## Just Between Ourselves

### EASTER.

What may one say is the outstanding thought of the Eastertide, a time so full of hallowed memories, preserved throughout the generations of many centuries, so rich in significant and holy instances.

Is it that Jesus died a sacrifice for the remission of the sins of our weak clay? Is it that He arose again in triumphant victory over the death? Or is the greatest significance in His parting message as recorded in the closing words of the gospel of Matthew— "Lo, I am with you always, even unto the end of the world?"

In any one of these transcendent impressions— Christ the sacrifice, Christ the spiritual conqueror, Christ the eternal, living force— humble, struggling, contrite man has a vision of the Beyond, an inspiring glimpse into Unreal Land where lie the only realities.

Can any say that one immeasurable fact, one boundless faith, is more important, more potent than another? Can we of the finite measure, much less compare, the vastness of the infinite? Of those we can be sure, that together the instances of the Easter tide comprise a code of hope and joy that lifts dull, drab mundane experience to the inspiring mount in tops of the God-faith.

Easter is gowned in garb of white, symbolic of the light and purity and joy of the spirit; and in greens and early flowers, symbolic of the hope and faith that belong to the eternal life that springs ever new.

Easter greatest of Christian festivals, more significant even than the blessed Christmas day, is hailed in every land, on every sea by men of many tongues, linked together in that greater understanding that the Spirit gives beyond the power of words.

What an occasion for a re-dedication to the spirit of the illustrious St. Chrysostom: "The whole of time is a festival unto Christians because of the excellency of the good thing that have been given." Given! Freely given!

### BAD LAWS.

Timely warning is given the editor of the Constitutional Reviewer against too frequent appeal to federal enactment for remedy of present localized evils in the United States, as being a "menace to the rights and responsibilities of the states," and as savoring "too much of paternalism."

There is an apparently increasing tendency to "go over the heads" of the states in reform matters that specially concern them and with which it is specially fitting that they should deal. As a result, reformers are prone to move for federal legislation against "evils" that may be temporary and local in effect.

It is common knowledge that assumption of legislative control of local reform matters by the federal government more or less invades state rights, deadens the interest of the states in enforcement and lessens sense of responsibility. It is also common knowledge that assumption of reform power by congress often tends to stir the people to antagonism and otherwise makes against order and peace.

Too much such laws confuse and irritate the governed and are to be avoided as being contrary to the American idea of government.

### BIOGRAPHY.

Biographers apparently are bent on capitalizing names and position. Let any man who has held high office die, and immediately his biographers feed the presses until their rollers are hot with rush of biographical output. Let any man be elevated to high place, and instant biographers keep the press inwells bubbling with rush of matter detailing their life histories.

But why? Holders of high office are not unusual. Some of them are only mediocre subjects for the biographer or less. The lives of many who have never held office are more interesting as subjects or biography than those of many men who have been shoved into high place.

It has been said that biography is history. But that only applies to those whose lives are history-making. Let that be the test rather than passing distinction and library shelves will not be so crowded with volumes that will be handed over to the waste paper man a few years hence.

### SMALL ANKLES.

An incoherent in Paris sponsors the contention that small feminine ankles bespeak light-headedness; and that after the small ankle has, for centuries, occupied a central place on the shrine of masculine adoration.

Waiting the thought that the incoherent critic of small ankles may be ranking from a kick administered by the owner of lovely extremities, and also waiting the comment that the only suggestion of light-headedness in relation to trim and dainty ankles is with reference to their effect on the masculine observer, it is fair to remark that logically the smallness of ankles is an evolution that constitutes proof of "breeding."

## Police Hold Four, As Result of Chicago Fire

### BUSINESS FIRM HELD PENDING INVESTIGATION

Novelty Firm Alleged to Have Carried Large Amount of Insurance.

Agent Who Sold It to Them Is Included in the Net of the Police and Fire Department.

CHICAGO, April 19.—Samuel Moore and Leo Unell, owners of a sporting and novelty concern, are in custody today for questioning by the fire department in connection with a blaze in which eight firemen and one civilian lost their lives last night and nearly a score were injured.

Samuel Polinsky, said to have had insurance dealings with Moore and Unell, was declared by the police to have held insurance policies aggregating \$32,000 issued to Moore and Unell in his possession. Polinsky was also questioned. He and Adolph Friedman are held as witnesses for the inquest as are Moore and Unell.

The partner told the police that Moore and a man known as "Sam" left the factory at 5:35 yesterday afternoon to get the keys from Unell, but that ten minutes later Unell's son arrived with the keys and he and the watchman locked up the place.

A few minutes afterwards, said the watchman who lives in the neighborhood, saw flames shooting from the building.

Eight firemen and an unidentified civilian are known to have been killed, several others were injured so badly they may die and a dozen firemen and spectators suffered minor burns when a west-side box factory collapsed while scores of firemen were battling the flames.

### Entire Company Lost.

The ruins are being searched for other bodies and Fire Chief Buckley said that several other bodies possibly may be found in the ruins. Hook and Ladder truck company No. 12, composed of five men, the first to respond to the alarm, was wiped out by the accident.

### Roof Buckles.

Firemen first to arrive on the scene found the upper story of the brick structure in flames and calls were sent for more apparatus. The firemen mounted to the third floor in an effort to confine the flames to the floor above them. As the roof started to buckle, firemen were ordered from the blazing building. Some of them stepped to the roof of an adjoining building, but about a dozen attempted to get out by way of a fire escape.

### Pitched Into Flames.

Some of these firemen were toppled into the blazing building when the roof suddenly collapsed, carrying two floors with it, this being followed by an explosion which sent the front wall crashing to the ground. Some of the firemen were thrown clear of the fire by the force of the explosion. Others pitched headlong into the flames.

A water tower set up in front of the burning building was demolished by falling stone and brick, and firemen manning this instrument and spectators who had crowded through the police lines were buried under the debris, several being hurt, although it is believed none were killed by the collapse of the tower.

### Attempt Rescues.

While doctors, ambulances and police reserves rushed to the scene, the firemen bent their efforts to rescuing those plunged into the great seething pit. Fighting the flames was forgotten for the moment while firemen, policemen and spectators crowded as close as they could to the building. Calls were sent for powerful searchlights and hoisting devices to aid in raking the debris.

### Priest Enters Building.

Two firemen were rescued after from the building while the Rev. Fr. E. A. Jones of the Holy Family church, donned a firehelmet and plunged into the burning structure in an effort to give spiritual consolation to those imprisoned. One fireman pinned under a mass of stone directed the breaking to pieces of the mass.

### COOLIDGE CONGRATULATES MRS. MEADE, STILL ACTIVE IN RED CROSS WORK AT 79

Children died with grown-ups in honoring Mrs. Frances Jane Meade when she attended a recent regional Red Cross conference held in New York City. She is the oldest active worker in New York state. On the occasion of her 79th birthday she was congratulated by President Coolidge on the accomplishments of her remarkable career.

Children died with grown-ups in honoring Mrs. Frances Jane Meade when she attended a recent regional Red Cross conference held in New York City. She is the oldest active worker in New York state. On the occasion of her 79th birthday she was congratulated by President Coolidge on the accomplishments of her remarkable career.

## HAMON'S WIDOW DENIES STORY OF AMBITIONS

Says She Has Papers to Prove Al Jennings' Statements False.

Is Willing and Would Be Glad to Take Them to the Committee in Washington for Inspection.

CHICAGO, April 19.—Georgia Hamon Rober, widow of Jake Hamon, the Oklahoma politician and oil man, told United States Marshal Robert Levy, yesterday, that papers in her possession and held by her son, J. L. Hamon, Jr., will prove that Mr. Hamon never had ambition to become secretary of the interior, as Al Jennings' evangelist and former train robber, testified before the investigating committee.

"Jake Hamon, Jr. has sufficient documentary evidence to prove Jennings' testimony is unreliable," she said and added, "We expected to get the papers and take them to Washington where they will be placed before the committee."

## Radio Howls Traced to Kazoo Power Lines

KALAMAZOO, Mich.—A strange radio disturbance that affected all receiving sets in Kalamazoo for nearly a week was removed yesterday by Prof. Leonard Ashby of Kalamazoo College and officials of the City Department of Public Works.

Deciding the trouble was wholly a local one, Prof. Ashby, with D. F. Pattison and Earl Norman, director of the Department of Public Works, found the radiation sources on the city power lines. Two defective lightning arresters were allowing a low current to jump the gap.

Miss Katherine Fleming left Friday for Marquette, where she will spend the week-end with relatives.

and was finally freed before the flames reached him.

Explosion of Gas. Firemen who were unable to determine the cause of the fire, declared that frequent gas explosions interrupted the work of rescue, the gas escaping from mains entering the building. More than a dozen firemen rendered unconscious by the explosions were rescued by their colleagues.

## ARIZONA BAN IS LIFTED; AUTOS CROSS BORDER

Great Suffering Resulted from Quarantine Raised in State.

Tourists Were Obligated to Camp Four Nights on Desert; Some Had No Food or Equipment.

PHOENIX, Arizona, April 19.—Governor Hunt of Arizona, early today lifted the foot and mouth disease blockade at Yuma to permit the passage into this state of approximately 80 motorists, reported to be in a pitiful condition as the result of their forced halt on the California side of the state line, with no camping equipment or sufficient food.

YUMA, Ariz., April 19.—Quarantine guards on duty here to enforce the state's embargo against California vehicular traffic tonight repelled an attempt to break the blockade.

The vanguard of more than 700 motorists from California, barred from entry under the embargo against vehicular traffic, swept past some of the guards on the Colorado river bridge, but retreated when a conundrum was formed on the Yuma side and five hose brought up.

Four Nights in Desert. YUMA, Ariz., April 19.—Resenting an embargo enforced by the state of Arizona barring their entry into this state as possible carriers of the foot and mouth disease, approximately 700 motorists from California, embittered and suffering from the hardships of four nights' encampment in the desert, today stormed the federal quarantine lines west of here and dashed toward Arizona territory, only to be halted again by armed guards at the boundary.

National guardsmen of Arizona tonight were hurrying toward Yuma to enforce the state's order prohibiting the motorists' entry, although some of them, weakened and ill from hunger, were cared for in Yuma hospitals, while every effort was made to make comfortable those stranded in California territory.

Commander Quinn writes letter to senators, asking them not to make effort to amend it.

WASHINGTON, April 19.—The American Legion today endorsed the insurance bonus bill taken up by the senate.

In a message to each senator, Commander Quinn asked that no attempt be made upon the floor to amend the pending bill.

Before abandoning their plan for a cash soldier bonus, Democrats have decided to smoke out President Coolidge on the insurance bonus proposal.

After a series of conferences among Democratic senators Friday, Senator Walsh, Massachusetts, in charge of the Democratic cash bonus bill, announced he would not press this measure if assured that the president will approve an insurance bill. American Legion officials have intimated they believe Mr. Coolidge will approve the insurance plan, despite his opposition to the cash bonus.

"We are unwilling to hinder the chances of an immediate bonus by passing a bill we know would be better, but which might not have a chance of becoming a law if Mr. Coolidge vetoes it," Mr. Walsh said. "Thus far no official information has been given by Republicans regarding Mr. Coolidge's attitude towards the insurance plan."

The insurance plan has received much more support than the cash proposal and it is believed it would go through by a two-thirds majority, which would insure its becoming a law even should it be vetoed. This, at any rate, is the basis upon which the American Legion has switched from the cash plan, which would have a difficult ride in the senate over a presidential veto.

MANISTEE, Mich., April 19.—"Correction of inequities in the present laws," is the important problem of the day, Nathan F. Simpson of the State Tax Commission, declared yesterday before the board of supervisors. The commissioner explained that one-half the wealth of the state is paying no taxes through investment in tax-exempt securities and bonds.

Your total assessed valuation in the county is approximately \$18,000,000, yet I know a man in Michigan who has more than \$10,000,000 in tax-exempt securities, two and one-half times Manistee's valuation, on which, under the law, he is required to pay no tax," said Simpson. The former tax, instead of the valuation tax on lake carriers, is another injustice, he contended.

Village to Be Deserted When Railroad Moves

RICE LAKE. The village of Draper, northeast of Rice Lake, with 60 homes and 10 business places, will be soon a "deserted village," if the Onasha railroads plan is carried out. The village of Loretta, a new sawmill town, built by the Park Falls Lumber Company, is a mile west of Draper, and Loretta wants a depot. The railroad company says it cannot afford a depot at both places, so it has decided to move the Draper depot to Loretta. The fight has been carried to the state railroad commission, which has said the railroad company may do as it sees fit.

Mrs. Ruby South of Iron Mountain is visiting friends in the city.

## Senator Willis and Representative Longworth Considered as Republican Convention Chairman

In discussing the selection of a temporary chairman for the national convention to be held in Cleveland, President Coolidge and John T. Adams, chairman of the Republican National Committee, considered the names of Senator

## LEGION APPROVES OF INSURANCE IN THE BONUS BILL

Commander Quinn writes letter to senators, asking them not to make effort to amend it.

WASHINGTON, April 19.—The American Legion today endorsed the insurance bonus bill taken up by the senate.

In a message to each senator, Commander Quinn asked that no attempt be made upon the floor to amend the pending bill.

Before abandoning their plan for a cash soldier bonus, Democrats have decided to smoke out President Coolidge on the insurance bonus proposal.

After a series of conferences among Democratic senators Friday, Senator Walsh, Massachusetts, in charge of the Democratic cash bonus bill, announced he would not press this measure if assured that the president will approve an insurance bill. American Legion officials have intimated they believe Mr. Coolidge will approve the insurance plan, despite his opposition to the cash bonus.

## LEGAL ADVISOR OF AIR SERVICE IS REINSTATED

Secretary Weeks Did Not Follow Advice of Army Officials.

Lane testified that he had been dismissed because he refused to keep away from investigators.

WASHINGTON, April 19.—Herman F. Lane, auditor and legal advisor for the army air service who testified recently before the senate Daugherty committee that he had been "dismissed" because he had refused to stay away from the committee, will be reinstated in office by direction of Secretary Weeks, and given an opportunity to defend himself against charges of insubordination.

The war secretary decided that this course of action was the proper thing after recommendation that he dismiss Lane had been made by air service officials.

The executive order under which the auditor was employed expired on May 1st.

## WOMAN'S CLUB HAVE MEETING ON WEDNESDAY

Next Wednesday the Escanaba Woman's Club will hold a regular program meeting at the K. C. Club rooms when Mrs. Nancy Blake Thomas will give a book review and a musical program will be given by Miss Dunn and Mr. Shanklin of the music department of the public schools. Tea will be served.

The social meetings of the club have been well attended this year and it is expected a large number of the members will be present to enjoy this interesting afternoon.

## Five Ore Boats Leave Port And Break Through Ice

Four ore carriers that wintered in this port and the Harvester which arrived early in the week, started early this morning for lower lake ports. Getting out of the bay was considerable of an effort, but by working together the great lake freighters were able to get into Green Bay and there the ice seemed to offer less resistance.

RIPON.—E. H. Hemp was badly burned about the neck and Grover Coffman was burned on the hands and arms in a fire which destroyed the Hemp and Coffman general store at Waukegan, 12 miles northeast of Ripon, Friday morning. The fire started from the explosion of a stove in a village post office, in the place was wiped out, but the goods were saved. The fire burned for several hours, destroying buildings and goods valued at \$175,000.

## RUSSIAN HENS ON STRIKE.

MOSCOW (By mail to United Press).—Russia expects to import 8,000 carloads of eggs in 1924. This is more than 19 times the 77 carloads exported last year. Before the war eggs were one of the most important export items. In the last year they did not reach 32 per cent of the exports of all eggs and poultry.

## DENIES CHARGES OF COLLUSION; ASKS DISMISSAL

Some of the Allegations Set Forth by Government Admitted.

Emphatically Declare That Oil Lease Is Legal and Valid and Cannot Be Broken.

CHEYENNE, Wyo., April 19.—The Mammoth Oil company's answer to the government suit for annulment of the Teapot Dome lease was filed in United States district court here this morning.

The answer contained sweeping denials of all charges of collusion contained in the government's bill of complaint and asserts that the lease of the reserve is legal and valid.

The answer contains 33 sections, each of which refers to a corresponding section in the government's bill. Numerous sections admit the allegations set forth in the corresponding action of the government's bill, but allegations attacking the validity of the corporation's lease are denied.

"This defendant, the Mammoth Oil Company, prays that the plaintiff, the United States Government, take nothing from its bill of complaint and that the case against the defendant be dismissed with no delay," ended the answer.

## WHEELER GIVES \$1000 BOND FOR APPEARANCE

WASHINGTON, April 19.—Senator Wheeler of Montana appeared before the United States commission here today and furnished bonds for \$1,000 for his appearance on May 5th at Great Falls, Montana, to answer an indictment charging him with accepting money illegally for appearing before the department of interior in land cases.

Notified of Warrant. WASHINGTON, April 19.—Senator Wheeler, democrat, of Montana, was notified today by the United States marshal's office that it held a warrant for his arrest issued under the terms of the Montana indictment found against him last week.

The senator was asked to go through the formality of accepting service at his leisure and said he might do so later today. It was said Senator Wheeler probably would not be required to put up bonds, for his appearance for trial, being allowed to give his own recognizance or appear whenever desired by the prosecuting officials.

The war secretary decided that this course of action was the proper thing after recommendation that he dismiss Lane had been made by air service officials.

The executive order under which the auditor was employed expired on May 1st.

## Fire Drives Out Guests of Cheboygan Hotel

CHEBOYGAN, Mich.—Guests at the New Cheboygan hotel here last night were awakened by the cries of fire and fled to the fire escape by their night clothing when smoke from the basement filled the interior of the hotel. The fire was soon discovered to be in the kitchen near the furnace and was quickly extinguished. Guests were transferred to the annex for the night.

The social meetings of the club have been well attended this year and it is expected a large number of the members will be present to enjoy this interesting afternoon.

## Keith Interests Bay Grand Rapids Theatre

GRAND RAPIDS, Mich.—The Empress theatre, Grand Rapids' biggest vaudeville house, has been sold to the Keith interests, according to information received here yesterday. An operating company capitalized at \$50,000 will take active control of the building. The Michigan Securities Commission has authorized a \$175,000 bond issue and will pass on another issue of \$87,000 next week.

Four ore carriers that wintered in this port and the Harvester which arrived early in the week, started early this morning for lower lake ports. Getting out of the bay was considerable of an effort, but by working together the great lake freighters were able to get into Green Bay and there the ice seemed to offer less resistance.

MOSCOW (By mail to United Press).—Russia expects to import 8,000 carloads of eggs in 1924. This is more than 19 times the 77 carloads exported last year. Before the war eggs were one of the most important export items. In the last year they did not reach 32 per cent of the exports of all eggs and poultry.

# GERMANY LOOKS FORWARD TO NEW WAR WITH THE FRENCH

### Probably Be Compelled to Give Territory Instead of Money and Depend on Struggle to Get It Back.

By J. W. T. MASON  
(Written for United Press)  
NEW YORK, April 19 (United Press)—Germany is gradually getting into a position where tacit cessation of territory in lieu of payment of the annual payments fixed by the Dawes reparation committee of exports may be her only way out. The lost territory can be recovered by another war, if it is successful; but once Germany parts with her money it will never come back because it will go into the pockets of too many countries.

The new German policy, which is now gradually being shaped, is to concentrate the reparations issue between Germany and France. Then only one enemy need be taken into consideration if the next war is conducted with sufficient diplomatic skill. The precedent for this strategy in statesmanship is Bismarck's method of directing the Franco-Prussian war in 1870, whereby France was the sole enemy and the rest of Europe was not alarmed.

The reparations issue, as the result of the Dawes report, has made certain that Germany will have to fight down if she is to survive as a first-class power. Further discussion of reparations hereafter will be for nor issues as contrasted with this controlling factor in the situation.

### Can Pay, But Will Not.

No government can ever promise to people to such payments as the Dawes report has arranged for. Germany's ability to make the payments is undoubted, but collection in perpetuity are not practicable. The fall of the mark has concentrated Germany's wealth in the hands of a group of industrialists by impoverishing a very large class of bond and mortgage holders. That is to say, the money is where the allies can get it if they have the ability. But no evidence exists that they have the ability. They have no more power now than they have had at any time since the close of the war and they have been unable to find gold in the morass which the German industrialists and financiers have made for them.

The French hold on the Ruhr in increasing firmness. Germany is beginning to show evidence of abandoning expectation of seeing it voluntarily quit as a voluntary act. She is now confronting the Germans with whether to ransom the Ruhr by a money payment or by the chance of a victorious war, waged a generation hence, or perhaps even sooner. Whatever reluctant payments can be forced from the Germans will not alter this fundamental situation.

**Germany Now Helpless.**

For the moment, Germany cannot make war. Under present conditions of limited France can hold the Ruhr many months for perhaps twenty years or more. But there is the ever possible factor of new invention which will revolutionize methods of warfare almost overnight, and will make France's obsolete present equipment obsolete. If chemistry can solve Germany's problem of how to make war without blowing her reparations, the Germans certainly will prefer chemistry for ransoming the Ruhr instead of gold. The possibility of this development may make the Dawes report obsolete as rapidly as the brief space of time spent in preparing it.

At this moment France has the dominant position because her 50 Poland controls, Germany's Silesian mine fields and France controls the Ruhr. There are no other adequate sources of raw material for war-making within Germany. If, therefore, invention and progress stand still, France can have her way and can give Germany the choice of paying the Dawes indemnity or of sinking to second or third-class rank. But Germany is counting on invention and progress not being halted. If Germany is guessing right there must be an entire re-casting of the reparations issue once more. France and Germany must come together and mutually save each other. Otherwise, in the next war, there is likely to be nothing left of one of them to save.

favorable. The concentration of all forms of energy and the accumulation of immense forces, being reduced with the hope that the outcome will be much improved. The exact nature of the high and low tides has not been predicted.

The majority of people are following the lead of the majority, and are generally expected to pick up the pieces of the fall of the Dawes report. The majority of people are following the lead of the majority, and are generally expected to pick up the pieces of the fall of the Dawes report.

## "U" Boosts Burton's Pay to \$24,000 a Year

### ANN ARBOR, Mich.—Reports that the board of regents of the University of Michigan had voted to increase the salary of Dr. Marion LeRoy Burton from \$18,000 to \$24,000 annually, were confirmed today by Dr. Burton.

The action was taken at a meeting of the regents some time ago, but was not announced. Salaries of several other faculty members were raised at the same meeting, it was reported, but the names and amounts were not given out.

It is understood the increase to Dr. Burton was given because of the large amount of official entertaining he is required to do in connection with his work.

METHODISTS TO DIRECT THEIR PENSION PLANS

As Alleged There Is Too Much in Way of Inequalities at Present.

Age Salary of Methodist Clergymen Has Decreased in Past Year, Late Report Shows.

CHICAGO, Ill., April 19. There is a decrease in the number of pensioners and the total amount paid to pensioners of the Methodist Episcopal church, according to a statement prepared by Dr. Hingley, corresponding secretary of the Board of Pension Claims, for the conference which meets in Springfield, Mass., May 1 to 5.

Hingley, in his report, says that 235 were paid as annuities or pensions and that there are 2,496 ministers, 3,929 widows and 889 dependent orphans who are receiving pensions. In 1923 the number increased 138 in a year, and there are marked inequalities in pension system of the Methodist Episcopal church, which should be corrected, he stated.

Some pensioners in the annual conference were paid a year while in other annual conferences for the same rates of service pensioners received \$1200 a year.

The average salary of the Methodist Episcopal preacher in 1922 was \$1,200 and in 1923 it decreased to \$1,100.

The total amount distributed as pensions in 1923 the ministerial pensioners contributed \$1,929,455. During the past century twenty million dollars were distributed in pensions and more than half that amount was distributed in the last years.

LABOR LABOR ASKS NINE LAWS. Various bills before congress are of great importance bearing on the interests of labor, says the report of the U. S. Legislative Committee on Labor, published by the American Federation of Labor.

FLAT COLD, MAN DIES; WIDOW GETS \$10,000

Chicago Suit Precedent and Landlords Fear Others.

CHICAGO, April 19. A rule shock was dealt apartment house owners today by a jury which returned a verdict of \$10,000 for Mrs. Helen P. Bernhardt, who charged that her husband died of pneumonia contracted in a heatless apartment.

Mrs. Bernhardt charged that her husband took cold and contracted pneumonia during the winter of four years ago, because her husband, St. Peter and Laura Melntosh, failed to supply sufficient heat, despite repeated appeals.

Women Travel Most During Day Time. CHICAGO, April 19. (United Press)—Three fourths of the women who travel by railroads during the day time are in the profession of teaching, according to a survey of passenger transportation.

Maloney states that out of 100,000 passengers traveling from Chicago to St. Louis, 75 per cent of the passengers are women, and that during the day time 70 per cent are women.

WOMEN TRAVEL MOST DURING DAY TIME

CHICAGO, April 19. (United Press)—Three fourths of the women who travel by railroads during the day time are in the profession of teaching, according to a survey of passenger transportation.

Maloney states that out of 100,000 passengers traveling from Chicago to St. Louis, 75 per cent of the passengers are women, and that during the day time 70 per cent are women.

The feminine preference has been shown to a marked degree in recent months, Maloney said. He pointed out that not so long ago approximately 50 per cent of the night travelers were women.

The shift in the women from night to day time travel is attributed to the extra-conductors' new schedule of day travel.

# JUDGE SESSIONS SENTENCED MORE THAN 50 PEOPLE

## Federal Court Ends After Making Record in Long Terms.

### Marquette Man Gets Fifteen Months for Sending Obscene Letter Through the Mails.

MARQUETTE—Thirty-seven Upper Peninsula bootleggers will serve terms of from three months to one year in the Detroit house of correction, 13 will serve short terms in county jails and seven, five of whom are liquor law violators, are under long sentences in the Leavenworth penitentiary as a result of their convictions or pleas of guilty during the April term of the United States district court, which was concluded yesterday afternoon.

So far as enforcement of the Volstead act is concerned the term leaves a new record in the Upper Peninsula. Judge Sessions having imposed the longest sentences ever given to moonshiners in this district.

**Seven Long Terms.**  
Sylvester J. Griffin of Marquette, convicted of bootlegging, was given the longest term in the penitentiary—three years and three months. Peter Francisini of Iron Mountain, was ordered to serve two years, but is at liberty under \$3,500 bond, pending an appeal. John Collins, also of Iron Mountain, will have to spend one year and three months in the federal prison.

Leo Garippy of Sault Ste. Marie, goes to Leavenworth for a year and a day for rifling the mails and Archie Papin of Marquette, was sentenced yesterday to serve one year and three months. He was tried and convicted of sending obscene letters to a young woman who teaches in a rural school.

All of the men sentenced to Leavenworth, except Meslan, will be taken there next week by Martin Brown, United States marshal, and two deputies.

**"Excursion" Tomorrow.**  
Of the 56 men sentenced during the term by Judge Sessions, 20 were taken into the Detroit house of correction last week and 17 will leave here in a special car tomorrow afternoon. Eight have begun terms in the Chippewa county jail, two in the Delta county jail and three in the Marquette county jail. Two liquor law violators were released upon payment of \$500 fine.

Only two cases tried by jury during the term resulted in verdicts of not guilty. One was a liquor case and the other an obscene letter case. The liquor case was tried yesterday morning. Joseph Miron of Wetmore, was the defendant and he was charged with unlawful possession of a moonshine still and with manufacturing intoxicating liquor.

**Continue Drug Store Case.**  
A. H. Sherman, proprietor of a drug store in Newberry, was arraigned yesterday on a charge of violating the liquor law and pleaded not guilty. The case was continued until the next term of court at Sault Ste. Marie.

Harry Howard of Munising Junction, pleaded guilty to an indictment charging him with violating the liquor law, was sentenced to serve three months in the Marquette county jail. The court took into consideration the fact that he already had spent 40 days in jail awaiting arraignment.

Several liquor cases, not presented to the grand jury by District Attorney E. J. Bowman, were dismissed by Judge Sessions at Mr. Bowman's request and several were carried over to the next term.

An automobile seized by federal agents from Victor Lough of Escanaba, indicted for liquor law violation, was ordered returned to Mr. Lough. Lough was found not guilty of the charge against him, although an Escanaba man who was indicted jointly with him, was convicted at the last term of court.

**Bonds Estreated.**  
The bond of Frank Ward of L'Anse-au-Loup, indicted for liquor law violation, was ordered estreated. Ward did not appear in court for arraignment and a bench warrant was issued for his arrest.

Bonds of Bruno Clement and Tony Gagliardi of Ishpeming, also were estreated because they did not appear in court to answer to charges of violating the liquor law.

**Frazier Appeal Withdrawn.**  
The automobile truck taken from Patrick Healy and Max Frazier, who were under sentence for conspiracy and for transportation of liquor, was ordered forfeited to the government. The United States marshal was ordered to sell the truck at public auction, subject to a mortgage lien of \$145 held by E. W. Cork.

L. E. Garvin, attorney for Max Frazier, yesterday withdrew his motion to appeal his client's case. Frazier will leave tomorrow afternoon to begin his sentence of one year in the Detroit house of correction. He also was fined \$500 and if the fine is not paid he will have to serve three more months.

## OF A PERSONAL NATURE

Miss Mildred Paulson of this city is spending the Easter vacation in Chicago with relatives and friends.

Mrs. L. H. Sateren was called to Minneapolis, Minn., by the serious illness of her mother.

Miss Evelyn Cripps left Friday for a visit in Appleton, Wis., with relatives.

The Misses Rose and Marietta La Fave left for Manitowoc to visit with their sister, Mrs. William Ramspeck.

Miss Dagny Peterson of Fox, Mich., was a visitor in this city yesterday.

Mrs. Louis Leopold left Friday for a visit in Milwaukee with her daughter.

Miss Geneva DeVost, who is attending the Milwaukee Normal, is spending the Easter vacation with her parents in this city.

Mrs. Louis Morin and two children visited relatives yesterday in Bagley.

Oscar Guidlund left last night for Chicago on a business trip.

After all, about the only difference between this and earlier civilizations is in the speed limit.

A term of reproach for speeders will never prove effective unless it is a term in jail.

Conditions might be worse. Even the most stupid movies show a little action between subtitles.

Our own opinion is that Eve had to work her tear glands a little before Adam finally agreed to eat the core.

There are cuspidors in railway stations, but few tobacco chewers of this decadent age can spit more than a miserable 200.

# MORE PROTEST ON WATER DIVERSION

## Wisconsin and New York State Officials Oppose the Hull Bill.

WASHINGTON, April 19—State officials of New York and Wisconsin joined in protests before the house rivers and harbors committee today against the Hull bill proposing authority for a greater diversion of Lake Michigan water for Chicago sewerage purposes. George F. Barrett, counsel for the Chicago sanitary district, appeared in support of the bill.

Criticism by Mr. Barrett of the application of the 1919 treaty with Canada, under which, he said, 4,600 cubic feet of water a second is being taken by the Welland canal, with only 1,100 feet used on navigation and the rest for power, was replied to by both Herman Ekers, attorney-general of Wisconsin, and C. S. Ferris, assistant attorney general of New York. Mr. Ekers said the case in the proposed diversion for Chicago was "entirely different" and that he believed its authorization would place the United States at a serious disadvantage in future bargaining with Canada over water diversion.

## Johnny Evers Is Now Manager for the White Sox

CHICAGO, Ill., April 19—Johnny Evers, today was appointed manager of the Chicago White Sox, succeeding Frank Chance who was ordered to return to California because of his health.

CHINIK, Alaska, April 19—In the face of reports that a high wind with snow squalls was blowing over the rocky shores of the Alaskan peninsula, three United States army aviators are attempting to hop off on the 400-mile flight to Dutch Harbor, Unalak.

## Are You Going To Contribute To This Cause?

The people of Escanaba are urged at this time to respond to the request of the Escanaba Woman's Club for articles of personal adornment or books, toys, phonograph records or similar articles to be sent to the two state homes for boys at Lapeer and Lansing. Bulky objects that will be difficult to pack are not wanted, nor broken things.

The drive for this purpose will continue all of next week. Leave your contributions at the Carnegie library and the club women will forward them.

## Two Arrested as One Tries to Get Revenge

IRON MOUNTAIN—As a result of an attempt early Saturday by Louis Baker, 23, of Channing, to "square things" with John Murphy, also of Channing, Baker is under arrest charged with burglary and Murphy charged with illegal possession of intoxicants.

Baker admitted having broken into the rooming house conducted by Murphy at 1 a. m. Saturday. He told the prosecutor, however, that he broke in to get two 10-gallon kegs of moonshine whisky he had been in formed were there. These, he said, are concealed in a swamp near Channing. He said he intended to "turn them over to authorities as evidence against Murphy."

The two men had quarreled, Baker said. Baker was attacked and badly beaten by Murphy Saturday before the latter had him arrested.

WASHINGTON, April 19. W. W. Atterbury, vice-president in charge of operations of the Pennsylvania railroad, told the senate agricultural committee today that if the Hooker White Atterbury proposal for Muscle Shoals was accepted he planned to produce an alloy of aluminum and magnesium for the manufacture of railroad cars.

**NEXT WEEK'S WEATHER.**  
Washington, April 19—The weather for the region of the Great Lakes for the week beginning Monday will be: Generally fair first part with occasional showers the latter part. Temperature slightly below normal Monday and Tuesday and about normal thereafter.

Mr. and Mrs. Walter Hews left yesterday to spend Easter with friends in Green Bay, Wis.

Miss Luella Schram, who is attending Oshkosh Normal, is visiting over the Easter vacation at the home of her parents in this city.

Charles Chilson left last night for Chicago on a business mission.

## EASTER SKATING PROGRAMS AT THE COLISEUM RINK

The Coliseum Roller Rink will be open tomorrow afternoon and evening for the regular skating program. The features of the evening's program will be "Ladies' Only," "Men Only," "Grand March," "Trio," "Ladies' Choice" and also the drawing for the two dollar "kitty."

Announcement was made that the last of the Sunday afternoon matinees will be held tomorrow and that in the future the only skating program for Sundays will be in the evening until the close of the season in the latter part of May.

It is anticipated a large crowd will be in attendance at both afternoon and evening programs tomorrow as the rink will be closed for one week on account of the American Legion ball on Monday evening and the Auto Radio show next week, and also a large number who have been observing the Lenten season, have indicated their intention of attending.

**OUCH! LUMBAGO! RUB BACKACHE AWAY**

Kidneys cause backache! No! Your backache is caused by lumbago, rheumatism or a strain and the quickest relief is soothing, penetrating St. Jacobs Oil. Rub it right on your painful back, and instantly the soreness, stiffness and limberness disappears. Don't stay crippled! Get a 35 cent bottle of St. Jacobs Oil from your druggist. A moment after it is applied you'll wonder what became of the backache or lumbago pain.

In use for 65 years for lumbago, backache, sciatica, neuralgia, rheumatism or sprains. Absolutely harmless. Doesn't burn the skin.

Funeral services were conducted at the Perkins Catholic church this afternoon, with burial in the Perkins cemetery.

**It's Easy to Make Your Own Spring Frocks**

**WOMEN** who create their own costumes know how simple it is, with the new patterns, to achieve perfection of line, to follow accurately the correct variations of the modish Spring silhouette.

As for fabrics—their beauty and charm, as seen in our Spring Fabric Display, will prove an inspiration to the home dressmaker. All the colors of the rainbow seem caught in the meshes of these lovely weaves; and here and there the gleam of some favored white fabric foretells a charming summer mode.

Small wonder that women are enthusiastically planning a period of sewing activity. For they know that beauty of line, fabric and color, together with an inimitable touch of distinctiveness, possible if they make their own clothes.

# **DAILY MIRROR**

# **TRAVEL ACCIDENT**

# **INSURANCE**

**PROTECTS 8000 PEOPLE IN  
DELTA COUNTY**

**A Policy Costs Only \$1.00 a Year**

Since The Daily Mirror inaugurated the plan of insuring its readers we have paid out over \$6,000.00 in claims.

Three were for deaths that occurred in automobile travel. The balance went for minor injuries ranging from \$7.50 to \$130.00.

If The Daily Mirror is read in your home, every member of your family between the ages of 16 and 70 can become a policy holder and be protected against death or injury in any kind of travel. It makes no difference whether you are riding on a motorcycle, street car, passenger train, public or private automobile or steamship—the policy protects you in case of death or accident.

The Mirror wants a good representative in every small town in Delta County. You can make good money by soliciting subscriptions and selling insurance policies. Some of our agents have made as much as \$35 in one day's work.

For particulars regarding an agency, or if you just want to get a policy for yourself, telephone, write or call at the office. We will give you every detail and perhaps you may discover a way to make a nice little sum of money by doing a little work after supper.

Don't wait until you are hurt—get a policy today; it costs but one dollar and increases in value \$100 each year for five years. It pays \$7.50 a week for seven weeks if you meet with an accident while walking, and \$10.00 a week if you are injured while riding, the limit being 13 weeks.

**\$1,000.00 Travel Accident Policy Costs \$1.00 --- GET ONE TODAY**
