POLITICAL AND OTHERWISE.

The National Republican party is fully up to the advanced and rational reform sentiment of the day.
Of course, Jeff Davis notified Cleveland that he is well satisfied with nominations made at St. Louis.
Iron Mountain held a grand ratification meeting Saturday night. Plenty of Harrison and Morton men over there.
Cleveland announced four years ago that he was opposed to a second term and the voters will take him at his word next November.
The man that will leave the presidential chair and go fishing on Decoration day, should never be re-elected; and the man, Grover Cleveland will not.
Democratic papers call Harrison a third-rate man; but then, he stood in the army first-rate, when Grover Cleveland had to be represented by a substitute.
The third party organ, the "Center," has been quite freely circulated around town for a few days past. Several have expressed considerable anxiety to know where they came from.
Farmer Luce will be the unanimous choice of the republican state convention for governor; and no doubt but that Hon. James H. Macdonald can have second place, if he will take it.
The republicans have now in the field a strong national ticket and we hope that it will bring Michigan up to its old-time majority. Michigan is in no sense a doubtful state, but still we shall not be contented with less than 30,000 majority.
Greenbacks will hold their state convention at Grand Rapids, July 19, same date of that of the democratic convention at Detroit. The idea is for the two factions to fuse. An effort is being made to "cease in" the union labor party at the same time.
The post-office department has re-adjusted the salaries of some of the Michigan postmasters, and in the list we find that of Manistique. The salary is fixed at \$1,100 a year from the first of this month; Escanaba, \$1,700; St. Ignace, \$1,200 and Sault Ste. Marie, at \$1,400.
When the Union was in danger, Harrison didn't send a substitute or wait to be drafted. He recruited the 70th Indiana and shared its hardships from Indiana through the south to the sea and rejoiced with the "boys in blue" over the success of our arms. Every veteran will join the General now in his march from Chicago to Washington.

MERE MENTION.

The West came in last evening.
Another new house going up in Lakeland.
Court began at 10 o'clock this forenoon.
Schooner Kewaunee came in Sunday evening.
The jury will be called in court to-morrow.
Dr. Hafford will occupy his new office this week.
The steamer Moore arrived yesterday afternoon.
Currie's news stand furnishes all the late daily papers.
Another new wagon arrived on the Depers for Engles.
Bridge street is being well covered with broken stone.
Give summer visitors a cheerful welcome to Manistique.
Let the stars and stripes be freely displayed to-morrow.
The barges will probably bring coal on their return trips this time.
Quite a party are talking about a visit to Benver Island to-morrow.
Charley Merwin had the misfortune to lose one of his horses last week.
To-morrow Esquire Thompson returns from the office of Justice of the Peace.
Anything you want in the line of green vegetables can be obtained in this market.
The Phelaw and consort left Thompson Saturday evening well loaded with lumber for Detroit.
A sidewalk is needed from the W. L. store on the north side of Deer street to Mackinaw avenue.
The carpenters are getting along nicely with Mr. Warren's new house on Houghton avenue.
Dr. McKesson left the fore part of the boat to pilot Mr. Goodrich and friend to the fishing grounds.
A great deal has been and is being done to fill up the low lots, by taking stone and dirt from the ridges.
The Teacher's Institute was not largely attended Saturday; but still those present had a good time.
Quite a party went out Sunday to Indian Lake. They show evidence of quite a battle with the mosquitoes.
Norton has got the east-side pier extension completed far enough back to have it well connected with the old pier.
Manistique Democrats expressed an enthusiasm whenever when Cleveland was nominated. We did not wonder at it.
Circuit court begins to-day, and we hope that those honest of ill-fame cases will be disposed of without any further delay.
A man got hurt in the C. L. Mill yesterday by being hit with one of the cranks—not third party—that opens the gate to let on water.
Charley Parker has opened a barber shop again; this time in the Costello block. Charley is a pioneer here and has an artist has but few superiors.
A man called yesterday and said he wanted to challenge Prof. Roulo for a foot race to-morrow, and gave his name as "P. Mack, the York Stater."
The Rev. Mr. McLean, we learn, preached at South Manistique last Wednesday night; and there is talk of holding meetings there regularly in the future.
Don't forget the firemen's ball at the rink to-morrow afternoon and evening. The committee have made arrangements for a good time and let them not be disappointed.
The Canisteo and barges arrived at 1:30 Sunday morning and are loading for Tonawanda. It is thought they will get away to night. That fleet is making extraordinary good time this season.

Planned to meet Ex-Sheriff McCanna the other day. This summer he is running the 14th department of the South Manistique mill.

Among the passengers up on the Canisteo we have the names of Mr. D. Putnam and daughter, from Ypsilanti, father and sister of our townsman; E. N. Orr; Christian Falls; A. C. Richards; Mrs. Charles Kibbee and child and Talbert Pierce.
CHALLENGE TO PROF. ROULO—The undersigned challenges Prof. Roulo to run a foot race, from 200 yards to one-half mile on the 4th of July, either in Manistique or near by, for \$20 a side, and a collection will be taken up before the race; the winner to have the purse. P. Mack, York Stater.
The ladies of the M. E. church have postponed serving ice cream and cake until Saturday evening next. Further notice hereafter.
Are you weak and weary, overworked and tired? Hood's Sarsaparilla is just the medicine to purify your blood and give you strength.
A base-ball club was organized last evening by the young men of this village, and the following officers were elected: Frank Clark, Jr., Manager; Elmer N. Orr, Captain; D. G. Currie, Secretary; Charles K. Orr, Treasurer and "Jack" O'Brien, Scorer. A committee was appointed to call upon the citizens and see what amount can be raised for the maintenance of a club; and, as there is good material for a ball club in Manistique, with a little financial encouragement, there is no reason why we should not have a winning club. Practicing will begin at once and the first game will probably be played in about two weeks.

REPUBLICAN NATIONAL TICKET.

FOR PRESIDENT, BENJAMIN HARRISON, of Indiana.

FOR VICE-PRESIDENT, LEVI P. MORTON, of New York.

This democratic quill drivers have feasted the public with an exaggerated account of the Chicago convention.

In a truly democratic style they have gazed through partisan spectacles on these scenes there presented and pictured them as the struggles of a mad man endeavoring to bolster up a lost cause.

Staff correspondents of metropolitan journals have endeavored to impress the American people with the idea that the delegates sent to Chicago to nominate the republican candidate for president were a lot of business men who held in higher esteem their own wishes than the welfare of the republican party or the country, and stampt it as a howling success in the nomination of Harrison and Morton for the highest places in the gift of the people.

How much of this is believed, or will redound to the honor of the democratic party or the credit of the quill drivers, remains to be seen.

In their innocence or blooming verdant freshness they could not recognize the fact that a more able, honest, patriotic convention of men ever assembled and, with sober earnestness of purpose, accomplished its task, nominating from so many eminent men the distinguished gentlemen who are the standard-bearers of the republican party, with no greater clash or discord in its deliberations, with no less temperate attention to the business in hand and christian acknowledgement of the happy conclusion, that gives a large sized promise of Harrison and Morton's election next November.

We will not even except the St. Louis convention, that nominated their only possible candidate, Grover Cleveland, by acclamation—the man of luck. But lucky men do not always satisfy, when this is about the sum of all their ability. The people are likely to conclude that a president needs other qualifications. Of course, we realize the brilliant statesmanship of Cleveland when we compare him with such men as Thurman, the old democratic war horse and statesman whose name is attached to the tail of the democratic kite. Some one has said that "pure and undefined religion will go a long way toward making a man's politics good, but politics as a purifier of religion is no good." Either article, of democratic manufacture,

needs filtering to make it really a palatable dose, to be taken with relish in its own family circle. The sisters, cousins and aunts, by adoption, are likely to make up wry faces at the Cleveland dose fixed up for them, and, with manifold disgust, bolt the concoction this fall and flee like the prodigal to their old allegiance in the house of the republican party, away from their abject miserable condition, feeling on the husks of unfulfilled promises, the utter disregard for pledges, the sanctimonious hypocrisy of the democratic platform, the hypocritical humility of Grover Cleveland's acknowledgement of the nomination that in choice and beautifully elegant words conceals a sneer.

Oh, worshippers at the throne of Cleveland, let us have a little unvarnished, unadulterated truth. Let us know to what orthodox religious faith you cling. Let the people know the sum of your political faith. With the courage of your convictions, tell us what grand, noble humane principles the "great expectations" of the democratic party propose to materialize in the great and only reform party this fall. Is it the absorbing, boundless principle of free trade? Is it the pure principle of local self government as illustrated in democratic legislation for the admission of Dakota into the union of states, or as exemplified in elections in the south? Is it—WHAT IS IT?

When Leander swam the Hellespont he got cramps. Some one remarks this is a warning to people not to go in bathing directly after eating green apples. As the democratic party has a peculiar penchant for old chestnuts, we would advise abstaining from eating green peppermints too previously to the presidential swim for supremacy. Though it is a southern production, it is likely to give cramps. It may turn the laughable phis of democracy as presented by the democrat party awry, and detract from its glory, and make us feel sorry that the Chicago convention was not run more to the liking of democratic would-be managers of republican nominations. A. C. C.

A Barry county minister has got it bad; but just what it is his congregation are at a loss to know. A few days ago he told the members of his church they must take the feathers off their hats and stop wearing busbies. The papers have not yet mentioned any one as having obeyed the order.

Mahoney, tried for murder at Grayling last week, was awarded 13 years in the penitentiary.

By its timely use thousands of helpless cases have been permanently cured. I should be glad to send two bottles of my remedy free to any of your readers who have consumption if they will send me their express and just office address. Respectfully, F. A. SLOCUM, M. C., 181 Pearl St., New York.

DON'T let that cold run on. You think it is a slight thing. But it may run into cough, or into pneumonia. Or consumption. Cough is disgusting. Pneumonia is dangerous. Consumption is death itself.

All the diseases of these parts, head, nose, throat, bronchial tubes and lungs, can be delightfully and entirely cured by the use of Boschee's German Syrup. If you don't know this already, thousands and thousands of people can tell you. They have been cured by it, and "know it for themselves." Bottle only 75 cents. Ask any druggist.

Home Evidence

No other preparation has won success at home equal to Hood's Sarsaparilla. In Lowell, Mass., where it is made, it is now, as it has been for years, the leading medicine for purifying the blood, and toning and strengthening the system. This "good name at home" is "a tower of strength abroad."

People of Lowell! It would require a volume to print all Lowell people have said in favor of Hood's Sarsaparilla. Mr. Albert Estes, living at 23 East Pine Street, Lowell, for 15 years employed as boss carpenter by J. W. Bennett, president of the Erie Telephone Company, had a large running sore come on his leg, which troubled him a year, when he began to take Hood's Sarsaparilla. The sore soon grew less in size, and in a short time disappeared.

Prise Hood's Sarsaparilla. Mr. C. W. Marriott, wife of the First Assistant Fire Engineer of Lowell, says that for 15 years she was troubled with stomach disorder and sick headache, which nothing relieved. The attacks came on every fortnight, when she was obliged to take her bed, and was unable to endure any noise. She took Hood's Sarsaparilla, and after a time the attacks ceased entirely.

Many more might be given had we room. On the recommendation of people of Lowell, who know us, we ask you to try Hood's Sarsaparilla. Sold by all druggists. 25¢ a bottle for 50. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar.

Weston Lumber Company, West Side.

TRI-WEEKLY PIONEER. ADDITIONAL LOCALS.

Road work is progressing finely. The high easterly wind keeps the West in port.

Base ball talk is getting to be quite common now.

Schooner Jessie Phillips arrived yesterday and is taking on her load.

Ed L. Clapp, John Telling, et al, left this morning for the fish streams.

The republican state convention will be held in Detroit, August 8th and 9th.

The frame for another house of north Cedar street was raised yesterday.

The third story of the Ossawimaukoe is to be cut up into sleeping rooms.

Con. Ruggles and a party of fishermen left this morning for the fishing grounds.

Now it is apparent nearly that Manistique has not left the hotel room that is required.

Our friend Gilligan carries a good black eye, all because he got that eye in the way of a swifty passing ball.

An exciting political campaign is before us, but why not be good natured about it, even if we are in earnest?

Fires are raging along the line of the railroad east of this place. Yesterday a quantity of wood was burned near Pike lake.

Beemer will raise a very handsome jolte in front of his rink, from which will float the stars and stripes, and a Harrison & Morton stroumer.

Never say a word in political letters that you would not utter to the general public. The political friend of to-day may not be so next year.

FOR SALE.—Dr. Walker has for sale at a bargain a very desirable village lot in the Lakeside addition to the village.

EDGINGS.

Blue fish stories. Strawberries ripening. Which one will she marry?

Mosquitoes regular in their habits. Buy a lot in one of the additions. Plug hats are essential to city life.

Harrison men are increasing in numbers. Midnight rambles entirely too common.

Are you ready for the dance to-morrow? Weddings will be quite plenty this month.

Baptist church handsomely decorated Sunday. Hotels will soon be crowded with summer visitors.

A week spent on the Deperre will be a rich treat. Geo. H. Orr can beat any other man in killing mosquitoes.

The little folks are already in the field armed with fire-crackers. Speculations are going on as to who our school-marks next year will be?

Plenty of work for doctors in prospect—watermelons plenty in market. Get your dinner to-morrow and then, if you love to dance, spend the afternoon at the rink.

Very little work will be done to-morrow. Well, the 4th of July only comes once a year.

Nail the boards down in your side-walks whenever one gets loose—a nail in time may save a tumble.

The man or boy that will make a dog, as several boys did on the west-side Saturday, ought to be arrested and put in the "cooler."

Free Trade has but few advocates in Michigan.

The Mills bill will not pass and its only apparent object has been to furnish a text for political talk.

Europe enthusiastic over Cleveland and Thurman—America over the nomination of Harrison and Morton.

The Allegan "Journal" presents the name of Philip Padgham, of that county for Attorney General, and gives him a flattering indorsement.

The true trade papers in England are working hard for the election of Cleveland and Thurman. That is just what we expected they would do.

STATE ITEMS.

Manisquan has this season shipped 140 tons of sawdust to Chicago.

The survey has been completed for the railroad from St. Ignace to the "Soo."

The raspberry and huckleberry crop promises to be very large and of fine quality.

Gardner & Booth's mill at Hunter's Point, near Escanaba, is running night and day, cutting about 75,000 feet in twenty-four hours. About forty-five men are employed. A million and a half has been shipped.

A wood working establishment in East Saginaw received an order the other day for 10,000 doors from Liverpool, which could not be filled, as the firm have orders for six months ahead already booked.

Grand Chancellor Colgrove, of the Knights of Pythias, will institute a lodge at Escanaba, July 10, which will include 98 lodges in the state. There are half a dozen lodges in the upper peninsula, where the order was created by a school teacher about 25 years ago.

The "Soo Democrat" pays a very flattering compliment to J. C. Shaw, the gentleman that many U. P. republicans would like to see nominated for secretary of State. That paper says: "He is a gentleman of marked ability, and in all respects worthy of the honor." Thanks.

Last week we kept watch of the "Soo" papers to see if they said anything about the Eckert-Robinson Co., that was advertised to play here last Monday night, but did not find a line. But Thursday's "Democrat" of this week has this to say, they "unceremoniously decamped the Friday before, after skinning a number of people."

Judge Grant told a reporter that he was the author of the Breen bill. Of course he was; but then, you know, Bartley used the honor of being the father of that measure to help him in the congressional race; but the people knew that he had not the ability to draft such a bill and they refused to elect him. Bartley is a dead duck, politically.

Telegraph operators on the Duluth, South Shore & Atlantic railroad between St. Ignace and Manistique, where the line runs largely through the forest, protect themselves at night with smudges in order to hold the swarms of mosquitos at a respectable distance. The night lightning slinger at Soo Junction is in a particularly bad locality, and his smoke has to be kept so thick that he looks like a charcoal heaver when he goes off duty in the morning.

MARQUETTE, June 29.—This bureau has heard from over seventy of its correspondents on this peninsula relative to the "Bitters." We will pay \$1,000 to any man who can show the existence of a single stockade of the kind told of by Mrs. Obenauer anywhere in the peninsula. It is the purest fabrication, and every one here is highly indignant over the story.

NORTHERN NEWS BUREAU.

NORTHPORT, June 29.—Rev. S. Steele late prohibition candidate for congress, has gone to the upper peninsula on a missionary tour in behalf of the democratic annex. He expects to be fully able to earn his wages—a dollar a day and found—and hopes to succeed in debating Harrison. He thinks if Cleveland is elected this time, the country will be ready to embrace the faith of the few and elect a prohibitionist in 1892. Perhaps they will!

The Wisconsin papers, especially the Marinette "Engle," brands as base false the statements made by the correspondent of the Chicago "World," the lying Russell, in regard to the reporters who visited Marinette to see about those "livers" being chased by mobs, etc. The upper peninsula papers, almost without an exception, have waded an unending warfare against notorious places of prostitution but as that paper wisely says, their influence "has been largely neutralized by just such wholesale lies as this Russell has proved himself to be."

Time to call the county convention to elect delegates to the republican state convention on the 8th of August, as those who may be selected can have time to make arrangements so that they can be in Detroit at that time.

The third party in shelving John Russell performed an ungrateful act.

Farmers, Mechanics, Miners, and all who do rough or out door work will find Cole's Carbolicus especially valuable for keeping their hands free from cracks and chaps. It quickly cures cuts, wounds and bruises, allays all inflammations and irritations. It immediately relieves the pain and cures the worst scald or burn without leaving a scar. It is a positive cure for ulcers, fever sores, ulcers, poisons, chills, cholera, eruptions, and all itching and irritating diseases of the skin and scalp. Small boxes 25 cents; large boxes, 50 cents.

The language of a political bravo is usually "I'll bet you any sun you may name that Cleveland will be the next president." Sometimes men in an excited condition appear very silly.

Peniclar. In the combination, proportion, and preparation of its ingredients, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in its good name at home, which is a "flower of strength abroad," Peniclar in the phenomenal sides it has attained, Hood's Sarsaparilla is the most successful medicine for purifying the blood, giving strength, and creating an appetite.

The "Timberman" notices through his Michigan exchanges that the wretched old filthy "chestnut" of horrible dens of enforced prostitution in the lumber woods of that state, is again revamped and trotted out by a woman named Mrs. Obenauer, a missionary of the W. C. T. U. This woman has been terribly imposed upon, and led to by people whose wish was father to the thought. She has gone from place to place preaching the story of woman's wrong in the lumber woods, and has succeeded in stirring up a very unsavory stench, having no foundation in fact. The pine woods are owned by decent, respectable citizens. The lumber is made under the supervision of foremen and scedars who are decent and respectable. The shanty boys are not brutes, and consequently such outrages could not exist, as stockades, blood-hounds, and female abuse such as is charged. Such an institution could not exist an hour. God knows, plenty of evil exists in all towns and which needs suppression, but this magnifying an evil into the distorted proportions it has been by people who have a zeal, but not according to knowledge, is a crying insult and disgrace to state and people alike. Drunkenness and kindred evils exist, and do exist in all lumbering localities, but it is voluntary on the part of the men and women engaged therein. "Finkerman."

Sam, Dickie while in Virginia the other day boasted that the prohibitionists defeated Blaine in 1884 and hoped to defeat the Republican candidate this fall. Sam is the chairman of that great "reform" party, and no doubt reveals the object his party has in view; but Samuel and his party will be mistaken. Temperance Republicans have got their eyes open to the hypocritical intentions of Sam and his followers and will not consent to aid the democratic party that way.
