SINGLE COPIES, FIVE CENTS

HEAVY RAINS CHECK U. P. FOREST FIRES

DOWNPOUR WAS WELCOMED AND FIREMEN REST

Five Bodies Brought in to Big Bay Yesterday Afternoon.

Two Men Arrested Yesterday Admit They Were to Blame for Forest Fires Near Houghton.

(By the Associated Press)
Houghton, Oct. 17.—Michael Fenski and John Behinski who are under arrest at Baraga, charged with setting forest fires, which they admitted, according to authorities, said they had nothing to do with the origin of the fire in which five men lost their lives Monday. They said the fires they started were set not far from Houghton.

From Superior, from Houghton, from Marquette and from nearly every point in the peninsula comes reports that heavy rain has been falling for the past twelve hours and that all the fires that have menaced the lives of homesteaders and caused thousands of dollars' worth of damage to property, have been checked and in many cases entirely extinguished.

Game wardens are reporting that the loss to the wild life in the deep forests has been tremendous even deer being trapped and burned to death before they could reach a place of safety. Millions of birds were burned to death and the smaller animals suffered to the extent of being entirely wiped out in many areas.

Charred Bodies Brought In.
The bodies of five men who were burned to death Monday in the vicinity of Big Bay were brought there yesterday and buried. The men had been sent out from a Chicago employment agency and it is thought that some of them may have been hired out under assumed names. The names given were:

Sam Klemons, about fifty-two years old.
Simon Valecki, about fifty years old.
John West, about thirty-eight years old.
August Dauder, about thirty-two years old.
Ben Suskie, also known as Ben Arthur, about twenty years old.

The death of the youth, Suskie, is particularly tragic. He arrived in camp from Chicago at noon Monday and told the foreman he was ready to do any kind of work, and three hours later he was dead.

They were sent to Big Bay by the Samuelson Employment Agency, West Madison street, Chicago, and there is no information on their employment certificates which will be of assistance in locating their kin. Some of them came here under assumed names and their real names are not known.

Six men, including the five victims, were ordered by the foreman of Camp 1 to carry ties to a spur track out of the way of the fire. They walked to a path about 300 feet from the camp and started through the slashings to the track, a short distance beyond. Their path led them through an area over which fires were burning, but they started in the direction of the track, apparently determined to fight their way through the smoke and flames.

Overcome by Smoke.
One man, nearly overcome by smoke, threw his coat over his head and returned to the camp. The others continued on for a few feet and fell, suffocated, four of them in a heap. Suskie, the youngest, walked a few steps further than the rest before he dropped.

According to the only living member of the party of six, his companions died within fifty feet of the spur track. If they had been able to reach the track they would have been safe. He did not see them after they started through the clouds of smoke. Returning to camp, he reported to a "straw boss," who walked with him 200 feet down the railroad track and circled around the fire. They reached the place where the ties were piled and, failing to find the five men who, they thought, had made their way through the fire, they became alarmed and hastened back to camp.

The first report that the men were trapped by the fires and probably killed was brought to Big Bay Tuesday afternoon by Paul Schram, an employe at Camp 1, who started for town as soon as he learned they were (Continued on Page Six)

Union Miner Gets Life Imprisonment

LOGAN, W. VA., Oct. 17.—Robert Combs, union miner charged with the murder of Deputy Sheriff John Gore in the 1921 armed march, pleaded guilty in circuit court today after Judge Robert Bland refused a change of venue for his trial. A sentence of life imprisonment was imposed.

FLOOD MENACE OVER; OKLAHOMA IS CLEANING UP

City's Damage in Property Alone Said to Be \$2,500,000.

Water Is Still High, But Receding Rapidly; Some Time Yet Before It Is All Gone.

OKLAHOMA CITY, Oct. 17.—Oklahoma is emerging today from the most disastrous flood in the history of the state, which made hundreds of persons homeless and caused millions of dollars in loss of property, railroad and highway traffic demoralized and public utility service badly hampered.

As the crisis passed the state set about reconstruction measures and Oklahoma City was found to have been the recipient of the brunt of the debacle, but for miles and miles areas have been inundated by the swollen streams due to the torrential rains which have been falling incessantly for several days.

Damage Over Million.
The total damage in the city alone is placed at \$2,500,000. Two are known to be dead and many persons are ill in the hospitals, due to exposure. It is estimated that not more than 1,000 refugees are now under the care of relief aid.

Water Going Down.
The flood waters rapidly receding today reveals a picture of desolation in their wake. The Capitol Hill section and Packingtown, the home of the meat packing industry here, still are completely cut off from the remainder of the city and likely will be closed for some time, because of the water which covers all communicating streets, as well as hundreds of acres of bottom lands.

PAVING STOPPED BY HEAVY RAIN; PLANT ALL READY

Big Asphalt Plant On Railroad Siding Is Ready for Operation as Soon as Rain Ceases.

With a crew of expert pavers ready to jump to their places as soon as weather conditions permit, the big asphalt plant of the Bridges Construction Company is belching forth smoke from its location on the Escanaba & Lake Superior tracks. It was hoped that operations could be started this morning, but with the prospects of an all day drizzle, inauguration of active paving was given up for today and the crew returned to their boarding places.

The plant for making the paving was brought to the city on several cars and is one of the largest portable plants in operation in the United States.

Filipinos Ask for Gen. Wood's Scalp

MANILA, P. I., Oct. 17.—The legislature today after one of the stormiest sessions in its history, adopted Sergio Canena's resolution approving the action of the independent commission who last July demanded the recall of Governor General Wood.

IONIA BOY, 6, DROWNED IN PLUNGE OFF BRIDGE

IONIA, Mich., Oct. 17.—Francis Robinson, 6 years old, was drowned in Flat River at Belding, Sunday, when he fell or jumped from the Pere Marquette railroad trestle from which he was fishing. His floating fish pole, with the end of the line tied to his waist, led to the recovery of the body, 20 minutes later, but efforts at resuscitation were futile.

Great Air Navy Is What United States Needs

GLEN SNYDER, IN CHINA, TELLS OF HIS WORK THERE

Most Interesting Communication Is Received in City.

Assistant Police Chief Ettenhoffer Hears From Former Resident of City.

Assistant Chief of Police Ettenhoffer is in receipt of a letter from Brother Benedict (Glen) Snyder, formerly of Escanaba, well known by scores of local people, while he was at St. Joseph's church. Brother Benedict has been doing missionary work in China for a number of years and as his letter indicates, he has become well versed in Chinese customs and the difficult Chinese language.

Rev. Fr. Ulrich, who is mentioned near the close of the letter, was also in Escanaba and is known to a number of people. The men are stationed in Wuchang, Hupeh province. The letter follows:

"My Dear Mike,
"Or is it illegal for one to address the assistant chief of police with such familiarity? You gave me a very pleasant surprise. I have just returned from the mountains in one of our country missions and have about twenty letters demanding immediate reply but they will have to wait until I scribble a few lines to my old friend Mike. In China Six Years.

"I have been in China over six years; the first five years were spent in teaching at the Catholic college of our mission. During the last year we have gone into the publishing business and I am now taking care of a monthly publication and the correspondence of the Vicariate. This takes up a lot of time, especially since a section of Hupeh has been confided to the care of American Franciscans. We have been given ten large counties by the Holy See and the Sacred Congregation for the Propagation of the Faith in Rome.

Now Speaks Chinese.
"Quite naturally, I have changed a great deal since coming over here and I fear that if I ever return to (Continued on Page Two.)

SOO INDEPENDENTS ARE NEXT VICTIMS OF LOCAL LEGION

Team That Trimmed Cheboygan 63-0 to Play Here Sunday; Hardest Game of Season for Pattisons Men.

Football fans are prepared for two of the season's best football games this week and no real fan will miss either of them. The Escanaba-Memnonie High School teams will stage a light to the finish battle Saturday, Sunday the local Legionnaires will play the strong Soo aggregation. Both teams have gone thus far in the season without being defeated and either Pattison's crew or the Lock City crew will have a black mark on their record after Sunday's tilt.

The local Legion men were never more fit for a real scrap. Their walkaway at Manistique Sunday indicated their ability to win over a team much heavier in every department. Coach Pattison has several of his best men in reserve and will in all probability have to use everything he has to beat the Soo warriors Sunday.

Sunday the fans will have an opportunity to see players in action that have made a national reputation in the gridiron game. Andrew Goetz, for two years captain of the U. of M. team and All-American tackle, will captain the Soo team. Goetz played three games on the Yost team and was the only man in the history of the game, who played that length of time and was never injured. He is "hard" and the local line will do well to keep him from coming through, but they can do it.

A large crowd will attend this game so if you are planning to be there do not get before 2:30.

Lloyd George Is Confined to Bed

CHICAGO, Oct. 17.—David Lloyd George has cancelled all his engagements for today but hopes to keep his speaking engagement for tonight at the International theatre at the stock yards. Owing to the continuance of a slight temperature, his doctors have ordered him to remain in bed and rest the greater part of the day. With so much ahead of the former premier, it was said that his health must be given special attention.

The physician said his temperature was due to a cold which had been aggravated by fatigue. The "Little Welshman" is better this morning, but will not exert himself today.

GUN FIGHT ON MAIN STREET; BOTH ARE DEAD

Old Frontier Days Recalled in Jefferson, Texas.

Sheriff and Constable Kill Each Other as They Meet; Shots Passed Each Other, Is Said.

JEFFERSON, Texas, Oct. 17.—The sheriff of Marion county and a constable of the county seat engaged in a pistol duel last night and today the county is shocked at two of its most prominent peace-officers, both past 50 years of age.

D. D. Rogers, 54, sheriff, and W. B. Proctor, 52, constable of the Jefferson district, sighted each other half a block from the courthouse on one of the principal streets of this city. They met without a word.

Constable Proctor shoved the sheriff against a water hydrant, according to the story told by the few persons who witnessed the shooting, told the police. The sheriff stumbled, but as he momentarily lost control of his legs his hand gripped his pistol. He whipped out his gun and fired. He hit Proctor one in the hip and again in the heart.

Shots from the constable's pistol crossed with those of the sheriff almost instantaneously, according to the story told the police. The constable shot the sheriff through the head while the latter was stumbling and slipping to the ground. Both men remained with silent lips as they had throughout before the quick end came.

According to police the trouble arose over court papers given the constable which were not served and a fine being imposed on the sheriff consequently.

YOUNG BOY SHOT BY HIS COMPANION

Has .22 Caliber Bullet in Skull and May Not Live, Say Physicians.

MARQUETTE—Reuben Seltanen of Trout Creek, twelve years old, is in St. Mary's hospital with a .22 caliber bullet lodged at the base of his skull and may die, the result of an accidental shooting Sunday, near his home, when a boy companion, fifteen years old, pointed a rifle at him and pulled the trigger, believing the weapon was not loaded.

The bullet struck the boy's nose and entered his head. He was brought to Marquette and in the hospital an X-ray picture showed that it had stopped at the base of his skull. It was said yesterday that the patient had a fair chance for recovery. He was resting fairly well last night. It may be impossible to remove the bullet.

War Fraud Cases Will Be Voted On

WASHINGTON, Oct. 17.—A score or more of government prosecutions in war fraud cases involving construction of army cantonments, will probably be voted in view of the decision yesterday by Federal Judge Fletcher of Ohio, in the test cases relating to Camp Sherman.

CLUB WOMEN OF MICHIGAN MEET IN "AUTO CITY"

Reports Submitted from Seven Districts of State.

Detailed Account of Efforts Along Lines of Betterment Are Told by Delegates.

DETROIT, Oct. 17.—Seven districts, into which Michigan has been divided for the purposes of the Michigan State Federation of Women's Club, have spread the gospel of human betterment throughout the state. Interesting reports of work accomplished have been received from several district presidents.

"It has been clearly demonstrated in the west central district," wrote Mrs. George E. Kollan, Holland, "that the influential club is the one which is giving every club woman a chance to grow, to develop through holding office, committee work and the like."

"Several clubs have sponsored girl scouts, boy scouts and camp fire girls. Other useful and unselfish women have made baby things and other necessities for hospitals, dispensaries and orphan homes. During the past two years (Continued on Page Two.)

ORANGE AND BLACK BUSY PLANNING TO HOLD BIG ROUND-UP

High School Literary Society Are Busy Bunch This Semester, Lining Things Up at School.

The Orange and Black Society of the High School is putting forth its best efforts to round up about 100 alumni for the first Home Coming and Reunion ever held in the local school.

Cards have been sent to every alumnus whose address was available. Some, however, were not able to be located, and if you have not received a card the Orange and Black will appreciate it greatly if you call the High School and leave your address.

The Home Coming, which will be one of the largest undertakings sponsored by the Orange and Black Society this year, will be held at the High School gym Friday evening of this week. These old classmates and friends will assemble together once more and after registering will have the choice of staying at the school where a program and "pep" session will be held later in the evening, or going to the library, where a parade will begin. These demonstrations will also be in conjunction with the Menominee game to be held the following day.

Following the parade down Ludington and Fourteenth streets the students and alumni will gather at the High School, where a program of "pep" talks and hand music has been arranged for. Leslie Bergman, president of the Athletic Association, will have charge of this meeting. Talks will be given by many old-time football players.

On Saturday afternoon at the Menominee football game the Orange and Black has arranged to have the All Time E. H. S. football teams guests of honor. Luckily most of the members of the All Time squad are in the city. It is not likely, however, that Frank Nugent, who is in Illinois, will be here on that date.

The All Time team will bring back to fans memories of football players of years ago. Many will remember when Pete Semer was the sensation of the day by his spectacular runs down the field. Many will remember "Doc" Hodson, who steered and guided his team like a general, who would begin calling signals for the next play while being tossed by the ball over the line. Many will remember Mike Walsh, who was unexcelled as a center, and John Semer and Fred Leighton as guards, and John Goul and "Bill" Embs as tackles, and Frank ("Sap") Nugent and Walter Hessel as ends. In the backfield of the All Time team, Tom Riley will be remembered as a stellar fullback, and

Hunger Strike in Ireland Growing

(By the Associated Press)
BELFAST, Ireland, Oct. 17.—Tragic results or a notable victory may be the outgrowth of the hunger strike begun by the prisoners at Mount Joy jail at Dublin last Tuesday. There are approximately 15,000 in the jail and if the strike was to continue and spread to other camps of the prison, the people may be prepared to be shaken from their apathy by either tragedy or victory, according to a manifesto which was issued this morning.

WILLIAM HALL, ONCE OF CITY, IS PENSIGNED

Former Foreman at the Northwestern Shops Retired.

After Leaving Escanaba He Went to Winona, Minn., Where He Has Been Some Years.

William Hall, who for a number of years was general foreman at the local shops of the Chicago & Northwestern machine shops in this city, was retired on September 1, under the pension ruling of the company. The current issue of the Northwestern Magazine, Mr. Hall tells of his many years' service with the company in the following manner:

"I started working when fourteen years of age, serving seven years apprenticeship to the machinist trade, on one of the leading railroads of England. At the age of 24 years, I came to the United States, starting to work for the Chicago & Northwestern railway, November 2nd, 1881, on the erecting floor of Chicago shops. In the summer of 1888, I was promoted to the position of gang foreman, having charge of the largest gang at that time. This has since then been split into two gangs.

"August 10th, 1892, I was made general machine shop foreman at Escanaba, Michigan, where I remained until December 31, 1912, but as the winter climate was too severe for Mrs. Hall and my daughter, I applied for, and was transferred to Winona, Minnesota, where I hope and expect to remain till I am called hence.

"I have always enjoyed working for the Chicago & Northwestern railway, as I consider this company one of the best, if not the best, in the United States. It is my pleasure to boast for it not only in my home town, but wherever I may be."

For many years Mr. Hall has been secretary of the International Railway General Foremen's Association, an association formed "for the improvement of the service of all railroads."

Six Deaths May Be in Cave-in Toll

(By the Associated Press)
BINGHAM, Utah, Oct. 17.—In full view and almost within reach of rescue parties, the battered and mangled body of David Egan, the 50-year-old foreman of the Utah-Apex Metal mines, was still in the grip of the great rock pile which crushed him at 4 o'clock yesterday afternoon and at the same time either killed or endangered his five companions.

No signals have come through the gigantic rock piles and the rescuers do not know whether they will be greeted by bruised and starving men, or mangled bodies of the unfortunates. The party is hampered by lack of room and has been forced to flee for safety several times as mighty rocks came tumbling down upon them from above.

"Duke" Christie of recent years, who was an all-round superior athlete. Following is the line-up of the All Time team:

Mike Walsh, center.
John Semer, left guard.
Fred Leighton, right guard.
"Bill" Embs, left tackle.
John Goul, right tackle.
Walter Hessel, left end.
Frank Nugent, right end.
R. E. Hodson, quarter back (capt.).
"Pete" Semer, left halfback.
"Duke" Christie, right halfback.
Tom Riley, fullback.

OWSLEY TELLS KNIGHTS THIS IS SALVATION

Legion Convention Is Busy With Numerous Reports.

Various Programs Vied for Favor of Thousands Attending San Francisco Legion Meet.

(By the Associated Press)
San Francisco, Cal., Oct. 17.—Military safety for the United States can only be assured through an assembly of the most powerful fleet of airplanes ever known with adequate land and sea forces, was the statement of Alvin Owsley, commander of the American Legion, in an address at a banquet given by the Knights of Columbus yesterday.

Pressing problems of organization policy, sight seeing tours and an elaborate aerial program vied for the attention of the delegates as the fifth annual convention of the Legion roiled here yesterday.

The delegates and visitors faced an array of committee reports defining the stand of the organization on important public questions at the business session today.

The Balance of Week.
Thursday—This will be the big athletic day of the convention. National stars, including Jole Ray, Charlie Hunter, Charles Brookings of Iowa, George T. Bertsch of Buffalo, and Clarence de Mar, Olympic games winner, will take part in a big track and field meet at University of California track.

Simultaneously a national aquatics meet will be held at Neptune Beach, Alameda. Among entrants are Al White, present national indoor springboard champion, and George Schrotch, Pacific coast straight swim record man.

Friday—Soccer game at Stanford University between San Mateo post of the Legion and the British war veterans. This will be followed on the same grounds by a football match between the Mare Island sailors and Stanford University, in which Coach Andy Kerr of the latter, will try out 100 of his second string men as well as the regulars.

Throughout the convention will be held a golf tournament, tennis tournament, national rifle meet at Leona Heights in which the best Legion teams of the country are entered, and a \$2,000 contest for the best band and drum corps represented at the convention.

INVOLVE ESCANABA YOUTH IN MURDER

Said to Have Participated in Slaying in Salt Lake City.

SALT LAKE CITY, Utah, Oct. 17.—By midnight tonight, three Salt Lake City officers will be speeding toward San Bernardino, Calif., where three young men, not yet of voting age, are waiting to be brought back to this city on the charge of murdering Patrolman David Crowther, of the local police force, last Saturday or Sunday. The youths, who confessed, according to the authorities, to the murder, say they will not make any fight against extradition.

All three of the young men, Robert Sanders, twenty, of Toledo, Ohio, said to have confessed to the actual murder, Fred D. Pont, also known as Joseph Maranga, of Escanaba, Mich.; and George Williams, nineteen, will be brought back.

THE WEATHER

For Escanaba and Vicinity: Unsettled tonight and Thursday; probably rain; cooler Friday; fresh, possibly strong, south and southeast winds probably shifting to northwest late Thursday.

Chiropractic

Oh! Those Terrible Headaches

Pity the woman broken in health who courageously fights to keep up and cheerfully minister to the comforts of the home. Hers is a sad lot and sad indeed are the homes wherein such a condition exists.

To such patient sufferers, with their highly nervous and complex organism, Chiropractic offers a sane and effective means of restoring functions, be they subnormal or super sensitive.

Those splitting headaches, which are merely the effects of one or several disorders that may exist in organs remote from the head are speedily and often permanently removed by Chiropractic spinal adjustments.

Thousands of women and girls who have failed to obtain relief after months and maybe years of suffering have been made well through Chiropractic adjustments which prove of effective value as a rejuvenator of functions depleted by derangement, by the removal of the cause, and the restoration of inactive nerves to full vitality.

Club Women of State Meet in "Auto City"

(Continued From Page One)
girls' scholarships, music memory contests and the planting of memorial trees have been stressed.

"The clubs of the southwestern district, like those of all the other districts have lived up to the watchword of our president. Service along the lines most needed by the home town, said Mrs. Henry Rosewarne, of Niles. Though many of them were handicapped by small membership

and limited funds, this deficit was more than counterbalanced by boundless enthusiasm, unflinching interest in the home town, and unlimited faith in the power of Michigan's womanhood to overcome all obstacles.

"Their line of activity embraces everything known to club woman to add to the beauty of the town or the pleasure and comfort of the people.

"Each club did its best, and I scarcely deem it fair to point with pride to any especial work. Each club deserves credit and praise. There is, I believe, a growing sense of individual responsibility among the women."

The effort of the southeast district during the past year has been directed toward a greater knowledge of the interest in legislation, education and state institutions, that every club woman might feel that these are not state problems alone, but local ones as well, according to Mrs. A. B. Cramer, of Detroit.

The past year being one of legislative activity, the district meeting was held in Lansing. Mr. Dennis Alward for 14 years was in congress, who has been for many years in his present position as clerk of the senate, gave much practical information about law-making in his talk. "The Processes of Legislation." An afternoon was spent in the legislature, where the actual work of law-making was in progress.

Thomas E. Johnson reviewed the educational program of the state, urging that equal opportunity be given children of the city and country. "The underprivileged child of the country may not always remain there, if he did, the city need not be concerned, but so often he finds his way to the centers of population and if unable to cope with his surroundings becomes a liability, equality of opportunity for every child, everywhere, will insure the future of our democracy.

Problems of state institutions were given special attention, and a committee appointed to visit the Industrial School and the School for the Blind.

While the above subjects have been stressed, the work of all other departments corresponding with the state federation departments has been pursued with great enthusiasm and success.

"The keynote of extending club privileges to women near and far is being sounded by women of the Upper Peninsula," said Mrs. W. W. Woodward of Ironwood, president of the Upper Peninsula district.

"Programs of work in conformity to state and general federations are being worked out by the majority of clubs. Following closely on these formalities comes actual work to be accomplished, service to be given the greatest number in the most efficient manner.

"The Ironwood Woman's club has just moved into new and beautiful quarters in the Municipal Memorial building just completed.

"Since the Upper Peninsula hopes to send a delegation of more than 50 women to the state federation meeting this may be taken as a sign that club activities are increasing in the district. Some years ago six or eight delegates was the average from our part of the state."

CHINESE DISCARDING NATIVE FOOTWEAR FOR LEATHER SHOES

PEKING, China.—Chinese are gradually taking to the use of leather shoes, according to J. C. Huston, American consul. Chinese who have not adopted the foreign style of footwear are beginning to use chrome leather shoes with their native cloth uppers.

Native shoes with chrome soles sell for \$1.60, while locally made foreign style shoes sell for \$5 a pair. The leather soles can outlast three cloth tops, it is stated.

The tanning centers are Kaigan for goat skins, Kiaosheng, near Taiyufu, for lamb skins, and Tiensin, where the leather tanned is usually cow hides and used mostly for shoes. There are three Chinese owned tanneries, and one Japanese owned in Tiensin. There is a slaughter house, Japanese owned, in Tiensin, which imports its cattle from Shantung.

The chemicals used for tanning are practically all imported from the United States.

Realizing An Ideal
The addition of The Journal's New Morning Edition is in keeping with The Journal's high ideals of giving the people of Upper Michigan and Wisconsin at all times the best possible newspaper service. It throws upon the screen of your understanding the living history of the state, the nation and the world. Read it daily! 290

TEKONSHA DOCTOR, 78, HURT BY MOTOR CAR

(By the Associated Press)
MASHAUL, Mich., Oct. 17.—Dr. F. A. Warren, 78 years old, graduate from the Detroit Medical college in 1875, and since practicing at Tekonsha, was hit late Sunday by an automobile driven by George Brott, 16 years old. He was taken to Wade hospital in Coldwater, where an examination showed both bones in his right leg broken below the knee. His head and left leg were cut.

NEWBOLD BOY, RIDING HORSE, HIT BY AUTO

(By the Associated Press)
RHINELANDER, Wis.—Wayne Rice, 16 years old, son of Mr. and Mrs. Fred Rice, of the town of Newbold, was severely bruised when struck by an automobile here while horseback riding. The horse was so badly hurt that it was necessary to shoot it. This is the second accident of the same nature to befall young Rice within the last six weeks.

Mariner Blames Strange Force for Wrecks in Pacific

LOS ANGELES, Oct. 17.—Neither tidal wave nor currents of seismic origin, but some other strange force was responsible for the recent wreck of seven United States destroyers and the crash a few days later of the super-dreadnaught Texas and the freighter Steel Seafarer in the waters off Point Arguello, north of Santa Barbara, Calif., according to Captain Alfred Davis, a mariner of the old school who sailed his clipper ship around the Horn a decade ago.

The west entrance to Santa Barbara channel, between Point Conception and San Miguel islands, always has been in ill repute among seafaring men, said Captain Davis. Its nickname, "the graveyard of ships," was earned about the time of Cabrillo, who there lost his life and was buried on one of the channel islands, according to stories which have become legends. It is said at no other point on the Pacific have so many ships met disaster, and always the cause remained a mystery.

Captain Davis said he recalls many wrecks along the coast near Point Arguello dating back to the time of the mystery disaster of the Golden Horn. Always, said the old sea captain, those who escaped alive from the wrecks, when any escaped, have had the same story to tell, of suddenly becoming enveloped in a fog and then, without warning, crashing on rocks. Invariably, he said, the navigators had thought themselves in mid-channel, their instruments showing them to be on a safe course, when in reality they were miles from their course.

"Something unexplained by scientists," declared Captain Davis, "beckons the ships to shore, and every man who sailed this coast for any length of time knows that something will get him if he doesn't watch out."

Mrs. Wm. Peterson Was Surprised By Ford River Women

Mrs. William Peterson, proprietor of the Tea Room at Ford River, was surprised Monday afternoon by a number of her friends in that vicinity when they dropped into the Tea Room while Mrs. Peterson was putting things away for the closed winter season. The women brought an enormous birthday cake, nicely decorated with—well with a number of candles and had provided as well plenty of other lunch necessities.

Yes, it was Mrs. Peterson's birthday and her friends wanted her to know that they knew it and to make doubly certain that they knew it, they presented her with a handsome silk umbrella and a light weight shot gun, for Mrs. Peterson is almost as good a hunter as she is a cook. The afternoon was delightfully spent.

The New Revelation
Thousands of morning news readers through Wisconsin and Upper Michigan have discovered new morning news satisfaction through reading the New Morning Edition of The Milwaukee Journal. The Journal's superiority in its presentation of state, national and world news is natural, because The Journal has better facilities for gathering news than any other newspaper circulated for Upper Michigan and Wisconsin readers. 290

Glen Snyder, in China, Tells of Work There

(Continued from Page One)

old Escanaba and try to talk as a chink I will be in your mits very soon. To do anything correctly in China you just do the opposite to what you would do in America. Spitting on the street, for example, is polite in Wuchang. I now speak Chinese fluently and in fact until the arrival of the new American Fathers it was common for us to always use Chinese or Italian in all our conversation. I have become so used to Chinese that I find myself thinking in that language. As to coming back to America, well that is in the hands of God. I really do not know how soon I can get away but hope to see you in another year when I will perhaps come home for a lecture tour. We must make Americans acquainted with the work we American Franciscans are doing for the Chinese.

Last week I baptized my thirty-ninth dying Chinese. During the Civil war of two years ago, I was in charge of the Hankow branch of the International Red Cross and had the happiness of assisting thirty-four pagan soldiers whom I instructed and baptized before their deaths. As for the others you can read about them in our monthly, a copy of which will be forwarded to you each month.

Chinese Condition Terrible.

China is in a terrible condition, no government, civil wars, bandits and troubles in every province except Shanghai. One of our priests, Father Angelico Wolloto, who has labored in Hupeh for over thirty years and is now past sixty years of age, was captured by bandits seven weeks ago and in still in their hands in spite of all efforts of French and Italian consuls in Hankow and Peking. We now believe that he is dead because recently we have not been able to get any message to or from him. Night before last the large city of Tsaoosh was looted and burned. Our two priests escaped by disguising themselves, but the church and residence (both new) were burned. So was the hospital and residences of the London Mission. Only about one third of the city remains, the rest was all burned. And so it has been recently with dozens of places equally as large. The provincial governments are controlled by governors called Tu-chwins and these are little independent kings who take no orders from the central government in Pe-

king. They in turn are controlled by larger military men and so it is going from bad to worse. If anybody tells you that China is a poor down-trodden republic you tell them to put that statement in Henry Ford or Joe Miller's joke books, for that is where it belongs.

Chinese Not Peaceful.

"Another myth is that 'peaceful Chinaman' phrase so loved by American papers. A true history of China will show that they never had ten years of peace in all their four thousand years of history. She has the largest standing army of any nation in the world today and all well drilled in German style by German officials and well equipped with small arms which they can use quite effectively, (in robbing but not to fight) but none of them are under the control of the president.

Very Hot in Wuchang.
"You have nothing on us in the way of heat. Ninety-two degrees in

Escanaba is hot that is certain, but so is 110 degrees and with us it is not the number of degrees shown by the mercury, but the depressing humidity that counts. Some days with a hundred are much more pleasant than others at eighty. Then you can count on a lake breeze, whereas we have both days and nights without a breath of air. But on the other hand we are eating oranges when you are dodging snowballs. It rarely gets below freezing in Hupeh.

"I am sorry that I have no picture of myself to send you at present; I have a white beard now, my hair, what there is left of it, is getting the same color and I can about equal you on the scales. I look about fifty or sixty, but feel just as young and healthy as the last time I saw you.

"Father Ulrich, to whom I read your letter, wishes to be remembered to you and hopes also to hear from you. Your old friend,
"(GLEN) BRO. BENEDICT SNYDER."

IMMIGRATION POLICY.

Insistent discussion of immigration problems is moving Washington to formulate legislation on the subject which will constitute a considerable item on the new congressional program.

Instead of a miscellany of rules, the proposal seeks first to establish a single code embracing present regulations covering immigration, naturalization and exclusion.

The feature of the proposal which implies a capacity for arousing argument is a scheme to swing the balance of immigration sharply back to Northern Europe.

POSTAL EFFICIENCY.

Evidence that business efficiency and economy have been injected into the postal department at Washington is proved in persistent tests in air transportation of the mails.

During the war period, when the annual reports of the postal department revealed growing deficits, business moguls were prone to offer their personal services in placing the United States mails on a self-supporting and even paying basis.

WEATHER SUPERSTITIONS.

If you were brought up in the country you must have heard that when the moon was full the weather was sure to be cold, and that it was quite providential that this was so.

THOUGHTS OF HALLOWE'EN.

Hallowe'en with all its mystery is approaching rapidly. Be there one in Escanaba with sense so dulled that he or she is not aware of this fact, let him or her appear and be marked "Exhibits A or B."

Then there is the line storm. From time immemorial people have associated any storm that came within five days on either side of September 21 as due to the passing of the sun across the equator on its southward journey.

SMART AUTUMN SUGGESTION

Here is one of the most attractive of the Fall offerings—a cape that may be developed in the twillcoors or soft pile fabrics. The collar may be closed to the neck or rolled with the fronts of the wrap.

Automobilists who object to jay walking can encourage the other kind of making it a little easier for pedestrians to cross the streets at the corners.

FLINGS AT FOLLY

Autumn is all too brief. New York is bidding for the Democratic convention. Actually bidding. There are no detours on the straight and narrow.

Europe appears to be trying to prove that the lack of money may also be the root of something or other.

This appears to be the psychological moment for Indians to petition Washington for the return of Oklahoma.

Russia is safe enough. It's the only country where a man can live to be assassinated thirty-four times.

Don't poke fun at family trees. Ancestry is a mighty fine thing for one who feels the need of it.

Mussolini knows the ancient trick of keeping the people loyal to him by keeping them mad at somebody else.

Correct this sentence: "Eight of my members have become rich," declared the preacher, "but all take undiminished interest in the church work."

Other drivers include: Harry Hartz, Tommy Milton, Earl Cooper, Bennett Hill, Dave Lewis, Jerry Wunderlich, Harlan Fengler, Frank Elliott and Leon Duray.

Kansas City Auto Race May Decide New Speed King

KANSAS CITY, Oct. 17.—The national automobile racing championship for 1923 probably will be determined here Thursday, October 18, when leading drivers of the racing world pilot their roaring motors about the wooden saucer in a 250-mile speed classic.

Eddie Hearne, now leading in points for the 1923 racing laurels, will be here to defend his lead. His most dangerous contender will be Jimmy Murphy, who cabled from abroad that he sailed September 29 for the United States and would be in Kansas City for the race.

Twenty-five thousand dollars in prizes will be divided. First place will draw \$9,000; second, \$4,500; third, \$2,500; fourth, \$1,750; fifth, \$1,250; sixth, \$1,000; seventh, \$800; eighth, \$700; and ninth and tenth, \$500 each.

Other drivers include: Harry Hartz, Tommy Milton, Earl Cooper, Bennett Hill, Dave Lewis, Jerry Wunderlich, Harlan Fengler, Frank Elliott and Leon Duray.

Three Billion Pounds of Ice Needed for Fruit Shipment. (By the Associated Press) LOS ANGELES, Oct. 16.—When the 120,000 refrigerated cars of produce now in process of being moved eastward from Southern California will have reached their destination, their consumption of ice to keep their perishable contents fresh will total 3,000,000,000 pounds, according to a semi-official survey completed here.

For every car of fruits and vegetables that leaves this section, eight tons of ice are required for the initial icing. Between Los Angeles and Chicago another seven tons are used. If a car goes farther, to New York or some other Atlantic seaboard point, four more tons must be added.

An unusual type of shipment being handled in completely iced cars is bees. In order to move a carload of the honey-makers eastward, it is necessary to lower the temperature of the car to offset the body heat generated by the millions of busy insects, and thus sustain life by bringing about what might be termed artificial hibernation.

Blind See Dance With Their Ears And Enjoy Treat

LANSING, Mich., Oct. 17.—An unusual form of entertainment was offered recently to about 150 inmates of the Michigan School for the Blind here. The program, which was put on by a dozen members of a theatrical company, consisted mostly of soft shoe dancing. The sightless audience appeared to enjoy it immensely.

They explained afterward that they "saw" the dancing through their ears. According to physicians and officials of the school, the sense of hearing is so highly developed in the average blind person that the idea of staging a dancing exhibition for a blind audience was not at all ludicrous. They asserted that the school inmates can distinguish good dancing from bad dancing readily, and can follow the fantastic dance steps by ear nearly as well as the person who can see.

Daily Fashion Hint

SMART AUTUMN SUGGESTION Here is one of the most attractive of the Fall offerings—a cape that may be developed in the twillcoors or soft pile fabrics. The collar may be closed to the neck or rolled with the fronts of the wrap.

Satisfaction Is Part of the Bargain

When a suit of clothes we make is finished and tied up in a box for delivery, the owner of that suit may well feel at ease as to its quality, cut, fit and general workmanship.

Our Fall fabrics are unusually pleasing to the eye and are of extra good quality—we'd be pleased to have you inspect them now while the exclusive patterns are plentiful.

Carl Jackson 1014 Ludington St. Phone 96

DUMBBELL DAN—By STANLEY Mac GOVERN

You've Got a Tough Customer Here, Dan

CAN THE PUBLIC HEALTH NURSE DO MORE TO REDUCE THE DEATH RATE OF MOTHERS AND INFANTS?

Subject Was Topic of Discussion in Detroit Today.

Prominent Educator of Rochester, N. Y., Tells What Has Been Accomplished There.

DETROIT, Oct. 17.—In spite of national legislation and other organized effort to reduce maternal and infant death rates, medical and public health workers today are having to face the fact that the present high mortality among mothers is on the increase in this country, was the declaration made today by Miss Mary Laird, director of the Public Health Nursing Association of Rochester, N. Y., in an address before the delegates attending the annual meeting of the American Child Health Association at Hotel Statler. Miss Laird's topic was "Can the Public Health Nurse Do More to Reduce the Death Rate of Mothers and Infants?"

have not prepared your students for this very important field of work, have you given them the fundamentals in their training? "Is it not probable that when a physician is called into a maternity case in an emergency—and the excuse the physician gives us when calling us in when the baby is born is that it was an emergency to him—he could make a greater impression on the family by emphasizing the benefit to them of pre-natal care, just as the nurse is expected to get this education over the family, so that they will never again make maternity an emergency? "We have found that our nurses could accomplish far more for the patients when our contacts with the family were made in the pre-natal period with the mother. Even though they did not appreciate the pre-natal care, they had increased respect for the nurse's instructions during the after period, because of the service she gave when the baby was born and during convalescence. "The road to progress in this work, and to vital saving of lives of mothers and babies now lost through being born too late, Miss Laird pointed out, lies in preparing better women for more thorough and detailed nursing work, in organized cooperation with physicians, health, and social agencies toward bringing mothers under care, and in increasing locally, as in the district in which her demonstration was made, facilities for continuous pre-natal, confinement, and post-natal work.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients. While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

FARM SCHOOL WILL TEACH FARMERS IN SHORT TERM COURSE

Agricultural College Offers the Farmers of State Chance to Get Technical Training Now.

EAST LANSING, Mich., Oct. 17.—Beginning in the final days of this month and running through to the latter part of March, the Michigan Agricultural College here will offer courses of instruction to enable any Michigan farmer to be a more practical agriculturist than he is at present. The longest "short" course, general agriculture, is divided into two terms of two months each, with other courses receding in length until one subject of but two weeks' duration is offered. To make certain that the work offered in the school fits into the work on the farm, a second course in general agriculture is offered which requires only eight weeks per winter, two winters being necessary to complete the work.

In addition to the general agriculture courses, dairy production, dairy manufacture, horticulture, poultry, farm engineering, truck and tractor, and ice cream making courses are offered. One of the unusual courses offered is that of eight weeks in farm engineering, intended for the farmer who contemplates building. The subjects presented are farm buildings, with an additional presentation of conveniences, the problems of drainage, actual shop work and a study of equipment and a short course.

While the faculty of short courses feel that "all make greater progress" aided with a good grade school educational foundation, none is barred from the courses, the faculty believing that any man familiar with farm life can assimilate the training.

Ouch! My Back! Rub Lumbago Pain Away

Rub Backache away with small trial bottle of old "St. Jacobs Oil."

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone. Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints!

HOOVER IGNORED WHILE DETROIT CHEERS CHAPLIN

Comedian Given Great Ovation by Residents of Detroit.

Charlie Says the World Needs Lots More Play; Visits High School and Meets Henry Ford.

DETROIT, Mich., Oct. 17.—Charlie Chaplin, wag of the world and droll posturist, who has caused a million sides to shake and a million eyes to run with the tears of laughter, owned Detroit Monday. One, the profound artist, debated the relation of art to religion, placed on the griddle what he called smart—Alecxy pseudo-intellectualism, talked earnestly with Henry Ford, and gave his opinion that "all work and no play makes the world, as well as Jack, a dull boy." The other Charlie, the human clown of the celluloid, picked up his glass at the luncheon table and said: "Well, boys, here's to crime," painted the sort of wife he wanted, joshed policemen, snapped his derby into the air, to the glee of hysterical school children, and stopped to shake a chambermaid's "od and autograph something."

way Strand and Chaplin, an obscure performer, appeared there.

"I remember I was supposed to be very funny, and I came rushing on," Chaplin mused. An expressive gesture. "Bah! It was pretty bad, I admit, but I recall that Detroit was harder on us than any other town."

Charlie a Philosopher. He was at a Statler window looking down at the throng that settled on the sidewalks. "And now they fight to see me, Me just a motion picture actor. Strange thing, this fame," he said. "It seems to come from nowhere, like that." He snapped his fingers. "And it goes as it comes." I suppose, God love 'em, they're disappointed because I didn't get off the train with a piece of pie in each hand.

Interested in Failures. The men about him were talking of Chaplin's rise. "It isn't the great who always succeed," he put in. "The brilliant failure interests me most. He has been mellowed by his defeats. Success hardens man."

He took another tangent: "Have you noticed the intolerance in which we're steeped in America? Suppose it's because we're a v country and we go to extremes in everything. "We have a tendency to be dogmatic, to state things as if they were indisputable and as if there

wasn't another side—"There's a chambermaid wants to know if you would—"some one placed a card on the tablecloth and asked him to autograph it. "Oh, the dear, is she good-looking?" He signed it. Cheers cast up by the mob below rattled the window panes, and Chaplin responded to the signal by pushing his chair back.

Crowd Ignores Hoover. Chaplin's capture of the city was complete. Herbert Hoover, secretary of commerce of the United States, arrived on the same train with him, but while porters fought for Chaplin's bag and hundreds fought for a look at the comedian, Hoover came down the platform ignored. He couldn't even find anybody to carry his luggage.

A human lane led from the curb to elevator entrance at the Statler—there he is people, hello, Charlie people, see-baby-there-he-is people. Hoover came in another door unnoticed. The man who had fed millions was an almsman compared to the man who had made millions laugh.

Visits High School. In Chaplin's official party were Hilram Abrams, president of the United Artists' corporation, which syndicates the films of Chaplin, Mary Pickford, Douglas Fairbanks and David E. Griffith; Arthur W. Kelley, Chaplin's personal representative, and Fred Schaefer, another official of the United Artists.

Western, Northwestern, Eastern and Highland Park high schools were visited, along with three private schools. After a visit to the city hall to meet acting Mayor John Lodge and members of the council and inspection of the Cadillac plant, the comedian was met by Henry and Edsel Ford at the Highland Park Ford plant in the afternoon and taken through the factory.

"I have come 20 miles from Dearborn to see you," Mr. Ford greeted to see you." They talked long and earnestly as they walked through the aisles and watched Fords poured out like newspapers off a press. "You keep on making us laugh," said Henry Ford as they said goodbye, and had been photographed together 50 times. Board of Commerce members and their wives met Chaplin at a dinner in the board's auditorium in the evening.

MANY GIRLS DID NOT MAKE GOOD IN FACTORY WORK

Efficiency Man Proves That Women Were Not Able to Maintain Production in Plants.

DETROIT, Oct. 17.—Business efficiency and not a slackening of production has lopped hundreds of women and girls from the payrolls of Detroit factories within the past month and eliminated whatever shortage of feminine labor that may have existed, according to records of the Michigan Free Employment Bureau here. This has resulted in the return to their homes of scores of girls, mostly from rural communities, who have come to Detroit, lured by the false promise of money for little work, an official of the bureau said today.

Nowhere has the trend toward greater efficiency been revealed more than in the employment bureau figures. The sweeping strokes of efficiency experts have been keenly felt in that class of labor with which employment bureaus have most to do. Minor office help and certain branches of factory work done by women have been first to feel the blade of those charged with the task of maintaining production and at the same time lowering expenses. The tendency toward industrial economy has been unmistakable in Detroit factories for several weeks, according to Miss Agnes Palmer of the State Free Employment Bureau.

other office help were released. The company, in announcing the reduction in its force, asserted that business is as brisk as before and that despite the curtailment of the office force, the same work is being done by those remaining, thus effecting a saving of the wages of 250 employees without any diminution of the efficiency of the organization.

In explanation, the company efficiency department reported that many hands make for less work, a greater degree of efficiency being possible with a compact office force.

Another deterrent facing girls from out-state points seeking employment here is that many of the places to be filled are those requiring skill in operating machines which few of the job seekers possess.

There is at the present time, according to Miss Palmer, a healthy demand for expert stenographers, not only in Detroit, but in smaller cities of the state. Despite the fact that these out-state positions in most cases pay as much as for the same work in Detroit, most girls pick the Detroit openings rather than those outside the city, although living costs are much higher here.

An index of conditions elsewhere in the east, middle west and south is found in the number of applications for employment received by Miss Palmer. Slackened conditions in other communities, always result in an influx of girls from those places to Detroit, which seems to bear perennially as the promise of a better life. The promise of plenty of work at good money is the lure that brings thousands of girls from every section of the country here, she said. When the girls arrive in Detroit they find the situation here is much the same as elsewhere; wages are good only for those competent and trained to earn a good wage. Unskilled labor is plentiful, Detroit itself being able to supply its own needs without help from the outside. Miss Palmer puts it this way: There are plenty of jobs for girls in Detroit—but the jobs aren't filled, with no immediate indication of a shortage of help.

For Sale

5-room house on corner lot, in good location. Price only \$1500. This property is offered very much under value, the owner, a widow, is ill and wants to sell. If this is the class of property you are looking for, or if you want to buy only a real sure snap, you will have to act quick or you will lose this chance.

Even cash in city on worthy need, with buildings, worth \$1,000. Price only \$500. Good reason for

fine central location. Price only \$3,000.

City Property, Farm and Cut-Over Lands. 1120 Second Ave. S. Phone 412-J

PEARS FOR CANNING

We have just received a car load of Michigan Keifer Pears—the best pear in the world for canning purposes. Ask your grocer for these pears. A car load is not much for a town the size of Escanaba, so you had better hurry. The price is exceptionally low—probably at its very lowest point right now.

The GAMBLE-ROBINSON Co

BATTERY AND ELECTRIC SERVICE—NO RENTAL CHARGE!

We are now prepared to recharge 100 Batteries every 24 hours. We have one of the largest and most up-to-date repair shops in the city. With our modern equipment we can recharge your storage battery in six hours, if necessary; however, we strongly discourage a hurried recharge, as it is injurious to your battery. We recommend a 24-hour charge. Many new batteries have come to our hands in a ruined condition, on account of either an over-charge or a hurried charge by inexperienced battery men. Your run-down battery will be recharged by us correctly. Remember—NO RENTAL CHARGE ON OUR LOANERS. We do not experiment; we correct all makes of batteries and ignition systems.

SOCIETY

Birthday Party.
A very pleasant birthday party was held in honor of Miss Veronica Fallie at her home, 409 South Sixteenth street. The guests were Clifford O'Donnell, Alice and Evelyn Koshab, Marvin and Henry Barbeau, Blanche and Lucille Lauzon, Lillian Demars, Bertha Mayou, Wilfred Ladissier, Gordon Bennett, Hyacinth Whiston, Alice Harwood, Glen Gaudin, Russel Carlson and Hugh Fallie. The evening was opened by dancing and playing games. A lunch was also served by Mrs. Fallie.
James Rivert has purchased a section of land in Schoolcraft county near Steuben and will cut it over this winter. He has already built his camps and will move on the land immediately.

Hard Times Party.
The Evening Star Society will give a Hard Time party Thursday evening, October 18th, at the North Star hall. Prizes will be awarded for the best Hard Time outfits. This party is for the members and their invited

friends. A delicious lunch will be served and it is expected a large crowd will attend.

GIRL AND TWO WOMEN AUTO CRASH VICTIMS
MARSHFIELD—Two serious auto accidents occurred here Monday. While racing with a Soo Line passenger on highway 13 a roadster owned by the Adler Theater Company and driven by an employe, hit Marcella Daum, 19, playing in the road in front of a rural school, 6 miles northwest of Marshfield. She was brought to St. Joseph's hospital in Marshfield and is in a serious condition. In the second accident, Leo Seubert, farmer, driving a car without lights Monday night struck Mrs. Herman Ihlenfeldt and Mrs. Elizabeth Mess. The latter was knocked down and is in the hospital in a serious condition.

HUNTER SHOT BY PAL, ON WAY TO RECOVERY
NEW LONDON, Wis.—Claude Dexter, 17, of this city, was accidentally shot by his companion, while they were hunting. He will recover.

BILL TO CUT WOMEN'S WORKING WEEK BEATEN
PORTLAND, Me.—Defeat of the proposed law to reduce the maximum working week for women and minors from 54 to 48 hours, by a margin of 15,000 votes, was indicated Tuesday with returns from the rural district slowly coming in. Voting in the special election was light. Complete returns from all important industrial centers and thickly settled areas showed proponents of the measure had polled 27,768 votes, while 35,349 ballots had been cast against it.

AUTO GOES IN DITCH, DRIVER TO HOSPITAL
RIO CREEK, Wis.—Donald Pfeil is in a hospital with a broken leg, sustained while motoring through Rio Creek when his car went into a ditch and struck a telephone pole.

BOAST OF SECOND RASPBERRY CROP BAILEY'S HARBOR, Wis.—Mr. and Mrs. Harry Koplak are canning raspberries. The bushes were set out early in the spring and are bearing a second crop of berries.

DETROITER WILLED \$400,000 ESTATE
PONTIAC, Oct. 17.—An estate of \$400,000 was left by James Parshall, nonagenarian, who died here October 9. It is represented mostly in real estate in Detroit, at 160 North Woodward avenue. Parshall formerly was proprietor of the Finney hotel in Detroit. A son, Dr. Homer Parshall, of Detroit, is the sole heir, and is named administrator.

FORESTVILLE AUTOIST PINNED UNDER CAR
FORESTVILLE, Wis.—Mrs. John Seiler was injured while returning from Algoma when the auto in which she was riding turned over. John Seiler was driving the machine. He escaped injury. The car turned over, pinning Mrs. Seiler beneath.

VETERAN LOCK TENDER DIES.
SAULT STE. MARIE—Lawrence Ermatinger, 61, for 42 years an employe at the locks here, died Tuesday following a stroke of paralysis. Ermatinger has seen the Sault grom from an Indian village to a city of importance.

OBITUARY

HARRIS FUNERAL TOMORROW.
The funeral of the late Bagley A. Harris, whose death occurred at Goodman at an early hour Monday morning, will be held at the home of his son, Earl B. Harris, on Lake Shore Drive, tomorrow afternoon at 2:30 o'clock. Rev. Harry W. Staver of the First Presbyterian church, officiating.
The deceased was very well known in Escanaba, having lived at Wells for a number of years where he was employed by the I. Stephenson company. His sudden death, coming as it did but a few weeks after the death of his son, Glen, is a severe shock to the other members of the family. As soon as word reached here, Earl Harris of this city left for Goodman, accompanied by Rev. Staver, who remained there until Tuesday afternoon when services were held prior to the removal of the body to this city.
The deceased is survived by his wife, two daughters and three sons: Mrs. George B. Houghton and Miss Mae Harris, of Goodman; Dr. Bruce Harris, of New York City; Ray Harris, of Laurel, and Earl B. Harris, of this city. It is expected that all members of the family will arrive for the funeral tomorrow afternoon.

SIMPLE SENSIBLE SYSTEMATIC

A Checking Account is all the things—and more. It is SIMPLE, you place it in an envelope and mail it to the place you wish to pay. It is SENSIBLE because it enables you to pay your bills without waste of time and loss of money and it is SYSTEMATIC because it enables you to keep accurate accounts of where every penny goes.

MRS. ADELE COOKE.
Mrs. Adele Cooke, aged 81 years and the mother of Mrs. C. H. Henderson, passed away at the Henderson home Monday night after having been an invalid for the past six years. During her residence in this city the aged woman made a large circle of friends and endeavored herself to them by her patient and kindly ways. Last evening at 7 o'clock a short service was held at the home and then the body was taken to Baraboo, which was the former home of the deceased. The only relatives surviving are the members of the Henderson family.

Downpour Welcomed and Firemen Rest
(Continued from Page One)
Bodies Found Monday.
The bodies of the victims were found about 5 o'clock Monday afternoon, but the fact that the men were dead was not definitely known until Tuesday morning, the report being brought to the Lake Independence Lumber Company's office by an employe of the Brunswick-Blake Colliery Company. About an hour later Henry J. Koopp, district fire warden and Irving H. Argall, corner, who reached Camp 1 about 6 o'clock a. m., coming from Marquette through the fire-stricken district and related details of the tragedy, which could not be verified because fires made the roads impassable between Big Bay and Camp 1.

POX EPIDEMIC FAILS TO FRIGHTEN PASTORS
HOLLAND, Mich.—Holland churches held services Sunday, despite the suggestion of Dr. Godfrey, health officer, that the churches be closed because of the smallpox epidemic. Mayor Stephen criticised the health officer for making the request and says he does not believe the situation here warrants such drastic action.
There are 26 cases of smallpox in the city.

MADISON BOY, 14, DIES IN TUMBLE DOWN STAIRS
MADISON—William Hoffman, 14, son of Mrs. Mae Hoffman, was killed almost instantly Monday noon when he fell headlong down the stairway in his home. His neck was broken. The lad, a student at the Brayton school, had eaten a hasty luncheon, and was hurrying back to school. It is believed that he tripped near the top of the stairway.

S. DAKOTA TO START "FORD FOR PRESIDENT" CLUBS
MITCHELL, S. D.—Tom Ayres, head of the new farmer-labor party in South Dakota, announced that he had received word from Henry Ford, that the automobile manufacturer had no objection to the formation of "Ford for President" clubs in this state. Ayres said that formation of the clubs would be started next month.

Lumber Camps Destroyed.
HOUGHTON, Mich.—The Greenwood Lumber Company's camps ten miles west of Ontonagon were destroyed by forest fires. The large crew of men barely escaped.
The fire traveled so rapidly that there was no time to save either horses or automobiles at the camps. Sixteen horses and three automobiles were destroyed as well as buildings and logging outfits.
Fires also are serious in the Union Bay district and Porcupine mountains in Ontonagon county, having penetrated the big timber.
Hunters who went out in the Union Bay district were hemmed in by fire and only escaped by dashing through.
Telephone poles were burned throughout the fire area and wires are down.

Situation Better
ST. PAUL, Minn., Oct. 17.—Although the danger is not passed, the forest fire situation in northern Minnesota, which flared suddenly Monday afternoon in the fact of a strong southwest wind, was much improved tonight with most of the fires under control, according to W. T. Cox, state forester.
Large crews were at work on all of the more threatening fires and aided by the cloudy, camp weather conditions. It was hoped they would be held within their present limits.
Although a fairly strong southwest breeze swept the forest country yesterday, light showers and heavy mist had dampened the dead leaves and

underbrush so that the flames were making slow progress if they were running at all.

SURVEYORS FIND A SEPTEMBER MORN IN OREGON FOREST ROCK
SAN FRANCISCO, Oct. 17.—A life-size figure of a nude woman, carved in stone, has been found in the heart of an Oregon forest by surveyors of the Southern Pacific railroad, according to the company's officials. The work of art was found by a surveying crew about four miles west of Crater Lake, Oregon.
The figure is pitted and weather beaten and shows the mark of time and exposure. Art students declare that if carved by an artist it would have required from four to five months of constant work.
The figure is an integral part of a huge rock, and the woman is sitting at the base of the rock with her head resting on her arms.
