HINTS MAYOR DIDN'T SEARCH FOR SHERWOOD

NAME OF ACTRESS INJECTED INTO OUSTER CASE

(Associated Press Staff Writer) Executive Chamber, Albany, N. Y., Aug. 16 (AP)—Leaning forward across his executive desk, Governor Roosevelt turned today the full force of his examination of Mayor Walker on ouster charges toward an explanation of why the mayor failed to get in touch with Russell T. Sherwood, the missing accountant, who reputedly handled financial transactions of nearly a million.

On the stand for the fourth day, Walker steadfastly maintained he didn't know Sherwood's whereabouts, that he had made every effort to get in touch with him and that his relations with Sherwood were only routine business affairs.

Outside the "Hall of Governors" where the hearing was in progress Walker was asked if the "unknown person" whose receipt of \$41,000 from Sherwood had been mentioned were Betty Compton, the actress.

# MURPHY GIVES HIS PLATFORM

## Petoskey War Veteran Is Candidate for Congress From 11th District

"You shouldn't need to ask how Murphy stands on prohibition," declared Joseph P. Murphy of Petoskey, Republican candidate for Congress from the 11th district, addressing his first group gathering at Escanaba in the interests of his candidacy. He spoke to local ex-service men Monday night, following the adjournment of the local American Legion meeting.

"I favor repeal of the prohibition amendment not because I want to guzzle beer, but because disregard for the unpopular dry law has brought about disregard and disrespect for all laws, and the only remedy is removal of this law," Candidate Murphy declared. He cited experiences in his two years as justice of the peace when sworn witnesses on both sides of a hearing failed to tell the truth, and he blamed the prohibition law as a contributory cause for this attitude.

**Favors Bonus**

Among other planks in Murphy's platform as he outlined it Monday night were: immediate cash payment of the soldier bonus, a championing of the cause of the ex-service man and his dependents, completion of the Great Lakes waterway and improvement of Great Lakes harbors, a pruning out of 'dead timber' in useless government bureaus, and undivided attention to the duties of congressman if elected.

Mr. Murphy declared that dissatisfaction had been expressed with the representation this district received at Washington, and that this was the reason his candidacy had been advanced by a group in the lower 11th.

"You want a man to keep in constant touch with the problems and needs of his district, and to stay on the job at Washington and fight for them," he declared. "I have told you all about myself, and if you think I'm qual-

ified, Murphy is your man."

**Salary Enough**

"It has been said that Murphy shouldn't run for Congress because he hasn't any money, but I want to tell you that the salary of congressman is ample for me to live on—larger than I have ever received—and I do not propose to be a social lion at Washington. I'm not built that way. Let others do the entertaining. I'll stick to business, and my only job will be congressman from the 11th. I won't need to put my wife on the payroll at \$4,500 a year either to make a living."

Murphy served as first lieutenant of company C, 125th Infantry, during the World war, was wounded in the Meuse-Aisne, and twice cited for D. S. C. He now holds the rank of first lieutenant, U. S. army, retired. His opponents in the race for congress are F. Ray Gillespie, municipal judge at Sault Ste. Marie, and Dr. Frank P. Bohn of Newberry, present congressman.

### THEATRES

The greatly-anticipated appearance of Jean Harlow, transformed from platinum blonde to a red-head, took place at the Delft Theatre yesterday. Miss Harlow makes her red-headed bow in the title role of "Red Headed Woman."

It is a type of role particularly suited to her talents, for Miss Harlow has an indisputable flair for portraying the type of woman who can twist men around her fingers. In this instance she reveals not only a keen instinct for the demands of her characterization but a fresh acting personality as well.

You are going to like "Red Headed Woman," both in the story and in the person of the girl who plays the title part. It is a difficult role, for it is the portrait of an unscrupulous woman. In bringing the Katharine Brush novel to the screen, Metro-Goldwyn-Mayer saw fit to use the humorous talents of Anita Loos for the adaptation. The result is a lightening and softening in places, so that what could have been stark reality becomes more pleasant entertainment.

## CONCRETE JOBS ARE UNDER WAY

### Paving Started Tuesday at Ford River and At Powers

Paving operations got under way Tuesday on two road construction projects in this vicinity. The Delta Contracting Co. has started on M-35, which is to be paved from Escanaba to Ford River, a distance of 5.2 miles. Work is under way on the south end of the job. Considerable grading remains to be completed, and this is proceeding ahead of the paver crew.

L. W. Brumm has his equipment on location at Powers, and is laying pavement on US-41, where grading was previously completed for a continuation of the concrete road which now extends from Kipling to Spalding.

More than a hundred men are employed on the two jobs.

Baby girls are still having their feet bound in certain districts of Peking and other cities of China.

### CURTIS NEWS

**Scouts at Curtis**

Boy Scouts, Troup 51, of Hillsdale, spent several happy days at Curtis, camped in the park on Whitefish Lake. The 31 boys and their Scoutmaster, Guy Lovejoy, arrived by truck on Sunday afternoon of last week. They were accompanied by E. B. Rosier and Mr. Bingham. Harold Clay of St. Ignace was also in camp; also two other men whose names were not secured. G. W. Tennant, Byrd's chief cook on his expedition to both the north and the south poles, joined them and cooked the last few meals for the boys. Mr. Tennant also gave the boys a lecture on the Byrd expedition and showed pictures taken on the trip. The Troup broke camp Saturday morning and drove to the Soo. From there they would drive to the Straits of Mackinac, hoping to make camp at Petoskey Saturday night and to arrive at Hillsdale Sunday night. The Curtis people enjoyed having this fine group of well trained boys among them. To the correspondent, a group of the boys said: "We're a wonderful Scoutmaster and that means everything to a troupe."

## Dangerous Corner On U. S. 2 Removed

Rapid River, Aug. 15 (Special)—With the moving of the dwelling house owned by Mrs. Exilda Boyer from the front of her lot facing U. S. highway No. 2 to the rear of the lot so as to face highway No. 41, what has been a very dangerous corner has been eliminated. This house was located at the intersection of highways 2 and 41 and the Main street of this village, and being right up to the street line, it obstructed the vision of all highway traffic to and from the north. Many accidents have resulted at this corner because of this fact.

For many years the building was occupied by the Lester White family and also housed the Michigan Telephone company exchange. Recently the exchange was moved to the Levi Rabideau building. Mrs. Boyer sold the building to her son, Romeo, of Gladstone, who moved it. Mr. Boyer is having the old store front removed, and having the building remodelled for dwelling purposes.

**LOCAL GIRLS WIN TRIP**

Misses Betty McPherson, daughter of Mr. and Mrs. Robert McPherson, and Vera White, daughter of Mr. and Mrs. Lester White, attending Camp Shaw 4-H Club camp at Chatham, last week, were among the several winners of trips to the State Fair at Detroit. They won in the clothing demonstration contest.

Both girls have been members of Miss Elna Granskog's club of second year 4-H workers.

**Personal News**

Pascal Prudhomme left Saturday morning for Montreal, Canada, where he will live indefinitely.

**Bonds Are \$2,000 In Robbery Case**

Waiving examinations when arraigned in justice court, three Escanaba men have been bound over to circuit court for robberies at the Scandia Co-op north side store. Bonds were fixed at \$2,000 each by Justice of the Peace H. E. Ranguette. Those implicated in the charge are Gust Almonroeder, 1528 North 16th, Nick Nastoff, 1423 North 20th, and Oliver Roman, 1615 North 16th.

Chlorine gas was discovered in 177 by Scheele, and was then called dephlogisticated muriatic acid. The first use of this gas during the World War was on April 22, 1915, when the Germans employed it in an attack against British and French troops.

Canning Project Gets Good Start, Many Donations

With four churches already operating their kitchens and four more due to join the list this week, the community canning project for the aid of the unemployed is now making highly satisfactory progress.

The committee wishes it made plain that all produce canned will be given to the city welfare department for distribution to the poor in the winter.

The enterprise is cooperative, and the support of all employed is solicited. The assistance of the city has been assured.

Budget System Should Guide Home Canning

(EDITOR'S NOTE: This is the first of a series of six articles on home canning, written by Sister Mary, food expert for the Daily Press and NEA Service. These articles will appear as part of her daily column, "Sister Mary's Kitchen.")

Home canning in variety and quantity will definitely reduce next winter's cost of living and should be considered on a business basis.

The number of jars or cans which can be produced from a bushel of fruit or vegetables will naturally vary slightly according to the size of the pieces, the skill with which the can is packed and the quantity of syrup or juice.

Green or string beans, .15 quarts Unshelled lima beans, .10 quarts Peas (in pods), .10 quarts Corn (husked), .08 quarts Peaches, .16 to 18 quarts Tomatoes, .16 quarts Pears, .18 quarts Plums, .20 quarts

A small canner or pressure cooker which fits over one burner makes it possible to can three or four jars of vegetables daily when one is in the kitchen preparing luncheon.

MONDAY'S MENU BREAKFAST: Chilled apple sauce, cereal cooked with dates, cream, crisp toast, milk, coffee. LUNCHEON: Eggs in tomato cups, graham rolls, spice cake, milk, tea. DINNER: Salisbury steak, creamed potatoes, buttered beans, carrot and cabbage salad with orange dressing, peanut brittle, ice cream, milk, coffee.

Plum Conserve 1 basket blue plums, pitted before cooking. 1 pound figs, cut fine. 1 quart sugar, or more if needed. 1 cup English walnut meats, broken in small pieces. Cook until thick, adding the walnut meats' last. Cool and seal immediately.

Tomato Conserve 12 tomatoes. 8 cups sugar. Rind and pulp of one lemon. Rind and pulp of one orange. Boil all together until thick. Any kind of nut meats may be added if desired. Cool and seal in jars.

Grape Conserve 3 pints grapes. 8 cups sugar. 1/2 pound raisins. Juice of two oranges. 1 pint water. 1 cup English walnut meats, broken in small pieces. Pulp grapes and cook. Remove seeds through colander. Then put all ingredients except nut meats. Cook twenty minutes, add broken nut meats, can and seal.

Heavenly Hash 5 lbs. pears, cut fine 5 lbs. sugar. Place the pears and sugar together and allow to stand overnight. In the morning skim out the pears and cook the juice formed until a rich syrup has formed. Then add the pear pulp and cook until thick. The juice of one lemon will add to the flavor. Cool and seal in jars.

Suggestion For Fruit Canners If you hesitate to can fruits because you dislike the idea of sitting down with a bushel basket of peaches or berries that need immediate attention, try this plan.

Wrapping apples in oiled paper will prevent their shrinking. Tomatoes, 3 servings per week, 1/2 cup size of serving, 24 pints. Green beans, 2 servings per week, 1/2 cup per serving, 16 pints. Corn, 1 serving per week, 1/2 cup per serving, 8 pints. Peas, 1 serving per week, 1/2 cup per serving, 4 pints. Beets, 1 serving per week, 1/2 cup per serving, 8 pints. Carrots, 1 serving per week, 1/2 cup per serving, 8 pints. Soup mixture, 3 servings per week, 1/2 cup per serving, 24 pints. Spinach, 2 servings per week, 1/2 cup per serving, 16 pints.

**Perfect Fielding Marks Close Game**

The Outlaws clinched second place in the Gladstone Kittenball league yesterday by winning 4 to 3 from Hups. They also placed themselves in position for a possible tie with the Veneers, league leaders, who must win their next contest to gain undisputed league honors.

The Hup-Outlaw game resolved itself into a pitchers' battle, Duchesney, working for the Outlaws, was in prime condition and his control was at its best. He struck out 12, walked one and allowed five hits. Stambulich, his opponent, had more difficulty in finding the plate and walked five. He struck out 2 and allowed 7 hits. Both teams played errorless ball.

Score by innings:  
Hups — 000 012 0—3 5 0  
Outlaws — 030 010 x—4 7 0

Batteries: Hups, Stambulich and Jahnke; Outlaws, Duchesney and Upton.

**Pertinent Comment**

"Provide proper recreational facilities for these boys and they won't be getting into trouble." Thus spoke an attorney in a Gladstone court early last Spring, when five young men were brought before the bar of justice on a serious offense.

Repeatedly, before that time, police officers had been called to arrest boys and young men whose exuberant spirit led them into difficulties because there was no other outlet.

That the conclusion of the attorney was sound is evidenced by the comparative freedom from crime that has marked the past three months. Since May, court cases have been scarce and in no instance have "gangs" been picked up for even minor disturbances.

The major contributing factor in the reform that has been achieved is the kittenball league. Recreation for nearly 200 youth of the city has been provided and entertainment has been furnished for hundreds more. Such keen interest has been created in the league play that the minds of the young men have been too occupied to permit them to get into trouble.

Besides Kittenball, the boys

and girls of Gladstone have had the beach facilities and the playgrounds to afford diversion.

With the closing of the kittenball season this week and the short time remaining before the beach and playgrounds will be closed, civic leaders should evolve some program of activity that will serve to hold the attention of the youth to the same degree through the fall and winter months.

A program for fall and winter would likely entail expenditure of funds to some extent but, whatever the expense, it would be an investment well worth consideration—if the results were equal to those achieved through the summer program.

**Writer-Lecturer Is Visitor Here**

Clarence E. Ridley, Ph. D., of the University of Chicago, accompanied by Mrs. Ridley and two children, spent yesterday in the city as guests at the home of City Manager and Mrs. F. R. Buechner. Prof. Ridley is executive secretary of the International City Managers' association, which has its headquarters on the university campus and is also a lecturer on political science.

During his visit here Prof. Ridley visited the various departments of the city for the purpose of acquainting himself with the methods used. He expressed keen interest in the welfare department of the city and stated that its methods were in accord with the best practices of other cities which had come under his observation. He also complimented the city on its clinic and laboratory.

Prof. Ridley and his family are making a tour around Lake Michigan, and enroute he is gathering material in the commission-manager cities for use in the publication, "Public Management" of which he is editor.

**Car Hits Tree**—Police reported an accident at 23rd and Ludington Monday night. A car driven by Mrs. Dewey Meunier, going west on Ludington, swerved left to avoid a collision with another machine and struck a tree. Helen O'Brien, 327 South 15th, one of the occupants of the Meunier car, received cuts about the face. Pataja, 317 South 13th, received only minor bruises.

**ANOTHER ANCESTOR**—Minneapolis, Minn.—Delving geologists have been digging up prehistoric men all over the world, and the latest one to be brought to light is the "Minnesota Man," whose bones were found by road builders. Dr. A. E. Jenks, of the University of Minnesota, has pronounced the skeleton to be that of a primitive youth about 20 years old who roamed this state 20,000 years ago.

Results of the matches, leading to the finals, are reported as follows by Director Skelleger, who acted as referee:

Ackley and Jadin defeated Germaine and Maynard, 5-7, 6-3, 6-3.

Wilmotte and Hawkinson defeated Foster and Simpson, 6-3, 6-1.

D'Amour and Larson drew a bye in the first round.

King and Hale defeated Roland and Foster, 6-0, 6-1.

Ackley and Jadin forfeited to Wilmotte and Hawkinson.

D'Amour and Larson defeated King and Hale, 4-6, 6-3, 6-3.

All matches in the girls' tournament, scheduled for yesterday, were postponed because of rain. The games will be played today.

**Neighborhood Noisemakers Beware! Court Approves "Shots" Fired at Trumpet Player**

By NEA Service  
New York—"Blah-a-a-h-h-h," bleated Stephen Jensen's trumpet.

"Wham! Bang!" volleyed Armon von Borowsky's pistol. "Entirely justifiable," defendant discharged," said Magistrate William C. Dodge.

"Congratulations!" a chorus of scores of urban noise-sufferers.

And that's how Von Borowsky became a hero. For not only did he take the law into his own hands and blaze away at a neighborhood noise nuisance; his action was actually commended in court.

Now that the full significance of the affair has been brought home to him, through deeply grateful letters and telephone calls, even from total strangers, the handsome young German-American is very proud and happy.

"I never dreamed, when I shot at that trumpet player, that I was doing a real public service," Von

Borowsky admitted. "But now, it seems, I have established what is called a legal precedent, which maybe will permit other people to shoot horn tooters also. Or yet even bad sopranos, or loud radios. That would be fine."

Von Borowsky's, besides being an executive in a textilelingyng concern and a pistol inspector in the Ordnance Department of the U. S. Army Reserve Corps, is the commodore of the Touring Kayak Club, a "boating" organization. Stephen Jensen and his trumpet live right across the street from the club.

**Confusion Confounded**  
"Myself, I am a patient man," declared the commodore. "For instance, there is a Scotchman living near here who plays the bagpipes all day long. And I have never—yet—done anything to him."

But on this night we have friends at the club, and one of the ladies has a headache. The trumpet is tooting right at us from an open window. It plays always the same tunes—"Yes, We Have No Bananas," "Home, Sweet Home," and Taps, the bugle call. For four years it has played the same tunes, with the same mistakes.

"The lady's headache is getting worse, so I take our club's fog-horn and turn it on that trumpet player. Maybe he thinks I am trying to join him in a nice act. Anyway, he toots louder than ever."

**HIAWATHA NEWS**

Hiawatha, Mich. (Special)—Mr. and Mrs. George Carney and Miss Carney of Hermanville, spent the week-end at the home of Mrs. Melissa Repp. Mrs. Carney was formerly Miss Anjos Repp.

Mrs. N. C. Byers spent Friday visiting at the cottage of Mr. and Mrs. LaPorte of Escanaba.

Mr. and Mrs. Harry Lafleur and four other families had a get-together picnic on Lake Michigan above Thompson. A corn and marshmallow roast were thoroughly enjoyed by all.

Dr. S. H. Rutledge of Rogers City, spent a few days at the home of Mr. and Mrs. A. L. Byers and while there the Dr. and Mrs. Byers went fishing and caught their limit of fine trout.

Joe Casteel and Wm. Wehnert had the misfortune to come together in Lovers Lane the other day with the result that both cars had to seek the help of passers-by to straighten them out so they could proceed to their homes. Luckily no one was hurt in the accident.

Last Wednesday we had a hail storm and everyone in this neighborhood is counting it as the final straw to break our backs as we look over the ground and see the damage it did. Mrs. G. H. Hyland had about two hundred cucumber and tomato plants and just starting to bear, now they are a pulp in the ground. Mr. Hendrickson had his field of grain smashed flat. Mr. Repp and Aldrich have all their garden ruined. The hail stones measured as much as two inches across and in places they lay six inches deep on the ground. The morning after the storm Mr. Warner, who drives a truck and is hauling short-stuff for A. L. Byers, came with a load to the Beeson spur hill. Near the bottom was two feet of hail piled up so he had to get out and shovel a way through. He also filled a fifty pound lard can with them and placed his drinking water in them and the hail stones helped to keep the water cold all day. One stone struck a hen on the head and killed her instantly.

**Alleged Attackers To Get Examination**

Hearings are scheduled for Thursday at 2 p. m. in the cases of Justin (Mollie) McCarthy, 29, William (Red) O'Donnell, 39, and Otto Smith, charged with breaking into a north side home and assaulting a woman July 31. When arraigned before Justice H. E. Ranguette last week all three demanded examinations.

**Convicts Escape, Terrorize Citizens**

Granite, Okla., Aug. 12 (AP)—Terrorizing citizens as they scattered in a frantic effort to elude pursuing guards, most of the 23 convicts who escaped from the state's reformatory here in the absence of their woman warden were still at large tonight.

A stabbing, several kidnappings and an attempted attack upon a 17-year-old girl were attributed by authorities to the prisoners who duped a sergeant and fled from the reformatory last night.

Four men, all sentenced to long terms for robbery, were recaptured in the vigilant search ordered by Mrs. George A. Waters, the warden, who returned to the reformatory from Oklahoma City this morning.

Nineteen, including Joe Pounds, life term convict of killing a sheriff, were still uncaught.

Two guards, said by Mrs. Waters to have been negligent, were dismissed. Their names were not made public.

Science proves Old Gold COOLEST, throat-easiest cigarette

When a cigarette is cool, that's proof of the finest tobacco quality. Coolness is the key to all the things you like in a cigarette. Throat-ease, freshness, flavor.

But which cigarette is coolest? Which has the choicest, purest tobacco? Science says: "OLD GOLD!"

In 75 repeated cold tests, made by the Calorimeter method (a method used by scientists throughout the world) OLD GOLD was shown to be 112 to 156 heat units cooler than the other leading cigarettes.

That's because OLD GOLDS are just pure tobacco... made only from the choicest Grade "A" Turkish and domestic leaf, with no heat-making artificial flavorings added. Just sniff an open package, your nose will verify OLD GOLD'S tobacco purity.

**\*THE VERDICT OF SCIENCE**  
This is to certify that in 75 repeated tests made of four leading cigarette brands... measuring the heat content of each cigarette by the Calorimeter method... it was shown that OLD GOLD is from 112 to 156 B. T. U.'s COOLER than the other brands.
