The other retaliated, and in a short time a copper-colored piece of money could be exchanged for six of the pictures. Fydel then started to get them away. Suit has been commenced by the Village of Newberry against M. J. Peters, president of the Free Silver club, for rent due for the hall in which the club held meetings during the campaign.—St. Ignace Enterprise.

We knew it would come to that. A man that was a former subscriber of THE TRIBUNE and who refused the paper after taking it several years without paying for it, canvassed Manistique for the look of the late William J. Dryan last week.

W. H. Hill was in Marinette this week. He is experiencing some difficulty in securing a suitable home in which to live. Mr. Hill has been a factor in upper peninsula politics that he will be displaced from the councils of the party. However, he will not be a resident of Wisconsin long until he will be a factor there.

One of our county officials who has a penchant for "turning out" quite early in the morning, recently broke the record for early rising a few mornings ago. He awoke with a start, and thinking that it was at least 5 o'clock, donned his apparel and proceeded to build the fire and call the hired girl. He also went to the barn and aroused his horse from a sound sleep to give him a feed. When he returned to the house he was led before the clock on the mantel and commanded to look. He did look and was dumfounded when he learned that it was only 1 o'clock. It is unnecessary to add that it was not Ed. Ashford, C. B. Messersner, Andrew Ekstrom or W. L. Loranger.

HOW GOMEZ STANDS

DUBAN GENERAL INTERVIEWED ON PROPOSED REFORMS.

Are Fighting For Independence and Will Accept Nothing Else—'Patriot' Province of Pinar del Rio Altru With Insurgents.

New York, Feb. 10.—The World publishes an interview with General Maximiano Gomez, dated Jan. 29, 1897. General Gomez says in part:

"Spain will not grant any real reform. We no longer ask concessions from her. Even were Spain's proposals born alive, nothing could tempt us to treat with her.

"We are for liberty, not for Spanish reforms. We are for Cuba, not for Spain. I am disgusted with this talk of reform. Does Spain think we have forgotten the lessons of the past?"

"Home rule in its broadest sense is independence. That is the kind of home rule we want. If you ask, would we accept home rule with a Spanish captain general, I would answer not unconditionally. No. I want nothing from Spain. We do not want her captain general or her glory, if she has any remaining, nor her care."

"Do you believe the United States is interfering with Spain?"

"I hope not. I hope not. Still, I will speak plainly and with candor. It is certain that the United States has not been our ally. If the government at Washington does anything to the effect of liberty, it favors the struggle for freedom now going on here. It has shown it, even by so much as an expression of sympathy."

"Could you materially increase the force of your army if you had plenty of arms and ammunition?"

"I could march into the province of Havana with 75,000 men in a month, I replied. General Gomez said that would mean the almost immediate freedom of Cuba, for one Cuban is as good as two Spaniards. More than that, I am convinced that with 50,000 men properly armed and equipped and supported by artillery, the Spanish army could be driven from Cuba within three months."

IN A PACIFIC PROVINCE.

Pinar del Rio Insurgents in Better Condition Than They Were.

HAVANA, via Key West, Feb. 9.—The various reports and statements of Captain General Weyler announcing the pacification of the province of Pinar del Rio are all untrue. The disappearance of the insurgents in that part of the island are far from being borne out by facts. As a matter of fact the insurgent forces in Pinar del Rio seem better off than at any previous stage of the campaign. In support of this assertion it is positively known that at least 6,000 insurgents, under well known leaders, are at present in arms in various parts of the province. In addition to this is a strong body of insurgents which seems to have mysteriously disappeared from the neighborhood of Havana. Their whereabouts is known to be among the Spanish soldiers' Camps. The friends of the insurgent intestine that a big surprise is being prepared for Captain General Weyler, when he tries to return to Havana.

REIGN OF TERROR BEGUN.

Insurgents Being Dynamic on the Outside of Havana.

While they were passing a large stone building it was blown up and 20 men were buried under its ruins. Only five were dug out alive. GETTING IT IN SHAPE.

Several Important Schedules of the New Tariff Bill Definitely Fixed.

WASHINGTON, Feb. 10.—The daily sessions of the Republican numbers of the ways and means committee, which have been in progress for about two weeks, have brought the tariff bill to a stage where the character of the measure can be somewhat gauged and where certain of the most important schedules have been definitely fixed. Four schedules have now been fairly completed, the chemical, agriculture, wines and spirits, and carbon and glass schedules. All of the rates which have been decided upon are subject to change. The last meeting was especially important of the series, for it resulted in the framing of the agricultural schedule, which was made a

Re-Enactment of the McKinley Law with few changes except on unimportant matters. The most important step in connection with the schedule was the establishment of a rate of \$3 a head on cattle more than 1 year old and of 25 cents on calves and calves valued at more than \$50 a head. The McKinley rates on other live stock, including the rate of \$5 on cattle 1 year old and under, are also fixed. The products in the agricultural schedule which are returned to the McKinley rates are breadstuffs and rice, dairy products, potatoes and starch, coffee beans and flaxseed, meats and meat products, eggs and poultry, vegetables and fruit. The demand of the farmers for the McKinley rate of \$1 a ton on salt was granted.

Three men were lost overboard from the Maine during the gale of Friday, one man was crushed to death in the Maryland, another was fatally injured and six others were so badly hurt that several may lose limbs. The cause of the accident is under investigation and is not obtainable, as the officers will say nothing. As his officers of the gales also presents a dismasted appearance. Death of C. H. Pense.

Charles H. Pense died in Cleveland, shortly after 1 o'clock Monday morning after a three weeks' illness. The immediate cause of death was paralysis. His demise was no shock to his family, for he had been looking for it, at any moment. For many years Mr. Pense had been suffering from locomotor ataxia, and went to Cleveland in December to be treated for the affliction. He was apparently much benefited and was about to leave for home when stricken with paralysis. His wife was with him several days before his death.

Charles H. Pense was born at Rochester, N. Y. Nov. 25, 1840. He came to this city in 1873 to work for Prentiss & Co. He was also employed by Boyle & Roach during the construction of the old lock. After leaving the latter firm he embarked in the general mechanical business with J. B. Seward under the firm name of Seward & Pense. At the time of Mr. Pense's death he was deputy inspector, and had filled the office creditably for four years. In 1878 he was united in marriage to Sophia A. LaLonde. His wife and five children survive him.

The death of Mr. Pense is sincerely mourned by many. He was a friend to his acquaintances, and the circle was largely one. He was active in the Masons and the Knights of Pythias. He had been in ill health for years, but bore his affliction bravely and patiently. He left a life insurance of \$7,000.

The remains arrived at noon Wednesday, and the funeral was held from St. Mary's church at 10 o'clock Thursday morning, at which Rev. Fr. J. J. Connelly officiated.—Soo News.

Mr. Ward L. Smith, of Fredericton, N. B., was troubled with chronic diarrhea over thirty years. He had become fully satisfied that it was only a question of a short time until he would have to give up. He had been treated by some of the best physicians in Europe and America but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the first dose helped him and he continued to use it until cured. For sale by A. S. Putnam & Co.
