LOCAL DOINGS

Farmers are busy planting now.
The Janette is being loaded at South
Manistique.

Schooner York State arrived at
noon Sunday.
Ida Van Cortland at the Opera
House to-night.

Rhoda Stewart and consorts arrived
this morning.
A great many people are preparing
to make garden.

Sons of Veterans meet for inspection
to-morrow night.
Lively times again this week along
the lumber docks.

Steam-barge Weston and tow barges
arrived Saturday.
Capt. Tucker left Saturday after-
noon for Minnesota.

Supt. Robinson, of Thompson was
in the city yesterday.
Camiao and barges arrived Sunday
morning at 5 o'clock.

We notice that farmers are getting
in a nice lot of fruit trees.
Manistique lodges are all reported
in a prosperous condition.

F. G. Dodge was down from the By-
er's neighborhood yesterday.
St. Alban's Guild will meet next
Friday night with Mrs. Tucker.

A boy was born Saturday morning
to Mr. and Mrs. August Granat.
People have begun to talk about
celebrating the coming 4th. Why not?

Baptist Ladies' Aid Society meets
with Mrs. McIntyre to-morrow after-
noon.
No one has as yet made acquaintance
with what the program is to be on
the 30th.

Mrs. Capt. Johnson and children, of
South-Manistique, are in the city visit-
ing friends.
Schooners J. B. Kitchen, Ellen Wil-
liams and L. W. Berry arrived yester-
day afternoon.

Rev. W. Ball Wright will preach at
the school house next Sunday morn-
ing and evening.
"Gus" Mathews says the paint used
Saturday night was not procured at
his establishment.

We learn that quite a number of the
youth of the vicinity will join in the
parade on the 30th.

The railroad will soon be completed
from the furnace to the dock on the
east side of the river.

Clothing merchants are selling lots
of goods these days. Manistique men
usually go well dressed.

Havana has learned a new process
of making sugar by the mixture of
cane juice and molasses.

A man reported hurt in W. L. mill
No. 1 Sunday night by being hit on
the head with a flyingslab.

One or two women were out yester-
day with petitions against allowing
Turner's show to exhibit here.

The funerals of Mrs. Kennedy Sun-
day afternoon was largely attended.
Services at the Catholic church.

The Appeal Board of Hiawatha
township will meet at Hotel Hiawa-
tha next Monday and Tuesday.

Born Monday afternoon to Mr. and
Mrs. John Dalley, a girl.
Steamer Menominee arrived this
morning from Chicago, unloaded a
large quantity of freight and departed.

Schooners America, Col. Ellsworth,
Anna Maria and Ellen Williams ar-
rived Saturday afternoon and even-
ing.

Weing & Thompson's meat market
is well patronized and the reason is
because the meats they sell are first-
class.

Mr. Hixson will be ready for busi-
ness as soon as his library reaches
here. It has been several days on the
road.

The great reason for the success of
Hood's Sarsaparilla is found in its
positive merit. It cures where other
preparations fail.

When "ladies" turn out to paint
the town bill-boards men should re-
main at home and take care of the
house and children.

One of the nicest sailboats we have
ever seen in Manistique was out with
a pleasure party Sunday. We did not
learn to whom it belonged.

The Hunter was in port Sunday, left
for St. Ignace yesterday morning and
will bring back with her the Ida Van
Cortland troupe this afternoon.

Atahaj Weston, President of the
lumber Companies here, arrived Sun-
day afternoon and is registered for
this week at the Ossawanimakee.

The Guild meeting with Mrs. A. S.
Putnam was well attended and the
exercise very interesting in fact that
can be said of every meeting of that
society.

The editor of the Newberry News
says that the Prosecuting Attorney of
that county has threatened to whip
him; and the quill-driver says the end
is not yet.

Secure your seats as soon as you
read this notice, at Thompson & Put-
nams, for the Ida Van Cortland en-
tertainment to-night. They are being
rapidly taken.

To-day, May 17, is the Norwegian
4th of July. At least it is the time of
great rejoicing over the fact of its be-
ing the 78th anniversary of that Na-
tion's Independence.

Almost everywhere you go this week
you will see the furniture piled up out
of doors and everybody busy cleaning
house. Our people think now that
winter has really departed.

The "old man" of this office has
sworn vengeance on D. W. Thompson
for a photographic trick he had play-
ed on us yesterday. Only a box of
cigars will settle the damage.

Yesterday we noticed Councilmen
Orr and Maclaurin, members of the
street committee, looking over the vil-
lage. They undoubtedly found plen-
ty of work that needs to be done.

McKesson & Co.'s new photographer,
Mr. J. W. Miller, of South Dakota, ar-
rived Saturday and is engaged in tak-
ing good pictures. He is said to be a
good artist. Call and see his work.

Week before last one of the most ob-
scene performances we hear that was
ever permitted in this village drew a
good house and still it came and went
unmolested. Where were the Spartan
Band of Regulators?

For the benefit of two or three busy-
body's, of the female gender, we will
say that the bill-board on the corner
of our office is under the control of
"Jack" O'Brien, and if they want to
hire it they can apply to him.

The yacht, Winch, spoken of in an-
other column, was built at Chicago
for Harry Durall and it is claimed
she has made best time in several
races, is now here the property of
Andrew Ekstrom. She is one of the "get
there kind" and is a beauty.

The tug Agitator last evening in go-
ing out of the harbor got her steering
gear disarranged and had to be towed
back to the dock. She left at a later
hour on her way to the Whitefish
Point fishing station.

Excitements are kept up every day
in the week in Manistique; if it is not
one thing it is another, and of course
every one is expected to play his or
her part. It won't be so after there is
about double the population we have
now.

The boys in Emmet Rose's depart-
ment of W. L. mill No. 2, are deter-
mined to lead in the way of outglatsh.
They are bound to wear the red card
of success. On Monday they cut and
packed in 11 hours time 51,750 pines.
Beat that whom.

Capt. Kirkland was here on the Me-
nominee this morning, looking over the
route and will take command of that
steamer in place of Capt. Gallagher,
who is to take charge of the Indiana.
Capt. K. is well known the full length
of the lakes, has spent an ordinary
life-time on the water, and has the
good reputation of being a good sea-
man and a perfect gentleman.

Promotion.
Yesterday our friend C. B. Messer-
gier received notice that he had been
advanced by the Booth Company
from the position of book-keeper to
that of Assistant General Manager of
that Company at this place. Capt.
Coffey, the General manager here and
on Lake Superior will find in C. B. an
able assistant. We congratulate all
parties upon this merited promotion.
Oval Agitator.

That is the name the Booth Com-
pany have given their tug which ar-
rived here on Sunday night. She was
built at Grand Haven of a handsome
model, 104 feet in length, 19 1/2 foot
beam, 7 foot hold. Her engine is a
fore and aft compound 18-28 20; boiler
8x12. Everything new and of the
latest style about her. Capt. Givins
is in command and goes with her to
Lake Superior where she will be used
to carry fish from Whitefish Point and
the "Bos". Our townsman, Thomas
McClough manages the culinary de-
partment, hence the boys will have
plenty to eat. Sunday on her way up
she encountered heavy seas but the
crew says she behaved nicely.

Tights.
The Turner Company of English
Gaiety Girl is the best advertised
troupe that will ever strike Manistique.
A full page in any of the local papers
could not begin to give it the notoriety
that it received at the hands of three
or four women Saturday night. The
lulls were put up for Thursday nights
performances and some of the pictures
represented the actresses in tights; but
were mild in comparison to those us-
ually seen upon bill-boards in large
cities. Late Saturday evening these
women went to the boards on several
streets and tore the paper from some
and painted others with sickly red
paint. A crowd of young men got on
to the racket and followed them from
place to place, and to use the expres-
sion of one of them, "had lots of fun
to see how industriously they work-
ed." If these ladies were serious in
their opposition to that troupe's get-
ting a foothold here they made a great
mistake in resorting to mob law. If
any of the rights of the people were
being trampled upon a sworn com-
plaint filed before the proper officer
would have secured a legal redress.
Of course everybody is excited now
and the result will be to put a larger
sum of money into the treasury of
that show. We do not endorse the
public display of questionable hand-
bills, neither can we accord credit to
women for going out at the dark hours
of night and performing acts of outlawa-
ry that they would shrink from were it
to be done in broad day-light. As to
who they were, we will not say, as
possibly on information may be mis-
taken. Arrests are threatened, and if
that is done then all will be known.

FIGURES CANNOT LIE.

THE PREDICTIONS OF DEMOCRATIC
ALARMISTS DISPROVED.

Some Interesting Statistics Which Show
What the Republican Party Has Done
for the Country Recently—Prosperity,
More Work, More Wages, More Votes.

Since the overwhelming rebuke to
Democratic methods in the state of New
York, administered by the town and city
elections in March, it has been clear to
every observer that the current, both of
public opinion and of the popular vote,
was setting toward the Republican party.
The result in Rhode Island, like the election
in Ohio, confirms this view. We do
not suppose any candid, impartial
observer doubts today that the general
set of the popular tide is in the direction
of Republican success and supremacy.

Local causes are ordinarily cited to ex-
plain the elections which have taken
place in the past six weeks from Rhode
Island to the Mississippi. In New York
there was the great Democratic state
steal which put a man judged guilty of
larceny by the slightest Democratic lead-
ers in the state on the bench of the
highest appellate court in New York.
In Rhode Island there was a local con-
troversy and a struggle over a federal sen-
ator. In the west license and other local
issues added the Republican party.

The primary cause for all this, how-
ever—the cause which causes the cause
—lies deeper. It is to be found in the
amazing impetus which has been given
business, manufactures and foreign
trade in the eighteen months which have
succeeded the McKinley tariff. Prosperity
always helps the Republican party.
It has staked its success and future
on the growth of the country. Calamity
is no part of its stock in trade. Disaster
does not help it. Its platform speakers
are not engaged in showing that the
country is going to the devil.

This is a good year for the country.
The McKinley tariff was going to destroy
our foreign trade. Has it? By no means.
It was going to cut off our purchases
abroad. It has done nothing of the sort.
A vast increase of foreign commodities
paying duties under it was to follow.
The exact reverse has come to pass.

The McKinley tariff has added 10 per
cent. to the imports free of duty. In the
past eight months the imports of free
goods have been \$277,286,800. This is
\$109,081,361 more than the average for
five preceding years, which was \$168,-
285,439. One-third of our imports used
to come in free, or for the average of
eight months ending with February for
the years 1887-91 \$108,285,188 of our im-
ports were free out of a total of \$490,-
280,740. In the past six months the aver-
age-half, or \$277,286,800 out of \$283,728,-
670, has been free.

The United States is getting more of
what it buys abroad free than at any
time since the war opened. But and

It is a fact of the McKinley tariff
policy: this increase comes simply and
solely because the United States is im-
porting more of what it cannot grow at
home profitably and less of what it can
grow and make here.

When we come to analyze the growth
of the trade of the United States for
eight months past under the McKinley
tariff with unperturbed conditions, the
imports free of duty have grown chiefly
in these items:

Chemical drugs and drugs.....	\$2,200,000
Coffee.....	1,127,700
Sugar.....	1,045,000
Tea.....	1,000,000
Total.....	\$5,372,700

This covers nine-tenths in the growth
of free imports. In the same eight
months dutiable imports have fallen
\$75,494,592, or from an average of \$22,-
004,800 for five years previous to \$24,-
010,010 for the eight months just past.
Of this decrease \$41,285,548 is due to
sugar and \$7,316,889 on textile fibers
transferred to the free list. Deduct
these. There is left a decrease of \$26,-
887,153. This is 10 per cent. on the du-
tiable imports, less sugar and textile
grasses for an average of five years past,
the average aggregate of imports less
these two being \$271,074,791. Of what
is this decrease made up? Why, chiefly
of these items:

Barley.....	\$2,000,011
Cotton, manufactures of.....	1,112,200
Iron, manufactures of.....	2,425,612
Wool, manufactures of.....	2,709,200
Wool, manufactures of.....	2,400,700
Total.....	\$10,647,723

This is all things we can make here
and are making here. This decrease
represents an addition of over \$1,000,000
a month to the pay roll of American
mechanics. The practical result is that
we are today making more from spin-
ning more cotton, weaving more wool
and turning out more silk and jute
goods than at any time in our history.
The McKinley tariff was going to ruin
our trade abroad. If we did not buy
English and European manufactures we
could not sell our grain, provisions, cot-
ton, oil and manufactures abroad. Has
this proved so? Absolutely, not! Look
at the figures. Our exports for the past
eight months were \$729,770,842. This
was \$185,084,385 above the average for
eight like months in five years past.
These exports beat the record by over
\$100,000,000. Of this vast aggregate
\$108,120,085 were manufactures.

With the lowest prices abroad on
iron, cotton, wool and a host of other
articles known in years, our exports of
manufactures were within less than 1
per cent. as great as in the eight months
before. So our manufacturers, who
were going to lose what foreign market
they had under the McKinley tariff
have kept it, and they have added to
their home market into the bargain.

All this means prosperity, more work
and more wages, and these all mean
more Republican votes.—Philadelphia
Press.

Bates' Hopes Blasted.
The Democratic vote "forked" for
Governor Bates as soon as it was an-
nounced in Boston that "the Iowa gov-
ernor ate pie with a knife."—Chicago

WHIP AND SPUR.

An article of \$5,000 for the 3-year-old stallion in Kentucky is Fly Wheel, a chestnut filly by Onward, and out of the dam of Henry Hank.

Racine, the California crack, has run his last race. The wrench the colt got at the Philadelphia Bay last fall helped to put him out of the race, and he is now in the end.

Mantrio Russell and Jay Bird, both failed 188, are the two youngest grandsons of 2281 meters. The former is a grand-sire of Major B. 2374, and the latter is grand-sire of Monarchs 2167.

Trainer Hiram says a horse's true color will be found at his muzzle. The body of a youngster is liable to change, but the muzzle the color is generally true and not likely to vary.

The hundred and twenty-six sons of 1853's Hambletonian have straddled 67,000 miles with records of 220 or better, more than twice as many as have been sired by the sons of any other horse.

Marne Salisbury has had a harness built for the use of Direct, 240, the coming season which weighs but four pounds, while the new silks to be pulled by the light harness champion in 1892 will weigh thirty-eight pounds.

No one admires Double more than Charles Martin. Some time ago a party of gentlemen were discussing Double and Marvin and said, "I would be willing to trot a match with Double Double and let him judge it as we went along."

George Hankins says that he will enter some colts for the English Derby of 1894 and other big events in England and France. He believes that it is quite possible for American horses to duplicate the successes of Inouquois, Parole and Foxhall.

Kentuckians are eminently a sporting people, says an exchange. As far back as 1773 they had made a race track at Shalor Ford Station, and one morning while a jockey was exercising a horse an Indian came up in the cane and shot him dead on his horse.

CROWN AND SCEPTER.

One of the newer's latest acts is to order that former expenses be cut down, because of a verse of the Koran which commands prodigals to the lower world.

King Christian of Denmark is one of the most democratic of rulers. He goes about the streets of Copenhagen in a pug hat and isn't even saluted by the people he meets.

The pope, who is eighty-two, wears spectacles only when reading; for ordinary work his eyesight remains good. He could see better at seventy than he could at twenty, for when young he was very near-sighted.

The Duke Charles Theodore, brother of the empress of Austria, is celebrated for his skill as an oculist, and at his house on the Tergener are many patients, many of them under obligations to the duke alike for his generosity and his surgical skill.

One of the drawbacks connected with Queen Victoria's lofty station is the law that forbids her reading documents or receiving any letters, except from her own family, and they have been scrutinized by the person in charge of the royal correspondence.

The Princess of Wales is said to be an adept at a new kind of needlework. It is a kind of aquatic work in delicate colored craps, on a satin background, the craps being formed to represent flowers. The work is a revival of an old French art of the middle.

ELECTRIC SPARKS.

Farming by electricity, or rather with the aid of the electric current, seems to be fair to be generally adopted.

It is proposed to unite all of the islands of Japan by a system of submarine telegraph cables, at an estimated cost of \$2,000,000.

There is probably \$500,000,000 invested in electrical work in this country. This immense industry is, in addition, extending into new fields every day.

The days of electric motors of great power and capacity are evidently at hand. Among the signs is the announcement that the Thomson-Houston company is building at its shops in Lynn a locomotive, which is designed to develop 500 horse power.

The Rochester (N. Y.) electric circuits have been extended to run sewing machines in houses on the outskirts of the city, and there are, it is said, hundreds of people who are doing their work for the large clothing firms in these parts of the city.

It is said that a fine metallic wire stretched between two supports and traversed by an electric current will begin to vibrate with increasing amplitude until a maximum is reached, which is maintained so long as the current remains constant and the surrounding air undisturbed. When the wire is inclosed in a tube the vibrations are more regular.

No Trouble.

Mr. Floss—But, husband, won't the peo- ple who buy seeds of you be disappointed and look so different from those gorgeous pictures in your catalogue?

Mr. F. (sweetman)—Oh, there's no trouble about that. The seeds will never come up.

FIGS AND THISTLES.

The secret of our publishing the report of the schools ahead of our competitors is simply this: The Professor laid the copy on our table while we were out, and finding it there upon our return we put it in the next issue of the paper. That and nothing more.

A notice appears in another column for a meeting of the members of the G. A. R., W. R. C. and S. of Vs. at Judge Bowen's office next Friday evening to perfect arrangements for Memorial Day, and it is important that all should be present. Let us all rally at this call of the joint committee and make a grand success of the demonstrations on that occasion.

The Canadian farmer has no doubt that the tariff is a tax—on him. He has to pay it in order to bring his products across the line and sell them in the American market.

The Democrats who are circulating Henry George literature should steer clear of Chicago. The police of that enlightened community have a particular antipathy to red flag communists.

There is no whisper of criticism from the newspapers and snivel service reformers of the pernicious activity in behalf of Cleveland, of William F. Morrison, chairman of the Interstate Commerce Commission.

The Democrats are going to the farmers of the country with the doctrine that they are extortionists and no better than robbers in holding their farms, since everybody has an equal right to the land. That is the Henry George doctrine.

Paymaster Fox, of the Syracuse, N. Y., Solway Process Company had \$2,500 to pay of 250 men. On his way to the quarries masked men with drawn revolvers made him disgorge after which he was bound, while the robbers escaped.

Hon. Ferris S. Fitch, Superintendent of Public Instruction, says there is \$3,034.68 in the hands of the committee for educational exhibit at the World's Fair, raised by school children as a result of Washington Birthday exercises, \$1,000 more is in sight, and \$3,000 is pledged by the commission.

A few years ago wire nails were so dear farmers could not afford to use them, but now, under protection, they have fallen in price until they are sold for less than the tariff on imported articles, and consumers get home-made nails which are not only low in price, but the best in quality of any made in the world.

The People's Party is in doubt as to holding its national convention in Omaha, owing to the fact that the hotel keepers in that town want to charge delegates from \$3 to \$8 per day. If the masses of the party should ever find out that its leaders were guilty of paying such prices as for their daily bread nothing on earth could save them.

The President ought to get his friends together at once and give them more definite instructions on certain delicate subjects. One set of his admirers is busily engaged in asserting that he has nothing to do with the ravens, and is keeping his "hands off." Another lot are just as firm in their assertions that he is "mucking himself felt." The person most interested should see to it that the brethren agree.

A Portrait of Democracy.
Mr. Irvine Dungan, a Democratic Congressman from Ohio, thus sizes up the present Congress: "I am becoming convinced that this is a cowardly Congress. It is becoming very tiresome to me. It ought to get up and do what the people expect it to do, and not be afraid of its shadow." But think for a moment, Mr. Dungan, think for a moment, as you turn your eyes to the past, what a dreadful shadow that is.

EXR RAPS, Mich., May 14.—One of the alcoholic tanks at the chemical works here exploded last night with terrific force, the report being heard all around this section. John Bowman, a young man who was showing two ladies through the works, was badly burned. The explosion was caused by placing a lighted lantern in the tank containing wood alcohol.

FROM SLAVERY TO FREEDOM.

THE EMANCIPATION OF FRANK WILKINSON—BY THE MT. CLEMENS MONROE'S GOLD CURE.

How a Cure was Wrought.

[From the Mt. Clemens Monitor of May 4].
To-morrow there goes from Mt. Clemens a young man who came here a slave and leaves a freeman.

He is Mr. Frank Wilkinson, a citizen of Detroit, and the first graduate of the Mt. Clemens Monroe's Gold Cure manumission. His eyes is bright, his countenance clear, and, rid of a terrible appetite, he faces the world, his heart swelling with new hopes and aspirations.

"I have been one of these periodical drinkers," said Mr. Wilkinson to a reporter. "I would remain sober for several weeks, or months, and then go on a prolonged debauch, continuing some times for two months. I would feel these apoplex coming upon me with fear and horror, and when I came out of them, a miserable wreck, had only disgust for myself, and was without hope of the future. My friends and family had almost given up expectation of my redemption, as I had myself.

"In February last I came to Detroit, and almost immediately started on a grand carouse. I had heard of the Mt. Clemens Monroe's Gold Cure, and three weeks ago, while in a state of semi-intoxication, I boarded the train at Gratiot street and came up here. I began treatment at once. Sunday and Monday I drank freely, but on Tuesday I could not drink, and on Wednesday I had no desire remaining. From that time to this I have thought of liquor only with loathing. A barber put bay rum on my face the other day and it made me sick at the stomach. I believe I am permanently cured of the appetite that has cursed my life.

"During the treatment I have not simply experienced no bad effects, but have actually gained eight pounds in weight. My arm is not even sore. There has been a steady improvement in my general health. I shall leave here with a grateful heart, with a personal knowledge of the Monroe Cure that will enable me to speak of it in terms of greatest confidence and enthusiasm."

It is stated that a firm of wine merchants in California are shipping one hundred cases of champagne a month to England. If that be true the increasing hostility of the English to everything American can be readily understood. The average Briton may have been guilty of many offenses against America and Americans, but he can not have done anything which should compel him to take his share of one hundred cases of California champagne within thirty days. No wonder that families are being broken up, and that crime stalks abroad in that unfortunate country.

Rev. W. Bull Wright has, we understand, tendered his resignation to the Vestry of Grace Church and contemplated entering the missionary field in the upper peninsula. If he accepts this position his charges will be at Crystal Falls, Manistique, Calumet and Lake Linden. The Rev. gentleman has made warm friends here during his rectorship and is much esteemed as a scholar and gentleman aside from his position as clergyman. Wherever he may go the Herald trusts "his lines will fall in pleasant places."—Menominee Herald.

Many Democratic members will be wishing before long that they had spent more time in their seats.

The first test of love is its willingness to suffer without complaint.

An Appeal to the Men.

"It is the sense of the executive committee of the Women's National Council of the United States," recites a resolution adopted at Chicago last Tuesday, "that the health boards of Hungary and Austria have set a true keynote for dress reform by urging that legislation be had to prevent the wearing of long skirts upon the streets and thus endanger the public health."

Well, we, that is, we men, feel immensely flattered. Here is a body of the most intelligent women in the nation, which has been wrestling with the dress reform problem for several years, at last reduced to the extremity of asking for legislation preventing the wearing of long skirts. That is to say, they are asking men to provide such legislation. For is not all legislation in the hands of men? And does not this resolution urge, in effect, that men shall legislate with respect to the length of women's skirts? Is not that a wonderful expression of confidence in man's integrity and wisdom, and of faith in his ability to carry out a much-needed reform? We say that is very flattering. We do not believe that there is any legislative body in the land capable of resisting this appeal to its competence and wisdom.

And why should not men legislate with respect to the length of women's skirts? They furnish the funds where-with a great many of these skirts are purchased. They have a certain amount of aesthetic interest in the appearance of womanhood, and a bedraggled skirt offends the masculine eye. To be sure they have not, as a rule, assumed to dictate, for these reasons, the precise fashion after which skirts shall be made. But now they have been plainly asked to do so, shall they refuse?

If, however, men must legislate on this delicate and complicated subject, what then becomes of the whole argument to the effect that woman can take care of herself?—Detroit Tribune.
