion said, "they did not strike and shut their grievances upon the heads of the offending public."

When it reconvenes the board proposes to guarantee to the employees and to the public that no carrier, however great and powerful, shall again propagate industrial alliances and endeavor to place themselves in defiance of the will of congress and the tribunals of our country. This theme is embodied here, in defiance of the position of these employees, that the Railroad Labor Board should call the attention of the congress to this situation."

Although the Transportation Act provides that a class of employees shall enjoy the right of selecting their representatives of such a class, the decision declared that the carrier attempted to deal with the employees with contempt of the principle of majority representation which is funda-

mental not only in the Transportation Act, but throughout the constitution and institutions and laws of our land."

The results of balloting as included in the decision of the board clearly showed that wherever an election was held, the clerks' representatives were overwhelmingly elected, but according to the testimony introduced, the Pennsylvania System refused to recognize the elected representatives.

When the attention of the Railroad Labor Board was called to this alleged transgression by the carrier of a provision of the Transportation Act, the board called a hearing. Testimony was introduced by the railroad and the Brotherhood of Railway and Steamship Clerks, Freight Conductors and Station and Express Employees.

But before the board could render a decision in the case the Pennsylvania System applied for and received an injunction restraining the board from issuing its decision. The fight was taken to the United States Supreme Court, which sustained the board's contention, increased fines of the carrier and ordered the injunction dissolved.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get the natural color was to make it a habit of using a hair dressing which contained a large amount of Sulphur. You will get a large quantity of this famous old recipe, prepared by the addition of other ingredients, in a small bottle.

Late G. Mott Williams, Honored at Diocesan Convention.

OBITUARY

A. T. GARLAND FUNERAL. The body of A. T. Garland was carried to its final resting place in St. Joseph's cemetery at 9 o'clock this morning following a requiem high mass at St. Joseph's church when Rev. Fr. Bertrand was the celebrant. Many friends who mourned his death attended the funeral and many flowers were sent to the home of Mr. and Mrs. H. H. H. 205 North Thirteenth street, where the body lay, as tokens of the high esteem in which Mr. Garland was held during his life, and as comforting messengers of sympathy to the stricken family of the deceased.

SOCIETY

K. C. Dance at South Park. The Knights of Columbus will give a dance at South Park tonight. The committee in charge has made plans for an evening of rare enjoyment. The orchestra will furnish the music for the occasion. Scott-Plan. Thomas S. Dism and Miss Grace J. Scott of the Soo, were married by the Rev. Fr. Bertrand at 2:30 o'clock this afternoon. Rev. H. W. Stave performed the ceremony. They were unaccompanied.

Finley Quigg. Miss Thomas Quigg of Detroit and Miss Winifred Finley, formerly of this city, were married Tuesday in Detroit. The newly married couple will return to their home in that city. Miss Quigg has a large number of friends here who will be delighted to hear of her marriage.

Clean Kidneys By Drinking Lots of Water. Take Salts to Flush Kidneys if Bladder Bothers or Back Hurts.

Eating too much rich food may produce kidney trouble in some form, as a well-known authority, because the acids created excite the kidneys. They then become overworked, get sluggish, close up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or the nerves aren't acting right, or if bladder bothers you, begin drinking lots of water and also get about four ounces of Jud Salts from any good pharmacy. Take a mild glassful in a glass of water before breakfast for a few days and your kidneys may then act fine. Jud Salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders.

Jud Salts can not injure anyone, makes a delightful effervescent fluid, water drink which millions of men and women take now and then to help keep the kidneys and urinary organs in this often avoiding serious kidney troubles. By all means have some of it. Examine your kidneys at least once a year.

DISPUTED ACCOUNTS. Very often we are called upon to furnish cancelled checks in settlement of disputed accounts. The record is always PLAIN. With the endorsement of the payee on the back of the check it is plainly shown that he has received the money. No practical person can afford to let a bank account and an impractical person needs one to keep straight. IF YOU haven't a checking Account, open one in this Bank TODAY. The First National Bank - Escanaba, Michigan - Oldest, Largest and Strongest Bank in Delta County.
