

GERMAN PACT TO BE PROBED

World Court Will Hear Customs Case on Monday

The Hague, July 18 (AP)—Prepared to determine the legality of the projected Austro-German customs union, the permanent court of international justice will go into session Monday morning to hear arguments advanced by the supporters of the proposal.

Seeking to design a measure that would revitalize the waning industries of Austria and Germany, statesmen of the two powers have been negotiating a treaty under which, for customs purposes, Germany and Austria would be as one.

Vigorous Protests

Following upon announcement of this fact early in spring, some of the European nations launched vigorous protests, charging violation of the terms of the St. Germain and Versailles treaties.

On representations by the League of Nations, Germany and Austria agreed to appeal to the world court for a decision as to the legality of their treaty.

Under the terms of the treaties of St. Germain and Versailles, Austria pledged herself not to contract alliances under which her sovereignty would be sacrificed or concessions would be granted to one nation exclusively.

This was in 1919 and it was followed three years later by a proviso rider attached to a loan to Austria which France claims to be an "interpretation" of a clause in the treaties prohibiting union of Germany and Austria.

15 Judges On Case

Germany and Austria take the position that the 1922 loan proviso falls short of being interpretative, inasmuch as only France signed it. They hold the signatures of the other powers are necessary to validate the clause as interpretative.

France and the other powers have taken the stand that the customs union violates the treaties because it is a forerunner to Anschluss, or political union. Austria and Germany have countered with the argument that nowhere does international law prevent customs agreements.

Fifteen judges will hear the case, among them being Frank B. Kellogg of the United States and Minichero Adachi, of Japan, who will preside.

Murray's Action Helps Motorists To Evade Tolls

Denison, Tex., July 18 (AP)—Governor W. H. Murray's drastic action in opening free bridges across the Red river between Texas and Oklahoma—a move blocked at one point by Governor Ross S. Sterling of Texas—had accomplished results for the motorists of both states tonight.

They were crossing back and forth on free spans, except the one located here, and the owners of toll bridges were doing no business.

Meanwhile, Governor Sterling, who sent Texas rangers to stop traffic at the south end of the Denison free bridge after Oklahoma officials had torn down the barrier there, was seeking a means of ending the controversy.

He called a conference for tomorrow of owners of the Denison Toll Bridge company and members of the state highway commission in an effort to settle a dispute over a contract under which the Denison free bridge was to remain closed until Texas paid the toll proprietors a sum variously interpreted from \$80,000 to \$150,000.

Unemployed Demand Food from Stores

Henryetta, Okla., July 18 (AP)—Carrying an American flag, a crowd of 300 unemployed men and women marched on downtown grocery stores here late today and demanded food supplies for an emergency relief store they had established in the city hall.

Several stores quickly heeded the demands of the marchers, supplying boxes of food, which were taken to the city hall. About 600 onlookers assembled to watch the proceedings.

As the crowd trudged into the little city hall, a downpour of rain quickened their pace and prevented their plan to return for more food.

MacKay Marries Noted Opera Singer

New York, July 18 (AP)—Clarence H. MacKay, chairman of the board of directors of the Postal Telegraph and Cable corporation, and Miss Anna Case, concert soprano and for eight years a member of the Metropolitan Opera company, were married today in St. Mary's Catholic church at Roslyn, Long Island.

No announcement was made of the engagement of the singer and the communication magnate, but rumors began circulating last night that the pair would be married today and this morning a statement was issued from the MacKay offices announcing that the wedding had occurred at eight o'clock and adding that immediately after a wedding breakfast the MacKays had left on a motor trip.

The MacKay yacht Manchoch II was moored at Glen Cove today and, though the official announcement spoke only of a motor tour, it was generally believed this would be short and most of the honeymoon would be spent on the luxurious yacht.

Three Vicki Baum Plays On Broadway

BY MARK BARRON

New York, July 18 (AP)—Vicki Baum, the little German housewife who decided she would like to write, may be Broadway's most prolific author this fall. It is entirely possible she will have three plays running in New York at the same time.

The drama which first introduced her to this country, "Grand Hotel," remains one of the current hits and likely will stay out the winter.

After this show opened, other managers began a spirited bidding for others of her works.

Paul Streger has acquired an earlier play of hers called "Pariser Platz 12" and it is scheduled to come to town around September.

John Golden has purchased the dramatic rights to her recently finished novel, "And Life Goes On." Miss Baum will place the novel in play form herself, with someone else translating it into English.

Those who have read "And Life Goes On" say the leading role would be sensational for Katherine Cornell. However, her hopes that she will play it probably will go astray, for Miss Cornell now is an independent manager in her own right, and it is unlikely she would take the part unless she produced the play herself.

The probability is that "And Life Goes On" will be a November opening. The plot, it is said, would adapt itself to the form used so effectively in "Grand Hotel"—that is, a series of swiftly moving scenes depicting episodes in the lives of a number of characters.

The last play in which the late Holbrook Blinn appeared was a Molnar comedy called "The Play's the Thing." It was one of Blinn's greatest successes, and was the vehicle which started Catherine Dale Owen toward her movie career.

Billy Rose has decided to make a musical show of "The Play's the Thing," and has commissioned P. G. Wodehouse to do the adaptation with music from Lorenz Hart and Richard Rogers. Ernst Lubitsch may direct the movie lots long enough to do the stage work.

Basil Rathbone. It is expected, will have the Holbrook Blinn role, with Gertrude Lawrence in the part originally played by Miss Owen. Others who may appear are Joseph Macaulay, Peggy Wood and George Metaxa. Although a musical show, it will have no chorus girls.

Allice Brady is another of the first line stars who plans to establish a repertory theatre on Broadway. Right now she is rehearsing a new comedy called "Manhattan Nocturne."

Following its premiere, she will begin rehearsals in a new Sophie Treadwell play. Miss Brady then will revive "Oliver Twist" with herself as Nancy Sykes, and after that, "Pygmalion and Lalates."

The four plays, if her plans are carried out, will play alternate nights in her own theatre.

The week did not bring in a single new show, and only one is scheduled for next week. That will be "Shoot the Works," which Heywood Brown is producing for unemployed actors.

A number of prominent writers have contributed material, and most of the cast are working on the co-operative plan. That is, if the show makes money, they make money.

RULES TO FOLLOW

London—Some new rules making for happy marriages have just been advanced by the pastor who married Thomas Newnes and Hilda Blant at Mansfield, Nottinghamshire, recently. "Don't listen to tales about your wife," he cautioned Newnes. "Regard your husband as a gift sent from Heaven," he told Miss Blant.

ACCUSED AS SLAYER Hindenburg Issues Further Decrees

Associated Press Photo

Berlin, July 18 (AP)—With Chancellor Bruening and Foreign Minister Curtius in Paris attempting to clear a way for a stream of international credit to flow back into Germany, President Paul Von Hindenburg tonight issued decrees designed to plug up some of the holes through which Germany's own capital has been leaking out of the country.

In a decree aimed at hoarders of foreign currencies it was made compulsory that every holder of such currencies—or drafts, credits or claims in foreign currencies—declare them at the Reichbank. Unless the Reichbank agrees that the holder needs them for essential economic purposes, they will be converted by the Reichbank into German marks at the official rate of exchange.

Post, talking to Australia through the four Indianapolis broadcasting stations, advised that Gatty be promptly knighted "Sir Harold Gatty of Australia" if that country desired to retain him as a citizen. The people here, Post told Australia, were "making a play" to naturalize the Australian navigator and he already had been made a colonel on Governor "Alfalfa Bill" Murray's executive staff in Oklahoma.

Belle Livingston Will Be Granted Gambling License

Reno, Nev., July 18 (AP)—By a three to two vote the county license board today decided to issue a gambling license to Belle Livingston, former New York night club hostess. The vote was taken only after the board had gone into executive session and argued over Miss Livingston's application for half an hour.

Fifteen ranchers owning property adjoining the ranch leased by Miss Livingston protested granting of the license on the grounds that the night club she intends opening there would constitute a nuisance. They said they sought to protect one of the "nice" home spots of the county.

The ranchers also asked the board to thoroughly investigate Miss Livingston's character and reputation before taking any action.

Communists Push Michigan Campaign

Detroit, July 18 (AP)—Col. Walter C. Cole, executive vice-president of the Union League of Michigan, announced tonight that an elaborate campaign to gain support for Communism among the workers in Detroit industrial plants is now in progress.

Col. Cole said the campaign includes speeches to workers, distribution of pamphlets and the organization of groups to participate in a nation-wide demonstration August 1. He said the campaign is being energetically pushed among employees of the Ford Motor company, the Henry Ford trade school for boys, the Hudson Motor Car company, the Chrysler corporation, the Packard Motor Car company, the Briggs Motor corporation and other plants.

MEN'S HULA CLASS

Honolulu—A school for training men in the contortions and gyrations of the hula dance has been set up in this city. The class is limited to men only, and students are taught the language and music to go with the dance, as well as the actual capers. Tourists make up the largest part of the class.

Gatty, Post Talk With Australia

Schoenady, N. Y., July 18 (AP)—Harold Gatty and Wiley Post, world fliers, exchanged a few jests and talked over the business of long distance flying with the folks down in Australia. Gatty's native flying ground, today, they chatted with Australian friends over a short wave radio hookup and two sides of the world listened in on receiving sets.

Gatty introduced the man, who flew around the world with him to Sir Keith Smith, first Eng-and-to-Australia flier, who was in Sydney, Australia.

"Sir Keith," Gatty said into the microphone, "I want to introduce you to the wild man from Oklahoma, Wiley Post."

Post, talking to Australia through the four Indianapolis broadcasting stations, advised that Gatty be promptly knighted "Sir Harold Gatty of Australia" if that country desired to retain him as a citizen. The people here, Post told Australia, were "making a play" to naturalize the Australian navigator and he already had been made a colonel on Governor "Alfalfa Bill" Murray's executive staff in Oklahoma.

Peggy Figures Out Way to Settle Her Troubles With U. S.

New York, July 18 (AP)—Peggy Hopkins Joyce has figured out a way to settle her argument with the United States government.

Customs agents charge that Miss Joyce brought a \$10,000 diamond plaque into this country from France without declaring it. The plaque was seized and Miss Joyce was advised she was subject to pay fines that might total as much as \$50,000 in order to get the plaque back.

She began to figure. Finally, her attorney revealed today, she decided to let the government keep the plaque if it would drop its prosecution. The government agreed. So, the attorney said, the case is settled.

But Miss Joyce is not intending to give the government her jewelry if she can help it.

"As I understand it," she said, "the government is obliged to sell the plaque back, like any other seized article, at auction."

"Diamonds are down in price. It might just happen that I would be able to buy the plaque back at a very satisfactory figure—say about \$2,500."

The government, according to Miss Joyce's attorney, is now busily scratching its head.

Fall Will Enter Penitentiary Today

El Paso, Tex., July 18 (AP)—Albert B. Fall, former secretary of the interior, left El Paso at 6:45 p. m. (M. S. T.) tonight in an ambulance presumably for his ranch at Three Rivers, New Mexico. It was understood he would proceed to the state penitentiary at Santa Fe, N. M., tomorrow to begin serving a sentence of a year and a day for bribery.

The former interior secretary walked out of his home here accompanied by two friends. He was assisted into the ambulance by Mrs. Fall and his daughters, Mrs. C. C. Chase and Mrs. Joseph Elliott.

The following boys have returned to their homes after enjoying a few days camping near the Gladstone bluff: William Gregoire, Jack Greenfield, Henry Lelsner, and George DeGrand.

Notable Program Ready For Escanaba Vets Monday Night

An all-star entertainment program, headed by John R. Hall, vocalist-comedian with Joe Cook's famous stage show, will be presented at the regular meeting of the Escanaba Legion post, Monday evening, Mr. Hall, who is a brother of Britt Hall, a member of the Escanaba Legion post, is visiting in the city, and will attend the meeting as a guest to give some selections from his stage successes. Harry Compher, chairman of the entertainment committee for the meeting tomorrow night, said yesterday that he was also hoping to have Miss Rose Bink, soloist with George White's Scandals, and Miss Julianne Pelletier of radio station WTMJ, Milwaukee, as features on the program.

Nomination of new officers for the Escanaba Legion post will be one of the important matters scheduled for the business session at the meeting Monday evening. Plans for a Legion picnic, the Legion's participation in the U. P. State fair program, and attendance at the national convention in Detroit September 21 will be discussed.

AMUSEMENTS

AT THE DELFT

Robert Montgomery plays the lead in "The Man in Possession," showing at the Delft Theatre today. Irene Purcell plays opposite Montgomery and the supporting cast includes Charlotte Greenwood, C. Aubrey Smith, Beryl Mercer, Reinold Owen, and Alan Mowbray.

The locale of the story is in England and Montgomery plays the part of the young ne'er-do-well who becomes a sheriff's deputy, serving attachment writs. His duty takes him into the home of a ravishing widow and he is persuaded to impersonate a butler to spare her the humiliation of having an attachment guard in her house during an important dinner party. There are many hilarious highlights, climaxed in the ousting of the widow's suitors and admirers. Of course the butler wins the lady fair, amid gay circumstances.

On his first birthday, recently celebrated at Garden Castle, near Aberdeen, Scotland, Lord Settrington, son of the Earl of March, was presented a rocking horse and an engraved gold watch by the tenants.

Here's New Freak For Major Hoopie

Two Niagara, Wis., men who raise chickens as a sideline have during the last week found their flocks increased by specimens that could well be included in the major's museum exhibit he so lately abandoned.

A setting of eggs at the Sylvester Kosowski home hatched into a brood of birds that were part turkey and part chicken. The birds are odd in appearance, resembling chickens, but have the feathers, long necks and heads similar to those of turkeys.

A four-legged chicken was part of the hatch at the home of Mike Ponsio. The chick has two normal legs and two smaller legs in front of the other pair. The extra pair were crossed and when Ponsio straightened them the chick was unable to walk. He replaced them in the original position and the chick carried on as well and healthy as the brothers and sisters.

Holstein Owners Ship Cull Stock

The Menominee County Holstein Association at a meeting held in Daggett, decided to ship a car of cull milk stock to the Milwaukee stockyards.

Paul V. Erickson of Stephenson, is the shipping manager and will take charge of assembling the cattle to be shipped. Five per cent of sales, will be charged each association member, and ten per cent will be the charge for non-members. As membership in the association is only 50 cents for the year it will be cheaper for all farmers wishing to ship cattle to join the County Holstein Association.

In making this move the County Holstein breeders feel that they are taking the step necessary to bring better times to the dairy industry. Cows that formerly made a profit, no longer will, and it was the feeling of the farmers present at the meeting that they would be further ahead to sell off their lower producing stock and thus have more feed which they could give to the cows that will produce. Even feed left in the barn is better than feeding it to a cow that will not return market price for the feed, was the general feeling of the farmers present.

Locusts Stop Airplane. While an air mail plane was on its way from Casablanca, Morocco, to Dakar, Senegal, it ran into a flying swarm of locusts, so dense that they interfered with the running of the engines and compelled the pilot to make a forced landing.

Dr. Logic May Be District Governor of Kiwanis Clubs

Iron Mountain's delegation to the 13th annual convention of the Wisconsin-Upper Michigan district of Kiwanis International to be held Aug. 9-11 at Appleton, Wis., will take with them a concerted endorsement for the election of Dr. F. O. Logic of Iron Mountain as district governor, according to word from Kiwanis officers of that city.

Dr. Logic has been one of the most active members since the club at Iron Mountain was organized, and that activity has extended also to the other clubs in the district. It is believed that he will be generally supported in the balloting at Appleton.

An old-fashioned park picnic, a concert by the 120th Regimental band, talks by prominent speakers, a pipe organ program, luncheon and entertainment for the wives of the Kiwanians, sight seeing trips and the convention banquet, with Roe Fulkerson, nationally known author and speaker, on the program, are included in the plans for the meeting.

Sunday, August 9, will be devoted to registration, in the morning, with the picnic at Pierce park, and the regimental band concert in the afternoon. An evening service will be held at the First Methodist church, with an address by an outstanding speaker.

Paul V. Noverman, district governor, will preside at the first business session Monday morning. Monday and Tuesday will be devoted largely to social and business meetings, with a golf tournament at the Dutton des Mottes club as the concluding feature.

Rifles Crack This Week for C. M. T. C. Men in Camp Cole

By JACK POSTER

C. M. T. Camp Cole, Fort Brady, Sault Ste. Marie—(Special)—In spite of the poor weather conditions prevailing of late, the trainees of Fort Brady are day by day looking more like real soldiers. Parade in review, which started at the beginning of the week and is now held at least once a day, is becoming more beautiful and crowds of people from the Soo turn out every evening to witness this scene.

Next week, Company K, Company I, and Band Company will travel out to the rifle range about 30 miles from camp, so the young men can try for their marksman's and sharpshooter's badges. At the same time the machine gunners will exhibit their skill at their own range right near Camp Cole. A fine percentage of the Delta County men won badges at camp last year and they should repeat

their record again at this C. M. T. C. Wednesday was an exceedingly hard one on the trainees, the day being so hot that many boys fainted while passing through their drills.

The K Company dance was held Friday night. It was a big improvement over the previous one due to the fact that the orchestra had a chance to practice together in between. These dances are held in the Fort Brady gymnasium which is beautiful decorated with American flags and others red, white, and blue colors.

The hardest rain and thunderstorm seen in this vicinity for a long time caused a good deal of disturbance among the trainees Wednesday night.

"Sick Call" Thursday morning was unusually large as dozens reported but this was due mainly to colds, feet trouble, etc., nothing being of a very serious nature.

Preparations are being made for Field Day which takes place the last Sunday at camp. The big track meet, tennis finals, and other events will then be held. Medals will be given for first, second, and third places in each of the running events and other valuable prizes will be awarded in other events. The tennis singles and doubles champions will be awarded silver cups. Bob McEwen of Escanaba is still the tennis favorite.

Fire Sweeps Area at Portage Creek

Although wind and sun increased the forest fire hazard of the last few days, only one blaze was reported in the vicinity of Escanaba, and that was not a serious one, although the fire approached within a few rods of the Emil Anderson residence on M-35.

The local fire was below Portage creek, south and west of the city, where an area of marsh grass and swamp land was burned over. A crew sent out from the conservation department headquarters here was patrolling the area yesterday, and the fire was reported completely under control, although some timber was reported destroyed.

Two Implicated in Nahma Theft Case

A second man, Leo Dubard of Nahma, has been implicated in a larceny case at Nahma, in which hams and other provisions were alleged to have been stolen from a Nahma company camp. Ed Ziemer, 41, previously held in connection with the case, will appear with Dubard Tuesday afternoon at two o'clock for examination before Justice H. E. Rungtette.

MUST HAVE ATTENTION

ONE of the gravest problems faced today by national, state and local governments is control and taxation of vehicles engaged in truck and bus traffic. The matter is one that not only directly affects the general public but indirectly affects the same public because of competition given railroads of the nation, which up to this time have furnished one of our most prolific sources of tax income.

struction and maintenance of other public facilities, educational, governmental, etc. Most of the railroads' taxes are used for these general purposes, thus lightening the burden of other taxpayers. In some counties this railroad's taxes last year ranged from \$10 to \$54 for every man, woman and child residing therein; lessening their payments to that extent.

HEART of LIANE

(By NEA Service) By MABEL McELLIOTT

CHAPTER XXI The old lady's eyes softened. "My dear, I won't pretend I hadn't other plans for him because of course I had. Mothers usually do. But since my son has chosen, and here her old head went up, proudly, "since my son has chosen I shall abide by his choice." Liane thanked her. "You're very young," Mrs. Cleespaugh went on. "That's a point for you and against you, Clive is stubborn but he has a sweet nature if he's handled properly. You will have to learn that."

"Is that what I am? A family crisis?" Liane asked smiling. "You!" Blue eyes stared into dark ones. For an instant his fair head was very close to hers. "Shall I tell you what I think you are really?" Liane tore her hand from his, breathless. "I think perhaps you'd better not. Not just now, at any rate." She ran up the stairs, panting a little. "What a fool I am," she thought, derisively. "Why didn't I let him go on with what he wanted to say?"

EAST WIND "The fish will not bite when the east wind blows." So say the wise ones. No one knows why but results appear to prove the adage more or less true which is about all that can be asked for any adage. When the wind blows from the east over our Peninsula it means nothing more than any other wind to many people, but to a few it has a sort of call which their hearts must answer even if their feet remain in the same familiar rut. In a certain town there lives an old salt-sea sailor. He is married, very much married. And to the woman of his choice, too. No there can be no doubt about that at all. He married just the girl he wanted and lives as he himself selected they should live. But sometimes, of a summer morning, with every tree, every head of grain bending and lifting under the breeze from the raising sun...

Anniversary

KERENSKY'S APPOINTMENT On July 20, 1917, it was announced that the Russian premier, Prince Lvoff, had resigned, and that Alexander F. Kerensky had been appointed premier, but would also temporarily retain his portfolio as minister of war and munitions. Following the announcement a new government was quickly formed. Kerensky was made practical dictator and his government received the complete endorsement of the Joint Congress of Workmen and Soldiers' Councils and of the All-Russian Council of Peasant Delegates. The councils decide to confer supreme and unrestricted power on the government. Orders were given to fire on deserters at the front, and warrants were issued for the arrest of revolutionary agitators wherever they might be. Rear Admiral Verdevski, commander of the Baltic fleet, was selected for communicating a secret governmental telegram to sailors' committees. Lieutenant Dankevitch was arrested on the charge of inciting the Peterhof troops to remove the provisional government.

How to Save on Doctor Bills: Burn Your Tonsils Out With Gin

Gladstone mch July 17st—see by Papper how the Red Shirt movements has started in India but no doubt it will not be very popular if the weather out there is hot as it was here today and red flannel underwear is even out of style. Well if the weather man keep on sending nice weather like we been having that Gasoline surplus they tell about will be pretty slim by Labor Day judging from what I see on the roads these days. But I remember back when they used to call the man who saved Money a Miser but now they have to call him a Wizard as you know if you try to save any. PRINT THIS POEM In our town there is a man I think his name is Hogan He seem to Think that Hoover Dam is Democrat Campaign Slogan Now if we had the stirrup And all that Surplus Wheat Instead of send to Europe What Pancakes we could eat! Even in this Hot Weather Old winter is stealing And soon the coal man Will advertise free wheeling Now this young fellow which is going around the country on roller Skates for \$10,000 you could not call that Free Wheeling but he is free to stop any time so far as I am concerned. JUST FOR FUN

AH, A CLUE! WIFE: Oh, George, I dropped my diamond ring off my finger and I can't find it anywhere. HUSBY: Don't worry any longer, dear; I found it in my trousers pocket.—Pathfinder. RESOURCEFUL WIFE (arriving at husband's office unexpectedly): Rupert, I could swear I heard Miss Smith shout out, "Let me go!" as I came up the stairs. HUSBAND (hurriedly): Yes, dear, I was—just saying that someone would have to go to the bank.—The Humorist.

James F. Corcoran, Early Resident of Escanaba, Is Dead

Death which Thursday night claimed James F. Corcoran of Crystal Falls, president of the Iron County National Bank, removed from the upper peninsula one of its prominent figures. His death was due to a cold that developed kidney infection. He had been ill five weeks.

Mr. Corcoran, who was known in Escanaba through his early residence here, and his frequent visits following his marriage to Miss Clara Finley, of Escanaba, sister of Ralph R. Finley, of this city, was prominent in banking circles and was connected with all important business enterprises in Iron county for the past forty years.

James F. Corcoran was born in Hubleton, near Watertown, Wis., and when a young man came to Escanaba and was associated in business here with his brother, John. Following several years here he went to Stambaugh where he and a brother, Michael, engaged in a successful general mercantile business. The store also served as a bank and there Mr. Corcoran learned the first principles of banking. He went to Crystal Falls in 1890 to assume the office of county treasurer and shortly after his arrival he founded the Iron County Bank, the first banking institution in the county.

The bank was started in a small frame building on the site where the modern structure now stands and under his guidance it developed to its present size. From the time of the opening of the bank, 1890, Mr. Corcoran was continuously in the banking business in Crystal Falls.

Mr. Corcoran was one of the most public spirited residents of this city. He served as mayor of Crystal Falls for a number of years, and was president of the school board for a number of terms. He is credited with establishment of the system of schools in Crystal Falls including erection of the Forest Park building. He was interested in athletics and in the development of teams.

In addition to being president of the Iron County Bank, Mr. Corcoran was a director of the Iron County State Bank of Iron River; was president of the Finley and Swedish Mercantile association and president of the Crystal Falls Hotel company. He is survived by his widow and one son, Jay. He also leaves two nieces, Mrs. Patricia Corcoran Neumann, of Chicago, and Mrs. Loretta Corcoran Nickelson of Minneapolis, both his wards following the death of their father, John Corcoran.

Funeral services will be held Monday morning from the Guardian Angel Catholic church, Rev. Father Joseph P. Guertin officiating. Burial will be in the Crystal Falls cemetery. Mr. and Mrs. Finley, daughter, Miss Marion, and son, Robert, are leaving today for Crystal Falls to attend the services on Monday.

DEATH RECALLS EARLY HISTORY

Mrs. Wm. MacNaughton Passes Away; Parents Had Oliver Hotel

Death took one of the most prominent residents of Escanaba's earlier days, when Mrs. William MacNaughton, who was Harriet Hitchcock, daughter of the late Mr. and Mrs. M. O. Hitchcock who were proprietors of the old Oliver House, died at the family home in Oshkosh.

Mrs. MacNaughton, suffered a stroke on July 11, and she never rallied from that time. Her death came Friday morning at 11:10 o'clock.

Funeral services will be held this afternoon at Fond du Lac and burial will be made there.

Harriet Hitchcock was born in Juneau, Wis., on Christmas Day, 1870, and she came to Escanaba when she was sixteen years of age. Her marriage to William MacNaughton took place in May, 1891, and in 1894 she and her husband moved to Oshkosh, residing there since that time.

She was one of the most prominent young women of the city during her residence here and she will be remembered by many of the older residents of Escanaba. Surviving her are Mr. MacNaughton, who was one of the founders of the present Delta Hardware company, which then was known as Oliver and MacNaughton, and two daughters, Helen who is a nurse in Chicago, and Gwendolyn who is Mrs. Parmenter of Iron Mountain.

It cost Jack Laundre, 37, of Escanaba, more than \$50 to settle the costs in a larceny case which local officers have described as one of the lowest and meanest kinds of thievery.

According to information gathered by the sheriff's department, Frank La Fave of this city ran out of gasoline while out on the highway, and he left his car beside the road while he went to a filling station. When he came back, three tires and three wheels were missing from the automobile. La Fave told the officers he suspected Laundre, and watched for his car. When the opportunity presented itself, he inspected the car and satisfied himself that they were his own. Then he notified deputy Henry Breault and Laundre was arrested. Arraigned before Justice H. E. Ranguette, he pleaded guilty, paid a fine and cost, and also made restitution to La Fave for the tires and wheels.

Famous Bricktops, Girl Orchestra at Terrace July 25th

Considered one of the greatest girl orchestras ever assembled, the Bricktops under the co-direction of Bobbie Grice and Jean Rankin, will again appear at Terrace Gardens on Saturday, July 25, in what is perhaps one of the most outstanding dance dates of the season.

After five years in vaudeville as a premier attraction, these girls turned their attention to dance work. Their fame as a dance organization spread rapidly with last year's tour which marked their first trans-continental dance tour. In almost every instance of their appearance, long established attendance records were broken. Added

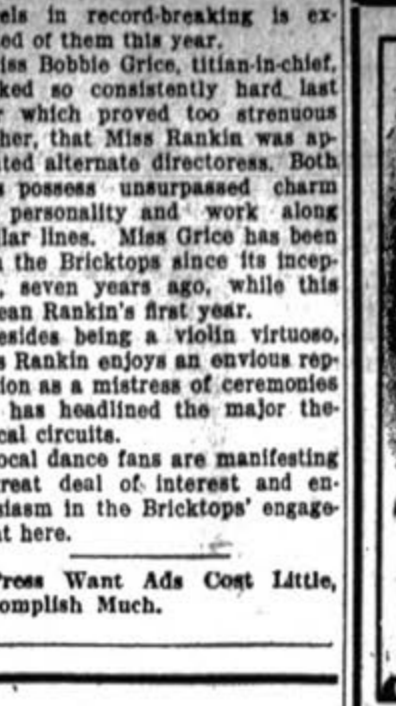

laurels in record-breaking is expected of them this year.

Miss Bobbie Grice, titian-in-chief, worked so consistently hard last year which proved too strenuous for her, that Miss Rankin was appointed alternate director. Both girls possess unsurpassed charm and personality and work along similar lines. Miss Grice has been with the Bricktops since its inception, seven years ago, while this is Jean Rankin's first year.

Besides being a violin virtuoso, Miss Rankin enjoys an enviable reputation as a mistress of ceremonies and has headlined the major theatrical circuits.

Local dance fans are manifesting a great deal of interest and enthusiasm in the Bricktops' engagement here.

Church Events

Christian Science Churches "Life" will be the subject of the lesson-sermon in all Christian Science churches today.

Among the citations which comprise the lesson-sermon are the following from the Bible: "The Spirit of God hath made me, and the breath of the Almighty hath given me life." (Job 33:4).

The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Let us feel the divine energy of Spirit, bringing us into newness of life and recognizing no mortal material power as able to destroy. Let us rejoice that we are subject to the divine powers that be" (p. 249).

No Services Today. There will be no services at the First Methodist Episcopal church today because of the absence of the pastor, Rev. R. C. G. Williams. Rev. Mr. Williams and members of his family are away on their annual vacation trip.

BROTHER KINGS SPLIT OVER GREENLAND DISPUTE

NORWAY RULER HAS CHALLENGE

Kinfolk Glare at Each Other Across the Skagerak

Oslo (P)—Two brothers are glaring at each other from their thrones on opposite sides of the Skagerrak, and the Hague court has a family row to settle.

One of the royal brothers is King Christian X of Denmark, who has claimed dominion over the whole of Greenland.

The other is his younger brother, King Haakon of Norway, who has presumed to dispute his elder's claim.

King Haakon recently signed a government declaration proclaiming Norwegian sovereignty over a strip of the eastern coast of Greenland, and he signed it with evident emotion.

He had good reason, on two scores, for deep concern. In the first place, his challenge on Norway's behalf was a challenge to his own family, which had placed him on his throne. In the second place, it was a challenge to his native land, for he is but an adopted son of Norway.

Mother Won Throne
It is an undisputed story that King Haakon accepted the Norwegian throne when this country broke with Sweden in 1905 in order to satisfy his mother's craving that both her first and second sons should ever throne.

Haakon was Crown Prince Charles, second son of Crown Prince Frederick of Denmark. Frederick's first born, was the present King Christian of Denmark.

Their mother, a domineering woman six feet tall, schemed to make her second son the consort of Queen Wilhelmina of Holland, but the young prince shattered this dream by falling in love with his first cousin, Princess Maud of England. He insisted upon marrying her.

A Family Matter
Family life in Denmark was none too pleasant for Maud, and there was talk of permitting her husband to become a naturalized Briton, but old King Christian, grandfather of the present monarch, vetoed that proposal.

The offer of the throne of Norway was welcome way out for the young couple, and they came here firmly resolved to make themselves thoroughly sympathetic with the nation which had called them from Denmark.

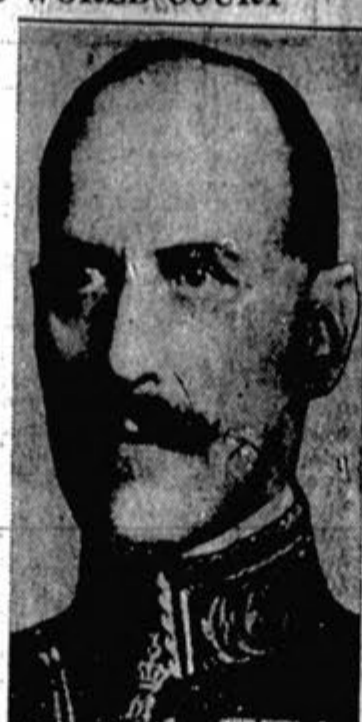

They have conducted a modest court with few state ceremonies. They sent their son to an ordinary private school and told him to follow the example of his parents in fraternizing with people in all walks of life.

King Haakon is a skillful skier and also likes to coast on a sled in season. In summer he takes to yachting and motoring, and he is said to be the only gentleman motorist in the country who has never broken its speed laws.

His idea of a nice evening is a good game of bridge. He goes to theatres and concerts frequently and is a regular attendant at church.

Doctors at Two Cents a Day.
Doctors of Essex, England, have inaugurated a medical service for the benefit of the \$1,250-\$2,000-a-year man and family. He is offered a full medical service for himself, his wife and children at a cost of two cents a day each. Many families already have joined.

DENMARK-NORWAY ROW GOES TO WORLD COURT

A formal complaint to the world court at The Hague was made by the Danish government against Norway, which has laid claim to a large section of eastern Greenland. Green Bay Sheriff Seeks Extradition of Escanaba Man

Extradition papers are being prepared in Wisconsin for A. Olson of Escanaba, named here in a fugitive warrant from Brown County, Wis., on complaint of J. C. Euclide of Green Bay.

Euclide, who operates an automobile body finishing and car repair shop, is charging Olson with the theft of a coach valued at \$150 from the Green Bay garage.

On receiving word that Olson refused to waive extradition, the Brown county sheriff's department notified local officers that the necessary papers were being drawn up at Madison.

Backings Defined As Moonshiner's Term

Montgomery, Ala. (P)—Dictionary makers compiling the lexicon of bootleggers may go to the Alabama court of appeals for authoritative definition of "backings."

The court defined the term as "the last run of whiskey that is used in starting a new run" in deciding the case of George Pulliam, Jr., and Fred Pulliam.

Since "backings" were found in a barn at the Pulliam home, only half a mile from a raised still, the court ruled that they had something to do with operation of the plant.

BRIEFLY TOLD

Deputy Coming—George A. Krogetad, deputy commissioner of the department of labor and industry, will be in Escanaba Tuesday to conduct hearings in industrial accident and compensation cases. The sessions will be at the court house.

RUSS SOUND-FILM PLANS FAIL
Failure of the Soviet sound-film plans and experiments, for which much propaganda was made some time ago, has been admitted by the Soviet press, according to word from German. All Soviet film organizations are to be submitted to revision and the Supreme Council of National Economy also is to take up the question. Enormous sums are said to have been spent in the attempt to create a Russian sound-film industry.

Local Postoffice Closing Schedule in Effect Every Saturday

Because of its recent adoption, Escanaba people are not yet familiar with the 44-hour week schedule, as affecting the Escanaba postoffice, and some patrons are not aware that certain departments are closed every Saturday afternoon.

Only the general delivery window at the postoffice is open for business on Saturday afternoons; this service accommodating the ordinary stamp, mail and parcel movement. The money order window is not open Saturday afternoons, and there are no Saturday afternoon mail deliveries by carrier.

Cars Collide On Highway US-2, 41

Automobiles driven by Louis Pracy and Isaac Bonifas collided on highway US 2-41 at six o'clock last evening. Both cars were coming towards Escanaba. Pracy was driving in the lead, according to officers who investigated the collision, and after signaling that he was going to turn out, he made the turn before Bonifas could stop his car. Both cars were slightly damaged but the occupants were not injured.

For the accommodation of children attending summer school, Mr. Olson announces that these groups may take their swimming lessons at 4 p. m.

STAY OUT!

Pittsburgh—Mrs. Blanche Calender runs a beauty parlor, and it turned out to be the cause of her obtaining a divorce from her husband. She charged that her husband was running around with another woman, who happened to be a customer in her shop. The woman told Mrs. Calender that no one could fix her hair as smartly as Mrs. Calender did, but when the hair dresser found she was fixing her rival's hair for her husband's admiration, she ordered her out of the shop and sought a divorce.

Jellico, Tenn.—Mrs. E. A. Warming was opening a package of toys for her children. In the pile there appeared a very fine-looking snake that wiggled from side to side and hissed. Mrs. Warming's husband thought it was alive and hit it on the head with a golf club. Sure enough, the snake was a real one—and a young rattler at that.

Boys Pay Penalty for Breaking Sign

Six boys have been placed on six months' probation by Judge Judd Yelland of probate court as a result of damage committed at the Upper Peninsula State Fair grounds. The boys were apprehended after they had destroyed the lettering on a large ornamental sign over the main entrance to the fair grounds. This item alone, fair officials said, represented more than \$100 loss. A playground whirling sign on the fair lot was also reported damaged.

The Escanaba boys involved will be required to report at regular intervals to the officer of the probate court regarding their conduct.

John Dinu Held for Non-Support

A plea of not guilty was entered by John Dinu, 25, of Dearborn, Mich., when he was arraigned before Justice H. E. Ranguette on a non-support charge. The case has been continued for examination.

Dinu was arrested by Dearborn officers and held for the Delta county sheriff's department. His wife resides near Rapid River.

Mike Did It, Says Man Arrested for Robbery at Kates

Still insisting that it was "Mike the other fellow," who did the job, Tony Wasky was taken in custody at Escanaba Saturday by state police officers for the robbery of the section house at Kates, Northland.

Fedos Anischenko, section foreman, came to Escanaba and calmly identified goods found in Wasky's possession. The missing articles included a black leather traveling bag, new suit of clothes, and other articles valued at about \$100, also \$24 in cash. In the cash was a \$10 gold piece, and it was this coin that brought about Wasky's arrest by the Escanaba police department.

What How Why ?

PLYMOUTH FLOATING POWER

THE WHOLE NATION WANTS TO KNOW MORE ABOUT IT

The revolutionary character of the New Plymouth has created a great flood of interest. Even the hardest of skeptics are so amazed at this new four that performs like an eight that they ask eagerly for the facts behind this tremendous accomplishment.

What is Floating Power?
Floating Power is a term applied to the new and revolutionary principle of mounting the engine in the car frame, developed by Chrysler Motors engineers for the New Plymouth.

Just how is the engine mounted?
On two live-rubber mountings nearly an inch thick. These mountings are so placed that a line drawn through them passes through the center of gravity of the engine. Thus the engine is suspended in perfect balance.

What does Floating Power do?
The live-rubber mountings allow the engine to rock upon its natural axis as if in a cushioned cradle. Vibration is thus entirely eliminated from the car.

Why does Floating Power succeed when all other methods fail?
Because Chrysler Motors engineers have not tried merely to dampen vibration; they have achieved an entirely new principle which dissipates the motor impulses so that they never reach the body and frame.

Why and How is Power Increased?
Because the elimination of vibration allows higher compression, which gives greater horsepower without increasing cylinder size. Floating Power makes possible 56 brake-horsepower and actual stop-watch speeds of 85 and 70 miles an hour, and pick-up from 0 to 40 miles in 9.7 seconds.

What else does Plymouth offer?
A score of things! Plymouth's Free Wheeling combines the advantages of the various types now in use. As a result, it permits Free Wheeling in all forward speeds, and it also may be completely locked out. The Easy-Shift transmission which enables you to shift, without clashing, from second into high and back into second, if you wish, at speeds up to 50 miles an hour. The new, double-drop frame for greater safety and roadability. New, eye-compelling beauty. Internal hydraulic brakes. Safety-Steel body.

You must see and drive the car to appreciate the phenomenal performance and value made possible by one of the greatest engineering developments the industry has ever seen.

Ho Hum; Same Old Story—Rouman's Still Lead League

It's the same old story. Starting where they left off, Rouman's jumped into the league lead as the second half season play got under way by winning both their games last week.

While they are deadlocked with three other teams, Green's Flooring Mill, and the Reporters as far as standings go, the restaurateurs have two victories to their credit, whereas the others have only one.

Team standings: Team W L PCT Rouman's 2 0 1.000 Green's 1 0 1.000 Flooring Mill 1 0 1.000 Reporters 1 0 1.000 High School 0 1 .000 Soc Office 0 1 .000 Men's wear 0 1 .000 Marble Arms 0 1 .000 Veneers 0 1 .000

ROUMAN'S WIN—Rouman's copied their ninth straight victory in Gladstone diamond ball play, Friday evening, when they defeated the Men's Wear, new league entrant, 5-3, in a hard fought battle.

Rouman's big inning, the fifth, was featured by circuit bingles by Olson and Rouman. Murdock, of the haberdashers, also scored a homer.

Duchey, star moundman of the Rouman crew, whiffed 10, bringing his league total to 37 in 55 innings.

Score by innings: Rouman's 100 241 0—3 9 1 Men's Wear 110 010 0—3 5 1 Batteries: Ducheyne and Swan; Haberman and Peterson. Umpires: Skellenger and Haglund.

GEARLESS AUTO

London—A partially blind Scotch engineer, Watson Peterson, has invented an automobile without any gears or clutch and which needs only half as much fuel for operation as the ordinary car.

The car operates noiselessly and, it is said, can creep along at two inches an hour, or speed up to 40 miles an hour in three yards.

STOCKS IN SHORT SESSION

STOCK MARKET AVERAGES (By The Associated Press) Table with columns for Today, Pre. Day, Month Ago, Year Ago, High 1931, Low 1931, High 1930, Low 1930.

BY JOHN L. COOLEY (Associated Press Financial Writer)

New York, July 18. (P)—Inasmuch as the foreign markets were closed and Wall Street was unwilling to make a move pending developments at the Franco-German conference in Paris, stocks spent two hours of virtual idleness today.

German government bonds, on the other hand, rallied confidently and other obligations of German origin moved upward with them. Domestic issues were quiet and firm. Wheat eased, but corn and cotton were steady.

Stock transactions totaled 367,170 shares, according to the Associated Press compilation, the smallest Saturday business since August 2 last year. Many traders had gone away for the week-end, but the primary factor in this extreme dullness was the market's decision to await news from the French capital.

Weakness of sterling was a feature of the day's markets here. Cables dipped 5-8 of a cent to \$4.84 5-8. Reports from London said most of the gold withdrawn from the Bank of England had been for French account and that some minor movements to that country were imminent for next week unless exchange improved.

Stocks opened heavy and extended their losses in the early trading. During the second hour, however, prices firmed slowly with the result that the Standard Statistics average involving 90 issues finished unchanged. Final quotations on such stocks as U. S. Steel, American Can, Radio, Standard Oil of New Jersey, Texas Corp. and Montgomery Ward, some of which had been off a point, were exactly the same as the previous close.

Youngstown Steel operations are expected to be lower next week. One estimate placed activity at 34 per cent of capacity. Republic Steel, which two weeks ago was running at 45 per cent, will be down to about 35.

CHICAGO PRICES

CHICAGO LARD. Chicago, July 18.—Lard, 7.75. CHICAGO POTATOES. Chicago, July 18.—Potatoes on track 2 1/2 to 3 1/2. Onions 1.00 to 1.15. Poor stock 30 to 35. Arkansas Triumphs 1.60 to 1.75. Few large tubers. Highest quality Virginia barrel cobbles 2.35 to 2.40. Few 2.45 to 2.50.

BUTTER PRICES. Chicago, July 18.—Butter prices were unchanged today. Offerings were light and trade quiet. Fresh: 95 case 25 1/2 to 3-4; 92, 24 3/4; 91, 24; 90, 23 1/2; 89, 22 1/2; 88, 21 1/2; 87, 20 1/2. Centralized carlots: 90 case 24 3/4; 89, 23 1/2; 88, 21 1/2.

CHICAGO GRAIN. Chicago, July 18.—Frustrating against heavy arrivals of newly harvested wheat and faced by prospects of an augmented supply of Montana wheat prices were lower today. Uncertainties that surrounded financial parity abroad, with wheat export business at a halt, tended to threaten bullish action. The corn market averaged higher, influenced by continued drought and by temperatures still threatening crop damage.

Wheat closed unsettled, 3-8 to 4-4 cents lower, corn 1-8 down to 7-8 advanced, oats 1-8 off to 10-10, and provisions varying from 1/2 cents decline to 7 cents gain. Much enlarged arrivals of wheat in Chicago put a handicap on prices at the outset. The bearish effect was supplemented later by announcement of the week's primary receipts totaling 25,004,000 bushels against 21,255,000 the week previous and 24,657,000 a year ago. Canadian reports of wider black rust infection failed to act as an offset.

Corn rebounded to general absence of headline news and to the weekly forecast holding out no hope of a break up of drought in the corn belt. A few of the largest traders were active sellers on price basis. Ohio and Indiana shipments were reported off 100,000 bushels. New England for all rail shipment at lower prices than the grain could be delivered at Chicago on a lake and rail basis. Outlook favored with corn. Provisions weakened with hog values.

FOREIGN BONDS ENJOY UPTURN

BY ALEXANDER HENDERSON (Associated Press Financial Writer)

New York, July 18. (P)—Foreign obligations were the one group of bonds to experience a today. Railroad and public utility loans were higher at times but the closing prices were 4 1/2 to 5 1/2 about evenly between gains and declines. Industrial issues were firm but dull.

German 5 1/2 of 1985 were the most active issues of the whole list with par value sales of \$413,000 and they finished 7/8 points. The 7s of 1949 did not provide so large a turnover but also showed a good gain. The net advances in German obligations of various corporations, municipalities and provinces were more generous than the two national government issues. Sharp gains and active trading characterized Chilean loans too. Other Latin American and European issues were generally higher.

CURB SNORES IN DULL MART

BY CLAUDE A. JAGGER (Associated Press Financial Writer)

New York, July 18. (P)—The curb market experienced the dulllest day in more than five years today. Price changes were almost entirely inconsequential. Only trading favorites appeared on the tape, and many of them failed to appear. The turn over for the two-hour session was approximately a total of 30,000 shares. The smallest Saturday turnover previously this year was 185,880 on June 13, and the smallest for 1930 was 122,300 on June 13.

This market, so far as the volume of business is concerned has been hard hit by slump in common stock financing. As a primary market, its chief function has been the distribution of new issues of stock to a degree that will make them acceptable to big board trading.

In today's trading, the utilities were under pressure for a time. Electric Bond and Share and American Gas and Electric each selling off more than a point. The former, however, recovered to close only 5-8 lower. Midwest States, which dropped sharply yesterday, rallied nearly 4 points. In the oil, Vacuum was again strong, pushing up more than a point, as was Solar Refining, which recorded another new high. Gulf and Humble were inactive, and Cities Service and Indiana about unchanged.

In the industrials, Mead Johnson gained 2, and Aluminum Co. one point. Ford, Ltd., sagged fractionally, closing at 11 5-8, 2 points above the year's low. Woolworth, Ltd., however, was firm.

THE LOSER LEG, GETS WATCH Miss Janet C. Pappet, a teacher at Ayr, Scotland, who on November 16, 1928, sustained serious injuries, including the loss of her right leg, while seeing to the safety of her pupils, after the collapse of the roof of the building during a gale, has just been awarded a gold wrist watch, valued at \$100, by the Carnegie Hero Fund Trustees. The trustees say they might do something more for her later, if necessary.

DAY'S MARKETS IN BRIEF

New York, July 18. (P)—Stocks steady; trading dull in recent years.

Bonds strong; Germans rally. Curb steady; trading stagnant. Foreign exchanges irregular; sterling drops. Cotton steady; steady spot market. Sugar holiday. Coffee holiday. Chicago: Wheat easier; disappointing Liverpool cables. Corn steady; insect damage northwest. Cattle quiet. Hogs steady.

WALL STREET BRIEFS

New York, July 18. (P)—Dillon Read & Co., bankers for Siemens & Halske and Siemens-Schuckertwerke, German manufacturers of electrical products, announced that they have been advised by these companies that they have voluntarily paid off short-term credits outstanding with the New York banks, anticipating their maturities by several months. This action was taken to avoid any possible service difficulties in view of the exchange restrictions imposed on Germany.

Contracts for the erection of a new 48-story office building at LaSalle, Adams and Clark streets, Chicago, have been awarded to George A. Fuller Co. the general contract involves the expenditure of approximately \$11,000,000, and the project will give employment to about 7,500 men in the Chicago territory.

The Kansas City Southern Railway Co., including the Texas-arkans and Fort Smith, reported for June net after taxes amounting to \$398,409, compared with \$419,501 in the like month last year.

The New York City Bank stock market during the past week was slightly firmer as compared with the previous week, as indicated by the dollar index figures compiled by Holt, Rose & Troster. Based upon July 18 prices, sixteen leading bank and trust company shares were quoted at 18.9 times known earnings, against 18.2 times at the close of the previous week. The yield now stands at 4.55 per cent, against 4.51 per cent a week ago.

1827 EXPENSE STILL RULES At an inquest at Omagh, Ireland, Coroner W. H. Fyfe protested against the inadequate expenses he was allowed to pay witnesses attending from a distance. All he could pay a witness who had come from Newtonswart was 50 cents. This amount was fixed in 1827 and had not been changed. The matter may be placed before the next Legislature.

LOCAL YOUTH BEATS JOLLY, 3-2, IN FINAL

(Continued from Page One)

loss and shot straight down the fairway. Jolly's drive was close to his. They both were short on their second shots. Jolly went on with his third and Glavin was again short. Both took two putts. Jolly's hole.

Second Hole—Jolly sent a terrific drive far to the left of the 252 yard hole. Glavin drove to the trap. Jolly made a beautiful approach to the green and Glavin missed his trap shot. Jolly sunk for a long birdie and Glavin took his par. Jolly two up.

Third Hole—No prettier drives were ever made on the Menominee course than both boys made on number three. Glavin was straight down the fairway for two hundred and sixty five yards and Jolly was about five yards ahead of him. Glavin pitched to the green and Jolly's ball rolled over the edge into the deep trap. Glavin sunk a putt for a birdie three and Jolly picked up. Jolly one up.

Fourth Hole—Glavin played an iron off the hard number four dog leg and was down to the edge of the woods. Jolly sent a terrific spoon over the woods. Jolly pitched to the edge of the green and Glavin pulled his long iron to the rough alongside of the green. He played a dandy out and both took pars. Glavin was given a big hand on his nice recovery. Jolly one up.

Fifth Hole—Glavin drove long to the rough and Jolly went straight down for 250 yards. Both came out nicely. Glavin missed a long putt by a fraction of an inch and Jolly did likewise. Jolly took the hole. Jolly two up.

Sixth Hole—Both hit beautiful drives far down the fairways but to the right. Jolly was up on his approach but Glavin went over the edge to the bank of the river. Jolly took the hole and was three up.

Seventh Hole—Jolly was wide on his iron tee shot and Glavin placed his nicely on the green. Jolly was penalized because his ball was unplayable. He shot a second and was short of the green. Glavin sunk for a par and Jolly picked up. Jolly two up.

Eighth Hole—Both hit drives more than 260 yards down the long 627 yard hole. Jolly topped his second shot and Glavin was dead down the course again. Jolly sliced his third toward the river and Glavin sent a nice iron to the edge of the green. Jolly pitched over the green and back but was down a stroke. Glavin took a birdie five and Jolly a six. Jolly now one up.

Ninth Hole—The drives were like bullets fired from a rifle—straight and far. Both hit nice second shots. Glavin missed a birdie three, the ball hitting the inner rim of the cup and bounding out. Jolly sunk a nice long putt for his par. Jolly still one up as the first nine ended.

Tenth Hole—The gallery settled down to a long hard grind down the hot fairways once more and both boys sent long drives but Jolly sliced off to the rough and Glavin just missed a trap. Jolly's second shot hit a wire and went back into the rough. Glavin played a dandy approach and took the hole with an easy par. Match evened up.

Eleventh Hole—This was the feature hole of the day. Glavin drove straight and long on the 252 yarder, his drive landing five feet from the pin. Jolly duplicated and his drive was inside the Escanaba's. Both missed their putts and took pars. Match even.

Twelfth Hole—Both boys were playing cautiously now and for a second seemed to show the strain they were under. The gallery was growing. Glavin hit the ground back of his tee and barely got over the short ditch. It looked like an opening for Jolly but he sent his drive far and high to the right over the trees and into the sand trap. Jolly made a splendid shot out of the trap and Glavin followed with a beautiful approach from far to the right. Jolly three putted and Glavin sunk his par for nice recovery to win the hole and go into the lead. Glavin one up.

Thirteenth Hole—Again Glavin played an iron and Jolly sent one of the most wonderful drives of the day long and far over the woods. Their second shots held much in balance. Glavin pulled his brassie from his bag, lined up his ball and then called for a spoon. A trip hammer shot sent the ball high and far to the green. Jolly was a little short coming to the edge. Both took two putts. Glavin still one up.

Fourteenth Hole—Glavin hooked his drive into the rough to the left. Jolly sliced just as long a one into the rough on the other side. Jolly pitched out short and Glavin sent a deadly iron to the green a distance of 154 yards

from the deep areas. Glavin missed his birdie by a fraction again but took the hole with a par. Glavin two up.

Fifteenth Hole—Jolly hit the longest ball of the day almost to the edge of the 264 yard green. Glavin was off to the left. Both pitched nicely and took two putts. Glavin two up.

Sixteenth Hole—Glavin sewed the match up here with an accurate iron to the green. Jolly was wide. Glavin parred the hole and won the match three up and two to play.

The scores were:
Par out ---- 444 444 364—37
Glavin out ---- 543 355 354—38
Jolly out ---- 473 344 464—40
Par in ---- 444 444 3—27
Glavin in ---- 434 444 3—26
Jolly in ---- 538 454 4—30

Other Escanaba Winners
Other Escanaba winners at the tournament were M. N. Smith winner of the Beaten Four in Class B and Don Boyce who won the low qualifying round in the first day of play. Several other Escanaba players were serious contenders but faltered in the last matches.

Jolly defeated Don Boyce, of Escanaba, in the morning round, 3 and 2 to reach the finals while Glavin eliminated the 84 Peter brothers, both by 5 to 4 scores.

POWERFUL MAGNET
Berlin—A huge 14-ton electromagnet has been completed here for scientists at Leliden, Holland. The scientists hope, through the terrific force generated by the magnet, to wrench apart and learn the secrets of atoms. It will be used in intense cold in agonizing the atoms.

EXPERT URGES RATE INCREASE

Railroad Earnings Must Increase to Protect Investors

Washington, July 18. (AP)—A prompt increase in railroad earnings was pronounced a necessity today before the Interstate Commerce Commission.

Fairman R. Dick, New York investment expert, supporting the petition of the carriers for a 15 per cent increase in freight rates, said that unless the lines are given this assistance they will lose

a principal source of their capital. Unless earnings increased, he continued, billions of dollars worth of railroad securities must be wiped off the legal list of approved investments for insurance companies and savings banks.

In many states the law requires that a railroad be earning 1 1/2 times the fixed interest on its indebtedness before insurance companies and savings banks can buy its securities.

Situation Serious.
Dick said inability to produce earnings of this amount soon would have the effect of taking \$5,748,500,000 par value of bonds off the legal list.

"The country has no idea of the seriousness of the railroad situation today," he said. "It is only comparable to that of Germany. Capital is fleeing from railroad to utility, government and mun-

icipal bonds and it will be very hard for the railroads to obtain capital necessary to re-finance maturing obligations. Restoration of public confidence in railroad credit, he said, is absolutely necessary to avoid disaster.

Commissioner Meyer, before releasing until Monday, said that after the railroads completed their presentation "neutral" witnesses and any opposition spokesmen who were ready would be heard. Now read the Classified page.
