CHICAGO GRAIN

Chicago. Aug. 17-Tottering under a load of stop loas selling, wheat values reeled downward today to depths untouch-ed of late, and oats outdid long time botthan freer buying, inasmuch as it had been widely expected. A big decrease of 64,000,000 bushels in estimates of world import requirements of wheat, as compared with last year, had an unsettling effect, and so itso did New York stock market setbacks. "Forecasts of North America"s 1932 wheat exportable surplus went beyond figures on the world's probable takings. Wheat closed nervous, at a fractional upturn from the day's low, but 14 to 5-8 under yesterday's finish, corn unchanged to 3-8 down, oats 3-8 to 5-5 df, and pro-visions showing 5 to 10 cents decline. Corn and oats weakened with wheat. Provisions gave way under the influence of grains and stocks. Stocks pushed up about 1 to 3 points in an abortive bullish effort, centering in motion pictures and utilities, in the morning, but then tumbled to show many losses of about 2 to 4 in the afternoon, only to regain at least half of the decline in the last hour. The net loss, as measured
