## THREE KNOWN DEAD IN HOTEL FIRE

### HOUSTON HOTEL MASS OF RUINS LOSS \$300,000

Guests Escape Clad In Their Night Clothes; Stores Burned. Fire Started From Unknown Origin Shortly After 6 O'clock—More May Be in Ruins.

(By the Associated Press)  
HOUSTON, Texas, Dec. 18.—The bodies of three men had been recovered at 10 o'clock this morning by firemen in the ruins of the Capitol hotel in the heart of the downtown district, which was burned in a fire that started at 6:30 this morning.

A check of the guests of the hotel could not be made at an early hour and officials think the only way to determine the number of casualties is to make a complete search of the ruins. The property damage is estimated at \$300,000.

### GREEK KING TO LEAVE ATHENS

ATHENS, Greece, Dec. 18.—King George and Queen Elizabeth will leave Athens tonight for Roumania, it was announced in the newspapers here today.

### PRESBYTERIAN CHURCH TO HOLD MIDNIGHT SERVICES

On Monday night, Dec. 24th, commencing at 12 o'clock, midnight, a Christmas Candle Light Service will be held at the First Presbyterian church. This is the first service of this kind to be held by the Presbyterians, and it is anticipated that a large number will avail themselves of the occasion.

Asplendid program of Christmas music has been prepared which will occupy the major portion of the service. The aim being to have this an occasion of joyous worship. The Christmas story will be read and a brief Christmas address will be given by the pastor, Rev. Harry W. Staver. It is expected that other ministers and congregations will co-operate. Invitations have also been extended to the public in general who may wish to attend.

### Two Airmen Are Killed As Ship Crashes In Texas

SAN ANTONIO, Dec. 18.—Capt. Harry Starcken, commander of the 47th School Squadron at Cook Field, and Sergeant C. E. Ryals were killed today when their ship smashed to earth. They were on their way to Dallas. The accident happened at Pecos.

### 1921 PRECEDENT PAVES THE WAY TO NAME FARLEY

WASHINGTON, Dec. 18.—The action of the Senate in 1921 in confirming the nomination of Alfred D. Lasker as chairman of the shipping board, is regarded by President Coolidge as setting a precedent for favorable action on the pending nomination of Edward P. Farley of Chicago, for the same office, despite the provisions of the law.

### PARENT BOUND OVER FOR TRIAL

Republic Bank Robber Was Arraigned In Court At Ishpeming.

ISHPEMING—After signing a check for \$150 on a Milwaukee, Wis. bank, where he had a savings account, Joe Parent, alias "The Wolverine," confessed robber of the Republic State bank, was bound over to the February term of circuit court yesterday morning in municipal court. His bonds were set at \$15,000 and he was removed to the county jail.

Parent, who was brought here Saturday from Lansing, was taken to the county jail that evening following a preliminary examination before Judge St. John, during which he waived examination.

The court room was crowded yesterday morning with Ishpeming men eager to get a glimpse of the bank robber.

Walter Erickson, proprietor of a grocery store, who in 1914 was the manager of a store at Republic, was one of the interested spectators. When Parent and Clyde Smith gave a posse of 200 a spectacular man hunt, lasting more than two weeks, through the Upper Peninsula woods, from Escanaba to Republic, Parent left Smith, who only had one hand, on the outskirts of Republic while he went to Erickson's store and purchased two pairs of shoes. Mr. Erickson did not learn of the man hunt until a few hours after Parent left the store. He immediately notified the authorities, who were closely following the trail with bloodhounds and the men were captured the following day at Nystech.

State police officers tried to get Parent to confess to the holdup of Henry Liquea, a Standard Oil employe at Negaunee, last September, but he declared the only job he committed since being paroled from Ionia in September, 1920, was the one at Republic.

### Father Declares He Killed Son, 17

GRAND RAPIDS, Dec. 18.—Joseph Candela, 39 years old, is said to have declared he killed his son, Philip, 17 years old, who died suddenly November 6. The police refuse to believe him and have declined to grant his request to be locked up.

Relatives assert the man is suffering from a delusion because of shock of the son's death. Coroner J. B. Hilliker clings to his decision, announced soon after the boy's death, that he was a victim of heart disease.

Candela, it is said, walked into police headquarters and, approaching Clerk Elmer Dugan, declared, "I killed my boy and want to be locked up." Questioned by Police Sergeant John Quick, he explained the moonshine business did it. The gas got out of the pipes when Philip took care of the still and it killed him. "I want to quit the business and if you will come with me I'll show you where the stuff is."

Accompanied by the liquor squad, Candela went to his home and the police searched the building. They found nothing.

### Former Klansman Starts Another Anti-Association

SALEM, Ore., Dec. 18.—Lyther H. Powell of Portland, former King Night of the Ku Klux Klan for the north-west, heads an organization known as the Allied Protestants of America, articles of incorporation for which are on file here today.

## Ford Load of Moonshine Taken By Police

### GOITRE CRUSADE IN ESCANABA TO BE STARTED HERE

Meeting Will Be Held At the High School Wednesday Night.

Spread of Goitre Can Be Checked Only By Wholesale Co-operation—Attend the Big Meeting.

Plans for a city-wide anti-goitre campaign, to be conducted in the schools of Escanaba are to be announced Wednesday night at a mass meeting to be held in the auditorium of Escanaba High school, under the auspices of the High School Parent Teachers' association.

Parents of all school children, public and parochial, not only are invited, but are urgently requested to attend.

The municipal department of health, the city council, the board of education and the Escanaba Medical Society, have united in the leadership of the campaign, which is to be waged against goitre, which world-famed medical men have agreed is the most easily preventable disease.

At Wednesday night's meeting Dr. G. C. Bartley will discuss the goitre situation from the viewpoint of a member of the medical society and the need for a co-operative movement to check it in this community. Dr. A. S. Kitchin, Dr. A. P. Snyder and Dr. J. J. Walsh will discuss the causes, effect and cure of the disease; and Dr. H. S. Definet, city health commissioner, will speak on "Escanaba as a Goitre Region" and outline a program for the prevention of the disease.

It is hoped that a large crowd will attend the meeting for those who are best informed on the subject believe that eradication of goitre is the most important health measure confronting Escanaba.

Concerning the situation here, and measures taken elsewhere, W. H. Olin, superintendent of schools, issued the following statement:

### School Children Help Stop Motor Accidents

SAN FRANCISCO, Cal., Dec. 18.—One thousand public school boys of San Francisco, from 12 to 18 years old, have been organized into a traffic service force. Like the regular traffic policemen they are posted on the corners surrounding schools, where they regulate the progress of automobiles and see that their fellow students cross the streets safely. They study the city ordinances and are drilled in signals by traffic officers of the police department.

This is an extension of a campaign against accidents started here ten months ago by the police department, in co-operation with the California State Automobile Association. A committee of citizens was appointed to work with the police in suppressing reckless driving and careless walking, and in supervising the flow of traffic. During the ten months the death rate for motor accidents here was reduced 25 per cent from that of the same period in 1922, according to statistics prepared by the association.

Representatives of northern and central California cities, at a recent meeting here, decided to adopt a similar plan in their communities.

### MEMORIAL FUND FOR HARDING NEARING QUOTA

J. R. Wilkinson, chairman of the city for the Harding Memorial fund, said today that there are several dollars yet to be subscribed before the quota has been reached, but withal, the public has responded promptly and willingly—and unsolicited.

No amount was very large and it was not the intention of the committee that it should be large, for this is a movement that nearly everyone wants to have a hand in and give their bit. You will not be asked to give anything and if you wish to become a contributor it will be necessary for you to send in your check to W. R. Smith, who is the treasurer.

### REPUBLICANS AGAIN HALTED IN THE PLANS

Steps to Take Up Mellon Tax Program Stopped.

It Was Planned to Give Tax Measure Priority Over the Soldiers Bonus It Is Said.

(By the Associated Press)  
WASHINGTON, Dec. 18.—Republican leaders of the House, who perfected their committee organization yesterday, encountered a fresh setback today when they made their first attempt to begin the legislative business of the session.

A meeting of the ways and means committee was held and the managers had planned to take up the Mellon tax program ahead of the soldiers' bonus question, but this step was suddenly cancelled and no future dates were set for another meeting.

The republican leaders made no explanation of the upset in the plans, but some of the democrats declared it was due to a fear that insufficient votes could be mustered behind this movement to put the taxation ahead of the bonus. Demands for priority for the bonus bill have been made by Representative Ramey of Illinois, democratic member of the committee and by Representative Proar of Wisconsin, a republican member belonging to the followers of Robert M. LaFollette, who delayed organization of the House and still are holding the Senate in a deadlock over the election of a chairman of the Inter-State Commerce Committee.

### BADGER DOCTOR NAMED IRONWOOD OFFICIAL

RHINELANDER, Wis., Dec. 18.—Dr. L. P. Dorpat of this city has been appointed health officer of the city of Ironwood at a salary of \$1,500 per year. He will succeed Dr. C. W. Olson, resigned, and will begin his duties Jan. 1. Dr. Dorpat is deputy state health officer for the district comprising the counties of northern Wisconsin and has held this position several years.

### GERMAN WHO TRAINED TURKISH ARMY, DIES

BERLIN, Dec. 18.—General von Ruedigisch Pasha died recently in Berlin at the age of 69. He had lived in the Turkey several years, having trained the Turkish cavalry at Constantinople, Tripoli and Damascus. For this service Sultan Abdul Hamid conferred the title of pasha upon him and also gave him the order of Osman and of Maschidke, first class.

### DEFENSE RESTS CASE IN TRIAL OF PHILIP FOX

Defense Attorneys State That Client Is Not Sane.

Alienist Declares That The Mental Condition of Fox Is Not Indicative of Sanity.

(By the Associated Press)  
ATLANTA, Ga., Dec. 18.—Defense attorneys in the case of Philip E. Fox, on trial for the murder of W. S. Curn, rested their case a few minutes after 12 o'clock today. The court took a recess until 1:45 to allow the state to prepare rebuttal witnesses.

Mentally Incompetent.

ATLANTA, Ga., Dec. 18.—Philip E. Fox, formerly the editor of the official organ of the Ku Klux Klan, will not take the stand to testify in his own behalf in the trial here for the murder of William S. Curn, it was announced today by a party closely associated with the defense.

An insanity plea has been entered and an alienist has testified that Fox is in a chronic paranoid condition. "Fox is able to converse intelligently on many subjects," the alienist declared, "but his delusions, after lengthy deliberation, has decided it would not be wise to let Fox make a statement in his own behalf. They feel they cannot place any dependence on his possible action while he is on the stand."

The defendant is now in a highly nervous state, it is declared, and his lawyers have only been able to drag out of him the salient details regarding his actions. The judge asserted he wanted the case concluded so each juror could spend Christmas at home and today announced that court would be in session for fourteen hours each day.

The court stated it was expected to get the case to the jury by Saturday night.

### League Shows Interest In A 50-50 Marriage

GENEVA.—Everybody connected with the League of Nations is interested in a pretty little romance between two modest League workers which has joined together in matrimony the impoverished son of a former great Russian magnate and a beautiful young polewoman, descendant of one of the oldest families of the former great Russian empire, both of them exiles from Russia as a result of the Soviet revolution.

M. Pastouhoff, the bridge-maker, whose father was the fabulously wealthy owner of the Donetz coal mines in southern Russia, has an humble position as interpreter at the League and there he met and wooed Countess Ouzareff, of a family of ancient lineage, despoiled of title and fortune, who does not scorn to labor daily as typist and Slavic secretary in the political section.

Wedded, both these young Russians will continue their League work for the countless must support her aged grandmother, now an exile in Yugoslavia.

### FARMER REDUCES FARM PRICE, \$6,000

PRESTON, Wis.—Several years ago a farmer, residing near here, sold his farm of two hundred acres for \$180 an acre, or \$36,000. The purchaser moved onto the premises and has farmed the place since, but he has had difficulty meeting the payments and interest and the original owner entered into a new agreement. The original price has been reduced \$6,000, or a release was given making the purchase price \$30,000. With interest remitted a cancellation is made amounting to \$10,000.

### "Vet" Must Face Serious Charge In Iowa Courts

JEFFERSON CITY, Mo., Dec. 18.—Russell K. Cockburn, a patient in a veterans' hospital at Jefferson City barracks near St. Louis, who is wanted in Des Moines, on a charge of embezzlement in connection with the alleged padding of the city pay roll fund, in the amount of \$86,000, has been denied a writ of habeas corpus by the supreme court, which ordered him into the custody of the sheriff from Des Moines.

### A CHEVROLET AT YOUR OWN PRICE SEND IN COUPON

If Your Price is Too Low it Does Not Cost Anything and You Might Be Highest.

If Harry Brackett, manager for the L. K. Edwards, Inc., agents for the Chevrolet automobile, asked you what you were willing to give for a new touring car, you would tell him right away how much you could spare at this time. If you thought your chance was good for getting the car at a reduced price you would snap it up in a minute.

Now—that is the chance you have. There is a handy coupon in every issue of The Mirror and all you have to do is to write in your name and the price you are willing to pay and perhaps when the bids are opened Monday afternoon at 4 o'clock you will have a new car for Christmas.

After you read this, don't wait until tomorrow, but fill out the coupon RIGHT NOW. People are pretty busy this time of the year and it is not likely that as many coupons will be turned in as there would be at some other time of the year, but this is the way the agents are going to give someone a Christmas present and if you name anything like a fair figure, you may get the car, but DO IT NOW.

### PRESBYTERIANS BALK AT DEMAND

(By the Associated Press)  
NEW YORK, Dec. 18.—Vigorous opposition developed in the Presbyterian church against the adoption of the five articles of faith demanded by the fundamentalists at the general assembly, it was learned today at the headquarters here.

Ministers in all parts of the country, it was said, were signing a protest against the assertion that these five articles are essential of the church doctrine.

### Federal Troops Chase Rebels From San Marcos

EL PASO, Tex., Dec. 18.—Federal troops have taken San Marcos, the important strategic point between Vera Cruz and Mexico City, according to reports received at Juarez and are advancing steadily towards the sea board. The fighting for possession of San Marcos has been under way for more than sixteen hours, which time it took to force the rebels to retreat.

American Status Same.  
WASHINGTON, Dec. 18.—The revolutionary movement in Mexico has not operated to change the policy of the American government, it was announced today at the White House.

### Hughes Declines Soviet Note For The Negotiations

Father of Six Meets Death In

### 31 GALLONS IN TOURING CAR A RECORD HERE

Seymour Brothers Arrested On Charge Of Possession

Officers Are Now Looking for Still Where the Great Amount Of Liquor Was Made.

The largest haul of illicit liquor ever made by the local police and the largest quantity ever seized while in transportation was made by Officer Papineau early this morning, when he confiscated a Ford touring car, driven by Charles Seymour of Schaffer, which contained a copper boiler, a bag of rice, two milk cans filled with liquor, one keg of liquor and a five gallon jug of liquor. The jugs, cans and keg were all concealed in bags.

Joseph Seymour is employed at Maranta, but it is stated that his home is at 310 North Eighteenth street and it is thought by the police that the moonshine was being removed from some place near Maranta or from some place in the vicinity of Schaffer. Searching parties are out today making a close search to discover the fountain head of this particular flow of booze.

Both of the Seymours were bound over to the federal court for trial.

### Two Tons Evidence

Leo J. Grove, district prohibition enforcement officer, was in the city today and much of the evidence secured in this county during the past three weeks was packed up and will be taken to Marquette for evidence at the next term of court.

The Seymour confiscated touring car will be loaded with all it can carry and then a truck will probably be engaged to move the balance. It was estimated that there are over two tons of evidence, including cases of beer, kegs, bottles, cases and cans of liquor, bags of rice and much and many number of stills of various completeness.

In connection with recent raids, the officials claim to have sufficient evidence in each case. In court today Napoleon Gildon of Cornell township entered a plea of not guilty and was bound over to federal court. Later his wife turned over to Mr. Grove the worn part of a still which was made to go into a copper wash boiler, which the owner was allowed to keep to be used in the manner for which it was originally made.

### 25 Dogs, 7 Cats, 11 Children, Too Much for Home

AKRON, Ohio, Dec. 18.—Seven cats, 25 dogs and 11 children are too much for one home, the juvenile court has decided.

Welfare workers notified they found that condition in the home of Henry Reichter.

### DAY'S PAY LOOKS BIG FIGURED IN PRODUCTS

J. S. Wanamaker, president of the American Cotton Association, has a new or rather very old method of calculating the worth of a map.

Mr. Wanamaker says 63½ dozen eggs pay a plasterer for one day's work of eight hours; 17½ bushels of corn, or a year's receipt from half an acre of ground, pay a bricklayer for one day; 23 chickens, weighing three pounds each, pay a painter one day in New York; 42 pounds of butter, or the output from 14 cows, pay a plumber \$12 per day; and 75 pounds of hog, eight months' feeding and care, pay a carpenter for one day.

# SHOPPING HAS TWO WAY-PLAN OF COURTESY

### Christmas Shopping Could Be Made Much Pleasanter If Everyone Exercised a Little Courtesy.

Courtesy is a two-way proposition in which Christmas shoppers are expected to participate as much as clerks, department managers in several stores pointed out today. Sharp-tongued sales ladies are no more to be censured than discourteous, thoughtless customers, several store executives said.

There are many ways in which customers may help the busy salespersons and help themselves at the same time, one merchant said.

"Shop early and avoid the crowd," was a good Yuletide slogan until the early morning crowds became almost as big as those of late afternoon. Retailers here, therefore, have altered this slogan to: "Avoid the crowd. Shop during the non-rush hours—to a. m. to 4 p. m."

Impatience is a cardinal sin of the average customer, according to several merchants.

"It certainly does not speed up service or ease the clerk's nerves to face a counter lined with customers, each of whom is trying to get ahead of the other," another merchant said. "This pushing, jostling and whispering speaking delay the service and make the crush period of Christmas shopping unnecessarily unpleasant for the shoppers."

Another cause for shopping delays, it was said, is the vagueness many customers show in attempting to make purchases. They do not know what they want, or if they do, they don't know how to express it, one store executive said. Other customers cause a little sales waste by their reluctance to say frankly how much they want to spend. This often results in using up many minutes in which the clerk displays articles the customer does not intend to buy because the price is either too high or too low.

"If you want to put only \$2 in a certain article," a merchant said, "tell the clerk so, and thus avoid putting her to avoidable trouble and delay. The time of the clerk should be more wasted than that of a factory worker."

"Some shoppers have such a superior attitude," a woman clerk said, "if they would only be more democratic and sympathetic."

"Courtesy and patience on both sides would solve the Christmas shopping problem," was the summary of the situation by one store manager.

## DEATH CAR DRIVER GIVEN EIGHTEEN MONTHS

MANITOWOC, Wis., Dec. 18.—Robert Porter, Minnesota man who was charged with manslaughter growing out of the death at St. Wendel, near here, of Alfred Frank, a Wilmette, Ill., motorcyclist run down by an automobile Oct. 1, appeared in circuit court and entered a plea of guilty and was sentenced to eighteen months at the Green Bay reformatory. Porter, held by a coroner's jury, pleaded not guilty when arraigned in October, but Saturday asked the court to permit him to change his plea.

He was arrested three days after the fatal accident at St. Paul and brought back here.

## ARREST PAL OF OSHKOSH BANDIT

OSHKOSH, Wis. Acting on a tip contained in the confession of Henry Miller, Oshkosh boy bandit, charged with robbing several stores and gas-line filling stations here, the police have arrested Clifford McAllister, residing at Ladysmith, Wis. He is about 24 years of age and is said to answer the description of Miller's "pal" in at least two of the holdups. It is said that McAllister came to Oshkosh a short time ago to inquire about Miller and was "tipped off" by a girl friend that Miller had implicated him. He disappeared but returned to Ladysmith recently. At the city lockup McAllister was non-communicative.

## RED PEPPERS END RHEUMATIC PAINS

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Instant relief—just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Even the most obstinate rheumatism is relieved.

## Didn't Say Ford Will Aid Coolidge

WASHINGTON, Dec. 18.—Emphatic denial was made by Bart D. Cady, republican state chairman for Michigan, that he had predicted the endorsement of Calvin Coolidge for president in 1924 by Henry Ford.

The denial came in response to a request for verification of such a statement attributed to Cady in a dispatch from Washington printed in a Detroit afternoon newspaper—Friday.

"What I told the reporter," said Mr. Cady, "was that a man came to me and said Mr. Ford would back Mr. Coolidge, but that I was not at liberty to give the man's name as he spoke to me in the strictest confidence. I did not vouch for the story, myself. I know nothing whatever about it except as it was given to me."

Cady was in Washington on legal business. His visit to the White House was to introduce William E. Robb of Howell, and his two daughters to the president.

"We stayed only a few minutes and the call was purely social. We never mentioned politics," said Mr. Cady.

## GO THAM TO GIVE DIMES TO HONOR WARREN HARDING

### Ten-Cent Contributions From Masses to Supply \$250,000 for Memorial

NEW YORK, Dec. 18.—Ten-cent contributions from every person in New York will raise the \$250,000 quota of the 25-cent Harding memorial fund, it was announced Friday by Arthur H. Hays, general chairman of the campaign here.

Harding was a man of the masses and no better tribute could be paid to his memory than to make his memorial a tribute from the masses, Williams said.

To this end, he declared, two committees are raising New York's quota. One committee, headed by Charles M. Schwab, will contact the wealthier class. The second committee will raise \$250,000 from the masses with ten-cent contributions.

## Unusual Precaution Taken By Argentina When Shipping Gold

NEW YORK, Dec. 18.—It is believed by a lot of gold buyers which swarming ledgers should guard day and night, the standard American Legion has advised here with its previous campaign of \$500,000 in bullion from Buenos Aires. It is the first gold legally to be exported from Argentina since the wartime embargo and according to Mulson, state officials, the largest contingent ever to pass between the two continents.

The gold, in 20 casks, is bound with metal and sealed and shipped here by the Argentina National bank for deposit against London drafts to pay the coupons on part of the Argentine external debt. Since the debt is payable in sterling, the gold probably will be exchanged for British pounds after which it will go into storage to remain until it is minted or reissues the stream of bullion constantly flowing between the United States and foreign countries.

Because of the difference in the rates of exchange the government of Argentina expects to profit to the extent of about \$250,000 paper pesos in New York when the gold is exchanged for pounds sterling.

Handling large shipments of gold and silver bullion has become a commonplace with trans-Atlantic steamship companies and the bullion is handled as so much "merchandise." But the shipment of a few millions from a South American country becomes a national event, and the steamship chosen for its transport is freighted with responsibility.

The removal of the shipment from the Argentina National bank to the ship was attended by the greatest of precautions. It was carried through the streets of Buenos Aires accompanied by guards armed with pistols, rifles and swords and hustled into the bullet-proof vaults of the American Legion. The precious cargo was under strict watch throughout the voyage. Upon arrival here similar precautions were taken, the regular police being augmented by armed guards, while the armored trucks that carried the gold to a government sub-treasury were protected by armed men.

Handling gold has become so common with the largest trans-Atlantic steamship companies and the agents of the lines and even the dockmen have become blasé about handling millions of the metal. The process of loading, storing and unloading gold in international shipments has become so systematized that the factors of responsibility and security

## ANOTHER USE IS DISCOVERED FOR BALSAM BOUGHS

### Many Car Loads Are Shipped From Cloverland to Cover Strawberry Beds in Winter.

REPUBLIC, Mich., Dec. 18.—Seventy-five carloads of Christmas tree boughs recently shipped from the Republic and Humboldt districts will never be entwined with popcorn on a string or be illuminated by the colored Yuletide lights. Instead, they will be used to insure a supply of strawberries for next summer.

Morgan G. Williams, proprietor of a Wisconsin nursery, has superintended the loading of the trees for shipment to his company's farms, there to be used in covering the strawberry plants and young trees. The Christmas trees are placed over the plants while the trees are still green, preventing the plants and seedlings from freezing.

In taking these evergreens from the Michigan forests the nursery man pointed out that exceptional care is taken not to deplete or injure the standing supply of trees.

"We do not come to the Upper Peninsula to rob the forests of their products," he said. "We are buying nothing but the waste from pulp wood operations which in the past has been left in the woods. Our cutters are advised that we want only branches from trees taken for pulp wood. We do not buy small trees. By using the branches we are conserving straw and we find the woods product much better suited to our purpose."

## THOUSANDS OF INDEPENDENTS CAN CONNECT WITH BELL LINES

It is interesting to note that there are approximately 9,200 independent telephone companies in the United States, the lines of which are connected directly or indirectly with those of the twenty-six Associated Companies comprising the Bell System. These are the independent 250,000 rural line systems and systems lines which are connected with the Bell System. These two groups together own collectively some four and one-half million telephones, which is equivalent to the number of telephones in the United States about ninety-seven and one-half per cent can be reached through the Bell System.

On August 1, 1923, the total number of Bell system telephones in service in the Bell System was 10,212,983, a gain of 817,381 telephones in twelve months.

## NOTICE!

Benefit Association of Railway Employees: Our regular election of officers will be held at Greiner's Hall, Wednesday evening, December 19, 1923. Smoker and lunch after the election.

C. A. WEBER, Sec'y.

BERNARR MACFADDEN

## Health Hints by the Father of Physical Culture

Health first of all means endurance and the ability to sidetrack disease. It naturally indicates functional and organic vigor. You cannot be healthy unless the organs of the body are possessed of at least a normal degree of strength and are performing their functions harmoniously and satisfactorily. To have health means that you are full of vim and energy that you possess that enviable characteristic known as vivacity. It means that you are vibrating, pulsating with life in all its most attractive forms. For life, energy, vitality—call it what you wish—in all its normal manifestations, will always be found attractive.

A healthy man is at all times thoroughly alive. The forces of life seem to imbue every part of his organism with energy, activity and all characteristics opposed to things inanimate. A healthy man is naturally enthusiastic. He can hardly avoid being ambitious. And consequently success, with all its splendid rewards, comes to such a man in abundance. Life to such a man should be replete with worthy achievements.

No one belittles the importance of success. Everyone is guided to a large extent by the desire to succeed. When a child toddles off to school the training which he secures there is given for the single purpose of bringing success, but this goal cannot possibly be reached without health and throbbing vitality. In fact, you are not yourself in every sense unless you possess vitality of this sort. The emotions and instincts that come to one when thoroughly developed, with the vital forces surging within, are decidedly different from those which influence one when lacking in stamina. Many who have grown beyond adult age are still undeveloped as far as physical condition and vigor are concerned, and this lack of physical development of vitality means immaturity—incompleteness. It means that one is short on manhood or womanhood. This statement that one's personality, under such circumstances, is not completely brought out, may seem strange to some, but careful reasoning will soon verify its accuracy. Success of the right sort, therefore depends first of all upon intelligent efforts that are guided day after day, with a view, first of all, of developing the physical organism to the highest possible standard, and maintaining it there.

## POLISH ORGANIZATION WILL SEEK LARGER U. S. IMMIGRATION QUOTA

WARSAW, Dec. 18.—Thanks to the interest taken by President Wojciechowski in American Poles, the organizers of the circles in various parts of the country for the protection of returning American Poles have been able to set up a central office in Warsaw. This office will centralize all the work that is being done for these Poles returning to the home-land, and will keep in touch with American or-

ganizations interested in the same work. President Wojciechowski, Cardinal Kakowski and Dalbor, as well as the speakers of the diet and senate, will be asked to join the committee of this organization as honorary presidents.

Among other aims, the new organization will endeavor to influence America to increase the Polish immigration quota.

## FOKKER REPORTED TO BE FILLING LARGE ORDER AIRPLANES FOR RUSSIA

COPENHAGEN, Dec. 18.—Fokker of Holland has been working for the past month on a large order for Russia of modern Fokker airplanes equipped with Napier-Lion engines of 450 horsepower, says the Stockholm Svenska Dagbladet. It is believed that 500 have already been sent to Russia, being one-third of an agreed delivery of 1,500 machines.

In the summer the Soviet government bought 700 airplane engines and recently purchased several thousand machine-gun barrels. It is now reported that the Soviet is negotiating with the Swedish Bofors works for the purchase of 1,000,000 army helmets.

Did you ever try to teach a rabbit to speak English? Then you know how hard it is to teach a prejudiced man to be fair.

## FRENCH BOYS IN FACTORIES GIVEN INDUSTRIAL COURSES

PARIS, Dec. 18.—The dearth of skilled workmen in France is causing a revival of the apprentice system in the form of training schools in factories. One of the most advanced of these is in a Paris automobile factory, where sons of employees are given a two-year course of lectures, demonstrations and experimental work, and finished off with a year in the shop doing a man's work. The boys get alternate lessons in

theory and practice, and are given a week or two at a time at some machine with the regular skilled operator. When they graduate they have had a rounded out experience which enables them to choose their future work with discrimination.

Somewhat similarly the theatres of Paris have established training courses for scene-shifters in several of the best equipped houses.

France is willing to do anything her former allies wish her to do providing it is exactly what she wants to do.

**L. A. HOYLER'S CANDIES ARE SAFE**

What kind of Candy are you going to buy for Christmas? Two kinds are on the market: One kind has a low selling tag on it. The other has a reputation back of it.

Don't you think it is better to be a little careful when you make your Christmas purchase of Candy—not only for the children, but for yourself.

# LET'S MAKE THE HOLIDAYS FREE FROM ANY FIRE

### The Way to Do It Is Not Use the Christmas Candle.

### This Warning Applies to Trees Mostly, But Be Careful of Other Lights as Well.

Fire warnings, especially applicable to the Christmas season, have been issued by local authorities in nearly every city in the state. A composite of the several warnings to prevent fires both in homes and business places follows:

There should be the closest co-operation in mercantile houses, between display and electricians to eliminate the danger of fires and resultant panics in connection with the use of electricity in the display of Christmas goods.

The tallow candle as a Christmas tree decoration should not be used under any circumstances.

Attention is directed to the high wattage lamps now used for store lighting. Paper shades and other inflammable materials should be kept from too close proximity to these lamps. Show windows are flooded with electric light during this season, and lack of ventilation sometimes permits the heat to accumulate. For this reason combustible goods should be kept at a safe distance from these lights.

Electrical fixtures should be used for the exclusive use for which they were intended, and if wires are hung about the store for the display of merchandise care should be taken that such wires do not come in contact with either electric wires or fixtures.

Tinsel and other metallic decorations should be kept away from lamps and sockets.

All Christmas trees in the home should be illuminated by electric lights.

### GERMAN LOSES HOME, THEN JOB

MUNSTER, Dec. 18.—Prof. d'Estor, one of the few lecturers on journalism in German universities, has been compelled to abandon his work in the university here. His dwelling house fell down, and he was unable to obtain living quarters through the housing commission.

### Texas Preparing for Active Winter in Golf

SAN ANTONIO, Tex., Dec. 18.—Southern golf clubs will pour approximately \$17,000 into the hands of America's golf professionals during the winter as prizes for seven leading tournaments. The state season will start with the big Texas Open Golf Championship in San Antonio, February 11-16 for a \$6,000 purse, the largest ever offered in golf.

The tournament for 1924 promises to attract the world's greatest golfers for Arthur Havers, the British Open champion, and James Ockenden, French Open champion, who are in America, may be here to contest the laurels now held by Walter Hagen. Nearly all the leading professionals including Hagen, Joe Kirkwood, Jim Barnes, Gene Sarazen, John Bick, MacDonald Smith, Bobby Cruikshank, Bob MacDonald and scores of others have announced their intention of competing in the San Antonio classic, and then proceed on through the south for the other tournaments.

### Berlin Metal Thieves Rob Church of Its Cooper Roofing

BERLIN, Dec. 18.—Stealing of metal articles of every description came so prevalent in Berlin that officials were fearful that all the bronze statues in the parks would be taken, consequently they were removed to places of safety. This form of robbery began last New Year's Day, when one of a group of boxes was sawed off. The metal then was cut into small pieces and sold to junk dealers.

The theft was traced to two men, also, it was learned, were assisted by their wives and children. The scheme proved so profitable that their relatives and friends vied in the operations. Metal articles have been stolen from churches, cemeteries and railroad trains and in one instance the copper roof of a church was carried away.

The owners of new houses are having the copper waste water pipes concealed in the walls of the first floor in order to keep them out of reach of the metal thieves. Twenty suspects are under arrest.

### AUTUMN GRADUATION AT STANFORD UNIVERSITY

STANFORD UNIVERSITY, Cal., Dec. 18.—Seventy-three students will receive degrees at the close of the autumn session, the registrar announced. Forty-eight will be awarded diplomas as bachelors of arts, 15 will take the degree of master of arts, while 10 are expected to be named juris doctor.

### SENDS WIFE AWAY FOR 'REST,' THEN ELOPES WITH RIVAL

### Ludington Man, Sailor's Wife Plead Guilty to Charge in Court.

LUDINGTON, Mich., Dec. 18.—Dan Buck, of 519 1/2 South James street, Ludington, was of the opinion two months ago that his wife, Nellie, looked a bit worn and tired. He suggested a visit to her folks. Mrs. Buck brightened, packed her things and started out. Then Dan went visiting, too, but not his parents, however.

Buck and Mrs. Theresa Harvard, wife of Arthur Harvard, a sailor aboard a Ludington car ferry, are in the Cook county jail in Chicago, held in bonds of \$2,000 each to the grand jury, on a charge of adultery. They were arrested by Chief of Police Joseph Niles, of West Hammond, Ill., in a four-room cottage there.

At a preliminary hearing before Justice of the Peace John C. Kowalski, both pleaded guilty to the charge preferred by Mrs. Buck, the complaining witness.

For a month or more, Chief Niles said, the pair have been living in West Hammond as man and wife, to all outward appearances the most respectable of married folk. Dorothy, the 11-year-old daughter of Mrs. Harvard, added a note of respectability to the household. The three occupied one room of the cottage and three boarders shared the other two rooms.

### OFFICIALS TO STOP WHOLESALE TEARING UP OF LONDON STREETS

LONDON, Dec. 18.—British officials are worked up over the frequent tearing up of the streets of London and an effort is to be made to put a stop or at least regulate the practice. Frank Pick, assistant managing director of underground railways, recently declared that 65 different bodies have the statutory right to dig up London street whenever they feel so disposed.

Borough surveyors complain that the post office is the worst offender and frequently chooses newly paved streets for telephone cables. A London traffic bill has been framed and will be presented to the new Parliament as soon as it convenes.

The shade of Darwin is probably having a good laugh over his famous theory's getting into politics.

# Watch for the Christmas Car

## To Be Delivered To The Highest Bidder DECEMBER 24th

CITIES JUDGED BY APPEARANCE.

Civic pride is demonstrated in many ways but in none is it reflected in a more appreciated and commendable manner than cleanliness.

If a stranger visiting the city for the first time was asked what feature of the place made the most pleasing appeal, if possible, he would directly say cleanliness, for he would well know that no greater compliment could be paid and that such a compliment would be appreciated. The stranger visiting the city particularly notes the appearance of the streets, the lawns and vacant lots, just as upon introduction to a person one naturally is attracted or repelled by personal appearance, in like manner is the visitor impressed by the outward and visible signs of the place.

Few cities, if any, are financially able to employ sufficient force to keep the place clean and free from rubbish, bits of paper and refuse of various kinds which are so often thoughtlessly thrown in the streets and on the lawns, the appearance of which can but impress both the visitor and the resident in an undesirable way. While the city cannot be expected to do all this work, the individuals can do it with practically a minimum of effort, and with additional care to refrain in the first instance from making such a condition impossible, a scrupulously clean place will be the result, of which every citizen may be justly proud.

An unclean appearance is a reproach to the city, and whether you want to share in the reproach or not, it will fasten on you if that uncleanliness prevails in that part of the city in which you live.

They that impulse—and do it now.

CHRISTMAS GIFTS.

One is able to subscribe without reluctance to the movement launched by a hurried father for an Expedient Christmas. That is, for a holiday during which the expenditure on each gift received will be obvious to the recipient at once, for gifts of so positive a character as to dispense with any argument whether Carrie intended her remembrance to be a hot water bottle or a skating cap.

Probably anyone involved heavily in the business of exchanging Christmas gifts has received at one time or another an article the precise purpose of which have eluded him to this day, customarily a crocheted affair with ornaments, caps and accessories which may be peepholes and then again may be mudguards. Veterans of the recent world conflict will recall knitted ware of this nature, manufactured in good faith but classified in a category of junk and used indiscriminately as chest protectors, sock reinforcements, face cloths and rifle wipers. This whole species of gifts, according to the Easterner, has ruined a long succession of his Christmases and his patience is exhausted.

The punishment he proposes is drastic, but it fits the crime. For every baffling gift heretofore received, he intends to send a tasty bag filled with concrete and embossed with embroidered roses, accompanying the whole with an extra roll of film. As a retort this lacks something in subtlety but it does possess a virtue of possible effectiveness, and for that reason is subscribed to here long with the original complaint against the indiscriminate giving of puzzles in lieu of Christmas gifts.

A JOB FOR A GENERAL.

Philadelphia has won its battle to secure the services of General Smedley D. Butler, of the Marine Corps, in the capacity of director of public safety. Secretary Denby has consented to the appointment and, presumably, the general will now undertake to wrestle with problems of police administration in the city where brotherly-love reigns among those who are politically affiliated and engaged in the joint pursuit of municipal contracts.

Unfortunately for the general, he is not going to be received with that unanimous welcome which cheers the arrival of a stranger. A considerable faction in Philadelphia, including one former mayor, has protested long and loudly against bringing an outsider in to enforce law, but even if the whole city pined for him, there would still be reason for contemplating his venture with fear and trembling.

Philadelphia, according to its own newspapers, is one of the wealthiest cities in the United States, while everybody knows that its politics are the finest product of machine methods that nation has to offer. The marine corps gives the student of government no practice in dealing with affairs of that kind, and General Butler has for twenty odd years been nothing but a marine. He is going to discover that commanding a police force in Philadelphia is a very different thing from commanding a regiment of sea soldiers.

FORESEEING EARTHQUAKES.

Recommendation for more intensive and extensive study of earthquakes in the United States by Director Jones, of the coast and geologic survey, is backed by considerations of safety.

The records of recent earthquakes have shown that such menaces can be at least partially reduced by shock absorbing or shock-resisting construction and by figuring seismic disturbance as a danger to be guarded against in engineering plans. Knowledge so gained might not in itself be power against earthquake, but it would put the possessor in position to avoid some dangers.

Land Bank in Porto Rico Reports Good Business for Farms

SAN JUAN, P. R., Dec. 18.—Seven hundred applicants for loans to totaling more than \$5,000,000 have been made to the Porto Rico branch of the Federal Land Bank of Baltimore during its first year of operation, according to Albert D. Boardman, acting manager.

Of the applications received more than 600 have been approved for the full amount asked for. There have been few rejections. Loans are now being made at the rate of \$200,000 a month.

Loans have been made in almost every municipality of the island, and although coffee growers have been the most numerous among the borrowers, farmers producing almost every crop grown in the island have obtained financial help.

The first year's experience has convinced the bank, which operates under the Federal Land Bank of Baltimore, that the farmers of Porto Rico are "industrious, ambitious, honorable and deserving of all the benefits the Land Bank has to offer, so that the island's richest assets, her farms and farmers, may go on to their fullest development."

League would Provide for Organized Relief

GENEVA, Dec. 18.—One outcome of the recent Japanese earthquake is found in the efforts being made by the League of Nations to secure quick information from all governments concerning the creation of an international organization for the speedy relief of populations stricken by calamities. A proposal is being made at an association was made at the last assembly by Senator Curran, president of the Italian Red Cross.

The underlying idea of the project in inter-governmental co-operation on insurance principles. Governments would undertake to contribute to a fund to be utilized immediately through the various Red Cross societies, for relief of victims and other relief immediately upon the occurrence of any great disaster within the territory of any of the member nations. The plan is being discussed in the council of the League of Nations, which meets at Geneva on Dec. 19.

PHILIPPINE ISLES PROVE RICH FIELD TO ARCHAEOLOGIST

MANILA, Dec. 18.—Results of the first year of systematic archaeological research in the Philippine Islands now are being classified by Carl E. Guthe, a scientist sent out by the University of Michigan...

The period of this influence is estimated at 1,000 years, the Tang dynasty having flourished in the seventh century and the Ming continuing until the middle of the seventeenth.

Three types of skulls were found by Doctor Guthe. The oldest and most primitive was associated with stone implements only.

Pottery, bronze and iron implements and jewelry of various designs...

Dredging in the Pasig river bed to a depth of about 20 feet at a point below the town of Pasig yielded several jade axes and adzes...

Philippine anthropologists and archaeologists are arguing with interest the results of Doctor Guthe's classification and further exploratory activities.

Add to your list Christmas Wreaths and Fancy Baskets. We have them Peterson's Flower Shoppe.

Cardinal Makes Christmas Appeal for Irish Prisoners

BELFAST, Dec. 18.—Unhappily Ireland is threatened with another Christmas lacking the peace, goodwill, unity and charity which should be the leading features of the Feast of the Nativity...

Nothing that a large number of prisoners had entered on a hunger strike to force their release, and that many still persisted in denying them selves food, the Cardinal said this was his chief anxiety.

Wellington Huss, a pupil of the Escanaba High school, is ill at his home.

MEN RUSH FOR GOLD WHEN WARM WINDS MELT ALASKAN ICE

ANCHORAGE, Alaska, Dec. 18.—Phenomenal weather in the late autumn, which took the form of warm chinook winds in the higher regions, has resulted in a stampede of prospectors to adjacent hills where they have staked many claims to be worked for placer gold in the spring.

The warm winds uncovered immense deposits of gravel, which were swept down to the rivers, leaving a new terrain exposed. Prospectors report blowing at great depths which were locked in perpetual ice.

On the west side of Turnagain Arm an avalanche 100 feet wide and a mile long rushed down a mountain, uprooting immense trees and cutting deep into the soil.

The chinooks prolonged the open season in the hills a month or more. It is predicted that this will result in an unusually early spring, as the usual early freeze-up was lacking and the blizzards now prevented deep freezing.

A hard winter may be softened by not talking about it.

SOCIETY

Christmas at St. Patrick's. The annual Christmas Tree celebration given for the children of St. Patrick's parish will be held on Saturday afternoon at St. Patrick's hall.

1923 Class Banquet
