Manistique Upon the Eve of a New Lease of Life

The Ann Arbor and Soo Lines to Abandon Green Bay Ports and Find Some for Manistique.

For some time the Ann Arbor and Soo Lines who have been trying the experiment of car ferrage between Green Bay ports and Frankfort have been looking with wistful eyes upon Manistique with its open harbor.

Negotiations have been pending for some time and the city was all agog when train load of officials connected with the two above mentioned lines visited two weeks ago for the purpose of investigating our facilities. That they were more than pleased with what they saw is proven by the consummation of a deal last Sunday whereby the above lines will utilize our port for the purpose above enumerated.

Gen. Manager Underwood of the Soo Line, and Gen. Manager Ashley of the Toledo & Ann Arbor line, arrived in the city last Sunday morning on Car ferry No. 1. They decided upon a location for their docks on the river opposite the C. L. Co's warehouse, and the preliminary work will be commenced at once, and no doubt the car ferries will be in operation before winter sets in.

We are informed that it is the intention of the promoters of the project to abandon Green Bay ports as well as Gladstone as their terminals, and what now seems a modest enterprise, will, in the future, bear abundant fruitage.

Manistique has decided advantage over other north shore lake ports. While other ports are inaccessible during three or more months of each year on account of the solidity of ice, Manistique is always open. Its exposed position on the lake precludes the possibility of the formation of any extensive ice floes, and therefore is always accessible twelve months of every year.

Car ferrage has passed the experimental stage. It has been proven that freight in unbroken carload lots can be transported great distances via water at a profit. Ice is the only obstacle to the success of such an enterprise. It is a notorious fact that Green Bay and other lake ports west of us freeze solid with the first breath of winter. The Ann Arbor people have experienced great difficulty in navigating the waters of these ports and upon several occasions the past winter, the use of dynamite was resorted to in order to free the ferries.

The companies were dissatisfied with their experience last winter and decided to make a change of location. Knowing of our superior facilities they were not slow in conferring with the Chicago Lumbering Co., which owns the harbor. The result of the conference is known to our readers.

We are sufficiently optimistic to believe that Manistique has a brilliant future before it, and that the step taken Sunday last is but the alpha of that era.

The Manistique & Northwestern Railroad, at present a meek line of 22 miles, is bound to figure extensively in future developments. The Michigan Central and the Chicago & Northwestern railroad companies are jealously watching every move upon the part of the Soo Line in the development of new territory. It has been a matter of current rumor that these above mentioned companies contemplate entering the territory now exclusively controlled by the Soo Line from the head of Lake Huron to Duluth. The extension of the Manistique & Northwestern railroads to Negaunee on to some point on the D. S. S. & A. railroad would prove an invaluable link in the Soo Line's system. In conjunction with the ferries a direct line would be established between Duluth, the gateway to the world's grain fields, to Chicago and the east. The extension of that road would also mean ore docks for this port.

Manistique occupies a strategic position upon the chess board of upper lake traffic facilities and the future of the city will be a surprise to the most sanguine.

If the success of winter navigation is proven the coming winter the Soo Line will quite likely abandon Gladstone entirely. The project is still in embryo as far as the persons not directly interested are concerned. The railroad officials are not in, but enough is known to say that Ann Arbor Car ferries No. 1 and 2, carrying 22 cars each, will ply

the lake between this port and Chicago the coming winter.

The Chicago Lumbering Co. is disposed to encourage any enterprise that will better the condition of Manistique as the liberal concession granted in the case of the present project proves. To Mr. Durall, of the Western Furnace Co., should be given great credit for the consummation of the project as it has been his pet scheme for years, so we are informed.

Manistique Eve.

A festival will be held at the Swedish Lutheran church on Wednesday evening, June 23rd, under the auspices of the Young Peoples Society of the church. Admission free. After the rendition of the program, refreshments will be served at usual prices. All are cordially invited.

A Card.

It has come to my knowledge that the report is being circulated that I have refused to receive any more pupils, and that I am about to leave town. That is not true. I still have some free hours, and would be glad to see any desiring to study Piano or Organ, at my studio at the residence of Mr. George Brooks, second house from the bridge.

ALICE LASKY BALLARD.

Commencement Exercises.

The commencement of the Manistique high school will be held at the Star Opera House Friday evening of next week, June 25th.

The class of 1897 consists of three members: Misses Gertrude Shiner and Lizzie Miller, and Mr. Geo. Burdick.

Owing to the length of the program the exercises will begin promptly at 8 o'clock.

- The program follows:
- High School March.....Terrie Hilt School.
 - Compulsory School.....Miss OWENS and Miss KENNEDY.
 - The New Man.....GEORGE BURDICK.
 - Piano Duet, Value.....Meyer-Heimann and Miss OWENS and Miss KENNEDY.
 - The New Man.....GEORGE BURDICK.
 - Presentation of Wagon.....LARGE.
 - Class Address.....Miss FRAZAR.
 - Class Address.....The Relation between Education and Morality.....D. H. H.
 - Moving Invitations.....Terrie Hilt School.

The Experience Social.

The "experience" social given under the auspices of the Ladies Aid Society of the Presbyterian church last Friday evening was well attended and those present highly enjoyed the program. The ladies of the society were to recount their experiences in earning a dollar for the piano fund, by taxing their poetic fancy. Thirty or more ladies responded. Many methods were utilized in securing the coveted "cent wheel." Baking angel cake, bread and beans, selling arbutus, pop corn, candy and cake holders, and making of wearing apparel, were given as the methods used, while several others admitted that they earned the dollar in the old way "by the sweat of their brow."

Mr. and Mrs. Kefauver, Prof. Olson and Miss Kennedy favored those present with choice musical selections. Strawberries and ice cream were served.

The proceeds of the evening aggregated about \$43.00.

The Anniversary Celebration.

The celebration of the tenth anniversary of the founding of the Presbyterian church in this city will be properly observed next week, beginning with next Sunday morning. On that morning the pastor will preach a historical sermon, reviewing the ten years' history of the church, and in the evening the Baptist and Methodist congregations will be present and the pastors of these churches will take part in the services. On Wednesday will occur the reunion and banquet, and the reception committee desire that guests will come promptly at 7 p. m. At the banquet the first table will be served at 7:30 o'clock and the toastmaster will open his program at 8 o'clock. As the speaking will occupy fully an hour, the second table cannot be served much before 9:30 o'clock.

Mrs. McLean and children will be present, as will Elder WILL SIMMONS and Rev. Mills. Mr. J. D. Moreson writes that he is arranging his plans so as to be present, and will quite likely arrive in the city tomorrow, in company with Mrs. Moreson and Miss Irene.

Independence Day Will Be Celebrated.

A meeting of the citizens was held at the opera house last Saturday evening for the purpose of discussing the advisability of celebrating July 4th.

V. P. Chappel was elected chairman of the association.

It was decided that the celebration be held on Monday July 5th.

The following committee was appointed to perfect arrangements for the celebration: N. Fox, W. L. Orr, A. P. Ekstrom, F. H. Peters, and James Norton.

The program will consist of speeches, instrumental exercises, Calathumpian parade, etc. It was decided to raise \$300 or more for the purpose of defraying the expenses of the celebration. The sub-committee appointed to solicit the business men secured the requisite amount this week.

Independence day should mean much to American citizens and all should work unitedly with the aim in view of making the forthcoming celebration of the day one long to be remembered by our citizens.

Details will be given as they develop.

Children's Day at M. E. Church.

The church was handsomely decorated with flags and flowers. The program presented all the children under service and some of the elder members of the school, too. The program consisted of responsive readings, recitations and songs. Those giving recitations were George Dean, Lillian Casmore, Elmer Garland, Fred Corbett, Fred Strong, Tena Garner, Walter Hammons and Mrs. E. A. Dunn. An exercise "The Young People's Republic" was participated in by the following persons:

- Mrs. Bundy, representing Liberty.
 - Rev. J. M. Shank, representing Law.
 - Miss Hamilton, representing Intelligence.
 - Miss Percy Garner, representing Equality.
 - Ernest Shiner, representing Temperance.
 - Miss Gilbert representing Uprightness.
 - High Garrier, Patriotism.
- Rev. Shank made a few remarks. The exercises were in charge of the superintendent, J. J. Hornberger, and those participating were carefully trained.

Children's Day at the Baptist Church.

Those attending the Children's Day exercises at the Baptist church last Sunday morning pronounced them the best in the history of the Sunday School and that is saying a good deal, for the Baptists are noted for careful training and making ample preparation for anything that is presented under their auspices.

For several weeks those participating were thoroughly trained and those attending last Sunday were more than amply supplied.

The decorations were handsome. The following is a partial program of the exercises.

- Song, God Children's Day.
 - Address of Welcome, by Russell Norton, Secretary Reading.
 - Prayer.
 - Recitation, The First Children's Day.
 - Recitation, "The Sparrow's Echo."
 - Recitation, "The Little Songsters—The Way of the World—What does the Echo Say—Conclude the Ladies."
 - Song, Children's Day Carol Scripture Reading.
 - Recitations by Primary Department—Robert from the Obed—Another Little Echo—The Sparrow's Echo.
 - Song, Love in the Sunshine.
 - Recitation, The Church Held Echo—Thank God for the Bible.
 - Diologue, How Edible Prescribed.
 - Recitation, For My Self.
 - Song, Triumph of the King.
 - Reading of Address from the A. B. P. Society, Collection.
 - Song, When He Cometh.
 - Benediction.
- The collection amounted to \$50.50.

Children's Day at the Presbyterian Church.

The most successful observance of the day ever held in the history of the Sunday School, was held at the Presbyterian church last Sunday morning. The church was elaborately decorated—a canopy tower of ground pine overshadowing the pulpit platform. The pine was handsomely draped, and the pleasing effect was the handiwork of Mrs. A. M. Lefroy and Mr. Weber.

Potted plants, cut flowers, and warbling birds abounded everywhere. The program consisted of responsive readings, songs and recitations. Those participating did exceedingly well, and the success of the affair is attributable in great extent to the superintendent, Dr. Sattler, and Will

B. Thomas superintendent of the infant department.

Mr. Weber, Mr. and Mrs. Kefauver, Mrs. Peterson Miss Kennedy and Prof. Olson furnished very pleasing musical selections. The following persons recited: Clara McLaughlin, Paul, Philippe, Herbert Hamel, Gertrude Kruse, Mollie Schuetter, Ruth Hill, Tena Ross, Edna Hackenbrach, Chester Weber, Norman Weston, Robbie Johnson, Hawley Weber, Lila Boyce, and Miss Carrie Glendening. Master Earl Sattler sang America in a highly creditable manner. A quartet consisting of Misses Olson, Winkler, Kloter, and Pylak, sang two songs very sweetly, the rendition of which was very complimentary to Mrs. Geo. E. Pardee's ability as a trainer.

Prior to the rendition of the regular program, the following children were baptized: Randol, Lillian and Jessie May McKinney, Leon Nicholson, Hubert Harrison Ross, and Marion Cowan Thomas.

A large collection was taken for the needs of the Sunday School Board. The church was filled to overflowing.

Miss Kennedy's Concert.

No doubt that the most pleasing event ever held in Manistique musical circles will be the concert given at the opera house next Tuesday evening under the direction of Miss Edith Kennedy. The best musical talent of the city has been pressed into service for the occasion, and a perusal of the excellent program appearing below will convince all that a rich treat is in store for those attending. Program follows.

A Good Company.

The Abt & Montalien Vandeville company will be at the Star Opera house Wednesday and Thursday evening of next week. The company is a strong one and will no doubt please and instruct. Popular prices. The Manistique News says of this company: "There is a strong specialty company at the opera house the first three nights of this week. The Abt & Montalien company opened before a fair house last evening. Prof. Abt's pictorial tour of the world, with illustrated and illuminated songs, is certainly very fine, and the singing of the Montalien's was a decided sensation. Miss Montalien is certainly one of the eminent Swedish nightingales and her voice has a wonderful scope. Master Ruid, the boy violinist, is a wonderful, and the balance of the cast is very good. It is a very dean cut entertainment deserving a patronage."

The Weston Wrecked.

The steamer A. Weston bound from Tonawanda to Menominee with the schooner Eleanor in tow, ran on a rocky spit near Clear, River early Wednesday morning. A dispatch from Menominee says: "The steamer is now lying in six and one-half feet of water, exposed to a brisk northeast wind. The steamer was drawing 12 feet aft, and three and one-half feet forward when she went on, and is now out five feet. The Eleanor, drawing six and a half feet, struck heavily, but jumped the reef and anchored. The mate of the steamer, was landed and telegraphed for assistance. The wrecker Monarch was sent from Escanaba. The schooner proceeded on her course and arrived here this afternoon. The Weston is in charge of Capt. M. Hyde, and is owned by William Dale, of Bay City. The latest advice is that a hole has been stove in her bottom, and that she is leaking badly."

Entered at the postoffice at Manistique, Mich., as Second Class mail matter.

Chase S. Osborn should publish his Alaskan letters in pamphlet form and place them on the market.

Maastique cannot be censured if it affects a haughty and independent air since the developments of the past week.

President McKinley is a firm believer in the annexation of Hawaii. Sugar would be cheaper if the island was annexed.

Every sign of prosperity makes beads of cold perspiration started forth on the Popocatepec brow. It is a sad spectacle of increasing misery.

Not single ship bearing the United States flag passed through the Suez Canal last year, according to thereport of the U. S. Consul at Cairo.

An ordinance should be passed taxing bicycles. If the proceeds of such a tax be expended on the roads about town the average bike owner would not object.

Murising's health officer certainly curbs his salary. It requires a column of affidavits every week for him to make the people believe that he is doing his duty.

The supervisors of Mackinac county are a liberal lot of fellows. They recently donated the M. E. congregation \$50 to swell a fund being raised for the liquidation of the debt of the church.

The Gladstone school board has troubles of its own. It recently turned down the superintendent, and a mammoth petition has been presented asking for a reconsideration upon the part of the board.

The dog poisoner is getting his work at St. Ignace much to the disgust of the owners of canines. Two discolored ex-owners are offering a reward of \$25 for information that will lead to the identity of the miscreant.

Wealth does not always bring happiness in its train. Barney Barnato, reputed to be the wealthiest man in the world, in a fit of despondency recently jumped into the ocean from a vessel in which he had taken passage from Africa to England.

President McKinley said at Nashville: "whatever adverse conditions may temporarily impede the pathway of our national progress, nothing can permanently defeat it." That is the old American spirit, and croakers will labor in vain to break it down.

The Soo has been enjoying the unenviable reputation of having the worst streets of any town in the state. A bond election was held there Monday and as a result \$90,000 will be expended on street improvement. We opine that the bicyclists exercised the privileges of franchise judging from the result of the election.

"The West," says "the Topeka Capital," "is already booming along under all sail and ploughing ahead at the rate of more knots per hour than for twelve years past. The 'wave of prosperity' may be a little slow in making itself felt in the East, but it will come. The prosperity of the producer is the only true prosperity; it will spread until it takes in all classes and sections."

Several months ago THE PIONEER TRIBUNE published a timely article explaining the advantages that Manistique as a port, enjoyed over other north shore ports. In this article a kindly feeling was expressed toward the Soo railroad company. A prominent official of the railroad company said he was surprised to learn that his road had the good will of the people of Manistique to the extent hinted in the article. That the article was timely is proven by the developments of the past week.

German counts appear to be decidedly popular among ladies of marriageable age in Detroit.

Do your duty as a citizen by attending the commencement exercises of the High School next Friday evening.

Where is the croaker that will arise and dispute the fact that Prosperity is not knocking at the gates of Manistique.

The Bulletin, the official organ of the Michigan Press Association spoke in very commendatory terms of THE PIONEER-TRIBUNE in a recent issue.

Owners of cows should remember that there is an ordinance prohibiting the running at large of cattle after nightfall. Seven cows were recently impounded.

The news of Manistique's coming prosperity will grate discordantly upon the tympanums of populists such as W. C. Hart, but they'll be compelled to stand it.

Office-holding has its trials. A member of the goody-good people that voted for the present prosecuting attorney, Geo. E. Pardee, are anxiously wondering what his policy toward the "hoodlum" will be.

Manistique will celebrate Independence Day in a rousing manner this year. A large sum of money has been raised for its proper celebration. Make a portion of your future plans to spend the day in Manistique.

The various counties of the state are in arrears for state tax in the sum of \$1,000,000, and Auditor General Dix has expressed his determination to collect the amount. Schoolcraft county is in arrears in the sum of \$4,574.71.

There is some likelihood of a labor organization being effected here. Such organizations usually serve two purposes. They fatten the wallet of the walking delegate, and compel a workman and his family to starve while holding out for "principle."

Hon. James J. Brown of this city addressed the graduating class of the Menominee high school last week. The Evening Leader says:

"The orator of the evening, Hon. James J. Brown, of Manistique, was next introduced. His subject was 'Your Heritage and Opportunities.' Mr. Brown is a man highly endowed with a power of speech and flow of language. His oratorical style is charming. His subject was fitting the occasion and in pleasant tones he first addressed the class. He pictured success and how to attain it, taking as his first maxim 'Honesty.' His allusions to temperance and patriotism were grand efforts. The speaker admonished the class very earnestly to pursue their onward course in life and attain success. His speech was a highly intellectual one and one that left its impress on the minds of the audience."

Allison on The Sugar Schedule. Senator Allison, who is one of the most level-headed men that ever adorned and dignified our public life, who never declines for the galleries but works with indefatigable industry in committees where the brains of congress must be employed, illumined the situation during the controversy over the sugar schedule in a manner that must have reminded the senators that the construction of this schedule involves a principle from which there should be no escape.

The senator did not make a speech. He merely dropped a few sentences by way of reply to the senseless and ill-advised assaults of Messrs. Turpin and Gorman, who assumed that the sugar schedule was constructed for revenue purposes only. Senator Allison declared that thus far senators had been discussing decimal figures and statistics without consideration what lies at the basis of this and all schedules. Continuing, the senator said:

We have been taunted with the bounty of 1890, and we hear senators on the other side say they will support a sugar duty on the theory that it is a tax for revenue only. I wish to disclaim any responsibility for this duty as a revenue duty. If that were its only object, it should not have my vote.

To deny the logic of Senator Allison's contention is to repudiate the platform upon which the present administration came into power. Irrespective of the claims of the champions of the house schedule and the claims of the defenders of the senate schedule, it must be conceded; by even the mildest protectionists that the new sugar schedule as finally incorporated in the tariff law of 1897 must show some intelligent recognition of the needs of the sugar industry in this country.

Americans spend \$100,000,000 annually for foreign sugars. To construct our tariff legislation on the theory that the time will never come when this country can supply the sugar which it consumes is manifestly an unwise and unpatriotic policy. The European governments have set us an example in the option of an economic policy expressly designed to foster and develop the domestic production of sugar.

The best sugar industry of this country is now in an experimental stage of development. The agricultural department under Secretary Wilson is about to ascertain just what states have a soil adapted to beet sugar culture. The national government has adopted the policy of giving federal aid to the development of this industry. It would be a most inopportune time indeed to enact a tariff that took no account of this infant industry.

The most uncompromising foe of the protection theory would hardly dare to risk his reputation for sanity or patriotism by declaring that the country would not be better off if this \$100,000,000 that goes aboard every year for sugar were spent at home.—Times Herald.

Best Remedy for Rheumatism. From the Register, N. Y. 23 degrees.

Mr. James Rowland of this village, states that for twenty-five years his wife has been suffering from rheumatism. A few nights ago she was in such pain that she was nearly crazy. She sent Mr. Rowland for the doctor, but he had read of Chamberlain's Pain Balm and instead of going for the physician he went to the store and secured a bottle of it. His wife did not approve of Mr. Rowland's purchase at first, but nevertheless applied the Balm thoroughly and in an hour's time was able to go to sleep. She now applies it whenever she feels an ache or a pain and finds that it always gives relief. He says that no medicine which she had used ever did her so much good. Character takes shape by a very slow process. As one becomes a bond that into which he fully masters. Silently, and in a measure imperceptibly also, we tend in this direction or in that. Manistique observed Memorial Day on Sunday with a parade, brass band, speeches and all other observances. We see nothing out of the way in observing the day on Sunday when it falls on that day, in fact it should be celebrated regularly on the last Sunday in May. The only reason for celebrating on Saturday or Monday is that it closes the saloons one extra day. The honor of our sacred day, calling as it does the human heart from earthly things, to a contemplation of the eternal question of life, death and immortality is peculiarly appropriate to Sunday; it is only the old spirits that exorcised Christmas because of its jollity that interferes with such celebration.—Cheboygan Democrat.

To run a newspaper without occasionally publishing an article that is untrue or giving offense, is like running a railroad without having accidents or a vessel without leaks. No man in the world is so much imposed upon as an editor of a newspaper. Pushed with work continually he must rely upon second and third parties for information as to the events that transpire. Frequently statements are received from reliable people but which are subsequently discovered to be without foundation. If, therefore, kind reader, you find yourself aggrieved by some statement in your mind, do not fly off the handle, but go to the editor and ask for a correction, and take our word for it, in nine cases out of ten, if your case is just, you will receive politely and with a correction made with pleasure.—Ex.

Some complaint is made by bicyclists on account of the way in which they are treated by some of the farmers. They claim that in many instances they are crowded off the road into the ditch at the risk of not only smashing their wheels but seriously injuring themselves, and all because the farmer persists in occupying the whole of the highway, stubbornly refusing to even give them the width of a wagon tire. This, they claim, is not a new question but what they are right in the matter, is in direct violation of the rules of the road, as they have every bit as much right to half of the road as any vehicle thereon and should they suffer any damage by reason of a collision or because of being run into the ditch one would rock and bonneters they can and will compel the individual who is responsible for the accident to pay the damages. It must not be inferred, however, that all our farmer friends are so discourteous; for it must be admitted that the former class are run across now and then and it may do them some benefit to know that when they have privileges and rights which they must respect or they may be compelled to pay dearly for their information at the end of a lawsuit for damages.

WHEREAS, he has the esteem and respect of the majority of the Republican party in this town and Schuette county, for nearly and persistent advocacy of its principles, and has been long known as an able and energetic partisan in behalf of these principles, therefore

Resolved, That we the members of Geo. P. Fuller Post, G. A. R. No. 257, do respectfully petition and ask that A. C. Carpenter be appointed postmaster of Manistique, Michigan, in recognition of his services as a soldier and as a citizen, and in honor of his long and able participation in the cause of the National party and the welfare of the community.

Resolved, That Congressmen C. D. Shelton and J. H. McNaughton be petitioned to influence in securing the appointment of Comrade A. C. Carpenter to be postmaster at Manistique, Mich.

Resolved, That a copy of these resolutions, signed by the Comrades present, be forwarded to the Hon. C. D. Shelton, Iowa Representative, Washington, D.C., and that they be published in one or both of the leading newspapers of Manistique, in the current issue of said papers.

JOHN GAYAR, Commander. J. A. L. Adjutant. PHASEY CHRISTENSEN, O. M. For Three Cent Fares. Representative O. B. Fuller, of Delta county, has written a letter to Attorney Beacom in reply to an inquiry in regard to the members of the deposed legislature who voted in favor of the three cent railroad fare bill, in which he says: "Senator Robinson, in the senate, made a good fight for lower fare, and came within one vote of winning. In the house, Oberdorfer and I made a fight for lower fare. The other members from the U. P. were in favor of the bill. The only one who was in favor of the bill was Joe. Combs of St. Ignace and G. D. Grippen of Stanbough. The balance of the delegation rather looked down on the idea and said our people did not want lower fare. That sounds good to me U. P. man!"

"It is true I am not a Pingree man in the sense as that term is known, but I want to say right here that I have changed my mind in regard to a number of his measures; not from anything that I have obtained from Pingree, but from the crowd that were opposed to him during the past session. I know some men there that were strongly anti-Pingree who have never considered the people or the rights of the people. "I feel ashamed of myself when I think that I have attempted to represent the people of my district three terms in the house and have not been able to reduce the R. R. fare for them from 4c to 3c per mile, but no one knows how hard it is to do this; but those who have been through a session.—Menominee Enterprise.
