His wife did not approve of Mr. Rowland's purchase at first, but nevertheless applied the Balm thoroughly and in an hour's time was able to go to sleep. She now applies it whenever she feels an ache or a pain and finds that it always gives relief. He says that no medicine which she had used ever did her so much good. Speaker Reed is also said to have told a party of gentlemen the other day the tariff bill would become a law on or before July 1st. Senator Hanna, President McKinley's representative on the floor of the senate, is sanguine in his opinion that the tariff bill will be approved and that this extra session can be an much sooner than most people believe. Senator Aldrich is also said to have announced that the bill would be specially passed through the senate, but quick action would be had on it in conference and that it would be approved immediately upon its presentation to the chief executive.

A Success.

The musical given under the auspices of the Ladies Aid Society of the Presbyterian church at the church parlors last Friday evening, was a pronounced success from artistic, social and financial standpoints. Every number of the program was enthusiastically received. Mrs. Pasterson responded to an encore as did also, Prof. Olson and Miss Tenn Ross. A number of articles representing musical terms were presented to the guessing ability of those present during the interim between the musical program and the serving of refreshments.

The judges, Messrs. Hill, Lefroy and Holben ascertained that Miss Zoë Kimball and Scott Brooks scored equal points. Mr. Brooks won out. The prize was a piece of sheet music. Prof. Olson handed in his card blank, and was awarded the tooby prize—a jews-harp worth 25 cents.

The piano Mrs. Babcock had ordered for use upon this occasion failed to arrive, and Mr. Cogswell kindly loaned the ladies his Mason & Hamlin piano for the evening. The net receipts were about \$25.

A Tragedy at Newberry.

About 6:30 last Sunday evening Richard Palmer, a worthless character, went to the house of Alexander Boulton, an old resident of Newberry and requested him to accompany him into Riberg's saloon, next door, saying he wanted to have a talk with him regarding some work. Boulton went with him and after taking two or three drinks Palmer asked Boulton for a job cutting shingle bolts. Boulton replied that he had already let the job. This seemed to anger Palmer, and he whipped out a long hunting knife and plunged it into Boulton's body four times, one cut in the groin severing a large artery.

Boulton fell back, and said to his son, who was present, "Tommy, I am done for," and expired. Palmer walked to the back door and threw his knife into a garbage barrel and went back in the saloon, where he sat down and waited for the arrival of the officers. Under Sheriff O'Carroll a few moments later and took the murderer to jail, where he now is.

Boulton was seventy-four years of age, had lived in Newberry fourteen years, was a hard-working, peaceable man, was highly respected by all who knew him. Palmer is fifty-two years old and served a term in the county jail recently for abusing his wife, at which he used the same knife, cutting her clothes into small strips and smashing the furniture into kindling wood. Palmer married his wife three or two years ago. He was born in Canada and came to this country when fourteen years of age.

in the Seine River Region.

We clip the following mining notes from a special dispatch from Mine Center to the Minneapolis Tribune. It may be of interest to the numerous people that have taken shares in the Seine River & Rainy Lake Exploration Co.

The entire country in and about the Seine River is rapidly filling up with people. The influx of miners has astonished even the most sanguine. Nearly every tract of land to the north of here and running towards the Ferguson and Randolph properties is taken, and by the middle of summer every 40 acres will have a shaft or two in working order. Just at present there is a demand for more stamp mills, and the number cannot begin to take care of all the ore coming out. These mines that have their own stamp mills can only do their own work, and are running night and day with three crews of men. Some of the mines and mill race on the co-operative plan, and no one is a member of the company, it is allowed to work them. In this way some of them can not get out their ore fast enough.

With the opening of navigation came the steamers from Rainy Lake and Lat Portage. They were loaded almost to the sinking point, but men would come, although the last berth was sold a few days before the ice finally went out, and men paid three times the fare to get even standing room on board the boats taking them to the Seine river country. If the force has struck the Ontario district as it has this country then there must be thousands of men within this immense territory.

While most of the men who have arrived here in the past few days are miners, there are a few who intend to get rich in other ways. The first steamer load brought several merchants with small stocks of goods, all they could get the steamer to carry on this first trip. More is coming. Prices in everything have gone up in the past week. If it were not for the river with its fish and the woods with

his game there would not be enough to eat up here. Fresh beef and other kinds of the kind are scarce here. However two steamer loads of stuff are expected very soon, and with the two months being built for the Seine river company they will soon change the condition of affairs to one of plenty.

Miners and owners of stamp mills are having hard work to get new machinery in, for the steamers are just now swamped with passengers and stocks of goods for merchants. One of the boats came in yesterday with a large load with a complete outfit for a hotel.

Gold bricks are getting plentiful, and the mines that have been worked all winter rarely fail to turn out a good-sized one every week. Some of the new mines are clearing up good gold.

The property known as J. O. 11 was recently acquired by a party of gentlemen from Duluth and Toronto. This tract lies next to the famous Randolph property, and on that account is considered very rich. In fact, that end of the country is the richest up here. The Ferguson, Randolph, Mackay, Coon, Preston and others are rich in the richest vein of pay ore that has been found in the country.

The Foley mine is clearing up every day an average of \$750. The owners expect a net profit for the season's work of about \$50,000. The total amount taken out will be about \$250,000, but the company has gone to an enormous expense in developing this mine and the little town of Foley.

W. H. KILIN, of Duluth, recently sold a 40-acre tract above the Sturgeon Falls for \$20,000. The land lies on a hill rising abruptly from the level of 700 feet. There are good leads on this property, each about 30 feet wide, and assaying \$34.50 to the ton. It is all iron ore and easily taken out. Duluth syndicates bought the land.

Speaking of the Randolph property, the property of the Seine River and Rainy Lake Exploration Co. the Tribune says:

Wilbur J. Merritt, of Duluth, is expected here very soon with a crew of men to begin the opening of the Randolph. Much interest is shown in this mine, as it has for over a year been looked upon as a veritable "gold" mine. A shaft with drifting will be sunk at once. The mine will be divided into five crews and worked for all there is in it. The first test will be made at the Little American Mills, on the United States side of the Rainy Lake River. The company has recently acquired ten other localities all of which are panning prospects.

Among the lot is the famous Swede Boys claim. Following are the number K. 450-452-405-404-470. G. 110-112-114-116-118-120-122-124-126-128-130-132-134-136-138-140-142-144-146-148-150-152-154-156-158-160-162-164-166-168-170-172-174-176-178-180-182-184-186-188-190-192-194-196-198-200-202-204-206-208-210-212-214-216-218-220-222-224-226-228-230-232-234-236-238-240-242-244-246-248-250-252-254-256-258-260-262-264-266-268-270-272-274-276-278-280-282-284-286-288-290-292-294-296-298-300-302-304-306-308-310-312-314-316-318-320-322-324-326-328-330-332-334-336-338-340-342-344-346-348-350-352-354-356-358-360-362-364-366-368-370-372-374-376-378-380-382-384-386-388-390-392-394-396-398-400-402-404-406-408-410-412-414-416-418-420-422-424-426-428-430-432-434-436-438-440-442-444-446-448-450-452-454-456-458-460-462-464-466-468-470-472-474-476-478-480-482-484-486-488-490-492-494-496-498-500-502-504-506-508-510-512-514-516-518-520-522-524-526-528-530-532-534-536-538-540-542-544-546-548-550-552-554-556-558-560-562-564-566-568-570-572-574-576-578-580-582-584-586-588-590-592-594-596-598-600-602-604-606-608-610-612-614-616-618-620-622-624-626-628-630-632-634-636-638-640-642-644-646-648-650-652-654-656-658-660-662-664-666-668-670-672-674-676-678-680-682-684-686-688-690-692-694-696-698-700-702-704-706-708-710-712-714-716-718-720-722-724-726-728-730-732-734-736-738-740-742-744-746-748-750-752-754-756-758-760-762-764-766-768-770-772-774-776-778-780-782-784-786-788-790-792-794-796-798-800-802-804-806-808-810-812-814-816-818-820-822-824-826-828-830-832-834-836-838-840-842-844-846-848-850-852-854-856-858-860-862-864-866-868-870-872-874-876-878-880-882-884-886-888-890-892-894-896-898-900-902-904-906-908-910-912-914-916-918-920-922-924-926-928-930-932-934-936-938-940-942-944-946-948-950-952-954-956-958-960-962-964-966-968-970-972-974-976-978-980-982-984-986-988-990-992-994-996-998-1000.

We pursued the railway treasurer of the above company in which mentions the fact that Foley, the gold king, was in Duluth with 20 pounds of gold—the result of five days work. Foley said that the Randolph mine which is in close proximity to the Foley mine, was sure to become one of the best mines in this region.

A. C. Hubbell of this city, vice president of the company above mentioned is at the Randolph mine this week looking after the exploratory work.

FELT AT MANY POINTS.

Earthquake shocks of more or less severity in Middle and Western States. WASHINGTON, June 1.—A distinct but slight earthquake was experienced during the afternoon throughout the South Atlantic and Middle Southern states. It is stated at the weather bureau that the direction of the wave was from south to north, but the received from various sections are conflicting. In some localities it is stated the direction of the disturbance was in an easterly to westerly direction, the records of the instruments here probably are correct. The shock occurred as nearly as has been estimated, at 2 o'clock. In some localities the time is given as 1:28 and in others as later as 2:10 and its duration was less than a minute. As far as can be learned Savannah, Ga., was the furthest point south at which the tremor was felt, while the northern boundary of the wave was Middle Maryland. It was felt as far west as Knoxville, Tenn. The disturbance seems to have been most severe in the Appalachian mountain region.

The self-recording instrument at the weather bureau shows that the disturbance began at 1:58, and lasted 5 minutes.

PROHIBITION PLEDGECITE.

Manitowish Are Considerably Agitated Over the Question. WINNEBAGO, Man., June 1.—The dominion government, acting under the provisions of the prohibitions, intends to take a plebiscite on the question of prohibition. A bill has been introduced in parliament authorizing the plebiscite, and it is likely to be taken within the next twelve months. The question to be voted on are: "Are you in favor of prohibition?" "If prohibition becomes law would you be in favor of direct taxation to make up the loss of revenue?" The temperance people are up in arms against the rider to the main question, believing that its effect will be adverse to the temperance cause.

MAY KNOCK OUT THE LAW.

Adverse Decision in Relation to South Carolina's Dispensary Plan. CHARLESTON, S. C., June 1.—Judge Stanton of the United States circuit court filed a decision in the case of "Yankee" against the state of South Carolina, restraining the state from preventing the sale of liquors brought into the state. This decision, if sustained on appeal, it is claimed, will have the effect of rendering nugatory the state dispensary law. Under the decision of Judge Stanton any person may import and sell liquor in original packages. The decision is based on the interstate commerce law, the court holding that the right of importation comprehends the right of sale.

PRESBYTERIANS ADJOURN.

Present Session of the Assembly the Shortest in Eight Years. EARLE LANE, Ind., May 29.—The Presbyterian general assembly, which adjourned during the evening, was the shortest session in eight years. In spite of the desire to finish up its business, there was little unusual haste at the final session. The proceedings of the day were important, the final disappearance of the assembly center of the seminary being the least significant of the assembly's general attitude.

The college boys of Lawrence, Kan., played a joke on Governor Leedy soon after his inauguration. They got up a treasury on the circus in order to raise money for a local church, and invited the Governor to grace the entertainment with his presence.

The affair was held in a tent, and as soon as Mr. Leedy arrived the "barker" outside began to call out in a sing-song voice: "Step inside, ladies and gentlemen, and see the Governor of Kansas, imported from the wilds of Coffey county at the expense of Mr. E. M. Morrill of Hiawatha, whom he has tamed effectually. This is a rare and handsome specimen, and the only Governor of Kansas now in captivity." All others have been let loose as not being the real thing."

The lodge of Woodmen of the World deserves more than a passing mention for the manner in which it deported itself during the long illness, and death of John Nordahl, one of its members. The individual members of the lodge did not desert their unfortunate brother in time of trouble but proved themselves brothers indeed. When failing health compelled Mr. Nordahl to relinquish work, the lodge paid his dues for him and kept him in good standing in the order. As a result of their so doing, the bereaved widow will receive \$2,000 from the order. They were collectors of his temporal welfare and ministered to his family, and when the end came they gave him a royal funeral. They, perhaps, did not do more than was expected of them as true members of the order, but they did that well. Has it ever occurred to you that it is the proper thing to ally yourself with a fraternal and beneficiary order?

The death of John Nordahl.

John Nordahl, who has been a sufferer from that dread disease, consumption, for the past three years, died at his home in this city last Friday evening. Funeral services were held at the Methodist church, of which denomination deceased was a consistent member, last Sunday morning.

Rev. J. M. Shank preached the sermon. The local lodge of Woodmen of the World, of which Mr. Nordahl was a charter member, attended in a body and had charge of the details of same. The A. O. U. W. Band led the procession from the church to the cemetery. At the grave the ritualistic service of the order was followed.

Mr. Nordahl was born in Norway 33 years ago and came to Manistique in 1866. He was a highly honorable man and enjoyed the respect of all knowing him. He leaves a widow, and four children—the eldest eleven years of age—the youngest an infant.

A Warm May After All.

May 1894, 51.17. Two days below 32.

May 1895, 50. Five days below 32.

May 1896, 60. One day below 32.

May 1897, 54, 33. Two days below 32.
