Since a guilty conscience needs no  
accuser, a conscience would clearly be  
a superfluity for a man with 12,000  
accusers, and, according to all ac-  
counts ex president Barillas of Gault-  
maia got along without one.

If you want good wholesome meat  
buy of ORR BROS. & Co. they slaughter  
their own meat daily so it is al-  
ways fresh.

Escanaba officers are making it  
warm for the "scarlet women" that  
infest that city. It would have been  
better had they begun years ago.

At the Democratic State Convention  
the mention of Cleveland's name  
brought the delegates to their feet  
with great cheers. A second later the  
name of David B. Hill was hissed.

Don't forget that ORR BROS. & Co.  
make the finest lard in the city only  
10 cts. per lb. in bulk or pail.

Monday was a graduating day for a  
class of six patients who have been un-  
dergoing treatment at the bichloride of  
gold institute at Albion.

Merit is the measure of success. Geo.  
Moels & Co.'s Cigars sell by the mil-  
lion.

A Sault man carries his bait in a  
hollow imitation of a Bible, and every  
Sunday he tells his friends that he goes  
to church in Canada. He is a faithful  
follower of Isaac Walton.

Lovers of fine Cigars should ask for  
Geo. Moels & Co.'s Ben-Hur (10c. or  
3 for 25c.) or Record Breakers, their  
great 6c. cigar.

The success of ORR BROS. & Co. is  
due to the good quality of their home

Bowery dance at the Lakeside Hall  
this evening. A general invitation is  
extended.

The C. L. Co. store is making a  
specialty of Ladies' Furnishing Goods  
this week.

The promise is rather poor for a  
lively tourist traffic this season—wath-  
er too cool.

Manistique police have very quiet  
times now days. Peace reigns through-  
out our borders.

Mr. and Mrs. Emmet Rose celebrate  
the third anniversary of their wedding  
Saturday evening.

John Larsen and Andrew Ekstrom,  
carpenters, are back from their pilgrim-  
age to Whitefish.

Send in your reliable items of news;  
but we ask for nothing of an offensive  
personal character.

Our Livery stables are well stocked  
up this season. Their line of turn-outs  
are handsome indeed.

Schooners Ellsworth and Westside  
cleared yesterday and they cleared the  
harbor of sailing vessels.

Gravel or broken stone is being put  
on Cedar street where it crosses the  
sand plains to the docks.

The building of some new fences on  
Cedar street has helped the looks of  
things greatly in that quarter.

Will Rapley is building a porch  
around one side and end of Arthur  
Barr's residence on Lakeside.

St. Alban's Guild will meet to-mor-  
row night with Mr. Cogswell, at the  
residence of Mrs. Thomas Hogue.

The buildings scorched last week  
for the Booth Company have been re-  
paired all they need now is paint.

Dealers complain of dull times; un-  
less it be in the line of millinery goods.  
No complaints from that quarter.

Schooner Howland arrived this  
morning.

Blumrosen will have something new  
in Saturday's issue.

S. Mix has had quite an addition  
built to his residence.

Several views were taken Monday by  
the manipulators of kodaks. Send us  
one of the best.

The cold damp weather of yesterday  
called for two complete outfits of  
clothing; overcoats and water-proofs.

Many of the villagers around us can  
boast of water works, electric lights,  
etc., and Manistique has nothing of  
the kind.

It is not theory but fact—that  
Hood's Sarsaparilla makes the weak  
strong. A fair trial will convince you  
of its merit.

Considerable street work is being  
done on the west side of the river.  
Deer street is receiving a good cover-  
ing of gravel.

We don't want the village "painted  
red"; but we would like it if many of  
the houses were re-painted. They  
need it badly.

David Boncher has bought the Ruby  
property in Lakeside, and Will Rapley  
will begin the erection of a new house  
there next week.

The Presbyterian General Assembly  
practically declared against Dr. Briggs  
by instructing the New York Presby-  
tery to retry his case.

Bicycles are getting to be quite num-  
erous here now. They are a good  
thing for a person that understands  
how to manage them.

Manager Beemer informs us that  
amusements will follow right along  
at the Opera House this month. The  
Turner Girls will not return here until  
September.

Delegates and visitors are beginning  
to move towards Minneapolis to at-  
tend the Republican National con-  
vention. Next week will settle the matter  
as to who will be the next President.

Charles Ekstrom has purchased a  
lot in Lakeside and will build a re-  
sidence on it soon. By doing that way  
a man is always sure of having a home.  
It beats the plan of renting a long  
way.

Mr. Fuller, the stone mason, is put-  
ting up a good bakeoven for Girvin's  
bakery. He is a splendid workman  
and never fails to do a finished job,  
where mortar, stone and brick are to  
be used.

Weing & Thompson, the Oak street  
meat market men, are ever ready to  
wait on customers and put up meats  
in handsome style. Besides, all that  
they sell can be banked on as pure and  
fresh. Prices very low.

Last Monday demonstrated the  
fact that hereafter Decoration Day ex-  
ercises will have to be held in the open  
air. No building in this part of the  
state can hold the crowd that is sure  
to attend the usual exercises.

The old veterans are now prepared  
to lend a hand in any celebration the  
people may inaugurate. Every one of  
them appreciate the help given us on  
Decoration Day, and desire to reciprocate  
whenever occasion offers.

One of the delivery wagons had a  
close call at the Deer street crossing  
of the tram-road; the driver not pay-  
ing attention to the ringing of the bell  
got over just in time to have a timber  
car strike the hind wheel of the wagon  
and slew it around. A narrow escape.

Remember that we have the largest  
job printing office at the north end of  
the lake, carry a large and well select-  
ed stock of papers, cards, etc., and do  
work to please our customers at very  
low rates. Our prices for the same  
number of sheets are as low as you  
can get in the larger cities.

## Manistique Bound to Celebrate!

In answer to the call published in  
Tuesday's issue quite a number of the  
citizens of this village met in Judge  
Bowen's office last evening to discuss  
and settle upon a plan for properly  
celebrating the coming national Hol-  
iday, July 4th. The sentiments ex-  
pressed were unanimous for the pro-  
per observance of that day. The meet-  
ing was formally organized by calling  
W. E. Clarke to the chair and select-  
ing Miller Rose as Secretary.

On motion a committee of three  
were named to solicit subscriptions  
and attend to the financial matters  
connected with the occasion, as fol-  
lows: A. S. Putnam, Archie MacLaurin  
and Fenton Gorman.

As the committee of arrangements  
the following named gentlemen were  
unanimously selected: Messrs. L.  
Beemer, V. I. Hixson, Esq., Miller  
Rose, A. P. Ekstrom, Will Rapley, Dr.  
Burdick, Patrick McManara, W. J.  
Middlebrook, Geo. K. Moody, James  
Christensen, Geo. Brooks, Gus Math-  
ews, Wm. Rose, W. C. Bronson, E. N.  
Orr, Ed. Ashford, S. Mix, Charles  
Coon and Moses Blumrosen.

Dr. Burdick was also named as Of-  
ficer of the Day.

The finance committee were request-  
ed to begin work at once and the com-  
mittee on arrangements will meet at  
the same place next Monday evening  
to effect a more thorough organiza-  
tion and adopt plans for work. Ev-  
ery one named on that committee  
should make an effort to attend. Ad-  
journed.

MILLER ROSE.  
Sec.

Brownie's Theatre Company will be  
at the Opera House to-morrow night,  
and of course they will be greeted with  
a full house. Notwithstanding their  
great success they still keep their rates  
below that of any other troupe that  
comes this way—25-35 and 50 cents.  
They are favorites here and strive to  
give good satisfaction every time they  
appear here. This is the last visit of  
the season, as they are now on their  
way west and south.

Manistique is bound to have a high  
old time on July 4, 1892, and to it  
they invite everybody in this and  
other counties along this shore and  
line of railroad, between the Soo and  
Gladstone. Come, and "we will do  
the good."

Winkelman is out with a new busi-  
ness advertisement to-day—a cut in  
prices of foot-wear for the balance of  
this week to reduce stock. Don't for-  
get that this means bargains that will  
pay you to attend to.

The Canisteo passed here last evening  
on her way south, dropping the  
schooner Eugenia Vespa here. The  
latter is unloading five thousand brick  
at the dock this morning.

Business men will be asked to con-  
tribute liberally to the 4th of July  
fund. The money will go into the  
hands of a committee that will see  
that none is wasted.

All members of the Ladies Aid So-  
ciety of the Baptist church are re-  
quested to be present at the special  
meeting at Mrs. Carr's Friday evening  
at seven o'clock.

For Rent.  
A small house in Lakeside for rent.  
Payments to be made monthly in ad-  
vance. Call at this office.

O. W. Booth, of Detroit, makes  
himself at home in Manistique to-day.  
He represents Page & Strachan, of  
that city.

James Richardson and wife return-  
ed from Marquette yesterday. They  
will probably remain here for some  
time.

The Detroit Journal is now sold by  
news-boys at one cent a copy—a good  
paper at a very small price.

E. D. Brooks, the man who manu-  
factures "shirts for the million" at  
Grand Rapids, is in town today.

**MISSOURI'S STANDARD BEARER.**

Sketch of Major William Warner, Republican Governorial Candidate.

Major William Warner was recently nominated for the important office of governor of Missouri by the Republican state convention. Major Warner is an active, aggressive man, who has made a success of everything he has yet under-

**WILLIAM WARNER.**

taken, and his reputation has high hopes of redeeming the state this year from the Bourbon misrule under which she has staggered for so long. Major Warner was a gallant soldier during the late unpleasantness, and has since been commander in chief of the Grand Army of the Republic for one term. He is about fifty-one years of age, and has lived in Kansas City since the war. He has held important municipal and national positions, and in every one has acquitted himself creditably. He stands a good chance of being Missouri's next governor.

They Don't Mind Such Trifles.  
If the copy of the constitutional convention bill which we have received from our Albany correspondent is correct there is grave reason to believe that the measure is framed in direct violation of the organic laws of the state. In other words, the constitutional convention bill is unconstitutional.—New York Sun.

But that makes no sort of difference to the Hill-Flower-Turnany legislature. What do they care for violations of the constitution? If the judges need "fixing" they will doubtless be able to arrange them. Boss Tweed was a boy by the side of the present Democratic managers.—Chicago Inter Ocean.

Another Democratic Waterloo.  
The municipal election in St. Paul was a great Republican victory. Colonel F. P. Wright being elected mayor by over 8,700 majority, with a Republican comptroller, treasurer and a majority in both assembly and council. The gang is most effectually cleaned out after twenty years' fattening at the public crib, and the citizens of the capital city are deserving congratulations over the result.—Hastings (Minn.) Gazette.

**"PRIVATE JOE" FIFER.**

Illinois' Governor, Who Will Be Elected for a Second Term.

Governor Joseph W. Fifer, "Private Joe," as he is affectionately called by his subjects, has been paid a high compliment by the Republicans of Illinois, who were so well pleased with his administration of the affairs of the state that they have re-nominated him. It goes

without saying that Governor Fifer will be re-elected, for he is one of the most popular and able men in Illinois. He has risen from the ranks, and there are those living today who can remember when he was struggling along to get the money with which to pay for the education which has since enabled him to rise to the proud position he now occupies. Governor Fifer is married and has two children, Herman and Florence.

**A Subject for an Asylum.**

Ex-Postmaster General Don M. Dickinson, of Michigan, is reported as saying in Detroit, after returning from a visit to Washington, New York and Boston, that ex-President Cleveland will be nominated at the Chicago convention by practical unanimity before New York is reached in the list of states. Mr. Dickinson was equally emphatic in saying that Mr. Cleveland is today 50,000 votes stronger in New York than he ever was before, and can carry New York, New Jersey, Connecticut, Wisconsin, Massachusetts and New Hampshire. If there are any good political lunatic asylums in Michigan Mr. Dickinson should be sent to one at once.—New York Mail and Express.

**Defeat is Certain, Anyway.**

The New York Herald continues its warning that the Empire State's two distinguished Democratic candidates for the presidency are not in it, and that success lies through some western man for head of the ticket, the tall to be assigned to Hill. Doubtless The Herald reasons that it is fatuous to bid for defeat by the nomination of a man who will blindly better his head out against the McKinley law, and equally stupid to put up a man who Cleveland's New York friends solemnly propose to assassinate next November.—Chicago Tribune.

**A Parafactory Device.**

If Senator Hill chooses to make Governor Flower his political legatee he can do so without becoming any poorer himself or making Governor Flower any the richer. This is official.—Chicago Tribune.

**Holes is Getting Too Gay.**

It is about time Mr. Cleveland did the dull third act to the Honeysuckle. He is wasting rather gay and getting numerous enough to be mentioned twice a day.—St. Paul Pioneer-Press.

**Peculiar**  
Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion and preparation of ingredients. Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of the kind which can truly be said, "One Hundred Doeses One Dollar." Medicines in larger and smaller bottles, routine larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits. Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered."  
Peculiar in its "good name at home"—This is now of Hood's Sarsaparilla Lowell, where there is at other blood purifiers. Peculiar in its phenomenal record of sales abroad, and no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people as steadfastly. Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine, **Hood's Sarsaparilla** Sold by all druggists. \$1; six for \$5. Prepared by O. L. MAGNANIMITY MENTION.

Francis Harrison once traced his ancestry back to Alfred the Great.

James Gordon Bennett, of the New York Herald, is a great pipe smoker and is fond of making presents of pipes to his friends.

Some people are aware that Mr. Spurgeon was never ordained. He began and ended his remarkable ministry as a lay preacher.

The Rev. John M. Small, of Wallington, Va. tips the scales at 210 pounds and is the heaviest tax collector that the town has ever had.

Prince Bismarck carries a stick when he walks, but not as a means of support. He carries it across his back between his shoulders, and its only use, if it has any at all, is to keep him erect.

Justice Dean left Kingston, N. Y., and traveled 100 miles to his home in Upper county in order to vote recently. When the count was made it was found that his vote had elected his ticket.

Frederick Schwatka, the traveler, once experienced a temperature of 114 degs. below zero in the arctic regions, near Burk's Great Fish river. It is said to be the coldest ever endured by civilized man.

Colonel Howard, the only English earl still now living, is 102 years of age, and during the past three years has been under restraint in England, imprisoned in one of the wings of the Palace of Norfolk's ancient castle of Arundel.

Concussion Stone, of Kentucky, owes his life to his wife, who, when a young girl, found him lying dangerously wounded after one of the battles of the rebellion, and taking him to her father's house nursed him back to health.

Until within a few years past Governor Russell, of Massachusetts, was enthusiastically addicted to athletic exercises. By the time he had his nose, one finger and both his arms broken, he began to slacken his interest in them.

William W. Vanderbilt once said to a friend, "Keep a secret to yourself if that you can." He held up his finger. "Tell it to your mother, that's two." He held up a second finger. "Tell it to a third person, and that's three." He held up his three fingers, "is that it?"

Major General O. O. Howard lost his right arm at the battle of Fair Oaks. It was to him that General Phil Kearney, who lost his left arm at Chancellorsville, made the famous remark, "Howard, you and I will have to buy our gloves in partnership."

General Isaac T. Hixon, of Philadelphia, has given \$100,000 to the University of Pennsylvania, where, to build a biological and anatomical museum. It was designed to keep the identity of the donor secret, but one of the trustees carelessly betrayed it.

Sir James Bacon is, at the age of ninety four, the oldest of the titled classes in England. The oldest baron is the Hon. Sir John Warren Hayes, who is ninety-two, and Admiral Sir Lewis Tobias Jones, the oldest Knight of the Bath, is also ninety-two.

David Dudley Field, the great lawyer and one of the famous Field brothers, is a remarkably well preserved man for one nearly ninety years of age. His step is somewhat feeble and he leans heavily upon the arm of an attendant when walking out. His figure is still quite erect, but his face is exceedingly pale.

The Duke de Bona, a grandee of Spain, who may stand lamed before the king, has retired to a monastery. He was a prominent figure in Madrid society and something of a politician, and retired disgusted at the failure of his motion in the cortex to reduce the civil list, and the consequent feeling against him at the court and with the aristocracy.

FIN, FEATHER AND FUR.

The Nubians eat of the west coast of Africa is covered with stiff bristly hair. A real shark has recently been seen near Nix. They come in from the Red sea by way of the Suez canal and are said to be very dangerous.

It is said to be a remarkable fact that the poison of a scorpion gradually loses its effect upon a human being, and that man suffers less and less each time he is stung. A pig's tail is said to unerringly indicate the condition of the animal. If it hangs loose it shows that the pig is not well and that its food should be changed. If it is coiled tightly the pig is healthy and happy.

There are two remarkable species of crabs on the Pacific coast, more plentiful than any other kinds, which are called, respectively, the yellow and purple "shore crabs." Their bodies are nearly square and their claws very large for the size of the animals.

Among birds that have the power of inflation the parrot is supposed to talk the best, but its voice is decidedly inferior to that of the mynah, a species of starling, of which there are examples at the London Zoo. Originally, too, the mynah speaks in a high, clear tone, while the female has a gruff voice.

Ostriches are commonly plucked once every eight months, yielding one pound weight of feathers each, but many are only plucked sixty feathers at a time, so as not to cause too much irritation and inflammation, which is very injurious to the health of the birds and lessens the next crop of feathers.

A crowd of Escanaba youngsters stepped aboard a yawl boat Sunday morning and sailed to Gladstone where they had been challenged to play a game of baseball. Upon their safe arrival in our sister city the Gladstone boys refused to play, and for their failure to do so the Escanaba juvenile ball-tossers geyed them to the queen's taste. Gladstone must be careful when it comes to step on Escanaba's corns.—Mirror.

Every one knows how difficult it is to write a really effective short story. In fact, next to the task of producing a successful child's book, that of the "short story" writer is considered the most difficult of literary labors. Such being the case, the publication in a year of four such marked volumes of short stories as compose the "Tales From Town Topics" series, is a really remarkable feat. And good as were the earlier books, the June volume will be found in no whit inferior. Town Topics, 22 West Twenty-third street, New York.

Another painful exemplification of feminine interference was the action of a bevy of Mariastine ladies last week in besmearing with red paint the billboards, presenting the flashy posters of a traveling variety troupe. Possibly the posters were obscene, which is very much to be doubted, but this would in no way justify the action of the indignant women. There existing laws which make ample provision whereby all such evils may be easily counteracted without the use of mob violence. Acting as they did, the ladies who participated in that midnight maraud by example perpetrated a greater evil to the not over-virtuous youth, whose welfare they had first at heart, than a dozen rather extremely address the Chairman of the Committee.

While it is well for the pupils to be made to feel their responsibility in the movement, yet the real leadership in every village and city must rest with the teachers.  
Let each Teacher, therefore at once interest the pupils in the Message to the Public Schools. (It will be sent to any address by the Chairman.) Let the School vote, with the concurrence of the School Board, to observe the Day. Form a strong Committee of teachers, pupils, and citizens. Enlist the Press. Induce the citizens to allow the schools to be the centre of the local Celebration. Invite the Veterans of the War to send details of every School-house to assist in the morning Salute to the Flag, as well as to act as escorts to the pupils in the afternoon parade.  
Do all this before the close of the present term; for during the Summer other local arrangements may possibly be made which ignore the primacy of the Schools. As soon as any School decides to celebrate, inform the Chairman of the Executive Committee, and a copy of the Official Program will be sent upon its publication, September 1st. Also inform the State Superintendent of Education.

COLUMBIA DAY, OCTOBER 13, 1899.

Message to the Public School Teachers of America—From the Executive Committee—Appointed by the Superintendents of Education.

To the Teachers of the American Public Schools, the Executive Committee of the Columbian Public School Celebration sends the following Message:—  
The 400th Anniversary of the Discovery of America will be the most important of the Centennial observances through which we have passed. It will be marked in Chicago by the dedication of the Columbian Exposition grounds; and should be celebrated everywhere in America by fitting exercises.

The Department of Superintendence of the National Education Association, at its annual meeting in February, 1897, endorsed the proposal and appointed the State Superintendents of Education as a general Committee to take Celebration in their several States. An Executive Committee was also elected to prepare a uniform program for use in every locality in the Republic, and to take direct charge of the movement.

The striking fitness of such a Public School demonstration will appeal to every patriotic teacher.  
It will give worthy prominence to the Common School as the fruit of four centuries of American life. It will bring before the eyes of our nation and the world, on a scale of proper magnitude, what North American civilization owes to free education. It will also be a valuable lesson in intelligent patriotism to over Thirteen Millions of pupils in the Public Schools.

On September 1st, the Official Program will be published, uniform for all localities. It will be simple, but impressive and worthy of the Day. It will provide for a Morning Celebration in the School-houses, especially for the pupils; it will also suggest an Afternoon Celebration in the largest hall, designed for the public generally; and at which the older pupils will be present by delegation or in masse. This Afternoon Celebration may be preceded by a grand procession.

The Official Program will provide that one of the exercises at the School-houses shall be raising and saluting the Flag. No school should be without its flag on that Day. Schools yet without flags will be aided in obtaining them if they so desire by the Chairman of the Committee.

While it is well for the pupils to be made to feel their responsibility in the movement, yet the real leadership in every village and city must rest with the teachers.  
Let each Teacher, therefore at once interest the pupils in the Message to the Public Schools. (It will be sent to any address by the Chairman.) Let the School vote, with the concurrence of the School Board, to observe the Day. Form a strong Committee of teachers, pupils, and citizens. Enlist the Press. Induce the citizens to allow the schools to be the centre of the local Celebration. Invite the Veterans of the War to send details of every School-house to assist in the morning Salute to the Flag, as well as to act as escorts to the pupils in the afternoon parade.

Do all this before the close of the present term; for during the Summer other local arrangements may possibly be made which ignore the primacy of the Schools. As soon as any School decides to celebrate, inform the Chairman of the Executive Committee, and a copy of the Official Program will be sent upon its publication, September 1st. Also inform the State Superintendent of Education.

Let not one Public School in the United States allow itself to be left out

New York has not done as well as for the Nation's Grant.

**Geo. Chantler & Co.**

Capt. DuLac arrived in town yesterday afternoon.

Perrysburg, May 30.—The Commercial Gazette this morning contains an interview with Senator Quay, in which he says that Blaine will undoubtedly be nominated, provided he will accept. "Nobody but Blaine," the Senator said, "can say whether he will or not, but he can scarcely afford to turn a deaf ear to the call of his party."

"What do you think of the story that the Blaine vote will be held back until the convention sees Harrison's nomination cannot be made?"  
"I look upon that as one of the many fine woven imaginary tales that are being scattered over the country about Blaine. I believe that he will be nominated on the first ballot."

"What state do you expect will first put Blaine in nomination?"  
"I cannot venture a prediction on that. There are Blaine men in every state, and one of the first few called is likely to lead the Blaine list."

"If Blaine is nominated, who in your opinion will be given the second place on the ticket?"  
"Oh, that is an after consideration; there are many good men to pick from. I really have not given the matter any serious thought."

Holland has long been famous for tobacco pipes. The Dutch manufacturers were very jealous of rivalry. In the middle of the last century a pipe-manufacturer was established in Flanders, and the Dutch makers determined to run it. The duties were to high to admit of a large importation, and they, therefore, freighted a large ship entirely with tobacco pipes, set sail to Ostend and purposely wrecked her there. In accordance with the maritime laws of that city, the pipes were landed from the wreck and sold at such "ruinous prices" as defied competition, and the new manufactory at once sunk and was closed.

Catharine Weed Barnes writes in "Outing": "At Hyderabad, India, a photographic studio has been opened, in which the operators are all women. The Koran forbids the making of portraits, but the muftis have decreed that photography cannot be included in the prohibition, since the prophet knew nothing about it. Neerer home we find that New York has a woman who has won the title of society photographer, and she makes an income by photographing members of the 'lucy' while in Copenhagen; one woman receives large commissions from the court, and in Stockholm artists count royalty among her patrons. New Orleans has two women photographers making a handsome living as proprietors, and many girls are earning comfortable salaries by retouching and coloring photographs."

The experiment of frightening a man to death has again been tried, with perfect success. Joseph Hardin, of Wellington, Kan., was the victim and practical jokers condemned him to death, blindfolded him, placed him on what they called his coffin, gave the command to fire, fired in the air while one of their number tapped him on the head with a small stick. Hardin died instantly. The bullet did not strike him, but the idea of the bullet was as successful and stopped the heart beats. There is nothing new in such shocks, but it is something of an argument in favor of influencing the mind when the body is diseased. If a man is killed by the idea that he has been shot, why should he not be helped to get well by the idea that he will get well? One is as reasonable as the other.

A woman can't pray or force a boy into behaving himself, but she is the only person on earth who can coax him into it. There is a more of a genuine return in making home pleasant for the boys than in all the prayers of sobbing women in the world.
