LEGISLATORS TO TEST WALTON'S POWER

WALTON WOULD STOP FAIR, HE STATED TODAY

Martial Law Will Not Permit Crowds Gathering, He Says.

Legislators May Take Chance and Try to Hold Extraordinary Session Soon.

(By the Associated Press.)
Oklahoma City, Sept. 18.—A clash between members of the state legislature and Governor Walton over martial law was continued today despite the governor's warning that he will not let any legislators that attempt to convene themselves in an extraordinary session.

The movement for an out-and-out test of the authority of the executive has been growing and is now taking more than a definite form.

Sends Newspapers Message.
OKLAHOMA CITY, Sept. 18.—Extension of martial law in Washington territory, one of the most important centers in the western half of Oklahoma, issued today by Governor Walton's next military message to the state legislature.

"It is regrettable," says the governor in a telegram to the Muskogee Phoenix, "that the members of the legislature have reported today, apparently in defiance of the martial law which is in effect, that they will attempt to convene in an extraordinary session."

"I am afraid it will be necessary to your session we will have to put your own state's constitution to a test."

Fare Can't Go On.
In the same message Governor Walton said that he would not permit the legislature to convene in an extraordinary session.

Thousands of farmers and workers in rural communities who make their money during the year will be deprived of their taxes if the state is not put to rest.

System of Arbitration Settles Many Disputes

CHICAGO, Sept. 18.—Satisfactory settlements were reached in a large majority of the cases of grievances and controversial questions arising under the employee representation plan of the Pennsylvania Railroad system for the first half of 1923.

"During this period a total of 266 cases were taken up with officers below division superintendent level," the report says. "Although appeal is provided for to superintendents, general superintendents, regional managers, and finally to a joint reviewing committee equally representative of management and employees, the number of cases carried to the general manager totaled 223 and those reaching the reviewing committee, 34."

"Of the controversial questions taken up originally or on appeal with the local officers, superintendents, general superintendents and general managers, almost half were adjusted or compromised in favor of employees. Of cases appealed to the reviewing committee, about half were decided in favor of the management.

Hard Men Will Mine Hard Coal Again Tomorrow

(By the Associated Press.)
Pittsburgh, Sept. 18.—The coal miners of the western part of Pennsylvania were expected to begin their strike tomorrow.

Rev. Harry W. Staver, pastor of the First Presbyterian church, left this afternoon for Manistique, where he will attend the meeting of the Lake Superior Presbytery which will begin its session in that city until Thursday night.

Same Old Price at County Fair

Several have called up The Mirror office, declaring that it had been reported that the admission this year to the Northern Michigan Fair was going to 75 cents. Secretary Kruse says while it may be worth that this year owing to the expense the society has been put to for free acts, there has been no thought of raising the admission price. Results will not be the same as heretofore, and children are going to slide by for 15 cents. There is no war tax on the tickets. Fairs are exempt from taxes of all kinds.

TUESDAY, SEPTEMBER 18, 1923

WHAT WAS WORTH FIGHTING FOR TO GET IS NOW WORTH FIGHTING TO KEEP.

League of nations advocates are now focusing their effort, it appears, upon distortion of the position of President Harding into one of favoring European entanglement for the United States. They are not deterred in their campaign of misrepresentation by the fact that President Harding stood more conspicuously for the policy of non-entanglement in European politics than for any other, owing to the turn taken by the campaign of 1920.

We are being told by male and female propagandists of more or less reputation for truth and veracity that President Harding privately told them that he was really for the league of nations and for European entanglement of one sort and another.

Against the statements and intimations of these propagandists the declarations of President Harding himself weigh decisively. President Harding declared that his proposal of a world court involved no purpose of involving the United States in the political entanglements of Europe, and that it represented no effort to get into the league of nations through the front door, side door, back door, cellar or attic. He declared in his St. Louis speech that he was willing to accept any reservations dissociating the world court from the league of nations.

The drive to sacrifice the prosperity and security of America in behalf of Europe continues. The European propagandists, both of the paid and the volunteer variety, are numerous and noisy. They are busily engaged in trying to control the pulpit, the platform, the school room, the publications, the labor organizations and the women's clubs.

The emissaries of this movement are at every national assemblage attempting to put over their pernicious propaganda. Genuine Americans should remain on guard against the quackeries of the traditional American policy of keeping first in mind the interests and safety of the American people. The result of the election of 1920 was worth fighting to get and it is worth fighting to keep.

THE FINAL EXAMINATION.

In his address before the State Medical Society at Grand Rapids, Senator Ferris suggested that doctors, lawyers and teachers ought to be subjected to an examination once in ten years for the purpose of "getting rid of the dead ones."

What is an idea deeply seated in human nature. The prairie tribes of American Indians when on the march used to hand a little food and a jar of water to those who were too aged to keep up with the people. It was a polite intimation to them that they were expected to remain behind and starve to death. In some of the South Sea islands, the outworn forefathers of the village were converted into part of the tribal food supply. In both cases, the old people recognized the propriety of the custom and submitted gracefully.

That was the problem which Senator Ferris raised, solved under conditions so simple and pressing that naked logic had a fair chance against sentiment, but the world has grown kinder, or at least conceals its hardness in these days, so that the examinations which he proposes would not come to anything even if they were carried out, except where provision is made for taking care of the "dead ones" after they are officially classified as such. For teachers, co-operative pension systems are already provided. The Carnegie foundation has distributed over \$9,000,000 in annuities and innumerable other funds are rendering similar service.

But for the greater part of society the "dead ones" are still eliminated by force of circumstances. Popular favor wanes, strength diminishes, and youth has its way. Happy is the "dead one" who has had foresight sufficient to anticipate examination day and prepare to be plucked without discomfort.

THE EIGHT-HOUR DAY WORKS.

The great business men who operate the United States Steel Corporation shook their heads ponderously and gravely. They kept on shaking their heads negatively for years. The country was bound to consider with respect and to accept with submissive alacrity such mighty shakings of the head as the steel magnates might grant.

The steel men said the great basic industry they managed could not be successfully operated without the 12-hour day. And that settled the matter. The public, from time to time, made suggestions that the 12-hour day be given up. But the steel men shook their heads.

The 12-hour day has been given up. The establishment of the 8-hour day as the regular schedule goes on steadily. And far from being a calamity to the great industry, it is turning out to be quite satisfactory. In fact the steel magnates themselves have approved wage increases which they find justified by the business results of the new policy.

Wages have been increased from 26 to 33 per cent. All of which goes to show that common sense of the general public is sometimes as capable of determining successful business policies as the most acute attention of great business mind directed only toward the financial balance sheets.

If Postmaster-General New can find out why the mails go wrong he will clear up a mystery that has been a puzzle since the foundation of the republic.

Marks are now 22,500,000 to the dollar. Figure out for yourself how much that hundred dollars worth you bought are worth.

The winner in the beauty contest at Atlantic City was a Missouri girl. The "show me" state will also show you some things.

Anyhow, the Rome government is finding out how popular its present foreign policy is with the world at large.

MICHIGAN SPUD CROP SHIPPED TO MANY STATES

Nearly 20,000 Carloads Have Been Forwarded This Season.

Michigan Potatoes Are Famous Throughout United States and Are Much in Demand.

(By the Associated Press) LANSING, Mich., Sept. 18.—Nine thousand five hundred and sixty carloads of potatoes were shipped from Michigan during the 1922-23 season, according to compilations just completed by R. H. Shoemaker of the United States Department of Agriculture, Bureau of Agricultural Economics, with the Michigan Department of Agriculture co-operating. The season covered is from July 1, 1922, to July 1, 1923.

Starting with July, 1922, when three carloads were shipped, there was an intermittent but rapid increase until the peak of potato shipments was reached in April, 1923. With 2909 carloads, October and November, 1922, were also months in which heavy shipments were made, 2600 carloads going out in October and 2177 the following month.

Counties from which largest shipments were made were: Montcalm, Oceana, Menominee, Mecosta, Manistee, Leelanau, Ionia, Isabella, Kalaska, Kent, Westford, Otsego, Oshtemo, Muskegon, Laport, Charlevoix, Antrim and Allegan. Sixty-five Michigan counties were represented in the potato shipments during the season, the report shows.

SHOOTS DRIVER FOR "HOGGING" ROAD, IS SAID

One Dead, One in Jail Result of Temper in Road Argument.

(By the Associated Press) RHINELANDER, Wis., Sept. 18.—Peter Morrison, 29, was shot and killed Sunday while motoring near Eagle River and George Marlowe, 39, of Rhineland, is locked up in jail here charged with the shooting.

Marlowe was riding in a side car of a motorcycle and it is alleged shot at Morrison's car when he started to crowd the motorcycle off the road. The full charge of shot from the gun struck Morrison in the head. Morrison was a widower and leaves one child.

Many Conventions Yet to Be Held in Michigan This Year

(By the Associated Press) DETROIT, Sept. 18.—Several state conventions are to be held in various Michigan cities before the end of the present year. Agricultural and business organizations are among those now making plans for their yearly state conventions.

A partial list of Michigan conventions follows:

Michigan Real Estate Association, at Grand Rapids, September 25-27.
Michigan State Council on Immigration Education, at Grand Rapids, September 27-28.

State convention of Kiwanis Clubs, at Kalamazoo, October 10-11.

Motion Picture Theatre Owners of Michigan, at Jackson, October 16-17.

Joint Conference of the Pleading Box Manufacturers' National Association and the Label Manufacturers' Association, at Kalamazoo, October 17-19.

Michigan State Grange, at Muskegon, October 22-26.

Michigan Good Roads Association, at East Lansing, November 6-8.

State Associations of Farmers' Clubs, at Lansing, December 4-5.

Wisconsin Prison Warden Resigns; Shake Up Is On

(By the Associated Press) MADISON, Wis., Sept. 18.—Further indications of the general shake-up in Wisconsin penal and industrial institutions by the state board of control came to light late Saturday when Warden R. M. Coles of the prison at Waupun, presented his resignation to the board to become effective today. The reason for the resignation, which is reported to have been requested, was withheld.

This is another of a series of dismissals and resignations that have followed control of the state board of control by appointees of the governor.

Young mussels attach themselves to gills of fishes as parasites until old enough to form shells, then begin an independent existence.

BROTHERHOOD OF ST. ANDREW DRAWS WORLD CHURCHMEN

(By the Associated Press) CHICAGO, Ill., Sept. 18.—Religious statesmen and educators from all parts of North America, as well as the foreign missionary field, have gathered here for the program of the International Convention of the Brotherhood of St. Andrew, which will be held at the University of Chicago, September 19 to 23.

The celebration at St. James church of the fortieth anniversary of the founding of the first chapter of this world-wide religious fraternity will be a feature of the convention. A five-day conference for boys enrolled in the junior department of the brotherhood also will be held.

The brotherhood was founded in 1883 by James L. Houghteling, a Bible class teacher, and subsequently became national and, later, international in scope. It includes organizations in the United States, England, Scotland, Ireland, Canada, Australia, New Zealand and the West Indies. The convention is expected to bring together the largest group of men and boys ever seen in the history of the Episcopal church for a like purpose.

Consecration of manhood in service is to be the theme of the conference. Edward H. Bonsall, of Philadelphia, president of the Brotherhood of St. Andrew in the United States; Dr. Nathaniel Butler, of the University of Chicago; the Rev. Sheldon M. Griswold, bishop suffragan of Chicago; the Hon. Franklin Spencer Edmonds, of Philadelphia, and the Very Rev. J. P. D. Lloyd, of Halifax, will make opening addresses.

Following a business session Friday morning a joint meeting of the Men's and Boys' conferences will take place and will be continued in the afternoon with an address on "The New Challenge of the Junior Brotherhood to the Men of the Church" by G. Frank Shelby, of Philadelphia, general secretary of the national brotherhood.

How to introduce family prayer into the home will be the theme of the Saturday program which will be intro-

duced by Warren Hires Turner, of Philadelphia, national treasurer of the brotherhood, and will continue in what has been described as the most impressive general conference of the convention. It will have for its topic, "How to Secure the Best Young Men for Officers in the Church Army."

At a unique service Saturday afternoon at Houghteling Memorial chapel, erected on the site of the room where the first chapter of the brotherhood was founded, speakers will include Dr. John W. Wood, executive secretary of the foreign work of the department of missions; George Anthony King, president of the Brotherhood in England, and the Rev. Floyd W. Tompkins, rector of Holy Trinity church, Philadelphia.

Three noted figures in the work of the Episcopal church will speak at the concluding conference of the convention Sunday afternoon, at which time the topic will be, "Christian Citizenship." Leaders will be the Rev. L. Ralph Sherman, of Toronto; Herbert S. Houston, of New York, and the Rev. Thomas P. Gallor, president of the National Bishop and Council.

\$10,000 WILL BUY ISLAND AND A BRACE OF TITLES

CAGLIARI, Sardinia, Sept. 18.—Why marry a worthless prince when you can buy an island principally together with the title, and bestow them on a husband of your own choice? is the argument an enterprising Sardinian realtor has used in trying to sell a Mediterranean island to an American woman.

The woman was not in the market for a title, either with or without a prince, but she promised to mention the alluring prospect to some of her friends, and thus extracted further information about the property from the enterprising real estate man. He withheld the name, but assured her the island is well located and is highly desirable both as a summer and winter residence. It has an old castle which is in need of repair, several hundred acres of vineyard and farmland badly in need of modernization, and two villages, also badly in need of repair, with about 500 inhabitants.

The entire property is offered for \$10,000, the princely name included, with a guarantee that the present holder of the title will legally sanction its transfer.

Best American matting is made from sough grass which grows wild in the plains of Minnesota and Wisconsin.

The Navaho Indian tribe is the only one of America that has increased in numbers.

CHIEF JOHNSON IS URGING PUBLIC TO CLEAN UP PREMISES

Gives Good Advice as to Preventing Fires When Heating Season Starts; Clean Up Generally.

Chief Johnson of Escanaba fire department has issued a seasonal warning to residents and property owners of the city and solicited the cooperation of all in a campaign to prevent fires by removing rubbish and also by cleaning of chimneys, furnaces and stoves which will be placed in use as soon as cool weather comes.

The statement addressed to the residents and property owners of this city and community is as follows:

"I wish your cooperation in trying to reduce the great fire waste of this country by taking your part as a good citizen or resident.

"The season for heating your homes is near. Your chimneys should be cleaned and repaired; your heating apparatus should be thoroughly cleaned and put in order so that you may be reasonably safe from fire during the coming winter.

"Also remove all fire hazards possible around your premises and keep your fire department by reporting in confidence any hazard that you may notice around the city, as by so doing, you may be the means of saving life and property. Owing to the conditions resulting from the use of green wood, which has a tendency to create soot and clog chimneys, which will increase the number of chimney fires unless said chimneys are cared for in the proper manner. This means a regular cleaning and inspection during the winter months. It is up to you, Mr. Homeowner."

Chief Johnson also called attention to the debris in many yards and alleys which, while not a fire hazard, makes fire fighting more difficult and is unsightly. He pointed out that in many yards, old automobile bodies can be found and other articles which make more difficult the work of fire men in reaching fires. Both the electrical and sanitary inspectors of the city are working with the fire department in having unsightly and unsanitary rubbish removed from premises, the owners of which have thoughtlessly permitted the collection to remain until their attention has been called to the hazard it presents.

Local Couple Did Not Put It Over On Their Friends

Miss Ruth Abrahamson was united in marriage this morning to Hugo Lilquist. The ceremony was performed at the Presbyterian manse by Rev. Harry W. Staver at 11 o'clock. The young couple were trying to keep the wedding a secret, but like most secrets it did not keep.

Mr. Lilquist is employed by the municipal utilities in the electrical department and is well liked by the rest of the fellows, who did not think it quite proper to let him get married without some demonstration. A careful watch was kept on his movement and after the wedding, he was much surprised to look out of the window of the manse and see two or three trucks and a couple of light service wagons from the department where he works.

A big truck was even hitched to his coupe, which he had left standing in front of the manse. Thinking he and Mrs. Lilquist might even then "beat the game," they sought to escape through the rear door, but were confronted by three husky young men in overalls, who informed them that the front door was the way out. It was a real demonstration, a loud and noisy one, that Mr. and Mrs. Lilquist will remember for a long time.

PLANE SETS NEW MARK OF 259 MILES AN HOUR

(By the Associated Press) MITCHELL FIELD, N. Y., Sept. 18. In a speed test in a Wright navy plane yesterday, Lieut. I. H. Sanderson reported he had reached 259 miles an hour. This is the fastest any human being ever has traveled.

U. S. HOMESTEAD 'SNAPS' VANISH

"Going West" Means "Hard Work Hereafter," Says Secretary Work.

(By the Associated Press) WASHINGTON, Sept. 18.—This was a red letter day in the history of the United States.

It marked the official dissolution of the aura of romance that for more than half a century has surrounded the homesteading of public land and the conquest of the sun in the far west.

Not Much to Offer. If young and ambitious Americans, and especially especially men, still want to follow the advice of Horace Greeley to "go west," the federal government stands ready to help them all it can but it hasn't much to offer any more.

Secretary of the Interior Work, who is charged with the administration of the public domain, rang down the curtain last night on the romance of the old west.

For the benefit of ex-service men in particular, he made it plain in a formal statement that it is extremely unlikely that there are any more fortunes to be wringed from public lands and that any one who undertakes to establish a homestead there will have hardships aplenty.

Answering the question "Is the value of the public lands being thrown open to ex-service men worth homesteading?" Secretary Work said:

U. S. Most Liberal of All. "No government in the history of the world has been as generous in the distribution of its national territory to its citizens as the United States."

The result has been that the size of the public domain has been reduced from 1,142,200,328 acres to 183,932,212 acres, the decrease during the past ten years being approximately 1/4 of the rate of 10,000,000 acres a year.

It is from this remaining 183,932,212 acres that the government at the present is throwing open from time to time large and small parcels of lands with the preference right of entry to the ex-service men of the World War.

After pointing out all the difficulties in connection with securing a title to public lands, Work declared:

"It must be remembered that we have no longer in our public domain any fertile prairie lands open to entry; that the homestead of today of fertile land is a thing of the past, and that he is confronted with adverse conditions at the outset; but there is no reason why, with equal thrift and industry, a large portion of these western lands will not ultimately make as good a return as similar lands did in New York, Pennsylvania and Ohio."

LEGAL OBSTACLES TO CITY POWER PLANT OVERCOME

SAN FRANCISCO, Cal., Sept. 18.—Two ordinances, designed to overcome legal obstacles in the acquiring by this city of a municipally owned and operated electrical power distribution plant, were presented yesterday to the board of supervisors. Power is to be secured from the Hetch Hetchy plant in the Sierra Mountains.

The move is being bitterly fought by representatives of the larger power corporations in this district.

SOCIETY

Mr. and Mrs. Lacrosse Surprised. Mr. and Mrs. August Lacrosse were delightfully surprised by a number of their friends at the home of their son, Herbert, 1011 First avenue south, last evening, the occasion being their thirtieth wedding anniversary. Five hundred was the diversion of the evening and the first prize was awarded to Mrs. John O'Donnell and Mr. Bert Henderson. The consolation prizes were awarded to John O'Donnell and Mrs. Dewey Davis. Mr. and Mrs. Lacrosse were presented with a beautiful dinner set. A delicious luncheon was served the guests.

R. C. Hathaway Dies. The regular meeting of the R. C. Hathaway Chapter No. 490 E. S. will be held at the Masonic Temple Tues-

Legion Billet Dance

Cleveland Post of the American Legion will give a dance at Terrace Gardens Thursday night. The proceeds to be turned over to the Michigan American Legion Children's Billet at Otter Lake, where orphaned children of Michigan soldiers are being given a home. A large attendance is expected.

Ladies' Aid to Meet

The Ladies' Aid Society of the First M. E. church will hold a regular meeting in the church parlors Wednesday afternoon at 3 o'clock. The following menu will be served at the Harvest Home Supper Wednesday, Sept. 26: Baked Ham, Creamed Potatoes, Mashed Turnips, Combination Salad, Jelly, Pie, Coffee.

FOOTBALL LOOMS LARGE UPON HIGH SCHOOL HORIZON

Activities in High School Athletics Seem to Be More Intense Than at Any Other Time.

The football season at the High school promises to be the best that the school has seen for many years. Considerable expense has been incurred in securing the two new coaches, Thompson of Danville, Ill., and Hills of Escanaba; and in securing new equipment to furnish the larger number of men out for practice each year. With the sale of season tickets, which goes on this week, there is an air of expectancy in the student body which is very noticeable.

The first game of the season is Saturday with Neeshbery here. This game is a test game from the coaches' point of view.

"I have nothing to say about our expectations or about the individual players, until after the first game. Then I shall have a lot to say, both to the players and to others," said Coach Thompson yesterday.

Every night there are two full teams backing each other on the field, and there are plenty of extras on the sidelines "hoping."

According to the new arrangement in the school system, the football men are excused from the building during the last period and attendance is taken on the field the same as though they were in class, and credit is given.

YOUNG MAN

Tragic Death Young Menominee Woman

(Continued from Page One)

custom, was on her way to Marquette Saturday evening when the fatal accident occurred. The young woman had crossed Ogden avenue at the Harkhausen oil station and Miss Wright, slightly in advance, seeing the machine turning off of Bridge street onto Ogden avenue, had turned to place a warning hand on Miss Lemieux, who was in the path of the machine. To her horror she found upon turning about that her companion was not there, and turning her gaze down Ogden avenue in the direction in which the machine had gone she saw Miss Lemieux's body being dragged by the machine which proceeded uninterruptedly on its way while the lifeless body of the young woman dropped clear of the car about a hundred feet from the point of the accident near the railroad tracks.

"An eye-witness of the fatal accident rushed out into the street and picked up the young woman, who was rushed to the St. Joseph's hospital, but to no avail, as the hurts she received proved fatal and she was dead when taken into the hospital.

Car Gives Chase. "In the meantime, a car, which had been standing at the filling station was dispatched to halt the driver of the machine, which had struck the unfortunate young woman, and Fenski, who had proceeded on his way, entirely ignorant of the killing, according to his own statement, was stopped and taken into custody by Deputy Prosser, who took him to police headquarters.

Fenski, who had been returning to Escanaba from Suanica with his aged parents, was driving an Essex coach and had as a passenger Levi M. Keys, of Escanaba. Fenski was held in the county jail Saturday night charged with negligent homicide, and released yesterday upon furnishing bail in the sum of \$5,000.

The preliminary examination is set for a week from Tuesday to be held before Judge George Barlow in municipal court. A search warrant has been issued, which will require a preliminary examination. It has not been determined whether or not a coroner's inquest will also be held.

DYE YOUR SHOES

No matter what the color may be, we can dye your shoes to the correct winter shades. Prices, 25c, 35c and 50c

LOUIE'S PLACE 916 Ludington St.

Escanaba Lodge No. 98 REGULAR MEETINGS EVERY WEDNESDAY EVENING, 8 O'CLOCK

stopped and notified that the young woman had been killed. Miss Wright states that Miss Lemieux uttered only a faint sound when the automobile struck her. It is believed that she was rendered unconscious immediately.

Fenski Surprised

"Several persons near the scene of the accident at the time of its occurrence reported to have heard screams as the young woman was struck by the machine, but Fenski, who was in an enclosed car, claims to have heard nothing or seen nothing and to have been entirely unaware of the fatal occurrence until the time he was

stopped and notified that the young woman had been killed. Miss Wright states that Miss Lemieux uttered only a faint sound when the automobile struck her. It is believed that she was rendered unconscious immediately.

Just in what manner her body was dragged by her clothing. It is possible that the wheels of the auto may have passed over her body, but that is not substantiated. It is thought that she was injured internally, which is also believed to have caused her death.

The only body bruises were one on each temple and a skin bruise on one arm.

Graduated in 1914

"The deceased graduated from the Menominee high school with the class of 1914 and since that time, with the exception of one year spent in Washington, D. C., during the World War, she has been employed as a stenographer in the lumber office of the S. B. Sanderson & Company.

The immediate survivors of the deceased are: Her mother, Mrs. Mary Lemieux; her brothers, Albert, Frank and George, all of this city; and one sister, Mrs. C. L. Johnson, of Chicago.

The widowed mother of Miss Lemieux was notified a few minutes after the accident and when told that her daughter had died, was nearly prostrate with grief."

THE FAIR SAVINGS BANK

Where Good Values in Good Merchandise Come From

All readers of this 'ad' are invited to attend our GREAT ANNUAL SEPTEMBER

FALL HARVEST SALE

Now In Full Swing at this Store

Merchandise of every description, offered at prices that you all will admit are exceptionally low—quality considered. True to its name, this is "Harvest Time"—a Harvest Time to those who avail themselves of opportunities presented by "Escanaba's Big Store"—to save money on choicest and most dependable kind of Winter Merchandise. A Real Harvest Opportunity—one we are sure you will all appreciate.

A cordial invitation is extended to people living in this territory—a few minutes' to a few hours' ride by auto or train—to attend this Big Sale and share with townspeople in Better Values now being offered. Every need of the whole family can be quickly and gratifyingly selected from the most complete stock in the whole Upper Peninsula of Michigan.

We want you to visit our store without fail; want you to acquaint yourself with the advantages of trading at this store—the character of its merchandise, the low prices, the service, etc.

Watch This Paper for Additional News of This Great Merchandising Event.

FAIR VISITORS

Come and share with people living in Escanaba, the Better Values in Fall and Winter Merchandise now being offered.

Visit the Fair Savings Bank's display booth in the Exhibition building—see the special displays, and get information about the many special Northern State Fair features.

MANY TO ATTEND O'MEARA FUNERAL AT MARQUETTE

Was Well Known in Masonry Over State; Many Escanabans Plan to Attend Funeral.

The funeral of the late J. M. O'Meara, whose sudden death occurred late yesterday afternoon, will be held in Marquette tomorrow afternoon at 2:30. Many local friends are planning to go to Marquette either by early train or by automobile to attend the services. The Marquette Mining Journal has the following account of the death:

"A stroke of paralysis early Saturday night brought death yesterday afternoon at 2 o'clock to John H. O'Meara, city auditor and purchasing agent, a resident of Marquette fifty-four years and one of the most prominent Masons in the Upper Peninsula.

Although Mr. O'Meara's health had been failing during the last year, he was in good spirits Saturday. In the evening without warning, he was stricken suddenly while sitting in a chair in his home, 1117 North Front street, a short time after time after he had returned from Presque Isle with Mrs. O'Meara. The stroke left him unconscious, in which condition he remained until his death.

Born in Wales. Mr. O'Meara was born in Swatara, Wales fifty-seven years ago and came to Marquette with his family when he was three years old, making his home here continuously since that time, with the exception of one year which he spent in Duluth.

For many years he was in the employ of the Duluth, Superior and Atlantic railroad. His first railroad position was that of conductor in Ashdew, Wisconsin, and later in Duluth. He remained in the employ of that road until it became the D. S. & A. and continued in the service of the latter until 1919. He was city auditor in Marquette several years, leaving that post to become assistant cashier in the treasury of the city. For he was in the latter position for several accounts in the same office, which position he held until his appointment as city auditor and chief checking agent.

He took his municipal post July 1, 1920, succeeding Joseph J. Anderson. He was an able economist and his long experience in railroad work was reflected in the efficiency which marked his service in the city hall.

A leader in Masonry. For many years Mr. O'Meara was an active leader in Masonic circles. He was a member of all branches of the order and had held the highest offices in most of them. The progress of Masonry in this community being aided materially by his efforts in its behalf. He was a past worship master of Marquette lodge No. 101, F. and A. M., past high priest of Marquette chapter No. 47, A. O. U. W., past and present commander of the 148th Signal company, No. 28, Knights of the pillar, second lieutenant commander of Francis M. Moore company, and recorder of Almond Temple, Nobles of the Mystic Shrine.

He leaves his wife, two daughters, Mrs. Howard Reed of Alpena, and Miss Olive, and one son, Perry, who is a professor in the Michigan Agricultural college.

OBITUARY

MRS. MARY KORTEN.

By the death of Mrs. Mary Kortten, aged 87, at her home, 908 First avenue, south, last evening at about 6:30, Escanaba lost not only one of its oldest residents, but a woman who was loved by all who knew her for her gentleness and willingness to meet any situation with a kindly heart and readiness to help. Her health has kept her from many activities for several years, but she raised a large family of children who have made her last years happy and of whom she was justly proud. Although she was born in Ireland she came to America when she was a child and has spent the greater part of her life in Escanaba. The following children survive: Walter Kortten, Marquette; John Kortten, Foster City; Matt Sullivan of Escanaba, and twenty-two grandchildren and three great grandchildren. Edward Hendricks of South Pekin, Ill., is a son-in-law.

The body was removed to the Alto Funeral Home and this afternoon returned to the family home where the deceased had spent so many years of her life. Up to a late hour this afternoon no definite funeral arrangements had been made, but it was thought unlikely that the services would be held tomorrow morning.

MRS. MARY E. CALHOON.

Aged 88, has been removed here from the death of Oshkosh, Wis., of Mrs. Mary E. Calhoon, 75 W. 11th, at the home of her son, on September 5. Mr. and Mrs. Calhoon who have been making their home with their daughter, Mrs. J. E. King of Wells, left Escanaba several weeks ago to visit with

relatives at different points in Wisconsin. While visiting at the home of their son, Mrs. Calhoon became critically ill and passed away on Sept. 5. Mrs. Calhoon had resided at Wells for some time and was known and beloved by a large number of people. Funeral services were conducted over the body at Oshkosh and interment was in the family lot of the cemetery in that city. Mrs. Calhoon was born at Coubers, Ont., on May 8, 1835. She came to the United States in 1858 with her parents, locating first at DeKalb, Ill. She was married to Mr. Calhoon, Dec. 9, 1865, immediately after his return from participation in the Civil war. Mrs. Calhoon is survived by her husband, four sons and one daughter. The surviving sons and daughter are: A. H. Calhoon of Montana; David Calhoon, Oshkosh, Wis.; John C. Calhoon, Jr., Green Bay; A. O. Calhoon, Wells, and Mrs. James E. King of Wells.

Miss Maxie Langlois is ill with influenza at her home on South Tenth street.

GERMAN ART THIEVES BUSY; STEAL VALUABLE PICTURES

MUNICH, Sept. 18.—Burglars recently rifled the villa of the late Franz von Lenbach, painter of the well-known Bismark pictures who has been dead for 20 years, and stole a number of valuable masterpieces. These included a picture of Franz Hals called "The Laughing Boys," two pictures by Teniers, an original sketch by Rubens, and a number of paintings by Lucas Cranach and other celebrated artists.

A fleet crossing a wide ocean from its home base must of necessity lose from a quarter to a third of its fighting value, naval experts have claimed.

DR. OLIN SENDS WARNING ABOUT THROAT TROUBLE

The State Health Department Wants More Care Used by People Who Have Sore Throats.

LANSING, Sept. 18.—Every sore throat should have a doctor and a bacteriological examination. Throat cultures may be taken with swabs furnished by the State Department of Health or by local health officers. Ask your physician for a laboratory examination and we can gauge diphtheria prevalence accordingly. Thus spoke Dr. R. M. Olin, state health commissioner, when asked about the diphtheria situation in Michigan.

Throat cultures are showing the same degree of diphtheria incidence existent all summer, an unusually high degree. This evidence assumed as children now are back in school and group concentration is an excellent means of spreading communicable diseases. Ten days distant, incidence is likely to take a more serious turn, according to Dr. Olin.

During the last two years, 100,000 throat cultures were examined at the state laboratories and 20 per cent of 20,000 cases diagnosed as septic sore throat were found to be incipient diphtheria. Many cases of scarlet fever, likewise found to be light diphtheria. Today the mild diph-

theria runs much higher and this bodes for evil results as diphtheria virulence builds itself up in passing from person to person. Stop the killer now by finding out who's who with swabs, diphtheretically speaking. Then follow up with immunization. There lies public safety!

Assistant P. M. G. Is Injured in Auto Wreck at Capital

WASHINGTON, Sept. 18.—John J. Bartlett, first assistant postmaster general, and former governor of New Hampshire, was taken to a hospital today because of injuries received when his automobile was struck by a street car. Though he was cut about the head and face, the surgeons said his injuries were not serious. The automobile was wrecked and the chauffeur also injured.

Aliens Saw Their Way Out of Jail

CROOKSTON, Minn., Sept. 18.—Nine aliens being held in the county jail for deportation, escaped early today by unlocking the cage door from the inside and leaving the jail through a window, the bars of which had been sawed. A general alarm has been sent out. The men are believed to have left the city on an early morning train.

FOR RENT—Three newly furnished rooms for rent, water and lights. Inquire—417 South 10th St.
