

"RAT" SEASON OPENS FRIDAY

Metal Tag With Name of Owner Must Be Put On Traps

The first of the three sectional muskrat seasons begins in the upper peninsula, Friday, November 1.

In the northern part of the lower peninsula season begins 15 days later, and the season for the southern third of the state, December 1.

This year the state has been divided into three regions, with the muskrat season opening and closing on different dates for each region. The upper peninsula season is from November 1 to November 30th, inclusive. For the district of the lower peninsula north of the west line of Township 16 and West of Saginaw Bay the season is November 15th to December 15th, inclusive. For the district south of the north line of Township 16 and East of Saginaw Bay, the season is December 1 to December 31, inclusive.

Under a new state law a metal tag with the name and address of the owner must be attached to each trap. The muskrat trapping license fee is \$1 for 20 traps and 10 cents each for more than 20 traps not in excess of 100 traps. It is unlawful to "destroy, disturb or molest house or hole, or

Boulevard Lights Are Being Placed On Three Streets

City workmen have begun the installation of a boulevard system of lighting on three streets, which were paved two years ago.

The lampposts are now being placed on South Eleventh street, between First avenue south and Second avenue south. Later, the installations will be made on South Twelfth street, between Ludington and Second avenue south and Fifth avenue south between Lake Shore Drive and South Tenth street.

It is an established policy of the city administration to install the boulevard lighting system on all paved streets, two years after the paving has been completed.

LYRICS OF LIFE By Douglas Malloch

ALL COME HOME. Oh, all roads lead to Rome. They said, But all roads lead to home instead. The rich man's street, The poor man's pike, They never meet.

HEADING FOR JAIL? WHETHER the American people are becoming more lawless every year, or whether more of the law breakers are being caught at their law breaking is a question for the criminologists.

IN the year 1923 only 74 out of every 100,000 persons in the country were serving time in federal or state prisons and reformatories. At the dawn of 1927 the number had risen to 85 and the total number of inmates was 96,125 as compared with 81,959 in 1923.

THE Department of Commerce is responsible for the statistics, in a survey covering the prison population of the nation up to January 1, 1927. The last full year covered was 1926.

THE prison population jumped from 57,000 in 1904 to 96,000 in 1923 or from 69 per 100,000 of general population to 85. The extent of the recent increases in imprisonment is seen in the fact that whereas the 1904-1923 period saw an increase of five persons in prison for every 100,000 of population, the 1923-1927 period show an increase of 11 per 100,000.

CONCERNING the male prisoners, the Commerce Department found a proportionate decrease in the number convicted of homicide. The rate per 100,000 was 5.4 in 1910, 5.7 in 1923 and 4.5 in 1926.

IN the recent fierce northeast blow one of the notable things was the absence of ducks. They got away from it. Some of them even went ashore to be safe and comfortable and to feed and rest. None came on the back of the wind as do on the northwest caravan.

IT is in the group of offenses having to do with disregard for the property of others that much of the increase, generally, is shown. Twenty-one and three-tenths percent of the men prisoners are in for larceny, 17.5 for burglary and 5.8 for robbery.

THAN comes violating liquor laws with 7.9 per cent of the total prison population. Forgery claims 6.5 per cent, homicides 5.9 per cent, assault 4.9 percent, and 3.3 for possessing stolen property.

OF the women in prison, 23 per cent are there for sex offenses, 9.9 for violating liquor laws and 5.3 for homicide.

THE survey will provide the analysts of the various crime commissions, magazines, and the platform and pulpit with considerable food for discussion and speculation. The one thing that they will agree upon, probably, is that the size and capacity of American jails will have to be increased.

NOT TOO SEVERE. ON THE DAY before the pheasant season opened in South Dakota, a Wisconsin hunter was caught near Redfield with 150 of the birds in his possession. He was fined \$2,000.

WHEN CHEAPNESS IS EXPENSIVE CARELESS and cheap construction is a pretty costly proposition. An article in the current issue of The American Architect points out that fire losses due to that kind of shoddy work in American buildings run around \$76,000,000 a year.

TAG DAY SALE ON SATURDAY

Funds to Be Used for Tonsil Clinic for Children

Members of the Child's Welfare committee of the Escanaba Woman's Club are sponsoring the annual Tag Day Saturday, November 2, when young girls will sell the tag on the streets of the city to raise funds for work which is being carried on by the club.

Each spring the Welfare committee holds a tonsillectomy clinic at a local hospital where from twenty to twenty-five children have their tonsils removed at the expense of the club. Other work carried on by this committee is the fitting of glasses to children who are in poor circumstances, also dental work for needy and worthy children.

The committee has accomplished a great deal of good in the past and in order to carry on this work funds must be raised. Any one contributing to this cause is helping the work.

Headquarters for Tag Day will be at the Wolverine garage, Ludington and Ninth street opposite the market place.

The committee headed by Mrs. C. M. Newman consists of Mesdames Judd Yelland, H. J. Rush- ton, J. B. Wilkinson, C. F. Glav-

Justice Is Not Blind!

AN ANCIENT PREJUDICE HAS BEEN REMOVED

Justice is no longer dispensed by ignorant and individual domination. Another ancient prejudice stands convicted by AMERICAN INTELLIGENCE which insists that a jury "twelve good men, tried and true" decide the facts.

"toasting did it" —

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

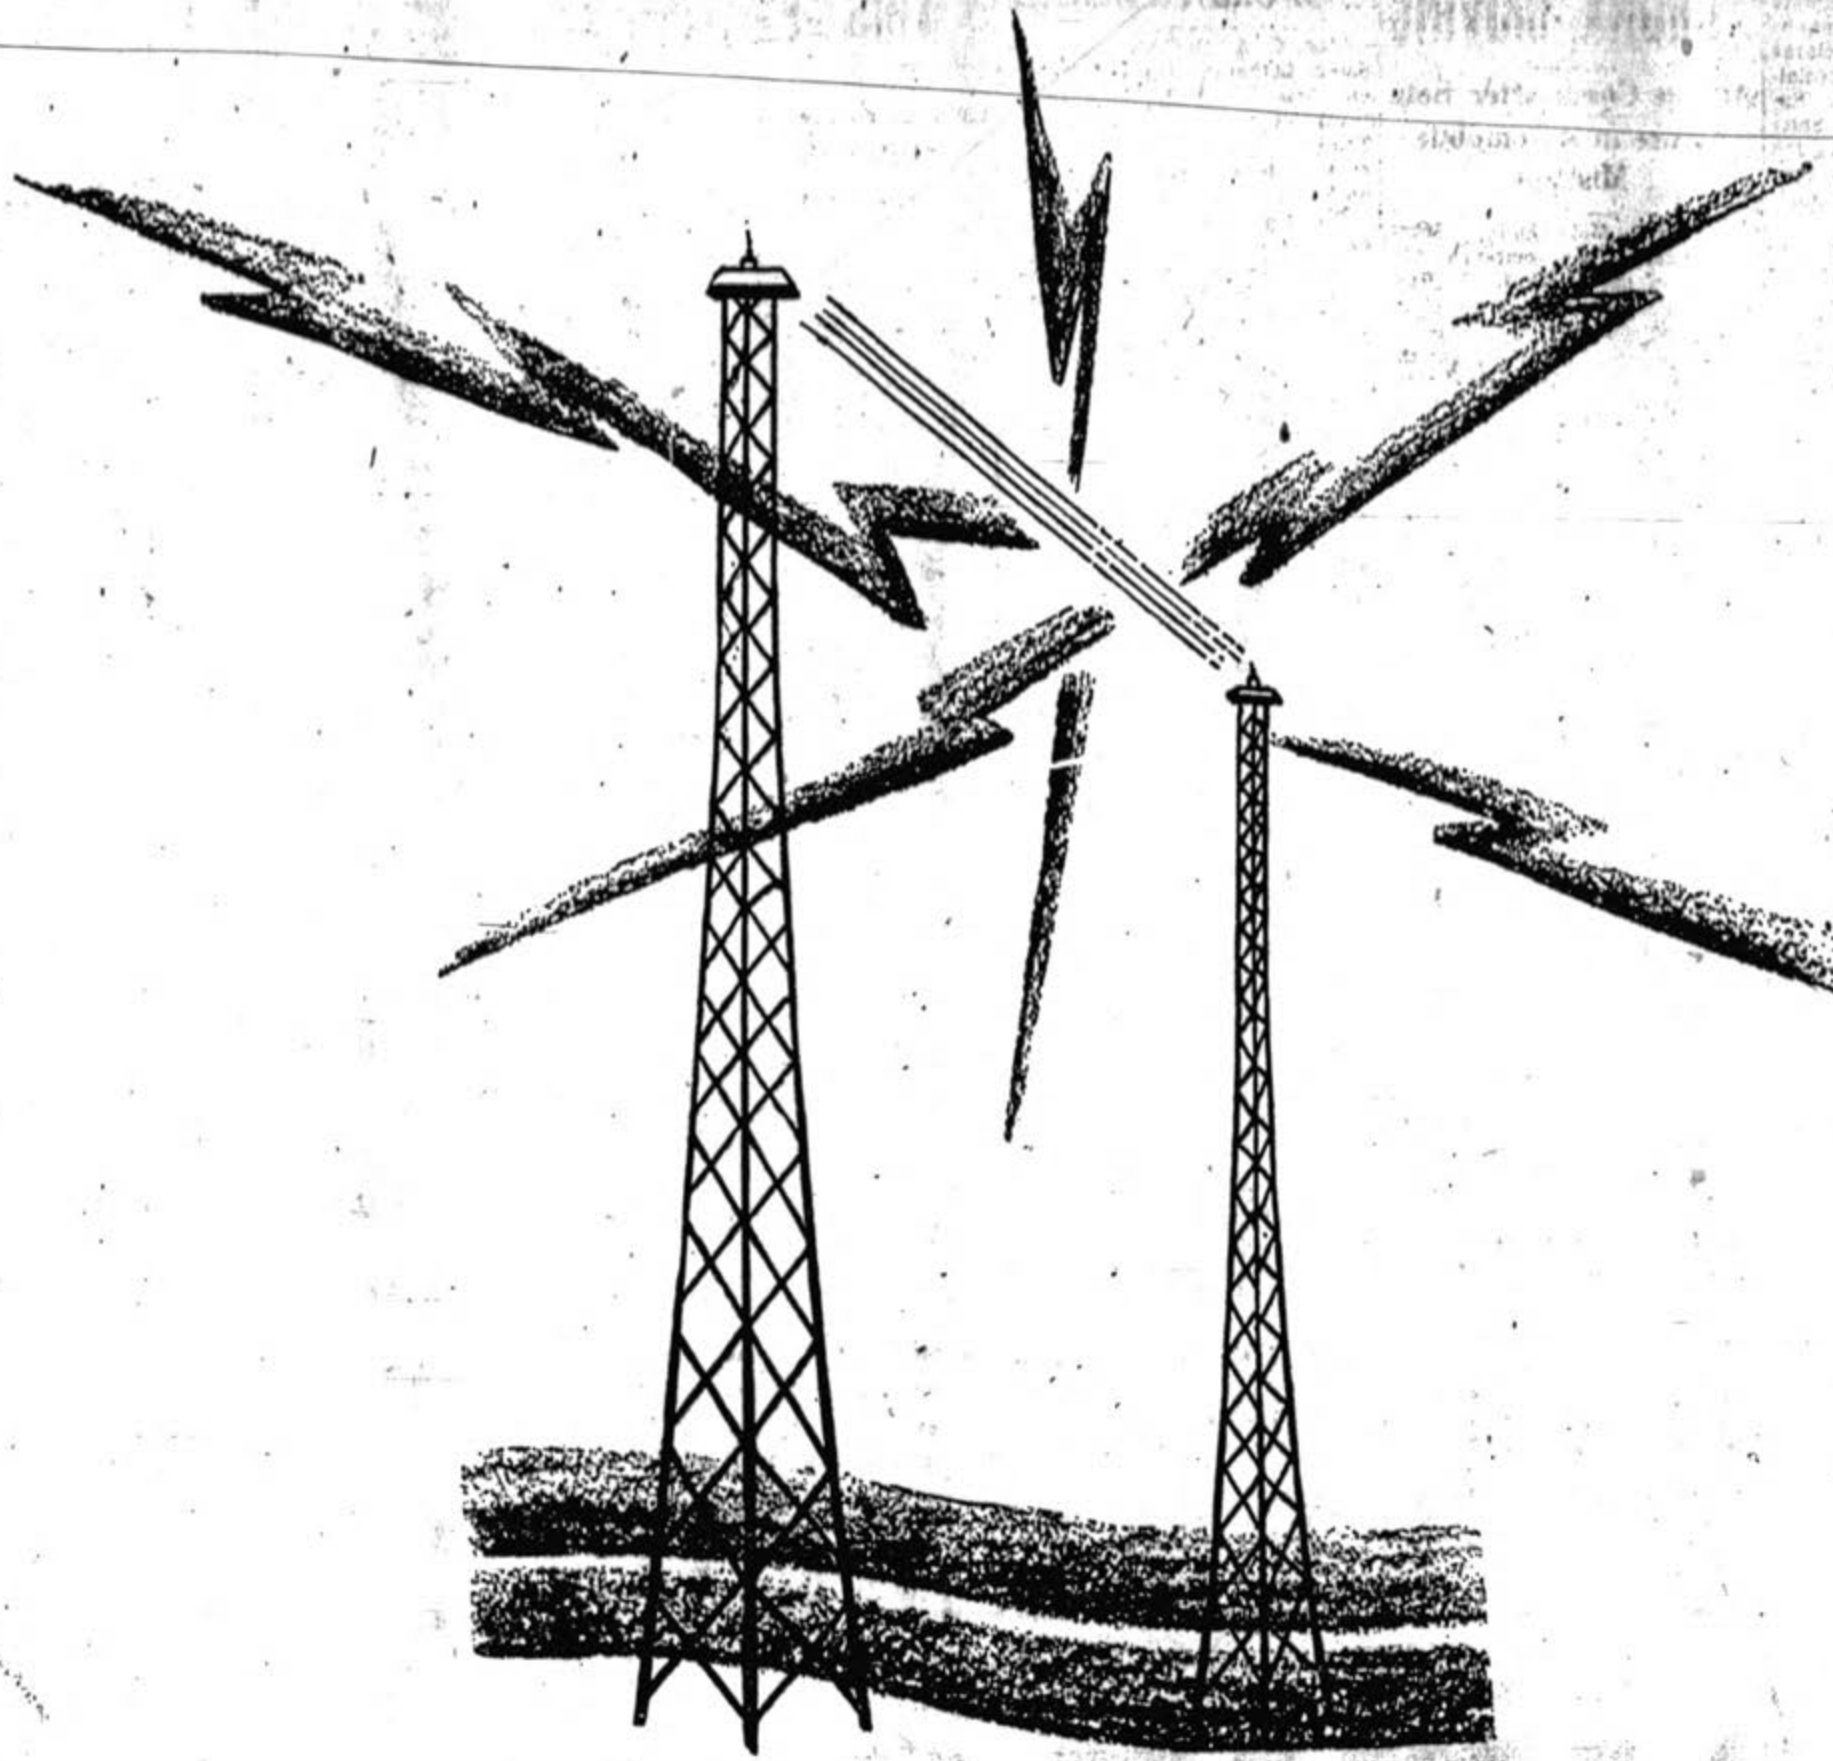

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"It's toasted"

No Throat Irritation—No Cough.

TUNE IN—The Lucky Strike Dance Orchestra, every Saturday night, over a coast-to-coast network of the N. B. C. © 1929, The American Tobacco Co., Mfrs.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.

Escanaba Radio Dealers

Place the World at Your Finger Tips

BECAUSE of the fact that the Radio industry has no ancient traditions to uphold, it has created a brotherhood of highly modern merchants who are bound by no restraining ties other than the desire and ambition to serve in the most progressive manner possible.

Even from the first, when Radio was an infant industry not yet out of its swaddling clothes, we of Escanaba have been fortunate in the type of stores it attracted. Today Radio is a full grown industry. Escanaba Radio establishments are manned by skillfully trained forces of sales and service men and stocked with the finest Radio merchandise to be found in the whole country.

These merchants know their business. They are men of vision who never for one instant have lagged in their efforts to put the latest in Radio merchandise before the public of Escanaba. Up from the lowly crystal set until the introduction of the latest all-electric models of today, theirs has been one continual growth for the better.

They give the utmost in quality . . . in fair and reasonable price . . . in smiling, courteous service. Escanaba is proud of its Radio stores. People from hundreds of miles around find wider selection, fairer prices and better service here.

GRID STAR MAY WED HEIRESS

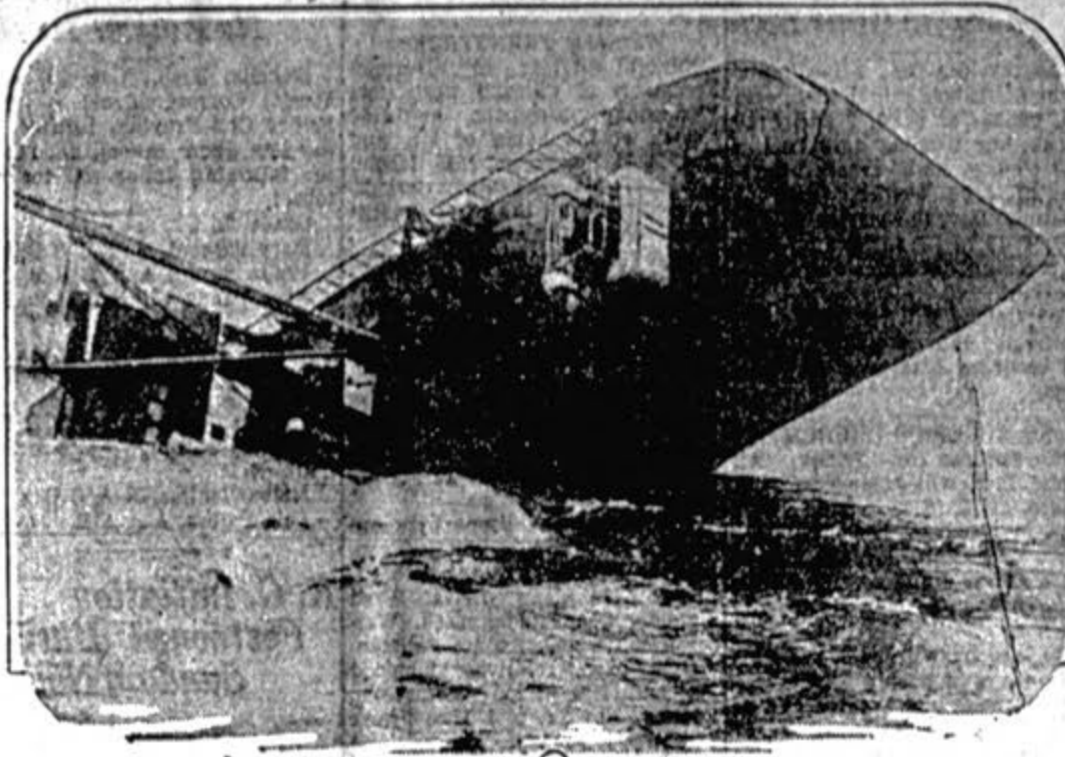

It may be a romance of football and motoring. For the engagement of Miss Bernice Chrysler, right, daughter of Walter P. Chrysler, wealthy automobile manufacturer, and Edgar Garbisch, former West Point gridiron star, is expected to be announced soon. They're pictured above at White Sulphur Springs, N. Y.

Girl Motorcycle Cop on Four

The roads are tied up traffic wherever she goes, but after all that's the best way for pretty Marie Brode, motorcycle policeman of Portland, Ore., to study the traffic situation on her 15,000-mile tour of the country. She's gathering material for a book on traffic regulation and is pictured above as she arrived, shiny star and all, in Newark, N. J., after crossing the continent.

FORTY-FIVE DROWNED IN THIS WRECK

Vividly pictured above is a tragedy of the sea which cost 45 lives—the disastrous wreck of the huge steamer Haakon VII off the Norwegian coast. With waves mercilessly pounding it, the big ship is seen here, bow up, soon after it had crashed on the rocks at a speed of 12 knots, capsized and sunk within a few minutes. The vessel was the pride of Norwegian shipping.

"FOUR PAIRS" MAKE "FULL HOUSE"

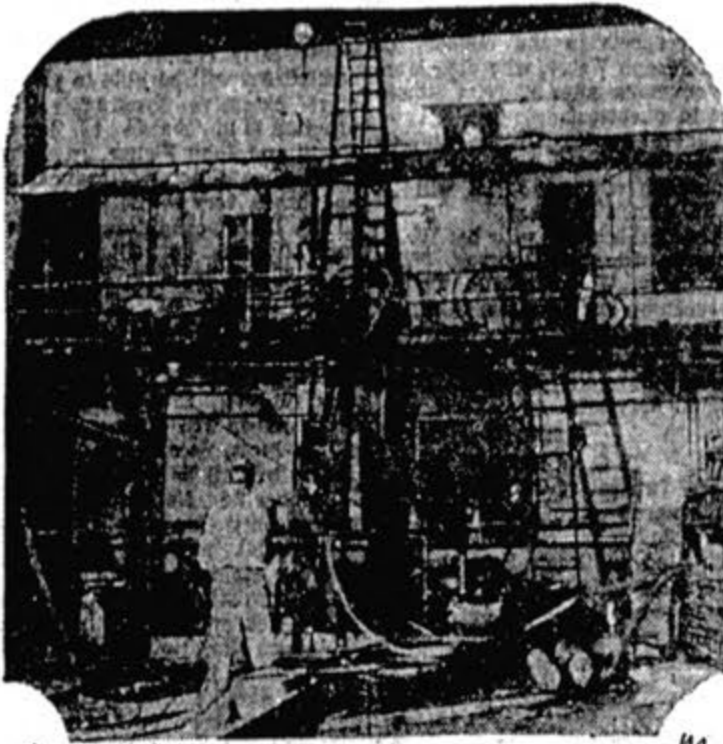

Perhaps the Athens, O., photographer who snapped this picture may be excused for thinking he saw double—because they are all twins and all in the same family. Mrs. Ray Morrison, right, is the mother of Hubert and Herbert Morrison, 13, standing, and Louis Lois Morrison, 15 months, on her lap, and she's a sister of Mrs. Rosa Weinbrenner, left, whose children, Otis Logan and George Allen Weinbrenner, center, are twins, six years old. And they say their brother is the father of twins!

HERE RUNS THE BRIDE

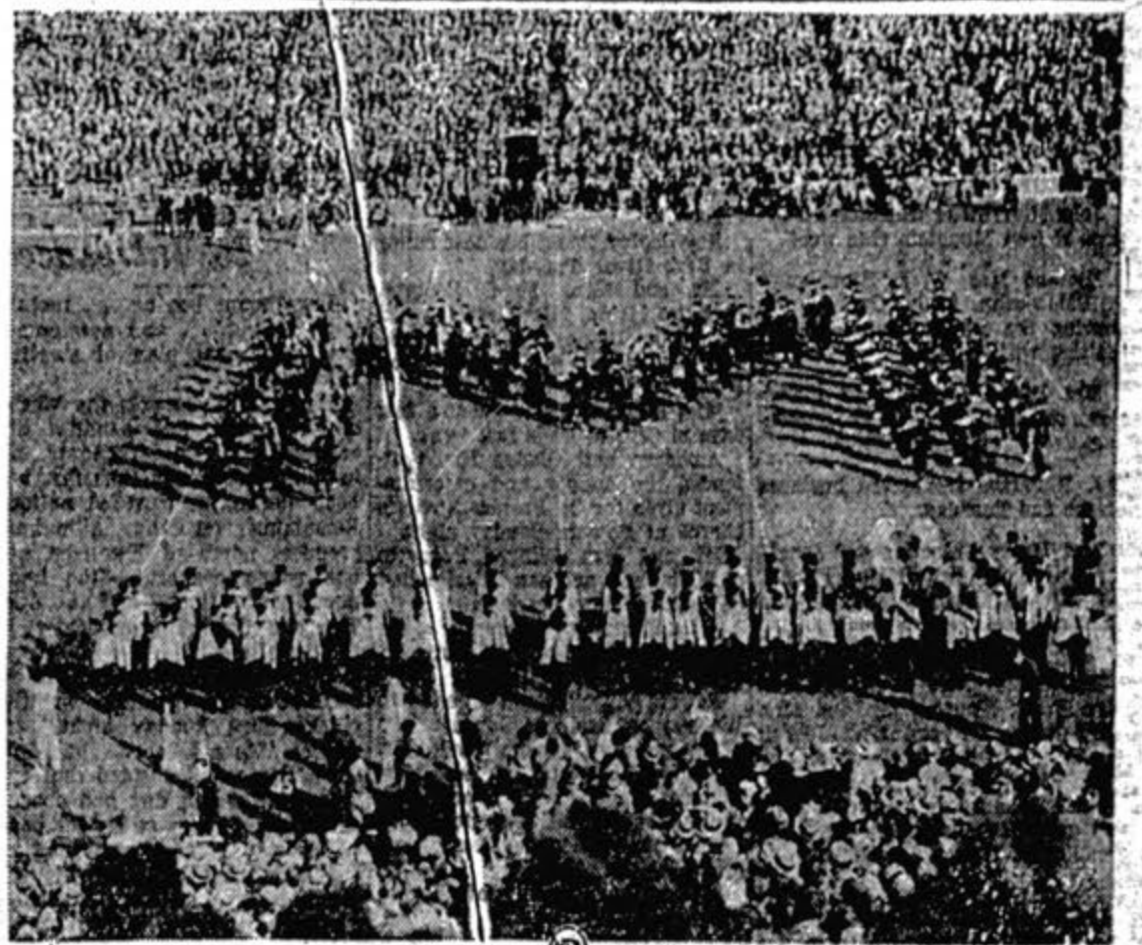

The way young people rush into matrimony these days! . . . Ten times a bridesmaid and finally a bride—all in one year—here you catch a fleeting glimpse of Miss Elizabeth Nancy, society debutante, at her own wedding in Berke, England. The groom, W. M. Mount, son of Sir William and Lady Mount, is pictured coming in second best in the race to the altar. It was one of the most important weddings of the year in British titled society—and certainly the fastest.

BLAST WRECKS FILM LABORATORY

These pictures show wreckage of Hollywood's consolidated film laboratory after it had been damaged by fire and an explosion which caused the death of one person and destroyed several million dollars worth of "master" film for big productions. Above, inside where the explosion occurred. Below, all that remained of vast quantities of films was this heap of ashes.

MICHIGAN BAND DOES ITS STUFF

Before a throng of more than 85,000 persons, the University of Michigan student band performed in a series of intricate drills and maneuvers between halves of a recent game at Ann Arbor. The student musicians had marched into the mammoth block M when the cameraman took the picture above.

A DOG-TIRED RACING OUTFIT

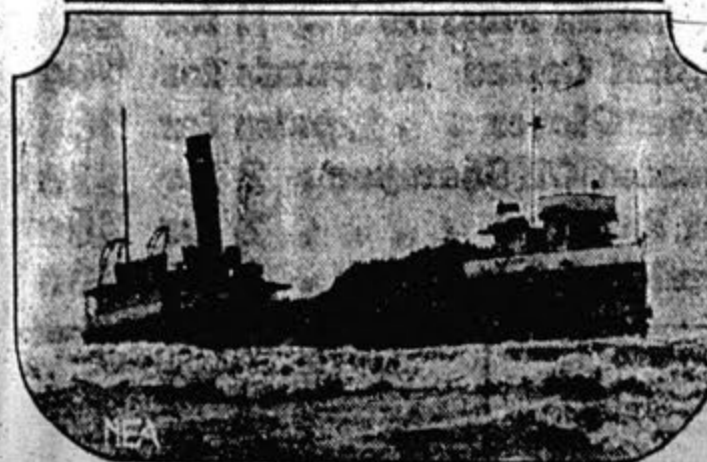

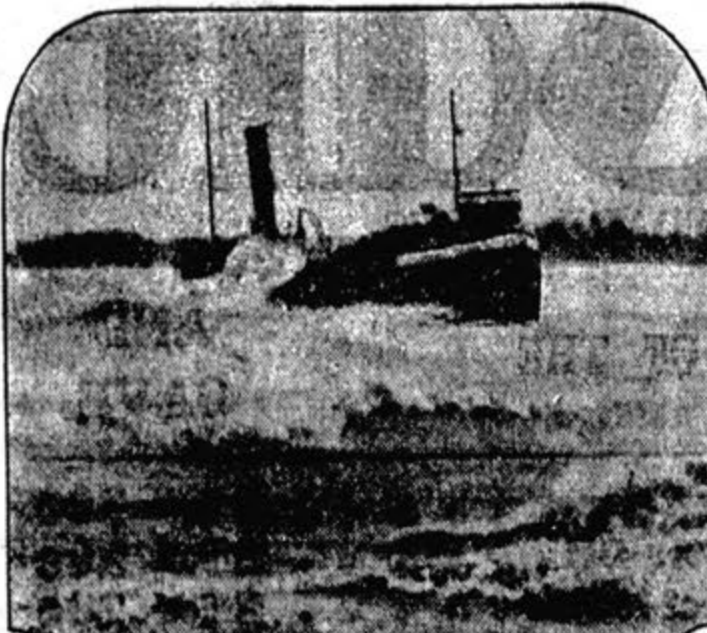

The last model of the "eskimoo light" is out—and excuse their dust! Here's how Mrs. E. P. Ricker, Jr., noted woman dog team driver, gets her eskimo huskies in doggy shape for the coming racing season. She's pictured above speeding down a road at Poland Springs, Me., in an eight dog power vehicle—a stripped down automobile chassis.

DIVORCED

Blanche Sweet, one of the first film actresses to gain fame as a beauty, is shown above as she appeared in a Los Angeles court the other day and was granted a divorce from Marshall Neilan, celebrated film producer. She charged her husband with cruelty.

WHERE 13 WERE SAVED FROM LAKE

One of the most thrilling rescues on the Great Lakes in recent years was staged when 13 members of the crew of the Steamer N. J. Neesen, below, aground near Leamington, Ont., were rescued by Canadian coast guards in the face of the heaviest storm of the year. Above is the Steamer C. W. Cadwell, which also went aground near Leamington. Note how the seas are sweeping over it. The crew was taken off.

British Air Chief Flies on R-101

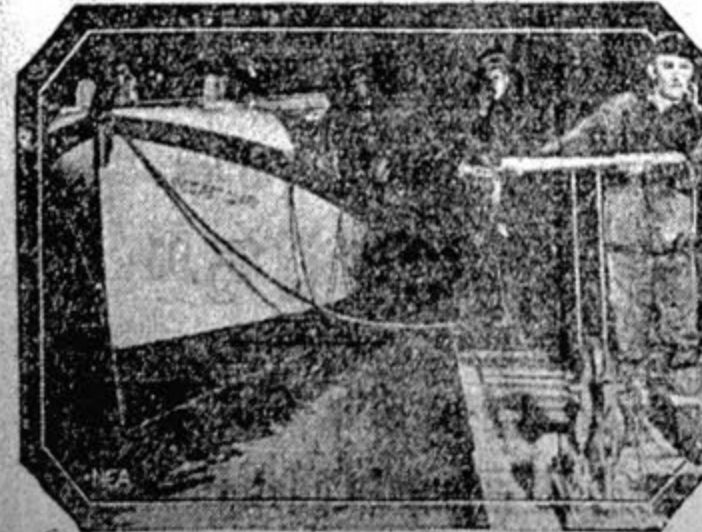

Great Britain's highest aviation official, Lord Thomson, Air Minister, was a passenger aboard his country's—and the world's—largest airship, the new dirigible R-101, on its official test flight. He is pictured above as he entered the giant craft through a doorway in the prow after ascending to the top of the dirigible's high mooring tower at Cardington, England.

MOCKNE ATTENDS THE GAME

Knute Rockne was determined his leg injury would not keep him from directing his Notre Dame team against the Carnegie Tech eleven at Pittsburgh. The Rambler mentor was loaded into a wheel chair and accompanied his boys. He is shown above as several men assisted in taking him off the train.

RECOVER BODIES OF LAKE DEAD

Wreckage of the Grand Trunk railroad cat ferry, Milwaukee, that went down with more than 50 aboard during a storm on Lake Michigan, was found washed ashore near Kenosha, Wis. It is shown above on the beach, surrounded by coast guards. Below, coast guards under Captain Kristoffersen, who recovered the lifeless bodies of many of the ill-fated crew from the water.

Heir to Fortune

He's inherited a fortune that may run from \$10,000 to \$350,000—but he's going right on doing odd jobs of mowing lawns and trimming hedges for a living. John W. Vanderlies, above, 70-year-old Beaver odd-jobs man, says the money inherited, whatever amount it proves to be, won't change his mode of living one bit. He was named one of six heirs to the estate of a brother, a Kansas City grain and oil merchant.

Wins \$75,000 From Rich N. Y. Spanker

Two years after Harry K. Thaw, elderly but playful millionaire, spanked her with a hairbrush, Marcia Estardus, former Broadway showgirl, smiles triumphantly. For a New York jury in her suit for damages took only 50 minutes to decide that she had suffered \$75,000 worth of indignity by Thaw's treatment. She's pictured here just after the surprising verdict was announced.

HE'S ALMOST AS BIG AS HIS PLANE

Walter Hamilton weighs 285 pounds, but the plane he flies around Los Angeles isn't anything what you might expect—it's as tiny a plane as one is likely to find. Above, Hamilton and his plane are shown here.

OUT OUR WAY. A cartoon illustration showing a man with a sore heel and a woman with a sore heel, both holding their feet in pain. The man says, "OH, AL—COULD YOU EAT A HEEL? A HOT HEEL WITH BUTTER JISS COZIN ALL OVER TH TOP—COULD YA, AL?" The woman replies, "WHY OF COURSE HE CAN—CANT YOU AL? IVE GOT A PIECE FOR YOU." The man says, "WELL I UH I UH I-I YES-M." The cartoon is signed "By WILLIAMS" and "YOUR MOTHER—WAS SHE EVER WRONG?"

There Are Leaders—And There Are TRAILERS

In every gathering you can pick them out--the people whose clothes are always in style, who drive smart cars, furnish their homes with taste, entertain artistically. They are the leaders. They don't seem to spend any more money than their neighbors and yet they undoubtedly set the pace.

And at the other end of the line you can pick the trailers. They are the people who are always a little out of step. They are the last to hear that styles have changed--the last to learn of new housekeeping methods or improvements in automobiles. They think "Remember" is the latest song hit, and are planning to get "Main Street" out of the library.

What is it that makes the difference between front-rank and rear-rank families? Temperament partly, of course. But the real answer is that one group chooses to keep posted while the other is willing to remain in ignorance.

It is just as certain that the leaders in any social set *read the advertising columns* and take advantage of their suggestions as it is that the tail-enders do not.
