MANISTIQUE, MICHIGAN, FRIDAY, JULY 14, 1899

\$1.50 PER YEAR.

WHERE IS BYRON?

Capt. H. B. Winger has not been heard from for three months. It is known that he was in the vicinity of Escanaba about six months ago, since which time his family has received no word from him, and knows not his whereabouts. There have been numerous inquiries regarding him during the past three months, but all have proven of no avail. There seems to be something of a mystery connected with his continued absence from his home.

Capt. Winger is a former resident of Manistique and his many friends here hope that he may yet show up unannounced. He spent the winter at Lansing, Michigan, for the first time. It is said that he resumed his convivial habits while there.

A High Class Entertainment.
The Canallan Jubilee Singers, who will appear at the opera house this evening under the auspices of the Epworth League of the M. E. Church, are a first class aggregation and will please all hearing them.

Celebration at Marquette.
Among the 4th of July celebrations in our vicinity none was more delightful than the one held at Marquette. Eighty of the neighbors came to Marquette for the occasion, and the day was spent in a most enjoyable way—many coming 25 miles, and put their hearts and souls in their enjoyment. By 9 o'clock they began to arrive and kept on coming till the middle of the afternoon.

Also held for a dancing platform at the edge of the timber, a bower which was kind where everybody (except one tender foot) shook their right fists to their hearts' content. During the afternoon there was suitable refreshment by Miss Dickinson and the school teacher, from Yonon, followed by patriotic songs. Then the children made the occasion a benefit by their efforts. Cassie, Mamma and Johnny O'Brien of Cooks, who are very children, really made the "hit" of the day with their sweet singing.

A most beautiful supply of good things to eat was ready for anyone who thought it was possible to eat another morsel at all times. And everybody seemed to think it their duty to try until daylight the next morning. In the evening there was a fine display of fire work to the delight of all.

No more beautiful spot could be found in Michigan than just on the banks of Higgins Lake, for such a celebration; the beauty of the view, the delight and pleasure of the day (the good things to eat) will live in the memory of young and old for many years. Such celebrations are the foundation stone on which our

country and only is built, but must grow and continue. Let us teach our children to remember the 4th of July in this simple, pure and true way, and we will have a blessed inheritance.

E. convention by the local society's delegates, Miss Maud Alkon, and others who attended the convention. There will be special music upon this occasion, and the meeting will be very entertaining and instructive.

We always feel sorry for the girl who is stuck on a fellow who will spend a dollar for ice cream and chocolate and three for a Sunday buggy ride for her, on a six-dollar a week salary. Somehow we see visions of barbed children, a frowny-headed woman over a wash tub, tin cans for dishes on the table and a combination of corn cob pipe and a man in the kitchen corner. The young man who lives within his means while single usually has means after he's married.

While in Manistique Tuesday we heard very many favorable comments on the Canadian Jubilee singers, who are in the city this week. The company is pronounced first class in every respect. You will miss a rare musical treat if you do not hear them at the opera house this evening.

The farmers in this vicinity have been shipping large consignments of strawberries to Minneapolis commission men during the past week. More than 100 crates were shipped Monday evening. MANISTIQUE AND EXPECTATIONS

Secretary Chase estimates that the deficit for the year will not exceed \$1,000,000. It is possible that it will be less than that amount. The deficit for the year will not exceed \$1,000,000. It is possible that it will be less than that amount.

One of the chief reasons, if not the sole reason, why the national revenues will exceed former estimates is the remarkable gain in the customs receipts. It was demonstrated long ago that the Hingley law was a revenue raiser as well as an industrial creator and a prosperity producer, but it is surprising to find that the total receipts from customs for the current fiscal year will go above the \$200,000,000 mark, which means a jump of more than \$50,000,000 above last year's receipts.

INDUSTRIAL COMMENT

The great merchant Wanamaker, says that the merchant who knows how to buy goods and lets the public know by liberal advertising that he has them will succeed.

The "sea serpent" gag has been tabooed by the Traverse City newspapers this year. "Submarine eruptions" are now occurring with frequent regularity in the harbor there.

Hon. James O'Donnell has again shied his ester into the gubernatorial arena. O'Donnell is an able man but when one becomes a "standing candidate" his chances for nomination fall to the zero point.

A Washington report says that President McKinley is working energetically upon a plan to submit the question of independence or annexation to the people of Cuba. It is thought that the annexation idea would carry.

The editor of the Escanaba Journal invested in one or two pieces of high priced fireworks last week and the result was several disabled fingers. Whenever an editor forgets the traditions and customs of the profession so far as to invest in new fangled fireworks, a horse and buggy, a clean shirt and a new office towel, providence punishes him.

It becomes more evident every day that Bryan has too strong a hold upon the Democratic party to be displaced as a candidate for renomination in 1910. It may be set down, therefore, that the issues of the campaign, so far as it may be concerned, are already clearly defined. It will be simply the repetition of the Chicago platform with an anti-expansion and anti-imperialist plank added.

It was announced the other day that this country had on hand a billion dollars in gold. When one reflects that if a man had been counting money on the day that Christ was born and had counted a dollar every minute from that time to this he would still require nearly two years more to get his billionth dollar, one may realize how big a mistake Mr. Bryan made when he ran for president on the ground that there wasn't enough to do business on.

The Mormon hierarchy are ready to spend \$500,000 to securely seat B. H. Roberts in congress, it being their supreme desire to have a representative in our National congress for the strong pull it would give

their missionary works in the old world, and Roberts says that he is going to carve his way through all obstacles to secure the same call. The issue, therefore, is fairly drawn, and it remains to be seen whether the United States government will tauntly submit to the demands of the upholders of a creed that is a disgrace to our common humanity. Instead of carving his way to a seat in congress, Roberts would do well to carve his way to decent and orderly citizen living.

This is the view taken of it by the Iron Post of Escanaba: "If Mr. Miller really promised to step down and for General Alger there should be no question which should receive the nomination. The general is a Michiganian through and through, and would make a representative of the people and fight on the spot." But the fight is a long way off, and it is quite early to begin harrowing trouble about it. Sufficient to the day are the straps thereof.

THE COURSE OF CONVICTIONS

Many of the people in the upper peninsula have seen fit to harshly criticize the action of Representative McCallum of the Delta district for the stand he took on the question of taxing copper. The Journal does not believe Mr. McCallum is antagonistic toward the copper interests of upper Michigan or to any of its industries. His position on the question above referred to was backed up by strong and logical arguments—to the effect that the copper mines were now only paying a small fraction of the taxes they ought to pay, and that it was only just to demand that they be made to stand their share of the expense of maintaining our state government.

Mr. McCallum is open to conviction and says that if it can be proven that the copper mines are not paying their proportionate share of the taxes, he has no wish to see them further assessed.

And if the mines are not paying what they should, why this injustice of the representative from the Delta district?

It certainly was a courageous thing for Mr. McCallum to take that position in direct opposition to every other upper peninsula member of the legislature, and shows that he not possesses "sand," but has the courage of convictions.

WHAT'S THE MATTER WITH OSBORNS?

The name of Chase S. Osborn has been mentioned frequently within the past month or so in connection with the Republican nomination for governor, next year.

Just how seriously the idea has been taken by Mr. Osborn or the majority of his friends, the Leader does not know, but we can safely say that if he should become a candidate the upper peninsula will rally to his support most loyally.

The Detroit Journal of a recent date printed a lengthy article in its news columns, making it quite clear that Mr. Osborn would be a most formidable candidate, and in fact about the only one who would be able to hold this end of the state in one with its usual large majorities for the republican ticket.

The people of the upper peninsula—especially those in the mining districts—are a little sore, for the several attempts during the past session of the legislature to bleed those industries by subjecting them to unjust taxation, and they cannot be expected to feel very good natured just at the present time. Be that as it may, the upper peninsula is ever loyal to the Republican party—they have had a bad case of democratic rule and will not soon forget the results.

However, we believe that if the party came to the upper peninsula for a candidate there is no stronger man within its bounds, nor a better man upon whom could be bestowed the honor than Chase S. Osborn.

He is in every respect a self-made man. He has worked his way from the bottom round of the ladder; is level headed and at the same time a hustler, and would conduct the affairs of the state in an able and straightforward manner. Those who have known him longest are his best friends.

The upper peninsula has never had a candidate for governor, and the party could do no better than to come this side of the straits for its nominee next year, especially under the existing conditions.

Nominate Chase S. Osborn for governor and the Twelfth congressional

district will roll up the biggest republican majority for the state in its history.

THANKS TO GEN. DIX

Congressional Taxes Made Collectible and the State Saved Much Money.

The active adoption of taxation measures that failed of adoption has left upon the popular mind the impression that the legislature of 1899 accomplished little or nothing of value in the direction of providing for the needs of the state. It is true that no new law for the taxation of railroads was passed. Whether this should have been done is the question upon which thoughtful men differ widely. The problem is by no means easy of solution. To a large degree it absorbed popular attention and comparatively little public thought was given to the important amendments to the general tax law that were proposed.

AGUINALO RETURNS THANKS.

The rebel chief, Aguinaldo, is not destitute of the sentiment of gratitude, as he showed the other day in a speech at Tarlac. He said: "Some states of the American

union have arisen in our favor. Especially is the Democratic party convinced that both victors and vanquished will lose precious lives. This many of the people and many statesmen consider President McKinley as a man who has sacrificed his military representatives at Manila to seek means to bring about hostilities with the Filipinos. That acknowledgment of the assistance of the democratic party will be especially gratifying to such democrats as Mr. Bryan, Ex-Gov. Hogg and sundry democratic groups who need not be mentioned by name. Mr. Aguinaldo appreciates the help of his friends and feels encouraged by their sympathy to continue in rebellion. If an opportunity should be offered he would doubtless be glad to reciprocate their good will.

IS IT RIGHT?

For an Editor to Recommend Patent Medicine?

From Sydenham News, Broad, N. C. "It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Cough Remedy and Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have used and used it in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is consulted. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least, this has been our experience during the past twenty years. For sale by A. S. Putnam & Co. druggists.

The New Deputy Collectors.

We learn that the upper peninsula is to have two deputy collectors of internal revenue hereafter. Its internal revenue business having increased during recent years to an extent that renders it impossible for one deputy to attend to it properly. The retiring deputy, Mr. C. P. Sandstrom, handled it alone, but found it growing too burdensome for the salary. He therefore resigned with the collector toward the latter part of last month. John P. McDonald of South Lake Linden, has been appointed deputy for the western half of the district, and we hear that Hon. Geo. P. McCallum of Manistique, is to be the deputy in the eastern half. Both are good appointments, and it is safe to say that the revenue service in the district will receive faithful attention at the hands of these gentlemen. Mr. McDonald represented the Delta assembly district in the legislature last winter and made a most creditable record with the single exception of his dissent to the bill to change the system of mine taxation. On that measure he was led to take a wrong position, but he undoubtedly acted in accordance with his honest judgment. His one mistake will not cause the Mining Journal to withhold its congratulations on his appointment to a position whose duties it feels sure he will discharge ably and honestly.—Mining Journal.

CHOICE OF THREE ROUTES TO CHICAGO.

The Hart S. S. Co. is Making a bid for Chicago Traffic.

Our citizens will be more than pleased to learn that they are not entirely cut off from the outside world even if the Great Lakes are reverting to itself to its utmost to make us realize that condition.

The Hart S. S. Co. has made arrangements so that it can give Chicago passengers the choice of three routes from Manistique to the Windy City. The fare is \$9.50 by either route and this sum includes meals and berths on all boats.

The routes follow: Manistique to Port Huron via Hart Line and from Port Huron to Chicago via Northern Transportation Line; Manistique to Manistowick via Hart boat, and from that city to Chicago via Goodrich Line; Manistique to Green Bay via Hart Line and from that city to Chicago via train. A round trip ticket costs you considerably less than the present rates quoted by the Goodrich Line.

During the remainder of the season the Hart Line will closely follow its schedule and close connections will be made with connecting lines.

The new routes are destined to become quite popular with the traveling public.

The Hart Line is also selling round trip tickets to the Soo from this port for \$7.50. The price of ticket includes berths and meals and the purchaser can stop at every port along the route if he so desires. In fact, the tickets are unlimited as to stop over and time. For instance, one could take in Port Huron, Mackinac Island, the Soo, Detroit, etc., for \$7.50. Agent Wickwire at the dock is ready at any time to give inquiries any additional information not contained in this item.

Strawberry raising is getting to be a great industry in the western part of this county. A large party from here visited the farm of A. F. Congdon on Sunday and saw his five acres of strawberries. Mr. Congdon spent considerable time and money in making the raising of berries a success and it is a grand sight to walk through his fields and see the ripe luscious fruit hanging in clusters; we were shown one stem on which were fourteen fine fine berries and also presented with a sample box in which thirty eight berries were a quart. They are of the Dr. Williams variety and are a fine berry being very prolific and a fine shipper. Mr. Congdon has already sold over \$300 worth and will no doubt double that amount twice before the season is over. Mr. and Mrs. C. take great pride in their farm and are very hospitable to all comers and you go away feeling you have had a good time while there.

Milton Williams is also making a success with strawberries and has about three acres of bearing vines. He is kept busy dispatching his fruit depending largely on local trade; he raises mostly the 'Ironclad' variety and are a very fine fruit. One thing we can say for the strawberry raisers they are very generous to visitors and always insist on your eating more than is good for you.

Mr. and Mrs. Thomas Boyd are up from Parkington and are helping Mr. Williams with his berry crop.

Geo. W. Boncher is raising his cedar licks and posts from Wiggins Point on Thompson's island. They have been laid just west of the south, breast water; the cedar is then taken out of the water and loaded in box cars for shipment to various points west. He expects to have about 300 net loads.
