RENOMINATION OF HOOVER IS SEEN BY FESS

YOUNG REPUBLICANS HOLD MEETING AT CAPITAL

Washington, June 11 (AP)—Calls for the reelection of President Hoover were voiced today by the administration leaders before the conference of young Republicans.

Senator Fess, chairman of the Republican national committee, opened the Hoover campaign with a prediction of his unanimous renomination.

Lucas, who presided, also called on some of the members of the conference. They, in brief speeches, urged party loyalty and activity and in some instances pledged support to the renomination of Mr. Hoover.

Centered on tariff Attention of the conference also was centered on the protective tariff which Senator Fess, and Edgar Snyder, assistant secretary of labor, said was vital for the maintenance of the American standard of living.

Mrs. Edward Everett Gann, sister of Vice President Curtis, endorsed the policies of the president in combatting the depression. She said "there never was a time it was more important to keep a Republican at the head of the government."

Departing from a prepared address, Senator Fess said: "When the American people realize the service of President Hoover to will not only be unanimously renominated but overwhelmingly reelected."

Previously he had criticized party insurgency, declaring it to be a force without responsibility and destructive of party welfare.

Postmaster General Brown spoke of the president as "one whose courage, patience, patriotism and wisdom has made us all proud."

Ford Starts Farm In Lower Michigan To Show Methods

Detroit, June 11 (AP)—The Detroit News said today that Henry Ford has started a large-scale experimental farming project in Lenawee county in Southeast Michigan in an effort to demonstrate improved agricultural methods to farmers.

The newspaper said that the farm is composed of a large group of farms in Macon township in the county and that the work of laying out the farm and clearing the land has already started. Old farmhouses and other buildings on the property are being preserved.

Mr. Ford, the newspaper said, is personally supervising the work. He was quoted as saying that "the farmer ought to work more closely with the manufacturer. The two ought to use nearly the same methods and ought to help each other."

GREAT BRITISH CRISIS LOOMS, PARTIES SPLIT

MACDONALD CABINET THREATENED BY NEW REVOLT

BY PHILIP H. MYRING (Copyright, 1931, by the Associated Press) London, June 11 (AP)—A great British political crisis loomed steadily tonight with the threat of a split between Laborites and Liberals which may determine the fate of the MacDonald government in next week's debate on the land-tax bill.

David Lloyd George, Liberal leader, in a speech at Edinburgh today set forth the critical nature of a situation that, although confused in detail, is increasingly threatening to the MacDonald government.

The contention is over the government's finance bill, with its provision two years hence for a tax of a penny a pound on the capital value of land. The proposal was first welcomed in principle by Lloyd George and the majority of his Liberal leaders, but they later decided to move for an amendment under which certain sections of land-tax payers should have compensatory relief in the form of income tax reduction.

Try to Avert Crisis Lloyd George made it clear today he stands firmly by the "substance" of the amendment and if he carries the bulk of Liberals with him, as now seems more than likely, the government will be defeated Tuesday night.

The feeling among political observers was that such a defeat would mean the dissolution of parliament and a general election. This would not entail the resignation of the government, for re-election would imply Prime Minister Ramsay MacDonald's advising King George to ask Stanley Baldwin Conservative leader, to form an alternative government.

Liberals and Laborites alike are making every effort to avert a crisis. The belief is that MacDonald would go far to meet the views of Lloyd George but is prevented by Philip Snowden, who is unwilling to make the slightest concession. A possible way out would be for the prime minister to throw his chancellor of the exchequer overboard, but this is believed to be most unlikely.

CREMATION OF BODY STOPPED

Further Investigation Into Death of New York Girl Sought New York, June 11.—While a Nassau county grand jury was preparing to inquire into the death of Starr Faithfull, District Attorney Elv E. Edwards late today ordered a stay in the cremation of the body of the 25 year old beauty.

Edwards halted the proceedings just as the body was to be sent to the crematory. He said he had one more witness whom he wanted to identify the victim. He expected the identification to shed light on Miss Faithfull's movements prior to her death some time after she disappeared from her New York home last Friday. The body was found on Long Beach, Long Island, Monday.

He said the witness had seen the girl "at a time and place important to the investigation." The shift in cremation plans was preceded by Edwards' statement that the information at hand concerning the girl's death would be handled, with a jury tomorrow. Spreads to England. Toby, Pet Fish, Caught And Eaten by Hoover's Party; Dispute Follows Washington, June 11 (AP)—Tall tales about Toby, the pet fish of the Rapidan, have now become part of the president's official family. Hugh Gibson, ambassador to Belgium, caught it, and it was eaten at the president's own table the night of June 5.

Toby was a big rainbow trout and was widely reputed to be the particular pet of Peggy Ann, the president's pretty granddaughter. Gibson did not know this and hooked it. Immediately he became involved in a diplomatic correspondence.

Assistant Secretary Jahncke, much upset, reported the matter to Ambassador Dawes, saying Captain Joel T. Boone had made an official inspection of the fish and identified it immediately "as though it were an old acquaintance." "The assistant secretary of the navy's only interest in the incident—or rather accident—is that he was almost compelled, without knowing it, to consume the fish," Jahncke wrote Dawes, "and he objects to eating any kind of trained animal, particularly one of Peggy Ann's pets."

SECOND CITY CLERK ADMITS TAKING FUNDS

DETROIT OFFICIALS INVESTIGATE FOR MORE FRAUDS Detroit, June 11 (AP)—Detroit's public welfare scandal tonight had involved a second city employee who confessed stealing \$776 by methods similar to those employed in the spectacular fraud revealed Tuesday.

The second thief was confessed to Prosecutor Harry S. Toy by Charles J. McCormick, a fellow worker of Alex F. Lewis, who confessed stealing \$207,000 on grocery orders cashed by a fictitious firm which he had organized.

Lots of Others In his cell at police headquarters tonight Lewis intimated that others had been diverting portions of the \$1,500,000 the city has been spending each month for Dole.

"If the police will put up on a thorough investigation they will find plenty more frauds," he said. "There are lots of others who were doing the same thing I was." Although McCormick's methods were almost identical with those of Lewis, the former denied he had worked with Lewis or had known of his defalcations. He admitted that he had been entertained by Lewis on the speedboat which the latter purchased with some of the stolen funds.

POPE PREPARES REPLY TO NOTE

Italian Government Believes Accord Can Be Reached

Rome, June 11. (AP)—The Vatican's reply to the Italian government's note was in preparation today, as the holy see reassessed its right to control over the Catholic action society.

Observations Romano, the news paper through which the Vatican makes public announcements, declared that powers of general supervision over Catholic action remain with the Vatican and "The Holy Father in Person."

This declaration apparently was made to quiet reports that, because of the opposition of the Italian government, the Vatican had fundamentally changed its attitude in regard to the relationship between itself and Catholic action.

A New Incident.

The situation so far as the controversy between the Holy See and the government was this: In Italian quarters there was reasonable optimism that an accord would be reached; at the Vatican a more grave view was expressed.

An incident today, wholly within the church organization but bearing on the controversy, was reported to have caused the Pope considerable displeasure.

Bishop Luigi Cozzio of Loreto apparently was a victim of mistaken interpretation of the Pope's recent order that Catholic action was under the direction of the bishops. Believing this to mean that he had full charge of this work in his diocese, the bishop dissolved all Catholic associations—thus going farther than the government in regard to the organization.

Under the papal policy toward Catholic action announced in Osservatore Romano, diocesan bishops have more direct charge of branches of the society than in the past, but the general supervision remains with the Vatican.

Tammany Hall Set To Strengthen Unit

Political writers said three veteran Democratic leaders in Manhattan were facing hard fights in the September primaries, and Tammany was already getting ready to extend support to their sectors.

The Sun said that Tammany "is putting its internal affairs in order with the firm purpose of holding its ground against all attacks."

Three district contests challenge the leadership of Harry C. Perry in the second district on the lower east side; Andrew B. Keating in the thirteenth, near Columbia university; and John Mara, in the 23rd, the upper tip of Manhattan.

Aged Woman Found Guilty of Murder

Macon, Ga., June 11. (AP)—For the second time within two years, Mrs. Sarah Elizabeth Powers, aged rooming-house keeper, was convicted of first degree murder here today for the death of a youthful orphan who authorities contend was slain in a plot to collect \$14,000 insurance on his life.

In returning the verdict, the jury recommended mercy and thereby saved the 74-year-old woman from death in the electric chair to which she was sentenced at the first trial, the verdict later being reversed on appeal. Georgia law provides that a recommendation for mercy in a first degree murder verdict automatically fixes the punishment at life imprisonment. Judge H. A. Mathews immediately passed sentence upon her.

far they have recovered about \$134,000 in cash, securities and personal property. It was hoped tonight that another \$20,000 might be found.

McCormick confessed as soon as he was confronted with forged grocery orders which had been found by investigators. He told them that he had made out the orders to a fictitious firm known as "The Sunbrite Company" and had drawn the money under another name at the treasurer's office. Lewis had created the fictitious firm of "E. W. Rents Company" for similar purposes.

Under Suspicion.

McCormick said that while he was a friend of Lewis he had not worked with him. He denied he had known of Lewis' defalcations and said he had taken the chance himself because it looked "so easy."

The police did find one member of the welfare office's staff who had suspected Lewis. This person was Miss Sarah Epstein, an auditing clerk. She said she had become suspicious at the large sums credited to the Rents company and had made a futile attempt to look up that company. She said she had said nothing to her superiors because she understood Lewis was politically powerful.

Search warrants were obtained today to open all known and unknown safety deposit boxes wherein Lewis may have hidden some of the money. When detectives examined Lewis' personal effects at the home of his sister they discovered that he was listed as a deputy sheriff of Wayne county and had been issued badge number 445. Lewis, it was learned, had been appointed a deputy by Chief Deputy Archie R. Fraser.

China's Minister to United States Quits

Washington, June 11.—Unwilling to take a step that might imperil his home people of Canton in their growing strife with the Nanking government, Chao-Chu Wu has resigned as China's envoy to the United States.

Long out of sympathy with the policies of the Nanking regime under Chiang Kai-Shek, the breaking point was reached when he was instructed to seek an export permit for munitions which he feared might be used against the Cantonese.

He submitted his resignation yesterday. It became effective today and he took his leave of President Hoover and Secretary Stimson. Toward the end of the month he plans to sail for Canton, the birthplace also of his father, who, like himself, served as minister from China to America.

Proclamation for Flag Day Issued By Gov. Brucker

Lansing, Mich., June 11. (AP)—Governor Brucker's office issued the following Flag Day proclamation by the executive today:

"Almost coincident with the creation of our republic, it was ordained that its flag should consist of thirteen alternating red and white stripes with thirteen white stars in a blue field. From the moment of its adoption, the American flag has been inextricably bound up with all of the glory and all of the tradition of the republic for which it stands—truly 'one nation indivisible, with liberty and justice for all.'"

"To this end, therefore, and because the fourteenth day of June of this year falls on Sunday, I do, by virtue of the authority vested in me as governor, proclaim Monday, June 15, 1931, as Flag Day. I call upon my fellow citizens to pause on that day to re-pledge allegiance to the Stars and Stripes; to display the flag conspicuously and to conduct such exercises in schools, churches and other public places as will serve to re-dedicate our hearts to eternal homage to the flag."

LINDY AND ANNE PLANNING TRIP

Four Routes Considered for Prospective Trip to the Orient

BY JOHN F. CHESTER

Washington, June 11. (AP)—Colonel Charles A. Lindbergh disclosed today he might fly over one of three oceans—the Atlantic, the Pacific or the Arctic—in his aerial journey to the Orient.

After a day of conferences here with officials of several nations, the flying colonel said he and Mrs. Lindbergh now were considering four routes for the forthcoming trip, with the final decision to rest upon the practicability of establishing fuel bases.

One would lie to the east, in part over the Atlantic to Greenland, then far north to Spitzbergen, and Spitzbergen, and across barren Siberian lands to Japan.

Another would carry the couple north to the Hudson bay, westward across sparsely inhabited Canadian territory to the northern coast of Alaska and then over part of the Arctic ocean to Siberia.

A third possibility, Lindbergh said, would be along the far-flung chain of the Aleutian Islands, stretching across the North Pacific—then over Siberia to Japan.

The fourth route in which he was interested, he added, lies across part of Alaska and over the comparatively narrow Bering Strait to Siberia.

Asked if he had obtained permission from the Soviet government to fly over its territory—much of which is involved in all four routes—Lindbergh replied: "I would rather not comment on that. You can appreciate that information of that sort should come from representatives of the countries concerned."

RAIL LEADERS VOTE TO SEEK RATE ADVANCE

phases the present plight of the railroads and will ask for the increase to permit them to restore their credit and to improve their service. Expenses have been reduced to a minimum already and it is not possible to reduce them further and maintain efficient operations, the petition will say.

The 15 per cent increase would apply to all freight rates and charges except those enjoying differentials. Such rates would be increased but the existing differentials would be preserved.

Railroad officials consider this an important element in the present situation and they hope to have the higher rates in force as soon after September 30 as possible. Consequently the petition will ask for a blanket increase of 15 per cent and will ask the state and interstate commerce commissions to act as expeditiously as possible and without suspension.

The bodies of Emilio Cortes Rubio and Manuel Garcia Gomez, the former also a cousin of the Mexican president, were given into the care of their countrymen after last respects had been paid by officials and citizens of the United States.

"I assure you that there was no responsive gleam in the eye of the fish when Dr. Boone was supposed to have recognized him."

Gibson charged that Jahncek was motivated by fear that further naval negotiations might "negotiate him out of a job" and that for that reason he was seeking to destroy the good name of the ambassador to Belgium, who often takes part in naval conferences.

To safeguard his character, Gibson wrote to Jahncek that he was sending copies of the correspondence to the president of the United States and anybody else I can think of."

Gibson said the attack on his "piscatorial character" had been inspired by jealousy on the part of Jahncek who was envious of his "superlative skill in fishing."

fragments of the life and experiences of Miss Faithfull.

Edwards, convinced the girl was slain by drowning, said the diary strengthened his theory.

"The politician mentioned since the investigation started is not out of the picture by any means," he said. "We have evidence he had a motive for wishing her out of the way."

Several prominent persons would have been "happier if the girl were dead," the district attorney said.

The investigation also spread to England. Scotland Yard was requested by cable to ask Dr. G. Jameson Carr, surgeon of the liner Franconia, about his acquaintance with the girl. It was made clear he was not under suspicion.

SEVERAL COURT CASES FINISHED

Jury Convicts Gregware; Two Change Pleas To Guilty

Two jury hearings, and two other cases listed for jury trials were disposed of on the criminal calendar in Delta county circuit court Thursday.

Charles Gregware of Fairport was found guilty by jury of neglecting and refusing to support his wife and child. Members of the jury were: Philip S. Ole Bromstrom, of Bark River, charged with disorderly conduct, third offense, appeared in court Thursday morning to change his plea from not guilty to guilty. The change was accepted, and Bromstrom will come up for sentence Saturday morning. Attorney C. E. Lewis had been named by the court to represent Bromstrom in his trial. Another plea of not guilty was withdrawn in the case of Douglas Schaefer, charged with non-support. He pleaded guilty Thursday and is awaiting sentence.

EXHIBIT AT FAIR

LIKE THE merchant and everyone else, the farmer is feeling the ill effects of the so-called economic depression. Unemployment has resulted in a decrease in buying power and incidentally a reduction in the consumption of the farmer's products.

SAFER DRIVING

THE pedestrian, apparently, is learning how to take care of himself in traffic much better than the motorist is. The National Safety Council has just reported that while more than half of the persons killed in automobile accidents are pedestrians, deaths among drivers are increasing at a far more rapid rate.

Prizes Total \$245 for Marquette Show, October 20-22

Announcement has been made of the rules and regulations governing the Premier Grower Contest to be judged at the Upper Peninsula Potato Show, to be held at Marquette, October 20, 21, 22, by D. L. Clannahan, manager of the show.

The contest was the feature of last year's show, and this year more money has been made available for this contest. The following prizes are offered this year:

First \$50
Second 45
Third 30
Fourth 20
Next nine 10

The Upper Peninsula Potato Association wishes to encourage the growing of high quality potatoes at a low cost per bushel, and for that reason is sponsoring this contest. The contest will be judged on the following points:

Yield per acre 300 points
Quality of crop 300 points
Cost of production 50 points
Ability to grade 75 points
Ability to exhibit 125 points

Each grower is required to have three or more acres of potatoes, keep a record of the time used, and all costs in producing his crop. Last year Victor Soderman of Crystal won the contest with a yield of 346 bushels to the acre and at a cost of 46 cents per bushel.

Farmers wishing to enter this contest should write or see their county agricultural agent.

M25 IN FINE SHAPE

Supervisor Ostrander, of Burt township, who was in the city this week announced that M25, detour, running from Van Meer to Grand Marais is in good condition for auto travel. About \$1,000 was expended on this road last year, as appropriation from the county. About \$2,000 more will be expended thereon. This is a delightful drive in summer as the highway runs through miles of beautiful forest and it is also much shorter between Grand Marais and Munising than by way of Soney.

49 GRADUATE ON WEDNESDAY

Dr. Whitehouse Gives Splendid Message To Graduates

Forty-nine members of the senior class climaxed their high school careers Wednesday evening at beautiful and impressive commencement exercises which were featured by the address of William Whitcomb Whitehouse, Ph. D., dean of Albion college, and a short talk by Governor Wilbur M. Brucker. The presentation of diplomas was made by Thomas H. Bolitho, member of the board of education. Music was furnished by the high school orchestra which played the professional and recreational marches and by the boys' glee club.

Pointing out the necessity of ideals in his subject, "Challenge To Youth," Dr. Whitehouse advocated the building of ideals as a center around which loyalties may be organized.

"Graduation from high school means more today than ever before," he declared in outlining a formula for achievement and success, stating that life's greatest thrill is achievement.

Dr. Whitehouse urged expansive reach; in the midst of many petty things to build a stately life; and spoke of the value of independent decision. "In this day of hard thinking we need keen judgement."

The graduates were challenged to face the problems of our day even though it meant minority action. Eugenics, industrial problems, crime and war, were spoken of as fields of adventure. The efficiency of the local schools were commended by Dr. Whitehouse.

Home and Garden Contest Numbers 81 Contestants

With the final closing of the Better Homes and Garden contest last Wednesday, Walter M. Moon, chairman-in charge of the campaign, announces a total of 81 entrants who will compete for 31 prizes. Entrants in class 5, in which there are only three, will all be assured of winning awards.

Walter Moon announces that under no conditions will any more entrants be received in the contest. "The time to enter this contest was last fall when perennials should have been planted or this spring the time for the planting of evergreens. The contest was not organized as a money making proposition, but is simply to serve as an inducement for greater efforts being made in the beautification of homes and gardens," he declared.

Six entries have been received on property valued at over \$3,000. All of these have been thrown out, but will be eligible for the grand championship prize of \$50 in merchandise. All homes in the city are eligible for the grand championship prize even though they were not formally entered in the contest.

Mr. Moon plans on photographing the home winning the grand championship prize from four different angles and entering it next year in national competition.

INSPIRING TALK GIVEN BY PACE

Industrial Development Wanted for Pivotal Points on Soo Line

The first shot in the Soo Line industrial campaign was fired Wednesday noon by Anderson Pace, president of Pace Incorporated, Chicago, when he outlined detailed plans for industrial development which may affect Manistique as a pivotal point on the Soo Line railway. Mr. Pace was accompanied by P. R. Newman, vice president of the Soo Line railway and R. F. Ronnan, traveling freight agent. Mr. Newman delivered a short address to the joint meeting of the Rotary and chamber of commerce organizations, explaining the supplementing of industrial business in addition to the furthering of agricultural development which has been given great impetus during the past few years by the Soo Line.

In explaining the Soo Line policy in regard to industrial development, Mr. Pace pointed out that there are two ways for expansion in Manistique. The first is the conversion of industries already here, and the second, the introduction of new industries. The former policy should be followed except where local resources are exhausted. It also includes properties which have been abandoned, but which have buildings suitable for industrial purposes or have track already laid.

Reasons given for the introduction of new industries here would either be because the community in the zone would have resources which could be obtained at lower cost than in any other zone or if the "set-up" without resources is favorable, such as lower labor costs, low transportation costs, or low distributing or building costs.

Want Change
"We are in a major depression which is causing existing industries to put on a vigorous fight," declared Mr. Pace. "Indications are that industrial migration is not impossible at this time, in fact many industrial heads believe it to be the best time. The publishing firm of Ernst & Ernst, who with Harper & Bros. and McGraw-Hill have been making a study of industrial locations for some years, have on record names of a thousand industries who desire changes in location."

Quoting the vice president of the McGraw-Hill publications, Mr. Pace said, "locations are trying to be found for industries and not industries for locations."

"We have opportunities for the establishment of profitable industries, declared Mr. Pace, but we need definite proof of actualities—not merely population figures. We must find what job needs to be done and then find the means to do it."

To Survey Here
Maps are being prepared showing the ability of more than one hundred sections of the country to carry on permanent or continuous industries, the first map of its kind ever to be produced. An accurate industrial analytical survey will soon be made of this vicinity.

What we are seeking are permanent new industries for communities, said Mr. Pace, and permanent new tonnage for the Soo Line. Both work hand in hand. In conclusion Mr. Pace stated that the return to prosperity will have to be made by hard work by each individual tempered with a fighting spirit. "We can't sit back and watch others work."

Baptist Church to Observe Children's Day Sunday Morning

Children's Day will be fittingly observed at the First Baptist church next Sunday. The Sunday school and the morning service will merge for a program given under the auspices of the Sunday school, which will begin at 10 a. m. sharp.

Recitations and songs by the primary department will feature the program. A Children's Day pageant entitled "The Prince of Peace and the World" will be given by the junior and intermediate departments. The setting of the pageant is a television radio program in which children of five nations appear who plan and work for peace. Songs of Italy, Germany, Russia, England and France add to the effectiveness of the pageant. At the end Pace dressed in white appears carrying a flag and the children of the world grouped in a circle about Peace pledge allegiance to the "Prince of Peace."

In connection with the program there will be a brief dedication service for babies who will receive certificates of their membership on the cradle roll of the church.

Hammond, Frye To Perform In Air Exhibition

Some of the greatest thrills in aviation will be witnessed here in the next three days when the flying team of Bud Hammond and Eddie Frye will perform spectacular maneuvers in the clouds.

Hammond last year was the pilot for Ted Abrams of the Abrams aerial survey who mapped Isle Royal from the air. He has a keen knowledge of Michigan flying conditions and is thoroughly acquainted with landings fields throughout the state. The Waco whirlwind plane will use the county airport as its base from where they will take up passengers today, Friday and Saturday.

Eddie Frye, the youthful parachute jumper and manager of the Hammond flying service, has never failed to amaze the crowds with his delayed parachute jumps. Leaving the plane at a height of 2500 feet, Frye drops a thousand feet before ripping the parachute open.

Hammond, a government licensed pilot will perform for the crowd with numerous tall spins, barrel rolls, loop the loops, etc.

Last winter Mr. Hammond obtained the government contract for carrying of mail, express, parcel post, and some freight shipments from Charlevoix to Beaver Island. It was the first winter island folk have been kept in contact with the outside world. All deliveries arrived without mishap and on time. At Christmas time 93 sacks of mail were transported to the island in time for the holidays.

Hammond and Frye will equip their plane with pontoons and will make St. Ignace the base for the summer months where they will conduct passenger trips for tourists.

Nortons in First Place, Sink Fords

Holding the heavy hitting Creighton Fords to five hits, Eldon Norton, hurling for the Norton Specials, administered a 15-2 wallop to the hitherto undefeated Fords. The smashing victory enabled the Specials to take undisputed possession of first place with three victories and no defeats. The Central Markets defeated the Coffey Coals, 2-0, in the other Tuesday evening game. Jack Williams was practically invincible, holding the Coffeys at bay throughout the game while they touched Schuster for their only runs in the second inning.

The Fords could do nothing with the offerings of Norton while the Specials climbed on Walt Dredvall for seven runs in the third inning after scoring two in the first, to set away the game.

Thousands to Witness Ford Day Celebration

Ford Day, a day of celebrating the selection by the Ford Motor company of an industrial site within Gladstone, will be observed here tomorrow and everything is in readiness for the staging of the greatest celebration in the history of the city, a day of seething activity and entertainment from beginning to end.

An elaborate program has been arranged for the day and thousands of visitors are expected to come to Gladstone to take part in the celebration.

If you've ever lived in a small town you will roar when you behold the counterparts of characters you must have known in "It's a Wise Child." Marion Davies' hilarious new picture, which opened at the Rialto Theatre last night.

This is by far Miss Davies' most delightful characterization. Her winning naivete completely eradicates any tendency in the dialogue toward the risique. She is beautiful to behold as the busy Joyce Stanton and her characterization is the most polished of her recent roles.

GLADSTONE NEWS. HUGE PARADE DAY FEATURE

Plans for Mammoth Procession Now in Finished State

Plans for the big parade which will open the Ford Day celebration here Saturday are virtually completed, according to an announcement made yesterday by A. D. Algire, chairman of the parade committee. Elaborate arrangements for the street procession have been formulated and the parade will be, without question, the largest and most colorful in the history of the city.

The parade will be so large that it is necessary to divide it into sections and arrange assembly areas for each of the various sections. It is estimated that the procession will be nearly two miles long, and so large will be the commercial section that it will give viewers a comprehensive review of what Gladstone has to offer in the way of business establishments.

Governor Brucker and his party, who will arrive in Gladstone about the time of the parade start will occupy a prominent place in the first section.

Official March Following is the official march order:

In the first section will be the colors and color guards of August Mattson Post, American Legion, then the American Legion firing squad nattily dressed in white trousers, blue coats and Legion hats, the high school band and bagle and drum corps, the governor's colors and color guard, Governor Brucker and his official party, Mayor J. Paul Bushong of Gladstone and the fire department.

The Gladstone high school will head the second section. The various athletic squads will be out in uniform and will be followed by the main body of students. Then will come the Camp Fire girls, followed by the Boy Scouts. Next in line will be the All Saints' Parochial school representation, including the band and main body of students, then the orchestra and last the June Festival of Miss Ella Haller.

The third section will be made up primarily of commercial displays, and will be headed by the Ford Line display, in which will be the Big railway band from Fond du Lac. All floats and cars bearing commercial advertising will follow in line with Ford autos leading.

Section four will be made up completely of private autos, many of them decorated, and again Ford autos will be at the head of the group.

Assembly areas for the various sections will be as follows: section one, from postoffice on Delta to Fisher hotel and on Sixth to Minnesota; section two, Minnesota to avenue from Sixth to Ninth; section three, on Wisconsin avenue from Sixth to Ninth; section four, on Dakota from Seventh street to Ninth.

The line of March has been altered and is now set for Delta avenue west from the postoffice to Central avenue, south on Central to Minnesota, west on Minnesota to Fourteenth street, south on Wisconsin to Wisconsin, east on Wisconsin to Dakota, east on Dakota to Seventh, north on Seventh to Minnesota, west on Minnesota to Ninth, north on Ninth across Delta to the Buckeye store, turn around south to Delta avenue. At Delta, the third and fourth sections will part going east and west to disband.

Section leaders have been named and will meet in A. D. Algire's office at 22 Central avenue Saturday morning at 9 o'clock. All units of the parade will be in their respective assembly areas not later than 9:30 a. m. The parade will start sharply at 10 o'clock.

Alice Harris, 9, Claimed by Death, After Long Illness

A death of more than usual pathos occurred yesterday when Alice Harris, nine-year-old daughter of Mr. and Mrs. Archie D. Harris of this city, passed away at 5:15 p. m., at the Washington Boulevard hospital in Chicago. Miss Harris had been ill for several months, first suffering from an attack of black measles in March. Complications followed and three weeks ago she was taken to Chicago but despite all that medical science could do she grew gradually weaker until the end came yesterday. Both her father and mother were with her at the bedside when the end came. Mrs. Harris having remained in Chicago after accompanying her there, while Mr. Harris had been there for the past week.

Alice was born in Gladstone and was a pupil of the public schools, attending the third grade. She was an unusually brilliant child, of amiable disposition and a favorite with her teachers and tiny playmates.

Tire prices are down!

—anyone can afford Goodyears this summer

When rubber goes down, tire prices follow.

Rubber is 'way down now, and tire prices are the lowest they've ever been.

Wise buyers are taking advantage of this situation — reaping the utmost in value.

They're buying Goodyear Tires in greater volume than ever before.

The reasons why Goodyear Tires give utmost value are not hard to state.

In both the two main parts of

a tire, Goodyears are definitely superior.

The Goodyear All-Weather Tread is superior in traction.

The Goodyear Supertwist Carcass is superior in vitality and long life.

If you think these are merely advertising claims demand to see the proof.

Any Goodyear Dealer will be glad to demonstrate the facts.

The facts certainly are: Goodyear Tires do give extra value.

That's why more new motor cars

leave the factories on Goodyear Tires than on any other kind!

That's why more transcontinental, urban and interurban buses and coaches operate on Goodyear Tires than on any other kind!

That's why more truck tonnage is hauled on Goodyear Tires than on any other kind!

That's why, throughout the world, year after year, more people ride on Goodyear Tires than on any other kind!

No mistake about it, this season is the chance of a lifetime to take full advantage of low tire prices and high Goodyear value.

Therefore: now is the time to get yours!

Woodruff Speaks At Honor Banquet To School Pupils

Newberry, June 11 (Special)—The Hon. Roy O. Woodruff, congressman from the tenth district, was the speaker of the evening at the annual honor banquet given on Wednesday by Congressman and Mrs. P. P. Bohn to the honor students of the Newberry high school.

Dr. Woodruff opened his talk by paying a tribute to Dr. Bohn, his colleague in congress. "Friendship, respect, liking, go as far as anything else to obtain favorable legislation in congress," he stated, "and these qualities in Dr. Bohn have won for him a place in the heart of his fellow members of congress which his district cannot afford to lose. He is already powerful and that power will increase. These are unsettled times with many dangerous doctrines being preached. The upper peninsula is lucky to have a man in congress who is not afraid to do his duty as he sees it."

With Congressman Woodruff were three Bay City friends, Dr. Crummer, William Henry and Leslie Kettgen, the latter a former school superintendent here. All three gentlemen were introduced to the guests and Mr. Kettgen spoke briefly on his former connections here. Dr. Bohn in the last speech of the evening told of his object in giving this annual banquet. It was to increase the interest in the schools, to try and make the boys and girls into men and women who were a little better than the community had ever known before, for in that way only was progress made. He mentioned his love for his home community and invited the honor students to again be his guests in 1932.
