DESPONDENT OVER GIRL'S DEATH; SUICIDES

MENOMINEE MAN FOUND DEAD ON FLOOR OF SHOP

Alleged to Have Been Engaged to Miss Lemieux. Leaves Pathetic Note, Telling Friends There Is Nothing Left in Life for Him.

Brooding over the tragic death of Miss Belle Lemieux, who was instantly killed in Menominee last Saturday, when she was struck by an automobile driven by an Escanaba man, Otto V. Liska, 27, of that city, committed suicide this morning by shooting himself through the heart.

Liska owns a tire repair shop in Menominee and since the death of Miss Lemieux, has remained away from his shop and told his friends that he was not able to get his mind on the work. It is said that he and the girl had been keeping company and it was not known whether or not they were engaged.

Early this morning, it is reported, Liska opened his place of business and several persons noticed him about the shop. About 8 o'clock a customer entered the shop and discovered Liska lying upon the floor, a bullet wound in his heart. A revolver was lying nearby, where it had probably fallen after the shot was fired. There was no mystery as to the cause of his death for he left a note reading as follows:

"When all you care for in life is taken away, when your future drops out, then who can condemn me if I wish to leave this earth?"

FAIR OFFICIALS AFTER NEW IDEAS

Marquette Men Come to Escanaba to See What Delta County Has to Offer This Year.

The Marquette Mining Journal has the following regarding the opinion that officers have of the annual Delta county fair:

"H. E. Perkins, president of the Marquette County Agricultural Society, John T. McNamara, secretary-manager of the Marquette county fair, and other fair officials went to Escanaba yesterday to attend the Delta county fair with a view to getting new plans for promoting the fair here next year.

Olle I Skratthult Coming to Delft

Again the Swedish people of Escanaba are going to be able to witness a real Swedish company of actors, who will appear at the Delft theatre on the evening of September 27, with a full company of twelve actors.

"Lars Anders, Jan Anders and Their Children," a true-to-life portrayal of the peasant types. And although it is no respect exaggeration or overdoes this portrayal, yet it more largely provoking comedy was never written. It abounds in the most genuine and yet extremely funny situations and sayings. It concerns the good and quarrels between two "hard-billed" farmers, the famous fist fight in the house of Lars Anders, the secret love of Lena and Karl Johan, daughter and son respectively of Lars Anders and Jan Anders.

THE WEATHER

For Escanaba and vicinity—Partly cloudy tonight and Saturday; warmer tonight; moderate northerly winds becoming variable Saturday.

Dissolution of House of David Sought in Suit

GRAND RAPIDS, Mich., Sept. 21.—Dissolution of the House of David Colony at Benton Harbor, Mich., and appointment of a receiver of the colony's numerous properties are asked in a suit filed in United States court here today by Mrs. Estella A. Meldrim, for twenty years a member of the cult.

LEGISLATORS GETTING SET IN OKLAHOMA

"Klan Shall Not Mask in Oklahoma State," Says Walton.

Enemies Are Ready to Start Impeachment Proceedings Next Wednesday; May Jail Them.

(By the Associated Press) OKLAHOMA CITY, Okla., Sept. 21.—Legislators seeking the official head of Governor J. C. Walton marched on today in their plans for impeachment while the executive gathered strength for a final drive on the Ku Klux Klan which he blames for the storm that opened about his head.

SHIPPING BOARD MAKES NEW PLANS FOR U. S. SHIPS

(By the Associated Press) WASHINGTON, Sept. 21.—A new plan of operation of the government merchant fleet to take the place of the declared illegal by Attorney Daugherty already has been evolved by the shipping board. It will be shipped into shape without delay for presentation to President Coolidge and his legal advisers.

(By the Associated Press) WASHINGTON, Sept. 21.—A new plan of operation of the government merchant fleet to take the place of the declared illegal by Attorney Daugherty already has been evolved by the shipping board.

License Plates Will Be Available Soon

Automobile license plates are being delivered to the offices of county clerks and treasurers in Michigan by the officials of Jackson prison, where the plates are made.

The 1923 plates are yellow with black numerals and letters. They are considerably larger than Michigan plates have been in past years, being five and one-half inches high and fifteen and one-half inches long.

THE WEATHER For Escanaba and vicinity—Partly cloudy tonight and Saturday; warmer tonight; moderate northerly winds becoming variable Saturday.

Government Experimenters Are Killed in Blast

GIGANTIC THEFT OF WHISKEY IS DISCOVERED IN ST. LOUIS BY FEDERAL PROHIBITION MEN

Water Was Substituted for Whisky in Bonded Warehouse. No Knowledge of Where the 893 Barrels of Whisky Had Gone; Officers Guard Water.

(By the Associated Press) ST. LOUIS, Mo., Sept. 21.—What is described as one of the most gigantic whisky thefts since national prohibition became effective, has been discovered by federal prohibition agents who announced 893 barrels of whisky had disappeared from the bonded warehouse of the Jack Daniels distillery.

The warehouse today was under guard of internal revenue agents and a squad of policemen following the discovery last night by Collector Hellmich, last night, on orders from Washington.

TWO VESSELS THOUGHT LOST IN BIG STORM

Coast Guard Ship Goes Out in Search of them as Sea Subsides. Both Laden With Fruit and Overdue at Milwaukee this Morning; Storm Worst in Years.

(By the Associated Press) MILWAUKEE, Wis., Sept. 21.—A lake coast guard cutter and crew stationed here are searching Lake Michigan today in the hope of finding news of two freight boats reported missing. Hope of the safe arrival of the boat, Perry, carrying a crew of ten, which cleared from St. Joseph for Milwaukee Wednesday has been virtually abandoned.

(By the Associated Press) GRAND RAPIDS, Mich., Sept. 21.—Harlow Smith, 28, made the tactical mistake of trying to set up a love nest in the Grand Rapids Y. M. C. A. and as a result is under arrest, while Mrs. Stensel, 16, of Detroit, the object of his affection, is detained temporarily. Employees of Y. M. C. A. discovered the girl hidden in a closet.

Snake in Tobacco Gets Verdict For Man of \$1,500

COLUMBIA, Miss., Sept. 21.—A jury in circuit court here yesterday awarded judgment of \$1,500 to C. F. Lofton of Marion county, against a North Carolina tobacco company. Lofton testified that last March he bought a plug of chewing tobacco from a dealer and on taking a chew of it, detected a disagreeable taste and soon became nauseated. The second and third chew was taken with like results.

THE WEATHER For Escanaba and vicinity—Partly cloudy tonight and Saturday; warmer tonight; moderate northerly winds becoming variable Saturday.

LAST DAY OF COUNTY FAIR FAVORED BY FAIR WEATHER

Children Have Lots of Fun and Crowd the Grounds. Races Yesterday Resulted in No Decision in Six Heats; Attendance Not Up to Record.

If Secretary Oscar Kraus had been permitted to order just the particular kind of weather, he would not have received anything better for a good attendance at the Northern States fair, that was handed on this morning by the late weather man. The sun came up bright and early and did not go down until it was ready to retire for the night.

Schools were closed and the youngsters hurried to the grounds, so that they would have a good long day and have a chance to see every track and corner enclosed in the big arena surrounded by the high fence. Of course, the merry program was affected with the smaller contingent, but the older ones took a chance on the Ferris wheel, believing they get more for their money.

Last night, the day night on which the fair was open to the public, a large number gathered to listen to the band about and around about the concessions, seeking to become the winners of the various amusements and games at very little cost.

(By the Associated Press) NEW ORLEANS, La., Sept. 21.—All branches of the marine transport workers of the I. W. W. throughout the country were taking a strike vote today to determine whether they should join the New Orleans branch in a sympathetic strike with the 2,000 longshoremen who walked out last week.

W. W. Taking a Strike Vote on Marine Workers

(By the Associated Press) GRAND RAPIDS, Mich., Sept. 21.—Arthur Hillman, the magnificent long hair, yesterday afternoon thrilled one of the biggest crowds ever gathered at a race track in Delta county, when he paced alone in an exhibition mile in 2:16. As on the day of his first appearance the loan power, started and stopped without trouble to his owner and maintained a fast and even pace for the entire mile.

(By the Associated Press) WHITE PLAINS, N. Y., Sept. 21.—A complaint charging there was a blackmail plot directed against George S. Ward, father of Walter Ward, who is on trial charged with the murder of Clarence Peters, today was introduced as evidence by the deputy attorney general. The complaint was made by James J. Cunningham, the man who once told the sheriff that he knew all about the details of the blackmail story.

(By the Associated Press) LINCOLN, Neb., Sept. 21.—It was announced at the office of the attorney general of Nebraska today that Attorney General O. F. Spillman would call a national conference of all the attorney generals at the Old Colony Club in Chicago, October 15, 16 and 17, to investigate the national gasoline situation.

THE WEATHER For Escanaba and vicinity—Partly cloudy tonight and Saturday; warmer tonight; moderate northerly winds becoming variable Saturday.

HAD FOUND WAY TO A SAVING OF MUCH GASOLINE

Charts Were About Ready to Give to the Public. Five Hundred Million Gallons of Gasoline a Year Would Result from Experiments.

(By the Associated Press) Washington, Sept. 21.—The three bureau of standard experts who lost their lives in a laboratory explosion yesterday and the six who were injured had just completed experiments which are expected to save five hundred million gallons of gasoline a year.

EIGHT MILES OF PIPE ARE LAID IN CITY IN 1923

Much Money Has Been Spent Where You Can't See It. Escanaba Has Extended Service to a Large Number of Residents; Much Street Work Done.

The year of 1923 has been one of great activity in underground work in Escanaba and a little more than eight miles of pipe have been laid under different parts of the city to give added convenience to the residents, as well as added income to the utilities.

New Development in the Ward Trial Is Brought About

(By the Associated Press) INDIANAPOLIS, Ind., Sept. 21.—The number of printers receiving strike benefits in the struggle of the International Typographical Union for the 44-hour week decreased in the month of August from 2,000 to 2,108, according to the monthly report prepared at headquarters of the union here. In the twenty-eight months of the strike's duration the union has collected \$15,510,503.81 in strike dues and has expended \$14,673,565.58.

(By the Associated Press) BUCHAREST, Rumania, Sept. 21.—Complaints of the handling of foreign mail in this country, particularly that coming from the United States, have resulted in action being taken by the International Postal Union. Unless there is improvement, the union says, Rumania may have to withdraw.

THE WEATHER For Escanaba and vicinity—Partly cloudy tonight and Saturday; warmer tonight; moderate northerly winds becoming variable Saturday.

OPEN EVENINGS AND SUNDAYS

FASHION NOW CALLS FOR FLARING SKIRTS AND PAINTED FACES

LONDON, Sept. 20.—Smartly dressed women of the future must wear "flared" skirts, modified leg-of-mutton sleeves, well-defined waistlines, and must make up in "doll" fashion, according to London fashion experts. The "doll" make-up consists of a dash of red high on each cheekbone, and another dash in the middle of the forehead. This gives the fair wearer the appearance of a Dutch doll.

Start of the coming season, the London fashion judges has decided shall be so made that when the wearer walks the skirt will fall out like a ball of yarn, but when she stands in repose her draperies will unfold her as in a sheet. The ultralong skirts, so much in vogue during the last season, will be abandoned. The new circular "dip" skirts are shorter than those of last year.

With the return of the flare to the dress, the waistline so long ignored by fashion designers itself, and the effect produced by skirt draperies that flare is further accentuated by the tendency of the upper part of the dress, the blouse or corsage, to pouch slightly over the waist.

The leg-of-mutton sleeve, an old style in which the upper part is large and the wrist close fitting, has been brought back by some London dress-makers, and another effort to popularize the high collar is being made.

Olive green will be the predominant color this winter, say the fashion mentors, with an autumnal shade of brown as second favorite. Some dress-makers incline to soft Persian reds and vivid hues. Extraordinary embroideries, landscape, zoological, and carpet, according to choice, will, however, lighten up the browns and other more or less neutral colorings. An ornamental pond with swans and water-lilies and a background of rushes and trees, all worked in natural coloring, is not considered too flamboyant a decoration for some gowns.

Among the hats, big picture shapes, close-fitting toques, little Breton and tam-o-shanter shapes are among the most popular for the coming season. All hats will be worn well down on the head. The fashionable colors will

be brown, chestnut and Havana. Only trimmings are bright.

The new autumn and winter hats are made of moire, satin, panne, velvet, crepe satin, and felt. They may be trimmed with ribbon, feathers, or rich tips, long ostrich plumes, or cock's feathers that sweep the neck.

There will be much black millinery, heightened by trimmings of silver, gold and gay colors, but trimmings will not be overdone. Neatness is a foremost quality of modern millinery, but it may develop into hardness, and then a veil of swirl of tulle, velvet or soft satin is a desirable corrective. Hats will not be tight.

CAVALRY TO CONCENTRATE IN TEXAS FOR MANEUVERS

EL PASO, Texas, Sept. 20.—The First Cavalry Division, the only regular cavalry division organized and functioning in the United States, is to be concentrated at Marfa, Texas, September 23 for maneuvers under command of Major General Robert L. Hazen. The division is regularly stationed at Fort Bliss, Arizona, and Fort Clark, Texas.

Maneuvers will start the day after the division is concentrated at Marfa and will extend to October 3, including a march to the Rio Grande. The maneuvers will be followed by a six-week review at Fort Bliss, Texas, to be completed by October 15.

Many prominent military and civil officers have been asked to attend. The visitors are expected to include the secretaries of War and Navy, General Pershing, General Hines, Chief of Cavalry, General Hanson, G. K. Cunningham of the War College, General H. H. Arnold, a member of the War College staff, General Edward L. King, superintendent of the cavalry school at Fort Riley, Kansas; all commanding officers of cavalry regiments in the army, and other men of prominence.

PARKS RETURN BIG REVENUE

OTTAWA, Ont., Sept. 20.—Canada's national parks will return a revenue to the Dominion in excess of \$30,000,000 in 1923, according to estimates compiled by the Dominion Parks Commission.

The volume of tourist traffic to the parks has been unusually heavy this year. The number of visitors is expected to total nearly 2,000,000 before the end of the season.

The rarest postage stamp in the world is the one-cent British Gohana, 1856, which was recently sold to an American collector for \$38,000.

New Invention May Help to Steady Gun Platforms on Ships

CHATHAM, England, Sept. 21.—Important experiments are being made here with a gyroscopic instrument designed to abolish the rolling of warships. The apparatus, for which great things are claimed by the inventor, has been fitted to a ship in the Chatham dockyard, and a novel method has been employed during the preliminary tests. Platforms have been constructed enabling parties of men to run on and off the ship, which lies moored in one of the basins. In this way artificial rolling is set up for, as every nautical man knows, a vessel is surprisingly sensitive to the movement of a number of people from one side to the other.

Thorough tests are to be made with the gyroscope at sea. It is generally agreed that if the invention proves a success it will have an almost revolutionary effect on naval warfare, because of the greatest difficulties which the naval gunner has to encounter at present is the continual rolling of the ship.

By the introduction of large bilge keels and other improvements in design, naval architects have been able to reduce the rolling very considerably during the last few years, but many difficulties still present themselves. The modern battleship is so enormously heavy that, once she starts rolling, a long time elapses before she recovers her normal balance.

Americans Lead Race for Kamchatka Trade

VLADIVOSTOK, Siberia, Sept. 21.—With the exception of the Hudson Bay company, which under its agreement with the Soviet government is exporting the fur trade of Kamchatka, the resources of the peninsula are being developed by American and Japanese capital. The former is engaged in buying furs, whaling and seal hunting, while the Japanese are chiefly interested in the fisheries.

The trade which the Americans have captured was formerly the monopoly of Chinese and Russian companies, but the revolution having embittered them, they called in American capital, which is not affected by the rigorous regulations and heavy taxation of the Soviet.

Cut off from the world, Kamchatka quickly came under the control of the rich and energetic Americans. They created a good effect on the people and quickly came into close relations with them. The English language is heard in the furthest corners of the peninsula, and the Eskimo understands English but has no knowledge of Russian, of which country he even has a hazy idea. Working in the Amur-Chishotka district are the representatives of the larger firms of America. The whaling trade has not a single Russian ship engaged in it, and the government never exploited it while the Americans made half a million dollars a season out of it.

U. S. SENATOR COUZENS IS COMPLETELY RECOVERED

PARIS, Sept. 21.—United States Senator James Couzens of Detroit, Mich., who, with members of his family, was recently injured in a motor accident near Utrecht, Holland, returned to Paris tonight completely recovered.

The records of the U. S. patent office show that during the past ten years more than 5,000 patents have been granted to women.

PIANO SALE

Of New and Used Pianos and Players at Prices and Terms that are Almost Unbelievable.

Save From \$50 to \$200

Anticipating a great demand for Pianos and Players during the balance of 1923, we have placed orders with several different manufacturers for the number of instru-

Full scale, very fine tone, responsive action, in Mahogany or Walnut. Bench Free.

The Constitution and the Railroads

PREAMBLE OF THE CONSTITUTION: "We, the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this constitution for the United States of America."

A few of the merits of the railroads in their relation to the purposes of the constitution are given below:

TO FORM A MORE PERFECT UNION: This bespeaks co-operation. The union means union of purpose, ideals, and struggles toward those ideals. It means to employ resource available to human society to co-operate together for the accomplishment of those achievements which mark our progress. No instrumentality of civilization today contributes more toward this end than the railroads, which make co-operation possible.

ESTABLISH JUSTICE: Knowledge is the guiding star to intelligent human achievement. Justice depends upon intelligent conception of our relation to each other and our dependence upon each other. Justice would give credit to those factors which add to opportunity and enlarge the scope of human achievement. The railroads by affording a channel for the free flow of commerce and also an easy mode of travel and personal contact between individuals widely separated, should, if justice is established, find a place of high esteem in the minds of those who receive the benefit of their service.

PROVIDE FOR THE COMMON DEFENSE: The United States has resources of marvelous extent but to marshal these in time of need for defensive purposes requires transportation. We have the most perfect and extensive transportation system in the world. This contributed immeasurably to our success in the last war and is an invaluable asset to the nation.

PROMOTE THE GENERAL WELFARE: The general welfare means the welfare of us all taken collectively and the promotion of our welfare is related to our power of production which leads to prosperity. There is no limit to the general welfare except the limit of our power of production. The railroads have been the principal instrumentality by which man's markets have been expanded and his production thereby stimulated. They have contributed immeasurably to the general welfare.

SECURE THE BLESSINGS OF LIBERTY TO OURSELVES AND POSTERITY: The blessings of liberty are secure only when citizens of a great nation co-operate together toward a higher ideal of individual usefulness and service to each other. Blocs, classes or struggles between one faction and another are out of place in our civilization. If a people who are blessed as we are cannot intelligently co-operate with one another, where else on earth should we expect to find such a people. America, the just Nation, should be our constant theme—allegiance to our constitution, the watchword of our life.

W. H. Frizell
 Secretary

"BE A BOY WITH YOUR SON AND HE WILL BE A MAN WITH YOU" IS THE ADVICE OF NOTED SPEAKER

Brotherhood of St. Andrew Would Help in Work.

Prof. Frizzell Gives Address at Big Chicago Convention Today; Chum With "Son."

CHICAGO, Sept. 21.—Twentieth century youth, charged in many quarters as about the most thoughtless, careless, most ungrateful and generally unregenerate lot the world has ever known, today found a champion in a father of boys who declared himself a sinner in many respects and remedies as a churchman in some Christian duties, but nevertheless of the opinion "we need not greatly worry." "Frankly, my brethren," said he, "I believe we are largely to blame."

Other fathers and mothers of families throughout the land attending the international convention of the Brotherhood of St. Andrew, many with their generation of today, heard Prof. John H. Frizzell of Philadelphia, give his reasons why and apparently found some logic in the argument. Prof. Frizzell told them the present generation will outgrow much of its "dis-temper," just as it did the croup, the measles and the emumps, if during the period of illness it gets the right sort of treatment in the school, the home and the church.

Junior Work Secretary. As Prof. Frizzell is the Junior work secretary of the order, for years principal of a boys' high school and for still more years a member of the Pennsylvania state college faculty, together with being the head of a happy family, the listeners indicated the source evidently knew whereof he spoke. Even in the moments of parental arraignment, consciousness of their children's presence seemed absent so sincere did Prof. Frizzell appeal to them.

"The present generation talks a lot, often in a loud and slangy and sometimes vulgar way, largely for the sake of hearing itself talk and then goes ahead and does just about what youth has been doing for two thousand years," said Prof. Frizzell. "It is freer, more frank and outspoken than we were, but otherwise it has not discovered anything new in the matter of worrying its elders."

Why Overlook Virtue. "The change in manners, which I believe will be outgrown with other youthful ailments, is so irritating to many of us, that we often overlook any possible virtue that may lie in the changes in mind and spirit. As to the change in mind, it is a generation far more independent in thought than better perhaps more adventurous, less inclined to hypocrisy, and by the same token, more honest. Spiritually, it wants something. And it is to all that want which you folks should make possible in getting the child into service in God's holy church."

Religion is Obscure. "To many children religion is an obscure thing, about which they know nothing. My experience has taught me to very humbly try to instruct boys in Christianity. After it has been explained it is a simple thing. There is nothing with regard to which the boy shows diffidence and secretiveness more than in his inner spiritual life. He dries up at the mention of it. So you must feel deep in reaching the spiritual longing."

While the professor said it was not in his province to suggest the sort of treatment for the occasion, he let his own ideas be known about as follows:

"The average boy is right at heart and his mistakes and failures are largely the reflection of our shortcomings—we men who moralize so much and fall so often in our leadership and example—who talk so much about our young people and do so little to really help them."

"That the trouble with most boys is the fathers they have, one which I am, do not take seriously enough our privilege as fathers."

Boys Can't Be Bluffed. "You can't bluff a boy, he sees through hypocrisy quicker than any living human being and even his in-

ate love and respect for his father, and his knowledge that it is for his own good that his dad is working, has all it can do in the face of such treatment to keep from turning sour and producing dissatisfaction and discouragement.

"The more I see of boys and their fathers, the more I am convinced of the difficulty that boys have in obeying the fifth commandment.

"Boys are human, just as we are, and have their rights, just as we have, which should be respected. They need directing and guiding, just as we do, not driving, but leading.

"It is possible to do much with boys but it doesn't pay to try to do much for them or against them.

"A broken will is a greater misfortune than a crippled body, but a directed and controlled will is the greatest gift you can give your boy, greater far than wealth or fame.

"If you will be a boy with your sons, they will strive to become men with you, for character and example are as contagious as measles and imitation is one of the strongest forces in the boy's mind.

Fun Best Cure for Evil. "The best cure for evil thought and temptation is directed fun shared with the boys, best for them, best for you.

"If you want your boys to be at home nights, you must make home the place with books, tools, games and music, where with their gang they'd rather be than anywhere else.

"Getting the youth of the land into the church isn't so much a matter of making the church interesting to them, as it is a matter of getting them a fine Christian example of church-going. Don't send the children to Sunday school and church—go with them.

"A great many of us are far more interested in being successful business or professional men than we are in being successful fathers, and that is why we aren't satisfied with the present generation; that is why we wonder what is the matter with our churches and schools."

WHY SUFFER SO?
 Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Escanaba people recommended Doan's Kidney Pills. Ask your neighbor: Could you ask for stronger proof of merit?

Mrs. Helena Pillion, 621 South 16th Street, Escanaba, says: "I had been bothered with my kidneys all my life until I used Doan's Kidney Pills. My back was weak and I couldn't bend on account of the severe pains which caught me. I had a steady ache in my back and it made no difference whether I was working or standing still, my back hurt just the same. I was all worn out and always felt nervous, depressed and irritable. Black spots came before my eyes, blurring my sight, and I suffered a great deal with headaches. My kidneys were weak and discolored. Doan's Kidney Pills were recommended and I got some at the City Drug Store. They entirely relieved the trouble."

Macaroni At It's Best
 KITCHEN BOUQUET, a purely vegetable product, is in almost every pantry. Housewives know it is the secret of making good gravies and soups, but KITCHEN BOUQUET is equally good in preparing many other dishes. Try your next dish of macaroni prepared this way—
 BAKED MACARONI
 1/2 package macaroni, washed in salt water
 1/2 package tomato sauce
 1/2 package butter
 1/2 package cheese
 1/2 package macaroni cheese
 1/2 package cheddar cheese
 1/2 package butter
 1/2 package cheddar cheese
 1/2 package butter
 1/2 package cheddar cheese
 1/2 package butter
 1/2 package cheddar cheese
 1/2 package butter
 1/2 package cheddar cheese
 1/2 package butter
 1/2 package cheddar cheese
KITCHEN BOUQUET

NORTH CAROLINA LEGISLATES TO LESSEN AUTO ACCIDENTS
 ATLANTA, Ga., Sept. 21.—"Safety first" exponents, as reflected among those who want to see the high rate of railroad grade crossing accidents lowered, carried their fight into at least four southern legislatures this summer, with success in only one. In the North Carolina, Georgia, Florida and Alabama general assemblies measures were introduced which would require the motorist to come to a complete stop within a specified distance of a grade crossing and at the same time require the railroads to erect suitable warning signals. North Carolina, alone of the three, enacted such legislation and officials charged with its administration say that the first few months of its operation showed an appreciable lessening in the number of accidents. The Florida, Georgia and Alabama law-making bodies refused to adopt the measures, their opponents characterizing them as the handiwork of railroad men seeking to free their interests from possible damage suits. In the Florida assembly the measure was amended to meet these objections, a clause being inserted which would have expressly provided that it was not to be construed as removing the liability of the carriers.

A tiger has been known to drag to cover, after a kill in the jungle, an animal weighing over 200 pounds.

CLOSE OF FOREIGN AGENCIES AIDS CHINA'S POST OFFICES
 (By the Associated Press)
 SHANGHAI, Sept. 21.—Disturbed conditions in various parts of China are reflected in the country's post office report for 1922, which records general decreases in the quality of postal matter handled. The financial returns for the year show a revenue of Mex. \$17,109,719.33. Working expenses were Mex. \$13,256,358.57. Huge gains in all phases of the activities of the post office will be recorded this year since all foreign postal agencies closed on December 31 last and the burden of the work those offices is shifted to the Chinese post office.
WOMAN DRIVER, DRUNK, FINED \$75 IN GLADSTONE
 The first woman to be arrested in Gladstone for driving an automobile while intoxicated is Mrs. Estell Wrigley, Chicago. She pleaded guilty before Phil Huby, justice of the peace, and was fined \$75 and costs. The woman was well dressed and drove a large enclosed car bearing an Illinois license.
 That a fuel saving of 10 per cent can be effected by the use of roller bearing railway cars is the conclusion reached after a long series of careful tests by the Swedish state railways.

FRIDAY, SEPTEMBER 21, 1923

TIME.

It is not time—seconds, minutes, hours, even years—but the use that men make of time that makes the difference in men's fortunes.

Nature is absolutely impartial in the distribution of her hours. She gives to no man time she does not give to another. The same morning gives every man an equal start with his fellow and the same night finds each another day further on the journey or lost by the wayside.

But all the time that nature gives to any man is the present. Man makes his own past and future. Grasp the opportunity of the golden present that the past may not bring regrets, nor the future be without hope.

The great, promising but evanescent NOW must be grasped in its potent whole to secure the future and free the past of regret.

Are six, eight, ten, twelve or eighteen hours a day man's allotted work? Not by all eternity. There are twenty-four hours on the clock and in man's working day. Man's work is twenty-four hours of sleep, recreation, eating and labor. There are no hours in the diurnal circuit for idleness, misguided recreation and intemperance in eating and sleeping. After the day's wage has been earned there is still life's wage, the dimes of evolution which must be earned in fruitful reading, healthful thought and deep-delving introspection.

Too many work-a-day men end work with the eight hours and wish for less, sleep ten hours and crave for more, eat to fullness and leave the table unsatisfied, hope in vain for the "luck in leisure," accept no opportunities to improve mind and body and see not that those who are getting ahead in this life are those for whom every "waking hour" is a "working hour."

Working hours are found for the unwise, but the wise find hours in which to work.

EASY, AFTER ALL.

A new steel arch bridge, connecting our country with Canada, will be built across the Niagara Gorge. No such excitement about this, there already are 13 bridges nearby. But there's a real thrill in turning back the pages of history and recalling how the first was built, a matter of three-quarters of a century ago.

Engineers were baffled when it came to getting a line across the river, though nowadays a flying machine or a modified cannon would turn the trick easily.

In desperation, they called on small boys to help by flying kites. Young Holman Walsh won, his kite landing on the far shore. Then the small kite string was used to pull a heavier line across the river, followed by a small rope, then a big rope, finally the necessary steel cables. Passengers traveled over in an iron basket attached to the cables. Trips were \$1.25 apiece. It was a bridge, though hardly worthy of the name.

There is something both amusing and thrilling in the thought of young Holman Walsh and his boy friends coming to the rescue of the perplexed construction engineers with their simple kites in the late '40s.

A big problem, yet it had a simple solution. So with most problems, they are inherently simple but they baffle because people are inclined to seek a complicated solution.

Howe worked for years to invent the sewing machine. He was about ready to quit in despair when his wife impatiently shoved him aside, sat down at the machine, turned the wheel and said: "Put the thread eyelet down at the pointed or lower end of the needle."

All problems are simple. Man does the complicating.

STAMP IT OUT.

It is not the mask of the K. K. K. that carries offense against the public peace and order, but what is behind it—the cowardice that dares not come into the open, the bravado that seeks to magnify itself with concealment of identity, the violence that would hide its face lest it be overtaken by justice, the terrorism that would increase its effect by working unseen.

From time immemorial the mask has been suggestive of sinister purpose and black deeds. It hangs in the same gallery of crime's armory with the stiletto of the assassin, the torch of the arson, the last of mob violence and other implements, tools, weapons and devices of lawlessness.

It is high time for Americanism to assert itself. In Oklahoma the people have already driven the Ku Klux Klan from cover of the mask. Public opinion in all sections where the mask is seen should rouse itself against it. Americanism needs no mask, and masked terrorism is not American.

LEAGUE AMENDMENT SUGGESTED.

Italy claimed the league of nations was without jurisdiction in the controversy with Greece because it was a case involving Italy's honor. There is nothing in the league covenant which admits of any such interpretation, but since the league acquiesced in being supplanted by the council of ambassadors, which imposed on Greece the very conditions demanded by Italy, it would seem that the league accepted Italy's statements as correct.

Therefore the covenant should be amended something after this fashion: "Provided, however, that in any case where the honor of a member nation has been attacked by another nation, member or non-member, the provisions of this covenant shall be without force or effect. The question as to what constitutes an attack upon the honor of a member nation shall be decided by the member nation which believes its honor to have been attacked."

It is not hard to believe that the French government is thoroughly thankful to see the Germans give in. The Paris government has not been receiving universal acclaim from the people of late.

**PRIVATE DISEASES
ACT TERMED VOID**

**Court Denies That Physicians
Must Report All Such
Cases Coming to Them
for Treatment.**

GRAND RAPIDS, Sept. 21.—Holding the act declaring physicians or health officers who fail to report cases of private diseases guilty of misdemeanor is unconstitutional, Superior Judge Leonard D. Vander Tuesday quickly disposed of an issue debated before the Michigan State Medical Society last week. The decision followed a motion of Dr. Curtis S. Wohlford, convicted June 13 of violation of the health law, to arrest judgment and to quash the information. The physician was accused of having treated a patient for an infectious disease without reporting the case to the state department of health.

The subject was placed before the medical society when Dr. U. J. Wile, professor of dermatology in the University of Michigan medical school, submitted a report of the committee on venereal prophylaxis in which it was suggested that Dr. Wile and his colleagues feel it is impossible to expect members of the medical profession to obey the requirement of the health commission to report names of patients having a venereal disease. It was added it seemed impossible to persuade the state authorities to agree to a change to the rule that would permit the cases to be reported by number instead of by name.

The court finds that the object of the act is not expressed in its title.

World was brought this activity to a close and it was not continued until early this year, when the personnel was reorganized and set to charting the section along the southwestern coast of the land from Cienfuegos to Cape San Antonio. In this area is the Gulf of Batabano, bordered by the Isle of Pines.

In making the survey small boats have run lines of soundings across local sectors, taking bearings from time to time upon triangulation signals erected on land and on shoals. A straight stretch of railway track along the Cuban coast was measured for a base line, and with these aids the naval officers have reported completion of the largest season's task of the entire survey. An area of 760 square miles was covered, 180 miles of shore line were plotted, and 6,500 miles of soundings were taken. Because of weather conditions, the survey season was limited to the period from the end of January to about August first.

Many important mistakes in previous charts were discovered. One shoal shown as nearly awash was found to be actually 30 feet below the surface. The mother ship of the survey, drawing 18 feet of water, discovered a channel by which to approach Batabano, through water theretofore accounted too shallow for large vessels to use.

One of the interesting sections plotted by the surveyors was the "White Sea," so called on account of the unusually white sand found on the bottom, the reflection from which almost completely overcomes the natural blue color of the tropic water. It is said that Columbus found this stretch, and was so taken by its oddity that he took a bottle of the water back to Queen Isabella.

**Superior's Mayor
Detests Hypocrite;
Can't Sign Pledge**

SUPERIOR—Many are the duties which fall on the shoulders of Superior's mayor.

Fully aware of the dignity of her position, a member of a local chapter of the W. C. T. U. breezed into the office of Mayor Fred A. Baxter Tuesday.

"Oh, Mr. Mayor, I think it would be so nice if you would sign one of our pledges to abstain from all alcoholic beverages," exclaimed the dry worker.

But the session was short. The mayor refused.

"I can't be a hypocrite," he exclaimed, and another duty was performed.

**ARREST MASSEUR ON
CHARGE OF GIRL, 12**

MARQUETTE, Mich., Sept. 21.—August Johnson, 46, professional masseur, is being held in the Ishpeming city jail on a serious charge, preferred by the parents of a 12-year-old Champion girl. Johnson arrived in Champion about three weeks ago.

A rickety old table in a restaurant at Auvergne, France, was being broken up for firewood when out rolled piles of gold. It was found that in the legs had been hidden 122 gold coins bearing the effigy of Louis XVI.

**ADMINISTRATIVE
BOARD TAKES ON
ADDITIONAL WORK**

Is Now Assuming Extraordinary Control Over the State Highway Department on Roads.

LANSING, Mich., Sept. 21.—The state administrative board may further tighten its control over the activities of the state highway department. The board has already taken from the department the power to authorize or approve highway projects or pass upon financial matters. Indications today were that it may also assume some of the department's technical authority and attempt to supervise, indirectly, the construction work on all major projects.

The board has, in effect, done this on the Dixie Highway in Genesee county and on M-16, between Detroit and Lansing. On these jobs engineers have been appointed by the board to supervise the work and they are more or less responsible to the governor and the board. The change was made in Genesee after a shakeup in which five engineers were removed from the project, including the state highway department's district engineer.

Governor Groesbeck several times has criticized the work of engineers in the highway department, and it is known he is not satisfied. He has intimated that a reorganization more extensive than any that has preceded it may come.

**Bogus American
Degrees Are Easily
Sold in England**

LONDON, Sept. 21.—The Englishman's love of initials after his name has made this country a fertile field for bogus American colleges, which carry on a sort of correspondence curriculum and supply degrees at five dollars each, according to Dr. George E. Maclean, former president of Iowa University, who has recently been warning gullible Britons against striving for phospekons from unheard of institutions in the United States.

"I have had a steady stream of people coming into this office with the degree 'B. D. (Bachelor of Divinity)," he said. "Until they interviewed me they had no idea that the money paid for their degrees had been obtained from them virtually by false

"I know an English clergyman who in two years got the degree of B. D. and D. Litt. simply by correspondence. There is one of these colleges, incorporated in Illinois, that has tricked hundreds of English students into parting with considerable sums of money for attractive-looking diplomas which are entirely worthless from an educational point of view. The university exists only in name. I have never yet heard of anyone who took one of its correspondence courses and failed to get a degree. Clergy-

men who wake up late to the value of a university degree, are the most often gulled."

Throughout England college graduates flaunt their degrees in a manner unknown in America. Often a man's calling cards will contain the initials "B. A." or "M. A." after his name, and clergymen have these degrees. If they possess them, printed on the signboards outside their churches. College degrees are held by proportionately fewer people in England than in America, and more pride is therefore taken in baccalaureate honors.

**JAILS BRANDED AS
AN ASSET TO CRIME**

**Ex-Federal Inspector Urges a
Lot of Reform in Penal
Institutions; County
Jail Is Bad.**

(By the Associated Press)

BOSTON, Sept. 21.—The county jail was denounced as a crime breeder by Joseph F. Fishman, former federal inspector of prisons. In an address before the American prison association on Tuesday.

"The county jail," he said, "is a de-bauch of dirt, disease and degeneracy." He declared that this institution played an important part in increasing the amount of crime and the number of criminals.

"In 95 per cent of the jails," he continued, "are thrown helter skelter the old, the young, the guilty, the innocent, the diseases, the healthy, the hardened and the susceptible, there to be mixed with the further ingredients of filth, vermin, cold, dampness, stagnant air, over crowding and bad plumbing, and all brought to a boil by the fires of complete idleness. In handling the jail situation the state, in the name of justice, commits crimes far more heinous than many of those it punishes with long terms of imprisonment."

Claude B. Sweezer, warden of the Maryland penal institutions at Baltimore, told the prison congress that no warden could afford to shift the burden of government in any particular from his own shoulders to those of his inmate population.

"No one is fit to govern any one else," he said, "until he has proved himself fit to govern himself, and there is certainly at least prima facie evidence that in some particulars the inmates of our penal institutions were not able to govern themselves properly."

**METHODIST PLEADS
FOR DANCING CARDS**

GRAND RAPIDS, Mich.—"A woman who gossips is as bad as a girl who goes to a dance. A man who smokes tobacco is as bad as a boy who plays cards. The family that goes automobile riding instead of to church is worse than either. Why tackle the sins of the young and let those of the old folks alone?"

This is one argument of W. W. Pierce, of Mt. Pleasant, Methodist lay-

man and former State Normal school teacher, against allowing the ban on dancing to remain in the laws of the Methodist Episcopal church.

When Mr. Pierce made bold to voice his sentiments in the lay electoral meeting of the Michigan Methodist Episcopal conference he brought a storm down on his head. Mr. Pierce was a dissenting member of the resolutions committee, which recommended that the lay electorate pass a resolution objecting to removal of the amusement clause and asking that some way be found to enforce it. But this recommendation was not unanimous. Mr. Pierce refusing to concur. When the resolution was presented to the conference, he rose and told why he was a conscientious objector.

**STATE ROADS CONCLAVE
TO MEET AT LANSING**

LANSING, Mich., Sept. 21.—The Michigan Good Roads association will hold its annual convention in Lansing November 6 to 8, at M. A. C., it was announced Tuesday. The sessions will be featured by a demonstration of highway construction. Under present plans, a short section of graveled road, somewhere near the college, will be laid.

Pleats Now Bring Freedom of Movement

**POLA NEGRI IN A WHITE SUIT
WITH PLEATED SKIRT**

THE pleated skirt satisfies the woman of fashion. Its reason for being (if fashionable things must have reasons) is because skirts are long, and the silhouette is slender. And if skirts are to remain long and straight, they must "give" to allow madame to step out. The accordion pleat satisfies. It can be any length down to the ankles, and never tamper with lady when she would take a long step, or make a flying leap after a tennis ball, or trip the light fantastic toe, or board a car or a bus. It is the ideal skirt.

Pola Negri, the Paramount star, demonstrates the decorative and practical advantages of this type of skirt in her latest picture, "The Cheat." In the photo she is shown wearing a stunning white suit of kasha cloth, with finely pleated skirt. The coat is loose and on the order of a mandarin jacket, and is collared and cuffed with monkey fur. The jacket is worn widely open, disclosing a very chic vest. This is one of the several pleated models she wears in her picture.

Other fashionable pleated types are shown in the sketches to the right. The first shows a sleeveless model, long-waisted, with long pleated skirt. This, worn with a large hat, is typical of the gowns that were worn at the big races all season on the continent, where the most brilliant women of Europe gather.

The second dress shows the use of pleating in tiers, and also as a narrow finish for the neck.

The blouse on the large figure in the foreground is finely pleated, with a plain panel down the front.

Two folds of self material come from the waist line and pass over the shoulders like straps. The small hat worn with this blouse is trimmed in a pleated bow.

The last dress to the right is a semi-fitted model, with a flare of accordion pleats at the bottom, and a wide bertha collar. The sleeves are likewise finished with a pleated ruffle.

This last silhouette is becoming very popular, as it is a pretty change from the straight, boxy lines the frocks have been following for the last few seasons.

ESKY HAS CHANCE TO WIN FOOTBALL GAME TOMORROW

Local Coaches Are Doing Best to Whip Local Squad into Line, But Time Has Been Short.

"Of all fool questions to ask a coach before the game, the worst is, 'Are you going to win, coach?'"

This was Coach Thompson's remark yesterday. The chances of winning the Newberry game look very slim for tomorrow afternoon at 2 o'clock. With only a nucleus of experienced men with which to begin the season, Coach Thompson and Hills have been polishing the rough edges of the new material. But that new material still has very poor finish.

The hope is against Escanaba's chance of winning without a supreme effort.

"A fighting chance is what we have," said Coach Thompson.

"I noticed one newspaper said that we had spent \$200 for new equipment," he continued. "But if we had spent three times the \$200 we did spend, it would be nothing to brag about. That doesn't pay for the wear and tear each year."

One of the great handicaps this year has been the decided lack of football equipment for the boys. There are twenty more men waiting for a chance to get out for practice, but there are no tops for them.

Only once was Newberry beaten this year. Marquette nosed out Newberry 7 to 0. And Marquette swamped Escanaba with a 39 to 0 score. Other teams which accepted defeat at Newberry's hands last year are Alpena, Houghton, Gladstone, Ironwood, The Manistee champions of lower Michigan played a 0 to 0 score with Newberry. It is this team that Escanaba is to meet tomorrow with new material.

Captain Adelard Goulet, full back, is injecting good morale into the squad; and is showing commendable form in his line plunges. Herman Mielche, a new student at the school, but an experienced player, is showing speed, skill and good headwork as quarterback. Donald Burns strated the season on the second team, but his speed and end runs make him a possibility for the first team Saturday, although a final selection has not yet been made. Harold Telan is at present out of the game from bruises, but may be back before the season is over.

Other men on the squad are: George M. Henry, Arnold, Stewart, Andrews, Charles Bomaner, Clyde Brady, Edward Berrigan, Jack Berrigan, Russell Bowdler, Harold Cas, James Campbell, Edward Champaign, Adolph Dumais, Fred De Mars, George Dunn, Marjita Fello, Jack Erickson, Henry Groux, George Jackson, Earl Johnson, Hugh Kitchen, William Moersch, Franklin Nead, (Gladstone Ober), Wilson Olson, Harold Peter-

MONSTER WHITE "W" WILL GREET RETURNING STUDENTS

(By the Associated Press)
GUNNISON, Colo., Sept. 21.—A huge white "W" gleaming from the heights of Tenderfoot Mountain, will greet students returning to Western State college here for the fall semester. The letter, said to be the largest college letter in the world, was constructed by students at the close of the last spring term. It stands 250 feet high, with a spread at the widest point of 400 feet. The lines are 16 feet wide.

HERRING BLOOM NORWAY'S FJORDS; SHIPS ON WAY

TROMSOE, Norway, Sept. 21.—The fjords in the extreme north, in the region of Tana and Vadsso, have been literally blocked into a semi-solid state by herring shoals. The shoals often penetrate to the narrow heads of the fjords where they wedge tight into the jetties of small villages and fishing stations.

AUTO OF CHICAGO PARTY OVERTURNS; BABY KILLED

ROCHELLE, Ill., Sept. 21.—A ten-week-old baby was fatally injured and five persons trapped under an automobile when the machine turned over on the Lincoln highway near here. The baby's mother, Mrs. Pearl Sloan of Chicago, was hurt seriously. The party was returning from Sterling. The accident occurred on a sharp curve.

SOCIETY

Pearson-Winn.
Miss Lillian Pearson and Everett Winn were united in marriage at 4 o'clock yesterday afternoon by Rev. Harry Staver of the First Presbyterian church at the home of the bride's parents, Mr. and Mrs. Olaf Pearson. Ida and Charles Pearson, the bride's sister and brother, were the attendants.

COLORED WOMEN GIVE PETITION TO COOLIDGE

WASHINGTON, Sept. 21.—President Coolidge today received a delegation of colored women from the Negro national educational conference which presented a petition asking him to use his influence against "any oath-bound organization, whose purpose is to murder, terrorize and destroy any body of citizenry" in this country.

APPROVES BOBBED HAIR FOR SCHOOL TEACHERS

NEW ORLEANS, Sept. 21.—New Orleans school teachers all may wear their hair bobbed if they so desire, declared Nicholas Bauer, superintendent of schools. "There's nothing wrong about bobbed hair, it's all the style and why shouldn't our teachers keep up-to-date?" the superintendent said and added that he would rather see them with bobbed hair than wearing Parisian wigs.

J.C. Penney Co.

A NATION-WIDE INSTITUTION - INCORPORATED
475 DEPARTMENT STORES
Delft Block Escanaba, Mich.

WORLD'S LARGEST CHAIN DEPARTMENT STORE ORGANIZATION

RELIABLE QUALITY GOODS ALWAYS AT LOW PRICES

Men's Shoes of Character

100% Leather for 85% of Men

\$3.98

THE seen and unseen workmanship in a shoe too frequently has the stress put on the "seen" portion of the shoe. J. C. Penney Co. built shoes are made thoroughly good. The hidden material and workmanship carry the same high standard of values as the exposed portion of the shoe. It is easy to quote our prices, but hard to match our values.

THE three styles of Men's Dress Shoes pictured here will meet the requirements of 85% of men. These are 100% leather and represent the height of good shoemaking. Made of all Mahogany Lotus leather with welt soles and half rubber heels.

THOUSANDS of satisfied customers like our policy in pricing our shoes --no extra profits added in anticipation of a reduction later. Every shoe is marked that it carries with it a true reflection of real value in the original price. Buying for our hundreds of stores enables us to go direct to the largest manufacturers, and secure values that are only obtainable through volume buying.

OBITUARY

JOSEPH COLLINS.

Joseph Collins, aged 57 years, passed away suddenly of his name in Escanaba yesterday afternoon. He has resided in Escanaba for many years and was very well known in that community. The news of his death will be received with intense regret by all who knew him. He had no immediate relatives.

He was a veteran of the Civil War and a member of the G. A. R. The funeral will be held at 10 o'clock tomorrow morning from the Catholic church at that place. Rev. Fr. Ehlert officiating.

The American Legion Post at Escanaba and Spaulding will have charge of the funeral.

Mr. and Mrs. Frank Beatson, Mrs. Joseph Bruner and Mrs. Irene Shannon, all of Spaulding, motored to Escanaba today to attend the Northern State Fair.

Rev. E. F. Lund, district superintendent, will speak at the Swedish Methodist church Sunday at both the morning and evening services.

BABY, 9 MONTHS OLD, HIT BY TRAIN; WILL RECOVER

BEHNIE, Ill., Sept. 21.—The 9-month-old son of Mr. and Mrs. William Perry, residing near Berne, is in a hospital hospital. He was taken after being struck by the locomotive of a freight train. Physicians say that the child will recover. The fact that the mother saw the child and put on the emergency brakes saved the child from being killed. The child had been brought to a standstill of speed when it struck the child.

YOUNG MAN.

Do you want to learn the real business of today, Variety Merchandising? If so, see Mr. H. E. Greenman, at McLaughlin Store Co., Escanaba, Mich.

One-fourth the profit made in the United States, or 3,100,000 with a volume of \$1,250,000, are being imported from England and Scotland this year.

Escanaba Lodge No. 98

REGULAR MEETINGS EVERY WEDNESDAY EVENING, 8 O'CLOCK

Come to Michigan City

"Gateway to the Dunes"

Stay at The SPAULDING

Michigan City

THE opening of the new Dunes Highway, connecting link between Chicago and eastern points, adds new importance to Michigan City as a commercial and recreational center.

A trip to the famous Dunes, on Lake Michigan's Indiana shore is an occasion of great enjoyment for those who love the big outdoors. Visit Michigan City on week-ends. Spend your vacation here in beautiful surroundings and on Lake Michigan's finest beach.

The new Hotel Spaulding provides exceptional accommodations for tourists and for those who come on business. Here you'll enjoy every service that you expect from the best of big city hotels. Ideal for conventions. The Spaulding banquet-room seats 500. Other rooms conveniently equipped for smaller gatherings.

Michigan City is reached via Michigan Central, Erie, Monon, Pere Marquette, Northern Indiana and South Shore Railways and by Lake Michigan boats. Thirty important manufacturing concerns are here located. Salesmen should spend two or more days here.

Write for folder about the Spaulding, the Dunes, golf and other recreational features.
