SINGLE COPIES, FIVE CENTS

THE DAILY GOLDEN RULE COLUMN

BRITISH LIQUOR BOAT SEIZED SUNDAY

What Do You Think?
Sunday, December 2, is International Golden Rule Day. People all over the world are asked to observe the day in the manner explained below.
What do you think of the idea as a practical expression of the Golden Rule principle? Are you willing to do it yourself?

At an international conference in Geneva, Switzerland, September, 1923, representatives of twenty philanthropic organizations from fourteen countries were facing the perplexing problems of the Near East. The failures of armies and navies, of world wars and diplomatic conferences, were glaringly apparent. Could practical religion as expressed through the Golden Rule solve the problems that had baffled world powers? It seemed worth trying. The proposal went forth that Sunday, December 2nd, be observed as International Golden Rule Sunday for the strengthening of international friendship and co-operation and the practical application of the principles of the Golden Rule to at least some of the world's problems.

The suggestion at once met with the hearty support of President Coolidge, of former President Wilson, Secretary Hughes and leading officials throughout the United States. Leaders in other countries are promoting the observance of the day, and there is assurance that Golden Rule Sunday, December 2, 1923, will be observed in every civilized nation in the world.

The Objective.

It is proposed that we make the immediate beneficiaries of International Golden Rule Sunday the orphaned children of the Near East. These children are international wards. They are a part of the awful legacy of the late disastrous world war in which America with other nations participated. They are not only without father, without mother and without known responsible relatives, but they are without country. They have no legal claim upon the land or the resources of the overpopulated, overburdened territories to which they have been exiled. They are as innocent of any crime and as much entitled to daily food and the necessities of life as the children in our own homes. Their parents were killed or died of persecution, deportation, exposure and starvation in connection with the various disasters of the late war, from the full crushing burden of which we in America were graciously spared. Many of the parents of these children sacrificed their lives in defense of the principle of religious liberty.

They are practically all under sixteen years of age; 81.6 per cent are under fourteen years and 61.5 per cent are under twelve years of age. All of them are too young to be thrown upon their own resources. If this practical expression of the Golden Rule fails, they perish.
Certainly if it had been our lot to die in defense of a sacred principle as some of our ancestors did die, and if our children had been left not only without parents or responsible relatives, but also without a country, we would hope that some philanthropist or other philanthropist would provide for our children at least the necessities of life and opportunity for attaining self-support. "Whatever ye would that others should do unto you (for your children thus left desolate, do ye even so unto them."

How to Observe Golden Rule Sunday.

On Sunday, December 2nd, all persons who are disposed to make a practical application of the Golden Rule in their own homes are requested to provide for their Sunday dinner approximately the same amount that is approved and provided when funds permit by Near East Relief for the tens of thousands of these orphaned children in their temporary orphanage homes in the Near East. The difference between the cost of the usual Sunday dinner and the less expensive orphanage menu is to be given as a thank offering or as the basis for a more substantial contribution for the purchase of food for the orphanage during the remainder of the year.

Will It Work?

What do you think of this idea? The editor of the Golden Rule column would like to hear your views. Write him a short letter giving your views and, if you yourself are willing to take part in the observance of the day.

If you are not willing to join in the observance of Golden Rule Day write the editor a letter telling why.

Four State Banks Are Closed Today

ST. PAUL, Nov. 26.—Four state banks were closed by the state banking department today. They were the Farmers' State Bank of Mt. Grove; the New Munich State Bank; the Security State Bank of Melrose; and the St. Martin State Bank.

School Teacher Killed On Track
MILWAUKEE, Nov. 25.—Miss Midge McCormick, 38, of West Bond and a school teacher in the town of Milwaukee, was instantly killed early today when struck at a grade crossing by a Milwaukee Northern electric car. Miss McCormick was walking to school at the time of the accident.

THREE INJURED WHEN CARS MET SUNDAY NIGHT

Driver Admits He Was Driving at High Speed.

Mr. and Mrs. William Brouse of Brampton Have Narrow Escape from Fatal Injury.

William Brouse is at his home in Brampton suffering from a broken nose, four or five broken ribs, possibly a fractured skull and internal injuries.
Mrs. William Brouse, his wife, is also at the family home suffering from cuts upon her face, bruises and minor injuries, but feeling very lucky that she was not killed.
Miss Loretta Trudeau, a Brampton school teacher, has a black eye and several minor cuts. Miss Nellie Brouse was slightly bruised, but otherwise uninjured.

Three men who were in the car with them when the accident happened were not injured at all.
The party of six riding in the Brouse car, which was driven by Mr. Brouse, had been to Gladstone to attend a picture show and were on their way back to Brampton. It is said that Mr. Brouse was driving exceedingly fast and had been asked to slow down a little which he did. When near Gladstone, an automobile was seen coming towards the Brouse car and it is alleged failed to put on the dimmers.

Mr. Brouse says he thought he had turned out far enough to clear the oncoming car nicely, but it seems that his judgment was not good, or else the other car turned in. However, the front wheel of the Brouse car was broken and after traveling a few feet it turned toward the side of the road and went into the ditch. Mrs. Brouse was thrown into ditch half filled with water and would have drowned, if she had not been quickly rescued.

At first it was thought both Mr. and Mrs. Brouse would have to be brought to a local hospital, but after everyone had checked up on their injuries, it was decided to return to the Brampton hospital and summon a doctor from this city.
It was reported this afternoon that the injured are recovering as well as could be expected. The car was badly damaged.

Policy Holders Must Settle, Is Order of Court

Fifteen default judgments were awarded to the Patron's Mutual Fire Insurance Company by Judge C. D. McKewen in justice court Saturday, when the defendants failed to appear for trial of the petitions, filed by the company to collect premiums and special assessments, alleged to be due from policy holders.

The day's work cleared Judge McKewen's docket of the 129 cases the Patron's Mutual started about two months ago.
Settlements or judgments have been given the company in all except 23 cases which resulted in jury verdicts or court decisions in favor of the plaintiff. These 23 cases have been appealed by the company to circuit court.

The amounts at issue in most of the cases are small, ranging from \$6 to \$20. Legal counsel for the company yesterday predicted that several of the cases which had been appealed will be settled out of court before the January circuit court calendar is made up.

W. D. McLellan of Chicago is visiting at the home of his parents, D. D. McLellan, 242 Lake Shore Drive.

SAFETY DEVICE SAVES LIVES OF MANY MINERS

It Was Thought a Thousand Were Trapped in Mine.

Latest Reports Place Injured at a Dozen and Missing at Fourteen; There Are No Known Dead.

CHICAGO, Nov. 26.—Twelve men were badly burned and taken to the West Frankfort hospital and fourteen men were still unaccounted for at noon, according to information received at the general office from the Chicago, Wilmington & Franklin Coal Company at the Mine No. 1 near West Frankfort, where the explosion occurred this morning.

The president of the company said he relied upon this information from the mine that all of the men had been accounted for, excepting fourteen. He added that in all probability some of these fourteen were engaged in rescue work about the mine.

No Casualty Reports.
He said there was no information that any of the mine employees, either those burned or unaccounted for, were freed. The mine is equipped with the latest system for closing other entries in case of a fire or an explosion, probably prevented a disaster. This system in a mine employing a thousand men, the largest in the state, if not in the world, he said, is of the most modern type.

No Known Dead.
SPRINGFIELD, Ill., Nov. 26.—A number of men were burned today in an explosion at Mine No. 1 of the Chicago, Wilmington & Franklin mine in Oregon. It has not been determined whether anyone was killed or not.

The number of injured has not been announced but it is said all workings have been stopped. This mine holds the world's record in the number of tons hoisted in eight hours. It is believed over a thousand men were in the mine at the time of the explosion.

First Report Exaggerated.
OREN, Ill., Nov. 26.—More than a thousand men may be trapped in Mine No. 1 of the Chicago, Wilmington & Franklin Coal Company, it was reported following an explosion this forenoon. Officials of the company decline to comment on the report and would not say whether they knew any men had been killed in the blast or not.

GERMAN CABINET NOT FORMED YET

Dr. Albert Is Not Looked Upon as Being Strong Enough to Select the Proper Ministers.

BERLIN, Nov. 25.—(AP)—Grosser, of the Heinrich Albert, former minister of the treasury, to form a new German cabinet had borne an visible feat up to this afternoon. It was believed that if the ministry should be formed under his direction, it would not be able to go far.

Leviathan Cuts Crossing Time On Last Voyage

NEW YORK, Nov. 26.—America's biggest steamship, the Leviathan, established a new world's record for east-bound navigation between Cherbourg and New York, arriving today after a run of 5 days, 7 hours and 29 minutes, with an average of 21.17 knots an hour. This broke by 13 minutes the previous record held by the Cunard liner, Maritima.

THE WEATHER
For Escanaba and Vicinity: Mostly cloudy tonight and Tuesday, with snow flurries and colder tonight; fresh northwest winds.

Craig Case Will Be Investigated.

WASHINGTON, Nov. 26.—Investigation by the department of justice into the legal phases of the case of Charles Craig, comptroller of the City of New York, sentenced by Judge Mayer to 60 days in jail for contempt of court, has been ordered by President Coolidge.

TELEGRAPHERS RECEIVE BOOST IN THEIR PAY

United States Railroad Board Made Decision Saturday.

Opinion of the Board Was Divided as to Whether the Raise Should be Granted or Not.

CHICAGO, Nov. 26.—Increases in wages affecting approximately 5,500 railroad telegraphers and station agents and aggregating approximately \$261,182 were awarded in a decision announced Saturday night by the United States railroad labor board. The board explained that it had attempted to correct existing inequalities without attempting standardization and without granting a general increase. The payment of a punitive rate of time and one-half for overtime to telegraphers and station agents also was awarded, and a few other changes in rules were authorized.

The parties to the case in which the decision was rendered are the Brotherhood of Railway Station Employees, the Order of Railroad Telegraphers and twenty-six railroad companies. The plan pursued by the board was to deny increases on roads where it found the existing rates equal to the average paid on comparable roads in the same territory, and to award increases on other roads which would bring their rates up to the average paid in their territory by comparable roads. In some cases the increases affect one group of employees and not another. They range from two cents to five cents an hour.

"It is but just to say," reads the decision, "that some members of the board favored a general increase and that some opposed any increases at all."

BELGIUM TAKES GERMAN TRAINS AS REPARATION

Indemnity of Over Million Francs Was Not Paid on Time, so Rolling Stock Is Seized.

BRUSSELS, Belgium, Nov. 26.—The Belgian government today seized the German rolling stock at Duisenberg and Hamelin, in West of Germany's failure to repay Belgium's ultimatum demanding an indemnity of 1,250,000 francs for the assassination of Lieut. Deft near Düsseldorf in March, 1922. The time limit fixed by the Belgians expired last night. The government had previously rejected offers from Germany to submit the question to the Hague tribunal for arbitration and the Belgian government was notified that the amount named be confiscated in the occupied regions, if Germany failed to pay.

Quits Smoking When His Pipe Blasts in Face

ERIE, Pa., Nov. 26.—Eugene Botkin quit smoking Friday when his pipe blew up in his face. Botkin was hunting recently, and carried some small rifle shells in his pocket. He failed to remove one, and in filling his pipe the cartridge was slipped in with the tobacco. The bullet missed him by a fraction only.

LAWYERS WILL SUBMIT BRIEF TO THE COURT

Much Evidence Was Submitted in the Recent Trial.

Mrs. McNabb, Formerly of Escanaba, Was Prominent in Litigation Suing the Estate.

CRYSTAL FALLS.—The case of Mary E. Kinney, widow of the late John S. Kinney, a former resident of Stambaugh township, was brought up for hearing before Judge Dingeman here last week.

This case was started in 1919 and a partial hearing held in the Iron county court. An appeal on a question of law was made to the supreme court as a decision had. The case then came up for trial on its merits.

History of Case.

John S. Kinney received title from the government in 1905 to a piece of land in Stambaugh township. On that land a mine (known as the Zimmerman) was discovered in 1907. The option to explore was given to the late D. MacKinnon, who sold it to the late Spring Valley Iron Co. That concern leased it to Todd Stambaugh & Co., and the last mentioned concern leased it to the Mustang Ore Co., which concern now has possession and operates the Zimmerman mine.

Mr. Kinney married early in his life and his wife lived with him on the Stambaugh farm. Eight children were born to the union, five of whom survive. Mrs. Kinney died a number of years ago.

Weds Mrs. Hibbard.
In 1910 John S. Kinney married Mrs. Hibbard, of Dover, Maine. The second Mrs. Kinney lived with Mr. Kinney, first in Stambaugh and later in Long Beach, California where in April, 1917, both Mr. and Mrs. Kinney were severely injured when an automobile in which they were riding was bumped by a street car. Mr. Kinney died the day of the accident. Mrs. Kinney recovered.

The will of John S. Kinney was filed in the probate court of this county. By its terms all of the property was left to the Kinney children and Willard and Anna Kinney were named executors.

Dower Rights Contested.
Immediately Mrs. Hibbard-Kinney went into court claiming her right to dower, interest in her husband's estate. This claim, countered with a copy of an ante-nuptial agreement made between Mrs. Hibbard and Mr. Kinney before they were married, whereby it was agreed that certain sums of money which were paid by Mr. Kinney to his wife upon the marriage contract being entered into, should be in the lieu of any dower interest in his estate and in that agreement Mrs. Kinney waived all right to dower interest.

The validity of that agreement is not in dispute, at least the facts are and it, but they have a copy of the agreement. This agreement was drawn by Miss Harriet Freely, a former attorney of Washington, D. C., who was Mr. Kinney's attorney in this litigation with the former Mrs. McNabb in the celebrated breach of promise case.

Miss Freely was present in court and identified the copy as one that she drew. She testified as to the terms of the contract.

Mrs. Kinney was represented by M. J. Sherwood, of Marquette. The executors and the Kinney heirs in this county were represented by M. S. McDonough and L. A. Lyon, Adelin Kinney, who resides in Washington, was represented by Miss Freely.

The question at issue was one of fact as to the genuineness of the contract and its contents.

Admits Contract Was Made.
Mrs. Hibbard-Kinney frankly admitted upon the witness stand that a contract of which the copy in court is identical, was drawn between herself and Mr. Kinney. She says that the original was in Mr. Kinney's possession; that when they moved to California his papers were forwarded to a bank in Long Beach; that she and Mr. Kinney went to this bank to examine the papers; that she asked Mr. Kinney what should be done with the contract and that he told her to destroy it, which she did.

The sparring between attorneys became brisk on questions of law, so Judge Dingeman let the jury go each side a certain time in which to file their briefs and will direct a verdict after all the arguments are in. The case will go to the supreme

Whole Family Is Burned in Home

CONFLUENCE, Pa., Nov. 26.—Samuel Reese, his wife and seven children were burned to death early today when their home on the hill, a half mile from the village, was burned. All the bodies have been recovered.

ALLEGED FORBES DESERTED FROM THE U. S. ARMY

Was Arrested and Served Out Time Without Trial.

Papers Have Been Sent to Investigating Committee from the War Department Records.

WASHINGTON, Nov. 26.—Papers sent to War department officials to show that one Charles R. Forbes, former director of the Veterans' Bureau, was dropped from the rolls of the army as a deserter, were turned over to the senate veterans' committee today by the department. The report sent to the committee, as its request also was sent to show that Forbes was apprehended and served out his term of enlistment and was discharged without having been brought to trial.

CANADIAN HELP WILL BE ASKED

United States Will Request New Laws and Treaty Regarding Smuggling of Rum.

WASHINGTON, Nov. 26.—The United States government will propose to the American Canadian conference on liquor smuggling, which opens tomorrow at Ottawa, that the United States be permitted to search for and seize vessels engaged in smuggling on the Great Lakes be authorized and that a treaty arrangement be made for extradition of persons accused of violating the liquor laws.

H. F. KINNEY WAS FREED FROM ALL BLAME SATURDAY

Witnesses State That Driver of Car Could Not Have Avoided Hitting Child.

H. F. Kinney, the Chicago brewer, man who struck little Julia Becht, while driving on Thursday night, was freed from blame Saturday when examined in Justice McKewen's court last Saturday. A number of witnesses were examined and all of them made it plain that Mr. Kinney could not have avoided striking the child.

His attitude after the accident was also greatly in his favor, for he did everything in his power to get the child to a hospital as quickly as possible and then returned that no expense be spared in the care of the youngster. Later he gave himself up to the police.

The boy, who is six years old, is still at the Lexington hospital and his condition is reported as all that could be expected. He was severely injured, it was said, and only the prompt action of Mr. Kinney made it possible to save his life.

ARGENTINA RICH IN CATTLE.
BUENOS AIRES, Nov. 26.—Argentina's production of cattle has increased 24 per cent since 1911. At the end of 1922 there were over 15,370,000 head of cattle in the republic.

MACHINE GUNS THROW BULLETS FROM RUM SHIP

British Protest Is Expected by Department Heads.

'Rummy Bill' McCoy, Alleged 'King' Was on Board the Captured British Vessel.

New York, Nov. 26.—The crew of the rum-laden schooner Tomako, after her capture yesterday about six miles off the Jersey shore, threatened a coast guard boarding officer and attempted a dash to sea after firing her machine guns at the cutter Seneca. These additional facts were brought out in an official report made today to a collector of the port who is investigating the British registry of the ship, whose seizure, it was reported from London, might bring a formal protest from the British government.

According to the report, Lieut. L. W. Perkins of the coast guard cutter was sent aboard the Tomako after her capture. The cutters started toward New York with the Tomako in the rear. She opened fire and the cutters pursued her.

Seized Early Go-day.
The British auxiliary schooner Tomako, an adventurous one of all the rum-running craft on the Atlantic, was into the hands of coast guards yesterday after being fired upon by the cutter Seneca.

A machine gun was captured on the schooner and another was tossed overboard by the rum runners, their captors said.

The coast guard cutters Seneca and Lexington, operating on information furnished by treasury department special agents that the Tomako was off Seabright, lying in close to dispose of 200 cases of whisky—all that remained of a 4,200-case cargo shipped recently from the Bahamas—pursued to Seabright long before day-break. As dawn broke the Lexington sighted the schooner, its two sticks standing over the top of an early morning haze, and sent a radio message to the cutter to proceed. When the cutters were a short distance away a lookout aboard the schooner announced their approach. Immediately the British schooner's anchor was weighed, her auxiliary engine began chugging and she was slipping out to sea. But the speed of the little vessel, which has taken part in many of the largest rum-running expeditions from the Bahamas, according to government agents, could not match that of the cutters and in less than a quarter of an hour they were close up on her.

Ordered to Stop.
"Aho, schooner!" shouted the commander of the speedy Lexington. "Heave to yourself," came the answering shout from the schooner's stern.

"Heave to there, you little devil, or there'll be trouble."
"Whaddie think yer doin', chasin' a British boat outside the three-mile limit?"

"Bring her around or we'll blow you clean to Nassau," the coast guard warned.

No heed was paid to this warning and a shot from one of the three-inch guns on the Lexington was fired across the Tomako's bows. Its only effect was to increase the schooner's speed. Then the Seneca sent another shot whizzing by the main mast. The cutters were almost upon her then and the schooner's captain braced her about.

Struggle On Decks.
A party of five from the cutter was dispatched in a small boat to board the schooner. As they climbed up the side several members of the crew attempted to push them back and a lively fist fight ensued, with several bloody noses and sore heads.

MARQUETTE WILL GET POWER FROM DEAD RIVER NOW

City Has Been Greatly Handicapped This Fall.

Concrete Dam Half Mile Long Has Been Completed and City Will Have Ample Electric Current.

MARQUETTE, Mich., Nov. 25.—The Dead River will be made to flow and furnish power for Marquette and other industries when the dam now under construction is completed. The water impounding project is believed to be the greatest of its kind ever attempted in the Upper Peninsula.

The reinforced concrete dam, half a mile long and 60 feet high in one place, is being built by the Cleveland Cliffs Iron Company, which operates a string of iron mines in this district. The power developed at the dam, which will have an estimated capacity of two billion foot-pounds of water, will meet a demand for additional power that has been felt by the company for some time.

The dam is located at a point 14 miles from the mouth of the stream, which empties into Lake Superior. It will catch the run-off of approximately 140 square miles of watershed.

Actual construction work is virtually completed. Fourteen thousand barrels of concrete comprising 12,000 yards of concrete have been used.

The power to be generated, it is said, will not only meet the maximum but the company's plant will draw when in full operation, sufficient to draw upon the river for power for the city. This power will be fed to the city by a line of 10 miles from the dam to the municipal plant at Marquette.

Construction of the dam will provide a much needed source of supply to Marquette, the development of the waters of Silver Lake for city water supply. The dam, when completed, will represent an investment of \$500,000, engineers have estimated.

FLINGS AT FOLLY

Mrs. Carter not who gets the dress, but if he can have the turkey.

One man in two in the world's population is a farmer and the other tells him so.

The answer to the ancient theory that what you don't know won't hurt you is machinery.

The man who told his fish stories last summer is up north killing two deer with one shot.

Obituary is a place populated by large part by the winners of non-stop dancing marathons, fast springs.

When all is said and done, nothing changes the style of a flatterer, the election to some responsible office.

The chief objection to a lot of politicians who claim they are willing to die for the people is that they hardly ever do.

What constitutes a good tracking show in the country is merely something to be thrown on the walk in the city.

Even an old-fashioned curl hates to think a man married his wife for nothing but a talent for manufacturing meals.

It would be in the fall too, just before the, if we were to find the deer breeders, by way of being to some end.

What constitutes a good tracking show in the country is merely something to be thrown on the walk in the city.

Even an old-fashioned curl hates to think a man married his wife for nothing but a talent for manufacturing meals.

It would be in the fall too, just before the, if we were to find the deer breeders, by way of being to some end.

RIVER ROUGE IS "CLEAN"; FINES PAY MANY BILLS

Fines in Liquor Cases Are Turned Over to City.

Tax Rate Has Been Lowered Owing to Large Amount of Money Collected in the Court.

DETROIT, Nov. 25.—Liquor runners are turning in the River Rouge village, and River Rouge as a result, according to John R. Valois, police judge, is "clean."

In October, 1922, an ordinance was passed by the River Rouge council giving the city jurisdiction over liquor cases and providing that fines collected should be turned into the city treasury.

"Our town is clean," Justice Valois said, "and we owe it to this ordinance which enables us to dispose of cases much more expeditiously than in the crowded county courts at Detroit."

Before the ordinance was passed the liquor situation was beyond control because we had to depend upon the county courts for our relief. The complicated machinery and crowded dock in there made convictions slow and difficult to obtain.

"Time runners now detain their cases in the River Rouge because they know a speedy conviction and heavy fine will in all probability follow their arrest here."

The city's tax rate, Valois said, is being reduced by fines paid in liquor cases.

FOREIGNERS HAVE UNIQUE IDEAS IN REGARD TO SCHOOL

Some Selected Their College by Pulling Slips From a Hat; One Wants to Be Poor.

HILLSDALE, Mich., Nov. 25.—Raymond Ogawa, of Paha, Hawaii, is ambitious to become a poor man. So he told the secretary of Hillsdale college, when asked, together with three other foreign students at the institution, what he plans for the future.

Ogawa expressed some positive likes and dislikes. He said he hated to go to the dentist, have quins and study. Study, he said, produces brain fever, restlessness, fatigue, insomnia and headaches. He is tired of money, he said, and when he finishes his present year here he will begin intensive preparation to become a surgeon and take his father's place at Paha.

James Han, of Shanghai, China, came to Hillsdale quite by accident, he explained. He landed at San Francisco several years ago, remained there for some time, and then started east. He decided to stop over here, and has been here ever since. He explained that his cousin had attended Hillsdale College, and it seemed of right to follow that example. He said he is willing to start his world career as a banker, but his plans are not complete.

Toruhiro Onishi, an aviator absent from the land of cherry blossoms, is a dreamer and philosopher, the instructor said. He will get his degree next June. He said he expects to return to his native Japan. His inclination is toward poetry.

GOITER SURVEY WILL BE MADE OVER MICHIGAN

Entire School Population Will Be Card Indexed.

General Treatment of Entire Communities Will Probably Be Undertaken by the State.

LANSING, Nov. 25.—Included among the prominent speakers to address the Third Annual Conference of Health Officers and Public Health Nurses of Michigan, to be held in Lansing December 12, 13 and 14, is Dr. O. D. Kimball of Cleveland, Ohio. Dr. Kimball ranks as one of the foremost authorities on goiter control in the country. He will discuss Endemic Goiter as a Public Health Problem, and his interest in the program is more than timely, due to the extensive goiter survey planned for the weeks directly following upon the conference.

Intensive surveys will be conducted in four counties, covering the entire school population of each county. These counties have been selected on the basis of a survey of Michigan water which is being conducted by the state laboratories in Lansing. Two of the counties chosen show no iodine present in their drinking water. The other two reveal a relatively higher content. Drinking water reflects the iodine content of soil on which it in turn effects the food we eat.

The purpose of the work is to establish a basic goiter relationship between iodine content of soil, of food and those having some present. To find out what extent thyroid enlargement is influenced by the iodine in the soil. Goiter follows the iodine content of soil in North America which includes the entire basin of the St. Lawrence and that portion of the United States and Canada known as the "Iodine belt." Entered the soil is iodine is prevalent through the proper use of iodine and it is with the iodine that the iodine is in general that the iodine is to be examined. The work will cover a period of two weeks, and will be conducted by divisions of the Michigan Department of Health.

Highways and By-ways

The highway to prosperity is the road to thrift, of courage and of industry. There are plenty of by-ways, but most of them lead nowhere.

...The...

First National Bank

men have never repudiated an agreement and were such repudiation has been attempted by individual members, the penalty provided by law has been enforced.

Recognizing that their calling was a hazardous one and that the penalty on the rail were ever present, the statement continues, "even from the service of the Erie, rail road, banded themselves together at Port Jervis, New York, on Dec. 1, 1874 into what they termed 'The Park Lodge No. 1 of the Brotherhood of Locomotive Firemen and Engine Drivers' to stand together for the purpose of assisting each other in the times of their distress and to the families of their deceased members. Today the benevolent purposes of the organization extend over the entire North American continent. A review of the health insurance lost 19,500,000 weeks of work. Add those who are not insured and experts say the total would reach 70,000,000 weeks of work lost to the country through ill health of the working population. At an average wage of \$19 a week, the figures mean \$1,330,000,000 for the year.

ILLNESS CAUSES HEAVY LOSSES AMONG ENGLAND'S WORKERS

LONDON, Nov. 25.—The value of public health to the nation was judged from the following statistics: During the past 12 months, persons with health insurance lost 19,500,000 weeks of work. Add those who are not insured and experts say the total would reach 70,000,000 weeks of work lost to the country through ill health of the working population. At an average wage of \$19 a week, the figures mean \$1,330,000,000 for the year.

Quick! My Back! Rub Lumbago Pain Away

Rub Backache away with small trial bottle of "St. Jacobs Oil."

When your back is sore and lame or lumbago, sciatica or rheumatism has you bothered up, don't suffer! Get a small bottle of "St. Jacobs Oil" at your drug store, rub it on your aching back, and by the time you reach bed, the soreness and lameness will be gone.

Nothing stops lumbago, sciatica, lumbago or rheumatism so promptly. It never disappoints!

If Kidneys Act Bad Take Salts

Says Backache Often Means You Have Not Been Drinking Enough Water

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and laggard. When your kidneys get sluggish and clog you must relieve them. Like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, can not injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.

WOMAN'S CHIEF QUILTS

STANDISH Mrs. James Glasure, president of the Ladies' Aid society of the Methodist Episcopal church, nearly fourteen years, has retired from office. She was presented with a table cloth and a pair of embroidered pillow slips by the society.

BERLIN DOUBTS COFF'S TEARS IN JACKIE COOGAN'S PICTURE

BURLINGAME, Nov. 25.—The weeping policeman in Jackie Coogan's film, "My Boy," is too much for German imagination. The German film fans know that a German policeman couldn't weep and are very skeptical about the ability of an American "top" to shed tears. They even doubt whether one of the brass-buttoned blue coat cops across the Atlantic could be moved to tears by Jackie Coogan's many-film trials and tribulations.

If the policeman in America are as hard-hearted as the big fellow who weeps when he is forced to arrest Jackie Coogan for law-breaking, one of the Berlin newspapers says it must be a fine place for criminals.

SMARTLY SIMPLE

For indoor use, Paris is indulging the craze for brilliant colors, hence this smartly simple evening frock of tomato-red crepe Georgette. The skirt is draped at one side, and the blouse is so designed that it may be draped at the back, with one sleeve flowing to the edge of the skirt, or cut in simple over-bow effect. A neat edge is all the trimming required for the round neck. Medium size requires 7 1/2 yards 40-inch material. Pictorial Review Dress No. 184. Sizes, 36 to 48 inches bust. Price 45 cents.

FREE SPINAL EXAMINATION

APPLES.

Of the fruits that delight the eye and please the palate, none is more deserving of praise than the apple. Since prehistoric times apples have been known and their cultivation began in a remote period. While the exception of those regions of extreme heat or cold, apples grow everywhere. Even where the fruit is small the trees are prized for their blossoms. There are almost as many varieties of apples as there are soils and climates, and they differ in size all the way from the Strawberry Crab to the grand Pippin, and in flavor from the tart green to the insipid Ben Davis. Yet in commonness the apple is not out of place nor has its popularity ever waned. Along side the peach, the pear, the plum and the apricot, it holds by general consent a sort of primacy.

Whoever has ever eaten an apple, whether you pare and halve it with a knife, or following the home-spun tradition, cut it out of hand, skins and all, it is good. "An apple a day" make not "keep the doctor away," all other fruits are more some and healthful fruit, the apple is the "king" of fruits. Pies may come and pies may go, but apples are always in vogue. As for apple butter, well, there may be better "butter," but as far as date they have not been invented or discovered, covered and considered is the only interesting part of the world, and oh boy, to think of a single, rosy, and juicy, and sweet, and of Jersey cream!

Sombody should write a book entitled "The Apple You Ought to Know" as a sort of practical course in the knowledge which garnish the table, and in many a hall, for the benefit of the younger generation. Where are the apples of knowledge? For instance, the Blandin, an apple of the area known as a flavor that after a quarter of a century, the toothy old man sets the mouth to watering; the early red variety, a specimen of which fully ripe, and delicious in the country; and the famous Russet, an apple that was red when the apples were green, and its taste, yet in its way as unique as a diamond.

The apple days are gone. Fall is the best. The best evenings have come. Keep the hot, and cozy, and warm, and the fireplace, and live as a place to be held in the living room. As for the early red apples, life is worth the waiting.

COOK HAS FOUND HIS HEAVEN

"Old Doc Cook" had a plan for his life, and he was a man of character, and like most characters he was a man of a certain end. Around Cook's life, one may say, was a certain end presented to him by the friends of his friends. Combining cunning and audacity with a certain, but not a certain, degree of real achievement, he pursued a life of a certain moment seemed to pass and nothing was left behind. He connected the role of a hero with a certain, but not a certain, moment. He dreamed a dream that he would go down in history as the discoverer of the North Pole. In that, up to the present time, he still had his following, that was made up of those through his chicanery or because of prob was something to be envied.

But all that is over. Cook has found his heaven, his friends before the world now as a common swindle and a robber of widows and orphan, and a man without respect for human dignity. He was to his own place also, a federal prison, to which indignity, the world could not consign him for attempting to deprive Commander Peary of his hard-earned triumph by perpetrating a fraud. That was that, but unfortunately not the end of a legal sense; if it had been, the people who have now suffered through him, might have been saved from injury and loss. Reports say that Cook withdrew under the tongue lashing he received from the sentencing judge. As it possible that he deserved a poetic justice; a retribution for once he had so often meted out.

MIND, WEALTH, TRANSPORT

Modern commerce needs communication, the telephone, the telegraph and cable and the radio, and the most important in improving this facility.

As to inventions participation in the progress of living, think of street cars, electric lights, the telegraph, the radio and motion pictures. Inventions in manufacture have provided other, and the most important invention, which have revolutionized industry and commerce. Electricity has been the greatest single invention of modern times.

We are ahead of the ancients in our finding the means of invention. We make machines and tools, and with machines and tools we progress in business and science.

We live better, and wealth is more widely distributed, and opportunity is greater, because of invention. Advancement and wealth are intellectual results.

That man who left \$1,000 for his wife and \$35,000 for prayers for his soul certainly needed praying for. But he might have left his wife attend to that, as most men do.

An artistic finds fault with women for painting their furniture. But women have to paint something, and they'd better paint furniture than faces.

People who could never see the Einstein theory are seeing it now. It's been filmed. And if you ask us, we'll say it's very filmy.

Casting a metrical eye towards Washington just now, a rhymester might make something out of a tax law's and the ones of the bonus.

Grandma says that naval aviator who travelled 274.2 miles an hour must have missed a lot of good scenery.

FORD PLANTS BOON TO IRON MOUNTAIN

\$1,000,000 Invested in New Homes There During Last Year.

IRON MOUNTAIN, Mich., Nov. 26. Among the several changes that have taken place in Iron Mountain since Henry Ford built a large saw-mill and lode plant here are an increase of 5,000 in the population, the erection of hundreds of new homes and a number of business institutions and an increase in the city's payroll of \$500,000 a month, that being the sum paid now to the plant to the employees, numbering 2,000 or more. In addition to this is the large payroll of employees of the Warden-Allen Construction Company, Chicago, doing construction work for the Ford interests.

An investment of \$1,000,000 was made in new homes in Iron Mountain and Kearsford Heights last year, 100 houses being built. It is expected a larger number will be erected in 1924. Seven hundred were built in the last two years, it is claimed. Iron Mountain is the busiest city in Cleveland, both in volume of business and construction work. As to business, it has the word of traveling commission and the railroad companies.

CURTIS WOODWORK

The Cozy Interior

Chances are you are thinking of his ruddy fireplace when you say, "Isn't Bill Smith's place great?" You can have one, too, at no great cost—along with bookcases, breakfast nooks, ironing boards and other pieces. Through quantity production Curtis Woodwork—used the country over since 1866—can be had at very reasonable prices.

The designs—let us show them to you—are the work of famous New York architects. If Curtis Woodwork were produced in single pieces, only the most expensive homes in this city could afford it. But quantity production brings it within reach of all.

IN BUILDING CLOTHES IT'S KNOWING HOW TO DO IT. All that is required to make a suit of clothes for a man is a piece of cloth, lining material, needles and thread, buttons, scissors, tape measure and a piece of chalk. But what that suit will look like when the man steps into it depends on how well the fellow who makes it knows his business. The holding of old customers and the steady increase of new ones tend us to believe we know how to tailor clothes. We'd be pleased to make your Fall suit. CARL JACKSON

Thanksgiving Suggestions

For Men, Young Men and Boys

In accordance with the usual custom of dressing up for Thanksgiving we are offering below a few items which might be of interest to you as well as a suggestion what to buy in order to be well dressed for this holiday.

Gentlemen's Fine Shoes

Smart Shoes reflect character in themselves as well as in the individual that wears them. The Premier, a wide tread Oxford for Men and Young Men, for Fall and Winter wear, can be had in black and tan calfskin, high and low.

We invite your inspection of footwear in our exclusive shop where men can be fitted with care and get some thing exclusive. Our Oxfords and Shoes sell from

\$5 to \$10

Men's Genuine Bengal Crepe Ties **\$1.00**

Beautiful are the mixtures of color in these ties, leathers and many colored stripes. The crepe ties are without a doubt replacing the knit ties for service, and they do not wrinkle.

Men's Wool and Silk and Wool Sox **\$1.00**

These medium weight sox are just the thing for all winter wear. Come in terra cotta, leather mix and black mix. Most of these are silk lined to insure your wear. Most of them are ribbed.

Men's Imported Broadcloth Shirts **\$4.50**

In banded and collar at necked styles; plain white only. This is no doubt the dressiest and most serviceable shirt ever offered the public at such a price. All sizes.

Men's Shaggy Finish Hats **\$5.00**

Most wonderful showing of rough, shaggy finishes in town, any man can wear one. Beautiful browns, grey, green mixtures and the sand shades that are so popular.

The Trend Calls for OVERCOATS of Different Type and Texture

Being abreast of fashion for the season; being in accord with what the best dressed men have adopted as Overcoat correctness for now, means discarding last winter's Coat and replacing it with one of the newer vogue so accurately expressed in our present showing. Our greatest variety and value are featured in one interesting group at

\$40

Others, \$25 to \$65

As indescribable as they are irresistible are these striking garments—rich foreign weaves of pronounced patterns and monotone effects—new models so different in character as to impress immediately upon you that last year's fashions are passe.

Boy's Suits and Overcoats

A boy doesn't mind being "all dressed up" if he can also have comfort and such sturdiness of fabric and seams that a few wrestling matches won't be torn clothing and a scolding.

THANKSGIVING SPECIAL

BOYS' OVERCOATS

Beautiful leathers in gray and brown, made in the very latest styles. Hat sleeves and full belt-around. A coat that will be warm as well as serviceable. The boys will sure be pleased to wear it. Regular price \$18.50. Thanksgiving offer, sizes 10 to 14—

\$13.45

BOYS' SUITS

These Boys' Suits are wonderful and will give the lot of wear and service that you will expect. All have two pair of pants. They come in two shades of brown checks, in the latest Norfolk cut for boys. These suits formerly sold for \$12.00. Thanksgiving offer—

\$8.95

Young & Fillion Co.

STORE OPEN WEDNESDAY EVENING

OBITUARY

LOUIS DAUZY.
Louis Dauzy, aged 79, passed away at his home in Rapid River Saturday night after an illness of two years. The body was taken to the Allo Funeral Home to be prepared for burial and was returned to the family home this afternoon. Funeral services will be held at 9 o'clock Wednesday morning at the Catholic church in Rapid River with Rev. Father Gartin officiating. Burial will be in Rapid River cemetery.

He is survived by his wife and the following children: Mrs. George Hamilton of Rapid River; Fred Dauzy of Saskatchewan; Mrs. J. P. Curley of Iron River; Mrs. Fred Christenson of Manitowish; Edward Dauzy of Lansing, and Mrs. A. W. Deiman of Los Angeles, California. He has been a resident of Rapid River for over 20 years and his many friends will be shocked to hear of his death.

MRS. ADAM SCHWARTZ.
Mrs. Adam Schwartz, 31 years of age, of 305 South Thirteenth street, passed away Saturday morning, following a brief illness which started as typhoid fever and was followed by scarlet fever. Mrs. Schwartz was seemingly in the best of health until she was seized with a chill which downed her a week ago. Symptoms of typhoid developed and later the contagious disease followed. The body was taken to the Allo Funeral Home to be prepared for burial and was held there under quarantine until this morning.

A requiem high mass was held in St. Patrick's church at 8 o'clock this morning. Rev. Father Mockler was the celebrant, but on account of the communicable nature of the disease, causing Mrs. Schwartz's death, the body was not taken to the church. Burial was made in St. Joseph's cemetery.

News of Mrs. Schwartz's death came as a distinct shock to her very wide circle of friends. While it was known that she was ill, her condition developed so rapidly that few had time to bid her a last farewell. Her death was the occasion for the deepest and most profound sorrow on the part of all who knew her.

She is survived by her husband and two little girls, aged 19 and 8. The parents also survive.

ELOF ERICKSON.
The funeral of Elof Erickson was held yesterday afternoon at 1:30 o'clock at the family home in Bark River. Rev. Curison of Pointe St. officiated. Burial was in Lakeside cemetery. The funeral was largely attended and a profusion of flowers tended to show the high esteem in which he was held. The pallbearers were: John Hines, Fred Sandquist, Frank Olson, August Olson, Victor H. Lund and Edward Erickson.

Elmer Swanson Is Big Game Hunter

Under Sheriff Elmer Swanson says he likes to go hunting and would really knock down a deer, if there was nothing else in the woods that afforded a better line of excitement. He does not have a great deal of time to spend in the woods, but went out Sunday, just long enough to track a big black bear four or five miles through the woods and then when "brum" turned upon him, place a bullet right between his eyes. The bear is a big fellow and Elmer is going to have a rug made from the hide.

Machine Guns Throw Bullets from Run Ship

(Continued from Page One)
liable to seizure as the twelve-mile treaty between Great Britain and the United States involving run-carrying boats, had not become effective. Meanwhile the boarding party searched the schooner and down in a hold they found McCoy, crouching among the remaining 200 cases. In his pockets were found bank notes for \$60,000 and in the cabin safe were \$20,000 more. All this McCoy said had been received from the smuggler boats of New Jersey that visit his ship on Run Row.

Claims Immunity.
"I'm within my rights outside the three-mile limit and all the customs agents and prohibition agents and reformers in the United States can go hang, for I'll beat them," McCoy is alleged to have said, as he left the schooner.

The Tomako was towed to the Battery and her crew and McCoy, who is said to be under federal indictment for violation of the prohibition law, were placed in jail. He has been sought for five months by treasury department agents from Daytona, Fla. to Portland, Me.

All members of the Tomako's crew had been given their share of the cargo profits and had dollar-filled pockets when taken to the barge office. There were several youngsters among them who declared that the run-running business was the most remunerative as well as adventurous calling they could think of.

ONE POUND TEXAS BABY LOSSES FIGHT FOR LIFE

HOUSTON, Texas, Nov. 26.—Little Mary Rogers, one pound baby who lived twenty days on nourishment administered through an eye dropper, was at rest today. The mite—only five inches in length—died during the night following a day in which vitality, saved through careful administration of warm milk and an occasional drop of whisky, slowly ebbed away.

FOWL PLENTIFUL, WITH LOW PRICE, IS MARKET TALK

Excessively High Price for Turkeys This Year as Predicted Will Not Be a Fact.

Requests for "a little more whittling" and another helping of "dressing" at the Thanksgiving dinner table this year need not cause undue alarm so far as the supply and price of turkey, ducks and geese is concerned, according to local meat dealers. While there is no apparent shortage in the supply of chickens, the price in most places is about the same, if not a little higher, than last year.

An unusually favorable growing season and the fact that many growers who had the market break under them last season carried over a large number of birds for breeding purposes, are believed to be the chief contributory factors to generally lower prices on all fowl. The supply is unlimited and there will be plenty for those who can afford them.

The supply is dependent largely upon the number of birds breeders determine to withhold for the Christmas and New Year's trade, and it is likely that large numbers will be tagged for November shipment.

The price range last season was from 35 cents to 70 cents, retail, for turkey, and from 10 cents to 50 cents for ducks and geese. Chicken ranged from 20 to 25 cents. This season the average price for turkey will be 45 cents, with geese and ducks running from 20 to 25 cents and chickens from 20 cents up.

Celebrate Tenth Anniversary

Many friends, with large bands of musicians, were invited to the home of Mr. and Mrs. John Kelson, 205 South Thirteenth street, yesterday evening and completely took them by surprise, reminding them to remember that it was already ten years that they had been married. Nothing Mr. or Mrs. John Kelson had anticipated of the affair, therefore, the surprise proved very successful. The main features of the evening's entertainment were singing, music and cards. The winners of cards were: Ladies' first prize, Mrs. Wm. Christensen; second, Mrs. P. H. McCormick. The men's prize went to: Richard Wood; 2nd, Mr. Zellers. Delicious refreshments were then served, and bringing the party to a close, their party friends bid wishing Mr. and Mrs. Kelson success and happiness in their future married life.

Harry Needham Is Back in Escanaba

Harry Needham, son of Mr. and Mrs. William Needham, is back in Escanaba after several months spent on the Pacific coast, where he found four or five men waiting for each job in the electrical construction work. He drove all the way out in his Ford and says it cost him 50 cents for 12 pairs. Young Mr. Needham says the car is all right, but he is pretty well sold on Escanaba as being a good town and will probably remain here for some time.

CHIEF OF POLICE AND SEVEN HURT IN AUTO CRASH

MANITOWOC, Wis., Chief of Police Anton Trochell and a party of seven were slightly bruised when an automobile, driven by the chief, went into the ditch on highway 57, near Brillan. Mrs. Trochell and her daughter, Mrs. Elmer Smith, were bruised. The car left the road as a hub cap struck a culvert post when the chief turned the steering wheel to avoid a stone. The party was en route to Neenah.

ASKS DIVINE WRATH IF GUILTY—FALLS DEAD

BREWSTER, Ariz.—"May Almighty God punish me with instant death if I am guilty," was the final declaration of a man on trial here for the murder of his wife. Immediately after uttering the words he swooned in the courtroom and died before doctors could come to his aid. His statement was made during a heated cross-examination and while the accused showed great excitement. Doctors certified that heart failure caused his death.

In 1925 but 699,919 World war veterans of draft age will be available for service in the event of an emergency.

The United States war department spent \$1,216,300 for messages sent by cable and radio during the World war. More than 75,000,000 words were listed.

BETTER HURRY

You had better hurry and place your Turkey order with us. Few are coming to town. Our price is 42c per pound, dressed.

Any Chicken, 25c pound
