

FEMINE FANCIES.

Miss Lucy Stone, the champion of equal rights for women, is now eighty years of age and is younger in appearance than many women of sixty.

Miss Kate Mansfield, the lady who is recovering herself so much on behalf of the poor of Liberia, has been presented by Queen Victoria with a handsome pearl brooch.

Miss Thomas Gilroy, wife of New York's new mayor, has a passion for chess, and has won a collection of chess coins which she wears on her fingers.

Miss Adele Cooper, whose essay on "The Danger of the Emancipation of Women" was given at the meeting of the Society for the Education of the Deaf, has been elected a member of the Society.

Florence Nightingale, the famous nurse, is seventy-two years old. She takes her baptismal name from the Italian city in which she was born.

Miss Letitia Cook, one of the leading actresses of San Francisco, has been given charge of the deputation at Stanford university. She will devote a large portion of her time to the large practice not permitting her to give more.

Lady Brooke's latest feat is a Shakespeare garden, in which there is to be planted every flower and shrub named by the great dramatist in his works.

Lady Booth, General Booth's youngest daughter, is about to go to India to be at the head of the work among the women of that dark land.

Electroplating has been applied in an ingenious and effective manner for the preservation of brass from rust.

There are chicken factories in New England that are turning out thousands of chickens every week more efficiently than by the old method.

The blue color of the sky is probably merely the color of the atmosphere, and is not due to any reflection of light.

An electric lighting plant, the type being built at present, is a self-contained unit, and is a self-contained unit.

Since the Belgian government has ordered the telephone business all operations are suspended.

The presence of M. Bonnier on the ground of plants and trees under the influence of the electric light has led to the conclusion that the electric light is decidedly less effective in promoting vegetation than solar light.

Icebergs sometimes last for 300 years. We have one paper to every 1,000 inhabitants. When tea was first brought to England, the leaves were eaten.

One-half the wealth of England is in possession of 1,000 individuals. The British museum has thirty-two miles of shelves filled with books.

The first person in the United States to make a clear night of light can be seen at a greater distance than a white light, but on a dark night the reverse is the case.

Among the students of the University of Michigan are Messrs. Tushnet, Green-Rosey, and Miss Annie Rosey.

THE SEMI-WEEKLY PIONEER

Several Democrats have said to us that they are willing to let the post-office remain where it is. Oh, yes, that is not according to latter-day Democratic theory. The present post-office is a Republican from bottom to top.

A snappish member, consisting of a shank with curved points, will set as tarbs when any attempt is made to withdraw the advice.

An exp-rien politician says: "The Democratic party has a white elephant on its hands. It has dickered with all kinds of men, with many flaws. It has loughed the party's party in the south and fussed with it in the west. It has dickered for good money to the eastern states and promised five silver to the western states. To the south it has promised free trade to the north something else. It has arrage the employer against the employ, the farmer against the farmer. The question is, how will the party remember the different and diametrically opposite views it has dickered with? We should remember that 'a divide house must fall.'"

On the bank of the River, Naha, between Birgen and Galdert, there is a large capable of regating a section 17 different times.

George C. Devereux, of Charlotte, N. C., has a trump which he claims to be the exact shape of an elephant, with ear-trunk, legs and tail.

The Testimonials. Published on behalf of Hood's Sarsaparilla, a review of it has sortly your confidence, and it has come from your best and most trusted neighbors. They state only the simple facts in regard to what Hood's Sarsaparilla has done, always within truth and reason.

Constipation, and all troubles with the digestive organs and the liver, are cured by Hood's Pills. Unequalled as a dinner pill.

The theater hat, says an exchange, must go. It does go bless you. Go to every matinee and evening performance.

List of Licensed Letters. Remanding title proceeds of Manistique for the week ending Dec. 21, 1901. Bannist, Mr. and Mrs. Brews, Rev. Danne, John. Platt, Ass. Farrell, Andrew. Peterson, M. Kautz, Peter. Quigley, John. Larson, E. M. Rane, Alvin. McDonnell, J. J. Rodgers, John. McDonough, John. Smith, D. M. Nelson, David. Orr, William.

EPF persons calling for my of the letters will please see Advertiser. W. H. HILL, P.M. CHARLES BROOKS, Ass't.

Pronounced Hoopless, Yet saved. From a letter by Mrs. Ada E. Hurd, of Grotton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in Consumption. Your doctors gave me up saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent one above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all, eight bottles; has cured me, and thank God I am now a well and hearty woman." Trial bottles of Thompson and Palmer's Druggery regular size, 50c, and \$1.00.

Yours for the Hoopless to cure Consumption, Coughs and Colds. I gave it a trial, took in all, eight bottles; has cured me, and thank God I am now a well and hearty woman." Trial bottles of Thompson and Palmer's Druggery regular size, 50c, and \$1.00.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Latest Home-made. A machine for waging wheels. A machine for sharpening razors.

A flexible covering for water pipes to be sub-merged under rivers.

A machine that attaches trans-axle buttons as fast as you can count.

A ventilated car door made up of perforated plate in the form of a comb.

A pipe to make soap bubbles with certainty and considerable length of life.

A sewing machine provided with a level-shaped iron fastener thread.

An incandescent lamp with three independent carbon filaments connected with the same terminals.

A hitting device consisting of a coiled spring on a reel, arranged so as to operate like the throwing of a slotted skate.

A photograph album which is arranged on bearings, the whole arrangement being placed upon a permanent stand.

A pneumatic tube door-bell consisting of a level that can be drawn downward and so on, pumping operates a small air pump.

A device for vehicle by which the driver may be easily detached by the driver whenever the vehicle becomes unmanageable.

A hay saver consisting of a thimble-shaped device which catches the hay to insert his hand into a manager but does not permit any lateral movement of it.

Caspidors arranged in ascending by a fluting pipe, and connected a lever which turns on the water and closes the cup-locks at the same moment.

Black, the inventor, said of writing two novels, one in a week and the other in a month, he is so quick at the pen that he has not time to write the titles of the novels.

Miss Caroline, the young lady who was interested in the task of writing the Columbia one, is about to publish a book of verse, the title "Valence and Other Poems."
