CURTIS LIKELY RUNNING MATE OF PRESIDENT

DELEGATES DISCUSS PARTY PLANK ON PROHIBITION

BY D. HAROLD OLIVER
(Associated Press Staff Writer)
Chicago, June 10 (AP)—With both wet and dry leaders dinnning advice as to a prohibition plank in their ears and only the question of delegate contests to be decided, the slowly assembling members of next Tuesday's Republican national convention today indulged further in gossip over President Hoover's 1932 running mate.

It was only gossip. The most authoritative word from Washington pictured Mr. Hoover as ready, if necessary, to declare his personal desire that Vice President Curtis be renamed to run with him this year.

There was nothing about the anti-Curtis gossip in hotel corridors and lobbies in Chicago today to indicate that it would be necessary for Mr. Hoover to go that far.

Despite the inevitable rumors, some started innocently with a view of stirring up the preconvention hotel debate and others carrying some degree of authority, the administration forces undoubtedly were in control.

Dry Flight Expected

Senator J. L. Dickinson, of Iowa, convention keynote speaker, said if a re-nomination prohibition plank were adopted, it would be wise to "renominate Vice President Curtis because of his strong dry following."

The gossip today over the vice-presidential nomination embraced the names of Calista Coolidge, Governor of Connecticut, Theodore Roosevelt of the Philippines, Charles G. Dawes, former Governor of Illinois, and Senator McNary of Oregon.

Administration leaders, however, were confident the renomination of Curtis would go through without a hitch.

As conferences continued over prohibition, Dr. F. Scott McBride, general superintendent of the Anti-Saloon League, told a "loyal convention" of dries in a church near the convention stadium that a repeal plank in the Republican platform would be "a colossal political blunder."

Earlier in the day Henry H. Curran, president of the association against the prohibition amendment, issued a statement saying a majority of the delegates would not go back home "until they have in their pockets the Republican party's declaration of repeal."

Senator Dickinson said he was not sure if prohibition would be

Conservation Land Taxation Is Upheld

Lansing, Mich., June 10 (AP)—Constitutionality of Michigan's 10-cents-an-acre on conservation lands was upheld today by Circuit Judge Charles B. Colliac, with an opinion dismissing the suit of the Grand Rapids chapter of the Isaac Walton League to stop payment on the levy. Officials of the league immediately announced they would appeal to the state supreme court.

A restraining order holding up the payment of the tax was also dissolved by Judge Colliac, who said the state conservation director, George Hogarth, said the current payment due the counties on the tax is \$4,000.

BONUS SEEKERS GET MESS FUND

\$5,000 Gift from Priest Permits Veterans to Stay at Capital

BY C. P. WILLIAMSON
(Associated Press Staff Writer)
Washington, June 10 (AP)—The capitals "army" of nearly 10,000 bonus payment seekers at well tonight from enhanced food stocks today bought from an enlarged treasury.

Their mess fund was raised to \$7,000 by a \$5,000 gift from Father Charles E. Coughlin, Detroit "radio priest." It was conditional that communist propaganda be kept from the camps and that Brigadier General Pelham D. Glasford, Washington police superintendent, administer it.

The veterans agreed and General Glasford was reinstated as national treasurer, a position he "washed his hands of" several days ago in an effort to get the army from under the protective wing of police assistance.

As they ate of plentiful supplies of ham, beans and coffee, their leaders started a general clean-up of the encampments to please the health department and protect the men from illth and disease.

The veterans' national headquarters today estimated new arrivals at 100 an hour, but police believed this exaggerated.

Wide powers were conferred on Donak E. Carter of Cleveland, Ohio, designated health officer by Walter W. Waters, the veterans' commander-in-chief.

Two other camps to be established included a health center and a separate camp for communists.

Youths Of Parents Killed By Auto Ask Freedom for Driver

Detroit, June 10 (AP)—Requesting that the man whose automobile killed their mother and father be given his freedom, two children today gave Traffic Judge John J. Maher "one of the hardest cases ever dealt with" in his long service on the bench.

The children, Robert, 13, and Douglas Keating, 13, came to court while Judge Maher was debating the case of Thomas J. Smith, whose automobile struck and killed Mr. and Mrs. Harold F. Keating last February.

"We don't want to see Mr. Smith go to jail," the children said.

"But he has killed two people," said Judge Maher.

"Yes, but that won't bring them back," said Douglas. "It will just take Mr. Smith from his two children."

Admitting he "never had a harder decision to make," Judge Maher postponed until Saturday his decision.

EFFORTS FAIL IN PARLEY ON OATH QUARREL

LONDON CONCLAVE CLOSES WITHOUT AGREEMENT

BY ALVIN HALLMAN
(Associated Press Staff Writer)
London, June 10 (AP)—All efforts to reconcile Ireland's profession of complete independence from Great Britain and the commonwealth's insistence on the oath to the crown as the chain that binds, failed today.

From before noon until after 5 p. m. the earnest and unsmiling president of the Free State, Eamon De Valera, and heads of the British government, including Prime Minister Ramsay MacDonald, battled with words across the conference table at Ten Downing street.

Finally, a few minutes before the train for Dublin was due to depart, the conferees, not a smile among them, disbanded. Mr. MacDonald went to see the king before going to Lausanne conferences tomorrow, and President De Valera and Vice President Sean O'Kelly to journey back to Erin.

Dramatic Interview

A communique read aloud in the office of J. H. Thomas, secretary for dominions, said:

"There was a prolonged discussion on the points at issue, but it was not found possible to reach an agreement."

"It was disappointing to us," said a source close to the Irish president. "There are to be no further negotiations."

Mr. De Valera and O'Kelly had hardly settled themselves inside their railway-coach, when Mr. Thomas came hurrying down the platform.

Then occurred a dramatic interview. Thomas, leaving far behind the table between the ear seats, appeared for a quarter of an hour to be arguing vainly with De Valera, who sat unperturbed and expressionless, holding his chin in his hand.

Thomas would count off points on his fingers, then point his right index finger straight into the eyes of the Irish president. The tall Saorstat leader said hardly a word in response.

The train started, and the two shook hands, and the hurried conference was over.

The same hundreds of persons, mainly women, who had shouted "up De Valera" when he had entered the railway station, hissed and booed, and shouted "traitor," at Thomas as he left.

Father, Son Admit Detroit Murder

Detroit, June 10 (AP)—James Trombley, 46, and his son, Ralph, late tonight admitted to detectives that they killed James Krupka, 46, Detroit, whose body was found buried under two feet of sand earlier today by two employes of a motor factory near the intersection of Schoolcraft and Levan roads.

Detectives said Trombley and his son said they killed Krupka at their home Wednesday night in an altercation over the elder Trombley's attentions to Krupka's wife.

Trombley and his son told detectives that Krupka came to the Trombley home angry because "Trombley" and his son were planning to go to Geneva, O., where Mrs. Krupka was visiting, to return her to Detroit.

\$200,000 Bonds In Philadelphia Stolen

Philadelphia, June 10 (AP)—Thieves decouped a bank clerk from his desk by a telephone call today and stole negotiable securities with a par-value of \$200,000 from the Girard Trust company.

The securities had been delivered ten minutes earlier by a messenger of the Pennsylvania company for insurances on lives and granting annuities.

Erwin A. Fiero, the administrative clerk, said he was preparing to check over the securities when his telephone rang and an agitated voice said: "Oh, Mr. Fiero, I just left \$50,000 worth of bonds in the business department. Please grab them up quickly before anybody gets them."

The clerk hurried to the nearby department, but could not find the bonds. When he returned to his desk the package of securities was missing.

DEBTS REVISION SEEN IN EUROPE

London, June 10 (AP)—There was no attempt today to disguise the impression in government circles that Europe was on the verge of important developments in the war debts and disarmament fields, and the sum total of reports and rumors flying about spelled compromise.

But just what turn affairs would take was a matter of speculation tonight, twelve hours before Prime Minister Ramsay MacDonald goes to Paris for preliminary discussions with Premier Edouard Herriot of France.

France and Great Britain long have been at odds on war debts and disarmament, the French standing for absolute security and an armed league of nations, while the British want to wipe out war debts and reparations in one sweeping gesture. The British also have opposed the armed league idea.

The suggestions, however, contained in Premier Herriot's recent speeches that he was prepared to take drastic action to help clear up the European economic muddle was warmly welcomed in Great Britain. Among these were a provision for reducing armament appropriations by ten per cent and a declaration of reciprocity at Lausanne.

The impression here was that the known views of Premier MacDonald to the effect that disarmament is necessary, would attract more enthusiastic support in France than they had heretofore.

The British and French premiers will meet tomorrow in Paris to discuss the whole situation before proceeding to Lausanne for the war debts and reparations disarmament conference at Geneva.

How Mark Hanna Put Big Business to Work; Ohio Boss Cracked Whip Over Corporations.

(EDITOR'S NOTE: This is the fifth of a series of six daily stories on the important part politics has played in the choice of the nation's presidents from the early days of the republic down to the present.)

BY RODNEY DUTCHER
Washington, June 10—Mark Hanna, one of the most powerful and effective of American political bosses, decided that his friend, William B. McKinley, must not be left at the mercy of a group of machine politicians conspiring in a smoke-filled hotel room.

So he went personally through the country with plenty of money and plenty of promises, and signed up enough little bosses and delegates to insure McKinley's nomination by the Republicans in 1896.

DEMOS' PLAN FOR AID GETS SENATE O.K.

TROUBLE EXPECTED IN HOUSE OVER MEASURE

BY NATHAN ROBERTSON
(Associated Press Staff Writer)
Washington, June 10 (AP)—An overwhelming bi-partisan majority swept the \$300,000,000 Democratic relief bill through the senate today in less than six hours as congress drove for an early adjournment.

The unemployment aid measure was approved by a vote of 72 to 8 in the same senate which last February brushed aside all legislation for the use of federal funds.

The bill, which now goes to the house, provides for advances to the states on the basis of population through the reconstruction corporation.

Carrying President Hoover's approval, the relief measure found easy going in the senate despite a prophecy by Senator Reed (R., Pa.), that it was a "mile stone in the disintegration of the American republic."

It faces harder sledding, however, in the house which has already passed a \$2,300,000,000 relief measure sponsored by Speaker Clegg.

After its approval today by the senate, Representative Rainey, house Democratic leader, said the measure "offers no permanent relief."

Reed's solemn warning drew the quick retort from Senator Borah (R. Idaho) that: "I do not believe this marks the beginning of the fall of the republic, nor that the republic will fail."

As the senate worked on relief, the house tackled the controversial measure sponsored by the administration for the creation of a system of home loan discount banks.

With the house really waiting for the senate to act on the vital legislation, there was no great necessity for speed, and it did not reach a vote on the home loan bill.

There was plenty of speed on the senate side, however. In addition to passing the relief bill, it approved a partial conference report on the \$177,000,000 agricultural appropriation bill and began consideration of the District of Columbia supply measure.

The appropriations committee, far behind schedule, worked with similar dispatch. It approved the billion-dollar independent offices supply bill, the third of the week, and received from a subcommittee the \$400,000,000 navy measure.

House and senate conferees reached an agreement on the legislative appropriation bill, but left the economy program which is in the same measure, for future deliberation. The vote on the Democratic relief bill showed seven Republicans and one Democrat, Gore of Oklahoma, in opposition. Both Michigan senators voted for the bill.

Say Murphy Forgot To List One Item of Election Expense

Detroit, June 10 (AP)—A charge that Mayor Frank Murphy and his campaign committee had failed to enter into their expenditures report for the November election an item of \$685 tonight was being studied by the prosecutor's office.

Peter A. Quinn, former member of the campaign committee, placed the charge in the hands of the prosecutor, declaring the money was expended from his personal account during the mayor's campaign, which resulted in his election last November.

DEALS IN R. K. O. STOCK RELATED

Story of Short Selling Described to Senate Market Probers

BY FREDERICK G. VOSEBURGH
Washington, June 10 (AP)—A story of short selling and "squeezing out" of stockholders in Radio-Keith-Orpheum corporation was told by two voluntary witnesses today in the senate's stock market investigation.

Ernest W. Stirn of Milwaukee, a graduate student at University of Chicago, said he and his family had lost thousands of dollars in the stock.

Chairman Norbeck (R. S. D.), described him as an example of the "lamb" who has been "short."

Aiding Stirn in laying his story before the senators was his attorney, William J. Morgan of Milwaukee, a former Wisconsin attorney general. The committee heard them at the request of Senator Blaine (R. Wis.), a member.

Inside information of the "lamb" who has been "short," Morgan told the committee that "on October 22, 1931, there was begun in R. K. O. stock a concerted and consistent short selling drive."

"By whom?" asked Senator Cousins (R. Mich.).

"The specialist who handled the stock on the New York Stock Exchange was Michael J. Meahan," Morgan replied.

He said the "conclusion was inescapable" that the drive was carried on by persons with inside information.

Stirn described it as "an inside rigging operation."

Morgan told Chairman Norbeck he "would be glad if the committee would subpoena those in charge of the corporation and follow it through to show who sold the stock and who made the profit."

The short selling campaign, Morgan said, virtually was completed on November 12.

On November 10, Morgan testified, Hiram S. Brown, president of the corporation, after a secret directors' meeting, sent out a letter to stockholders assenting payment of \$5 per share on the ground "an emergency" was faced and under penalty of loss of three-fourths of their stock holdings.

The effect of this was to "squeeze out" many stockholders, who could not put up the money, the witness said, and to enable the Radio Corporation of America to acquire for \$11,500,000—the Radio-Keith-Orpheum corporation which had assets of \$67,000,000.

"It was the most drastic squeeze out I have ever encountered in any investigation or study," Morgan said.

Farmington, Mich., June 10 (AP)—While his farm home and other buildings went up in flames today, Joseph Eisner, Oakland county farmer shot and killed himself with a shotgun fired to a tree, eluding a deputy sheriff and neighbors who sought to question him.

Deputy Sheriff Robert Mitton, summoned by the neighbors, found the Eisner home in flames, and saw Eisner sitting in a tree nearby watching the fire. He ordered him to come down.

Eisner climbed from the tree, walked a few feet away, and pulled a wire attached to the shotgun trigger, the charge from the gun entering his head.

EX-CONVICT NABBED AFTER WAITRESS IN MORROW HOME TAKES OWN LIFE BY POISON

Taxicab Operator With Suicide Victim Night of Abduction; Condon Says Man Is "John"

BULLETIN
Detroit, June 10 (AP)—Robert Burns, 20, described as a former taxicab driver in the east, was arrested tonight by two homicide squad detectives, who said he was wanted for questioning in the Lindbergh case.

The detectives, Thomas Hutchinson and Charles Searle, said they were positive Burns was a former sweetheart of Violet Sharpe, who committed suicide in the home of Mrs. Dwight Morrow today.

Burns, detectives said, had in his possession a record of all happenings in the Lindbergh case. When detectives entered his darkened room he was reading an extra edition of a Detroit newspaper with the aid of a flashlight. The extra told of tonight's developments in the Lindbergh case.

Englewood, N. J., June 10 (AP)—An ex-convict was seized as a possible suspect in the kidnaping and brutal murder of a waitress in the Dwight Morrow household here.

The prisoner was Ernest Brinkert, a taxicab operator. He was taken into custody at New Rochelle, New York, a scant twelve hours after Violet Sharpe, 26, the servant, had drained a deadly draught of poison in the Morrow residence.

After the suicide which apparently was prompted by the immediate prospect of further questioning, police said Miss Sharpe had identified Brinkert as her companion on the night of March 1, when the baby was kidnaped. She was unable, they said, to give a satisfactory account of the whereabouts of herself and Brinkert on that night.

Condon Identifies Photo
The apprehension of Brinkert in a swift move by Westchester (N. Y.) county authorities was climaxed by a police statement at White Plains, N. Y., that Dr. John F. Condon, intermediary, had identified a picture of Brinkert as the man to whom he paid \$50,000 in a New York City cemetery April 2.

The White Plains statement, however, was made in the face of another statement by Inspector Harry Walsh of New Jersey authorities that Dr. Condon some time ago had failed to identify a picture of Brinkert.

Dr. Condon arrived at New Rochelle at 11:00 p. m. E. S. T. to confront Brinkert in a definite test of identification.

Mrs. Morrow Keeps Faith In Waitress

BY KATHERINE HERBE
(Associated Press Staff Writer)
Englewood, N. J., June 10 (AP)—Despite suspicions of police that Violet Sharpe, waitress in the Morrow home, had guilty knowledge of the kidnaping of the Lindbergh baby, Mrs. Dwight W. Morrow today reiterated her faith in the woman's innocence even after the servant had committed suicide.

All members of the Morrow household had grown fond of her since she joined the staff of servants nearly two years ago. She was a delicate type with dark curly hair and violet eyes.

She came from Berkshire, England, about two and one-half years ago, stopping first in Canada and then coming on to the United States. She obtained her position with the Morrows through a New York employment agency.

Police said their investigators had disclosed that March 1 was the first time she was known to have kept company with a man since she entered the employ of the Morrows. Most of her days off she spent at the Morrow home.

MEANS' TRIAL NEARLY ENDED

Defense Rests Without Presenting Single Witness

Washington, June 10 (AP)—Testimony in the trial of Gaston B. Means on charges of larceny and embezzlement of \$104,000 from Mrs. Evelyn Walsh McLean in a weird plan to ransom the Lindbergh baby ended abruptly today without the defense presenting a single witness.

Tomorrow prosecution and defense counsel will discuss with the court instructions to the jury and on Monday final arguments will be made.

The defense's resting of the case came after Justice James M. Proctor had overruled a motion by defense for a directed verdict of acquittal.

The prosecution rested after it had called a number of witnesses, including Col. Robert M. Guggenheim, who said he had been contacted to take delivery of the kidnaped son of Col. and Mrs. Charles A. Lindbergh; Capt. Emory S. Land, a relative of Lindbergh, and Robert F. Fleming, real estate man from Edgewater, Md., who said he arranged the appointment between Col. Guggenheim and Means.

Toll of Conference
Both Guggenheim and Fleming said they had conferred with Means four days after the child was kidnaped. They added the meeting was arranged at Means' request and that he told them the kidnap plot had been carried out by persons in league with a convicted friend of his whom he had met in the Atlanta penitentiary.

Fleming quoted Means as saying that by engineering the return of the baby he would "rehabilitate himself in the eyes of the public and get enough business for his private detective work to last him 10 years."

Col. Guggenheim, because of his friendship for Lindbergh was sought out as an intermediary, it was explained. He testified he was requested to get an automobile with diplomatic or other official tags, to provide immunity and that he obtained a car from the Austrian minister, Colonel Guggenheim said the name of Mrs. McLean, estranged wife of the publisher of the Washington Post, was never mentioned at any time in the negotiations.

Captain Land testified he had been called by Mrs. McLean on March 4, and that, on the following night, he met with her and Means. The latter, he said, told them that contact could be made with the kidnapers "for a price."

The proposition put up to Captain Land, he said, was to go to Hopewell to take up with Colonel Lindbergh the matter of acting as an intermediary and "to do two things, to get immunity for Means and for the kidnapers." Captain Land obtained such promises from Col. Lindbergh, he said.

DEFENDANTS IN BAY CITY FREED

Judge Perturbed as Result of Flint Conspiracy Case

Bay City, Mich., June 10 (AP)—A verdict of not guilty was returned by a jury of 11 men and one woman in favor of Lillian Ordway, former Flint policeman, Charles Meyers, former detective, Herb Zink and Mel Coggins, reputed bootleggers, charged with conspiracy to violate the prohibition law in the federal court here tonight at 10:30 o'clock. The panel had deliberated only two hours.

Apparently perturbed at the verdict Federal Judge Arthur J. Tuttle ordered the court room silent while he told the large assemblage on hand that "the present condition of law enforcement is due to the quality of the jurors and the responsibility for a verdict like this is due to the juries that we have in this country."

The trial of the case has occupied the entire week in federal court here and brought forth sensational charges on the part of government witnesses. More than 25 witnesses were called by both sides during the course of the trial which concluded tonight.

Efforts To Block Noted Trout Stream Opposed By State

Lansing, Mich., June 10 (AP)—The state will contest efforts of Frank Collins to block part of the Pine River, a famous trout stream, George Hogarth, conservation director, said today.

Collins figured in a supreme court case some time ago when the court ruled that owners of shore property may not bar fishermen from navigable streams. The stream may be traversed by waders or in boats the court held. Fishermen stepping onto the bank, however, would be trespassers.

As a result of that case the six or seven miles of the river where Collins owns the abutting land was opened to fishing. According to Hogarth, Collins now is placing logs and other obstructions in the stream, claiming they are "fish cover." The obstructions, Hogarth said, would prevent fishermen from using the stream. He asked an attorney general to take action when necessary.

Cadet Seniors Are Graduated At West Point

West Point, N. Y., June 10 (AP)—They added 259 officers to the ranks of the United States Army, as the military academy's graduating class was sworn into the army at the end of impressive commencement day exercises.

The grey and gold of the cadet thus will be doffed for the khaki of the second lieutenants by the graduates who heard Maj. Gen. J. G. Harbord, retired, assert many signs indicate heavy weather ahead for the army and navy for indefinite time to come.

General Harbord said in the commencement address at the United States Military Academy that it seemed "all too likely" that during the lifetime of the graduating cadets "our streets may again be filled with marching men."

"No one who has known war cares to look on its ugly face again," he said. "But while envy, malice, deceit, and the baser qualities of human nature remain; while nations strive for commercial supremacy; with populations increasing in territories that remain unchanged; and with homogeneous races divided by artificial boundaries in continental Europe; wars will still come."

War Not Unlikely
"With the Philippines turned loose to become the prey of the strongest; with the Red menace in Russia; with civil war still casually going on in China; with Henry Pu-Yi shivering in the executive chair of Manchuria; and with a quota of hungry men and women in every country in the world; it seems all too likely that some day in your lifetime our streets may again be filled with marching men."

General Harbord told the cadets graduating into army life that they might be the ones to witness the final justification of democracy "in the long weary aftermath of the great war."

"Your may be the generation," he said, "to reap the fruits of the sacrifices your fathers and your brothers made."

Cadet Kenneth E. Fields of Elk-hart, Ind., was appointed first captain of the corps of cadets by Major General W. D. Connor, superintendent of the academy. The promotion was announced after the graduation exercises.

As First Captain Fields will be the senior cadet and will lead the corps at all parades, reviews and other ceremonies. In addition to this highest military honor he has stood number one in his class for the past two years and he has won three major A's, two as a halfback on the football team and one as a baseball pitcher.

Other cadets promoted to the grade of captain and placed in command of cadet companies include Lawrence J. Lincoln, Harbor Beach, Ind., and Milton F. Summerfelt, Benton Harbor, Mich.

EX-CONVICT IS NABBED AFTER GIRL SUICIDES

(Continued from Page One)

The name of the man she went out with. And insofar as she did talk, her statements were conflicting. Police said nothing. In fact Miss Sharpe's name was never mentioned in published reports about the case. But they concentrated their efforts on breaking down her defiant resistance.

Servant Was Nervous
Yesterday they began to break through. They brought her pictures of men whose names had been found in her room. She pointed to the picture of Brinkert. He, she said, was the man she had talked with on the telephone; he was the man she had gone out with that night.

Although she was at last beginning to tell what the police wanted to know the examination had to be interrupted. She was so nervous that her questioners feared to press her further except with a doctor in attendance.

The questioning was put over until today. Shortly before noon the police went to the Morrow home and told Charles Springer, secretary to the late Senator Morrow, to have the maid prepare herself for further examination.

The young woman went to her room and there she poured crystals from a can marked "Poison" into a glass, let the crystals dissolve, and drank the deadly draft.

Returning then downstairs Miss Sharpe presented herself in her neatly starched uniform, apparently ready to submit to further questioning.

The next moment, as the poison struck with fatal strength, she was a crumpled heap on the polished floor.

How long Violet Sharpe has known she was under serious suspicion is a matter of conjecture, but she must long have realized that she was being subjected to far more rigorous watch than other servants in the Lindbergh and Morrow homes.

For not long after the kidnaping, when her first responses were unsatisfactory, police took action against her of which she was unquestionably aware. They took her to the Lindbergh home at Hopewell for continued examination and in her absence her room was searched, all her belongings confiscated, and information gained which eventually led to her partial account of her doings on the night of the kidnaping.

Among her effects in the room at the Morrow home was found a list of names and addresses, almost

all that of Brinkert. Every one of those names was run down by police, the activities of each man named on the night of the kidnaping was checked and many an alibi established.

Then yesterday morning the pictures of these men were spread before the almost hysterical woman. "Which is the man you talked with on the telephone on March 17" she was asked. "Which is the man you went out with that night?"

The eyes of her inquisitors were boring into her from all sides. She could withstand the pressure no longer. She pointed at the picture of Brinkert and police knew that their suspicions had some definite foundation.

As police disclosed today that their suspicions of Miss Sharpe go back almost to the day of the kidnaping itself, it was supposed that she had been under constant and strict surveillance ever since, to all intents a prisoner in the Morrow home.

And yet somehow she got the can of poison crystals, to hold against the day when her resistance might be gone. She must have obtained it after the kidnaping, although it is a substance sold only on a doctor's prescription, or else she had it hidden before the child was taken, and hidden it so securely that not even the thorough police search of her room disclosed it.

After the suicide, Col. H. Norman Schwarzkopf, superintendent of state police, broadcast a general alarm for Brinkert and Miss Sharpe's sister, Brinkert, he said, had a police record including two arrests and one penitentiary term.

Drives Green Coach
The first arrest was on Oct. 21, 1922, in Westchester county for petty larceny. No disposition of the case is on the records. On April 17, 1926, he was convicted at White Plains for assault and sent to the county penitentiary.

Brinkert drives a green coach type automobile, the kind of car seen leaving the Lindbergh estate about the time of the kidnaping. Because this car was seen many persons in green cars have been questioned since the kidnaping, and ownership of one green car ordered against one man.

Shortly after the kidnaping Henry (Red) Johnson, sailor sweetheart of the baby's nurse, Betty Gow, was picked up and subjected to lengthy examination. He eventually satisfied police he had nothing to do with the case, but it was found during his questioning that he was in the country illegally and he was ordered deported.

Miss Sharpe, Col. Schwarzkopf said, was employed by the Morrows through a New York employment

agency and came from Canada two years ago.

Englewood is about 55 miles from the Hopewell estate of the Linberghs, a distance which requires about two hours by automobile through heavy suburban traffic.

The exact story of Miss Sharpe's whereabouts on the night of March 17 as pieced together after she first gave conflicting accounts was not made known by police.

Finally, however, she was understood to have related that she had been picked up in the driveway of the Morrow home by an automobile which contained several persons, one of them Brinkert. She said they went to a motion picture show in East Orange and returned to Englewood before midnight.

The slight-bonned waitress said she was introduced to Brinkert some time in February by her sister, Edna. On one of the three times which Miss Sharpe was questioned by police prior to today she was taken to the headquarters established in the Lindbergh home at Hopewell.

Brinkert had been operating a taxicab business at White Plains, N. Y., until about 13 months ago.

There were indications that police had given Scotland Yard a definite address in England where Edna Sharpe might be found.

Keep Children Off Airport Field, Is Plea Of Axiators

Between 25 and 30 airplanes are expected at the Escanaba airport today and tomorrow to participate in the air circus here and officials of the local airport cooperating with sheriff department authorities join in a plea to parents to keep children off the field at the airport to prevent accidents.

With the planes swooping across the field throughout the two days, every effort will have

to be made by parents to prevent their children from straying on the landing field where they will be in direct danger of serious injury.

Because of the crowds that are expected at the field, the officials also ask the cooperation of the public to move back at the signals of the police officials at the field.

Hold Hearing On Application To Quit Twin City Busses

Menominee, June 10—The M. & M. Light & Traction company had completed its testimony at noon today in the state public service commission hearing at the Marinette city hall on the company's application to abandon all its bus lines in the city of Marinette.

The hearing was held before Examiner W. A. Anderson, who was accompanied by Harry Leader, commission reporter.

L. F. Works, general manager of the traction company, was called to the stand as the first witness for the company at the hearing. He told of the routes traveled and gave the hours of all bus service in the city.

Mr. Kohlepp, called to the stand by Attorney Vandervelt, went through a statement of operating revenues, expenses and deficits of the company from the years of 1928 to 1931, inclusive, regarding the bus department operations. The statement showed a deficit of \$8,587 for the six months ending on Dec. 31, 1931; \$28,318.55 for the year ending Dec. 31, 1930; and \$38,222.55 for the year ending Dec. 31, 1929. The actual "out of pocket" loss from which the depreciation and return on investment is deducted from the total operating expenses, shows a much smaller deficit.

Lines Never Paid
The Pierce avenue line has never paid the "out of pocket" expense. Kohlepp testified, while the North Menominee route is the poorest in revenue of any line in the system. The return on the investment was figured at 8 percent, he said. A rate deduction would increase riding, but the increased riding revenue would not be sufficient to offset the revenue obtained from the regular riders, he said.

A graph accompanied the prepared statement showing the riding habits in hold hour intervals during the day. From that graph, Secretary Vandervelt said he hoped to induce the commission to make some such arrangement that would permit bus service during the "peak" hours—from 6 to 8 in the morning, 11 a. m. until 2 p. m. and from 5 to 8 p. m.

DEER BREAKS NECK
A buck met his death in a peculiar manner a few days ago on the D. S. S. & A. right-of-way, just east of Shingleton. Members of the section crew had just started out after dinner riding upon a gasoline handcar when they spied a deer on the track. The animal became much excited as the car approached and ran from one side of the track to the other between the railroad fences. In one of its attempts to escape into the woods its head struck the fence and its neck was broken. The venison was brought to a local store and distributed among needy persons upon order of Conservation Officer Vigena.

Many deer are seen daily and at night on the South Shore track and automobile drivers have to keep a close watch to avoid running into deer on this highway at this particular time of the year.

MUNISING BRIEFS

Mrs. Mary Ann Harrison announces the marriage of her niece, Miss Anna Ruth Davis to Bernard J. Worth at Hurley, Wis., June 22. Miss Davis is well known in Munising, having been, for a number of years, teacher of English in the Junior high school.

Miss Francis O'Brien recently won in a contest to play with the orchestra at the annual commencement concert of De Paul University, Chicago. The concert took place last evening. Miss O'Brien is the daughter of Dr. and Mrs. S. J. O'Brien, former residents of this city, and is a talented musician.

Mrs. Frank Tiernan entertained the Michigan club at her home last Thursday evening. High score was won by Mrs. Ira Hanson, and consolation went to Mrs. Harry

Gets Stiff Penalty
Menominee—Ernest Hackeman, 55, Birch Creek farmer, today was sentenced to five to 15 years in Marquette prison by Circuit Judge Frank A. Bell for an attack on Elsie Hackeman, 14, who lives in his home. The court recommended that Hackeman serve five years.

In answer to a question Hackeman, a faded, meek-appearing man, told the court that the girl, who is soon to become a mother, is no relative of his, but his step-daughter's daughter.

Budget Raised
Iron River—Because of an anticipated large delinquent roll next year, the city commission last night added \$7,000 to the tentative budget outlined a few weeks ago by David M. Youngs, city manager.

Despite the increase, officials said, the promised 10 per cent reduction in taxes will be forthcoming.

Copper Celebration
Houghton—Calumet, Laurium, Keweenaw, Torch Lake, and the surrounding districts will unite Saturday night in celebrating the passage of a piece of legislation in Washington this week which is designed to bring relief to those dependent on the copper mining industry. Monday night President Hoover signed the billion dollar revenue bill, previously passed by both houses of congress, which contains a provision for a four-cent import duty on copper.

The Copper Country plans to celebrate this event, the most optimistic pieces of news received here in many months, by staging what promises to be the greatest community parade and celebration ever held here. Thousands from all parts of the county are expected here to show that they have faith in the future of the

Two Marinette Men Swim To Shore And Escape Fish Warden

Menominee, June 10—Two Marinette fishermen who escaped Conservation Officer Joseph Hornick by diving from their boat and swimming ashore, and who later stole back their boat, were sought today.

Hornick observed the men fishing in Michigan waters in Green Bay off the mouth of the Menominee river yesterday morning. They had fishing poles, but observation through the officer's glasses revealed that one of the men, while pretending to fish with a pole, was covertly pulling a gill net into the boat.

Hornick borrowed a speedboat owned by E. P. Smith and raced to the river mouth just in time to stop the fishermen's skiff before it entered Wisconsin waters. He grabbed the chain on the front of the skiff. One of the fishermen threatened him with an oar and Hornick drew his revolver. The fisherman lowered the threatening oar and tried to jerk the skiff chain from Hornick's hands. Hornick rapped the fisherman's knuckles with the revolver and the fisherman relinquished his hold on the chain, dove overboard and swam to the government pier on the Wisconsin side of the river, a distance of about 400 yards.

Second Fisherman Dives
The speedboat took the fishing skiff in tow and was underway in the river when the second fisherman leaped from the skiff and swam to a Marinette pier.

Ashore, Hornick received a call that John Vigena, chief of upper peninsula conservation forces, was in the city. While Hornick was conferring with him the fishing skiff was stolen from the slip on the Menominee waterfront.

Hornick found in the skiff two boxes of 2 1/2 inch mesh gill nets, nine suckers and 12 perch. The fishermen were not licensed to fish in Michigan waters and their nets were below legal size.

Crippled Child Clinic
Menominee—Enrollment of 35 Menominee county children, three from Delta county and three from Dickinson, for the crippled children's diagnostic clinic to be held in the Junior high school here next Tuesday, June 14, was reported today by Dr. Henry T. Sethney.

The Menominee Rotary club is sponsoring the clinic, with cooperation of the Menominee County Medical society, Children's Fund of Michigan, Welfare association, and the Michigan Crippled Children's commission, which defrays expenses of the three specialists who will conduct the departments of the clinic.

Homecoming Cancelled
Marquette—At the last meeting of the Better Business bureau formal action toward calling off the proposed July 4 and homecoming celebration was taken.

The merchants took the same attitude as the committee chairmen, holding that business conditions were such that it would be difficult to raise money to finance the homecoming. It was also the opinion that any funds which might be raised for celebration purposes should be diverted toward welfare work.

Mrs. Ruth Owen Is Beaten In Florida

Jacksonville, Fla., June 9. (AP)—Mark Wilcox, who advocates the quickest possible repeal of the 18th amendment, has eliminated from congress Mrs. Ruth Bryan Owen, daughter of the late William Jennings Bryan, crusading dry.

With the vote in 338 of the fourth district's 418 precincts today showing 41,519 for Wilcox and 34,175 for Mrs. Owen, she conceded the Democratic nomination to her opponent and said she would resign December 1 as she did not believe in a "game duck" office holding.

and too much food or too rich food or the wrong kind of food upsets it. Most everyone at one time or another suffers from such upsets. Di-Jo is a digestive tablet which aids the digestion, neutralizes the acidity of the stomach, eliminates gas and belching, sweetens the breath and enables the system to assimilate the vitamins of the food. Go to your druggist and get a bottle of Di-Jo. Follow directions and if you don't get immediate relief take four more tablets in half an hour. Then you'll become a Di-Jo fan. If the bowels are lazy, get a bottle of Di-Vac. It will eliminate the poison from the intestines and aid in the work of rehabilitating the stomach. If your druggist hasn't Di-Jo or Di-Vac, write Drug Products, Marshall, Mich.—Adv.

WAR NOT POPULAR

THAT there exists a general abhorrence of war and a desire for everlasting peace among the people of the land was clearly revealed in the reaction of the audience to the pacifistic utterances of Dr. Preston Bradley at the Escanaba high school commencement exercises Thursday evening.

Older men bring about war by their scheming chicanery, but it has always befallen to youth the task of taking up arms in these conflicts.

Nothing ever has been gained by war. Those nations that have won in past conflicts may have gained additional territory, but usually the other difficulties that have been heaped upon them as a result have obliterated the benefits obtained.

Our children should be taught to hate war, to understand its futility, its ferocity, its sure destructiveness of souls as well as of bodies.

VOTE ON MONDAY: QUALIFIED electors of Escanaba will have it as their duty on next Monday to select two of the five candidates...

For some unexplainable reason, Escanaba citizens have not displayed any great amount of interest in school elections as compared to the attention the voting for city councilmen receives.

THE BOARD OF EDUCATION has charge of the expenditure of more tax money than any other single governmental body in the city of Escanaba.

THE AIR CIRCUS: IN AN effort to arouse interest in aviation in this section, pilots of the upper peninsula will stage an air circus at the Escanaba airport today and tomorrow.

BELLEAU WOOD STORMED: On June 11, 1918, American marines completed the capture of Belleau Wood and repelled three fierce counter attacks by crack German riflemen.

there is no telling what the possibilities will be in the upper peninsula in the future. Promoters of the air circus state that only government licensed planes will be used and qualified pilots will handle the controls, such plan to be followed in the interests of safety.

It is the taking of unwarranted chances by pilots that causes most airplane accidents. Such accidents naturally influence the loss of public confidence in the safety of air travel.

Advertisements in the cheap magazines tell of opportunities to make easy money selling various kinds of articles.

Jobless should beware of these schemes. These companies should be investigated first through the recognized channels before a contract is signed.

Despite all the argument over who won the World War, so far there hasn't been a suggestion to call it a draw and fight it over.

Arms Parley Delegates War Over Reductions, says a headline. Well, that's one war we won't have to pay for, anyway.

Herriot says America should leave Europe alone. Why couldn't he have said that back in 1918?

Andrew L. Mellon is a bigger figure in London than he was in Washington, a cable dispatch says. But that isn't a fair comparison.

Jimmy Walker went to Detroit to attend the meeting of mayors, discussing the unemployment problem.

CHAPTER XIV CONTINUED: The last was a really cheering thought. On the strength of it Cherry attacked the rather tasteless, mildly warm croquette that had been set before her.

WITH genuine surprise Cherry glanced up. The words seemed to be addressed to her and yet she was sure she must be mistaken.

"Why, hello," Cherry said. "You surprised me. I wasn't expecting to see anyone I knew."

Hendricks smiled. "Mind if I sit down here?" he asked. "I hate the eating alone."

"Yes, I'm working on the Sentinel. Met him over at headquarters."

LYRICS OF LIFE

By Douglas Malloch

THE SEED WORTH WHILE: You'll seldom find a single seed Content to linger where it fell.

And so men fall in furrows, too, The humble soil from skies shut out.

Perhaps with little tasks to do, But seeds push upward just the same.

And so do men, men worth the name.

The very thing that held them down Becomes the soil from which they grow:

The little task, the little town, Shall not decide if high or low.

There is no place, if great or small, That matters very much at all.

There is no place, if small or great, In north or south or east or west.

A man can not become his best, For up there somewhere are the skies.

And men worth while will always rise.

And so do men, men worth the name.

The little task, the little town, Shall not decide if high or low.

There is no place, if great or small, That matters very much at all.

There is no place, if small or great, In north or south or east or west.

COMMENCEMENT HELD FRIDAY

Forty Seven Graduates Of St. Joseph's Receive Diplomas

At impressive exercises held Friday evening in the high school auditorium, forty-seven members of the graduating class of 1932, St. Joseph's high school, received their diplomas.

The auditorium was filled to its capacity for the exercises with parents and friends of the graduates and their fellow students. Members of the orchestra in their purple and gold uniforms were seated before the stage which was banked with white lilacs.

The exercises opened with the processional, the student body, in measured march, leading, forming an escort of honor to the candidates for graduation, and then appearing on the stage in groups of four to bow to the audience. The seniors then followed, appearing on the stage in groups of two.

The commencement address, delivered by the Rev. Father James Corcoran, of St. Patrick's church, Hancock, a former student of St. Joseph's, returning to speak at the commencement of the school he attended as a lad, was a beautiful and scholarly address, the speaker's keen wit and very human insight into the problems of his fellowmen, adding to the thorough enjoyment his address afforded.

Days of Boyhood Father Corcoran in his introduction spoke of the pleasure of remembering the days past and described the city and the school of the days of his boyhood here with clever word pictures which brought appreciative chuckles from his hearers.

Then entering into his address, he announced his theme a quotation from the prophets, "Your young men shall see visions and your old men, dream dreams."

"Life," he said, turning to the graduates, "is a very serious thing and is also a very wonderful thing."

He spoke of the world conditions which graduates all over the world today are finding, the result of a mad rush for the utmost in everything. He lauded the self sacrifice of the parents of the graduates and urged the same nobility of endeavor on their part in carrying on these ideals.

U. S. Dept. of Agriculture Sending Display to Upper Peninsula Fair

Arrangements have been made to have a series of exhibits from the United States department of agriculture at the Upper Peninsula state fair in Escanaba Aug. 22 to 27, secretary George Harvey announced yesterday.

The displays will be designed to fit conditions in this section of the country, and will contain the following subject matter: "World's Dairy Banquet"; consumption of dairy products, comparing the consumption in this country with other countries.

"Our Average is Low"; U. S. milk production compared with foreign countries. "Finishing Cattle for Beef"; relations of feeding costs to profit.

"Hog Cholera Control"; how the disease can be prevented. "The Place of Sheep on the Farm"; how sheep can pay double returns.

"Good Management Eliminates Egg Losses"; intertile eggs from controlled flocks. "Forest Fires"; plea for forest protection.

"Vinegar, Pickles and Sauerkraut"; how to make them in the home. "Food and Health"; signs of good and poor human nutrition.

A representative of the department will be in attendance at the display all during the fair and will pass out publications containing information on up to date farm management.

The United States department of agriculture exhibit has been one of the outstanding exhibits at the Upper Peninsula State Fair, each year.

Citizenship Papers Reduced in Price Information regarding a new ruling which will save \$5 to \$25 for applicants for citizenship has been received at the office of the county clerk in Escanaba.

Under the new law, certificates of arrival is no longer required on first citizenship papers or petitions if arrival in the United States was on or before June 29, 1906. Only a photograph is needed.

The Makers of Presidents

Such powerful eastern bosses as Tom Platt of New York and Matt Quay of Pennsylvania also were among the Grant forces, which tried and failed to have the unit rule adopted.

Garfield made such a good impression that after 35 ballots the Blaine forces began to swing to him over his own protest and he was nominated.

In 1888, when Sherman led the field, Hanna had seen another "dark horse" win—Benjamin Harrison. Sherman was blocked by the New York leaders, especially Boss Tom Platt.

In 1895, at a time when it appeared that the Republicans were sure to win next year, Hanna began systematically to weed out the boss candidates and the favorite sons. He found that the state bosses were all set to tie up the convention, but he promised patronage and used other persuasive arguments and secured Ohio and half a dozen other states lined up for McKinley. In Illinois he put Charles C. Dawes on the job and Dawes succeeded brilliantly after great effort.

Speaker Tom Reed had been the favorite until Hanna got going. He was the Republican party's real leader. But Hanna's pre-convention campaign was the most elaborate one ever seen up to that time and McKinley won without a struggle.

It became evident that Bryan had a real chance to win and Hanna, as the new national chairman, threw himself into a brilliant, expensive campaign. He set out to educate the country to the dangers of "Bryanism" and free silver. He used 1400 speakers and 120,000,000 pieces of literature. He levied quota assessments on corporations, banks and insurance companies, raising an unheard-of amount, estimated at six or seven million dollars.

He was the most talked-of man of his time. After McKinley's election he refused a cabinet job and had himself made a senator from Ohio. Later, when a South Dakota senator attacked him and intimated he had bribed his way into the Senate he went out to South Dakota and drove that senator out of public office.

Hanna helped revive the sentiment for a Panama or Nicaragua canal. He re-elected McKinley in 1900 and was being talked of as a presidential possibility when he died early in 1904.

The Republican party was not through with hotel room nominations, however. Although Roosevelt

was indirectly boosted into the presidency because Boss Platt had him nominated for vice president in 1900 to get rid of him as New York's governor—had been nominated next and had dictated Platt's nomination in 1908, although the Old Guard and the federal machine steam-rolled Taft into the 1912 nomination and Hughes was a general choice in 1916, the Senate Old Guard in 1920 engineered the most famous one of all time.

Old Meal Tickets Called In; Jobless Looking for Board

All permanent meal tickets issued for the meals at the Escanaba Salvation Army dining hall are being recalled this week, and 23 have already been turned in at the police station by men who have been holding them for several months.

The permanent tickets were proving a serious drain on meal funds, and the men were asked to cooperate by surrendering their tickets. The 23 tickets turned over so far represent 44 daily meals.

Tickets are still being issued at the police station, but only for two meals. After that, the recipients of the meals are asked to move on. Several of the group of 23 who have been eating at the Salvation Army, some of them since winter, are being asked to find work or to get a job which will earn their board elsewhere.

DENTISTS HOLD MEETING HERE

Election of Officers Is Held by Upper Peninsula Society

About sixty dentists, representing nearly every city of the upper peninsula, are attending the nineteenth annual meeting of the Upper Peninsula Dental Society here.

In the morning session called to order by the vice president, Dr. R. H. Banks, Dr. Lawrence B. Gilling gave a very interesting lecture, illustrated by lantern slides on the subject of "Preventative Orthodontia," showing the irregularities of teeth in children, their causes of habits of thumb sucking and so forth, also the effects of such habits on general health.

At the afternoon meeting called at 1:30 o'clock, Dr. D. H. Snyder and W. A. Hocker of Northwestern University gave the results of scientific research by the university dental school in connection with the U. S. Bureau of Standards in gold inlay technique. The lectures were illustrated by charts, showing the results of expansion and contraction of the different materials used. Later, they gave a demonstration of these scientific researches by casting several gold inlays. Much interest was shown in the day's program of lectures and demonstrations.

The officers for the next year elected yesterday follow: President—Dr. H. A. Johnson, Escanaba. Vice President—Dr. J. P. Drezkewski, Ironwood.

Secretary—Treasurer—Dr. Ray Mullens, Bessemer. Ironwood was selected as the site for next year's convention.

The common name of the cleodas is "locust."

Next: William Jennings Bryan, the great political boss, who never was elected and never had anything to offer to the Democrats but hope.

Practical Englishwoman

Before the Princess de Rohan, an Englishwoman, decided to go into dressmaking in Paris, she came to America and spent one whole year living in Idaho, as a typical American state. She drove all over the middle and far west, stopping a week or two at a time, in practically all the major cities. Takes Own Medicine! Vera Borea, Italian dressmaker in Paris, never turns out a bathing suit without having swum in it herself to make sure it is practical. The same is true of her tennis, skiing and golf clothes. Needless to say, she is as much an all-around sportswoman as she is a couturiere. Useful American Anna Louise Strong, American journalist who has lived in Russia for over 10 years, has put through a plan to have wives of American and other foreign engineers each adopt a Russian family in their vicinity to help to care for and train the family's children.

Special Showing Of Farce Comedy At Powers Sunday

The Bark River Dramatic club will present the clever farce comedy, "Listen to Leon," which was successfully presented at Bark River May 30 and 31 before large audiences, at the Powers hall Sunday evening. It was announced yesterday. The play, which is being given at Powers by special request, will be presented by the same talented cast which includes Harvey Gauthier, Marion Flynn, Blanche Filion, Stephen Bergman, Patrick Deloughery, Edwin Bergman, Mrs. Otto Perket and Beatrice Rheume. It is under the able direction of Rev. Father Tom Drengacz. The presentation will begin at 8:30 o'clock, central standard time.

Beulah Kieffer Graduate Nurse

Escanaba friends will be interested in knowing that Miss Beulah Claire Kieffer, daughter of Mrs. Dell Kieffer of Chicago, formerly of this city, received her degree of graduate nurse, of St. Bernard's Hotel Dieu Hospital School of Nursing, Loyola University, Chicago, at graduation exercises held at Loyola Campus Wednesday evening. Miss Kieffer, who is a graduate of St. Joseph's high school of this city, is a niece of Mrs. Charles O'Connell, of this city. One-third of the drug stores which failed in St. Louis, according to a commerce department survey, were located on sites where drug stores had previously failed.

HIS HEALTH IMPROVED 40%

After Use of Kellogg's ALL-BRAN The "bulk" in ALL-BRAN is similar to that of lettuce. Inside the body, it forms a soft mass. Gently it clears the intestines of wastes. How much better to use ALL-BRAN than to abuse your system with pills and drugs—often harmful. Two tablespoonfuls daily will overcome most types of constipation—in serious cases, with every meal. If your intestinal trouble is not relieved this way, see your doctor. Use as a cereal with milk or cream, or in cooking. All grocers in the red-and-green package. Made by Kellogg in Battle Creek.

Bits of Seasoning in Local News for Today

POTATOES GROW TOO SLOW FOR BUGS
Reports received by Salt & Pepper's home garden department record a show of impatience on the part of those cute little things called potato bugs. It seems the potatoes aren't growing fast enough to feed the hungry mouths of little bug families, and one Escanaba gardener said that he found a papa and mama potato bug just waiting in the garden before the potatoes were up, watching for the first sprout and their first good meal of the year. Another tuber grower who watches his crop closely said that his potatoes were barely three inches high when an army of hungry striped potato bugs camped there and demanded food. He "picked" a tin can full of bugs to halt the raid, and says the persistence of the "bug army" at Washington, D. C., is nothing compared with his bug legion.

AIRPLANES TO PARADE TODAY

Escanaba's Two-Day Air Circus Will Be Opened At Noon

A parade of about 20 planes over the city at noon today will mark the opening of the two-day air circus at the Escanaba airport. Walter G. Artzen, well known aviator, who with Ed Carter of Manitowoc, is promoting the event.

All during the afternoon there will be aerial exhibitions at the airport, including aerial dog fights and the usual stunts. Flying in group formations will also be one of the afternoon spectacles. At 7 p. m. the fastest ships and seasoned pilots will participate in a thrilling air race over the city.

Word was received yesterday from Menominee that three planes, Monocoupe, Waco, and Challenger-Robin, will come here to participate in the program. Among the out-of-town pilots entered are: Frank Schobalska, Manitowoc; Roy-ald Schaffer, Two Rivers; Harold Skelly, Hancock; Julian Schuster, Ontonagon; Sigmund Wilson, Marquette; Carl Tauch, Marquette; Dr. A. L. Haight, Crystal Falls; Joseph Caszual, and Jack Gustafson, Menominee.

Details of Sunday's program will be announced tomorrow.

Carrots an Aid to Health and Beauty

We often hear that carrots are "good for the complexion," but seldom stop to reason why. However, food chemists have investigated and experimented and have made available a quantity of data explaining just why carrots are so valuable from a health standpoint.

Next to onions, carrots are the most efficient blood-purifiers. They rank next to spinach in iron content. Two reasons for clear complexions and sparkling eyes? Vitamin A is found in carrots. This puts carrots in the list of foods with cod-liver oil, butter fat, egg yolk and the leaves of green vegetables.

To gain the most benefit from the vegetable as a beautifier, it should be eaten raw. Then there's no loss of vitamin C and vitamin B. Both these vitamins are somewhat affected by careless cooking and there is apt to be loss of minerals. At this time of year carrots are at their best, tender and sweet, so use them "au naturel" in every way possible.

Carrot straws add a charming bit of color to a tray of relishes. Grated raw carrot is good in any vegetable salad. Rugs of carrot filled with highly seasoned cream cheese make attractive appetizers. In making carrot rings you need not worry about sacrificing much food value for the chemists tell us that the watery, paler-colored center of the carrot contains practically none of the valuable substances found in the rich golden flesh.

The cheapness of carrots puts within the reach of every family those food elements which are essential to growth, health and vigor. Strong muscles, red blood, sound teeth, firm flesh, straight bones, glossy hair and clear skin are the result when vitamins and minerals are present in the diet.

There is very little loss of food value in such a dish as scalloped carrots. Try it for luncheon with breaded veal cutlets some Saturday when all the family is at home.

Scalloped Carrots
Two cups thinly sliced carrots.
1-2 cup thinly sliced onion.
2 sweet green peppers, 1 cup milk.
2 tablespoons butter, 1 tablespoon flour, 1-2 teaspoon salt, 1 teaspoon sugar, 1-3 teaspoon pepper.
1-3 cup coarse stale bread crumbs.
Arrange carrots and onions in alternating layers in a well buttered baking dish, sprinkling minced peppers through each layer. Melt butter, stir in flour and

when bubbling add milk, stirring constantly. Add salt, sugar and pepper and bring to the boiling point. Pour over mixture in the baking dish. Cover and bake 30 minutes in a hot oven. Remove cover, sprinkle with crumbs, dot with bits of butter and return to oven to brown. Serve from baking dish.

You can use carrots as a "stretch" with more expensive vegetables. Carrots and peas, creamed cauliflower in a border of buttered carrots, asparagus with carrot sticks—almost any vegetable combines well with the colorful carrot.

BETTINA'S WAFERS
12 salted wafers
4 tablespoons chopped olives
4 tablespoons anchovy paste
2 tablespoons salad dressing
Mix olives, paste and dressing. Spread on wafers. Arrange on baking sheet and brown in moderate oven. Serve at once.

CHICKEN MOUSSE
2 tablespoons granulated gelatin
4 tablespoons cold water
3 egg yolks
2 cups chicken stock
2-3 teaspoon salt
1-3 teaspoon paprika
3 tablespoons chopped green peppers
1-4 cup chopped celery
2 tablespoons chopped pimientos
2 1-2 cups diced cooked chicken
1 cup whipped cream
1 egg white, beaten

Soak gelatin in cold water 5 minutes. Beat yolks and add stock. Heat in double boiler until very hot and mixture thickens a little. Stir constantly. Remove from fire. Add gelatin mixture and stir until dissolved. Cool and allow to thicken a little. Fold in remaining ingredients. Pour into mold. Set in cold place to stiffen. Unmold onto platter.

STRAWBERRY DESSERT
6 egg yolks
1 cup sugar
1 teaspoon lemon extract
1 teaspoon vanilla
1-4 teaspoon salt
1 cup pastry flour
1 teaspoon baking powder
6 egg whites, beaten
1 quart strawberries
1-2 cup confectioner's sugar
1 quart vanilla ice cream

Beat yolks and add sugar and beat until creamy. Add lemon, vanilla and salt. Fold in flour and beaten egg whites. Pour into round deep cake pan. Bake 40 minutes in slow oven. Cool. Arrange on platter. Top with ice cream, surround with chilled and sugared berries.

MEXICAN MACARONI
(Serving 6)
4 slices bacon
1-3 cup chopped onions
1-4 cup chopped green peppers
1-2 cup chopped celery
2 cups tomatoes
2 cups cooked macaroni
1-2 teaspoon salt
1-4 teaspoon paprika
1-2 cup grated cheese

Cut bacon into small pieces. Heat and brown in frying pan. Add and brown onions, peppers and celery. Add tomatoes and boil slowly 2 minutes. Stir frequently. Add rest of ingredients and pour into buttered baking dish. Bake 15 minutes in moderate oven.

Frank James Will Attend Reunion Here

Associated Press Photo

Hon. W. Frank James, congressman of the Twelfth Michigan district, will be one of the notable persons who will attend the annual convention of Spanish-American War Veterans in Escanaba, July 2 to 4.

Other prominent persons who will be present are: Colonel W. B. Wallace, now in charge of the tank corps at Fort Benning, Ga.; Caesar Barranco of Detroit, Cuban consul; former Governor Fred W. Green; Homer Guck, publisher of the Chicago Herald and Examiner; and Senator Charles Richardson of Marquette.

The Chicago & North Western railway and the Soo Line railway have announced excursion fares of one cent per mile and reduced rates on sleeper and parlor car accommodations to reunion visitors.

Members of the executive committee of the 34th Michigan association are: Chairman, Colonel J. P. Petermann, Laurium; W. H. Theilman, Calumet; William A. Lyons, Marquette; Ray L. Eggleston, Houghton; and Charles J. Young, Marquette.

Graves of all Revolutionary war soldiers in Geauga county, Ohio, have been photographed for record purposes.

Flat Rock Family Loses Home in Fire

Starting between the walls in the rear of the house, a fire completely destroyed the home of Mr. and Mrs. Sidney Lucas, Flat Rock, between 4 and 5 a. m. Monday. Mr. and Mrs. Lucas were awakened to find the house full of smoke, and managed to get their five children out before the entire structure broke into a blaze. Nothing was saved with the exception of a radio and a dresser. The damage, estimated at \$5,000, was partly covered by insurance. For the present, the family is at Sorey's corner, a number of neighbors having given them beds and a stove to tide over until their home is rebuilt. The house was located across the road from the Delta fox farm.

Pertinent Comment

Menominee is in a quandary. It has been proposed to establish a soup kitchen to care for the transient unemployed and fear is expressed that it might lead to difficulties for the community. The results at Iron River, which made an attempt at a soup kitchen a year ago, are cited as an argument against its establishment. There, the community was overrun with men, who took advantage of the opportunity to secure free food and lodging, and begging was increased rather than decreased.
Once again Gladstone is ready to offer her solution to a difficult problem, for the benefit of those communities who have no well organized plan for the care of the transient. This plan has worked successfully for more than six months. The transients have been fed begging has stopped and there has been no great influx of men who would take advantage of the accommodations offered.
What Gladstone has done is simply this: Through cooperation with the Salvation Army and the city government, a group of citizens subscribed a fund of \$1500 with which to purchase food and the Salvation Army organization established a dining hall in which to feed transient unemployed. The city provided sleeping quarters at the jail.
Under the plan adopted here, transients, who desire to be fed, are required to go to the police department and register. They are provided with ticket good for two meals at the Salvation Army hall, after which they are expected to move on. The two-meal rule is strictly adhered to.
When the community was solicited for funds, each household and each merchant was advised that their cooperation was necessary if the plan was to succeed. They must not give money or food, directly, and they must advise anyone begging that the Salvation Army was caring for the transient in Gladstone.
When the plan was first put in effect, Gladstone was facing a serious situation. The city was crowded with transient unemployed, a colony having been estab-

lished in empty box cars in the Soo Line yards. Housewives and merchants were continually annoyed by men asking for food, and the safety of the women and children of the community was feared for.
When the Salvation Army dining hall was placed in operation, requests for aid were met with the answer: "Go to the Salvation Army hall; they will take care of you there." The transient soon learned that he was wasting energy and shoe leather in a house to house begging campaign and, through grape-vine telegraph, the word has gone out that it is useless to beg in Gladstone.
Today Gladstone is free from the begging nuisance and, yet, the transient worker need have no fear that he will be turned away from the city hungry. Good meals are provided by the Army and the food is clean and well cooked.

OBITUARY

INFANT DIES
Oliver Aline, infant daughter of Mr. and Mrs. Gerrie Ellis, Trenaary, died yesterday morning at the home of Mr. and Mrs. Irwin Willis, 1313 Dakota avenue. Death was due to erysipelas, from which the child had suffered for 16 days. Oliver Aline was six and a half months of age.
Besides her parents, she is survived by a sister and two brothers.
Interment is to be made at Trenaary.

Olson and Hanson Win First Game

Olson and Hanson's soft ball team of the Gladstone league trounced Hupp's 12 to 1 Thursday evening, scoring half of their runs in the final inning. Hupp's lone score came in the first inning when Johnson counted out a home run. This was the first victory scored by Olson and Hanson.
The summaries:
Olson-Hanson 040 200 0—12 11 2
Hupp's 000 000 0—1 5 1
Batteries: Olson-Hanson, Daniels and Cannon; Hupp's, Johnson and White.

THEATRES

"Rich Man's Folly," which will be the feature at the Rialto Theatre today only, has a cast of great strength and popularity. George Bancroft, the famous star of the picture, has one of the strongest character roles he has ever undertaken.
Bancroft acts the part of a big shipbuilder, a man of large affairs in the business world, a dominating personality. Just to portray such a type is "easy stuff" for Bancroft.
The story is one of big enterprise, ship-building, money, power, ambition are the only things "Brook Trumbull" values. Kindness, a fair chance for others, love, friendship, romance are all set aside, until luck turns against him. Then, at last, he realizes the folly of piling up wealth and losing the love and friendship of those near and dear.
11 P. M. PREVIEW
Peggy Shannon was ushered into her first screen role on a wave of comparisons that nearly wrecked her chances. The role was the leading feminine part in "The Secret Call," and the comparisons were with Clara Bow.
The reactionary wave from Clara's devoted fans took no time to come. They protested against anyone presuming to fill the shoes of their favorite.
In "Society Girl," her first Fox picture under her new contract with that studio, she enacts the title role opposite James Dunn and is said to bring to her part all the verve and finish that were kept subdued in the earlier films in which she was "supposed" to replace Clara Bow.

Cost of Sewer Is Greater Than Bonds

Final figures on the cost of the Eleventh street and Montana avenue trunk sewer, compiled by City Manager F. R. Buechner, show that the bond issue of \$2,000,000 was exceeded by \$120,120. Overhead costs and extra over and above the contract price of \$7,198.95 brought the total cost to \$8,120.12. The total amount earned by the contractor was \$7,301.25, all of which has been paid except 20 per cent which has been withheld until final acceptance of the sewer.
Items which are included in the total sewer cost, include engineering and architect's fee, \$36,63; bond printing, \$23.05; lumber, \$12.95; miscellaneous, \$4.23; special election, \$167.30 and lowering of water mains, \$199.03.
The lowering of the water mains was an item that was not included in the estimate when the sewers were planned and is responsible for the failure of the bond issue to be adequate.

Dwarfed Parrot, Deputy Sheriff's Prisoner Escapes

C. L. Tordou, whose many years in the office of sheriff has made him most expert at dealing with jail breakers, is now confronted with a problem relating to an escaped prisoner, that is taxing his ingenuity and patience. This time it is not a human prisoner that has escaped, but that doesn't make the matter easier.
Mrs. Tordou owns a dwarf parrot no larger than a sparrow. She went away the other day and after she had gone, the parrot made the most of an opportunity and escaped to the open air. He didn't go far, but perched himself upon the limb of a nearby tree. From this vantage point he shrieked defiance at those who sought to catch him. Until his intended captors approach too close he does not move, but when his capture seems imminent, he gives a shrill cry of laughter, and seeks another limb from which to taunt those who would place him in a cage again.
For several days the bird had had his freedom and his cries have become familiar to the entire neighborhood in which he is enjoying his liberty. Children and their elders have joined in the effort to catch him but he becomes more wary each day.

Special Sprinkling Permits Granted for Low Pressure Areas

Attention was called by City Manager F. R. Buechner, yesterday, to special permits for sprinkling during off hours granted to residents in certain sections of the city. Owing to small service lines serving these sections, he said, no water pressure is available during the regular hours for sprinkling and for that reason applications may be made for special permits at the office of the city clerk.
The sections in which permits will be granted are on Minneapolis avenue between Seventh and Tenth streets, on the south side of Dakota avenue east of Tenth street, and the north side of Dakota between Fourteenth and Sixteenth streets.
Other sections of the city must adhere strictly to the regular 9 o'clock hours, morning and evening.

Mines Closing

Ironwood—The Oliver Mining Company today ordered that all its mines on the Gogebic range be closed indefinitely, beginning tonight. Officials said that operations may be resumed in the fall.

BRIEFLY TOLD

Conviction—In an article yesterday the Press stated that the tax rate for the city, as fixed by the budget, was \$14.00 per \$1,000 of valuation. City Manager F. R. Buechner states that the budget rate was \$14.50 for general purposes and \$1.00 for bond, making a total of \$15.50. This amount will likely be increased to \$15.75, owing to the decrease in assessments made by the Board of Review.

Bake Sale—A bake sale will be conducted this afternoon at the E. A. Erickson store. Messrs. James Swain, Blomquist, Louis Skogquist, and Andrew Anderson are in charge.

Summer Library Hours—The summer schedule of library hours were announced yesterday by Miss Bernita Danielson, librarian, as follows: Monday and Friday afternoons, 2:30 to 4:30; Wednesday evenings, 7:00 to 9:00 o'clock. Miss Irene Denio will have charge of the library during the summer period.

Play at Munsieung—The Marbury team of the Gladstone softball league will go to Munsieung Sunday to play a double header with one of the crack teams of that city. The first game will start at 2:30 in the afternoon.

Dance Tonight—A dance will be held at Hillside Pavilion tonight with Eddy and his Moonlight Ramblers furnishing the music.

City Prepares for Swimming Season

Paul Collins has been named custodian of the bath house at the City park by City Manager F. R. Buechner and will be in charge during the months of July and August. A supply of new bathing suits have been ordered and will be available during the swimming season.
The city has also constructed a stationary raft to replace the anchored raft which has been in use for several years. This is placed in about six feet of water. The old raft will be anchored nearer to shore for the convenience of small children. The new raft is placed on piling which has been driven by the city crew. It is fastened to the piling with bolts and will be removed when the swimming season is ended.

Trappers Hunting "Wild" House Cats

"Wild" house cats, which have been on the list of predatory animals in Michigan since last fall are now being destroyed by the hundreds by conservation officers, state hunters and sportsmen interested in protecting bird life according to the Department of Conservation.
There are literally thousands of homeless cats now wandering through the fields and woods seeking prey, and in most instances their food is made up of game and song birds, the department believes. These cats are generally homeless and in most instances have become "wild." They are claimed to be especially undesirable during the spring and early summer when birds have not learned to fly.
Cats found in unfenced woods or fields may be killed at any time and under the law are listed in the same category as bobcats, skunks, porcupines, woodchucks, weasels, owls, crows and other predators.

ASSESSMENT OF CITY IS LOWER

\$284,175.00 Reduction Under Last Year Is Fixed By Board

Final assessed valuation of the city is more than a quarter of a million dollars less than last year, according to figures released by the board of review Thursday evening at the completion of its four-day session for the purpose of reviewing the assessment roll.

The resolution which was unanimously adopted by the board lists the city valuation at \$3,866,000.00 as compared with \$4,150,175 for the year preceding. A reduction of \$284,175.00 was made on the assessment roll by the board of review.

Indications point to a slight increase in the tax rate due to the decrease in the assessment roll. The slicing of nearly \$2,000 off the budget, however, offsets to a large extent, any large increase in the tax rate over that of last year. Last year's rate was \$14.66 per thousand. If the present budget remains as is after the public hearing next Monday evening, this year's rate will be approximately \$14.55.

The resolution in regard to the assessment figures as offered, by Mayor Harry Erikson who moved its adoption, and which was seconded by Councilman Frank E. Lied and passed unanimously, is as follows:

"Whereas the board of review of the city of Manistique have reviewed and corrected the assessment roll of said city for the year 1932 as submitted to City Assessor W. G. Stephens, and have determined from the assessed valuation of the taxable real and personal property as assessed by said assessor upon said roll the sum of \$3,866,000.00 and have determined the aggregate valuation of the taxable real and personal property in said city for the year 1932 to be the sum of \$3,866,000.00.

CHEERFUL NEWS

New York, June 10 (AP)—The leading weekly mercantile reviews agree that business sentiment turned considerably more cheerful during the past week on the constructive developments in Washington and in the banking world.

A considerable improvement in the volume of retail trade is throughout the country, was the principal constructive development of the week, they reported.

The upward trend, said Bradstreet's, was in seasonal lines due in large part to favorable weather. In addition there has been evidence of returning confidence on the part of business men and the purchasing public, brought about largely by the knowledge that congress has made a definite beginning in the balancing of the budget.

The rise in retail transactions, Bradstreet's observed, is regarded generally as a hopeful augury for the future. Stocks are at a minimum and must be replaced, and taking advantage of this wholesale, jobbers and manufacturers are busily preparing their lines and sending out representatives to the sources of distribution in the expectation that the growth will continue.

Don's review commented with equal optimism, declaring that "constructive measures carrying over from the previous year are making more progress than in the past."

"The encouraging effect of these measures," it was stated, is reflected in a slightly heavier retail trade each week. This review added that hesitancy is less in evidence in some directions, and that further confidence has been contributed by the maintenance of improvement in the banking situation and continued betterment of credit conditions.

SOO WOMAN TO HEAD REBEKAHS

Mrs. Louise Allen New District Prexy; Mrs. Chas. Bretz, Sec'y.

Mrs. Louise Allen, of Sault Ste. Marie, Thursday was honored with the presidency of the Rebekahs for this district, succeeding Mrs. Lora Craft of Newberry. The annual district association meeting was held here Thursday.

Other officers elected were Mrs. Charles Bretz, of this city, as secretary; Mrs. Martha Gravelle, of Newberry, vice president; and Mrs. Lennie Parish, of St. Ignace, was re-elected treasurer.

Delegates and officers of the various Rebekah organizations from five cities, St. Ignace, Newberry, Cold City, Sault Ste. Marie and Manistique, attended the meetings which were held during the afternoon and evening.

The afternoon session began at 2:30 o'clock at the Odd Fellows' hall, the address of welcome being given by Lillian Thornton lodge and the response by Lora Craft, district association president. In addition to the annual election, a model lodge session was held and Mrs. Carrie Blanchard, assembly president, presided at the school of instruction.

At the evening session at which approximately 75 persons were present, Mrs. Addie Smith, of Detroit, assembly president, delivered a splendid talk on the fine scenic values of the territory of this vicinity. The draping of the charter was put on by members from the Soo at the same time showing slides on various phases of lodge work. The drill team of the Agnes Rebekah lodge put on a splendid exhibition. At the close refreshments were served by the hostess lodge.

Dinner, with plates set for forty, was served at 6 o'clock for the out-of-town guests at the White Cafe.

Newberry was chosen as the place at which the district meeting will be held next year. Morning and afternoon sessions will be held instead of afternoon and evening sessions, it was decided.

Now Is Time to Use Harrow On Potato Fields

BY D. L. CLANAHAN,
Extension Specialist in Farm-
Crops

Nearly every grower of potatoes in the Upper Peninsula has finished planting his crop by now. Some few fields are beginning to show above ground. Many growers are inclined to feel that now is the time to take a rest from the duties of tending the crop. Yet, to save work later and also from the standpoint of producing a better crop, now is the time to keep that spike-tooth harrow going—plan to go over the field at least once a week.

Walk into any piece of plowed soil which has not been cultivated for a week or ten days and kick the soil over and notice the white stems of weeds ready to come through the soil and start growing. The killing of these weeds at this time is the easiest. It is one of the surest ways known of getting rid of these pests. Later on in the season there will be spraying and other crops to take care of such as, haying and harvest.

Their Use Water Weeds require large quantities of water and plant food which the growing crop should have. The time that they are using this plant food and water is also the time that the potato crop is requiring its greatest amount of these growing materials.

The fact that the grower will want to increase his yield by stopping cultivations in the row when the plants start to bloom makes it important that these early cultivations with the spike-tooth harrow should be continued at this time. If the soil is properly prepared before planting and if the harrow is used often until the plants are up and until they obtain a height of four to six inches the grower will not have to worry about cultivating in the row over two to three times.

Because it is the easiest and quickest way to control weeds and because the yield of the crop will be increased by cultivating now rather than later in the season, it is recommended that the spike-tooth harrow be used often between the time the crop is planted and it is four to six inches high.

The anvil chorus can always get complete harmony when declaring "There are too darn many laws now." But let these same critics run up against a situation that is not clearly covered in existing statutes, then bear the shout "There ought to be a law!"

—Grant Hinkle, secretary of state of Washington.

Chief Peterson Issues Warning To Local Youths

Chief of Police John Peterson issued a warning yesterday to local youths who are defacing property in the city. Several complaints have been made by Vestside property owners to the effect that boys are using crayon and chalk in writing on public buildings.

The gully articles are apprehended, arrests will be made and the youths will be dealt with to the full extent of the law.

2nd Grasshopper Brood Is Hatching

"Surveys made yesterday," says Lee Stewart, county agricultural agent, "show that the second brood of grasshoppers are just hatching out." On the previous survey several samples of soils were collected from various sections of the county containing the unhatched eggs. This was done in order to find out what percentage of the unhatched eggs remained in the soil would be fertile. A number of the eggs hatched out yesterday and there is every indication that those remaining will also hatch out for the most part.

"I cannot urge too strongly the appeal to farmers throughout the county to keep my office advised of the number of grasshoppers which they find in old pastures, and meadows, and in the clearings in cut-over slashings," said Mr. Stewart. "The approximate numbers found per square yard in different sections of the territory which they use as breeding grounds will give an indication of the seriousness of the situation in that particular locality. If there are but two or three per square yard the survey shows that all eggs have now been hatched, the situation is not as serious as where one finds one hundred or more in the same area."

There is an old motto which says: "Strike while the iron is hot." This motto when applied to grasshopper control means that the poison bran mash should be spread about three weeks after the last brood has hatched as this is the most effective time to control them.

Prices have been quoted on the materials to be used in making the poison bait and this information is being sent to all supervisors in the various townships in the county. The latter further urge that this situation be viewed as a serious one.

FIRST SHIPMENT OF SPUDS MADE

The first carload of white-skinned potatoes, packaged in 15-lb. bags was shipped to the Detroit market from Seney this week, according to Lee Stewart, county agricultural agent. The packaging of potatoes of a U. S. Fancy Grade put up in this type of container was developed this past winter by B. A. Heath, agricultural agent of the South Shore railway, in cooperation with the county agricultural agents in the Upper Peninsula in those counties where the white-skinned potatoes are grown.

This method of putting up potatoes in 15-lb. bags is not new. It was adopted in the Upper Peninsula in order to meet competition from the state of Maine on the Detroit market. Potatoes thus packaged have been bringing a premium of from 50 to 100 per cent over the regular table stock price of Seney will not those growers consigning \$124.00 more per car than if they had been packaged in any other way. The extra grading and extra labor in packing is more than off-set by the added price received.

"The sale of potatoes in 15-lb. bags," says Lee Stewart, county agricultural agent, "is the coming thing." "We have already taken up with the commission men in Detroit the matter of furnishing with several carloads of Irish Cobblers packaged in this same way and have hopes of being able to dispose of several carloads of choice Early Cobblers, of which there is a good acreage in Schoolcraft County. They have also been extended an invitation to visit a number of potato growers this summer in order that they may learn first-hand just what the possibilities are of raising a superior quality of potatoes in Schoolcraft county and in the Upper Peninsula as a whole."

One of the biggest difficulties in putting up a fancy grade of potatoes lies in the elimination of a quantity of tubers which have been injured during digging. Plans are being made for a campaign this fall on the use of padded diggers and other methods which will cut down materially the amount of mechanical injury.

A social hour of cards followed with Mrs. Roy Roberts in charge of the committee. Refreshments closed the evening.

The Knights were guests of the Sisters at the meeting.

Muri H. DeFoe, publisher of the Charlotte Republic, Charlotte, Michigan, and Al H. Weber, publisher of the Cheboygan Observer, Cheboygan, were visitors in the city the early part of the week.

FIRE DESTROYS OLD LANDMARK

Manistique City Garage And Machine Shop Gutted Friday

Fire destroyed the city garage and machine shop west of Main street early last night. An estimate has been made of the damage. Five thousand dollars worth of insurance is being carried on the building.

Flames and smoke belched from the spectacular blaze which destroyed considerable equipment including three trucks which could not be drawn from the seething frame structure. Four tractors were somewhat damaged.

The blaze was believed to have started in the rear end of the building, but when the fire department was notified at 7:30 o'clock, the entire length of the interior was in flames. Sparks blown by a slight wind ignited the roofs of several adjacent residences but were quickly extinguished with the use of chemicals. Firemen braved heat and smoke in saving some of the rolling stock and other equipment.

It was not until after the roof had fallen, following 45 minutes of fighting, that the blaze was gotten under control. Sides of the structure on the second floor remained intact, but the interior was gutted.

The building was an old landmark of the city having been constructed more than 40 years ago when it was occupied by Frank Vassau. Although it is not definitely known how the fire started, it is believed that it was caused either from defective wiring or a short circuit in one of the trucks.

Hitch Hikes Here From Los Angeles

Hitch-hiking all the way from Los Angeles, California, Lyle Sexton, a 20-year-old youth, arrived in the city this week to revisit the scene of his childhood. Lyle is the son of Harvey Sexton who was formerly employed by the Manistique Light & Power company. The Sextons left Manistique for California 14 years ago.

Lyle made the trip in 13 days, averaging 200 miles per day. One day he succeeded in covering 400 miles. Lyle took U. S. Highway 50 from the coast as far as St. Louis, going through Carson City, Salt Lake City, Pueblo, and Kansas City. From St. Louis, Lyle took U. S. Highway 66 to Chicago and then took 141 along the Lake Michigan shore.

Lyle is planning to spend a month or so with relatives at Ed's Kamp at Manistique Lake.

Mr. and Mrs. Herman Soder and family will move the latter part of the month to the lower peninsula to make their permanent home in Lansing.

Gene Sarazen Captures British Open Golf Title

BREAKS RECORD WITH 283 CARD

MacDonald Smith Second With 288 and Havers Is Third, 289

BY FRANK H. KING
 (Associated Press Staff Writer)
 Sandwich, England, June 10 (AP)—Gene Sarazen, little Hercules of American links, won the 1932 British open golf championship today with a record-breaking 283 and held the American dynasty firm on Britain's soiling throne.

His 70-69-70-74 for the 72 holes shattered par on every round, except the last this afternoon. He finished 13 strokes better than regulation figures for the championship layout.

Sarazen led from start to finish. He lowered by two strokes the tournament record of 285 set by Bobby Jones in 1927 at St. Andrews. He surpassed the best mark ever made in an American open, 286 by Chlek Evans. Havers shoots 68.

Only MacDonald Smith, personal challenger, was able to keep the chunky New Yorker in sight, and the best he could finish was five strokes back with 71-76-71-70—288, good enough to win any other British open in history save Bobby Jones's 285, but hopeless today.

Arthur Havers, whose victory in the open in 1923 was Britain's last, made the final stand with a 68, breaking the course record, but he found the chase after Sarazen too exhausting. His final round was a weak 76, giving him third place, a stroke behind MacDonald Smith, with 74-71-68-76—289.

A discouraged figure, buried down in the tenth gully, was Tommy Armour, the "Black Scot" from Detroit and Chicago. His game burst wide open on the 83 and a 73 hole aggregate of 75-70-74-83—302.

"We're sportsmen enough to know that the best man won and we congratulate him on his remarkable effort," said Sir H. M. Mallaby Deeley, presenting Gene's cup.

The bronzed little Lakeview (Long Island) professional, replied: "I only hope that I'll be as worthy a champion as these."

and he ran his finger down that long list of engraved names that include numerous inscriptions of Harry Vardon, Jim Braid, J. H. Murray, Walter Hagen, and Bob Jones.

"I'll be back next year," he added. "To do the best I can."

The Prince of Wales saw Gene play today, but he left to Britain's throne, and all the other nobles were just fans among the rushing galleries that numbered about 5,000.

YANKEES GET VICTORY IN LONG BATTLE BY 5 TO 4 SCORE
 Detroit, June 10 (AP)—Henry George Schube, a Detroit bench warmer until a few days ago, walked two home runs against the New York Yankees today and made it three in two games, but his clouters were not enough to win.

The Yankees came through in the eleven inning for an 8 to 7 triumph, their third of the series, when Earl Combs doubled and Joe Sewell singled him home after two were out. The doct dropped the Tigers into fourth place.

Baby Ruth and Lou Gehrig put one of their best at the start. With two down Ruth singled and Gehrig followed with his thirteenth homer of the season.

TWO REBUFFED
 Chicago, June 10 (AP)—Two of the administration-recognized factions that handle patronage in the southern states were rebuffed by the Republican national committee today when they sought its approval as the official delegations.

Mississippi and South Carolina, long represented on the Republican national committee by the negro Perry Howard, and Joseph W. Tolbert will continue to be so represented on the tentative convention roster.

Europe, where they will meet Elizabeth. They plan to return about August 1, and meanwhile Col. and Mrs. Lindbergh, it was said, will spend the summer either at Englewood or at the Morrow summer home in Maine.

The suicide today disrupted plans for a dinner at the Morrow home tonight in honor of Miss Lucretia Butler, a niece of General J. J. Morrow, who is to be married to Edward Burton, a graduate of West Point military academy with today's class.

Salvage \$45,000 From Sunken Boat
 Brest, France, June 10 (AP)—The stubborn hull of the sunken liner Egypt, clinging to five million dollars worth of gold and silver, bulled these 10 years, today yielded up \$45,000 to tenacious Genoese divers.

Fifteen lives and two strong ships have been lost in the two year's quest for the precious metal by an Italian salvaging crew. Today's haul, while very small, apparently heralded ultimate victory in the spectacular battle of man against the waves.

TIGERS BEATEN IN 11 INNINGS

Yankees Get Victory in Long Battle by 5 to 4 Score

DETROIT, June 10 (AP)—Henry George Schube, a Detroit bench warmer until a few days ago, walked two home runs against the New York Yankees today and made it three in two games, but his clouts were not enough to win.

The Yankees came through in the eleven inning for an 8 to 7 triumph, their third of the series, when Earl Combs doubled and Joe Sewell singled him home after two were out. The doct dropped the Tigers into fourth place.

Baby Ruth and Lou Gehrig put one of their best at the start. With two down Ruth singled and Gehrig followed with his thirteenth homer of the season.

Two records were bettered in the trials but only one of them will go into the N. C. A. A. record book. George Saling, another of the long line of Iowa hurdlers, stepped his heat in the 220 yards in 25.1 seconds, having a tenth of a second from the record set in 1925 by Frank Cuhel, another Iowan, and tied by Lee Sentman of Illinois in 1930. It was just a tenth of a second shy of the accepted world record by Charley Brookins of Iowa in 1924.

Metcalf Qualifies
 The record which will not stand was a fine 1:53.2 for the half mile by E. Gray of Abilene Christian college of Texas. Gray was not eligible under the rules of the association, but qualified for the final Olympic trials at Palo Alto, Calif., next month. The N. C. A. A. record is 1:53.5, set by Dale Letts of Chicago last year.

Ralph Metcalf, Marquette university's negro sprinter, again demonstrated his right to consideration for the Olympic squad by easily winning his heats in the 100 and 220 yard dashes. Another negro, Jim Johnson of Illinois State normal, came up with a surprise by outfooting Don Bennett, one of Ohio State's chief hopes, in the century.

Ohio State was led today by Jack Keller, who qualified in both hurdles, Bennett in both dashes, Smith in the javelin and John Black in the high hurdles.

Qualifiers from Michigan schools were:
 Liberty and Bath, Michigan State, 120-yard high hurdles; Dues, Detroit City, shot put; Lemmen and Turner, Michigan, 880-yard run; Arnold, Michigan Normal, Pingast, Western State Teachers, and Keast, Michigan State, 440-yard dash; Brooks, Michigan, discus throw; Beatty, Michigan Normal, Lewis, Detroit City, and Simmons, Michigan Normal, 400-meter hurdle.

Tech's Athletic Officials Named
 Houghton, Mich.—Captains and managers of athletic teams for the season 1932-33 at the Michigan College of Mining & Technology were elected before the close of the 1931-32 college year.

The elections resulted as follows:
 Football—William H. Shingler, Kentoff, Captain; Clyde S. Williams, Bassemmer, manager.
 Basketball—Bernard Barker, Battle Creek, Mich., Captain; Charles Miller, Adrian, Mich., manager.
 Hockey—John R. Jacobson, Hancock, Mich., Captain; Dale Ronald Marks, Battle Creek, Mich., manager.

Veterans Lead In State Senior Golf
 Lansing, Mich., June 10 (AP)—Two veterans of Michigan golf today toured the fairways of the difficult country club course to turn in the low score of 81 among a field of 100 at the annual spring tournament of the State Senior Golf association, a competition limited to golfers at least 50 years old.

Dr. A. D. Tyler, of Grand Rapids, and R. H. Dougherty, of Detroit, were tied with the best cards of 81. Dr. Tyler fought par in the Class B competition, limited to golfers between 55 and 59 years of age, while Dougherty played in the youngest division, Class A, comprised of those between 50 and 54.

Detroit veterans captured sixteen of the thirty-five prizes awarded by the association.

Purdue Mentor Keeps Busy
 Coach Ward (Piggy) Lambert, basketball genius at Purdue University, will conduct four basketball coaching schools in the mid-West this summer. He will coach the cage game at Dayton, Ohio, Jeffersonville and Vincennes in Indiana and St. Paul, Minn.

Riverside Golfers Play Here Today

The annual inter-club match between Riverside Country Club of Menominee and the Escanaba Country Club will be held here today.

Eighteen-hole matches will be played. At 6:30 p. m., there will be an exhibition match with M. S. Malasack and Johnny Revolva, club professionals, as the principals.

Within the last two weeks, Revolva has broken the Riverside course record twice, making it first in 49 and this week cutting it down to 67. The Riverside course record of 70 set by Joe Kirkwood several years ago stood until Revolva set the new mark.

Lunch will be served at the clubhouse at 12:30 o'clock noon, E. S. T.

CHICUBS LOSE LEAGUE LEAD

Brooklyn Takes Final Game of Series by 4 to 3 Score

Brooklyn, June 10 (AP)—The Chicago Cubs lost first place in the National League today as they dropped a turbulent ball game to Brooklyn by a 4 to 3 count and fell a half game behind the Boston Braves.

Hollis Thurston pitched six-hit ball for the Dodgers while the clubbing of Joe Stripp, Tony Cucchinello and Clyde Sukerforth beat Burleigh Grimes. Brooklyn took the series 3-1.

If feeling that had prevailed through the series broke out in the first inning in a first fight between Neil Finn, Dodger third baseman, and Bill Jurgens, Cub shortstop. For a few minutes it seemed about to turn into a free-for-all between the two clubs.

Finn bumped Jurgens at second when the latter was about to try for a double play. As Finn turned away, Jurgens apparently made some remark that "Mickey" didn't like and they went at it. Woody English charged in with a flying tackle and carried both combatants to the ground.

Members of both teams rushed up and there was indiscriminate punching before order was restored. Finn and Jurgens were put out of the game.

Ed Brandt Beats St. Louis Cards By Score Of 2-1
 Boston, June 10 (AP)—Ed Brandt, Boston's left-handed hurling ace, turned back the Cardinals today, 2 to 1, to give the Braves the last game of the three-game series. St. Louis stepped out in front in the second inning when Blades singlets, moved to second when Orsatti was hit by a pitched ball and scored on Worthington's single.

The Braves tied the count in the fourth when Schulmercher doubled and scored on Shires' triple. They went ahead when Urbanski slugged, stole second and scored on Worthington's double.

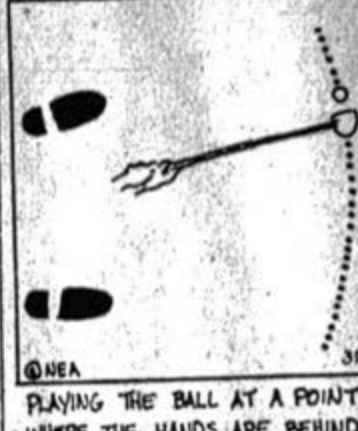

Settergren Cops Western Michigan Open Golf Crown
 Grand Rapids, Mich., June 10 (AP)—Cliff Settergren, Muskegon pro, won the western Michigan open golf tournament here today with a score of 144 for 36 holes of medal play. He combined rounds of 70 and 74 on the Highlands Country club course, which is a par 69.

Frank Kennett, steady shooting Battle Creek pro, took second money, one stroke behind Settergren. He had rounds of 73-72-145. Jake Fassecke, Jackson, and Richards Reisma, Grand Rapids, were tied for third at 147. Fassecke had 75-72 and Reisma 74-73.

Adrian Vanlier, Grand Rapids, the defending champion, could do no better than eighth after a discouraging morning round. He had tough luck in the trap, and also was wild, taking a 77 in the morning and 73 in the afternoon for a total of 149.

Golfing

BY ART KENZ

A sliced ball is one that curves to the right and is caused by the clubhead being drawn across the ball from right to left, imparting left to right spin.

A sliced ball can be caused by faulty grip, address, stance or swing. If the left hand is too far under the shaft, when it rights itself in the swing it drags the club face across the ball.

Playing the ball at a point where the hands are behind the clubhead invites a slice. An open stance tends to make one cut across the ball because it's natural to swing parallel to the feet.

Allowing the right elbow to leave the body causes the right hand to take control and swing the club across the ball from the outside.

Pressing or overanxiety to hit often produces a slice. When a golfer begins to press, his body will get into the shot before the clubhead has reached the ball, the hands are extended and are late, causing one to hit the ball with the club head at a distinct angle.

YANKEES WIN AT WIMBLEDON

Wimbledon, England, June 10 (AP)—Three Californians, Helen Wills Moody, Helen Jacobs, and Anna Harper, swept the Wimbledon courts for three straight victories today without the loss of a set to give the United States a running start in the annual Wightman Cup tennis series with Great Britain.

Mrs. Moody, American and French singles champion, was decidedly erratic as she downed Mrs. Eileen Bennett Whittingstall, 6-2, 6-4. Miss Jacobs played some of her finest tennis in trouncing Dorothy Round, 6-4, 6-3, and then teamed with Mrs. Harper to win the doubles match of the day from Miss Round and Mrs. L. R. C. Mitchell, 6-4, 6-1.

Barring accidents, the triple conquest should assure the United States retention of the cup won back from the British at Forest Hills last summer. In nine series since 1923 the United States has won five times, Great Britain four.

Mrs. Moody played with far greater effort than usual. She had to come from behind and take six straight games to win the second and deciding set from Mrs. Whittingstall. Even during the rally several of her winning games went to deuce.

Three singles and a doubles match complete the series tomorrow. One victory will clinch the series for the United States.

ESKYMOS CAN COP U. P. TITLE

Some Critics Say Kingsford Strength is Overrated

With an outside chance to cop top honors, Coach Nordberg and Wylie will take their thindled protégés to Menominee today to compete in the Upper Peninsula Invitational track and field championships there. Preliminaries will be run in the events this morning with the finals in the afternoon.

Although Kingsford is figured for first honors with Iron Mountain and Escanaba fighting for second some close followers of peninsula track doings assert that Kingsford's strength is overrated and that the real championship fight will rest between the Mountaineers and the Eskymos.

In an effort to bring in more points, Coach Wylie who handles the distance runners has shifted Monson from the half mile to the quarter mile and has placed

LEAVE AT NINE
 Eskymo thindclids who will go to Menominee today with Coaches Nordberg and Wylie are requested to report at the senior high school ready to leave at nine o'clock this morning.

Rose in the 880-yard run instead of the mile. C. Johnson and Ottensman are entered in the mile and Wylie expects them to dominate this event.

With Logan, Monson and Christensen in the 440-yard dash, Wylie figures the Eskymos can do well in this event and he expects Rose to break the tape ahead of the pack in the half mile.

Only one other first place is expected by the Eskymo coaches. That is in the pole vault event in which Anderson of Escanaba looks as the probable winner. Anderson will also be out to better the U. P. record of 11 feet, 9 inches in the event. In addition to Anderson, the Eskymos figure on points from Kelly, Hebert or Finman in the vault. The only contender likely to wedge in on the Escanaba monopoly in the pole vault, Nordberg believes, is Olson of Kingsford.

Wakefield is sending down a formidable array of track and field talent and probably will cause trouble for the leaders although Coach Nordberg doesn't expect the Gogebie outfit to take away any of the prospective Eskymo points. With Yatchak in the hurdles and shot put, Wakefield will have two take away points that Iron Mountain and Kingsford were figuring on.

The Eskymo seniors who will make their last bid for the Escanaba high school athletic colors include Anderson, Burns, Christensen, Moersch, Finnigan, Rose, Johnson and Ottensman.

Escanaba Athletes Honored at Tech

Houghton, Mich., June 10—Seventy varsity and freshman athletes at the Michigan College of Mining and Technology have been awarded letters and numerals by the college athletic board upon the recommendation of U. J. Noblet, director of athletics. Of the 70 awards granted, 51 went to members of the varsity football, basketball, hockey and track teams, and the others were numerals awarded to members of the freshman basketball and hockey teams.

The awards granted by the athletic board include:
 Varsity football—Ted Murray, Gladstone.
 Varsity track, 1931—Fred Foster, Menominee.
 Varsity basketball—Henry Schroeger, Marquette.
 Freshman basketball—Russell Bowers, and William Karas, Escanaba.

Phils Take Pirates In Series Final, 6-5
 Philadelphia, June 10 (AP)—The Phillies split even with Pittsburgh in their four game series here by taking the final encounter from the Pirates today, 6 to 5.

Although outbatted 15 to 11, the Phils bunched their hits for the triumph. Paul Waner hit a home run in the seventh inning with L. Waner and Grace on the bases.

Athletics Back In First Division By Defeating Indians

Cleveland, June 10 (AP)—The Philadelphia Athletics bounded back into the first division of the American league today as they scored four runs in the 10th inning to defeat Cleveland 10 to 7, but lost the services for three months of Ed Coleman, right fielder who broke an ankle bone sliding into the plate in the second inning.

The league champions knocked out Willis Hudlin with successive singles by Cochrane, Simmons and Foss after Haas had been passed to score three runs, then got another off Mel Harder, relief pitcher, for the fourth score, on Dykes' single.

The Indians hopes had risen in the ninth as Hudlin struck out two men and the third went out on a foul, appearing stronger than ever in the nip and tuck battle.

Walberg, too, was taken out in the tenth, although he received credit for the victory. Lefty Grove, Philadelphia ace, pitched two thirds of an inning to hold the Indians hitless.

WEDNESDAY SET FOR CAR TESTS

Escanaba Police Add One More Day to Inspect Brakes

If the weather is favorable next Wednesday, the Escanaba police department plans to have one more day of brake testing and car inspections. The officers found that there were many cars not taken care of in the regular campaign, and have made plans for the extra day as an opportunity for those who really wish to be assured that their brakes and lights are in safe, legal condition for driving in traffic. The brake test is not mandatory, but is merely a service offered local motorists in the interests of traffic safety.

"There were six deaths in Escanaba from traffic accidents last year—all unnecessary," says Chief of Police John J. Tolan. "Many accidents have been due to faulty brakes, and we traced at least one accident definitely to a car that purposely 'dodged' the brake inspection last year."

Evasion of the brake test referred to by the chief has also been noted this season, according to officers working in the campaign. A number of cars were seen turning around or detouring around the block to avoid the testing area. Most of them, the police believe, are motorists who know that their brakes are not in safe driving condition.

GUARD ON DUTY AT PARK BEACH

Rafts and Slides to Be Installed at Local Bathing Place

Beginning today, a life guard will be on duty at the Ludington park bathing beach.

Joel Olson, re-engaged by the park board as beach supervisor, will start work this morning, and will be on hand through the season to keep watch on bathers and swimmers.

The work of installing rafts, slides and other equipment at the beach will be started immediately. The water at the beach is clearer and cleaner than last year, but somewhat shallower. It is probable that the diving raft will have to be moved out to reach sufficient depth for diving. Bathing this year have been able to wade out as far as the sand bar.

The summer program and the schedule of hours at the beach will be announced following a conference of the park board and Olson.

Extension of Air Mail Line Asked

Green Bay, Wis.—Protest against the proposed expenditure of between \$75,000 and \$100,000 of air mail appropriations for air mail service across Lake Michigan between Milwaukee and Detroit, has been made by the associations of commerce of Green Bay, Escanaba, Neenah-Menasha, Menominee, Appleton, Oshkosh, and Fond du Lac, and the Marinette Industrial board, in a letter addressed to James M. Mead, chairman of the house post office and post roads committee, at Washington.

The across-lake extension is proposed by the Kohler Air Line, Milwaukee, while the protesting organizations have been advocating the extension of the Milwaukee-Green Bay air mail route through Marinette and Menominee to Escanaba.

Have Service Now
The protest is based on the fact that air mail service already exists between Milwaukee and Detroit via Chicago, and has been in regular operation since 1926. The service via Chicago, as now provided, the protesting organizations contend, would not be improved by the establishment of the across-lake line, which they regard purely as a supplemental service.

"It occurs to us," the letter to Mr. Mead reads, "that if the post-office department finds that it has \$75,000 to \$100,000 per year to put into new air mail service, that this amount should be expended in extending lines into new regions where air mail service does not at present exist and where important savings in time will be realized in the public interest.

Urge Extension Here
"The proposed extension from Milwaukee to Detroit, as we see it, is, at best, only a refinement of an already existing air mail service and as such does not warrant the expenditure of a large amount of money under present economic conditions."

The Green Bay-Escanaba extension urged by the Fox river valley and northern cities would cost, it is estimated, approximately \$20,000 per year. The letter points out that no air mail service is now available north of Green Bay. Under existing train schedules, the trip from Escanaba requires from 10 to 12 hours, while by plane it could be made in three hours and 55 minutes, about one-third the time required by train. Comparative savings of time might be made on north-bound trips out of Chicago with the institution of air service. The consequent speeding up of mail service would, the letter says, be of inestimable value to business in this territory.

AMUSEMENTS

The big double feature program, with "Night Court" and "No Greater Love" as the headline attractions, will be presented again today at the delft theatre.

Beary-eyed vagrants, pasty-faced hoppers, slinky pickpockets, ladies-of-the-night, hopeless derelicts, madlin drunks, all the filth and jetsom of despairing humanity are seen on parade in "Night Court." Metro-Goldwyn-Mayer's fascinating drama which was unrolled yesterday at the Delft Theatre.

Here is a film that will remain in your memory. It brushes you against the kind of sordid life you seldom see but which exists—every day—every night—in any metropolitan city. The human background, against which Director W. S. VanDyke presents this powerful story, is impressively symbolic. In the opinion of this reviewer, the opening shots are as fine a piece of direction witnessed on the screen in many months.

"No Greater Love," the Columbia picture that is pulling heartstrings at the Delft Theatre, was written by Isadore Bernstein, who has been in the motion picture industry for many years. He has either directed, written or produced more than two hundred pictures.

Bernstein's knowledge of screen timing is excellent. He has put into "No Greater Love," which he himself adapted from his own story called "And God Smiled," a combination of pathos and comedy that brings to it a great dramatic balance.

FIRST METHODIST EPISCOPAL
Corner 6th St. and 2nd Ave. S.
R. C. G. Williams, Minister.
Morning Bible school at 9:30. H. H. Spindler, Superintendent.
Morning service will be in the hands of the young people and children of the Sunday School. Children's Day being the occasion. A very interesting program has been prepared under the direction of Miss Evelyn Saaswelle. The theme of the service is "A Day Child" and the purpose is to show that modern methods of Sunday School work is superior to the old fashioned way. Classes of the old schools of 1865, 1890, and so on down the years will be featured of the service. This service will begin at 10:30.

Evening Public service at 7:30.
There will be a special musical number by members of the choir. The pastor will preach upon the theme "Why Jesus appeared unto His disciples at the lakeside after the Resurrection." This will probably be the last evening service for the summer months, and the friends of the church are asked to make a special effort to attend this service.
Monday, there will be a meeting of the Official Board, and members of the congregation at 8 o'clock. This is undoubtedly the most important to the official, and membership of this church that has been issued in the past fifteen years, and everyone interested in the immediate welfare of the church is asked to make a special effort to be present.
Wednesday, the Boy Scouts will meet at 7:15 p. m.

Editor Dies
Hancock—Walter Ed. Jettilla, managing editor of the Union Pacific, a magazine published by the Union Pacific railroad, and son of Mr. and Mrs. J. M. Jettilla of Hancock, died unexpectedly Sunday in Omaha, Neb. No word of Mr. Jettilla's illness was received previously by his parents and it is believed his death was preceded only by a brief illness, if any. The body will be brought to Hancock for burial and will be accompanied by the deceased's wife.

RAPID RIVER

School Election Monday
Rapid River, June 9. (Special)
—The annual school election of Masonville township will be held next Monday, June 13, at which time two school officers will be chosen, the president and treasurer, for terms of three years each. For the office of president, there are three candidates, R. C. Young, H. A. Harris and Joseph Columb. Mr. Harris is at present a member of the school board holding the office of treasurer. Mr. Young served on the board as secretary several years ago.

For the office of treasurer, there are two candidates, Leslie Caswell, who at the present time is president of the board, and Todd C. Ewald, who also was secretary of the school board a few years ago.

In addition to the election of these officers other items of business that will be discussed during the business meeting, which is to be held between the hours of three and five o'clock in the afternoon, are the budget for the next year, the secretary's report of the receipts and expenditures of the past year, the sale of the Maplewood school property, and other matters such as fixing the officer's salaries, the length of the school term may be presented.

The polls open at ten o'clock in the forenoon and close at five in the afternoon.
