NEW YORK, June 15.—The World this morning prints replies received from delegates from the Syracuse convention as to whether they would support the Chicago nominee, whoever it might be. Most of them say they will work for the nominee. Cleveland is their choice, but only a few would cut Hill if he were nominated. The members of the anti-Hill state committee say their title is an antielection one and that they will remain loyal to the candidate, whoever he may be. Kings county is not so certain, one committee asserting that he will support on Cleveland.

Hiawatha Engine Company.
Will hold a meeting at their hall next Monday evening, at 8 o'clock. All members are requested to attend.
M. W. CUTLER, Foreman.

Wanted.—An editor who can read, write, and argue politics, and at the same time be religious, funny, scientific and historical at will, write to please everybody, know everything without being told, always have something to say about somebody else, live on wind and make no enemies. For such a man a good opening will be made—in the grave yard.—Ex.

Dental Rooms.
Dr. A. H. Johnston has his rooms over Fydel & McCullough store in readiness for business, and will be pleased to see any one wishing dental work done. Gas administered for the extraction of teeth.

Sam Jones, the "blackguard preacher," hits it, once in a while. At Nashville last Sunday, he pitched into the politicians and of Tammany he said: "If Tammany were to go to hell in a body and knock at the door, the devil would only let them in one at a time. If I were to let them in all at once they would knock him on the head, elect their own devil and run things to suit themselves."

Attention G. A. R.
There will be a special meeting of George F. Fuller Post No. 257, of Manistique, Mich., will be held June 24th at the S. of V. Hall; and a general attendance is requested. Business of importance. By order of
D. P. KIMBELL, Com.

For the Democratic National Convention to be held in Chicago the "Soo Lane" will sell Excursion Tickets at one fare for the round trip. Tickets on sale from June 17 to 21 inclusive. Good to return up to and including July 6th.

Millions smoked annually—Geo. Mosbe & Co.'s great Cigars. **THEY ARE MADE ON HONOR.**

CINCINNATI, June 15.—At 10:25 o'clock this morning the false work of the new bridge being built over the Yalching river, between Covington and Newport fell, carrying down with it 90 men. The first estimate of the number of lives lost was 30, but later reports made the total number 88. Among them were Andrew and Albert Baird, of Pittsburgh, the contractors.

Merit is the measure of success. Geo. Mosbe & Co.'s Cigars sell by the million.

There should be no delay about renovating some of the ditches in certain parts of town; particularly the large one that crosses Oak street. The way it is now the stretch is almost unbearable.

There was a fair attendance at the St. Alban's Guild which met with Mr. and Mrs. J. B. Lewis last evening; only one member, an editor, was doubtfully found for non-attendance and non-performance of duty.

The Episcopal Mission have secured the services of the Rev. Mr. Elmendorf for the summer; and hereafter will have regular services in the central school building every Sunday; beginning to-morrow. This gentleman comes to this charge a stranger but is highly spoken of by those who know him. Come out, hear and judge for yourselves.

A boy by the name of Savape was caught by the police breaking a street-lamp; was arrested and had a hearing before Judge Bowen. His fine and costs were made light—only \$8.50; it being his first offense. That kind of outlawry has been going on here more or less for the past year, and the authorities are bound to break it up. Weinig & Thompson keep right up with the procession and sell the very best of meats at as low price as any of their competitors. They render theirlard at home and sell at only ten cents per pound. It is pure and none can find fault with it. Besides having choice meats, they sell all kinds of garden stuff as cheap, if not cheaper than their neighbors. Call and see them.

We are considering the matter of consolidating our issues of Tuesdays and Thursdays, and issue 8-page twice a week instead of two 4-page issues, and one 8-page. We shall do this to avoid the trouble of folding and mailing three issues every week. We conclude to do this it will commence with the first week in July. Our patrons will get just as much reading for their money and save something to us in the way of making-up forms, press work, etc. If we finally settle upon this plan we will announce the change next week.

This morning we saw a sickening exhibition in front of our office, by two men staggering drunk. One of them could not keep on his lips, and fell upon the sidewalk, rolled over in the wet grass and mud in the streets.

They had probably spent the night in a drunken carousal and were turned out to grass early and the morning, much to the disgust of those who saw them. Such men ought to be put where they cannot get any of the infernal stuff. What of the law that forbids saloonists selling liquor to confirmed drunkards? No attention is paid to it.

The Hattie-Bernard-Chase Company played to the largest audience ever assembled in the Star Opera House. Standing room was at a premium. Hereford the Dillon company has been quoted as having taken the premium on big houses; but that of last night was over thirty dollars greater in receipts and a number and a large number were turned away. The company had a good play and played it well. The animals that were brought on the stage, dogs, bears and reindeers attracted great attention. Mrs. Chase is certainly a charming actress and is well supported. On account of some trouble about getting their car attached to the freight so as to reach Marinette in time for to-night, they announced that they would appear here again this evening; but the arrangement was finally made and they left last night. They will probably return here later in the season and of course will be well patronized when they do.

The farming capacity of the United States is not one-half developed.

The common verdict of coroner's juries "death from heart failure" is the simplest possible way of acknowledging ignorance.

The productive capabilities of every acre of wheat and corn under cultivation at present could doubtless be considerably increased by better farming.

This law of harmony between work and rest, when fully obeyed, not only maintains strength but develops it.

IS THE art of oratory declining in our country? It seems to be apparent to us that whether it is or not, examples of eloquence in oratory are much less frequent than they used to be.

THE plan is to be commended not only because no such proposed exhibition of the arts of childhood has ever yet been made, but because it exhibits many practical and educational methods which merit attention.

A Welcome Guest. When baby comes! The earth will smile, and with her spring-time airs, beguile.

Curious Coins. Numismatists and coin collectors have interesting objects of search in two coins which belong to the French Republic and the Second Empire.

This contradictory coin is of interest to others than numismatists, for it symbolizes in a striking way the many sudden changes which have taken place in French politics in the past century.

With the other coin a singular story is connected. While Louis Napoleon was "Prince-President," and just before he made himself Emperor, a decree was issued ordering a five-franc silver-piece to be coined bearing his image.

The dies were made, and one coin was struck off as a sample and sent to the Prince-President for approval.

The work was stopped, and the image deprived of its undignified look; but the two other coins that had already been struck off were not destroyed, and are now regarded as of great value.

The Children's Palace. The world's fair will be a wonderland if only the plans that the committees have already adopted are to be carried into effect.

The cold, dreary waters of the lagoons of Jackson park are being transformed into grand canals, and these waters are to be illuminated, and out of them the airy art palaces will lift their wings, as from a new Venice.

The Artec palace, the Temple of the Sun, and the historic buildings that represent poetic periods of Latin America have the same charm of Oriental face, of Aladdin and fairy-land.

A hero in humble life was recognized in New York lately by the gift of a gold medal. He richly deserved it, a fact that appears in this record of his deeds, published in the Christian at Work.

At a window in one of the upper stories was gathered a group of men, and among them a man in a white coat, walking, perhaps to die to-day.

At the next window, in an adjoining building, appeared a segment of our patrol. The discussion was too great to be held in the street, so the men in white came down, raising one arm upon the sill and overlooking his leg around a telephone wire.

Shouting to him to wait and he would save him, Mr. Vaughan rushed to the street, and calling upon his comrades to follow, ascended to the roof of another adjoining building.

Mr. Vaughan was presented with a gold medal commemorating his heroism. And he richly deserved it. He was a true hero, and none the less so that he performed his deeds in the line of his duty.

Emerson's saying, that a boy is the true Democrat, was illustrated by the adventure of a Maine sailor lad. He was at Christiania, and made up his mind that he would see the celebrated Swedish King, Oscar.

The party were the King and his retinue. Seeing the disturbance, a gentleman stepped forward and asked what was the matter.

"Well," answered the gentleman, in perfect English, "you have seen him. I am the King." He gave each boy several coins as souvenirs of the visit.

"From Maine," was the reply. "I thought I knew him. You ask him if he ever met with a boy by the name of Jack Brascomb, who served on board the Lena."

The Governor at once came forward and greeted his old shipmate, who thirty years before had trembled in the presence of royalty.

Large figures sometimes tell startling stories. Let those who are fond of working over statistics see what they make of this.

In the year ended June 30, 1901, a tax was paid to the United States on more than eighty-eight million gallons of distilled spirits made in the country, and a duty was paid on a million gallons more imported from abroad.

Not far from six quarts of fiery spirit for every man, woman and child in the United States.

That is, twice as much in money. How much did it cost them in physical and moral degradation, in the loss of self-respect and the respect of others, figures do not tell.

Miss Mathilde Wergeland of Norway has written what is described as an excellent treatise on the right of succession according to old Norse law.

IN PERSIAN HAREMS.

HOW THE LADIES OF THE COURT DRESS AND LIVE.

To the untrodden Persia is a name which recalls regally some wonderful tales from that classic fairy realm of the "Thousand and One Nights."

The lover of bible history will think of the beautiful Esther who replaced haughty Vashti in the favor of the ruler of ancient Persia.

But the traveler of to-day, lacking the luxurious accommodations of cosmopolitan civilization, will be inclined to depreciate Persia's fame for luxury.

The palace of Pataly Shah, in the city of Teheran, is one of the most interesting to the visitor. This ruler, who came to the throne in 1797, was an intelligent and wise Prince in his youth.

Pataly Shah, the successor of Aga Mohammed, was of mean appearance and effeminate in manner.

His favorite recreation, the Nugaristan, is the finest. It is built in the shape of a Greek cross, with windows of colored glass at the extremity of each of its arms.

SOUTHERN OUTRAGES
 Full-page in the East Coast of a Great Majority of Times.

Mr. Hill of Florida talks very sensibly concerning the outrages upon colored citizens who reside in the southern states. The outrages are crimes, and crimes of a very cowardly and cruel sort. They are committed by the cowardly fabricators of the south, and by the northern side of the south, in connection of them. The fabricators are to the effect that the southern negro of the male kind is a murderer and a rapist by nature, and that a prospect of the ordinary requirements of living according to the laws of life and life's improvement, are not sufficient to deter him from enjoyment of his favorite vices. There are some southern politicians whose fabrications will not be repeated, for there is not a newspaper published in the south that has not some venomous and frequent testimony to the almost infinite magnitude of the outrages in the hour of its appearance. There was a time when the negro race would have depopulated the south of whites. During all this time what the south calls its "nobility," but what the world calls its magnanimity, was evidence. The southern negro often protected the southern white woman when other protectors she had none. History has written it down. Southern historians have written it down. Jeff Davis has testified this. If the southern negro were not a voter he would not be mentioned by southern white men. This is the whole truth of the matter. Negroes are lynched in the south, partly to terrify the colored race, but quite as much to keep warm the cruel fires of race hatred among the large class of ignorant whites. Every lynching of a negro diverts the attention of the great tar-paping body of southern voters from the questions of finance, and concentrates it on the bugbear of "negro supremacy." Politics in the section of nine out of every ten cases of southern outrages upon negroes.

But one crime never justifies another. Mr. Parker protests against the foolish advice of some colored residents of the north, that their southern brethren should retaliate with dynamite upon their white oppressors. The southern colored people must "suffer and be strong" for awhile longer. The end of their oppression is not far off. It took years to educate the nation to a knowledge that slavery was a vicious folly. But the years old educate it to that point. They will educate it to the point of demanding that human life, white or black, shall be as safe in Mississippi as in Maine, and that votes shall be cast as freely and counted as fairly in the one state as in the other. God and time never fail to redress wrongs. Patience and the press will bring justice to pass. The true policy of the southern negroes is to make their wrongs known, to agitate for reform by constant, truthful and calmly stated stories of the murders and main-

THE LARGER HOPE.
 Lady Henry Somerset, daughter of the Duke of Devonshire, is the happy country of the larger hope. The phrase rather suggests that Lady Somerset had been talking with Mr. Cleveland during her travels in the United States.—New York Press.

Bank's Paper Muzzles.
 The youthful vitality of the Cleveland boom is fast being muzzled. The South Carolina Democrats have jumped on it with both feet, and there is now being in the house of Bank's paper.—Ohio State Journal.

Five Democratic Leaders.
 Five men—Cleveland, Palmer, Gray, Egan and Hill—are likely to decide votes in the Chicago convention, but not one of them could carry his own state in the election.—St. Louis Globe-Democrat.

A Straight Tip.
 The Democratic presidential candidate, whoever he may be, will be too heavily handicapped to win. This is a straight tip.—New York Recorder.

Fifer Hill "Get There."
 Governor Fifer is very popular with the workmen of the state, and they will roll up a big vote for him.—Waukegan (Ill.) Gazette.

FLOWERS FADED BOOM.
 He sacrificed his chances by subservience to the Boones.

The news comes from Albany that the foundations of a Fifer, presidential boom are being laid at the capital and that Mr. Hill, at the proper time, will make him his political legatee. The report is in all probability true. Senator Hill must see by this time what is as plain as daylight to every one in the country—that he is out of the race. Some votes will probably be cast for him on the first ballot—that is, if he allows his name to go before the convention at all—but after the first show of hands he will weaken on every roll call until he drops out altogether. The fact that Mr. Fifer carried the state last fall by a plurality of nearly 50,000 is pointed to as a strong argument in his favor. There is nothing in it. Mr. Fifer would be one of the very weakest candidates that could be nominated. The confidence of the respectable members of his own party, which he enjoyed six months ago, he has forfeited by his subservience to Croker, McLaughlin, Murphy and Sheehan. At their command he has signed bills he should have vetoed, and he has otherwise totally ignored the interests of the masses. The signing of the Hackleberry railroad bill was an outrage. He never raised a hand to pass the anti-telephone bill demanded by the board of trade and transportation and the leading business men of New York and Brooklyn. Mr. Fifer had a great chance, but he has thrown it away.—New York Recorder.

THE WEEKLY PIONEER.

A Weekly Paper published in New York City, at No. 107 Nassau Street, between Broadway and Pine Street, on Wednesdays, at the Pioneer Office, No. 107 Nassau Street, between Broadway and Pine Street, at the rate of \$1.00 per Annum in Advance, or \$5.00 per Annum in Advance, or \$1.00 per Copy.

The next window, in an adjoining building, appeared a group of our people. The window was too good to be lost. Without hesitation he threw himself down, resting one arm upon the sill and entraining his leg around a telephone wire, fortunately conveniently placed; with his other arm, one by one he conducted this group of three over his protruding body, as a bridge, to the window of safety.

The work was not yet done. Ascending to the roof he discovered a man standing upon the sill of a window in another portion of the house, doubting whether to meet death by jumping or wait to be overtaken by the fire. Summoning him to wait and he would see him, Mr. Vaughan rushed to the street, and calling upon his comrades to follow ascended to the roof of another adjoining building; hastily throwing off his coat, his companions holding him by his legs, he threw himself head downward over the cornice, and with the assistance raised this man of over 200 pounds in weight to the roof. The rescue was completed, these lives were saved.

Mr. Vaughan was presented with a gold medal commemorating his heroism. And he richly deserved it. He was a true hero, and none the less so that he performed his deeds in the line of his duty—Christian at Work.

Pound Fishing for Sculp.
Late in April great schools of porgies ran on the southern New England coast, and for several weeks all the fishermen from Stonington to Newport have the liveliest kind of work making their great ponds on the wild shore. The fish usually appear first in Rhode Island waters, in which state they are called sculp, and then the news is passed along shore to the Connecticut fishermen. At once the latter begin to set their ponds, for no time is to be lost if money is to be made in sculp fishing. They erect a netted fence from the strand straight into the ocean for many hundred rods, and at the end of the fence at great intervals along the strand, in which the fish are captured.

A pond is a big and costly thing and one of \$1,500 to \$2,500. In the height of the season 100 or more barrels of sculp are taken daily from each one of the ponds along the Connecticut and Rhode Island shores. In two weeks' fishing at Stonington, a few miles east of Watch Hill, Captain Andrew Leghorn took over 1,000 barrels of sculp and his traps. Most other pondmen take but almost equally good luck. The fish are sold mainly in New York, and in the rush of the season not less than 100 barrels of porgies are shipped from each night by the big sound boats from Stonington.

At first the fish fetch twelve dollars a barrel, but the price drops rapidly as the fish become plentiful. Often there is a night in the market, and then the price in the New York market is \$2.50 per barrel to pay the expenses of the fishermen—Or. New York Sun.

The Old Love Was the New.
Last evening at the residence of the late John, south of Crawfordville, occurred the marriage of A. B. Rush, a widower of about sixty years, and a resident of Missouri, to Miss Emma Branch, not many years the bridegroom's junior. The couple were devoted lovers many years ago near Alamo, but being separated by a quarrel Mr. Rush married another girl. His wife died last year and he lost no time in returning to Missouri, where he had located, and retaining his attentions to his old love, who had remained single and who was very happy to renew the old acquaintance. Mr. and Mrs. Rush will leave for New York for Missouri, where the bridegroom has married children residing in St. Louis.

A Great Storm at Sea.
The British ship Berceon, which returned to the Cape Horn to England, encountered a remarkable but not unusual storm on sea, viz., a storm of dust. Crossing the equator she fell into a violent trade wind, and when about 60 miles west of the Cape de Verde islands, the nearest land, the vessel's sails and rigging were chafed and yellow or saffron color, scarcely perceptible on or near the deck, but prominent in the highest parts of the rigging, and the sails appeared "tanned."

An Expensive Plaything.
A great owned by a New York family of expensive playthings. The owner of this plaything, a \$400 diamond watch, was advertised for it, and a valuable reward for its return, was found playing with it on the street. The reward or not the papers will state.—Harper's Young People.

A Little Girl's Experience in a Light-house.
Mr. and Mrs. Loren Trescott are keepers of the Gov. Lighthouse at Sand Beach, Mich., and are blessed with a daughter four years old. Last April she was taken down with the Measles, followed with a dreadful Cough and turning into a Fever. Doctors at home and at Detroit treated her, but she grew worse rapidly, until she was a mere "handful of bones." Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured. HORSE-CAR ETIQUETTE.

The Young Man Who Hires the Horse Car... The young man who has drilled himself and been drilled by his dancing school teacher in the proper ways of entering and leaving a room...

Perhaps he has been the fortunate possessor of a mother or a sister who has accompanied him often enough on his horse-car trips...

He usually gets the girl on the car all right. Sometimes when the car is crowded, he is bold enough to politely request several wide-spreading passengers to move closer to gether and "make a seat" for his companion.

Then when he pays the fare he does not always have the change at hand, but he usually has to unbutton his overcoat and descend to the depth of his trousers pocket to find the needed coin.

Meanwhile the girl if she is young looks the other way and tries to appear unconcerned. If she is an older woman she does not care.

By and by the car fills up and some one is obliged to stand. The well-trained young man has the knack of rising at just the right moment. His right hand is at precisely the correct angle and yielding his seat with a manner that certainly ought to call forth an expression of thanks—though it doesn't always.

The untrained young man, on the other hand, sometimes gets his seat because he does not know how to give it up or perhaps he cherishes the boor's belief that it is not worth while to stand for the sake of a woman, when it is an even chance whether or not she thanks him.

Even if he rises, it is in a weary, perfunctory fashion. He nudges the woman to attract her attention, does not lift his hat or words of acknowledgment to her or to the salute of the man who accompanies her any more than he would uncover his head in response to the courtesy of a stranger who gave a seat to his companion.

There are several different ways in which a man signifies his desire to leave a horse car. Sometimes he makes a wild rush for the door, stumbling over the feet and above it, makes a helpless passenger, and waits on the platform holding the door open until the car comes to a standstill so that the woman with him may descend safely.

Again, he signals the conductor from his seat and when the car stops stands aside to let his companion make her way out and get off unassisted.

It is a boon for which she may thank the gods when he notifies the conductor at the right moment, times his exit so as to reach the platform just as the car stops and gets to the ground in shape to aid her in her descent.

The Hired Man's Time. A queer old couple got off the cars in a New York depot the other day. The old lady asked her husband the time of day and he looked at his big silver watch and replied it was 3 o'clock. "But that said we'd get here about 2," she protested. "Fruit might have been late." "It wasn't quite 2 by the clock in the depot." He took out his bill's eye again. For another look, hold it up to his car to see if it was going and then suddenly exclaimed: "Oh phew! I'm an hour ahead! I've had her set for the hired man to get up by, and forgot to turn 'er back."

Emminently Fashionable. "You were at a high tea the other day I believe?" "Yes." "Was it a fashionable affair?" "O, decidedly so. It was attended by the very best people. Very select."

"Indeed?" "Yes; I know they were the very best, for they had a professional reader there, and while he was reading Anthony's notice everybody talked and laughed just as if there had been no reader there."—N. Y. Press.

From the French. In a drawing-room a matron though well-preserved lady is relating a sad tale. "Cap't you form any idea of my frightful situation? My husband gone to America, and I left five years without any news from him."

"Horrible, indeed," groaned the chorus. "This think," adds the narrator. "I could not get married again for want of a certificate of his decease."—Texas Sittings.

OUR ST. LOUIS LETTER.

Comp. About Secretary Blinn—The Annual Meeting Planned for... Secretary Blinn, the Secretary of the American Protective League...

The following contest are now at work. The building committee of the Catholic church have secured a fine Ladies' gold watch, 18k, gold filled with a diamond set in case which bids well to the jewelery that carries it off. The contest is on Misses May Black, of this place and Malvina Difour of Thompson. Messrs. Geo. W. Gray and Henry Deloria are the contestants for a gold-headed cane. The above parties have a wide circle of friends and no doubt the race will be an interesting one.

A love is one that is driven in a carriage of doubt, hope and desire, and fluctuates between hope and despair; the above is no more with the late favor of the flock. Mr. Freddie Deloria, of Garden, was united in marriage last Monday morning to Miss E. Gibbs, of Vans Harbor, at the Catholic church at 6 o'clock. With a few well chosen and impressive words by the good Rev. Father Pola, the young couple were made one and launched out on the ocean of life. Only the nearest relatives witnessed the marriage. Amid many will wishes the happy one departed at 8 o'clock, a. m., on the steamer Welcome to visit friends at Negaunee. The writer extends congratulations.

The Battle Creek Moon says, that this has been a remarkably lucky year for mosquito farming. Any section of the state that has heretofore been short on the mosquito crop has no cause to complain this year. The mosquitoes of 1902 are also larger than ordinary, and judging from their weight as they drop on your forehead in the middle of the night many of them weigh a pound, but just how many has not yet been decided by those who amuse themselves with figures and computations. The lung power of this persistent collection is also equal to the size of their bills. Two of them in a closed bed room will drive a person distracted with their infernal din. There are no points in favor of the mosquito, except those he presents himself, and he usually carries them away with him. Many people agree that the world would be just as happy without the mosquito and no one

Mrs. Payne wishes to announce to the people of Manistique and vicinity that she is ready to serve them with the best of ice-cream. Give her a call. Elk street, between Cedar and River.

The "Michigan Union" the state organ has this to say of the recent raid on the bill boards of Manistique:

It seems after repeated agragations and unheeded petitions and protests on the part of prominent citizens and ladies, these women sallied forth on Saturday evening, May 21st, in large numbers, and tore from bulletin boards the indecent pictures and ads. of an immoral exhibition soon to appear. What they could not tear off they defaced with red paint."

The large number of women recorded above were counted here several times and there were only four of them; the only petition ever gotten up and circulated was the one that was circulated two days after the raid had painted the boards. The prominent citizens had not even looked at the bill boards until after the "large" number of ladies had made them transparent with some kind of paint. That paper should be a little more careful about the sources from which they gather their information.

LANSING, Mich.—The June crop report shows the condition of wheat in the southern counties to be 91 per cent; central, 88; northern, 100; average, 92. The condition in southern counties is better than for any year since 1885. During May it is reported farmers marketed 1,523,005 bushels. For the ten months from August to May 49 per cent of the estimated crop of 1891 is reported marketed.

The excessive rainfall has reduced the corn-plant average for the state to 33 per cent. Barley and oats are 12 per cent below the average. Their condition for the state is 93 per cent. In the southern counties the condition of pastures and meadows is 96 per cent, while in the central it is 97. This year's cloverseed sown is 98 per cent in the southern and 101 in central counties.

The apple and peach crop will be better than for six years; the former 102 per cent, the latter 95 per cent of an average crop.
