Next Tuesday will be a day of dis-appointment to many; but we believe that generally Republicans will be on the wining side.

Dr. Mary Walker says: "Sistersstep into your, ballot, sphere and the day is near when all men will arise and call you blessed."

Michigan is good for a clean Repullican majority—anywhere from ten to twenty thousand, if Republicans turn out and do their duty.

Several men in this county have amped from one party to another so often this fall that now no one can tell where they really belong

If our Democratic friends would only get Geo. W. Brown to stump this coun-ty again we think it would add still more to the Republican majority.

Democrats are scared already about the state and national ticket; and begin to talk now about the "Repulicans getting there with decreased majorities." That will do.

The New York "Herald" which for orty years has been reading the signs of the political times, predicts Demo-cratic defeat unless impossible exer-tions are made to avert it.

Reports of discord in the Democratic ranks of Thompson township have reached us. Whether it will cause a decrease in the party vote or not we are not advised. We think not, to my great extent.

There can be no longer a doubt that England is backing the Democratic party in this campaign, by the exten-sion of sympathy, the same as they did the South in the dark days of th Rebellion. Minister West let the "cut out of the bag."

Considerable trouble is reported in the Democratic ranks here; and severthe Democratic ranks here; and accurate seem to think that the way-the venerable chairman has managed the campaign does not quite satisfy all parties interested. The whole system of secret police is highly developed in Jupan. There is a regular staff of detectives who diagnise themselves as laborers, morchants, or travelers, or even in case it is necessary to hunt down some great criminal, hive a house in the suspected neighborhood and live there. The President has been forced by his party to send the British minister, West, out of the country, whose only crime in the eyes of that party was in being caught in the act of asking his friends to help England by voting for Grover Cleveland. Sackville West gave the true inwardness of the present campaign, and got caught at it. Saturday Grover really declined to dismiss the meddlesome agent of the British government, but the leaders British government, but the leaders of the Democratic party got frightened and Bibally forced him to officially decapitate, bis. friend.—On general principles, this sending of West home is right; for as a representative of a foreign power-bis-had-no-business whatever in meddling with our political matters. We have the very best, both as to quality of soil and growth of the different kinds of hardwood timber. The railroads of the country, where practicable, are always built on the lowest levels, through swamps, etc., which is decidedly the case with the Soo line, both east and west from here. For instance, from here east the road passes, for a dozen miles, just back of any number of splendid farms, many to judge of this country correctly is to remain here for awhile and look it over carefully. The only way to judge of this country correctly is to remain here for awhile and look it over carefully. Armstrong Assembly,
No. 2212 K. of L. SEAL.

No. 2212 K. of L.
So rank was the injustice, so despicable and dishonest the work of this Gould, the hired tool of Democracy, that his cwn assembly has found it necessary for the good of the order to thus brand him as a scoundrel, and to notify the Knights of Labor of the country that his statements concerning Gen. Harrison are malicious and infamous lies.

Our friend Bontecou, of the Petoskey "Record," is now the special target for the wrath of the W. C. T. U. The for the wrath of the W. C. T. U. The sum of his offending is that he published the declarations made by the National Union that no member could be loyal unless they believed in third party action; and to the end that none but loyal women should remain in the local umon he urged that all having political opinions of their own, not in accord with the demand of the state and national unions, to withdraw. The "Record" is in the right but the other side will have the less word, you bet. have the last word, you bet.
