## Just Between Ourselves

MONDAY'S ELECTION.

Escanaba voters have been more or less confined in the past week by pro and con arguments as to what would be the result if this one or that one or the other one is elected Monday.

The campaign has almost arrived at the stage attained in the good old days that have gone before and ought to stay gone and never again return.

Escanaba has the opportunity of naming three members of the council commission.

Two years ago a mighty good council was elected. Some did not think so at the time, but their administration has proven that they have done much in the way of accomplishment. Naturally, they are asking for your endorsement for another term as a recognition of their ability.

On the other hand there are three new candidates in the field, all of them men who have had experience in business and city affairs. All of them have friends who would like to see them as members of the council. They have the same right to run for office as any one else and all of them are going to know late Monday night how good their hunch was regarding their own personal strength.

If they are elected they do not want to change the administration of the city one little bit. The public would not stand for it if it had to call a special election for a recall. The Mirror does not charge that any of the candidates want to change the present policy of the city. It would be fatal to change it.

Most of the stuff you have been listening to is bunk, just pure and simple bunk. If you have been in the city long enough to make it possible for you to vote at all, you know every one of the candidates.

It is not necessary for some one to tell you how to vote. Just go and vote for the three best men, according to your notion, that will best serve the city's interest.

Plug your ears to the bunk passing politicians.

### JUSTICE MC EWEN

The Mirror cannot help but believe it would be a great mistake not to reelect Justice of the Peace McEwen next Monday. The business of Justice of the Peace in Escanaba has grown beyond the comprehension of the average citizen and Mr. McEwen has really established a municipal court. The police department has on numerous occasions complimented the justice in his work and cooperation.

To make out warrants in criminal cases and make them absolutely "tight" takes considerable legal information. If there is a flaw in the complaint, the criminal can easily dodge sentence by a technicality. Mr. McEwen is a thoroughly educated attorney, with years of court practice. In a town the size of Escanaba the office of Justice of the Peace is a complicated affair. McEwen has given the city-real service a service that none other than a lawyer could give.

It is also true that any man of average education can take care of a certain amount of justice court business, but if any voter had visited the justice court day after day, he would ready to agree that it takes a legal mind to carry on the more complicated cases that are continually coming up.

### HAMMERS THE TABLE—GETS ACTION.

The positions occupied by Charles G. Dawes and O. D. Young as members of the American committee of the Reparation Commission, working out a plan to rehabilitate German finances are unique in the world's history.

The American members of this committee are paying their own expenses in Europe, are not obligated to pay for their own expenses and are not hampered through fear of overstepping some point of diplomatic etiquette. The neutrality and independence of both men has made them outstanding figures in this work for world rehabilitation. Unconcerned with political expectations and anxieties of the various European governments, they have been able to play a dominant part in shaping the course of the experts' work.

Dawes, puffing his pipe and occasionally hammering the table, makes his points efficiently and keeps the committee seeking a purely business solution. Young coolly handles the matters as though he were dealing with an ordinary business problem in the board room of a corporation. The keen directness of the men has inspired confidence and also admiration.

Five years of political jealousies and intrigue have almost wrecked Europe. A few weeks of business consideration of its problems by competent men will evolve a business-like solution of the questions at issue, which European kings, presidents or premiers will not dare disregard.

Harlan F. Stone

## DAWES' REPORT READY MONDAY FOR THE PUBLIC

Public Will Then Know Just How Able Germany Is to Pay Reparations.

Report Is Now in Hands of French Printers and Will Be Revised by Committee Sunday.

PARIS, April 5.—It was not until Monday before the press received the final review of the text of the Dawes report, it was indicated in the commission circles today. It is possible therefore that the report will not be made public before Monday afternoon.

The committee, headed by General Charles Dawes, will hold a plenary session this evening reviewed by the drafting section Sunday to go over the text committee, and try to fix a definite date for publication.

Obrecht Sisters Open One Week's Showing Monday

Flagship of Fleet Was Not Able to Take Off from Lake Washington.

## WORLD FLYERS HELD BACK BY FAULTY MOTOR

Major Martin's Plane Developed Engine Trouble and Also Broke Metallic End of Propeller.

SEATTLE, Wash., April 5.—Motor trouble with the plane of Major P. L. Martin, commander of the flight of the four army planes on tour around the world, stopped the biplane here today as the machine was ready to rise from Lake Washington. The engine would not turn up the sufficient number of revolutions per minute, so after repeated trials, it was decided to not start until Sunday. Major Martin also broke one of the metal tips from one of his propellers.

## Labor Chief Overcome While Making Speech

NEW YORK Samuel Gompers, president of the American Federation of Labor, was overcome suddenly when about to speak before a meeting of the constituents here of May Day in Industry here Friday.

Physicians present were suspicious of Gompers' health but he recovered rapidly and remained in the speaker's chair while a secretary read his address.

Gompers pointed later that he felt no ill effects. He is 71.

## Auto-Radio Show Will Be April 22-25

April 22, 23, 24, and 25 was the period set by the Auto-Radio Show Association at its meeting at the Madison Hotel yesterday noon. The exhibition will be used again this year.

According to President W. H. Neel, there is every indication that the show this year will surpass any in the history of the state. After careful consideration, the dates were considered the best possible. The merchant are preparing for special displays and the dealers are making reservations for floor spaces.

Freeze and other novelties, which will be known later, are special attractions which will interest those attending.

There are some who speak of a radio less but in reality there is no less "season" to the interest in radio and the radio dealers firmly believe in the interest of their outfit.

## RAILROAD BRIDGE WASHED AWAY BY TWENTY-FOOT FLOOD THAT SWEPT POTOMAC RIVERVALLEY TOWNS

Heavy damage was caused in towns along the valley of the Potowmack when the river rose twenty feet above its normal level. This Hagerstown, Md., after the flood swept across the roadway of water had torn it from its foundation.

## COMMITTEE TO KEEP ON AFTER H. M. DAUGHERTY

Secretary Weeks Will Be Called to Stand Next Week.

Burns Testimony Yesterday Regarding Prison Dope Ring Caused Sensation of the Day.

WASHINGTON, April 5.—The Daugherty investigating committee was in recess today after another week of inquiry. Although going from one den to another, they were concerned chiefly with war contract frauds.

It is expected that next week Secretary Weeks will be questioned with reference to the aircraft fraud cases. It is planned, however, to examine other witnesses on the matter before questioning the secretary.

Meanwhile the committee will have available for study documents relating to some of the cases, which have been placed at their disposal for consideration at executive sessions.

### Continuing Hearings.

New sensational disclosures emerged before the Senate committee investigating the department of justice probe have caused the members to abandon their previous intention of bringing the hearings to a close.

After hearing testimony that Herbert H. Votaw, brother-in-law of President Harding, had ordered a halt in the investigation of a drug ring at Atlanta recently, and after evidence regarding an alleged \$50,000 bribe deal had been introduced, Senator Wheeler, democratic Montana, chief prosecutor on the committee, indicated hearings would continue for a month or six weeks.

Weekly Gives Evidence.

Even more important disclosures threatened to grow out of evidence of aircraft frauds placed in the committee's hands by Secretary Weeks.

In condition it be held as confidential.

Important disclosures were:

William J. Burns, chief of the bureau of investigation, declared he shortly after last night Mrs. Stone, sister returned to her apartment and found the body. The woman's skull had been crushed, apparently by a hammer and broken on the street outside the door had been shaken. Her clothing had been partly torn from her body and the floor of the room was strewn with pearls from her necklace.

Lawrence Hartwig Wins Sub-District Speaking Contest.

Lawrence Hartwig, a student from New Haven, Conn., went down to the Atlanta district school competition Saturday night and won the competition.

Large Number of Cities Throughout the State Want Various Sums.

Lansing to Vote on Nearly a Million Dollar Paying and Sewer Loan; Jail Bond for Marquette.

DETROIT, April 5.—Paying and prison bonds are to be voted on in the leading cities of the state Monday evening, with several cities also voting electing minor officers.

Interest in the coming election is high everywhere, and there have been no active campaigns for any or candidates in any community.

Sunday is to be a high holiday in Gomber where a mayor is to be elected. Flint and Genesee county will vote on measures proposed to bind the county for \$100,000 for a combined jail and court house to replace the present building.

Interest in the coming election is high throughout the state. The only city of over 100,000 to be chosen is supervisor and constable from each ward and constable of the peace. The county will vote on a road budget and auditor.

DETROIT, April 5.—Interest in the coming election is high throughout the state. The only city of over 100,000 to be chosen is supervisor and constable from each ward and constable of the peace.

A sum of Monday's following in the principal cities of the state is to be bound in the following districts:

RAY CITY. The spring election in Ray City is of comparatively little importance this year. The only city of over 100,000 to be chosen is supervisor and constable from each ward and constable of the peace.

GRAND RAPIDS. Hillsdale, Jackson, Kalamazoo, Kent, Muskegon, Ottawa, Port Huron, Saginaw, Detroit and Saginaw will vote on charter amendments.

A sum of Monday's following in the principal cities of the state is to be bound in the following districts:

DETROIT. The spring election in Detroit is of moderate importance.

DETROIT, April 5.—Interest in the coming election is high throughout the state. The only city of over 100,000 to be chosen is supervisor and constable from each ward and constable of the peace.

DETROIT, April 5.—Interest in the coming election is high throughout the state. The only city of over 100,000 to be chosen is supervisor and constable from each ward and constable of the peace.

DETROIT, April 5.—Interest in the coming election is high throughout the state. The only city of over 100,000 to be chosen is supervisor and constable from each ward and constable of the peace.

DETROIT, April 5.—

## WEBSTER SCHOOL OPENING DRAWS A LARGE CROWD

**Supt. W. E. Olds Tells of His Intentions for Schools.**

**The New School Building Drawn the Throngs Who Attended Informal Opening Last Night.**

Long before the hour set for the informal opening of the new Webster school an immense crowd of people packed every available seat in the gymnasium which had been for the occasion converted into an auditorium. It is conservatively estimated that close to a thousand people from all parts of the city gathered for the housewarming program that was given and conducted by the pupils of the school.

The High School Orchestra, under the direction of Mr. Leonard Shunkin, gave a very creditable account of themselves in several selections they rendered as an opening number of the program. After that a series of delightful drills by the pupils and dramatic selections well-chosen and delightfully given called for a continuous roar of applause. Mr. Shunkin contributed to the program with a vocal solo and a violin solo they accompanied by Miss Dunn, which were also enthusiastically received by the audience.

### Carnegie Branch Library.

Mrs. Nancy B. Thomas, librarian of the Carnegie Library, then gave a very interesting talk about the branch library that had been established for the benefit of the people living in the vicinity of the school. She pointed out that it was approximately two miles to the main library which had decayed the Board of Education and the Library Board eliminated with the establishment of a branch in the present Webster School building. She urged that the people gathered there avail themselves of the opportunity offered them in seeing library facilities in their immediate vicinity.

### President Gunderson Speaks.

President Charles Gunderson, head of the School Board, gave a brief but interesting talk about what the school Board had endeavored to do for the people. He pointed out that they had attempted to do their very best in securing a real building for the least possible expenditure of money and that they had succeeded beyond their fondest expectations in presenting to the people of Escanaba a building which state officials ranked highest in the state for efficiency, design, and real economy in construction. He further pointed out that the taxpayers of Escanaba were receiving value received way out of proportion for the money invested in the result of some talent that it was built. The general contractor who

vested in the furtherance of education was the best possible investment that could be made. A tremendous ovation was accorded him as he made his way back to where the other members of the board were seated.

### Olds Speaks.

Perhaps the man most directly concerned with the success of the remodeling of the Webster School is Mr. Olds, who has worked unceasingly for its remodeling ever since his arrival at Escanaba four years ago. Mr. Olds was at his best last night as he held the audience every minute of his talk. He can be telling his audience that he was told before his arrival in this city that Escanaba had one good school building and that was the Webster school. He told how disappointed he was when he first inspected it and discovered that it was nothing but the school building that he had expected to find, how the general layout of the building was not conducive to efficient school work, how the heating equipment was severely inadequate and no amount of firing of the boilers would heat the building to the required temperature, how no proper means of ventilation had been installed, how all in all it seemed to him an almost hopeless proposition even to remodel it. He then spoke of his trip to Lansing with his confidant, Mr. Leonard Shunkin, who advised him to raise the building and build anew. But the School Board and he both got interested and set to work in earnest in remodeling the building, and the end of the day the expert designing and planning of the local architect, Mr. Arntzen, and a series of conferences with the board and long hours in consultation with Mr. Arntzen, the School Board was able to present to the people of Escanaba the best planned remedied school building in the state of Michigan during the past year.

Superintendent Olds pointed out that according to our present rate of taxation our school tax with one exception, the loss of \$1 in the Upper Peninsula, if not in the entire state of Michigan and with the \$1 we have invested, we have the finest school system in the state. Only last week representatives from various cities after visiting our school made remarks to that effect.

Mr. Olds likewise called attention to the fact that as long as he remained superintendent of schools in Escanaba, the policy of his administration would be that of progress; that Escanaba would have an efficient school administration, that it would have adequate buildings properly planned, and that the personnel of its teachers would be the very best. A warm, continuous applause echoed after Superintendent Olds' speech showing beyond question that the people of Escanaba supported and stood squarely behind his efficient and able administration.

### Crowds View Building.

After the program the audience led by the Boy Scouts of Troop 12, inspected the building. Everywhere favorable comments were heard as to the commendable manner in which the building was planned, and the efficient manner of its operation.

It was brought out that it was largely the result of some talent that it was built. The general contractor who

## MIRROR AGAIN PAYS CLAIM TO A SUBSCRIBER

**George H. Cleary Was Injured When Team Ran Away.**

**Second "Team" Accident Pail by Mirror in Less Than a Week; Autos Not At**

**ways to Blame.**

It would seem that the very first accident of a race-matured team to be encountered by a driver in the course of his racing career would be to have the team bolt and run away.

The second "team" accident in less than a week, however, seems to indicate that the racing season is far from over.

On Saturday evening, George H. Cleary, 16, of Escanaba, was racing his team in the 100-yard dash when the team bolted and ran away.

He was racing in a check to George Cleary, who was also racing his team in the same dash. Mr. Cleary, 36, won his dash and one of his hands was dislocated in the race. The weight of the team was so great that he was unable to get his hand back into place.

Mr. Cleary's team bolted and ran away.

Mr. Cleary, who was racing his team in the 100-yard dash, was racing his team in the 100-yard dash when the team bolted and ran away.

Mr. Cleary, who was racing his team in the 100-yard dash, was racing his team in the 100-yard dash when the team bolted and ran away.

Mr. Cleary, who was racing his team in the 100-yard dash, was racing his team in the 100-yard dash when the team bolted and ran away.

Mr. Cleary, who was racing his team in the 100-yard dash, was racing his team in the 100-yard dash when the team bolted and ran away.

Mr. Cleary, who was racing his team in the 100-yard dash, was racing his team in the 100-yard dash when the team bolted and ran away.

## SYNOPSIS

**FARMER AND BOOTLEGGER "HARD JOBS"**

**W**HAT I KNEW THAT SOMEONE WOULD BRING OUT THE LATTER.

**J**UNIOR CERTAINLY SEEMS TO HAVE A LONG DAY OF HERB EATER ACCORDING TO LETTER.

**S**OME THINGS IT IS POSSIBLE TO PREDICT, AND THIS IS ONE OF THEM. FRIENDS OF MINE TELL ME THEY ARE GOING TO BECOME FARMERS.

**T**HE COUPLES WILL BE ATTENDED TO FOR QUITE A FEW MONTHS, SINCE THEY ARE GOING TO GET MARRIED.

**A**ND THE COUPLES ARE GOING TO GET MARRIED.

**C**ONSIDERATION OF THE HUSBAND'S FUTURE.

**W**E ARE GOING TO GET MARRIED.

## WEEKLY LUMBER MARKET REVIEW

Quietness prevails in the lumber market, whether in practically all consuming territories continuing unfavorable to outdoor work. Though retailers have sold a large percentage of their stocks for delivery as soon as the weather permits a general start on construction jobs, they are moving out very little lumber. As a rule until they have reduced present stocks they will buy only small quantities of items immediately required as they have no room for new purchases. Some dealers are also holding off in expectation of lower prices, says the American Lumbermen, Chicago. Distributors meanwhile take an optimistic view of the situation, predicting that demand will develop rapidly into heavy volume as soon as better weather comes. The great number of building permits being issued throughout the country, and the active liaison with architects and contractors, give basis for these predictions.

"That manufacturers of southern pine share this view is indicated by the strength with which the market for that wood is maintained. Current business is no more than fair, but few of the larger mills see even a slight increase in orders. Stocks are still in fair shape and order files are in good condition being equal to about three weeks' production at present rates. Those that are producing more lumber than they have orders for prefer to maintain surplus in preparation for spring business, rather than to make concessions in an attempt to secure a few more orders now. Small mill output is comparatively low, while the exceptionally heavy rains have so far restricted their output, and none of them have anything like excess stocks. This reduction of small mill output has an important bearing on the strength of the market, which has shown virtually no change in a month.

Douglas fir is still well held. Distributors report that it is becoming harder to place business in spite of the larger over-all market, and that they can not afford to sell below current prices, in view of the holding charges, and are piling them on just as far as it can go. Smaller operators, however, are closing down their plants. They apparently have stopped all new investment in property, but recovery is in the trend of April weather.

There has been no improvement in the California and Japanese markets, nor in the demand for such softwood material, while the Argentine market is quieter than it was. Mexican dealers, however, are taking a more favorable view of the future, confident that the first breath of spring will still bring life into the general market.

Why is it that some men with real knowledge of the facts always have to butt in and spoil the conversation?

It is a horrid snob that has lived on one bathing suit all winter.

### "The American Ways"

#### ARTICLE SIXTEEN

#### FACTS VS. THEORIES

THE "Valuation Act," passed in 1913, providing for a valuation of the physical property of the railroads, was the result of mixed motives. In the first place, it was realized that the earlier rate laws lacked one important factor. How could it be determined whether the Government's rates really were fair?

While shippers and the traveling public naturally desired the lowest rates at which they still could be assured of adequate transportation, they also recognized that the railroad owners were entitled to a fair return on their investment. But, again, a fair rate of return on one valuation would be excessive if that valuation were only half as large and impossibly small if it were twice as large. Furthermore, it must be a real value, not a fictitious one. It was, therefore, decided that an authoritative appraisal of the value of the American railroads must be made in order to provide a basis for intelligent rate-making.

It was the advocates of government ownership, however, who were the most active in urging the passage of the Valuation Act. In fact, they were its chief sponsors. They contended that the \$190,253,973 face value of outstanding railroad securities consisted largely of "watered stock" and were supremely confident that the real value, when determined, would support their contentions. They desired, particularly, to demonstrate to the Government that the Government could acquire the roads at a relatively small cost. It was realized that the appraisal would be a laborious process, but they insisted that its cost would not exceed \$2,500.00 to the Government and a like amount to the railroads.

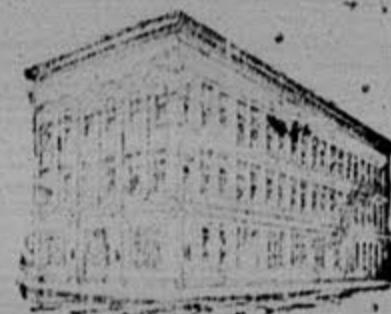

The appraisal was undertaken by the Interstate Commerce Commission in 1913 and is still in process. At the end of ten years it had cost the Government \$34,351,810.00, and the railroads \$6,882,244, and the end is not yet. In 1920 the Commission announced a "tentative valuation" of \$189,000,000,000 based on a pre-war level of prices, which obviously has since increased.

This is at once aroused vehement protest from the very men who had sponsored the legislation and who had assumed that the valuation figures would be very much lower.

## CHURCHES

**Swedish Baptist Church.**  
Corner 15th St. and Second Ave. N.  
Sunday School, 2:00 p.m.

Morning service, 11 a.m. The  
Methodist Rev. Carl A. Anderson will be  
the speaker at this service.

All are welcome.

**St. Stephen's Episcopal Church.**  
Corner Third Ave. South and Sixth St.  
6th Sunday in Lent.  
Church School, 9:30 a.m.  
Holy Communion and Service  
10:30 a.m.

A hearty welcome always await  
you at St. Stephen's.

Announcements for next week:

Tuesday, 7:30 p.m. Senior Boy  
Club at the home of William Olson.

Wednesday, 7:30 p.m. Laundry and  
Address.

Thursday, 9:30 a.m. Holy Com  
munion.

Friday, 2:30 p.m. The Woman's  
Auxiliary at the home of Mrs. Vic  
Schlarm.

Rev. A. L. Cooper, Rector.

**Fifth Presbyterian Church.**  
Corner Ninth St. and First Ave. S.  
Church School, 9:30 a.m.  
Morning service, 10:30 a.m. Sunday  
School, 11 a.m.

Children's Mass, 2:30 p.m.

Baptism, 4:30 p.m.

Vespers and Benediction, 7:30 p.m.

Weekday Masses, 7:15 and 8:00  
a.m.

Friday Devotions, 7:30 p.m.

Rev. Raymond G. Jacques, Pastor.

Rev. Alvin C. Polson, Assistant.

**St. Joseph's Church.**

Corner First Ave. S. and Fifth Street.

Holy Communion, 8:30 a.m.

Low Mass, 8:00 a.m.

Children's Mass, 9:30 a.m.

High Mass, 10:30 a.m.

Baptism, 1:30 p.m.

Vesper, 2:30 p.m.

Holy Hour, Friday, 7:30 p.m.

Sac. Fr. Ferdinand, O.P.M., Pastor.

Rev. Fr. Daniel, O.P.M., Asst.

**St. Patrick's Church.**

Corner Second Ave. S. and 12th St.

Low Mass, and instruction at 8:00  
a.m.

Children's Mass and instruction at  
9:30 a.m.

High Mass and sermon at 10:30  
a.m.

Baptism, 1:30 p.m.

Confession at 12:30 p.m.

Communion at 1:30 p.m.

Children's Mass at 2:00 p.m.

Evening devotions, sermon and ben  
ediction at 7:30 p.m.

Rev. Harry W. Slaver, Pastor.

**Saint John's Church.**

Corner Ninth St. and First Ave. S.

Sunday services, 10:30 a.m.

Sunday school, 11 a.m.

Children's Mass, 2:30 p.m.

Wednesday evening services, 7:30 p.m.

Rev. J. O'Connor, from Newark,  
will preach Sunday at 10:30 a.m.

A hearty welcome to all.

**Christian Science Society.**

12th and 13th Sts.

Sunday school, 10:30 a.m.

Sunday services, 11 a.m.

Children's service, 2:30 p.m.

Wednesday evening meeting, 7:30 p.m.

Friday evening Church Education  
class, available afternoons from time  
to time.

A cordial welcome to all.

**Swedish Mission Church.**

Corner 14th St. and First Ave. S.

Sunday school, 10:30 a.m.

Morning service, 11 a.m.

Evening service, 7:30 p.m.

Wednesday evening service, 7:30 p.m.

Rev. J. O'Connor, from Newark,  
will preach Sunday at 10:30 a.m.

A hearty welcome to all.

**First Methodist Episcopal Church.**

Corner 14th St. and Second Ave. S.

9:30 a.m. Sunday School.

10:30 a.m. Morning service, 2:30 p.m.

Evening service, 7:30 p.m.

Wednesday evening service, 7:30 p.m.

Rev. Dr. Edward, S. Adams, Pastor.

Prayer meeting, 8:30 p.m.

Communion, 10:30 p.m.

Sunday school will be provided on  
Sunday night.

All are invited.

Rev. A. L. Berchen, Pastor.

**First Baptist Church.**

Corner Third Ave. S. and 14th St.

9:15 Sunday School.

11:00 Morning service, subject,

A View of Jesus in the Garden.

6:00 p.m. Young People's meeting.

Caroline E. Johnson, Leader.

## Tom Will Have His Little Joke

Sunday evening, 8:30, a series of  
Young Peoples' meetings. The day  
nights, Meeting Thursday and Saturday  
evening, also.

**St. Anne's Church.**

Corner Eighth St. and Third Ave. S.

Sunday:

Low Mass, 8:00 a.m.

Children's Mass, 9:15 a.m.

High Mass, 10:30 a.m.

Baptism, 1:30 p.m.

Vespers and Benediction, 7:30 p.m.

Weekday Masses, 7:15 and 8:00  
a.m.

Friday Devotions, 7:30 p.m.

Rev. Raymond G. Jacques, Pastor.

Rev. Alvin C. Polson, Assistant.

**Salem Evangelical Lutheran Church.**

Twelfth St. and Fourth Ave. S.

Sunday School, 10:30 a.m.

11:00 Assembly service.

12:00 High Mass.

1:30 Confirmation class.

2:30 Masses, the Sunday Evening  
Prayer meeting, 3:15 p.m.

Wednesday, the children's service.

Friday, the choir rehearsal.

Saturday, the choir rehearsal.

Sunday, the choir rehearsal.

Wednesday, the choir rehearsal.

Saturday, the choir rehearsal.

# What Germany Is Doing To Feed Her Own Hungry

*Spending Fifty Dollars of Her Own Money to Every Dollar From Abroad, Says German.*

**Editor's Note:** The charge is often made that Germans themselves are neglecting the undernourished element of the population, and, instead, are relying upon foreign aid to take care of this group. In the following article, the author, Hermann Buennig, from the German Central Committee for Foreign Relief, takes the stand that Germany, all in all, contributes fifty times as much to aiding starving Germans as do foreign countries. He admits, however, the truth of oft-repeated charge that the big, wealthy industrialists could do more for private charity than they do. The United Press, Berlin.

By HERMANN BUENNIG  
German Central Committee of Foreign Relief.

(Copyright, 1924, by United Press). Published by arrangement with the "Vossische Zeitung," Berlin.

BERLIN (By mail to United Press) — It is very difficult to make an exact statistical comparison between foreign and domestic charity work, since, while exactitude is possible with the foreign gifts, the contributions in Germany itself flow from such varied sources and often are kept secret that always only a smart part thereof becomes known. A contrast will be best possible if one compares the results of the actions started by the foreign countries and by the Germans themselves.

At the moment twenty million Germans are either wholly maintained or are receiving, in extensive measure, state or private contributions. The contributions which the state has overtaken must naturally be covered by taxes or by special appropriations, which consequently represent a burden upon the whole population. In the German budget for 1924 is an item for unemployment support alone amounting to 500 million gold marks. The same amount must be reckoned for the remaining state support. That makes one billion gold marks. Added to this sum, which is solely provided through the state, comes the total private activity, the value of which is estimated at about the same amount.

**Ratio of Self Help.**  
According to this, about six million gold marks are provided daily from the state and from private charity. Experts with an exact knowledge of the charity work consider the relation between foreign aid and inside work at one to fifty and this figure is rather too low than too high.

Such a judgment does not signify in any way a lack of appreciation of the value of foreign aid. On the contrary, we know in Germany that through this aid inestimable values come into the country, be it in the form of foods, lacking in Germany, which can only be obtained with foreign money, or be it in the form of cash payments.

The feeling of thankfulness to foreign countries remains unchanged, especially since one in Germany hopes that the collection in foreign countries with their enlightenment to German conditions will work toward reconciliation amongst the nations.

In connection with the German charity work, it must be especially mentioned the activity of the state; for the state has legally established social and to a large extent has put the financial burdens legally, through special contributions or other tax measures, upon persons with capital, so that their ability to make voluntary private charity is thereby considerably limited.

**Cost to Employers.**  
In order to furnish the unemployment support it is provided that four-fifths of the expenditures should be provided by employers and employees. The employer has also to pay big

monetary large sums for the charity institutions of their own firms or for general charity purposes. These firms also give large sums to industrial organizations, besides which the proprietors do give aid as private persons.

This private charity can, in many cases, still be increased and it is the effort of the charity organizations to work in this direction.

#### Industry Contributions.

Industry has shown great interest for maintenance of scientific institutions, also students have been greatly helped. For instance, the chemical industry pays one mark per thousand of its payroll to the students' economic relief. The textile industry gave students 10,000 sets of underwear, 4,000 suits and 10,000 pairs of stockings. The porcelain industry has given them student kitchens chinaware for about 20,000 students. Through the so-called Duisburg Foundation, amounting to \$50,000, a number of contributions are made. The banks are also well represented. Besides the 700,000 gold marks contributed at the beginning of this year, the banks are conducting a special relief work of feeding daily 2,000 children from the North End of Berlin.

Agriculturalists have also undertaken to make great contributions for relieving the need in Germany. They have taken care of 350,000 fresh air children, the value of which, can be estimated without exaggeration at 12,000,000 gold marks.

Parallel with these community relief organizations and partially coincident with them are the relief measures of the industry.

Industrial factories grant certain

amounts for unemployment support alone amounting to 500 million gold marks. The same amount must be reckoned for the remaining state support. That makes one billion gold marks. Added to this sum, which is solely provided through the state, comes the total private activity, the value of which is estimated at about the same amount.

amounts for unemployment support alone amounting to 500 million gold marks. The same amount must be reckoned for the remaining state support. That makes one billion gold marks. Added to this sum, which is solely provided through the state, comes the total private activity, the value of which is estimated at about the same amount.

Such a judgment does not signify in any way a lack of appreciation of the value of foreign aid. On the contrary, we know in Germany that through this aid inestimable values come into the country, be it in the form of foods, lacking in Germany, which can only be obtained with foreign money, or be it in the form of cash payments.

The feeling of thankfulness to foreign countries remains unchanged, especially since one in Germany hopes that the collection in foreign countries with their enlightenment to German conditions will work toward reconciliation amongst the nations.

In connection with the German charity work, it must be especially mentioned the activity of the state; for the state has legally established social and to a large extent has put the financial burdens legally, through special contributions or other tax measures, upon persons with capital, so that their ability to make voluntary private charity is thereby considerably limited.

**Cost to Employers.**  
In order to furnish the unemployment support it is provided that four-fifths of the expenditures should be provided by employers and employees. The employer has also to pay big

monetary large sums for the charity institutions of their own firms or for general charity purposes. These firms also give large sums to industrial organizations, besides which the proprietors do give aid as private persons.

This private charity can, in many cases, still be increased and it is the effort of the charity organizations to work in this direction.

#### Industry Contributions.

Industry has shown great interest for maintenance of scientific institutions, also students have been greatly helped. For instance, the chemical industry pays one mark per thousand of its payroll to the students' economic relief. The textile industry gave students 10,000 sets of underwear, 4,000 suits and 10,000 pairs of stockings. The porcelain industry has given them student kitchens chinaware for about 20,000 students. Through the so-called Duisburg Foundation,

## BOND ISSUE TO PREDOMINATE IN MONDAY VOTING

(Continued from Page 1)  
the standard time the year round; the second, Central time the year round; and the third, Eastern time in the summer and Central in the winter, as has been the custom for several years.

**FLINT** A county bonding proposal and a city charter amendment will be the chief issues in the election here Monday. Taxpayers of Genesee county will be asked by the board of supervisors to approve a million dollar bond issue for the construction of a combined court house and jail to replace the county building destroyed by fire a year ago.

**MARQUETTE** The only local issue to go before the voters at the primary election in Marquette county Monday will be a \$125,000 bond issue for the construction of a new county jail. The old jail has been pronounced unfit by state inspectors during the last several years, and they threaten to close the building unless the board of supervisors take steps to replace it with a modern structure.

**DETROIT** Discovery of two "lost" charter amendments has given Detroit voters something else to vote on Monday besides presidential candidate

The amendments would increase from \$750,000 to \$1,500,000 the amount of "forced paving" permissible in one year, and increase from four to six per cent the interest charges to be levied by the city against property owners during the protracted payment of special assessments.

The amendments, which were proposed informally a month ago by the council, were sent to the corporation counsel to be drafted and re-submitted to the council for action. After being "lost" in the council's office for three weeks due to the removal of one councilman and the appointment of another, the amendments were found just in the nick of time for drafting and council approval.

**HILLSDALE** There is little interest in the local campaign this spring among democrats and republicans, both have tickets in the field, with some question as to where the so-called "Klan" vote will go, and what effect, if any, it may have.

**GRAND RAPIDS** Three special issues will be submitted to Grand Rapids electors Monday. They are:

Shall the city at large pay 25 per cent of the cost of widening Division Avenue between Fulton and Wealthy streets, by taking 12 feet off the property along the east side of the street, and of the cost of widening Fulton

street, between Sheldon and Barclay

avenues, by taking 16 feet off the property on the north side of the street?

Shall the city bond for \$500,000 for enlargement of the water producing system?

Shall the city bond for \$40,000 for permanent improvements at the whole sale and Leonard-street retail markets?

**JACKSON** A million dollar bonding proposition for the reconstruction of Jackson's sewer system is the only issue before local voters Monday.

In the county, township officers are to be chosen.

**PONTIAC** Huron city will vote for city commissioners Monday, selecting three from a field of six. The candidates are: Charles L. Rockwell, Charles Giltord, Clarence H. Dusenbury, Dr. L. A. Farnham, Floyd C. Bowles and Elmer E. Hymer.

The city also will vote on five bond issues, the total of which is \$900,000 and the money from which is intended for much needed public improvements.

One amendment provides for establishment of a \$60,000 revolving fund to enable the city to assist property owners in installing sanitary conveniences in their homes, the city advancing the money and the beneficiary re-

imbursing the city in annual tax payments.

Another amendment will provide for appointment of a zoning and city planning commission, another for increasing the limit on outstanding street paving bonds by one-half of one per cent of the city's assessed valuation. The fourth is designed to give the city council authority to fill by appointment vacancies that occur in the city's representation on the board of supervisors.

**MONROE** Two bonding issues, one in the county and one in the city, are to be decided at the polls in Monroe county Monday.

**PONTIAC** Pontiac city will vote for city commissioners Monday, selecting three from a field of six. The candidates are: Charles L. Rockwell, Charles Giltord, Clarence H. Dusenbury, Dr. L. A. Farnham, Floyd C. Bowles and Elmer E. Hymer.

Their shingled heads were thrust into tiny felt hats, huge plaid scarfs entwined their necks, and their scant skirts reached just below their knees.

Their whitened faces, shadowed by darkened eyelids and virified by vermilion lips were actually startling.

Their three-quarter length coats, cut on boyish lines, wrapped tightly about their slender figures, displaying but three inches of the hem of their frocks beneath them. Something of the hygiene flapper was reflected in their boyish attire, and one wonders whether the flapper is to be supplanted by the Apache.

**Fashion Hints**

"Yes, we have no bananas," but we have a new shade called "banana" that promises to be one of the season's favorites. It is a pinkish flesh shade, verging on yellow, and is seen among sports attire, lingerie, stockings, hats, hosiery and undergarments. It adds a new note to the summer palette.

Swedish Methodist Program.

The annual "Globe Fest" will be held in the church parlors Tuesday May 6th, at which time the noted speaker, the Rev. A. Pearson, of Ironwood, will be the principal orator. Rev. Pearson has conducted the "Globe Fest" celebration in this city for the past six years and his vast audiences will be delighted to know that they will again have an opportunity to hear him.

The annual confirmation exercises will be held early in June, the pastor stated yesterday, when a class of thirteen will be confirmed.

G. R. S. Meet Postponed.

The meeting of the G. R. S. of the Swedish Baptist church previously announced for this evening, April 5th, has been postponed.

**BIG RACING PROGRAM**

The Coliseum Roller Rink will be open tomorrow afternoon for the regular skating program and also in the evening at which time one of the best novelty programs that has been held at the rink for some time will be staged.

The races will be called at 10 o'clock when the Skate Boys' one-half mile Chariots Race will be staged. This is one of the best novelty races and will no doubt please the patrons.

The second event will be a one-mile race between Earl Girard and Ben Ritchie and promises to be a very thrilling event.

The final race of the evening program will be staged by two boys who have won first place in the national skating, Bill Egan and John Kelly, and promises to be one of the most exciting races that have been staged here for some time.

Plans are being made for the local boy to meet George Corliss of Milwaukee, the national champion, the latter part of April or the first part of May, when he will be on his tour of the northern part of Michigan.

The drawing of the \$1,000 "kitty" will also be made during the course of the evening's skating program and it is anticipated a large crowd will be in attendance.

KOREANS GROW AMERICAN TOBACCO.

SEoul, Korea, April 5.—American tobacco, transplanted to Korea, is being cultivated with results said to be nearly as satisfactory as those obtained in the southern part of the United States. Particularly good crops are obtained in North Chung province, just southwest of Seoul, which last year produced 3,712,000 pounds. About one-fourth of this yield was exported to China.

**CLERKS** Halway, Mail, 18:35. Ex- animation. Escorial, May 3, 8:15 p.m. Experience unnecessary. For particulars, write R. Terry, 6th Civil Service Examiner, 725 B. L. Fisher Bldg., Washington, D. C.

**MEN** Wanted to qualify for firemen's badge—experience. Numerous arts, transportation furnished. T. Mc Gaffey, Supt., St. Louis.

**CLYDE J. BURNS**

In conclusion, I would also say that during my past two years of service, I have never missed a regular or special meeting of the Council.

**CLYDE J. BURNS**

I would like to make arrangements to the Veterans of Escanaba that on Monday, April 4th, I will be a candidate for reelection as Comptroller.

In compliance with the provisions of the Charter I want to assure you that I am running absolutely independent and am not attached to any party or group.

My two main record as Comptroller is open to inspection, and I wish to present it to the public as a campaign argument.

If elected I promise to use my best efforts and judgment toward promoting anything that will be the best for our City.

In conclusion, I would also say that during my past two years of service, I have never missed a regular or special meeting of the Council.

# DAILY MIRROR TRAVEL ACCIDENT INSURANCE

PROTECTS 8000 PEOPLE IN  
DELTA COUNTY

## A Policy Costs Only \$1.00 a Year

Since The Daily Mirror inaugurated the plan of insuring its readers we have paid out over \$6,000.00 in claims. Three were for deaths that occurred in automobile travel. The balance went for minor injuries ranging from \$7.50 to \$130.00.

If The Daily Mirror is read in your home, every member of your family between the ages of 16 and 70 can become a policy holder and be protected against death or injury in any kind of travel. It makes no difference whether you are riding on a motorcycle, street car, passenger train, public or private automobile or steamship - the policy protects you in case of death or accident.

The Mirror wants a good representative in every small town in Delta County. You can make good money by soliciting subscriptions and selling insurance policies. Some of our agents have made as much as \$35 in one day's work.

For particulars regarding an agency, or if you just want to get a policy for yourself, telephone, write or call at the office. We will give you every detail and perhaps you may discover a way to make a nice little sum of money by doing a little work after supper. Don't wait until you are hurt - get a policy today; it costs but one dollar and increases in value \$100 each year for five years. It pays \$7.50 a week for seven weeks if you meet with an accident while walking, and \$30.00 a week if you are injured while riding, the limit being 13 weeks.
