

OUTDOOR LIFE SHOW SUCCESS

Many Upper Peninsula Residents Attend Annual Event

A number of Upper Peninsula people have returned from Chicago, where they attended the ninth annual Outdoor Life and Motor Boat exposition held in the Chicago Coliseum during the week of May 4.

Manager Milo M. Westbrooke stated that the total attendance was over 200,000, or slightly less than that of a year ago.

With the Detroit shows attendance exceeding that of last year's, and with Chicago almost reaching last year's mark, the indications for a good summer tourist business in the Upper Peninsula are plainly encouraging," said George E. Bishop of Marquette, secretary of the Upper Peninsula Development bureau, whose booth was well patronized at the show. "The interest at Chicago was very keen, and the prospects are that Chigoans will visit the district in numbers equal to or greater than those of 1930."

Other people who were busy answering inquiries or distributing literature in the Upper Peninsula booth included Harry Mertins and Miss Evelyn Mertins of Iron River; C. L. Heckathorn of Munising; Mr. and Mrs. F. H. Heath of Marquette; Miss Alice Woodends of Pointe aux Pines, Bois Blanc Island; Charles Tesseman of Norway; W. J. Cummings of Sault Ste. Marie; A. W. Blom of Menominee; G. Harold Earle of Hermansville; Mrs. Matt Farmer of Rock Harbor, Isle Royale; Manager H. F. Elford of Blaney Park; the Misses Evelyn and Ruth O'Brien of Chicago; Miss Helen Woodworth of Marquette; and Charles Ahonen of Ironwood.

Inquiries regarding Isle Royale and how to get there were particularly numerous at the Chicago show. In addition to the distribution of large supplies of literature by the Upper Peninsula Development bureau, many local communities were represented with special tourist advertising, including St. Ignace, Les Cheneaux Islands, Iron River, Manistique, Eagle River, Au Train, Blaney Park, Houghton, Ironwood, Ontonagon, Marquette, Republic, Mackinac Island, Sault Ste. Marie, Mich., Sault Ste. Marie, Ontario, Grand Marais, Newberry, L'Anse, Norway, Grand Marais, Escanaba, Menominee and Munising.

ALBERT J. FONTAINE
Green Bay—Albert J. Fontaine, 60, vice mayor, and the oldest member of the city council in point of service, died Wednesday at his home, 414 S. Jefferson St., following a heart attack.

Mr. Fontaine was born in Green Bay, Nov. 24, 1871, and spent his entire life here. He entered the city council in 1898 the candidate of the business men of the Third ward, which then included the territory along the western end of Main street. He served for twelve years, retiring voluntarily in 1910. When the present form of city government came into being in April 1927, he entered the council as representative of the Third ward again, although from a different section of the city, the

wards having been changed in the mean time.

He is survived by his widow, a son, Cyril, Milwaukee, and a daughter, Frances, at home. He also is survived by a brother, Atty. A. B. Fontaine, and one sister, Mrs. Octave Marten. He was a member of the Green Bay Elks' lodge ever since it was founded, and was also a member of the Holy Name society of St. John's church.

Funeral services have not been definitely set, but probably will be held Saturday morning.

JULIUS JOHNSON
The body of Julius Johnson, prominent Stonington farmer, will remain at the Anderson funeral home until Monday when it will be taken direct to the Lutheran church at Stonington where Rev. Dr. C. Albert Lund of this city will conduct services at two o'clock. Oscar Lund of Whitefish will assist at the services.

Mr. Johnson had been active in all church work in the village of Stonington. He taught the Sunday School classes for many years, had been trustee of the church and had taken part in all church activities since his arrival there many years ago.

Interment will be in Stonington cemetery.

Log Cabin Features Outdoor Life Show
A feature of the recent National Outdoor Life exposition in Chicago was a miniature log cabin constructed and exhibited by Charles Ahonen of Ironwood, an Upper Peninsula expert in rustic cabin building. The cabin was on view in the booth of the Upper Peninsula Development bureau and it attracted much attention.

The cabin was built without nails in walls, floor or roof, and it is an exact replica of the larger cabins made by Mr. Ahonen for those who desire a log summer home de luxe. It reproduces in every detail the log homes of Finland in the year 1500. Many Chicago people were interested and it is likely that a number of orders will be placed with Mr. Ahonen for building this year.

City Council Will Hold Meet Tonight
An adjourned meeting of the Escanaba city council will be held at 7:30 o'clock this evening at the city hall.

The sewage plant project and other matters will be discussed. The city administration is desirous of getting the construction work on the sewage system started as soon as possible as an aid to the unemployed, and means of hastening the preliminary plans will be studied.

THE TRAINING CAMPS

On May 15, 1917, sixteen camps for the training of officers were opened in various parts of the United States, the numbers of trainees in attendance being 40,000.

The camps were scattered throughout the country so as to afford the opportunity of entrance and training with the least inconvenience and expense of travel.

These camps were organized and conducted under the supervision of department commanders; applicants were required to state the qualifications and a rough apportionment was attempted among the candidates to the several states.

At the conclusion of the camp, 27,341 officers were commissioned and directed to report at the places selected for the training of the new army. By this process the national army need for officers was satisfied and the roster of the regular army filled.

WOULDN'T Tommy believe, now that she'd got a contract to sing at the broadcasting station where Irene had hoped to trill her soprano notes, that she had robbed her sister of her chance?

She was more disappointed in having her satisfaction with the day's events lessened than she cared to own. She couldn't take the possibility that Tommy might misjudge her. But it did seem that something in life ought to be perfect. And if she couldn't be blindly, joyously elated at this time.

When it was all over Irene was upstairs declaring she wouldn't stand for it. She'd leave home if her mother allowed Beryl to make a laughing stock out of her like that. Everyone knew she'd had a voice test and hadn't got anything out of it.

At the request of the United States Public Health Service, Dr. H. Hazen prepared a brief statement for dissemination to the public concerning care of the hair and scalp.

The hair should be washed often enough to keep it clean—that means for short hair, at least once in two weeks and for long hair once in three weeks.

One of the difficult problems of modern life is the attempt to keep gray hair from visibility. Employers hesitate to select gray-haired men or women for fear that they may be too old for the occupation.

Both religious leaders and criminologists agree that the break-up or impairment of the home is one of the primary sources of criminal careers. The entrance of organized recreation to the home is through the medium of advisory service to families in suggesting equipment for the back yard.

Public recreation also contributes to crime prevention in providing sympathetic and dynamic leadership by trained men and women to boys and girls during hours and under conditions when they are most susceptible to influence.

Sings at 700 Funerals Just Because He Likes It

Barnesville, O.—Chalk up Wilber Hillis, local banker, as the holder of the world's most unique record. Hillis has sung at more than 700 funerals during his 35 years as member of the Presbyterian choir just because he likes to sing at funerals. Millions have been laid to rest to the banker's vocal music and beggars have received last rites at potter's field to the strains of hymns sung by Hillis. He has never accepted pay for it.

DEPRESSION AT BOTTOM—AYERS Industrial Report Shows Gradual Increase in Production

Cleveland, O., May 15 (AP)—"It is probably true," says Col. Leonard P. Ayres, of the Cleveland Trust company, in his monthly review of business conditions, "that in so far as industrial production is concerned the reaching of the bottom of this depression has already ceased to be a matter for prophecy and has become one of history."

"The figures of the federal reserve board," he continued, "probably furnish the most accurate available measurements of the physical volume of industrial output in this country. They tell us that if we consider the average national production of industrial goods during the three years of 1923, 1924 and 1925 as being equal to 100, the output rose to 216 in June 1929, and then started on the long decline that carried it down to 82 by last December. That was a fall of 35 per cent."

"Since last December industrial production has been increasing, and by March it had advanced six points to 85. It seems quite unlikely that it will return to its December low point, and we are probably justified in concluding that business has reached the bottom of the depression and is now bumping along there."

"Prosperity varies with production," Col. Ayres continued. "Two years ago both were high, and now both are low. Even without referring to any statistical evidence we may all carry the statement further, and say that both prosperity and production in this country were at levels well above normal two years ago, and that they are seriously below normal now."

Crippled Children Clinic On June 12

Newberry, May 15 (Special)—June 12 has been set as the date for the crippled children's clinic which will be held in the community building with Dr. William E. Blodgett as clinician. Dr. Blodgett has done nearly all of the work for the crippled children of Luce county and looks upon this group as his special charges. The organization of the project is in charge of Margaret Shilson, county nurse, and will be done on cooperation with the members of the Luce county health organization. Plans for this were made at the meeting of the society on Tuesday in the nurse's office.

Dr. Jay Shumaker, dentist for the Michigan Children's Fund, will have an assistant for his office work, it was decided. Miss Alma Kline was tendered the position, to start work on June 1, her salary to be paid by the organization.

Plans for the paper sale in connection with the opening and dedication of the Children's Clinic in Marquette were also discussed. Mrs. Victor Berglund, chairman of that committee, reported the

conference which her committee held with Miss Elba Morse, upper peninsula supervisor of the Fund nurses. Miss Morse will again be in Newberry today and another conference will be held with her. The plan calls for the sale of the memorial copies of a Marquette newspaper by local persons, the money taken in all to be used for fund work in the county.

TWO DUALS ON CARD FOR WEEK

Tracksters Stop Off on Way Back to Meet Menominee

With two tough dual meets on their hands in as many days, the Escanaba high school track squad will face a difficult part of their schedule today and tomorrow.

The Eskymos opened their schedule last Saturday by nipping Marinette, 57 to 56, in a dual meeting.

Little is known of the Lawrence freshmen but a fair indication of what the Eskymos can do was given against Marinette.

The quarter-milers, half milers and milers will not compete in both events but part of the squad will face Lawrence and the other part will meet Menominee.

The men selected to compete at Appleton: 100—Hanley, Hebert, Ballargeon.

TWENTY GRAND LOOKS FLASHY

Ace of Greentree Crop Ranks With Favorites For Kentucky Derby

BY ALAN J. GOULD (Associated Press Sports Editor) Louisville, Ky., May 14 (AP)—Over a track still heavy from days of rain, but drying fast under the first warm sun of the week, Twenty Grand gave the advance guard at Churchill Downs today a good show of the finishing speed that has made this ace of the Greentree stable an outstanding favorite to win the fifty-seventh running of the Kentucky Derby on Saturday.

It was the way Twenty Grand galloped, as much as the time of 1:57 for a workout of a mile and an eighth, that impressed the critics and heartened those who have backed the stable entry, owned by Mrs. Payne Whitney, to the favored position of 5 to 2 in the wagering.

Impressive Workout Faced by Anchors Aweigh, Man O'War colt and stablemate, Twenty Grand gave the most impressive workout by any one of the half dozen Derby contenders in their last public time trials before the \$50,000 classic. Surf Board, third of the probable Greentree starters, went the mile and an eighth in 1:58.

West Has Hopes Since not even hard times can keep Kentuckians away from Louisville on Derby day, upwards of 50,000 are expected to witness a race that most of the critics expect to add a sensational chapter to the classic's history.

Despite the strong hand of the east, with the Greentree stable entrant, Mate and C. V. Whitney's Equipse as the first three choices in the betting, the west has hopes of springing a surprise. If Inisco doesn't come through, the belief is that Thomas E. Mueller's Pittsburgher, the "big train," may upset the eastern favorites.
