POLITICAL.

ONE of Manistique's citizens last week, in corresponding with N. O. Tiffany Esq., a prominent citizen of Buffalo, N. Y.; the home of Grover Cleveland, incidentally referring to politics, requested him to state the true political sentiments of the people of Buffalo at the present time concerning Mr. Cleveland, and to state the facts so he could rely upon them. And here is what he says: "He is, taken as a whole, the biggest blunder this country has ever been afflicted with. Here, where best known, he will be repudiated without stint. * * * I will bet \$100 to \$50 that Cleveland will not carry this county (Erie), \$100 to \$50 that he will not carry the city of Buffalo, \$100 to \$50 that he will not carry the ward in which he lives, while here, \$100 to \$50 that he will not carry the polling district of his ward, \$100 to \$50 that Harrison's plurality in this county will be greater than that of any President voted for since Lincoln's time, \$100 to \$50 that I will win all the bets, if made. Find me takers for these bets and I will find the means!"

"Heaped in vaults. The enormous surplus which is piling up from day to day in the Treasury of the United States." These words are used as scare headings by the Oshkosh "Times" and various Democrats are being resorted to for the purpose of frightening the people into the belief that the Republicans are responsible for the presence of a vast surplus—a large unexpected balance of cash in the general treasury. Well, the Democrats have been in power for nearly forty years, and whose fault is it if there is this large surplus on hand and not applied to the payment of the public debt according to law? When the Republicans were in power they reduced the debt several times as fast as the Democrats have done. The Democrats have nursed this surplus for political capital and earned sixty millions to put National banks in order to have the interest with which to run a corrupt and demoralizing campaign—"Daily" English.

One of the most important accessories to the Republican party in this campaign is Frederick S. Barnum, of Putnam county. Mr. Barnum has been the leading Democratic lawyer in that county and comes from a prominent Democratic lineage. He was appointed by Governor Grover Cleveland District Attorney of the county to fill a vacancy in 1884, and he has repeatedly stamped the country for the Democratic party, but the free trade tendencies of Cleveland and his followers were too much for him, and as he has always been a firm believer in protection for American industries he has taken the stump for Harrison and Morton and will aid in giving a majority of 800 in the county for the Republican ticket—New York "Tribune."

The Mark curve row in Germany and England continues a very normal, which, after intensive study by our jangle and commandment editor, seems to show that when a doctor cuts the throat of an Emperor he shouldn't allow his left hand to know what his right hand is doing—Lansing "Republican."

The theory that the Anarchist dynamiters have been attempting to take advantage in Chicago to get in some of their mysterious work sounds very natural. Its way they have, and natural. It's a way the police have, ever there.

Ladies, I have just received an elegant line of French pins come soon and have first choice.

CHANGE THE JEWELER.

Do not pay to strangers \$2.50 for the Poling fronting in the city you can get the same article for the small sum of \$1.75 of FRANK & McCOLLUM.

LOCAL NOTES.

The Deperre came in Saturday evening.
Boats will soon begin to lay up for winter.
Recent rains have made the country roads quite muddy.
Everybody talks politics now days, but no one gets angry.
Our presses are running night and day now on campaign work.
The man that don't hunker for office now is really a curiosity.
Candidates are hard at work and each one expects to "get there."
Many of the boys are now hunting for winter homes among the camps.
Work on the "Soe" waterworks canal is progressing, all along the line.
Schonner Richard Mott arrived early yesterday morning from the south.
The railroad is in good condition and the trains make splendid time.
Democracy has a deal in for simple of the South and would like to own the North.
The woods are full of hunters now; still the amount of game brought in is very small.
Carpenters are busy finishing up their jobs, preparatory to their winter vacation.
It is hoped that Drake will strike flowing well on Walnut street. That is what we need.
Plenty of bet now on the result of the election, and Harrison and Morton are the favorites.
Hughes' sprinker has gone out of commission; at least men were taking it apart yesterday.
The railroad should be fenced and thus avoid the necessity of slaughtering so many cattle.
Manistique needs a full-fledged transient office, and why we do not have one is a mystery.
The Hunter is doing an immense business this fall. She takes on great loads of fish every trip.
This is Democratic day—at least quite a number of anxious candidates are expected to visit us.
Candidates will do well to see the boys in the camps—they have an interest in the coming election.
Messrs. Orr, Ashford, Orholm and Riggs are making a gallant race this fall and they deserve success.
Have you a watch, clock or any jewelry that needs repairing take them to
CURTIS.
Between here and Trout Lake the road is lined with hunters, and many of them report "mighty poor hunting."
Our schools are doing finely, and we think that every parent should make it a point to visit there occasionally.
The indications are that the Detroit base-ball team will disband. That is probably a good thing for them to do.
The boys in the woods know that Edmund Ashford is "ad right," and they will vote to elect him Clerk and Register of Deeds.
James Christensen has had the misfortune to give his foot hurt by getting caught under the wheels of one of the tramway cars.
Hood's Sarsaparilla is a purely vegetable preparation, being free from injurious ingredients. It is peculiar in its curative power.
The foundation walls for the new jail will be completed this week. Mr. Mosher is getting the wood work ready as rapidly as possible.
Several good jokes have reached us, but on certain candidates, but we have bottled them up for use when this "crucial war is over."
Time is short and we want to urge every Republican to be ready to attend the polls on election, and not only to vote for protection from the head of the ticket, but the whole ticket down to coroners.

THE PEOPLE.

Peter Paulson, of Marinette, was in town yesterday.
Rev. Mr. Thompson leaves for his home at Escanaba to-day.
J. F. Carey left the forepart of the week to build up a political fence at Seney.
A. M. LaRoy, from Pontiac, is now in the office of the C. L. Co. as book-keeper.
C. M. Ruggles and wife returned home from their southern trip Saturday night on the DePerre.
Lewis Lyman and wife left on Friday for the Whitefish country, where we learn he is to engage in lumbering this winter.
Mrs. Woolcott and Mrs. Spear, who have spent some time visiting here, left for their homes in Chicago Saturday night.
Wille McIntyre returned from the "Soe" Saturday, where he had been working in one of the printing offices for some three months.
Hon. H. W. Thompson preached last Sunday morning for the Presby. terms and in the evening for the Methodists; both splendid discourses.
Rev. Mr. Polkinton arrived Saturday to take charge of the M. E. church here for the next year. He preached here Sunday morning and on Thanksgiving in the afternoon. We have had course highly spoken of by those who were present; and his popularity among us will be both pleasant and profitable.
Mr. Orholm and A. L. Hill, Esq., made a trip to Seney and back last week. They report Seney to be worthy of a much better name than some people are disposed to give it. Politically it is lively.
If you cannot attend the meeting of the board of registration call on the township clerk previous to that time and have him present your name to the board. He is the only man that can take your name before that body and have them act upon it. It is better, however, that you personally appear before the board. Then there can be no mistake about it.

THE PEOPLE.

We have just received another sample of the work accomplished by Manistique's young artist, August Kingstad. Several years ago he painted a portrait of a deceased member of our family, from a photo and all pronounced it excellent. It was one of his first jobs, and we value it highly. Last summer, when he was here on a visit, he said he wanted to reproduce the same picture and took with him to Chicago the original. Yesterday the enlarged portrait was returned to us and we are proud to say that it cannot be excelled by any artist—perfectly natural in every respect and handsomely finished. Only a few years ago August, then a boy, was employed in one of the mills here handling engines with alacrity, and when he had accumulated money enough to enable him to attend school he went to Valparaiso, and for a time we lost sight of him; but after a while we saw one of his productions in the way of making portraits and at once recognized that he had made no mistake in the choice of a profession. In his chosen field he gave him words of encouragement, and to-day we are proud to say that he is rapidly stepping to the front as one of the leading artists of the city.

Just who will be the Democratic candidate for Surveyor has not been made known yet. Manly B. Peters won't have it; D. W. Thompson tells us he is not in the ring; and unless some one volunteers or is "shipped in" for the purpose that office will be without a Democratic candidate and the Republican will have a walk away.

Dr. Bowen, E. C. Brown, Will Merwin and Putnam, the druggist, left yesterday for their annual hunt. The people may expect them to return later in the week, but none need anticipate that they will have any venison along with them. It is said Bowen was armed with a Solihits win had a hand-hammer and Putnam was fully equipped with a box of pills.

Some Sayings of Holland.

Puppyism is not politeness. Everybody who is somebody, can do something.

Never content yourself with the idea of having a common-place wife.

The apprehensions of women are finer and quicker than those of men.

It is the general rule of Providence, the world over, and in all time, that unearned success is a curse.

There are fewer sadder sights in this world than that of nates whom the passage of years has mis-mated.

There is nothing that will tend so strongly to the elevation and purification of young men as female society.

Society is not very particular what a man does, so that it proves him to be a man; it will then bow to him and make room for him.—J. G. Holland.

RINGING NOISES.

In the ears, sometimes, of roaring, buzzing sound, are caused by catarrh, that exceedingly disagreeable and very common disease.

GEN. ALGER AT LAFAYETTE.

"I saw an old soldier in Michigan a week ago. When he was introduced to me he stood as erect as any man. He was clean-shaven; his blue blouse was clean, but worn. I said to him: 'What is the matter with you?' He said: 'I am blind.' 'What do you do for a living,' I said. 'Everything we have in our house,' he says, 'is earned by my wife over the wash-board.' Said I: 'Why don't you apply for a pension?' 'Well he said, 'I served three years and I sent my case to our member of congress and got the pension allowed. It went to Grover Cleveland, and he vetoed it.' 'I tell you I boiled all from the crown of my head to the tips of my toes, and I wished I had Grover Cleveland there to turn the crowd loose on him. I think they would have given him their opinion of him. [Groat cheering.] The poor fellow sat there shuddering in the chill October air. I said: 'Why don't you put on your overcoat?' 'Haven't had an overcoat for six years.' Well, he got the overcoat anyhow. [Cheers.] I said to him we would help him through the winter; and, as there is a God in heaven, on the 4th of March next we will have a president who, when your pension bill is sent to him, will sign it.' [Groat and prolonged cheering.]

The Oft Told Story

Of the peculiar medicinal merits of Hood's Sarsaparilla is fully confirmed by the voluntary testimony of thousands who have tried it. Peculiar in the combination, proportion, and preparation of its ingredients, peculiar in the extreme care with which it is put up, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail.

Hood's Sarsaparilla

Is the most popular and successful medicine before the public today for purifying the blood, giving strength, creating an appetite. I suffered from weakness and low spirits, and also had eczema on the back of my head and neck, which was very annoying. I took one bottle of Hood's Sarsaparilla, and I have received so many benefits that I am very grateful, and I am always glad to speak a good word for this medicine. Mrs. J. S. SSVODA, Pottsville, Penn.

Henry Biggs, Campbell Street, Kansas City, had scrofulous sores all over his body for fifteen years. Hood's Sarsaparilla completely cured him.

THE TEMPERANCE PARTY.

Prof. T. J. Duffield, D. D., of Princeton, asks the question, "Ought Temperance men vote with the third party?" in the last Independent, and answers it in the negative. He says:

"Whether a prohibition party is the only way to secure prohibitory legislation is not a question of theory, to be decided by reasoning; it is a simple fact to be decided by reference to the record.

"The prohibition party was organized in 1869. Prior to 1869 a prohibitory law had been enacted in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, Delaware, Ohio, Indiana, Illinois, Michigan, Iowa, Minnesota, Nebraska and Kansas—that is in sixteen states. My authority for this statement is, "The World Almanac" for 1887. In some of these states the law was declared unconstitutional, in others it was subsequently repealed, in others modified by local option amendment, in others it remains the same to the present day. Now in view of these facts, what becomes of your conclusion based on assumption that there can be no prohibitory legislation except by a prohibition party?"

"Further, since the organization of the prohibition party local option prohibitory laws have been enacted in New Jersey, Maryland, Virginia, North Carolina, Georgia, Alabama, Mississippi, Louisiana, Texas, Tennessee, Kentucky, Arkansas and Missouri—fifteen states. How much, or rather how little, the prohibition party had to do with securing this legislation is indicated by the fact that the states mentioned, in 1894, out of a total vote of 3,205,524, the prohibition candidate for president received 21,578 votes—that is one vote out every 150. Again I ask, in view of these facts, what becomes of the conclusion, based on assumption that there can be no prohibitory legislation except by a political party specially organized for that purpose?"

"Maine, Kansas and Iowa have adopted prohibition by decided majorities. And yet in 1884, out of a total vote in these states of 771,219, the prohibition candidate for the presidency received just 8,566 votes—that is one out of 90. Supposing prohibition adopted in these states by a bare majority, the prohibition candidate received one vote out of every 45 pronounced prohibitionists.

"The question as to the expediency of a prohibition party has also, as it seems to me, been settled by the test of experiment.

"The party has been in existence for nearly twenty years. Prohibitory laws have been passed in thirty-one of the thirty-eight states of the union. In no instance has this prohibitory legislation been due to the prohibition party. In most cases these laws have been passed by legislators elected in spite of the opposition at the ballot box of rum sellers and party prohibitionists. So far as I am informed, not a single vote for a prohibitory law has ever been cast by a legislator elected by the prohibition party. The only effect of the party as a factor in politics, in the northern states, has been to draw off votes from the party to which we are mainly indebted for prohibitory legislation, and thus occasionally elect the candidates of the party avowedly opposed to prohibitory legislation. The prohibition party therefore, is rather a hindrance than a help to the cause of prohibition."

A NOTABLE PUBLICATION.—To all directly or indirectly interested in the lumber industry of the United States a series of compilations now appearing in the "Northwestern Lumberman," of Chicago, will be of the utmost importance. It consists of directory lists of manufacturers of and dealers in lumber and principal timber products in all the states and territories. They are as a glance at them shows, compiled from original sources, and will be published as completed, thus insuring their freshness and current value.

In the issue of October 20 are given lists for Kentucky and West Virginia, making the second group of the series. Convenient reference marks indicate the exact character of the business done, and in the case of mills or factories their approximate daily capacity and the power employed. The lists embrace saw, shingle, stave and heading and planing mills; saw, door and blind factories, box factories; wholesale, retail and commission dealers in lumber, timber and logs, and other products of mills and factories. With each is given the principal kinds of timber used in manufacture, or hauled. Those who have had any experience in works of this sort will be impressed by the costly and laborious character of this compilation; and those who have occasion to put themselves in communication with lumbermen of any class will appreciate its value as a work of reference.

Reducing the Surplus.
The disposition of the surplus in the U. S. Treasury engages the attention of our Statesmen, but a more vital question has our attention, and that is the reduction of the Surplus Consumption. Since the discovery and introduction of Dr. King's New Discovery for Consumption, there has been a marked decrease in the mortality from this dread disease, and it is possible to still further reduce the number of Consumptives. How? By keeping on hand a bottle of Dr. King's New Discovery and using according to directions, upon the appearance of the first symptoms such as a Cough, a Cold, a Sore Throat, a Chest or Side Pain. Taken thus early a cure is guaranteed. Trial bottles free at E. N. Orr's Drug Store.

I am a Democrat, but I cannot vote for Cleveland, because he is not a capable man. On a former occasion I gave reasons why he should not be supported because he is not an honest man. I fail to see any independent powers or ability in George Cleveland. As Senator Ingalls said, any justice of the peace could perform the routine office work of the Chief Executive as efficiently as Cleveland. It is not the method of dealing with unusual and exceptional circumstances. It is safe to say that on every occasion when some independent line of action was to be taken, and precedents set by his official predecessors could not be availed of, Grover Cleveland was found wanting. He had a most unhappy knack of making blunders, sometimes ridiculous, sometimes calamitous; and always lamentable.—W. M. C. in the "Irish World."

Some of our lady readers complain that they find nothing but politics in the papers now days. Well, we consider it our duty to attend to all such things as they come along. In a few days we shall drop the subject, and then we shall be content (after a crow over the defeat of our opponents,) to write about the latest fashions, etc. Just now it is in keeping with our early trading to talk politics.
