

CHICAGO TO VOTE IN PRIMARY TODAY

NO CLEAR CUT ISSUES FOUND IN PROHIBITION

TWO TRUCK LOADS OF DATA COME TO SENATE

BY DAVID LAWRENCE (Copyright 1931, by the Escanaba Press) Washington, Feb. 23.—The prohibition controversy so far as the present session of Congress is concerned is entirely academic.

About all that has been done has been to survey the mass of evidence obtained by the commission. Two truck loads of data have gone to the senate constituting all the material which was not given under a pledge of secrecy.

Material for 1932. Speaking of filibusters there are no signs of any as yet and the appropriation bills are moving along toward adoption.

### DRY LAW GROUP WILL GIVE DATA

#### One Member Criticizes Wickersham for Turning Over Testimony

Washington, Feb. 23 (AP)—Transmission to the senate of additional data upon which the Wickersham law enforcement commission based its prohibition report was promised today from within the commission.

Simultaneously there came criticism of Chairman Wickersham by one member of the commission for having submitted any of the testimony without the approval of the full commission.

In answer to a resolution a confusing mass of material was sent the senate late last week including prohibition surveys of 32 states. Less than 24 hours after its arrival, however, a second resolution was adopted asking for data on the remaining 16 states and demanding the reason why this had been withheld.

One member of the commission, who asked his name be withheld, said today surveys had not been made of all the 48 states. He estimated at least six states had been omitted, but asserted data on the remaining ten would be transmitted as promptly as possible.

Included in this latter number are several states in which anti-prohibition sentiment is strong—such as New York and Illinois. The survey of the latter state includes material upon gangster activities in Chicago considered so revealing that the investigator signed an assumed name. He spent some time in the underworld there.

Another member of the commission explained this data had been withheld merely by an oversight. He explained that between 15 and 50 copies of the first 32 state reports had been made available to the commission by Dr. James M. Doran, former prohibition commissioner. Only single copies existed of the other state reports, he said, and these were in the hands of individual members.

Criticism of Chairman Wickersham by his colleague was made upon the ground that he had submitted the data requested despite the objections of the few commissioners then in Washington.

### Spalding Woman Is Summoned by Death

#### One Member Criticizes Wickersham for Turning Over Testimony

Mrs. Maximilian Mollie, 78, passed away at her home in Spalding Sunday afternoon at 12:30 o'clock after an illness of several weeks' duration.

Mrs. Mollie was born August 16, 1852 in Grand Hallet, Belgium and for the past seventeen years had been making her home in Spalding.

Mrs. Mollie is survived by her husband, and the following sons and daughters: Constant Mollie of Saginaw, Mich.; Mrs. Thomas Hamacher, of Foster City; Alphonse Mollie, of Stambaugh; Henry and Louis Mollie of Niagara, Wis.; Mox Mollie of Hardisty, Alberta, Canada; Mrs. Peter Donald of Hardwood, Mich.; and Victor Mollie of Chicago.

The body was removed from the Alfo funeral home Monday afternoon to the family residence at Spalding.

Funeral services will be held Wednesday morning at nine o'clock at St. Francis Xavier's church at Spalding, with Rev. Fr. Joseph Schaul as celebrant at the requiem high mass.

Interment will be made in Spalding cemetery.

### HOT CAMPAIGN ENDS; GUARDS ARE ASSIGNED

#### Asks Michigan Join in Move to Repeal Prohibition

Lansing, Mich., Feb. 23 (AP)—A move to have Michigan join other states in urging congress to call a national constitutional convention for the repeal of prohibition was initiated in the legislature tonight.

Rep. Frank P. Darin, of River Rouge, kept the liquor issue alive in the assembly by submitting a concurrent resolution memorializing congress to call the constitutional convention. A specific amendment to permit the use of liquor in the home under governmental supervision and state regulation was urged.

Representative Darin called attention to a provision in the federal constitution which permits congress to call a convention to consider amendments to the constitution on the petition of the legislatures of two-thirds of the states. "Michigan joins with other states in respectfully requesting that a convention be called," the resolution said. "Twenty per cent of the voters of this country" have not had an opportunity to vote on the question. It expressed the belief that "law abiding citizens of Michigan desire" some sort of modification of the 18th amendment.

"When prohibition like the golden sun peered above the horizon transforming its plug-uglies into millionaires it thereby made law violation the third most prosperous industry in this country," Representative Darin stated in his resolution.

Pointing to disagreement among the membership of the Wickersham commission, Darin claimed the prohibition statutes "prohibits but does not prevent. Drinking has spread beyond the control of the fathers and mothers of children and beyond the control of authorities."

The resolution was the latest of a long list of legislative moves made by wet leaders. The only scheduled test on the question failed last week when the attorney general ruled that the legislature had no right to authorize an advisory referendum on prohibition as proposed by the Dacey concurrent resolution.

### URGE CLAMP ON GROUP'S POWER

#### Denies Charges

Lansing, Feb. 23 (AP)—A threatened legislative rift over the administration proposal to transfer from the department of state the division of automobile drivers' licenses appeared to have been averted today when Governor Wilber M. Brucker indicated he will not press for the shift. A bill and a message providing that the division be attached to the department of public safety, had been prepared for submission tonight, but the governor said he will withhold them.

His decision followed several days of activity among members of the legislature. Frank D. Fitzgerald, secretary of state, protested against the proposed transfer. He opposed moving the licensing duties, on the ground that the state department is equipped to do the work. Legislative friends of Fitzgerald's revealed their willingness to fight the administration plan by introducing bills ahead of those contemplated by Brucker, providing that the issuance of licenses remain in Fitzgerald's charge. They asserted if the driver's licenses are taken away the next step might be to transfer automobile plates, the gasoline tax and all other major activities now conducted by the state department.

Should the movement bear fruition, it will be the second in the legislature designed to curb the delegation of legislative powers to other state agencies. Two bills have passed the house restricting expenditures by the state administrative board to actual appropriations made by the legislature. Two others await consideration to permit members of the assembly to sit with the board on emergency claims.

Any effort to wipe out the discretionary power act would probably result in sharp divisions apart from the regular legislative battle lines. While Speaker Ming and Rep. Espie can rally other leaders to their support, they would meet with stiff opposition from some quarters of the legislature. Many regard the discretionary power statute as an outstanding law for the development of conservation.

### 'ALFALFA BILL' FLAYS MERGERS

#### Murray Urges Democrats To Restore "Little Man" to Power

Topeka, Kas., Feb. 23 (AP)—Warning the Democratic party to shun "selfish interests" seeking to control it "with their money and hirelings," Gov. W. H. (Alfalfa) Murray, of Oklahoma tonight advanced a party platform to "restore the little man and give him renewed hope in the struggle of life."

The Oklahoma executive told Kansas Democrats it was the duty of their party to "point the way that will reinstate the farmer, government trade to the business world and give back to the mouths of labor the bread its earns."

He predicted a Democratic victory in the next presidential election provided the party convinced the people it was sincerely behind a constructive policy opposed to "mergers and monopoly" and did not yield to "the cry of representatives of combined wealth and capitol and the intrigues of corrupt politicians."

Governor Murray addressed the annual meeting of the Washington Day Dinner club in the Kansas capital after making a visit to Emporia, Kansas earlier in the day where he was introduced to a civic gathering by William Allen White, author and editor as a man "in the shadow of the White House."

"People are sick and tired of that 'noble experiment' in mergers and monopoly which has been shaping and forming for the past decade until it has brought wreck and ruin on every class of citizens," he said. "It is the duty of the Democratic party to take the other side."

Must Crush Merger. "It must needs break down monopoly, crush the great mergers, break the chains that bind money and credits, restore the little man and give him renewed hope in the struggle of life in the pursuit of happiness. In short, WINN RACQUETS MEET. New York, Feb. 23 (AP)—For the tenth time since 1915, Clarence C. Pell of New York captured the national amateur racquets championship today, defeating the defending titleholder, Stanley Mortimer of New York, 15-8, 15-6, 15-3, in the final round.

at Muscle Shoals. They contended this would place the government directly into the business of manufacturing and distributing power.

Those who steered the bill through the house said, however, that under its terms for leasing the nitrate plants, there would be little power left for sale.

The bill provides that states and municipalities should be given preference in the sale of surplus power.

Twenty-six Republican regulars voted against the bill in the senate with two Democrats joining them—King, of Utah, and Tydings, of Maryland.

Twenty Republicans supported the measure with 35 Democrats. The roll call showed the advocates to be just shy of the two-thirds majority necessary to override a veto.

### Jury to Try Youth In Criminal Case Is Being Formed

Valparaiso, Ind., Feb. 23 (AP)—Six middle aged farmers and one young grocer's clerk were tentatively approved today as members of the jury to try Virgil Kirkland, young Gary Indiana high school athlete, for the death of Arlene Draves, 15 year old Gary girl.

The trial youth of 20, who escorted Miss Draves last fall to a drinking party at which she met death, watched closely the rapid selection of men who will determine whether he had slain her by a criminal attack at a drinking party November 9.

The prosecution set the crowded court room buzzing with comment when it made no mention of the death penalty in its questioning of veniremen.

Defense attorneys seized on this to indicate that a prison term rather than execution was favored.

The defense asked each juror, "would you be prejudiced against Kirkland if it were known that he drank?" and refused to accept those who said they would.

Boys and girls, many of them professing to be acquaintances of Kirkland or the girl, packed the little court room. They maintained perfect order. Some of them brought lunches so as to hold their seats.

### Protection Bills Requested by Oil Concerns Put Away

Washington, Feb. 23 (AP)—The drive of independent oil producers for protection against foreign imports was abruptly halted today by the house ways and means committee.

By 13 to 7, the revenue committee that framed the Hawley-Smoot tariff act, voted to postpone all tariff and embargo measures because "there would not be sufficient time during the remainder of the session for the consideration" of such bills.

Refusing to accept the decision of the committee, representatives from independent oil territory planned to send a delegation before the unofficial Republican steering committee tomorrow in an effort to gain the support of party leaders and force reconsideration by the committee.

When the general postponement resolution was offered, Democratic Leader Garner moved that an exception be made of oil tariff proposals. His motion was defeated 13 to 7. Committee members said six Democrats were joined by one Republican in favor of Garner's motion.

### Creation of Judgeships In Bid to Relieve Court Congestion

Washington, Feb. 23 (AP)—Congested court dockets led the house today to pass bills to create five new federal district judgeships, to make permanent 17 others now temporary and to establish another circuit court seat.

One of the measures—for the appointment of two permanent additional judges for the northern Illinois district—now goes to the president. The others await action by the senate. The Illinois district already has three judges. It includes Chicago and has a population of about five million.

The house also approved the Graham bill to make permanent a fourth judgeship for the ninth circuit court of appeals on the West coast. This had the approval of the conference of senior circuit judges.

### Zog Says He Will Remain in Albania

Vienna, Feb. 23 (AP)—King Zog of Albania announced tonight he had decided to remain in Vienna despite the attempt to assassinate him last week. Gossips were attributing his decision to a desire to stay near the pretty Viennese actress, Franziska Janko, whose name was linked with the Balkan monarch for the first time today by the newspaper Wiener Stunde.

The newspaper says the king's attentions to Miss Janko almost led him into the hands of his enemies a few days ago when he missed by a few minutes those who were lying in wait for him in Votive park after Zog left her company.

### Pupils March from Burning Building

Detroit, Feb. 23 (AP)—One hundred pupils marched safely from a two-story public trades school at 1251 Sixth street this afternoon, when flames threatened to destroy the building.

Miss Laddie Nyklewicz, a stenographer, was rescued by firemen from the second floor. She explained she was so busy she was not aware of the danger until the fire had cut off her escape by the stairway.

### Ready for Trial of Alleged Murderers

Detroit, Feb. 23 (AP)—Counsel for the state and the defense indicated tonight they would be ready to proceed tomorrow with the trial of three men accused of slaying Gerald E. Buckley.

Prosecutor Harry S. Toy said he expected his staff to have completed by tomorrow the last minute investigation of stories told by witnesses whose names were indorsed on the indictment last week.

Attorneys for the defense of Ted Pizzino, Angelo Livecchi and Joe Bommarito said they had been ready for several weeks.

Recorder's Judge Edward J. Jeffries said he would grant no further delay without "very good reason."

Pizzino and Bommarito are accused of participation in the actual slaying of the radio political commentator. Livecchi is alleged to have signalled the gunmen from within the lobby of the La Salle hotel when Buckley was seated and the scene was set for the assassination.

### Cerro Withdraws His Candidacy for Presidency, Peru

Lima, Peru, Feb. 23 (AP)—Provisional President Luis M. Sanchez Cerro rushed troops today to crush a rebellion at Arequipa, dominant city of southern Peru, and at the same time sought the calm of the political waters by withdrawing his candidacy for the presidency and moving for a new constitution.

Heretofore Sanchez Cerro has headed a military junta, governing by a decree, as a result of a revolution he began last August which unseated President Ugusto B. Leguia.

Presidential elections were to be the eventual outcome and had been definitely planned, although the time was vague, but today the junta cancelled the decree looking toward a general election. A few hours later Sanchez Cerro withdrew his candidacy for formal election to the post he now holds as the result of revolt.

### Woman Who Killed Spouse In Bridge Quarrel On Trial

Kansas City, Feb. 23 (AP)—Mrs. Myrtle A. Bennett, 35, alleged to have shot and killed her husband John C. Bennett after a quarrel over a bridge game, went on trial here today for murder.

Modishly garbed and pale but apparently calm, she sat near her attorney, silver haired James A. Reed, former United States senator, while James R. Page, county prosecutor, told the court the state would not seek the death penalty.

During the tedious hours of jury examination Mrs. Bennett seldom shifted her position. Outwardly impassive, she heard repeated the charge that she shot and killed her husband in their apartment the night of Sept. 29, 1929.

But Senator Reed shifted frequently. He was on his feet quickly when the prosecutor asked the jurymen if they could be as fair and impartial trying a woman as a man. "Sex has nothing to do with it," he objected.

### Probe of Campus Booze Situation Approved by House

Lansing, Feb. 23 (AP)—The house representatives will make an extensive investigation into liquor conditions on the campus of the University of Michigan.

A resolution providing for the university probe was adopted by the lower branch tonight by a vote of 47 to 31. Speaker Fred R. Ming named a committee of five members to make the investigation headed by Rep. Oscar C. Hull of Detroit. Other members of the committee are: James G. Frey, of Calhoun; Jessie G. Boyle, of Berrien; Danna H. Hinkley of Emmet and Robert H. Lane, of Bay county.

Major opposition to the resolution was cast aside when Rep. Andrew H. Harnly, Saginaw, Baptist minister, told the house that he would withdraw his objections. Rep. Harnly had previously challenged the intent of the investigation. He said he is now convinced of its most sincere purpose.

The resolution is a substitute for one originally introduced by Rep. Frank G. Darin of River Rouge. The original measure called for an investigation by both houses of the legislature while adopted resolution limits membership on the investigational committee to the house. The sentence is broadly interpreted as authorizing a probe into not only drinking conditions on the campus but also police methods used in the raid of five fraternity houses and subsequent disciplinary actions taken by university officials.

### Wagner Employment Bill Passes House

Washington, Feb. 23 (AP)—Overriding an administration substitute proposal by an overwhelming majority, the house today passed the Wagner bill to establish a national system of employment exchanges.

The substitute proposal of Secretary Doak was rejected by a teller vote of 182 to 84. Without a record vote, the house approved the original senate bill, the last of a three-point employment program sponsored by Senator Wagner, Democrat, New York. The other measures became law recently.

The proposal to provide employment exchanges supported jointly by state and federal governments, now goes back to the senate for composition of minor differences.

Representative Laguardia, Republican, New York, led the floor fight for the measure. It received virtually solid Democratic support. Minority Leader Garner having thrown his weight behind it several days ago.

### Three More Ill at Iron Mountain Due To Uncooked Meat

Iron Mountain, Mich., Feb. 23 (AP)—Three more persons were suffering from Trichina poisoning here tonight as a result of eating uncooked sausage at the home of Alphonse Celli five weeks ago.

The latest victims are Mrs. Parisio Farnani, Mrs. Minnie Ochetti and Joseph Taglienti. John Colavacci, a fourth member of the party, is under observation. Mrs. Celli died and Celli and his daughter were made seriously ill by eating the uncooked meat five weeks ago.

Cacao grown in the Dominican Republic this year will weigh 44,000,000 pounds.

Ten British aircraft manufacturers sent exhibits to this season's Paris automobile show.

### AUDIENCE LIKES MUSIC BY BAND

A song contest, in which several boys and girls from the audience competed, was a new feature introduced at the concert presented by the Escanaba municipal band at the high school auditorium Sunday afternoon. Judging from the applause which greeted the young vocalists, the idea was a popular one. The judges found it hard to decide the winner, and the prize of \$5 given by Joe Greenfield, director of the band, was divided among the first five contenders. Similar events will be staged at future concerts, when prizes will be given for soloists.

A big crowd attended the concert Sunday. The program included vocal solos, community selections, a concertina-accompaniment violin trio, and the first appearance of the Escanaba Legion drum and bugle corps, which is coached by Mr. Greenfield.

### Funeral Rites At Rapid River Today

The body of Lovell L. Barboo arrived Monday afternoon from Calumet where the young man was killed Friday evening in an automobile collision.

Funeral services will be held this afternoon at two o'clock at the Congregational church at Rapid River, with Rev. H. W. Conness of Gladstone officiating.

Mrs. Levi Barboo who had been spending the winter with her son Samuel in Washington, D. C., received this telegram announcing her son's death while she was making preparations to leave that city for her home in Rapid River. Her son Samuel, who is chief pharmacist in the U. S. Navy and now stationed in Washington, accompanied Mrs. Barboo to her home.

Mr. and Mrs. Carl Avern, brother-in-law and sister of the deceased, arrived last night by motor from St. Peters, Minn.

The pallbearers will be six "cousins, Marvin and Henry Barboo, Escanaba, Levi and Angus Pinsau and Henry J. Wilford of Rapid River, and Romeo Boyer of Gladstone.

### Father Harrington Hospital Patient

Rev. Fr. Gerald Harrington, assistant pastor at St. Patrick's church submitted to an operation for relief from appendicitis at St. Francis hospital Sunday afternoon.

Father Harrington had been suffering with appendicitis but completed the Sunday services at the church before going to the hospital.

He is not allowed visitors.

Japan will add a number of all metal military biplanes to its air force.

### HERE'S COP WITH \$80,000 IN BANK

Bank records show that Patrolman Charles A. Wund, of New York had deposits totaling more than \$80,000. But he wouldn't submit to questions concerning them when, as shown above, he appeared as a witness at the official inquiry into New York magistrates' courts. He contended the investigators were infringing on his constitutional rights.

### 'George Washington' Subject Of Address At Kiwanis Meeting

"George Washington" was the subject of an interesting address delivered by George E. Bishop, secretary of the Upper Peninsula Development Bureau, at the noon luncheon meeting of the Escanaba-Wells Kiwanis club at the Ludington hotel yesterday.

Students of St. Joseph's high school supplied the musical program, consisting of the following numbers: Vocal "Coming Home," Claire St. Pierre and Robert Rogers; vocal duet, "Hark O'er the Potomac," Lorraine Ammel and Marion Frederickson; violin and piano duo, Bernard Peltier and Fern Stacy; quartet, "Love's Old Sweet Song," Claire St. Pierre, Robert Rogers, Lorraine Ammel and Marion Frederickson.

Mr. Bishop reviewed the highlights of George Washington's life, from his days when he worked as a surveyor for Lord Fairfax, as a lieutenant in the Colonial army, representative of his district in the Virginia house of burgesses, commander-in-chief of the Revolutionary forces, and to the presidency of the United States.

### STOP BAD BREATH

Thousands of people afflicted with bad breath find quick relief through Dr. Edwards Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know.

Dr. Edwards Olive Tablets act gently but firmly on the bowels and liver, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

Olive Tablets bring no gripping pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after 20 years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound; you will know them by their olive color. Take nightly for a week and note the effect. 15c, 30c, 60c.

### Ice Unsafe, Sheriff Issues A Warning

A warning was issued yesterday by Sheriff Elmer Swanson, calling attention to the danger of driving on the ice of Bay de Noc at this time. Because of the mild weather, the ice is reported to be weakening, and cracks are appearing in many places. An accident at Wells Sunday afternoon, in which a truck broke through the ice and sank, was an illustration of the uncertain strength of the ice. Sheriff Swanson says, and he is urging local residents to use caution. For safety, vehicles should keep off the bay unless colder weather appears.

### Deserter Brought Back to Escanaba

Charles Gregware, wanted as Escanaba on a charge of desertion and non-support, was arrested recently at Alpena on the local warrant, and is being brought back to Escanaba in the custody of Henry Breault, deputy sheriff.

The case against Gregware was called at the last term of Delta county circuit court, but at that time officers were unable to locate him.

### Local Papermaker Going to Montreal

Escanaba will be represented at the convention of the International Brotherhood of Papermakers in Montreal next week by Ed. Packenham, president of Escanaba Local 209, delegate named by papermakers of this city.

Mr. Packenham will leave Sunday morning to attend the gathering at Montreal.

### Parents Scared Stiff But Baby Ellen Gets Well Overnight

"Our six year old little daughter Ellen woke up at midnight coughing, sneezing, feverish. My husband and I were scared all right. We had some Smith Brothers' Cough Syrup in the house and right away we gave her a teaspoonful. In an hour the child fell calmly asleep. She was much better in the morning—in fact she hardly had a trace of a cough! I'd gladly—very gladly—recommend Smith Brothers' Cough Syrup for all children." Mrs. L. EDITORIAL

ROBBING NEWSBOYS

IN NO uncertain terms, a subscriber to the Escanaba Daily Press expresses his indignation over the fact that someone is stealing his paper from his doorstep. He writes: "Nothing I love more is to sit after my Sunday breakfast and pick up my Sunday Press and look it over as I have only one chance a week to read my Press as I am out of town five days out of the week."

"But it's awful disgusting and disappointing when one goes to his door only to find his Sunday paper gone, some cheap sport who cannot or is too cheap to buy a Press having come and snatched it. I know the paper boy always leaves the paper and I don't like to call you for another paper so I thought I would drop you this line just to see if this cheap and dirty trick can be stopped some way."

THE MAYORALTY CAMPAIGN

(Green Bay Press Gazette) AS CHICAGO'S mayoralty campaign draws to a close it becomes more and more evident that Mayor "Big Bill" Thompson is a showman of the first water. Indeed, he might truthfully be called the P. T. Barnum of the political arena. In his campaign for reelection he has made every effort to belittle his political opponents by staging daily street parades in which he used a donkey, a jackass, a camel and an elephant as symbols.

The whole campaign has been turned into a ludicrous affair, and the sad part of it is that it may be effective in reelecting the blustering mayor. Personalities are the only issue and Thompson is using every means at his disposal to make his opponents ridiculous in the eyes of the voters, even going so far as to discuss their table manners. Chicago apparently has forgotten Thompson's record as mayor, a record that is unparalleled in that city's history for inefficiency, corruption, indifference and unscrupulousness.

"Can the spring be far behind?" as the convict wisecracked on the gallows. A surgeon is the author of a new play. Will he select a plaster cast? A famous music publisher made several worthy philanthropies. It remained for the faceless headline writer to remark that he benefited charities to the tune of \$100,000.

Owen D. Young says he is not a candidate for president. He'll stick to his Plans. It's surprising how much red tape is necessary to budge an obsolete blue law. Skating rinks, says a news item, are to have colored ice. Will hockey teams henceforth win or lose by a shade?

other hoodlums and racketeers who have collected tribute from almost every line of business, and killed or slugged whoever dared oppose them.

If the citizens of Chicago are sincere in their oft-expressed determination to clean up their city and put the gangsters in jail, they will send Thompson into that political oblivion he so richly deserves, by nominating Judge Lyle, the enemy of gangland. Developments the last few days plainly show that Alderman Arthur F. Albert, who is sincerely opposed to the city hall gang, cannot win. Senator Deneen's support of him has precluded that. A Chicago newspaper as a matter of fact charges that Deneen is supporting Albert in an effort to divide the anti-Thompson Republicans and that if the senator's expectations are realized the result will be to cut down the vote of Judge Lyle, the only candidate against Thompson, and was so planned.

If the voters do not see through Thompson's clowning, and the machinations that are going on behind the scenes, they will have another four years of "Big Bill," his bluster and insincerity, and the grip of gangland will be tighter than ever, with summer, without fear of prosecution, taking pot shots at everyone who resists their methods. The most appropriate title Chicago can confer on Thompson is that of ex-mayor and this "honor" should be awarded him on election day.

ANOTHER RAIN-MAKER

THE Pied Piper of Hamelin has a great-great-grandson. The Pied Piper, you may remember, offered to remove all the rats from Hamelin Town if the council would give him enough guilders. But when the last gray rat had tumbled into the river the council changed its mind, so the merry Piper did a wholesale kidnaping stunt and locked the children up in a hall. Now Dr. George Ambrosius Immanuel Morrison Sykes, the director of an organization which he calls the Weather Control Bureau, has made an offer to the five boroughs of New York City that he will replenish the city's water supply at the rate of \$25,000 an inch or for a flat guarantee of \$350,000 for 12 inches of rain over a period of 90 days.

More than a year ago, at the Belmont races, Dr. Sykes had a contract to receive \$1000 a day if he could hold off the rain that week. But the last day is sprinkled occasionally so he had to forfeit \$2000, although he received payment for the other days.

If Dr. Sykes is able to take charge of the rain, people with too much money will have another diversion. They can call up the weather magnate and prescribe the kind that they want. Farmers will be able to chip in and order so many inches of rain in the way that they co-operate to buy feed by the carload. Weather forecasters won't know what to prescribe. The water witches, who used to go around the country locating hidden springs with a crocheted stick, could have asked more money if they had drawn their water from the sky instead of the earth.

But we'll take a raincoat along only when the government meteorologists say it is going to storm.

Who was it, honey? What's de mattan? That stock that I bought. It's gone down... way down... my broker jus' phoned that he'd have more money right away. Sho nuff? An' I haven't any more... ow! But, how come? Yo's already bought de stock ain't yo? It's yo's ain't it? Den why does y' have t' buy it all ovan agin, huh? Oh, opal... you don't understand stocks! You ask such silly questions. Well... an'll betcha de answahs to 'em would be jes' as silly.

WINSLOW HOMER'S BIRTH

On Feb. 24, 1836, Winslow Homer, famous American marine painter, one of the foremost and most typical of his school, was born in Boston.

At 19 he entered a lithographer's shop and after two years worked independently as an illustrator. In 1859 he went to New York where, while supporting himself by illustrating, he attended the National Academy of Design.

On the outbreak of the Civil War he went to the front as a special war correspondent and artist for Harper's weekly, for which he worked after the war.

In 1880, after he had exhibited his paintings in Europe, Homer turned his attention to marine painting. Four years later began his notable career as leading American painter of the ocean and the seafaring folk.

—Mrs. Annabelle Williams-Ellis. In a period of depression we must run as fast as we can to stay where we are.

—Cyrus H. K. Curtis. We hear war called murder. It is not—it is suicide.

—Premier Ramsay MacDonald of England. The salesmen of today who are willing to accept the simple principles of planned selling and breathe into them the life of their own thinking, their own aggressiveness, are the material for tomorrow's sales managers.

BY ETHEL HUESTON

CHAPTER XXXV

"Oh, Speed!" cried Phil. "Mrs. Tolliver, let me tell you," he begged contritely. "It was all my fault. She's not my sister. She—she is my wife. We were married in New York that day when I stopped over. We have been engaged for a long time and she knew how crazy I used to be about Ginger—she was afraid I would get it again if I came out and so we were—married."

"She—only intended to come to Chicago and wait for me—don't you understand? We were in love—I couldn't bear to leave her—I persuaded her to come as my sister."

"But Speed, what a terrible thing to do! We—we would have wanted her as much—loved her as much—as your wife."

"But you wanted Speed to help cheer Ginger up," said Cotton. "And he had promised to do you a good turn—he showed me your letter. But it didn't seem to me that a married man—would be so very cheerful for a young girl. So we decided—not to tell."

"I am always acting a lie around you folks," said Speed regretfully. "And yet I like you and look up to you more than anybody I ever met in my life. I don't know why I'm always doing such childish things. But every word of this is Ginger's truth."

"Cotton used to live in my home town—her uncle has a factory there. I've known her for years. You see, we didn't mean to do it, Mrs. Tolliver. I started in perfectly good faith. And then when we got together—we got talking about it—and I've been terribly in love with her for years. Honestly, I don't know how it happened. Cotton didn't want to and I made her."

BY DR. MORRIS FISHBEIN

The Wingate Memorial trustees have recently prepared a book called "Intimate Talks by Great Coaches."

Fielding Yost and Tad Jones contribute two of the essays on football, and there are others by authorities of equal note on track, field, baseball, basketball, hockey, soccer and similar sports. It is significant that the last of the lectures by Dr. S. E. Bilik deals with some of the injuries which are exceedingly common in athletic endeavors.

Dr. Bilik mentions stone bruise or heel bruise as the most common injury. This is controlled by the use of sponge rubber in the heel of the shoe and the application of heat to control the pain and hasten the healing. The calf muscles frequently suffer from cramp because the athlete dehydrates himself by perspiration and failure to drink enough fluids to overcome the condition.

The "pulled tendon" is usually the result of sudden or severe effort without warming up first. As a result, the muscle tissue or the tendon tears and the blood pouring into the tissues brings about pain and irritation. While running the athlete suddenly feels something give or tear and stops. There may be little, if any, signs of trouble externally, but the condition internally is sufficient to explain the symptoms.

The only hope of relief is prolonged rest, strapping with adhesive tape to fix the tissue in position, thus encouraging rest, and the use of heat and liniment to promote warmth and stimulate healing. The situations usually concerned in the pulled tendon are the muscles in the back of the

THE GOOD OLD DAYS I sighed, "Oh, for the good old days!" And then I thought of Henry's place. Back from the railroad quite a ways, Where greed and style don't set the pace.

I said, "By golly, I'll go down To Henry's for a week or two, For Henry seldom comes to town, But lives the way folks used to do.

I sent a postal. Henry met Me at the train, the way I said: Not with an auto, you can bet— A good old buggy. Then we sped Along the road six miles an hour.

It only took one afternoon, But I kept saying, sort of sour, "My gosh, I hope we get there soon!"

Right after supper Henry lit The lamp, the good old wind, I mean. I thought I'd sit and read a bit, But gave it up, with kerensies. At half past eight we all turned in. Because they breakfast there at six. The bedroom floor was cold as tin. The mattress was as hard as bricks.

Next morning I remembered that I had some things at home to do. So here I am, back in the flat— I caught the northbound train at two. I'm glad I went. I never would Have realized just what I had. Although the good old times were good, The good new times are not so bad.

### TRUCK SINKS IN BAY DE NOC ICE

Two Wells residents, Henry and Clarence Schwartz, No. 1 Highland avenue, had a narrow escape Sunday afternoon when their half-ton truck broke through the ice while crossing the bay near the mouth of the Escanaba river at Wells. Both men jumped free of the truck, which sank with its load of fish and fishing equipment. In attempting to retrieve some of the fish, Henry Schwartz again slipped into the water, but was rescued by A. J. Schmeltzer, one of the witnesses of the mishap.

The accident occurred as the Schwartz truck was returning from a fishing expedition. The truck has not been recovered.

### Weddings

They Were Elaborate Affairs In Olden Days

BY ADRIENNE TOUSIGNANT  
Gazing in the shop windows along the main thoroughfare, recalls to mind many incidents which happened in this city and vicinity twenty-five to thirty years ago. The window displays today show a number of hats, close fitting and brimless, no two hats alike, and woe be to the shop owner who dares to purchase two hats alike for the trade.

The average woman today will not wear a hat again when she discovers the fact that another woman has one like it, regardless of the price paid for it she will discard the hat rather than see one like it anywhere.

Reminiscences bring a smile as we go back to the days when the members of a wedding party demanded that the clothes worn by the bride be duplicated by all the other attendants at the wedding.

I recall vividly one incident which happened about twenty-five years ago, when I was employed as a saleslady in a local store. The proprietor came to the second floor and said to me: "Here are two brides-to-be and two bridesmaids, who desire to purchase their wedding outfits. I will leave them to you to see that they get everything that they need."

The prospect of a large amount of goods to be sold appealed to me as we were working on a salary plus a commission, so I immediately set about selecting the clothes for the four women.

Each one bought a white dress, under clothing, hosiery, gloves, shoes, and several petticoats (they wore them in those days) not only one but two and sometimes three.

Hats of Long Ago  
The hats were the last on the list, at that time wide brims were worn extensively, a novelty that season was a hat with a crown of milan or fine straw braid with a brim of chiffon. The chiffon was either shirred, pleated or tucked over a wire frame and they were dainty looking things.

We had in stock six white hat shapes exactly alike. The hats had to be trimmed, so I designed the hats as best I could and as the brims were flat, the women decided they preferred them turned up. I turned one hat brim up on the left side for bride number one, turned one on the right side for bride number two and for the bridesmaids I turned one hat brim up in the front and the other in the back. I draped a white willow plume over the hats where they were turned up and finished the ensemble with a twist of soft white chiffon and a cluster of white roses. Believe it or not, no Gainsborough would have pleased them better.

It took about twenty minutes to trim the hats as we then had

sight girls in the workroom. The outfit would have been incomplete without the usual wax bouquet to be worn on the left shoulder and one for each of the men in the party in their coat lapel.

Weddings nowadays differ greatly from the weddings of twenty-five years ago. Occasionally a wedding is celebrated in such a manner that it recalls the days when the invitations were sent to friends and neighbors for miles around, besides relatives from distant places who came one week before the date set and helped with the wedding preparations.

Preparations for Weddings  
Food of all descriptions, cakes, cookies, doughnuts and pies were prepared several days in advance, if the wedding took place in the winter the savory French meat pies called "Tourcaire" were baked by the dozen and set in the larder to freeze, they were taken out again on the wedding day and thawed out and served piping hot.

Neighbors helped with the preparations and it was deemed as much of an honor to be invited to serve at such a wedding as it was to have been chosen as a bridesmaid or maid of honor.

The entire crowd of guests went to church in carriages; the bridal party riding in a cab, also called a "hack." They did not rehearse the march into the church as they do nowadays and if one member of the party did not have an ear for music, he or

she would walk either too fast or too slow for the others, but they got by somehow and no one complained.

Wedding Photographs  
After the church ceremony, came the trip to the photograph gallery now called studio. Usually the pictures were taken with the bridegroom sitting down and the bride standing with her hand on his shoulder, very much, a la clinging vine type, their heads were placed in an iron device which caused them to look straight into the camera.

A group picture was also taken with every member of the family and the bridal party and every one who wanted a picture got one. The photographs at that time cost about three dollars per dozen.

After the trip to the photographer the guests assembled at the home where dinner, and supper and a midnight lunch were served and a dance in the evening interrupted by the charivari without which no wedding was complete.

If the wedding was held in the country the men folks went home at five o'clock in the afternoon to do the chores and returned for the evening meal and the dance.

The modern wedding is usually quiet, one or two automobiles could easily carry the entire crowd of guests to the church. Occasionally one sees a wedding party driving through the streets of the city with an array of boilers, tin pans and

### RADIO

(Eastern Standard Time Throughout)

New York, Feb. 23. (AP)—Unfavorable wind conditions held the navy dirigible J-4 in its hangar at Lakehurst, N. J., today and prevented a broadcast via WOR from the blimp in flight.

Although flying conditions over New Jersey and New York were perfect, strong wind currents about the hangar made it impractical to take out the ship. It had been planned to present a George Washington birthday feature from the J-4. In its place, a patriotic program from the studio was put on the air.

Tonight WOR celebrated its ninth anniversary with a special program in which many radio stars participated.

Somebody's watch slipped a cog, and two announcers got onto the air at the same time from the same chain last night.

It happened in the broadcast of the Fur Trappers orchestra on WABC and eastern network. At the "station break," when call letters from a different studio are given, a local announcement was due over WABC. It came all

right, but the announcer was not more than a third through, when bang, in came the announcer who introduces the chain part of the program to tell about the next number.

Result: An announcer's duet. Two outstanding numbers will be played by the Howard Barlow symphony orchestra on WABC and network tomorrow night at 9:30. One will be the finale from Beethoven's Symphony No. 7 and the other the overture to Doro-din's opera "Prince Igor." The remainder of the program will be of a varied tone.

The third of the present series of musical programs from London is to be carried by WEAF and stations at 2:45 p. m. It will last 15 minutes and be an orchestral concert.

Mrs. John Wanamaker III, Philadelphia society leader, is announced as guest speaker in the Afternoon Tea on WEAF and network at 5 p. m. She is to talk on "The Importance of Good Looks."

The National Farm and Home hour on WJZ and stations at 12:30 p. m. is to be devoted to a meeting of the Progressive Garden club.

Two speakers will discuss "The Machine and Unemployment" in the Voter's Service on WEAF and network at 7 p. m. One will be Henry Bruere, New York banker, and the other Sam A. Lewisohn, chairman of the board of directors of the American Management association.

Sarah Fischer, Canadian mezzo-soprano, will give her third NBC concert within a short period when she appears with her husband, Herbert Carrick, pianist, on the WJZ chain at 7:15 p. m.

A total of 451,740 motor vehicles were registered in North Carolina on October 1.

### \$35,000 BLAZE, HERMANVILLE

#### Slaughter and Refrigeration Building at Fur Farm Burns

Hermansville, Mich., Feb. 23. (Special)—Forty horse carcasses, a carload of beef hearts and livers, 40 tons of dry bread and 60 cords of wood were destroyed in the fire that razed the slaughter house and refrigerator building of the Hiawatha Fur Farms late Sunday night. The loss is estimated at \$35,000, most of which is covered by insurance.

The fire broke out about 10 p. m., and is believed to have been caused by defective wiring. No other buildings were threatened, but the village was in darkness because of damage to wires.

The two-story frame dwelling was used for the slaughter of horses and other animals used in feeding the foxes. The structure was erected in 1929, and was equipped with a modern ammonia refrigeration plant for preserving the foodstuffs.

The management of the Hiawatha Fur Farms, one of the largest fur raising companies in the world, announced that it would rebuild in the spring. The company recently shipped 3,800 pelts to the fur markets.

#### Lath in Washington Home Is Relic Here

Back in 1885, an Escanaba man visited the home of George Washington, Mount Vernon, which was then undergoing repairs. He thought he would like to have a souvenir of the occasion, so he picked up a hand-made lath and brought it out under his overcoat. Later, when he returned home, the visitor had the lath made into a frame for a picture of the sight-seeing group, taken in front of the historic edifice. The picture, with its rare frame, was displayed in the window of a local store for Washington's birthday. In one end of the lath there is still a hand-made nail such as were used in early construction work.

#### Rheumatic Pains Soon Vanished

"When I started taking Sargol I had such awful pains in my arms, shoulders and back I could

hardly work," declared Edward F. Norton, 1319 33rd St., Milwaukee. "My stomach was out of order; I was bilious and constipated and nothing I ate would agree with me.

"Right after I started taking Sargol I noticed a turn for the better. I can eat anything now; every pain and ache I had is gone and I feel twenty years younger!"

"Sargol Plus overcame my constipation and didn't gripe or sicken in the least."

#### AMUSEMENTS

##### AT THE MICHIGAN

"Viennese Nights," which opens today at the Michigan Theatre, promises to be an event of unusual interest to the motion picture public.

It is the first original screen romance written by those acknowledged masters, Sibmund Romberg and Oscar Hammerstein II, and staged and produced with a lavish hand by Warner Brothers.

Nothing just like "Viennese Nights" has ever before been attempted on the screen. It contains an original symphony played by the Los Angeles Symphony Orchestra of one hundred pieces, and the story is one of the most hauntingly beautiful ever transferred to the talking screen.

Walter Pigeon, Jean Hersholt, Vivienne Segal, Alexander Gray, Alice Day, Louise Fazenda, Bert Roach and June Pursell head the cast of gifted players. The entire picture is photographed in technical color against authentic period backgrounds that for size and detail have never been equalled on the Warner Brothers lot.

The making of "Viennese Nights" interested Hollywood as few productions have ever done. The Michigan Theatre offers it a one of the most unusual treats in picture history.

##### AT THE DELFT

"New Moon," at the Delft Theatre, would be a picture of unusual merit even without the delightful singing of its co-stars, Lawrence Tibbett and Grace Moore, who deliver the song hits of the original stage production as they have never been sung before. For the Metro-Goldwyn-Mayer talkie tells a story of love, intrigue and adventure in colorful Turkestan which never lets up on interest from its spectacular opening on a picturesque Russian steamer, to the exciting concluding sequences in which an attack of Riffs is quelled. Jack Conway, the director, has set a high standard in settings, photography and general treatment of details while work of such supporting members of the cast as Adolphe Menjou, Roland Young, Gus Shy and Emily Fitzroy adds

#### Battle In Logging Camp Investigated; Claim Death Threat

Several employees of the William Cleeman logging camp were questioned yesterday by Sheriff Elmer Swanson in an investigation of a fight alleged to have occurred at the camp Sunday involving Mike Koski, 52, and Adrian Giroux, 50.

Giroux claimed that he was attacked by Koski, who knocked him down with his fists and then kicked him with a box. Koski declared that Giroux swore at him, and that he then struck Giroux. He claimed that the latter went out and got an axe, and hit Koski on the hand.

Fred Supry and Walter Haas, who said they witnessed the fight, stated that Koski had threatened to "kill all the Frenchmen in the camp," and had threatened them.

Giroux was brought to Escanaba for medical attention, suffering from face and body bruises and cuts about the face. Witnesses said that Giroux was knocked unconscious in the melee. Statements were taken from several in the group Monday, and Koski was held, awaiting further developments.

#### Laing Hospital

Helen, the small daughter of Mr. and Mrs. Matt Majestick of Rapid River, submitted to an operation for a ruptured appendix Monday and is as well as can be expected.

Wm. Anderson of Trenary, Mrs. Frank Pfeiffer of Wells, Fred Panneau of this city are convalescing favorably.

Mrs. Edward Hart of Gladstone, who had her tonsils removed, Miss Alla Anderson and Mrs. Alfred Soderman of Gladstone, have been dismissed.

Miss Leah Lavolette, who submitted to an operation is doing nicely.

Mrs. T. Black of Trenary was admitted as a medical patient.

Immeasurably to the sterling quality of this photoplay.

#### OBITUARY

##### MRS. MARGARET CLOUSE WINCHELL

The body of Mrs. Margaret Clouse Winchel was removed Monday forenoon from the Alto Funeral Home to the home of R. H. Clouse at Groos where funeral services will be conducted this afternoon by Rev. Carl S. Ohman of Gladstone, in the absence of Rev. Dr. C. Albert Lund.

Mrs. Clouse has been making her home with her son, W. H. Clouse in this city until eight days ago when she went to the home of her grandson, R. H. Clouse. Mrs. Clouse had formerly lived in Cadillac, Mich., until six months ago when she came to this city.

The pallbearers will be Henry Johnson, Louis Dube, Sidney Lucas, Clifford Croas, Chris Sealander, and Louis Johnson.

The survivors are W. H. Clouse of Escanaba, George Clouse of Pentwater, Mich., Mrs. Lafayette Weatherax, of Cadillac, Mrs. Manly Evans of Alma, Mich., Mrs. William Bentley of Portersville, Cal., and Mrs. Roy Bullard of Cincinnati, Ohio.

Interment will be in Lakeview cemetery.

##### JOHN E. CARLSON

Funeral services for John Edwin Carlson, 415 South Fifteenth street, were held Monday after-

noon at two o'clock at the family home and at two-thirty o'clock at the Bethany Lutheran church, with Rev. Dr. C. Albert Lund, officiating.

Rev. Lund spoke in the English and Swedish language and paid a lovely tribute to the memory of Mr. Carlson who had been a lifelong member of the Lutheran church.

Mrs. Lund sang a solo in Swedish, Mrs. V. F. Anderson and Miss Lydia Olson sang a duet "Jesus Lover of My Soul." Mrs. Anderson played the organ and the chimes.

The pallbearers were Charles Olson, Andrew Peterson, Werner Olson, Gust Anderson, Ernest Olson and Gunnar Nelson.

Out of town relatives included Milton Carlson, Mrs. Thomas Peterson, Chicago; Mrs. Elmer Anderson and daughter, Rose Marie, Iron Mountain, and Mrs. Charles Anderson of Detroit.

The large number of beautiful floral pieces which were received at the family home proved the high esteem in which Mr. Carlson was held by his many friends.

Burial was made in the family lot in Lakeview cemetery.

Miss Betty Nuthall, British tennis star, is becoming an ardent horsewoman.

Automobile polishes exported from the United States this year had a total value of nearly \$400,000.

#### Former Residents Of Escanaba Have A Silver Wedding

Mr. and Mrs. William D. Hill, 707 North Sixth avenue, Iron River, celebrated their silver wedding anniversary at their home Sunday afternoon and evening.

A group of relatives and friends gathered at the home early in the afternoon and played cards. The afternoon's program was opened with a piano selection "Silver Threads Among the Gold," by Miss Eleanor Hill, youngest daughter of the family. Musical selections were given by Mrs. Wm. Hanson and Miss Hill. Reminiscences of 25 years ago by the older members of the party were also enjoyed by the younger folks who were amused at hearing the animated conversation.

Dinner was served at six o'clock at a handsomely appointed table. Twenty five potted tulips in a silver colored flower pot and a mammoth wedding cake, decorated with a horse-shoe and

twenty five pink roses adorned the centre of the table.

Mr. and Mrs. Hill were the recipients of many beautiful and valuable gifts.

Out of town guests included Earl I. Taylor and Miss Adrienne Tounsignant of Escanaba.

Mr. and Mrs. Hill, former residents of Escanaba, were married here at St. Anne's church, Feb. 21, 1906, and have made their home in Iron River for the past twenty-two years. Mrs. Hill was formerly Miss Eugenia Ethier of this city.

Scotch farmers are fighting attempts to import Russian grain.

Olive oil exported from Spain this year weighed over 20,000,000 pounds.

# Insured and Assured

Metropolitan policyholders—including about one-fifth of the total populations of United States and Canada—have built up their reserves from millions into billions.

THE financial story below is a record of achievement by men and women who are planning to avert want or to build estates. You may admire their steadfastness of purpose last year under handicaps which tested courage.

These people—policyholders of the Metropolitan Life Insurance Company—are building for their future. They would like to know what the future holds in store for them and for the country as a whole.

Let them, and other citizens, examine any chart of our country's unparalleled prosperity over the past hundred years. It appears, not merely as a jagged line, but as a series of towering steps which rise steadily onward and upward.

It is heartening now to recall that, after each depression, our country has always gone forward to greater heights of prosperity and better, sounder standards of living. Today this country has more riches and better facilities than ever before with which to commence her next great period of development.

A review of the financial history of the United States since it was founded in 1783 should turn any pessimist into an optimist.

The Metropolitan will gladly mail, free, a booklet, "The Development of Prosperity in America", telling of past ups and downs—and ups again—and how soon the "ups" followed.

Waste

TWO WAYS to bigger incomes from the same fields lies in decreasing costs of tillage and increasing yields per acre.

Both these things "Caterpillar" track-type tractors do by multiplying acres one man and a "Caterpillar" can cover in a day—adding to yields by timely, thorough plowing, tilling, harvest—by subtracting feed bills and lost motion that weather or soil imposes.

"Keep working" every day you need to work says the "Caterpillar" track-type tractor.

The "Caterpillar" Tractor's track is the magic fuel saver, for there's no fuel wasted in slipping. It rides the surface with a sure, broad-footed grip that does not sink in—does not pack the soil. Hundreds of gallons of fuel saved each year by the famous track principle.

PHOTO PORTRAIT OF PENINSULA IS NOW COMPLETED

All last summer, while the weather was sunny, Delta county and the rest of the peninsula posed for a picture, taken from the air by the army air corps, 21st photo section of Scott Field, Ill. The job, now pieced together in one composite photograph, cost \$8,542.33.

Work on the big photo-map, which was made in connection with a government geological survey, was begun May 16 and finished October 20. That is, the actual work of taking aerial photographs ended on that day. Since then, experts have been at work piecing together the negatives and compiling data.

4,092 Negatives Sixty-two rolls of film were exposed and 4,092 negatives were culled from them. Five prints of each negative have been furnished the geological survey. The pictures were taken from an altitude of 14,000 feet. First Lieutenant Willis R. Taylor and Master Sergeant Nicholas G. Loupos did the photographic work and Sergeant Joseph C. McCullough kept their planes in condition. Until July, a service type 02-H was used and then one of the new Fairchild's designed especially for photographic work was turned over to the men. The planes were mounted on floats and flown from inland lakes. Bases were established at Sault Ste. Marie and Blaney.

Because of the proximity of Lakes Superior and Michigan the work often was hampered by adverse weather. During the entire period there were only 12 days when clouds did not complicate the photographer's problems. Something, probably extensive ore deposits, caused both the magnetic and earth inductor compasses to misbehave and in flying the 50-mile strips in which photographs were taken many errors occurred and rephotographing often was necessary.

The map includes 2,826 square miles.

Leslie Nortlund, 15, Dies at Ishpeming

Rock, Mich., Feb. 23 (Special)—Leslie Nortlund, 15 year old son of Mr. and Mrs. Oscar Nortlund, of this vicinity, died last night at the Ishpeming hospital. Death came after a two weeks illness, following an operation for relief from appendicitis.

Leslie was born in Rock, February 3, 1916, and had lived here all his life. Before his illness, he was a student in the eighth grade of the local school, and was popular among his classmates. Besides his parents, he is survived by the following sisters and brothers, all of Rock: Mrs. Ludwig Nyman, Mrs. Nicholas Jylha, Impl. Gladys, Charles, Oliver and Arnold.

MOVING DAY AT PADLOCKED FRATS

It was moving day at the University of Michigan when a cameraman snapped this picture of students vacating one of the five fraternity houses ordered padlocked for eight months by school authorities as the result of liquor raids. These members of Theta Delta Chi don't seem to mind having to seek shelter in rooming houses. A million dollars' worth of mansions will remain unoccupied until next September as a result of the pdict.

U.P. Briefs

Fire Deaths Probed

St. Ignace.—The skulls and vertebrae of two men lying side by side next to a stove in the ashes of a cabin two miles and a half north of here, revealed the deaths of Isaac Payba, 35, of St. Ignace and Jerry Klogima of Cross Village.

E. G. McNamara, prosecuting attorney, said today that investigation revealed that Payba, a member of the local Legion post, who leaves a wife and four children, and Klogima were in the cabin Wednesday night. Mrs. Payba was visiting with friends in St. Ignace.

Trainmen on the D. S. & A. railroad saw the cabin in flames at 11:45 Wednesday night and reported the fire to St. Ignace. Joseph Lavake hurried to the fire, but the cabin was burned to the ground. He discovered the bones of the two men lying by a stove, and reported his findings to Sheriff William McCauley. Mrs. Payba went to the cabin shortly after the flames were discovered.

Poisoned By Meat

Iron Mountain.—Mrs. Alphonse Cell, age 28 years, residing at 423 Thistle avenue, is dead, and her husband and seven-year-old daughter, Anna, are seriously ill in General hospital as the result of what is described as trichina poisoning, caused by eating uncooked pork sausage.

The condition of the father and daughter was regarded as doubtful today, and cannot be definitely determined for perhaps several days, according to Dr. D. R. Smith, who is attending the cases.

The poisoning was slow in developing, and was due to sausage eaten by the Cell family in the course of a party given at their home about five weeks ago. It could not be learned today whether others present at the party have been affected.

Tech Grad Promoted

Houghton.—Word comes from Jerome, Arizona, that Ross D. Leisk, former resident of Houghton and graduate of Michigan Tech., has been promoted to Assistant General Manager of the United Verde Extension Mining company.

Mr. Leisk started his career with this company as an engineer shortly after he returned

from service in France as a veteran of the World War. Beginning at the bottom rung of the ladder, his advancement has been steady and the result of a combination of exceptional ability, coupled with perseverance and loyalty to the interests of his company, which, in recognition of these qualities, has now placed him next in authority to General Manager George Kingdon, widely known throughout the southwest as one of the best mine managers in that section. This new promotion reflects great credit upon Mr. Leisk and his Alma Mater, the Michigan College of Mining and Technology.

Northcliffe Bill Unpaid

Menominee.—Bills for services of two doctors amputating the frozen feet of Joseph Northcliffe and the hospital bill, totalling \$218, were held over by the county board today until their April session. In the meantime, it is expected that Prosecuting Attorney F. Earl Lanthier will have determined if Northcliffe's residence can be established in California and the amputation expenses charged to the young man's home county.

Mr. Lanthier expected to be aided in establishing the California residence by his mother-in-law, whose father is a resident of Coarsegold, Madera county, California. Northcliffe's home. The brother-in-law lives in Los Angeles now but formerly resided in Madera county. California authorities are not eager to concede Northcliffe's residence there and contend that he has not lived there for six years. The young man's mother declares he was home two years ago. He said he was home last summer. It is declared that so long as he has not acquired a residence any place else, he is still a resident of Madera county.

Leaving Ironwood Ironwood.—Stanley F. Bullard, manager of the Davis & Fehr Co. store here for three years, has tendered his resignation and will leave here April 5 to take up duties as general salesman for Marshall Field & Co., in the middle west territory. He was employed by the Chicago firm prior to coming here.

Mr. Bullard came to Ironwood Feb. 17, 1928 to take charge of the Ironwood store. He came to Ironwood from Beatrice, Neb., where he was vice president of the Kiwanis club. During his three years of residence here he has been prominently identified

with civic organizations, notably the Kiwanis club and the Ironwood Commercial association. Last year he served as president of the Kiwanis club and he is now vice president of the Commercial association.

Favorites Advance In Tennis Tourney

Miami Beach, Fla., Feb. 23. (AP)—Favorites had little difficulty advancing in opening play of the Pan-American tennis championships here today as they went through the first and second rounds of singles play.

George Lott, Chicago, leading the seeded stars, turned back Bud Panzer, Cincinnati, 6-0, 6-1, in the second round after drawing a bye in the first.

John Van Ryn, East Orange, N. J., another of the seeded players, experienced little difficulty in disposing of Roy Cassini, Cincinnati, 6-0, 6-2.

Gustavo Vollmer, Cuban champion, heading the list of foreign players, swept over David Fairfield, Miami, 6-0, 6-1.

Manufacturers of New Zealand are changing from steam to electric power.

Fraternal

Hibernian Meeting

The Ancient Order of Hibernians will hold a meeting this evening at 8 o'clock in the Knights of Columbus club rooms. Plans will be made for the observance of St. Patrick's day and it is expected that there will be a large attendance at the meeting.

Jail Dirty—Reindl

Menominee.—In a clash over expenses for which no provision was made in the budget, the conduct of the Menominee county jail for several years past, previous to being taken over by Sheriff Edward Reindl, got an airing before the board of supervisors Thursday afternoon. The supervisors cleaned house on the situation. The jail was declared to have been so filthy that a pair of hoboes refused to sleep in it. Supervisor Walter Brandt, chairman of the committee on sheriff's accounts, declared the jail was so filthy when Sheriff Reindl took office that "you wouldn't have kept your dog in it."

"The beds and mattresses," he declared, "were so lousy they would have walked out of the place but for the bars and locks. There was dirt and filth behind radiators and in corners that had heaped up for six or seven years."

Hoard of Buried Money Returned; Cases Dismissed

Charges against Halvadan Anderson and John Hermanson were dismissed in Justice J. S. Doherty's court when the two men appeared and made full restitution to Mrs. Joseph St. Louis, 513 First avenue south, for money found under her home during the progress of a basement digging job.

According to a statement secured by the sheriff's department, about \$180 was found by workmen at the St. Louis home last August. The money was wrapped in an old Swedish newspaper and some rags, and thrust into a tin can. It was divided among four men, with Anderson and Hermanson each getting a share. The other two involved had previously paid back the sum they kept, and cases against Anderson and Hermanson were dismissed after they made the refund.

"The beds and mattresses," he declared, "were so lousy they would have walked out of the place but for the bars and locks. There was dirt and filth behind radiators and in corners that had heaped up for six or seven years."

Give a Neighbor a Job

Look carefully about your own neighborhood and you will realize that for every person out of a job, there are eight or nine of your friends and neighbors working.

Now, if you eight or nine who are working will only get together and to the extent you can afford it, give that one out of work something to do, you will be contributing the most helpful, constructive service possible toward breaking up unemployment.

For instance, there are plenty of ways, right in your own home, of investing your money in labor and materials, putting in needed improvements, repairs, additions... and doing these things under most favorable circumstances. You are not wasting a penny. You are putting idle money to work profit-

ably, productively, and patriotically—if it is promptly done.

Suppose you talk this over with your employed neighbors and arrange right away to divide between you the labor of a man or two, for however long you can.

Your duty as a citizen

Be active in all community work which is meeting present conditions. Let your Mayor know you are behind him in all organized action providing employment.

Your opportunity as an individual

Make all proper purchases possible. Give employment by starting repairs, painting, etc., which add to the value of your property.

# Parochials Will Play Little Giants Here Today

## RETURN GAME AT COLISEUM

### Both Teams Primed for Battle; Rock Won First Game

In the last game on their schedule, the St. Joseph cagers will lock with the Rock Little Giants at the Coliseum tonight. It will be the second meeting between the teams.

Three Rock teams will perform at the local gym on the same card. In addition to the Little Giants, the Reserves will play the Parochials and the Rock Spartans will oppose the Escanaba Kaysees. This last game will be played after the Rock-St. Joseph varsity game.

Father Gerald last evening would not offer any prediction on the game but he would venture to say that the Parochials are due to click tonight which can be taken to mean that a St. Joseph victory is expected by the St. Joseph mentor.

Rock holds one victory over the Escanabas but the game was won at Rock on a floor which is the exact contrast of the Coliseum gymnasium. This advantage will rest with the Parochials tonight as they are used to playing on the local court and the difference may or may not be sufficient to swing the tide of the battle.

The Reserve teams will meet about 6:30 so that the final game—Kaysee-Spartan tilt—can get into action not later than nine o'clock. The St. Joseph-Rock varsity game will begin about eight o'clock.

Starting lineup for the Parochials will be: Larson at center, Sharkey and Clairmont, guards, McGovern and Hira or Peltier, forwards.

St. Louis will handle the whistle.

### ROCK IS EAGER

Rock, Mich., Feb. 23 (Special)—The Little Giant cagers of Rock high school will wind up their thirteen-game schedule Tuesday night when they travel to Escanaba to meet St. Joseph's team. This is the second of a two-game series between the two schools this year.

Rock having won the first encounter by a 37-26 score. A large crowd of local fans will see the final game of the season.

The locals will be looking for their seventh victory of the season, but their chances of victory are not so bright. In the first meeting, St. Joe forced Rock's hand until the last few minutes of play. It is expected that the big floor at the Coliseum will be enough to overcome the two teams in the first game. Whether Rock's famous reserve strength and last half scoring punch can bring victory, remains to be seen. But, whatever the outcome, fans are assured that the Little Giants will still be in the thick of the fray at the final whistle.

Local fans are interested in this game for several reasons. There has always been intense rivalry between St. Joe and Rock, and, of course, that is a drawing card. The Parochials dropped the lead that they lost the first game, entirely on account of the local floor and that Rock could not expect to win at Escanaba. Local fans are anxious to see if that was an ideal threat. This is the last regularly scheduled game and marks the end of careers of three of Rock's most versatile athletes, namely, Rabin, Kaukola and Johnson. Of course, the tournament remains yet and at least one more game is assured.

And so Rock will be very well represented with fans at Escanaba Tuesday to see what St. Joe can flash on a floor to their liking. Should Rock win, it would be a fitting act before the final curtain of their season.

### Students Selling Tickets for Last Game in Old Gym

The Orange and Black society and the Mortarboard society of the Escanaba high school are conducting a lively ticket selling campaign in an effort to secure a large crowd in attendance at the Gladstone-Escanaba basketball game here next Friday night.

It is not the policy of the Escanaba High School Athletic association to sell tickets to adults in advance, but Principal John A. Lemmer announces that the exception is being made in order to help raise a \$250 deficit and to secure a large crowd for the final game in the present gymnasium. Next season, the games will be played at the new Junior high school building.

### Minnesota Loses To Wildcats, 45-23

Minneapolis, Feb. 23 (AP)—The University of Minnesota basketball team lost its opportunity tonight to tie for first place in the Big Ten conference when it was defeated by Northwestern, 45 to 23.

The Gophers were unable to place their shots and the result was virtually a walkaway for the Wildcats from the start of the contest.

The largest crowd ever assembled in the university field house watched the Gophers go down to defeat. There were 12,182 cash customers.

Bert Riel, speedy forward for Northwestern, was the outstanding star of the game. He accounted for seven field goals and clicked every time he had a chance.

## Class D Tourney Drawings Friday At Hermansville

Hermansville, Mich., Feb. 23. (Special)—Drawings for the Class D high school basketball tournament, which will be held March 5, 6, 7, will be made on Friday at the office of Supt. Hugh MacEachern.

Six teams are entered. They are: Dageit, Stephenson, Powers, Felch, Channing and Hermansville.

## NORTHERN WINS ON ROAD TOUR

### Marquette Cagers Cop Game From Central State, 31-25

Mt. Pleasant, Mich., Feb. 23 (AP)—Northern State Teachers college basketballers from Marquette inaugurated their invasion of the lower peninsula with a 31 to 25 victory over Central State on the local floor tonight.

Zentl and A. Treado of the invaders collaborated with 12 points each to provide the winning margin.

Within a few minutes of half time, Central State was leading, 12 to 6. Then the visitors' goal scoring combination began to click and the half ended with Northern State on the long end of a 13 to 12 score. Never again was Northern headed.

Playing his last home game for Central State, Munson scored 7 points to become high scoring man for his team. He is the only varsity man to be lost by graduation this year.

Northern State will meet Michigan State Normal at Ypsilanti and Western State Normal at Kalamazoo on the present southern tour.

## Norway Wins First Leg of Ski Trophy

Lake Placid Club, N. Y., Feb. 23 (AP)—Norway won the first leg on the Beck international ski trophy here today through the great jumping of Ottar Satre, one of her sons living in Salisbury, Conn. Satre twice broke the old hill record of 187 by jumping 192 and 189 feet to win a first place to add to his third of Saturday in the 15 kilometer cross country race.

Norway also took second place. Ottar's brother Magnus was as good at racing as Ottar as jumping; Ludwig Beck of Germany was third and Rolf Mosen of the United States fourth.

The closest competition came in the class A jumping, however, where the hill record was broken three times and tied once. Roy Mikleson of Chicago won this championship with jumps of 189 and 193 feet. The latter was the best jump of the day. He scored 216.8 points. Second came his brother Strand Mikleson of Greenfield, Mass., 180 and 190 feet and 212.2 points; third was Gas Gaspar Olmosen of Canton, S. D., present national champion, with 187 and 176 feet and 207 points; fourth Rolf Mosen, Lake Placid, 164 and 169 feet and 199.9 points; fifth Erling Enderse, Berlin, N. H., with 162 and 172 feet and 199.1 points; and sixth, Gunnar Oman, Chicago, 169 and 167 feet and 198.8 points.

### Bancroft Fishes As Rain Pours Down

San Antonio Tex., Feb. 23. (AP)—A drizzling rain, a disagreeable day all around, led Dave Bancroft, acting manager of the New York Giants, to go fishing today and call off the first workout of the campaign. The 19 players on hand did spend most of the afternoon fango hitting but that was all the work that was done.

### Brooklyn Dodgers Have Light Session

Clearwater, Fla., Feb. 23. (AP)—Brooklyn's first spring infield, although not ordered to report until next week, strolled the show from the batters' box at the Brooklyn Robins first practice of the year.

While Uncle Wilbert Robinson looked on jubilantly, Del Blanton, Frisco Thompson, Glenn Wright and Wally Gilbert went through a long workout that may bring on sore muscles tomorrow.

## BEVENOCS WIN ANOTHER, 28-23

### Almli Collegians Drop Before Escanaba's Powerful Attack

The Escanaba Bevenocs hauled the Almli Collegians of Ironwood into camp again Sunday afternoon at the Coliseum, 28 to 23, to chalk up their 25th victory of the season. This evening they will play the Crystal Falls Ramblers at Crystal Falls.

The Bevenocs, back home from a week trip, just toyed with the visitors although they never gained their advantage until the second half. Their passing was perfect and they controlled the ball whenever they desired but they failed to connect consistently after they had worked the ball down for short shots. The score at half time was 12-all but in the last half the Bevenocs exerted themselves to take a commanding lead and they drifted in on the long end of the 28 to 23 score without any difficulty.

The Bevenocs will meet the Ramblers tonight in the third game of a four game series scheduled between the teams. Each has won one of the preceding two games. Both games were won by a single point and the rubber game tonight is expected to be a battle royal. The Ramblers are one of the two teams to defeat the Bevenocs this year.

The Gladstone All Stars were defeated by the Ramblers in the preliminary, 23 to 14.

## Swinfield Captures Homestead Purse

New York, Feb. 23. (AP)—Again showing a flash of the form that ranked him near the top of the three-year old division last year, F. A. Carraud's Swinfield won his second consecutive race over the Hialeah park track, accounting for the Homestead purse today.

Although considered a top notcher, the four-year-old son of Swinburne won only one race last year for Walter J. Salmon. Today, however, he stepped the mile and 70 yards in 1:43 4-5, just three-fifths of a second off the track record, to defeat C. V. Whitney's Murky cloud by a length. The Whitney filly beat Eightyear old Sandy from the Rolling Plains stable for the place.

Swinfield carried 120 pounds, but was made the favorite, paying \$4.80 for \$2.

## Pirate Athletes Tribute Dreyfuss

Paso Robles, Cal., Feb. 23. (AP)—This was the first day of spring training for the Pittsburgh Pirate advance squad. It also was a day of mourning. Each player wore a circle of black on his sleeve out of respect to Samuel W. Dreyfuss, vice president and treasurer of the club and son of owner Barney Dreyfuss. Dreyfuss died at Pittsburgh yesterday.

Activities at the camp will be suspended tomorrow when funeral services will be held for the late club official at Pittsburgh.

## Card Batterymen Work In Florida

Bredenton, Fla., Feb. 23. (AP)—The St. Louis Cardinal batterymen held their first workout of the season today. Bunting and fly-snagging kept them busy. Manager Gabby Street concentrated his files on pitcher "Dizzy" Dean.

Sylvester Johnson, Jim Lindsey, Jess Haines, Burchell Grimes and Gush Mancuso were the only batterymen not on hand. Johnson and Lindsey are expected in a day or two. Haines and Grimes are training at Hot Springs. Mancuso has a leave of absence because of illness in his family.

## Mickey Walker Fights Johnny Risko Tonight

BY ALAN J. GOULD (Associated Press Sports Editor) Miami, Fla., Feb. 23 (AP)—Under the same old palms, but with the breezes somewhat less balmy and the customers considerably less agitated, the 1931 outdoor heavyweight fight prelude will be played tomorrow night to the accompaniment of a sockfest between Mickey Walker, the theoretical middleweight champion with big ambitions, and Johnny Risko, the Cleveland plowboy.

Walker, spotting Risko about 25 pounds, will enter the ring for the ten-round feature match a favorite to repeat the victory he scored over Johnny in Detroit.

Schmeling-Stribling As a warning of more serious affairs to come, W. L. (Young) Stribling, the pride of Georgia, and Max Schmeling, the young German holder of the world's heavyweight title, are slated to offer three rounds each of exhibition stuff for the benefit of the customers and as baithook for their championship fight somewhere in the north this June.

These are the main attractions of the show promoted by "P" Stribling, energetic parent of the American heavyweight title challenger.

Unless the prediction of rain is fulfilled and upsets calculations, Promoter Stribling expects the Madison Square Garden arena, on the outskirts of Miami, to be occupied by about 30,000 customers, and the "gate" to reach \$60,000, at prices \$2 to \$5. The advance sale today, Stribling said, passed \$20,000.

If the weather interferes, the show will be set back until Wednesday night. The preliminaries, consisting of five six-rounders, are booked to start at 8 p. m. eastern time, and the main go at 10 o'clock.

Ridicule interference by "New York interests" seeking to have the Walker-Risko card called off, was ridiculed today by Stribling. He denied there was the slightest connection between his organization and the Madison Square Garden corporation, as has been rumored.

Meanwhile, reports persisted, despite emphatic denials by Frank J. Bruen, the promoter, that the Primo Carnera-Jimmy Maloney bout, scheduled March 5 here, would be cancelled. Carnera, still claiming to be affected by a cracked rib, has done no training for a week, but Bruen insisted the big Italian should still have plenty of time to get into condition.

"The fight will go on as scheduled," Bruen declared today. "I know that some interests here and in New York would like to have it abandoned, but the match is made and I have no intention of calling it off. Carnera will be in condition to fight. He and his managers cannot afford to run out now, with a heavyweight title bout in prospect in September with the Stribling-Schmeling winner."

## BOXING

Laredo, Texas, Feb. 23 (AP)—George Godfrey, Philadelphia, negro, knocked out Dick Russell, carded as Ricardo Rosal, in the first round of their scheduled 20-round heavyweight fight here today.

Lansing, Mich., Feb. 23. (AP)—Walter Majesko, 149 1/2, scored a technical knockout over Joe Mosher, 149, South Bend, Ind., when Referee Jack Dempsey stopped the fight in the eighth round of a scheduled ten round bout here tonight. Mosher had taken severe punishment and was showing it when the fight was halted.

Eddie Connors, 123, Lansing, defeated Jimmy Harvey, 122, Lansing, in the eight round semifinal.

In the preliminaries, Ernest Terraine, 123 1/2, Jackson, won on a foul from Erskine Gratto, 123 1/2, Alaska, in the fourth round; Louis Magley, 144 1/2, Holt, drew with Jimmy Kelly, 131, Battle Creek, in four rounds; Joe Panko, 128, Lansing, knocked out, Bob Niles 129 1/2, Alma, in the third round, and Dell Elbright 144 1/2, Lansing, drew with Bill McWilliams, 145, Ithaca, in four rounds.

## Dempsey Speaks at State Vocational School in Lansing

Lansing, Feb. 23 (AP)—Jack Dempsey, former heavyweight champion of the world, gave a recipe for success today to boys who have already made a big mistake along life's road.

The popular fighting idol, here to referee a boxing match, spoke to the boys of the state vocational school.

"Live clean, get all the education possible, be honest, and don't smoke or drink alcoholic liquor until you are 21 years of age. You are here because you made a mistake somewhere in your life. I am not blaming you for this because I realize we all make mistakes and that yours just happened to be a serious one and you were detected. The main thing is, you have learned a lesson and resolve from now on to play square with everybody," the former champion said.

Dempsey spent much of the day calling at the hospitals of the city, comforting patients. The big fellow gathered the tiny tots in the city school for crippled children in his big arms and encouraged them.

The ex-pugilist was a guest of honor this noon at a Commercial Club dinner along with Governor Wilbur M. Brucker. He was also guest to a legislative party tonight.

## Londos Wins Grunt Match in New York

New York, Feb. 23 (AP)—Jim Londos, of Greece, defended his disputed heavyweight wrestling championship before 20,000 wildly yelling fans in Madison Square Garden, throwing Jim McMillen, former University of Illinois football line man, after 49 minutes and 15 seconds of wrestling.

The end came with Londos riding McMillen in midring tugging industriously at the latter's left leg as the former football star pounded the floor with clenched fists.

Londos previously had slammed McMillen to the mat with the so-called airplane spin. The big crowd, all the Garden would hold, paid \$60,000 to see the show.

St. Petersburg, Fla., Feb. 23. (AP)—Joe McCarthy had his first official look at the New York Yankees today as 18 players answered the roll call for the opening practice of the spring training season. "Marzo Joe" called only for limbering exercises but hard work probably will begin no later than tomorrow.

## Johnson Still in Serious Condition

St. Louis, Feb. 23. (AP)—Condition of Ban Johnson, former president of the American League continued serious tonight, Dr. Robert F. Hyland, his attending physician, announced. The former baseball czar has been in a hospital here several weeks. A blood transfusion was performed Thursday.

## ESKYMOS PLAY MOUNTAINEERS

### Away From Home Today; Play Last Game Here Friday Night

The Escanaba Eskymos will travel to Iron Mountain today where they will oppose the Mountaineer cagers in the first of two games scheduled for them this week. Next Friday they will play Gladstone here in a game that will mark the last high school game in the old high school gymnasium.

The boys who will compose the Packmen squad this evening are: Robert and Walter Snyder, Johnson, Anderson, Arnsen, Nygaard, Wicklander, Engstrom and Ballanger.

The Iron Mountain fray will be a tough one for the Escanabas but the game will give the local boys an idea what can be expected at the district tournament at Iron Mountain next week. The Mountaineers are picked by critics as the team that will have to be defeated by any other team to cop the tournament.

A heavy advance ticket sale for the Gladstone game is announced by Principal Lemmer of the Escanaba high school. This is one of the few games that an advance ticket sale has been promoted but it is hoped to have a packed house for the last game at the old gymnasium.

The Eskymos have been prowling along in low gear during most of the season but the combination beginning to work more smoothly now and the Escanaba mentor hopes that the squad can be shifted into high gear for their remaining games.

## COMMUNICATIONS

To the Editor: Have noted with increasing dismay, the bewildering succession of communications which are flooding the sports pages of the Press, of late—namely the local basketball situation.

One wonders what the ultimate result will be if the current antics of the rival powers are permitted to continue unabated.

At the present writing, hostilities have been confined, fortunately enough, to a casual exchange of grenades—supplemented by an occasional homicide; recognized by all as essential in maintaining the morale of the rival organizations, at a high standard. As mere retaliatory gestures these desultory casualties may be dismissed as trivial and lacking in significance.

However, the scathing documents recently published in your columns indicate that events are assuming a tragic aspect and one feels a seething undercurrent beneath it all, presaging things of a grim nature, for the future. One has a foreboding that unless a truce is arrived at shortly, we shall presently have Ludington boulevard flowing with the red blood of patriots, a most alarming prospect and one which should be averted or at least postponed until such time as the impending disposal system has been completed.

With this in mind, and with the further view of anticipating and preventing insurrection and political chaos which follow so inevitably in the wake of civil war, the writer takes the liberty of suggesting to the embattled managements the expediency of presenting their respective claims and allegations to the district court of appeals, or, if need be, to the Hague. Perhaps the best solution of difficulties would come from the latter as this tribunal was organized expressly for arbitration in matters of grave import, only. Failing this, an alternative still remains, that of referring the matter directly to Dr. Stimson, in Washington.

Hand in hand with this tendency to point the accusing finger in all directions, one gathers a marked anxiety on the part of individuals to take unto themselves credit for the origin of amateur basketball in this city.

As a matter of record, the sport may be traced back to its origin in the Boy Scout movement several decades past. The game received its greatest stimuli from the tournaments sponsored and conducted by the Daily Press over a period of several years, the first one having been held in 1926, in the event of any lingering doubt as to the authenticity of this statement, the sceptic has but to stagger up to the file room of the local daily and pore over the archives therein, until such time as his doubts have vanished, a procedure indulged in by the writer.

One is unable to restrain one's profound admiration for the gifted pens of the authors, and likewise unable to comprehend why such profuse literary talents are being employed to attain such unworthy ends. The arrangements and indictments hitherto published, are indubitably, masterpieces of their kind, conforming rigidly to the accepted principles of dramatic structure as promulgated by Sophocles, and embodying through the extensive use of candour, pathos and satire—the precepts of Horace and Juvenal. They must rank as outstanding contributions to contemporary American literature, in the particular field of journalism. Their merit is however confined to their literary value to posterity. As an aid to establishing independent basketball on a friendly and cooperative basis which is the avowed and oft reiterated purpose of both organizations, these vivid and lengthy portrayals of fancied wrongs and injuries, executed, committed, and perpetrated, with due intent and malice aforethought, are of exceedingly dubious worth.

The rival managements can scale the heights from the ridiculous to the sublime by merely abandoning their "holier than thou" policy—and restricting their exuberance and enthusiasm for the game to their own organizations.

Thus may the peace and tranquility of the community be preserved for future generations, and the factionalism of our own day with its attendant bloodshed and strife, averted.

One persists in hoping that some day in an enlightened era, he thought will occur to the gent who preside over the destinies of the rival teams, that the logical place to determine the supremacy of their respective organizations is (contrary to prevailing belief) on the basketball court, and not in the columns of sports pages, as has of late, been the lamentable custom.

In conclusion, let us clasp hands, and with bowed heads unite in singing reverently, the first twenty-three stanzas of our national anthem, "The Peanut Vendor."

GEORGE ST. LOUIS.

TRIBUTES PAID TO FITZGIBBON

Death of Veteran Political Reporter Grieves High State Officials

BY GILBERT T. SHILSON
Detroit, Feb. 23 (AP)—John Fitzgibbon, who has covered political rallies, state government affairs, wars, crimes and hangings for the Detroit News for 49 years, died in St. Mary's hospital today after a three-day illness from influenza. He was 70 years old.

Mr. Fitzgibbon was recognized as the dean of Michigan political writers, having had personal contact with twelve Michigan governors as well as several presidents and presidential candidates. He had covered state and national political conventions since the early eighties.

Lansing, Feb. 23 (AP)—State officials and persons high in political and public life joined today in expressions of regret at the death of John Fitzgibbon, dean of Michigan political reporters. In a legislative resolution and in statements from countless friends he was described as a newspaperman of high ideals whose service has been of inestimable value to the state.

The resolution adopted by the legislature provided for the appointment of a committee to attend the funeral at Flint Thursday morning, introduced by Senator Peter B. Lennon and Rep. Dana H. Hinckley, it said.

Mr. Fitzgibbon was a news reporter whose judgment and honesty were without question. His service has been of untold value to those in official life. The state has lost an able newspaperman and an honest reporter.

Governor Wilbur M. Brucker said: "I feel a personal loss in the sudden death of John Fitzgibbon. I valued his friendship. His intense interest in governmental affairs brought us close together."

John Fitzgibbon's honesty of purpose, his fairness and his qualities of sympathy and friendliness endeared him to the state," said former Governor Fred W. Green. "His death is a distinct loss to his wide circle of acquaintances and to the public I regret his passing extremely."

Justice Louis H. Fead of the supreme bench said: "John Fitzgibbon's articles tied the Michigan of the past to the present. We shall greatly miss him."

"He was a friend of 34 years standing. I have always held him in the highest esteem and sincerely regret his death," said Luren D. Dickinson, lieutenant-governor. Frank D. Fitzgerald, secretary of state; Howard C. Lawrence, state treasurer, and O. B. Fuller, auditor general, all of whom had known Mr. Fitzgibbon many years, spoke highly of his character and work and mourned his demise. Many members of the legislature, who served in sessions years ago, which Mr. Fitzgibbon covered, expressed deep regret.

The death of Mr. Fitzgibbon takes from capitol newspaper circles a mine of sage advice and friendly counsel. He was credited with knowing more men and women in public and political life than any other person. His extraordinary memory of names, places and events and his conversant knowledge of state and legislative history was a source of constant wonder to those who worked with him.

PAYS TRIBUTE

Lansing, Mich., Feb. 23 (AP)—The legislature adopted a resolution of respect for the late Rep. Edward D. Skeels who died at Whitehill Saturday. A committee comprised of Reps. John Dykstra, Kistler and Burbans and Senators Van Eenennaam and Leland were appointed to represent the legislature at the funeral of Mr. Skeels.

J. Hamilton Lewis Is Welcomed Home

Chicago, Feb. 23 (AP)—Manufacture of presidential campaign thunder of Senator-elect James Hamilton Lewis was begun today as friends welcomed him home from the West.

Leaders of Illinois Democracy saluted him, although not yet sworn into the senate, as "presidential timber" and "Illinois' favorite son."

Bronzed by weeks under southern suns and apparently recovered from his throat ailment, the senator-elect answered the greetings of the entire Democratic ward organization here with predictions that Anton J. Cermak, his candidate for mayor, would be nominated tomorrow and elected in April.

He made no reference to a newspaper announcement in Springfield, Ill., Saturday that his name would be placed in the Democratic preferential primary in 1932, although his political aide, William L. O'Connell, was given as authority for the statement.

"The hour calls for a change," Lewis told his attendant partisans. "Chicago is the most mis-governed and worst governed city in the world."

ARKANSAS TOWER MAKES RECORD FOR POSTERITY

(Continued from Page One)

not, in the course of centuries, wear the pyramid down. An amphitheater has been built facing the site. The base of the shaft, of reinforced concrete, is nearly completed, and in the spring Harvey hopes to get busy on the main part.

When finished, the pyramid will be a mixture of steel and concrete, 130 feet high. The base, resting securely on the limestone ledge, is a 40-foot square block 10 feet high. On top of it will be a massive chamber, 32 feet square and 35 feet high. Above this the shaft will taper upward for 85 feet.

A Record for the Ages
At the very top there will be a metal plate with this inscription: "When this can be read, go below and find a record of and the cause of death of a former civilization."

Geologists have assured Harvey that in the course of thousands of years, erosion will have filled this mountain valley with earth. The tip of the pyramid is just calculated to break through the earth deposit, and some day, many ages hence, he thinks some wandering human is apt to pass by, find the tip of the pyramid with its metal plate, and be intrigued thereby.

By that time, Harvey believes, all memory of the present civilization will have vanished from the earth. But people will investigate the metal plate and in time will decipher it. Then they will dig down, uncover the pyramid, and penetrate to its interior chambers, just like archeologists in Egypt recently did at King Tut's tomb.

There, hermetically sealed in glass-covered vacuums, will be books, newspapers, records, photographs and similar things to give mankind of the future a complete picture and history of the United States as it is today. There will be a 300-word book by Harvey himself, outlining the appearance of the forces which, he believes, will eventually cause the downfall of American civilization.

To Warn Future Mankind
Thus, he believes, the people of this future civilization will be able to take warning by the fate of the United States and avoid making the mistakes that we have made.

To make sure that they will get his messages, Harvey will put duplicate copies of all of the records in another room in the pyramid. Everything will be protected against decay and destruction. All the leaves of the books and the newspapers will be sealed in transparent coverings so that the paper will be preserved.

So, by preserving for future

generations his own opinion of American civilization. Harvey plans to get back at the country that refused to listen to him. A generation ago Harvey was one of the best known men in the land. He had been born in 1851 in what later became West Virginia, and he had spent his early life in Cleveland and Chicago, practicing law. He took up the free silver agitation in its infancy and became its foremost advocate, writing a pamphlet called "Coin's Financial School," which had a paid circulation of around 2,000,000 copies.

A Friend of Bryan

When the presidential campaign of 1896 came along Harvey espoused the cause of William Jennings Bryan. Bryan, it is said, was actually converted to the free silver cause by Harvey's writings; and Harvey wrote a novel, "A Tale of Two Nations," in which the hero was modeled after Bryan. For the next four years Harvey was an influential member of the Democratic party.

In 1900, however, it became apparent that the free silver issue was definitely dead. Harvey thereupon dropped out of politics and moved down here to a remote hamlet in the Ozarks. He planned to develop a center here where the leading thinkers of the world could come and rest and think in peace, and he spent a good deal of money on buildings, even building a branch railroad line to make the place accessible to the outside world. This venture collapsed, however, and in recent years Harvey has devoted himself to his pyramid.

He is seeking to perpetuate his own name. He will not leave any mark or inscription on or in the pyramid to show who built it. He will not sign any of the records in the sealed chambers. All he wants to do is point out, for future generations, the seeds of decay that he has observed in the American civilization of today. Greed, he once said, explains it all.

Menominee Defeats Gladstone Debaters

Menominee, Feb. 23 (Special)—Gladstone high school's hitherto unbeaten forensic squad was eliminated from further competition for the upper peninsula debate championship when they were defeated here tonight by Menominee high in the second round of the elimination series. Coach J. C. Eldt's trio was awarded all three points by John A. Lemmer, principal of Escanaba high school, who acted as sole

critic and judge. The Gladstone trio was composed entirely of girls, members of the team being Virginia Goodman, Marie Bredahl and Margaret LaFaver. They were accompanied here by Debate Coach William H. Bainter. Menominee will debate Marquette on or before March 6, for the championship of the upper peninsula and a chance to compete in the lower peninsula for the state title. Cologne Cathedral, a magnificent example of Gothic architecture, was six centuries in the building.

VETO IMPENDS FOR LOAN BILL

(Continued from Page One)

ates valued from \$250 to \$500 were 500,000 veterans who would have a borrowing power of \$77,500,000 or an average of \$137 each.

Already President Hoover has received figures from two widely separated cities. One of them reported 20,000 veterans out of whom 159 were known to be in distress.

Another large city having 140,000 veterans in its population reported there were 1,700 veterans receiving aid from relief organizations.

Vetoes Two Bills
Hoover today sent two veterans measures back to congress with a veto message.

One was designed to allow persons who worked for the quartermaster corps during the Spanish war, Philippine insurrection and the China relief expedition the benefits of hospitalization and soldiers' homes. It was vetoed because "it would commit the government to a policy which, if once embarked upon, could not be justifiably restricted to this selected group of civilians."

President Hoover said this was particularly true at this time when there are on the waiting list 2,440 veterans who are in immediate need of hospitalization and 7,417 in need of treatment.

The second bill would entitle Joseph Marko, discharged from the army in December, 1918, on account of being a neutral alien, to the benefits of the World War adjusted compensation act.

President Hoover said that there were thousands of men discharged under like conditions and that there was no peculiar merit in Marko's case to justify singling him out for relief not extended to all others in the same class.

Asks History Be Compulsory Study

Lansing, Feb. 23 (AP)—A bill which would require the teaching of United States history and civics in high schools and political science in normals and colleges supported by the state was submitted in the house tonight by Rep. Dexter G. Look, of Lowell.

Courses in United States history and civics would be prerequisites to high school diplomas. The bill emphasizes on "the responsibility of citizenship," in the three courses.

Rep. Otis Huff, of Marcellus, offered a bill appropriating \$60,000 for the purchase of a tract of land in Cass county known as the "Newton woods" for a state park.

LORD IRWIN AND GANDHI ACTING IN QUEER DRAMA

halting a conference with his associates.

One of them was a retired Washington banker, another the wife of an Indianapolis newspaperman; one was the wife of a former New York publisher.

They saw the little man, his nose straddled by American hornrimmed spectacles, a straggly mustache relieving the lines of his toothless mouth. They were charmed by his courteous smile, surprised to hear his perfect English.

Without rising or stopping his spinning wheel, he ordered chairs for them.

"I know you can't sit as we do," he said, and waited for the questions he knew would come.

"Would you go to the United States for a million rupees?" one of the visitors asked.

"Not for a hundred million dollars," Gandhi replied, "but I would go for nothing."

"And could you, do you think, clean up America's crime," the banker asked.

"Yes," said Gandhi, "by applying the principles of love, truth, moral suasion and boycott."

"Do you," another asked, "think of yourself as the new Messiah, as some Americans consider you?"

Gandhi smiled again. "I am a humble servant," he said patiently, "an ordinary mortal of the same flesh as you. I have no divine inspiration."

Still smiling, he declined to pose for photographs, but he explained why he will not drink cows' milk, which, he contends, is for calves.

A messenger brought him a letter which later he disclosed was the viceroys' invitation to a conference. He opened it as though it were a circular, passed it to one of his group and went on spinning. For him there was no surprise that his "dear friend" should summon him.

OUT OUR WAY

By Williams

Cartoon showing a man and woman talking. The man says: 'LOOK THERE, MA - THEY GAVE ME A RAISE AND I'M MAKIN' MORE THAN DAD, NOW. THINK OF IT - JUST A KID YET, AND I'M MAKIN' MORE MONEY THAN MY FATHER EVER MADE.' The woman replies: 'WELL, LOOK AT ME - A GIRL - AND I'M MAKING ALMOST AS MUCH AS PA.' The man says: 'SHHH GOOD HEAVENS! DON'T DO THAT! WHO WAS IT WORKED TO PAY FOR YOUR EDUCATIONS, SO YOU COULD DO IT? WHY, YOU OWE EVERYTHING TO YOUR FATHER.'
