The Army Bill. Is not the one that worries us, but the other. It is not the one that worries us, but the other. It is not the one that worries us, but the other. It is not the one that worries us, but the other.

A Good Thing to Keep in Hand. From the Troy (Knox) Chief. Some years ago we were very much subject to several cases of cholera morbus, and now when we feel any of the symptoms that usually prevail there is almost such a sickness of the stomach, acid, diarrhea, etc., we become scared. We have found Chamberlain's Colic, Cholera and Diarrhoea Remedy in such cases, and always keep it about. We are not writing this to put testimony on it, but to our friends who know well it is good to keep handy in the house.

Dr. A. E. Easlick must have a set- tlement with all of us who are indebted to him at once. Do not fail to attend to this matter promptly.

Two good houses on Garden avenue, one a five room and the other four, will be rented cheap. Rent monthly in advance. Apply to THOMPSON COPY.

Wood for Sale. The very best of hard wood green or dry, 18 inches long can be bought at W. H. Hill, at the Manistique Board and Shingle Yard. Delivered in any quanti- ties required. First come, first served.

Several merchants are now doing a strictly cash business, being driven to it by the closeness of the money market. They have to pay cash for their goods.

at W. H. Hill, at the Manistique Board
and Shingle Yard. Delivered in any quanti-
ties required. First come, first served.

Several merchants are now
doing a strictly cash business, being
driven to it by the closeness of the
money market. They have to pay
cash for their goods.

TOWN AND COUNTRY.

Send your children to school.
Market well supplied with fruits of
all kinds.
Use great care in the building of
chimneys.

The Social Club leave this afternoon
for the coast.
Several boats loaded at South Manis-
tique this week.
The C. L. Company are selling many
goods these days.

An adjourned term of court will be
held November 2d.
Masquerade at the Opera House
next Friday night.

The John Fry and consort left
Thursday morning.
Labor day celebrations were again
successful wherever held.

Business at the docks has been quite
lively for a few days.
Attended the entertainment at the
Opera House this evening.

A. C. Carpenter, at Sney, will receive
subscriptions for this paper.
The dance at the Lakeside Hall Fri-
day night was well attended.

Several persons were admitted to
full citizenship by the court.
Ground was broke for the Rose
Building Thursday afternoon.

Reed the new advertisement of Rose
Brew on Hodge's is greatly improved.

Lawyer Foster is shortly improving
his lot in the Oakland addition.
Mosher is now getting up the roof
timber on the Bluewood Block.

Hurry up your out-door work as the
cold weather will soon be upon us.
The Hunter is now run twice a week
between here and Point St. Ignace.

Miller and Drew were each sentenced
to serve 90 days labor and hard work.
A few more weddings yet to be cele-
brated here before the winter holidays.

The shipping of lumber from Thomp-
son continues steadily along, as usual.
Two chimneys have been here this
week and seemed to find plenty to
do.

A cow belonging to John Quirk was
choked with a potato and had to be
killed.

The boys have a nice time with their
bicycles, especially on the smooth
streets.

Court adjourned Thursday evening
and Judge Steere left for home about
midnight.

The dance at the Opera House Thurs-
day night was reported a very enjoy-
able affair.

It encourages both teacher and
scholars to visit them at least once
each week. Try it.

The jury was discharged Wednesday
afternoon, having discharged 70 days
service here at court.

Quite a number of grass widows in
town—only temporary however—their
husbands being in camp.

The work on the front of the Blum-
son block will soon be in place, which
will add greatly to its beauty.

There will be a meeting of the Manis-
tique Club at the office of Dr.
Hafford, Thursday evening.

Capt. Cobby and Winger are kept
very busy attending to the interests
of the Boott Fishing Company.

Bring in a load of wood if you want
it to keep warm.
Uniform Bank of M. P. will meet
for drill next Wednesday night.
Julius Petersen put up again in front
of his place of business yesterday.

Parties at Cooke can have the Pro-
cess by leaving their names with Nor-
man McDonald.
Dr. Hafford will leave for Grand
Rapids to-morrow to attend the State
meeting of the Maculleeans.

Hampton's specials are in our midst
these days. You want find out who they
are until they get ready to make a
run.

The Steam Barge Weston, loading at
Cooke's Point, Lake Superior, caught
fire Wednesday night and was badly
damaged. Loss reported at \$10,000—
fully insured.

Make your application at once if
you want to go to Chicago on the
Hull. She will leave here on the 12th.
Face only \$23 round trip and board
for all the time.

Business seems to brighten; but nothing
like "boom" times need be expected.
There is some definite reason for
this. Congress to meet meddles with the
tariff question. Free Trade will not
bring about the change.

Dr. Ellis, the Dentist, is doing con-
siderable work in his line, but is wil-
ling to do all that comes to him. Re-
sponds to his office is in the 2d
story of the McKinney block. Ex-
traordinary from the north side.

Coal is being unloaded from the
Transit and then it will be loaded
with lumber for Chicago. The Al-
gonquin will be back here early next
week to load and work that and an-
other large to the Windy City.

Whether the case of the Boott
building, for the value of a
acre which had been offered to go
to the city and prove a total wreck,
submitted to a jury by the court and
they decided in favor of the plaintiff.

The "Young Man's Band," of Manis-
tique are coming to the front as first-
class musicians. They are bound to
"do their thing" and should be encour-
aged. They are mostly of Manistique
and deserve our praise for the progress
they have made.

If you want the position of entre-
preneur from any camp this winter
please call and we will conclude ar-
rangements. We want to leave here
with all the boys. Of course we expect
to hear quite often from "Shakespeare"
and others, already "listed."

There are quite a number of men in
this county, that, if they would con-
sult their best interest would have
to do with the gold certificate at Me-
nonnie and spend a month under
the penitentiary walls. They are doing
a noble work, quickly and in order.

The Street Commissioner is having
10 inch flume or box put in the ditch
across Oak street, near the Commercial
House, in place of the 10 inch one
put in last year. Many people claim
that even that will not carry off the
fall leaves, but that is the opinion of the
spring of the year, but time will tell.

Considerable improvement has been
made this season on the road between
the two Manistiques, and still more is
required. Those shavings is only tem-
porary relief. What is wanted is
stone, rough to bridge over the sand
and later on concrete to be put on
top. This built will last long enough
to pay for the trouble.

Dr. Rainie now has his hospital
room for use and no man should
think of going to the woods this win-
ter without first buying a ticket. It
is equally true that people are in dan-
ger of getting sick or hurt without go-
ing to the woods, and in case they do
a ticket would be a grand thing to
have in his possession.

The chief term of court held here
this week hardly caused a ripple of ex-
citement. How unlike the sessions
held here several years ago when all
Sney and the "rest of mankind" were
summoned here and remained for at
least two weeks, and after they went
home Manistique would play the fare-
another week. We enjoy the change
of program.

The Manistique attorneys get along
nicely in court here now; everything
gentle and pleasant, and all parties
feel now that their business is in
good hands. The same can be said of
the outside attorneys that had labored
in the court this week. This is the
way we like to see our court mat-
ters attended to, and litigants, as well
as our officers, feel all the better for
it.

The election entertainment to
be given at the Opera House this eve-
ning by Miss Kidd and her class should
have the effect to call a large au-
dience. Miss K. has put these little
folks through a thorough drill course,
and believes their performances will
please the many good men and women
present, by those who have volun-
teered to assist her will interest this
people.

Parwell Reception.
The members of the M. E. Church
will tender Elder and Mrs. Polkinhorn
a farewell Reception in Old Feltens
Hall on Friday evening, Sept. 14th.
A concert in connection is extended to
all to attend.

Mrs. W. O. TURKIN,
Sec. of L. A. B.
The Ladies Aid Society of the First
Baptist Church will meet with Mrs.
Alex. Davidson next Wednesday after-
noon. There will be work for all.

Closing out Sale.
As we are closing out our entire stock of
groceries, provision, woodware etc., re-
ardless of cost for cash, now is your
opportunity to get groceries for a
small outlay of money.

Respectfully,
KLAUSTAD, LARSON & CO.

Delivery clerks have been busy the
past week delivering goods. Our peo-
ple make large orders, the one part of
the month for groceries and provisions,
and as a consequence the clerks are
kept quite busy.

Other towns have prosperous Busi-
ness Men's Association; but there is
such organization here. Several
years ago one was started but it died
in early youth and went neglecting to
pay bills contracted at its birth. Such
societies can do a vast amount of good
if rightly managed.

Wednesday evening the members of
the Epworth League made a raid upon
the Rev. S. Polkinhorn and family,
and took them by surprise. The league
was crowded with kind and approv-
ing friends, who made things merry
until quite late in the evening. They
all report a pleasant time.

Now that our schools have started
up in good shape, much depends upon
the parents as to what the success will
be. They should send their children
to school and do not encourage the
young people in their work, neglect to
attend school regularly, etc., then we cannot
expect a year of prosperity. It is a
matter in which all should be interest-
ed. There is a question of duty and
then act. Above all else, that your
children are regular in their attend-
ance.

Beef Went Up.
Thursday evening some boys on
the west side were chasing a bull and
to get out of the way his impetu-
osity sent him to the top of a root cellar
and from that to the shed part of Mr.
Van Marter's house, and from there he
ascended to the very peak thereof,
where he stood definitely for a long
time. After awhile he misadventur-
ously slid down on his hind quarters
and slid down the steepest part thereof.
He seemed to like the fun, for as soon
as he got on his feet again he went
back to his high perch. A J. Van
Marter had some lively hot dogs at
the place so he did not call at the man-
ner in which he did it. Our reporter said
Mr. Bull drew a large and excited au-
dience, and it was the most laughable
athletic performance ever brought
into town. Amusement free—"kicks"
half price.

A former citizen of Manistique, a
New Yorker by birth, now of Wisconsin
writes some of his misadings while
telling us about his daily work.
The "from morning to night" with
the sun and the sunlight is being
from behind the trees you will see
the innocent Vray State rushing with
a jag in one hand a warrant in the
other, then to change his dress (to
his good name) for molasses and
black (and) as you pass his house
a little later, and catch the sweet aror
of the festive flapping, as it is
being manipulated by the detestable
housewife on the hot grills as she
is in a low submarine vein—Miss
He wanted to the skies on lofty levels
of ease, you suddenly halt and muse,
why do people leave this land of the
"best of all possible worlds" for the
"best of all possible worlds" of Wisconsin?

The case of John Wilson against the
railroad company for the loss of his
horse through defect in what availed
outer guards, which does not prevent
stock from getting on the track. That
style of "guilt" having been approved
by the court, under the law, of
course the case was taken from the
hands of the jury and decided against
the plaintiff. We learn that this is to
be made a test case and taken to the
supreme court. It is an important
matter, and several more cases are
dependent on the decision in this.

The railroad company have put in
new guards in accordance with the
order. Railroad Commissioner, but no
one believes them to be the best. Last
about stock getting on to the track.
Plenty of evidence right here that stock
have gone over these guards without
any difficulty whatever. They won't
do and the sooner the commissioners
cancel some other plan, the better.

In view of what Hood's Saranipal
has done for other cases, it is reason-
able to believe that it will also be
of benefit to you?

OVER THE WIRE.

LANSING, Mich., Sept. 5.—The dis-
solution of immigrants and inhibition
of baggage in Michigan is extended to
Sault Ste. Marie through the deci-
sion of Minneapolis St. Paul & Soud-
th Ste. Marie Railroad, was resumed to-
day. The decision of Judge Sage and
discovery of the United States Court
sustaining the authority of the state
has led to this result. All immigrants
now entering Michigan through Cana-
da will be inspected in accordance with
the rules of the state board of health.

WASHINGTON, Sept. 5.—A bill has
been prepared and will be introduced
in the senate and house simultaneously
by granting a disability pension to
government employes and providing a
pension for injuries received in the
line of duty. The latter item of the
measure goes out of the late Fort's
legislative disaster, which drew atten-
tion to the whole subject. The bill
provides pension for government em-
ployes injured while in its service, or
retired with an honorable record
through sickness or old age or other
disability after twenty years service.

DETROIT, Mich., Sept. 6.—A double
murder occurred here last night. John
Simmons' temperance saloon at the
road from Hamlet to Calumet, about
four miles west from the latter place.
The victims were John Sals and Ivar
Petersen, both single, came here from
Chicago from Minn. s.

The seven-year and carted artery
was injured in both men by the stab
of a knife. Matt Hergenrover was also
dangerously stabbed but will recover.
Simmons kept an unlawful saloon
and a disreputable place. The de-
ed on July 22. He was shot by
three men who were to kill him.

VIctoria, B. C., Sept. 6.—Particulars
of the seizure of a steamer and the
massacre of the passengers and crew
by Chinese pirates have been received
by the steamship Express of China.
The steamship was the private property
of the Chinese consul at Victoria.
Twenty-four men aboard were mur-
dered and fifteen seriously injured and
\$20,000 fell into the hands of the
pirates. A Mr. Hunter of Brooklyn
was among the killed. At Victoria
two American women were carried
off by the pirates. Eighteen pas-
sengers who escaped the murderous as-
sault of the pirates over crowded one
of the ship's boats and were drowned.

NEW YORK, Sept. 6.—Banks and
trust companies are looking for cen-
sures by the state of the way they con-
tempt to take money on time at 10
percent on prime dividend paying
stocks. This will be seen that the
position of the borrower and lender
has reversed completely in the past
few days. Movement at 8 and 12
percent and more business is reported
at these rates. The sub-treasury paid
its debit balance of \$2,820,000 on the
clearing house principally in gold. The
loan committee of the clearing house
received \$235,000 extra from the
clearing \$300,000. The amount out-
standing is \$28,015,000. The market
for sterling exchange is firm and high-
er for long bills and steady for short
and cable transfers. The market is
influenced by a further reduction in
private discounts in London.

BALTIMORE, Md., Sept. 6.—It
now turns out that Mahoney the
man who eloped with Mary Scudder,
was married to her at Hickory Corners.
When securing the license she swore
that she was three years young, and
she told the minister the color of
the stone. The sister of the groom was
present at the wedding, and had to
support the girl when she stood up to
be married. The girl wrote her parents
the next day telling them of the
step she had taken and informing
them that it was necessary for her to
get married in order to hide herself.
The girl was only about 18 years old,
and a handsome, intelligent young
woman, who had many admirers among
the young men in the neighborhood,
and rumor has it that she had pro-
posed her hand to one of the farmer
boys near her home. Mahoney is a
man of little education.

The National Banks.
The official statement of the Comptroller
of the Currency concerning the
operations of the financial panic upon
the national banks is a matter of interest.
It shows that 145 national banks
have suspended since January 1, 1893.
Of the number one has gone into vol-
untary liquidation, 57 are in the
hands of receivers, 92 are in charge of
banks containing with good prospects
of resuming and 84 which have names,
with a total capital stock of \$100,
000 have actually resumed. This is a
most encouraging showing. It con-
firms the belief that most of the recent
bank failures were those of weak and
mismanaged institutions. There are
really sound and solvent concerns are
containing business. And do not fail
to note that their resumption is help-
ing to restore public confidence and
strengthen the financial situation.

The "panic" is passing away. People
are getting over their unreasonable
fright, and the skies, as a consequence,
are brightening fast.—Ex.

Own Gold Mines and East Money. Proprietors for gold received a great success through recent events which have thrown many men out of employment. Not only have silver mines and similar ones gone to prospecting, but coalmines and iron mines have had mining experience in former years now find their knowledge of minerals of utility in the hands of those who have been thrown out of work by the closing down of mills and factories. Whenever this may be the result of additional labor devoted to gold prospecting, it is a good thing that the means of the discovery of valuable gold lands and the enrichment of individual prospectors.

Cost of Being the Great Fair. The attendance at the World's fair now exceeds 100,000 a day, and it is likely to increase rather than fall off now that the conditions are known to be so favorable. There has been a popular impression that a trip to the fair must involve a great expense. In fact, it appears to be quite as cheap as any other. The following table has been compiled to show the actual cost of a journey from New York to Chicago and return, with a six days' stay:

Table with 2 columns: Item, Cost. Includes Railroad fare round trip, Meals en route, Breakfast and dinner, Expenses on grounds, etc.

Trains Racing Through the Pine Woods. Passengers to Atlantic City on the 4 o'clock train of the Reading and Pennsylvania railroads have enjoyed many a run this summer between the two rivals. The Reading has the advantage of New Jersey, but the "Penny" has the advantage of a much quicker ferry trip, and so the two roads are pretty much on an equality. The tracks come together near Winslow Junction and from that point run side by side for almost the entire distance to Atlantic City. Both trains are one at Atlantic City at 5:15 and go rushing across the Jersey plains at a rate that delights the passengers' hearts. The engineers, it is said, have been given the tip that it is not absolutely necessary to wait until 5:15 before reaching Atlantic City, and so it has come to pass after some particularly lively races that the trains have landed their passengers around the sea three, four, and even five minutes ahead of time—Philadelphia Record.

The Baseball Season. The remarkable interest in baseball this year is causing universal comment. The position of the country is in a deplorable state, the attendance at the ball games increases rather than diminishes. It may be that our weary merchants, politicians, doctors, lawyers, schoolboys and clerks rush to the games to get away from business, mental or school work. As a money-making industry, the only places where cash seems plentiful are at the ball games and the toy shops. Most of the clubs in the major and minor leagues will make money this year, and the chances are that there will be no changes in the circuit next season. So it looks as if the club league had come to stay for another year at least.—New York Tribune

A Great Saving. The duplex and quadruplex systems of telegraphy begun by Mr. Edison in 1859 and finished after six years of work have saved in America alone the enormous sum of \$15,000,000. By the duplex system two currents of different strength were sent over the same wire, thus doubling its efficiency while the sending and receiving became possible when it was discovered that these two currents could be sent in opposite directions at the same time, thus enabling wires to transmit two simultaneous messages. Not satisfied with this, Mr. Edison is confident of still further improvements in telegraph systems.—Baltimore Times

Being the Fair in Two Days. A young man of this city who arrived here from the Columbian exposition last Wednesday announced that he "did" the fair in two days, finding "considerable" that was worth seeing. The remaining six days of his visit, which were spent in sightseeing around Chicago. Asked how he liked the Midway pleasure, he replied: "Midway pleasure? By Jove, I didn't find it at all!"—Springfield Herald

Digestion of Statesmen. Two well-known members of the Conservative party in the house of commons have entered upon a curious competition. They have arranged to leave the house tomorrow night for Southampton, there to embark on sailing yachts and proceed to circumnavigate the globe of the world.

A Last Traveler. A letter mailed in London April 7 and remailed in Hong Kong made its way to the world in the fast time of 62 days. It was sent by hand to the coast, and then by the fastest of the world's fastest ships.

The Bicycle for the English Army. The war office has taken the bicycle into consideration, owing to observations made as to its utility in military maneuvers. A large number are to be attached to each battalion. The volunteer corps of London have already incorporated the bicycle, and when they turn out and take the field of the corps they look well. As the volunteer, usually the only mounted man, cannot very well be dispatched with a message from a general's bicycle volunteer corps is very handy. The regulars, who are foreign active service, would find a body of bicyclists immensely useful, and good scouting would be done by them.—London Court Journal
