FIST FIGHT IN OKLAHOMA HOUSE TODAY

REPRESENTATIVE CALLAHAN IS THROWN FROM CHAMBER WHEN HE SAID JEWETT RULED HOUSE

It's a "Black Lie" Shouted One Member of the House.

Fifteen Members Pile on Top of Walton Defender and House Is Thrown into an Uproar.

Oklahoma City, Oct. 25.—A dozen or more house members forcibly attacked Representative Callahan, smashed a chair and threw Callahan out of the room, when he declared in a bitter arraignment of the Ku Klux Klan just before the noon recess of the Oklahoma house today, that N. C. Jewett, Grand Dragon of the Oklahoma Klan, was dictating the kind of legislation to be enacted in Oklahoma.

Callahan's words hardly fell in the house chambers before one member shouted, "That's a black lie."

Swings at Throat.

Another member sprang at Callahan's throat, both falling in a scuffle. Fifteen other members rushed at Callahan, most of them endeavoring to place their hands on him. The sergeant at arms and virtually all other members of the house rushed to the corner where the scuffle was taking place.

Clinched fists were waving in the air as Callahan was forcibly ejected into a coat room, where he stood guarded by two members, after the sergeant at arms had ordered every member back into the chambers.

Ended Long Debate.

Callahan's attack on the Klan occurred after a long debate whether or not the house would vote for impeachment of Walton on Article 10, which concerns his declaration of martial law in Tulsa county.

Callahan said that 90 per cent of the jury commission in the state were members of the Ku Klux Klan.

"The people in this state have been tried in secret before they reach the court room," he declared. "Do you know that 90 per cent of the Oklahoma jury commission are Klansmen?" one member demanded.

"Yes, sir, I know it," shouted Callahan.

He then rebuked Gov. Walton declared war on the Klan and how Grand Dragon Jewett almost immediately defied the executive to overthrow the Ku Klux Klan.

"This same Mr. Jewett," asserted Callahan, waving his arms and vigorously shaking his head, "is dictating the kind of legislature by this body. He—" Here Representative Callahan was interrupted as there was loud cries from all over the house chamber and the members sprang at him.

The force of the attack forced Callahan into a chair behind him, crushed it and the two legislators went to the floor, surrounded almost immediately by a group of indignant house members.

THE WEATHER

For Escanaba and Vicinity: Cloudy tonight and Friday; probably rain or snow tonight; somewhat colder to-night; moderate to fresh northwest winds.

The rail family contains 180 species of small or medium sized birds.

Investigators Will Halt Until Monday

(By the Associated Press) WASHINGTON, Oct. 25.—Having heard a rather startling story from J. H. Mortimer of Philadelphia as to his relations with Charles R. Forbes, former director of the Veterans' bureau while he was seeking a contract from the bureau last year for the construction of a hospital, the senate investigating committee adjourned until Monday.

STAMBO PAYS GOOD SALARIES

Interesting Information Given by Iron Mountain News-paper.

(Mining Journal) Ever since the Iron Mountain American Legion football team held the crack Bessemer outfit to a 3 to 2 game at Iron Mountain, sport writers of the Gogebic range have been giving all sorts of excuses for the Bessemer eleven. Clyde McCauley, the Iron Mountain News scribe, takes exception to statements made by W. C. Janson, of Ironwood, a former Escanaba newspaper man.

The "squabble" will be of interest to fans of the pickin because the Iron Mountain writers tell something of the expensive line-up of the Stambaugh All Stars, who will appear on the Ishpeming gridiron Sunday against the Ishpeming Legion eleven.

The News had the following: "And now comes W. C. Janson, self-appointed czar of all sport matters in the well-known I. P. with another 'I told you so.' Sure, it refers to Iron Mountain; to the Iron Mountain-Stambaugh All Stars game of last Sunday."

"Hearken to this, from Janson's mouthpiece, the Ironwood Globe: "Stambaugh's victory over Iron Mountain yesterday, and the All Stars playing with a crippled squad, convinces us that Iron Mountain is in the class that we judged for to be. Comparative scores would indicate that Bessemer should have defeated Iron Mountain by two touchdowns and that Stambaugh and Bessemer would fight almost to a stand-still. Of course, there are those who take exception to such a comparison, but sometimes dope works out pretty well."

"Mr. Janson didn't see the game—hasn't seen Iron Mountain play in the last three years, but if he says Iron Mountain isn't what it's cracked up to be, it must be right because he says so."

They Sure Were Crippled. "Now to find the usual flaws in the czar's article. 'The All Stars playing with a crippled squad' didn't have a crippled squad a-tall. They had, however, a 'loaded' team. They played in Ironwood the week before and got 'hep' to some stuff up there. When they have a hard game they do three things—burn up the wires, load up and then pay up. Kleibon and Ward Stambaugh men? Yeh—for a day, and at \$50 a day. Turosky, too, told Iron Mountain players he received \$50 before the game, before he would put on a uniform, and \$50 immediately after the game. No, Stambaugh didn't have a crippled team by any means, unless it was crippled financially as a result of the loading up process."

Miss Irene Wickland, 100 South Sheridan Road, who has been taking a post-graduate course at Escanaba High School, has dropped her course.

JUDGE GLASER PASSED AWAY EARLY TODAY

Military Funeral Will Be Held Saturday Afternoon.

Has Been Active Up to a Few Weeks Ago; Saw Town Grow From Village to Large City.

Judge Glaser is dead. To one who has known him from his earliest memory, this seems to be something that cannot be. It has always seemed that Judge Glaser, with his kindly face and snow white hair, was part of the community life that could not change and would go on forever like people and things that are right and good ought to.

Still Judge Glaser passed away this morning after several weeks' illness, from which his friends and family hoped he might recover. He made a brave and gallant fight against the complications that come with old age and was patient and lovable even to the last. During his long weeks of illness, though very weak, he still maintained those lovable characteristics which have endeared him to all who have known him these many years and expressed an earnest desire many times to see his old friends. When they called at the home he requested that they be brought to his bedside where he might grasp them by the hand and perhaps look into their faces for the last time on this earth, for he knew that the end was drawing near.

The judge lived his home, his family and his friends. His was an enviable nature and many people who have come in contact with him in his capacity as a justice of the peace have said first to all that he had a kind heart.

To write a story of the life of Judge Glaser would be like writing the history of the city, for he was very much a part of it. The oldest living inhabitant today cannot look back to the time when Judge Glaser was not an active part of the life of the city. On two or three occasions he has been ill, but not for long and he was soon able to get to the office and was seen upon the street in the summer and other offices.

Everyone knew him. Everyone loved him and everyone is going to miss him. Many were the expressions of sincere regret and deepest sorrow heard upon the streets today when the sad news of his death during the early morning hours was spread over the city, for Judge Glaser was a friend to all.

In addition to his wife the judge is survived by two daughters, Mr. Lucy Glaser of Milwaukee and Miss Ida Glaser of Madison, both of whom (Continued on Page Six)

Serpentine Party at the Coliseum

The novelty feature prepared by Manager Flath for the many patrons of the Coliseum roller rink this evening is known as a "Serpentine Party." This is an entirely new feature and has never before been staged in the local rink, and it is anticipated that it will be highly entertaining to all attending. The feature acts being put on this year are highly enjoyable and in consequence the roller rink is becoming more popular than ever.

The special Children's Matinee will be held Saturday afternoon. Extensive plans are being made for the first Masquerade of the season at which the Coliseum will award twelve prizes, six for the ladies and six for the men. In addition to these prizes two cash prizes of \$2.50 will also be given by a local concern for the ladies and men.

MAN ISN'T SO MUCH. CHICAGO, Ill., Oct. 25.—Man's proud brain power has not lifted itself very high above the lower animal as he likes to think, according to Dr. Mayo of Rochester, Minn., who addressed the American College of Surgeons. Even when he is wide awake, man is only a quarter conscious of what his body is doing, he said.

"Three quarters of the energy," said Dr. Mayo, "created by the food and heat and the air he breathes, is spent without his knowing it."

HIGHEST BIRTH RATE IN STATE IS IN ESCANABA

Stork Favors This City by Very Wide Margin, in Report.

Escanaba Has a Marking of 41, While Detroit "Where Life Is Worth Living" Has But 28.2.

There is no use in talking, when you have a good Chamber of Commerce and a capable city government, you are able to get ahead of every other place and set a record that you will have a hard time to equal and which it will be impossible to exceed. Not long ago, F. L. Rowan was up to Crystal Falls making a speech and he declared that "Escanaba is the cleanest city in Michigan."

Manager Fred R. Harris was down to Grand Rapids and proclaimed that "Escanaba has the best lighted streets in the state." So on it goes, just today that after the other that I, leaving yesterday night about as a good place to live.

But Here is a New One. Escanaba leads the entire state by a wide margin in the number of storks for the last six months. No other town can touch us on that record, which is 41. Gladstone has 32, while Marquette only is credited with 28.4. Up in Iron Mountain where the population is largely foreign, the figures compiled by the state are set down as 21.6. This information is for the benefit of the school board. It is going to make them sit up and take notice for with the juvenile population in this city increasing at the present rate, future school plans will have to be changed.

Boy Drowned While Inspecting Traps

IRONWOOD, Mich., Oct. 25.—When Walter Kaizi, 11, failed to return to his home for breakfast this morning at 7:30 o'clock, and older brother was sent to look for him. He found the body of his brother drowned in the creek a short distance from the home, which is about three miles from here. The boy had went out before breakfast to inspect a line of traps along the creek and fell into the shallow water when suddenly stricken with a convulsion which it is said he was subject to.

Insane Man Stabs Women On Train

(By the Associated Press) ALBUQUERQUE, N. M., Oct. 25.—A man who apparently became suddenly insane stabbed three women and the conductor on Santa Fe train No. 7, just this side of La Junta, Colorado, last night, and then was shot to death by the negro porter, according to railroad messages. The porter was taken from the train and returned to La Junta.

KLAN MEETING IN HOUSTON A RECORD AFFAIR

Reports Say about Thirty Thousand Members Were There.

"Hope Cottage," Home for "Not Wanted" Babies, Is Dedicated by Officers of the Order.

(By the Associated Press) DALLAS, Texas, Oct. 25.—The Ku Klux Klan, some 30,000 of whose members gathered here yesterday, failed from public view today. The ceremonies were concluded last night and special trains took visitors home, mostly to places in the southwest.

The Klan officials came from all over the country. "Klan Day" was marked by the dedication of "Hope Cottage," which is declared to be the only institution of the kind. It was erected solely for the purpose of caring for helpless babies that have come into the world unbidden, according to J. B. VanWinkle, the Exalted Cyclops of the Dallas Klan.

The meeting reached a pitch of enthusiasm in an address last night by H. W. Evans and the initiation of candidates in a field glowing with myriads of sparks from the flaming cross. Great crowds came affixed to the tubes for the Klan and a salute of 12 guns was given. One band of 7,000 white hooded and white-robed negroes came across the field, some bearing great American flags while others support of the "Fiery Cross."

Rev. Dunkley Will Give Lecture at the K. P. Hall Tonight

"The Friend Unrecognized," will be the subject of a lecture to be given by the Knights of Pythias hall tonight by the Rev. Frank R. Dunkley of Milwaukee, prominent in Pythian affairs of the nation, who is on a tour of Upper Peninsula points.

The Rev. Mr. Dunkley will speak at 8 o'clock and the men and women of the community are invited to hear his address. He is an orator of unusual ability and his message is said to be one of timely, general interest. He will be at the Pythian hall at 7:30 o'clock.

Next Monday, Oct. 29, is "Pythian Mothers' Day," and will be observed locally tonight when the speaker of the evening will devote a portion of his time to that subject.

One in Five in U. S. Wearing Glasses

CHICAGO, Oct. 25.—Ten times as many persons wear glasses in the United States as in England, population considered, W. T. Holmes Spicer, prominent London eye specialist and Fellow of the Royal College of Surgeons, told the American College of Surgeons last night. Dr. Spicer explained that one out of every 200 persons in the United States wears glasses while in England only one out of every fifty wears them and the proportion on the continent of Europe is still smaller.

Junk Dealers Bid for Battleships

WASHINGTON, Oct. 25.—About 18 junk concerns, dealers in scrap metal, submitted bids today for the six battleships and cruisers at the navy yards which are to be scrapped under the provisions of an armament treaty. The proposals range from \$5,000 for the uncompleted Constitution to \$500,000 as a group bid for all the ships.

WE DON'T BELIEVE IT. DALLAS, Texas, Oct. 25.—"America has surrendered leadership in world power," Oscar W. Underwood, senator from Alabama, said today. "We surrendered the leadership in world's affairs, which our sacrifices have won for us," he said in speaking of his foreign travels.

BAPTISTS ARE EXPELLED FROM GOTHAM CHURCH

Pastor Would Not Stand for Their Interference in Trying to Get Him Ousted From Pulpit.

(By the Associated Press) NEW YORK, Oct. 25.—Twenty-two members of Calvary Baptist church were expelled last night charged with warfare on the pastor, Rev. John Rouch Stratton and retaining their vows to the church. Eleven other members voluntarily withdrew as the result of charges made by the pastor that while he was in Europe last summer, the attitude of hostile members tried to oust him. Dr. Stratton declared his church had become filled with social climbers who did not like this method of welcoming all who desired to attend.

PASTOR MUST TELL WHAT HE KNOWS IN DES MOINES VICE

Made Grave Charges Against Police Officials and Citizens of Iowa City.

DES MOINES, Iowa, Oct. 25.—The Rev. Carpenter, pastor of the Capitol Hill Church of Christ, was under subpoena today to appear before a grand jury November 7th and submit evidence to support his assertion that various city officials were not cooperating in the solution of vice.

The minister, who once gained notoriety by throwing open his pulpit to debate on the merits of the Ku Klux Klan, has announced his willingness to testify. Among the charges made by the clergyman were that more than 1,000 unmarried couples were living together here; that many roads in local colleges were "week-end bridges," for which the police department was largely to blame.

Bandit Scares Man to Death; Got Small Sum

KALAMAZOO, Oct. 25.—Samuel Wyngar, 52, an employee of a local company here, died of fright late yesterday when an armed bandit who said he was Tommy O'Connor, broke into the company's office and demanded money. Wyngar complied with the order to sit down. Almost immediately he suffered hemorrhages and lapsed over. The bandit permitted an officer of the company to telephone for a physician and then walked out with about \$100.

Junk Dealers Bid for Battleships

SNOW FALLING IN WEST WILL HIT MICHIGAN

Heavy Weather Reported From Many of the States.

Snow Shovels Will Have to Be Unlimbered According to the Weather Forecast Made Today.

(By the Associated Press) CHICAGO, Ill., Oct. 25.—Snow shovels in the Rocky Mountains and in the middle west were pressed into service today to clean off sidewalks, already snow-covered, or in preparation for the flurry which is to come.

Snow from one to five inches deep covers all of Colorado, parts of Wyoming and North and South Dakota and rain and snow accompanied a gale which traveled eastward. Sections of Montana and Idaho reported snow last night.

Ships Lost in Gale.

NEW YORK, Oct. 25.—Furies of the deep, stirred by the northeast gale that blew from Monday night until noon today, took their toll in ships on the high seas and swept a destructive hand along the Atlantic shore.

The Willem S. McDonald, an adventurous Swedish carrying schooner from Nova Scotia, battered by the gale through the night, was set afire and abandoned by her crew of seven, eight miles off Sandy Hook this morning. The crew was rescued by the tanker San Mateo.

The fate of the steamship that sent out a call for help Monday night, reporting she was in distress off the Delaware Capes, remained a mystery. The vessel was at first reported to be the British steamer Westmoreland, but cable dispatches from London today said the Westmoreland was safe about 800 miles from the Irish coast.

SHOALS PLANT SALE TO FORD DEMANDED

Grange to Carry Fight on Administration to the Legislature.

MUSKOGEE, Mich., Oct. 25.—C. H. Bumble, overseer of the State Grange, also submitted the annual report to the convention today, suggested the farmers of the state go on record demanding sale of the federal nitrate plant at Muscle Shoals to Henry Ford. The Ford-for-President movement is being freely discussed by the delegates outside the convention.

The Michigan State Grange plans to carry its avowed fight with the state administration into the legislature. It will, according to convention leaders, seek to retain the farmer majority in the lower branch and increase farmer representation in the senate and will oppose the reapportionment plan in the coming special session.

The legislative committee in considering the drafting of a resolution suggesting that farmers go on record against giving Wayne county legislative representation according to population as the population is regarded as "alien."

GREEN BAY WOMEN INJURED BY AUTOIST

GREEN BAY, Wis.—As the result of an auto accident on the Shawano road, Mrs. William Adrain is in a local hospital suffering from severe body bruises, and Mrs. Peter Ase is confined to her home with an injured hip. The two women, together with Mrs. Adrain's daughter, were walking along the road when a car, driven by J. Cormier of De Pere struck the pair, throwing them to the ground.

Junior Red Cross Spreads Good Will Throughout World

Nearly 5,000,000 pupils in the schools of America are following the standard of unselfish service as members of the American Junior Red Cross, the annual report of the American Red Cross discloses. This valiant host is represented in 125,072 school rooms of 24,289 schools throughout the United States. With a service program that is local, national and international in scope, the American Junior Red Cross is working unflinchingly for health and happiness and in the promotion of activities among boys and girls wherever there is opportunity for usefulness.

Increased activity on the part of the schools enrolled and deeper recognition by school authorities of the educational values of Junior Red Cross have been significant features of the last year. Carrying on educational and relief work in France, Poland, Austria, Hungary, Yugoslavia, Albania, Bulgaria and Rumania, the American Juniors have influenced the forming of Junior departments in the Red Cross organizations of these countries. American boys and girls wearing the "I Serve" button of the Juniors are proving apt messengers of the spirit of good will and mutual understanding through correspondence with pupils in schools scattered throughout the world. At the close of the school year in June 2,009 schools were engaged in correspondence with a like number of schools in Europe; 234 schools in our insular possessions and Alaska territory engaged on an exchange of letters with schools in the United States and South Africa. In fact, nearly 2,700 schools with probably 100,000 pupils were busy in this fine act of cheerful communication while 8,347 articles passed through National Headquarters of the Red Cross in exchanges between the interested pupils here and overseas.

An incident of the year's advance was the beginning of activity which will eventually install Junior Red Cross in the Indian schools of the United States.

From every section of the country reports of the tour of the unit of crippled children with their chorus which came from the Bakule school in Prague, Czechoslovakia, to show gratitude to the American Juniors for their assistance declare that nothing since the World War has done so much to awaken the Red Cross spirit in the communities visited by the unit.

The work of the American Juniors in foreign fields is emphasized in the advancement of playgrounds, scholarships in farm, trade and other schools, community and school garden work, and donations of cash and equipment to children's organizations. In these projects \$112,660.17 was spent during the last year in ten European countries, in China and in the Virgin Islands.

"It is inconceivable that the Red Cross could have come thus far only to retreat; that it could have succeeded up to the present time only to fall."—President Coolidge.

Liberal to Ex-Servicemen

Over \$1,000 was expended by each of the 3,600 American Red Cross chapters in the past year in behalf of disabled ex-servicemen. The actual total spent was \$2,930,000.

SOCIETY

Oct. 31, Girl Scout Birthday.

The Girl Scout organization will be 12 years old Oct. 31. Mrs. Juliette Low, organized the first patrol of Girl Scouts 12 years ago in Savannah, Georgia, and now we have 160,000 Girl Scouts in America.

Delta county Girl Scouts will observe this week, Oct. 25 to Oct. 31 as Girl Scout Week. This year they wish to hold out their Girl Scout magazine. They feel that the more people know about their magazine, the more they will know about scouting.

The magazine is interesting and helpful to all girls, as it tells how to do so many different things and it has lovely stories, too. We are glad to welcome girls who are not scouts to read the magazine, because it is just the kind of a magazine any girl would enjoy.

Some of the girls are earning their own subscriptions. It is hoped that Delta county will have many more girls reading "The American Girl" this year.

The slogan for the week is: "The American Girl" in every Girl Scout Home.

M. E. Church Service Tonight.

The mid-week service tonight will be held a half hour earlier than usual—7:15, and it is expected that Rev. Frank B. Dunkley of Milwaukee will be present and speak. The service will close at 8 o'clock.

Speak at Swedish Mission Church.

Rev. P. W. Lindahl of Helsingfors, Finland, will speak at the Swedish Mission church this evening at 8 o'clock.

Rev. Lindahl is secretary of the Mission Covenant of Finland. The topic of his address will be the religious and political condition of Finland. A cordial invitation is extended to all.

Fancy Dress Dance.

A fancy dress dance will be given at Wells Community House Friday evening, Oct. 26, for the benefit of the Girl Scouts of Wells.

The committee in charge are making plans to make this affair one of the biggest dancing parties of the season.

One of the big features of the dance will be a "Moonlight Waltz." J. Williams and his musical wizards will furnish the music. Those who have danced to the wizards' music know the fun there is in store for them and the kind of music which these musicians can render.

Prizes will be awarded to those who wear the best fancy dress and also to the best dancers. Everyone who wants a good time and wants to boost the Girl Scouts will kindly remember the place and date of this fancy dress dance and come out and bring a friend along. The more the merrier.

Epworth League Social.

The Epworth League of the Swedish Methodist church will hold a Halloween social, Friday evening, in the church parlors. Games will be played and refreshments served. A cordial welcome is extended to all.

Lawrence, Kan., to Get Quantrell's Flag

EL PASO, Texas, Oct. 25.—The flag said to be that which William Clark Quantrell, guerrilla chief of the Civil War period, carried during many of his raids has been preserved and is in possession of S. H. Sutherland of El Paso.

During the Quantrell excursions, according to the story related by Sutherland, who now is 65 years of age, the flag was carried by Jack Swartz. Swartz is said to have died at Las Cruces, N. M., 25 years ago and to have expressed the desire that the flag be buried with him. The wish was not granted, however, and Sutherland claims to have obtained it.

The emblem, according to Sutherland, was carried in the raid on Lawrence, Kansas, on the morning of August 3, 1863, when 110 persons were killed.

Quantrell, according to Sutherland, was a school teacher in Lawrence before the Civil War. He took up the cause of the Confederacy and organized his guerrilla band when the war began. His record shows Quantrell was shot in a running fight with farmers and died in a military prison at Louisville, Ky., June 6, 1865.

Sutherland says he intends to give the flag to the City of Lawrence.

He has several broken ribs and serious cuts and bruises. He was beating his way on the freight train coming from Midland, according to the police.

AMBERG BOY INJURED BY DYNAMITE BLAST

MARINETTE, Wis.—Herbe Durston, little son of Mrs. Kate Durston, of Amberg, Marinette county, severely lacerated his hand by the explosion of a dynamite cap with which he was playing.

SWEDISH RAILROADS MAY UNITE STOCKHOLM, Oct. 24.—A proposal to organize the private railroads of Sweden, about 100 in number, into 12 large groups, has been submitted to the minister of communications by the chairman of a committee that has been studying this question for five years.

The private lines in Sweden carry 40 per cent of the traffic; the remainder goes over the state lines. It is believed that consolidation will result in improved service.

MESSENGER SHOT, ROBBED OF \$20,000

NEW YORK—William Kelly, a messenger for the Manufacturers' Trust Company, today was shot and seriously wounded by four armed bandits, who accosted him as he was delivering \$20,000 to a concern in the upper East Side, and who forced the money from his hands when he refused to surrender it.

The regular army of the United States totals about 137,000 men, while the organized reserve total about 312,000 and the unorganized reserves more than 15,000,000. The man power of America in per cent of population is 14.9.

More than 6,000,000 wounded World War veterans in 16 countries are now receiving pensions from their governments. Germany leads with 1,537,000. France is second with 1,500,000, and Great Britain third with 1,170,000.

The Best Paper at Your Newsdealer's

When you pause before a newsstand, just remember that the best newspaper which the newsdealer has to sell you is the New Morning Edition of The Milwaukee Journal. Just remember that only by asking for The Journal's Morning Edition will you get the most complete and latest news of the state, the nation, and the world.

Here's Fun for You

Read the big page of comics in The Milwaukee Journal's New Morning Edition every day. See the funny situations "Jack Keefe" gets into with his wife. Ring Lardner writes this feature, and you know "King's" brand of humor. Then too there's "Petey Dink," "Tom Duff," "Freckles," "Joe Quince," "Pa's Son-in-Law," and a host of others! Funmakers, every one!

BARS AND FENCES
HAVE NO PLACE IN
NEW CHICAGO ZOO

CHICAGO, Oct. 25.—The physical
and psychological atmosphere of
the new native jungle freedom, with
woods, mountains and streams un-
checked by metal bars or other evi-
dences of restraint, are to be the sur-
roundings of wild animals dwelling in
the Chicago Zoological Park colony,
only a few miles from the center of
this city. About 200 acres have been
acquired some 1/2 mile west of Chi-
cago's loop, and will be transformed
into a land "conducive to happiness
and longer life of animals" through
the installation of the narrow type
of zoo.

Zoo specialists, architects and animal
authorities from all over the
world were called here to pass upon
the tract, and the model ultimately
accepted, avoids the faults exper-
ienced in the construction of other large
zoos. George F. Morse, for many
years head of the Boston Zoo, will di-
rect the Chicago plan.
Dens will be provided for the lions
in which they will be able to move
about at will, with no bars, the public
being protected by concealed moats
beyond which the animals cannot go.
Goats and other climbing animals will
be in enclosures where there will be
crags and rocks and various other nat-
ural fixtures that will permit them to
exercise their natural instincts.

The psychological effect of display-
ing wild animals apparently uncon-
fined is said to be of great value not
only to the public, but to the animals
themselves. The prison atmosphere
is removed, and the animals enjoy
a degree of freedom which is con-
ducive to happiness and longer life.

The construction methods employed
to prevent the animals from escap-
ing are novel. The sides and back of the
various parks will be of some inacces-
sible rock formation, while the front
will have a wide, deep moat of water
with smooth retaining walls which
will give the animal no foothold, even
if he should swim the moat.

HAIR STAYS COMBED,
GLOSSY, WELL-GROOMED

Greaseless Combing Cream Costs Only
Few Cents a Jar at any Drug Store

Even stubborn, unruly or shampooed
hair stays combed all day in any style
you like. "Hair-Groom" is a dignified
combing cream which gives that natural
gloss and well-groomed effect to your
hair—that final touch to good dress both
in business and on social occasions.
Millions use greaseless, stainless
"Hair-Groom" because it does not show
on the hair. It is absorbed by the
scalp, therefore the hair remains so
soft and pliable and so natural that no
one can possibly tell you used it. Not
sticky or smelly.

SAYS POLAR REGIONS SOON
WILL BECOME COLD AGAIN

BERLIN, Oct. 21.—The warm weather
reported from the Arctic regions
is not to be taken seriously, according
to Prof. Karl Kassner, of the Berlin
Meteorological Institute. A hot wave
hits the North Pole about every 35
years, and this is the time it is due.
The climate does not really change.
Warmer weather comes in cycles, and
history is merely repeating itself. Antic-
ipates of the sun are supposed to be re-
sponsible for the changes which come
in the Arctic regions, as well as else-
where in the world.

The rise in temperature in the Arctic
regions has been going on now for
several years, Dr. Kassner continues,
if the reports of Norwegian fisher-
men may be believed. Dr. Reed, the
Norwegian scientist, discovered new
coal fields in Spitzbergen last Au-
gust because of the thin covering
of ice which lay over the ground.
A Norwegian captain who has sailed
the Arctic for 34 years reports that
he began to notice the appreciable less-
ening of the ice five years ago, and
that the flower and animal life have
been much changed by the milder
climate.

IF SKIN BREAKS
OUT AND ITCHES
APPLY SULPHUR

Just the moment you apply Mentho-
Sulphur to an itching, burning or
broken out skin, the itching stops and
healing begins, says a noted skin
specialist. This sulphur preparation, made
into a pleasant cold cream, gives such
a quick relief, even to fiery eczema,
that nothing has ever been found to
take its place.

Because of its germ-destroying prop-
erties, it quickly subdues the itching,
cools the irritation and heals the eczema
right up, leaving a clear, smooth skin
in place of ugly eruptions, rash, pim-
ples or roughness.
You do not have to wait for improve-
ment. It quickly shows. You can get
a little jar of Rowles Mentho-Sulphur
at any drug store.

PACT TO RECOGNIZE
RUSSIAN SOVIET IS
AIM-OF JUGOSLAVIA

BELGRADE, Oct. 25.—M. Balu-
chitch, Jugo-slavian minister to Greece
who recently negotiated the working
agreement between Jugo-slavia and
Greece, concerning the free Jugo-Sla-
vian zone of Salonica, is now in Ber-
lin, where he is looking into the pos-
sibilities for negotiating with Russian
Commissars a treaty for the recogni-
tion of Soviet Russia, the first agree-
ment of its kind to be effected with
any European power. It is predicted
here that M. Baluchitch's mission
will be successful.

Two years ago Jugo-slavia, by the
passage of a "defense of the realm"
law, outlawed the Communist move-
ment completely. It is felt here the
ban on the right of assemblage en-
forced vigorously since then with one
important exception, when the govern-
ment permitted the holding of a Com-
munist mass meeting in this city to
protest against the repression of the
Communists in Bulgaria, has sup-
pressed the Jugo-slavian Communists
sufficiently to make them a negligible
quantity politically.

Against the modified Communism of
Russia, as practiced in that country,
however, Premier Pashitch is not ir-
reconcilably disposed. It is felt, also,
that the solution of the Slavie problem
is impossible without the active par-
ticipation of the greatest Slavopower
Russia. Premier Pashitch is evidently
convinced, also, that the moral help
of Russia would go far toward answer-
ing the Macedonian question.

There are several Russian commis-
sars in Berlin, qualified to negoti-
ate with M. Baluchitch, and on his de-
parture to that city the minister to
Greece took ample instructions with
him looking to a reconciliation be-
tween Jugo-slavia and Soviet Russia.

A Car of Greater Utility

Thoroughly representative of the 1924 Buicks, this
four-cylinder, five passenger Touring Car is new from
end to end. Its new body, frame, fenders and radiator
—its new Buick valve-in-head engine—its four-wheel
brakes, all exemplify Buick's policy of building into
its cars greater utility and satisfaction with each suc-
ceeding year.

The minute attention to those details that make for
greater comfort and convenience is well expressed in
the new windshield, new ventilator operated by a
push lever, wide, low and tilted seats and compactly
grouped instruments. This Buick four-cylinder Tour-
ing Car worthily maintains the Buick reputation—

INTERNATIONAL CRIMINALITY.

One of the legacies of the World war is the passport system, created during the conflict to put a check on the movement of spies and secret agents. An army of police guarded every frontier and spun a net so fine that no one could pass who would not prove his identity and justify his reasons for crossing from one country to another. The war is over, but the system remains, hampering and hindering free intercourse between peoples. The traveler must still provide himself with endless visas and "laissez passer" of every kind. Vexatious as this is, people consoled themselves with the thought that the maintenance of the passport system would circumscribe the activities of criminals and render detection and arrest easier. This, it would appear, is a delusion. According to reports made to the international police conference recently held at Vienna, the passport system, instead of hindering the activities of criminals, has, on the contrary, increased them. So many new states have been created that their frontiers are at no point more than a hundred miles or so apart. A criminal, his crime committed, has only to skip across the nearest frontier, over which the police of the country in which he was "operating" can not follow him.

Vienna, being within less than a hundred miles from half a dozen frontiers, is the happy hunting ground for innumerable counterfeiters, check forgers, pickpockets, hotel and railroad thieves, burglars, safe crackers, adventurers and impostors of every kind. In nine cases out of ten they make good their escape because of the inability of the Austrian police to follow them beyond the frontier line. Once they are over the border line, a slow-moving and complicated diplomatic machinery must be put in motion before the police of the country in which they have taken refuge can get into action. In other words, the criminality is international, while the repressive machinery is almost entirely local.

To put an end to this unsatisfactory state of affairs a scheme was drawn up at the Vienna conference for a police organization on international lines and is now before the various governments for ratification. In the meantime the passport nuisance remains.

NO SCANDAL, AFTER ALL.

Surveys by expert geologists employed by the Senate Public Lands Committee indicate that the leasing of Teapot Dome oil field ought to have been done long ago. Former Secretary of the Interior Fall has been bitterly criticized for turning the field over to the Sinclair oil interests on a royalty basis, it being contended that it should have been reserved as a source of navy fuel as originally intended.

Secretary Fall's reason for granting the lease was to prevent drainage from Teapot Dome into the Salt Creek fields nearby, which were being operated by private parties under an older lease from the government. Recent investigations indicate that the drainage feared by Secretary Fall has actually occurred. Borings into strata that were expected to produce at least 50,000,000 barrels have revealed nothing but small pockets of oil, but with every indication that the sands were recently drained of their contents.

The truth apparently is that during the eight years of the Wilson administration the exhaustion of the Navy's oil reserve in Wyoming went steadily on, while the Interior Department paid no attention to drillings in the immediate vicinity and remained serenely confident that the Teapot Dome supply was being conserved simply because there were no wells actually within its boundaries. Instead of the Republican policy, as administered by former Secretary Fall, being subject to criticism, events are proving that it should have been adopted long before.

SALVAGING THE WRECK.

After losing about 75,000,000 pesos in six years of operation under Democratic rule, the Philippine National Bank is virtually insolvent. It is kept alive only because of its governmental status. Governor General Wood is encountering great difficulty in putting through his financial rehabilitation program, because some of the leaders in the Philippine legislature have been involved in the bank's commercial transactions.

Gen. Wood's reforms are obnoxious to the native politicians for the further reason that revelation of the bank's records casts serious reflections on the capacity of the Filipinos for self government. Herein are two explanations of the animosity of the Filipino leaders who are demanding the recall of Gen. Wood. To Americans they furnish ample justification for keeping him in the islands.

Prohibition in Iceland, an investigator reports, will never be a success until Iceland finds a fish market. Well, if the thing is going to take the turn of springing conundrums, maybe it is waiting in the United States for those bananas.

After noticing what Governor Pinchot has been saying lately and the response thereto, one is warranted in the conclusion that politicians think prohibition will make a pretty good issue to run on next year.

Henry Ford's name is to appear in the Nebraska presidential primary. Nebraska will be recalled as the state in which the name of Mr. Bryan appeared before it sank.

A generalizer says "the theatre is the index to a city's intellect." Its schools and colleges and libraries then must be the index to its tired business temperament.

There would be no great difficulty in deciding what to do about that prospective \$500,000,000 surplus if members of congress could forget next year's election.

Sadly most of us must admit that the turkey has flown definitely into the luxury class.

Boys and girls of today are criticized severely, but what about their parents? The allegation is made that more whisky glasses are being made than ever before. But why are they called whisky glasses?

MODERN SCHOOLS OPENED IN GUAM BY U. S. TEACHERS

AGANA, Guam, Oct. 25.—The first professional American teachers ever brought to the island of Guam, which the United States took over from Spain 25 years ago, have just arrived here.

Chaplain W. L. Thompson, U. S. N., who was detailed as head of the department of education of Guam in 1921, says he will now be able to modernize the school system of the island. Up-to-date text books have arrived from the United States and the chaplain will now be able to extend the course of studies for the native children. One-third of all the revenue of the island government is expended for education.

The new American teachers, Dr. Thomas Collins and four young women, will perform a veritable missionary work in giving the Chamorro children a knowledge of the English language, which Chaplain Thompson says is the most necessary element in the effort for general development. Chaplain Thompson and Dr. Collins have started a normal school which will give the native teachers their first opportunity to learn accurate English and approved methods and principles of teaching.

The rapid increase in native population since the American occupation, according to the governor of Guam, Captain H. B. Price, U. S. N., has brought the number of children in school up to 2,500. Of this number approximately 200 are more than 12 years old and attend school voluntarily. There are now 16 school buildings with 61 native teachers in charge.

For the first time in the history of American rule in Guam, the native communities surrounding the schools are showing an active interest in education. Governor Price reports. One group of Chamorros recently salvaged a 70-foot spar from the beach, dragged it many miles uphill and helped install it as a flag pole in front of a school building. In the village of Piti, the people recently voluntarily painted their school house.

The supervision of schools in the more remote districts has its hazards. Chaplain Thompson and Dr. Collins make monthly inspection trips through dense jungle and swamp, mounted on bulls. These plodding animals, gentle enough when handled by a native, become suddenly spirited at the unfamiliar touch of white men and riding them adds a certain sporting element to school teaching in the tropics.

The naval medical officers on Guam have accomplished remarkable results through examining all school children and treating them at the navy hospital here for defects of the eyes, teeth, and their general health. The superstitious fear of the hospital gradually is being overcome, and some natives have actually entered a hospital voluntarily. In outlying villages the navy hospital corps look after the children, give first-aid lessons to the native teachers, and serve the medical needs of the community in every way.

Copper was known and used on the American continent by aboriginal races.

Chicago & North Western System C. & N. W. RY. C., ST. P., M. & O. RY. Railway Terms Defined STATEMENTS OF RAILWAY OPERATIONS are often misunderstood and frequently misquoted on the public platform and in published articles. The following information is given to assist in securing a clear understanding of the terms employed in stating the results of railway operations: RAILWAY OPERATING REVENUE: This consists of all revenue received by the railway for transportation services, including freight, passenger, mail, express and other allied services. This also includes revenue arising from storage, demurrage and other activities incident to the performance of transportation, in fact, all revenue growing out of the transportation activities of a railway. RAILWAY OPERATING EXPENSES are those expenses incurred in connection with the performance of transportation services, including maintenance of fixed property, locomotives and cars, together with the expenses of wages, fuel, material and supplies necessary for the movement of traffic, but not including taxes or payments for the use of other companies' equipment and property used jointly. NET RAILWAY OPERATING INCOME is the net revenue from railway operation less taxes, uncollectible revenue, payments for use of other companies' equipment and facilities used jointly. This is the amount which the railway company realizes from its transportation activities, and is available for the payment of rentals of leased lines and interest on indebtedness; the remainder, if any, may be carried to surplus or applied to dividends. REASONABLE RETURNS: The Transportation Act requires the Interstate Commerce Commission to ascertain the value of railway property and name a reasonable rate of return upon the same. This rate they have fixed at 5 3/4 per cent. A railroad, whose value has been ascertained by the Commission to be 100 million dollars, and whose "net railway operating income" is 5 3/4 million dollars annually, is receiving the reasonable return of 5 3/4 per cent upon its property, as fixed by the Commission. The net revenue from railway operation should not be confused with net railway operating income. The necessity of this is apparent when it is realized that the net revenue from the railway operation of all Class 1 railways in the United States in the year 1922 was \$1,114,051,185, while the net railway operating income was but \$759,945,517, a difference of \$385,105,668. All the railroads in the United States are required by law to make reports under oath of their activities to the Interstate Commerce Commission, using the terms above which are prescribed by that Commission. These reports are on file in the Commission's office at Washington, and are available to the public.

RED CROSS MET TEST IN JAPAN FUND DRIVE

Spirit of Service Demonstrated in Readiness for Nationwide Activity.

When President Coolidge by proclamation designated the American Red Cross as the medium through which contributions for relief of the Japanese earthquake sufferers should flow, the President's desire came as an order to the Red Cross.

This emergency test demonstrated the peace-time readiness of the Red Cross to cope with stupendous tasks in behalf of humanity.

President Coolidge, in expressing his thanks to the people, said: "When the news of the tragedy in Japan first reached us, the American Red Cross, pursuant to a proclamation, asked the country for \$5,000,000 to meet the great emergency.

The work of the Red Cross for Japan is expected to influence a very large enrollment of new recruits during the Roll Call, which starts Armistice Day.

Red Cross First Aid Standards Adopted In Great Industries

First aid in an emergency which assures the injured competent attention until the doctor arrives is making marked headway through the work of the Chapters of the American Red Cross.

"Our country could secure no higher commendation, no greater place in history, than to have it correctly said that the Red Cross is truly American."

SUPERHEATED SALT EXPLODES; CAUSES FIRE

DULUTH, Minn.—An explosion yesterday of superheated salt, caused by the salt coming in contact with cold water, at the Cutler-Magner Company plant, resulted in injury to three firemen and caused damage to the property estimated at \$300,000.

FARMER GUILTY IN KILLING CASE

ELKHORN—A verdict of guilty of murder in the first degree was returned by a circuit court jury here Tuesday night in the case against Adolph Eckman, Sharon, farmer.

Motion for a new trial will be heard by Judge E. B. Belden, Racine, at a later date. Eckman, who had been out on bond since the murder was committed last July, was returned to jail.

Wild Buffalo Find Sanctuary in Canada

OTTAWA, Ont., Oct. 25.—Boundaries of a new wild game preserve in northern Alberta dedicated in perpetuity as the wilderness home of two herds of 1,500 wild wood buffalo, have just been announced by the Dominion government.

The entire habitat of the two herds has been enclosed in the sanctuary. It is heavily timbered and includes several mountain ranges, lakes and rivers.

Existence of these wild herds in the Great Slave Lake country has been vaguely known for years, but their numbers were never estimated above 250 until a year ago when a government survey party saw the herds and by rough count figured the total as 1,500 animals.

With the largest number of wild buffalo, Canada boasts also the largest buffalo herd in the government park at Wainwright, the largest game preserve under fence in the world.

WOLF BOUNTIES HELD ILLEGAL

Attorney General's Office Rules Money Can Not Be Spent That Way.

Supervisors of the various counties of the state have no right, under the state law, to pay bounties on wolves, according to an informal opinion from the attorney general's office.

"From the Upper Peninsula comes queries as to whether boards of supervisors have authority under a state law to pay bounties despite the fact that the legislature repealed the bounty act when the state in 1921 adopted the plan of employing trappers to exterminate wolves.

The opinion from the attorney general's office, is discussed in the Detroit News, as follows: "From the Upper Peninsula comes queries as to whether boards of supervisors have authority under a state law to pay bounties despite the fact that the legislature repealed the bounty act when the state in 1921 adopted the plan of employing trappers to exterminate wolves.

"The attorney general's department has not yet been asked for an opinion on the question, but this informal interpretation is furnished by the department.

"All three of these acts were repealed by Public Act No. 142, of 1921. A proviso in the 1921 repealing act reads:

"The provisions of this act shall not be construed to abrogate the power of counties, cities, villages and townships to appropriate and pay bounties for the destruction of such animals and birds under any law not hereby repealed."

"The conclusion of Homer Quay, assistant attorney general, to whom Attorney General Dougherty referred the matter is that the proviso that

DINERS KISS HANDS THAT FED THEM IN SOFIA RESTAURANT

SOFIA, Oct. 25.—There are not many restaurants in the world where a diner kisses the waitress's hand before he proceeds to order his dinner.

This restaurant, called the "Russki Restaurant," is kept, waited on and cooked for by Russian women of the nobility, some of whom used to have "salons" in Petrograd under the empire, to which princes, generals, diplomats and savants regarded it an honor to be admitted.

Driven to the ends of the earth by Bolshevik persecution, these particular "princesses," comtesse, serene English aristocrat, as Svengali called them in "Trilby," settled down in this little corner almost beneath the business of their wrecked lives the shadow of the beautiful equestrian statue of the "Czar Liberator," Alexander II.

It is somewhat disconcerting to American eyes to see a tall Russian who seems to have seen better days rise from his table when the waitress comes to take the order, salute graciously, hand with his lips in the best manner of a courtier, then resume his seat and address himself to the private business of ordering his meal.

"The prices are enough above the average to make the place rather exclusive, and the waitresses are pronounced by Americans at least, to be entirely satisfactory.

A hard time so far was given by Ted Anderson and Edward Miller last evening at Clark's hall. All who attended expressed their appreciation for the lively evening they enjoyed.

COMMUNES WIPE OUT IN WAR OFFICIALLY ERASED FROM MAP

PARIS, Oct. 25.—A five line decree published in the Journal Officiel recently reads: "The communes of Ailles, Beaulieu et Chivy, Mous-sur-Aisne, Comtecon and Grandclair et Melvat, in the canton of Craonne, are respectively included and absorbed by the communes of Cuernizy, Vendresse, Verrouil, Nancy and Coligny."

Presented in this manner to one ignorant of the geography of the country, it does not convey the impression that these five communes were in the line of battle at the Chemin-des-Dames and were completely wiped out to the last stone.

ANTI-PARKING LAW WILL BE ENFORCED

Orders for rigid enforcement of the uniform traffic laws prohibiting the parking of automobiles along highways have been received by the police.

Colonel Roy C. Vandercreek, head of the department of safety, just prior to his retirement from office a short time ago, sent an order to all state

police detachments to proceed at once with the marking of all trunk lines, prohibiting the parking of cars on the right of way. The action is in compliance with provisions of the uniform traffic law, which went into effect early in October, and is aimed to prevent parking of cars along either concrete, macadam or gravel roads for any purpose whatever, including even the repair or changing of tires. The right of way must be kept clear for the passage of moving vehicles at all times. Signs warning motorists that such parking is illegal will be posted along all gravel roads and painted on the surface of concrete and bituminous surfaced roads.

At this time of year the ruling applies particularly to many partridge and rabbit hunters who make a practice of parking along the highways while they hunt the adjacent country. It is expected that both state police and conservation wardens will co-operate. As pointed out by the officers, one of the greatest menaces to night traffic over highways are the cars which are left at the edge of the road by hunters illegally headlighting for deer.

CAR OF SODATOL FOR DELTA CO.

Four carloads or 90,000 pounds, of the government salvage explosive, Sodatol, have been ordered for farmers of Menominee county, according to Larry P. Livingston, of Marquette, in charge of the land-clearing program in Michigan. This is the largest order from any county in the peninsula.

The four carload shipment represents a considerable investment, and it was made possible largely through co-operation of bankers in Menominee county. The cars will be shipped direct from Harkdale, Wis.

Other orders received from the various counties thus far are one car each from Alger, Delta, Gogebic, Schoolcraft and Marquette counties. It is expected that Luce, Baraga and Houghton counties will be among the districts to bid for carload lots of Sodatol within the near future.

Iron and Ontonagon counties have placed orders for two cars each for spring delivery. One hundred caps for firing the explosive are shipped with each 100 pounds of Sodatol ordered.

This is the first season that Sodatol has been used in the upper peninsula and it is secured at less cost than picric acid. Sodatol is being furnished for about five and one-half cents per pound, as the result of the carload buying system.

HENRY BLAKE.

Mrs. Henry Blake, 918 Second avenue north, received word last evening that her husband, Henry Blake, Sr., had passed away during the afternoon at the Northern State Hospital at Newberry, where he has been receiving treatments for a nervous affliction for the past five weeks.

Mr. Blake was born in Black Brook, New York, April 6, 1861, and moved with his parents to Negaunee when a child. He lived in that community many years, being in the employ of Thomas G. Atkinson in the livery business. In the early 80's he came to this city and entered the employ of the North Western railway company as a freeman, a position he held for 17 years.

In January, 1889, Mr. Blake was married to Catherine McTae in Iron River and to this union three children were born.

Mr. Blake was a hard and faithful worker and for several years conducted a livery business and dray line and was well and favorably known by all of the old residents of the city. He was a devoted husband and a kind father, as well as a faithful friend.

Mr. Blake is survived by his wife and sons, Henry, Jr., and Joseph, of this city, and one daughter, Mrs. Leo Griffith, of Iron Mountain. The body will arrive this evening on the C. & N. W. and will be taken to the Alto Funeral Home. Funeral services will be held from St. Joseph's church Saturday morning at 9 o'clock and burial will be in the family lot in St. Joseph's cemetery.

I have just returned from the market with a nice line of Velvet Hats ranging from \$3.50 to \$5.00 values. Sale for Friday and Saturday. Mrs. Gallagher, 108 North Fourteenth street.

H. B. Sinclair and family of 716 South Thirteenth street, will move to Iron Mountain, where they will make their future home. Mr. Sinclair will be employed by the Ford Motor Company of that city.

Roy Ross took a hunting trip to Woodlawn, Mich., Tuesday. Roy is an ardent advocate and a staunch believer in conservation of the wild life and while he had plenty of opportunities for securing a greater number, modestly refrained therefrom, and contented himself with bagging two partridges and leaving the others for some other fellow.

Judge Glaser Passed Away Early Today

(Continued from Page One) have been here for several days. They are also several stepchildren, George and William Raincock of this city; Paul Briggs of Williamsport, Pa.; Mrs. Frank Graham of Seattle; and Mrs. Mabel Snow of this city.

Brief History. Judge Emil Glaser was born at Saxony, Germany, Sept. 23rd, 1841, and immigrated to this country in 1869. He made his home at Cleveland, Ohio, for a time and came to Marquette, Mich., by boat in June, 1866, and this caused the judge to start for the south.

His intentions were to return to Cleveland. He came to Escanaba by rail, the road being built this far, and arrived here Sept. 15, 1866. He took a walk around the village, which was then a mere hamlet. He waited one week for the steamer Sarah Van Epps, which ran between Escanaba and Green Bay. Noticing that the docks were being constructed, he thought Escanaba might some day become quite a city, so he decided to stay a while.

He was appointed justice of the peace in 1868 and held the office continuously since that date up to his death. He was judge of probate for twenty-nine consecutive years. Judge Glaser has married more than 1000 couples in the years that he has presided in the capacity of justice of the peace. Since 1915 he married over 200 couples. He had on file at his office copies of all marriage certificates issued to parties whom he married since 1885, when a law was passed requiring that all marriages, births and deaths be recorded in justice docket which is kept in the county clerk's office. This law was revised in 1901.

Veteran of Civil War.

Emil Glaser enlisted as a private at Cleveland, Ohio, in Co. K, 7th Ohio Infantry. He served under General Shields, McDowell, Cope, McClellan, Burnside, Meade, Hooker, Sherman and Grant. He was shot through the body, and lay in a hospital three months. Judge Glaser belonged to a division of the eastern army. After Roanoke's defeat, Sept. 19th, 1863, at Chickamauga, the 11th and 12th Corps of the eastern army were sent to reinforce Grant at Chattanooga just before the battle of Gettysburg. Speaking of his war record, Judge Glaser said recently:

"I was discharged from the hospital and went with President Lincoln and his company to Gettysburg, Nov. 16th, 1863. Edward Everett noted orator, spoke for two hours after which Lincoln delivered his speech which is known in history as Lincoln's Address at Gettysburg. We were so tired listening to Everett's long speech that we did not for the moment fully appreciate the beauty and glory of Lincoln's address until the next day when we saw it in the papers. President Lincoln had ordered that all wounded soldiers sit down during the addresses. Next day after hearing Lincoln speak we (the convalescent soldiers) were sent to rejoin our regiments. I arrived at Chattanooga Nov. 23rd and Nov. 24th, I took part in the battle of Lookout Mountain which was one of the fiercest I ever saw. I also was in the battle at Missionary Ridge."

Charter Member G. A. R.

Judge Glaser was in many battles, the principal ones being the battles of Winchester, Antietam, Chancellorsville, Lookout Mountain, Gettysburg and Ringgold, where they lost many men and all their officers. After the battle at Ringgold, the orderly sergeant took command of the regiment. He was within a few feet from where General Reynolds was killed.

He served over three years under the stars and stripes, being mustered
