PERSONAL.

Mrs. C. J. Fox of Detroit, is in the city.

Geo. E. Holbein was in Escanaba Monday.

Ray McKesson left for Cleveland Wednesday.

Mrs. C. Miller is visiting relatives at Manistique-Iron Port.

Miss Myrtle Nicholson, returned from her lower peninsula visit Tuesday.

Mr. Galvano of Scott's Point, was in the city Monday. He says that Ginkens mill will go into commission this week.

Carl Thorberg of the Herald made a business trip to Gladstone and Rapid River last Friday. He returned Tuesday.

Peter Zimmerman, the cigar manufacturer, spent Monday in Gladstone. He reports securing a number of good orders in that town.

Miss Amy Nelson returned Wednesday from Manistique, where she had been visiting friends for the past two weeks.—Gladstone Delta.

Mr. Martin Weing of Gladstone, and his brother Conrad, who reside in Wisconsin, were in the city Tuesday visiting their sister, Mrs. Sanfield.

Geo. Staley who is collector for D. C. Burdick, Wausau, Wis., and whose territory comprises most of the upper peninsula, arrived in the city this week on a short visit with his family.

Dr. Burdick and Will Crowe left for Arkansas last Saturday where they will spend a week or ten days looking up the timber resources of the state with a view to making investments.

PLEASED A LARGE AUDIENCE.

The Pipe Organ and Song Recital at the Presbyterian Church Tuesday Evening. Highly Enjoyed.

Mr. Clarence H. Carson organist and choirmaster, and Master Ralph Swiggett, soprano soloist of St. Paul's Episcopal church, Indianapolis, Ind., assisted by Mrs. E. B. Patterson and Mr. W. P. Kefauver, gave a pipeorgan and song recital at the Presbyterian church last Tuesday evening.

The church was crowded and the participants were the recipients of hearty encores. Mr. Carson is by far the best organist that has ever entertained a Manistique audience.

Master Ralph Swiggett's possession of a very sweet voice. His enunciation is perfect.

The concert, were it repeated during the stay of Messrs. Carson and Swiggett, would be attended by an audience that would tax the seating capacity of the church.

A REMARKABLY LOW RATE.

Marquette and Return for Less Than \$2.00 to and Return Same Day.

On Saturday of next week Ringling Bros.' show will exhibit at Marquette. The D. S. S. & A. company is offering an extremely low rate from Shingleton & Northwestern Ry. Co. will also reduce fares for that day providing a hundred tickets are guaranteed.

If the guarantee is made the M. & N. W. Ry. will run a special train to Shingleton, leaving here at about 9 o'clock in the morning to connect with the South Shore train at Shingleton at 7:45 a. m. Passengers, under this arrangement, will arrive in Marquette about 10 o'clock and will have all day to take in the city or the show. Returning, the train leaves Marquette between six and seven o'clock and Manistique passengers will arrive at home via special train from Shingleton, before 11 o'clock.

This is the first opportunity that Manistiqueans have ever had of going to and returning from Marquette in one day, and the rate will not exceed \$3.00 for the trip.

We understand that the National Protective Legion is postulating the matter of taking charge of the excursion and by guaranteeing the 100 passengers situated by the M. & N. W. Ry., make the excursion a sure go.

The matter is in embryo as yet. However if you wish to go, leave your name with Messrs. Kelso, Fox or other official of the M. & N. W. Ry. If the 100 tickets are not sold in advance the special train will not be run.

THE SECRET WELL KEPT.

Hon. Geo. P. McCallum and Miss Agnes Terhove were married last March.

The citizens of Manistique were treated to an agreeable surprise during the past week, by the announcement that Hon. Geo. P. McCallum and Miss Agnes Terhove had been married last March in a southern Ohio city.

The secret was well kept, and the parents of the contracting parties were not apprised of the matter until about ten days ago.

After the marriage Mr. McCallum returned to Lansing while Mrs. McCallum continued her studies at the Ypsilanti normal school.

After the adjournment of the legislature, Mr. and Mrs. McCallum visited Niagara Falls and other eastern resorts.

That of the inevitable "horse play" that the members of the legislature indulge in when one of the solemn gets married during a session, undoubtedly prompted Mr. McCallum to keep the matter a secret. He met the debating society of legislators at the Soo a few days ago and informed them of his marriage, and their chagrin at not having been able to get a wink at him during the session was painfully apparent.

Everyone in Schoolcraft county knows Mr. McCallum to be a bright, scholarly and energetic young man with a very promising future before him. Mrs. McCallum is the daughter of Mr. and Mrs. Joseph Forrester of South Manistique, and has for the past few years been a successful teacher in the schools of the county. Both have many friends who wish them, at this late date, the fullest measure of happiness and prosperity.

ARRRESTED, ESCAPED AND RECAPTURED.

S. Chapple, Ships with a bicycle, was arrested at Bay City, and on return trip escaped by jumping from moving train and was recaptured later.

Last Friday Baker & Bassford learned that S. Chapple, who has purchased a bicycle from them on the installment plan, had left town for Bay City that morning. The chief of police of that city was instructed to arrest him upon his arrival there which was done. Frank Magnus Kingstad left for Bay City on the next train to be the prisoner to that city.

On the return trip Saturday afternoon when the train was passing through the woods in the vicinity of Whitehall, the prisoner ran to the platform side of the car and leaped off. Officer Kingstad left the train at Marquette and thoroughly searched the country to Parkington without success.

Chapple has been in the employ of George Estman this summer and is about twenty years of age.

He purchased the wheel in question on July 8th and paid \$4 thereon. The understanding at the time of purchase was that he was not to take the wheel out of the county until it was paid for.

The fellow is also wanted here on the charge of forgery. He forged Ed. Waterman's name to a time order for \$20.50 and purchased a quantity of goods at one of our local stores, and paying therefor with the time order.

While Sheriff Ekstrom and Officer Kingstad were in the Swedish settlement Sunday, they found a clue that led them to believe that he had gone in the direction of Geraldus. Owing to the condition of the county road they were unable to drive through and returned to the city. Mr. Kingstad left for Seney Monday morning.

While in conversation with Deputy Sheriff Harcourt concerning the escape and the formulation of plans for his rearrest, Chapelle walked past them. As Kingstad wore a different suit the fellow did not recognize him until the officer held him up. Magnus did not take any chances this time but handcuffed the prisoner to himself.

He arrived in town with his charge Tuesday evening and placed him in jail.

Magnus is very much elated over the recapture, and his friends share his elation.

Since the above article was written Marcus Bandy, the West Side barber informs us that Chapple had received him out of \$10.00 Thursday of last week. He had an order supposedly written by Geo. Eastman that he wished Bandy to cash which Bandy did to his sorrow.

A term at Marquette stores Chapelle in the face.

UNDERWOOD PROMOTED AGAIN.

Fred D. Underwood the well-known railway man, until recently with the Soo road, who was several months ago made general manager of the Baltimore & Ohio road, has just been sent up "another notch." At a recent meeting of the board of directors of the newly-organized B. & O. company, Mr. Underwood was elected second vice-president, in addition to the position of general manager, which he still holds. This places Mr. Underwood at the head of the traffic department of the entire system, and puts in operation the road practically in his hands.

BLOOMER GIRLS CAN PLAY BALL.

They defeated the Wolverines in a score of 14 to 8 last Tuesday afternoon.

The hostess of the Bloomer Girls, an aggregation of ladies and gentlemen, crossed bats with the Wolverines at the driving park last Tuesday afternoon, and from the manner in which the Wolverines were treated with "goose eggs" is sufficient proof of the ability of the visitors to play ball.

The pitcher of the Bloomers was a lady, and her efficient work in the box won the admiration of the biggest present. The catching was a gentleman as was also the short stop.

The first baseman, a lady, also knew how to play ball. The positions outside of the four above mentioned, were filled by "sticks."

Messrs. J. P. Chappell and E. N. Ormup tried the game to the satisfaction of players and spectators.

The score of innings follows:
Wolverines..... 1 2 3 4 5 6 7 8 9
Bloomers..... 1 2 3 4 5 6 7 8 9

The names and positions of the members of the Wolverines follow:
Jack McWilliams, Catcher.
Scott Brooks, Pitcher.
Chris Fieberonit, First Base.
Frank Merwin, Second Base.
Billy Paulson, Third Base.
Geo. Saylor, Short Stop.
Fred Fauson, Center Field.
Victor Demer, Left Field.
Harry Ashford, Right Field and Captain.

There was an utter absence of radeess upon the part of the visitors and their deportment was beyond reproach during their stay here.

New Steamer Line.

The Traverse City Herald says: "It is stated that a project is on foot which may establish a steamer line from here to Manistique, the intermediate points being the bay points, Charlevoix and the Beaver islands. The chief engineer of the Beavers is the principal mover in the project."

For those who enjoy an excellent cup of tea, Golden Twigs.

Residential Work of Printer Meeting.

Last week the board of poor commissioners met and elected Mr. Duron keeper of the poor house and Dr. Bowen as county physician. Wednesday afternoon two of the three members of the board met and rescinded the action of the previous meeting. The members are in a wrangle and the present keeper and physician will hold their fort until October 31, at least.

Prohibition County Convention.

The prohibition county convention held at Schoolcraft county will be held at Manistique, August 5, 1899, in the court house at 2 o'clock p. m.

Any business that may properly arise will be transacted.

Mr. Fred E. Britton, the state chair-man will be present and address the convention.

All persons interested are invited to attend.

Try Tisseron's celebrated Oxyton Tens. C. L. Siron.

Rounding Day and Night.

J. A. McAllister has returned from Nahma where he had charge of the setting up of the machinery taken from the mill at South Manistique.

He completed his work in 42 days and all departments of the mill are now running day and night. As a machinist, Mr. McAllister has few equals. His record on the Nahma mill is certainly one of which he may well feel proud.

We endeavor to handle the best lens in the market, and feel confident that we have them in Tisseron's Celebrated Oxyton, Golden Twigs and Silver Twigs. C. L. Siron.

A Handmade Craft.

The naphtha launch recently purchased by the Ekstrom boys, Dr. Bowen and Nels Johnson, arrived on the 6th. George Tuesday, Wednesday morning the boat was tested at the dock and transported to Indian river dam where it was placed in the river. The boat is a very handsome one and has a larger seating capacity than the naphtha launch thought it would have. No doubt the owners will do a very satisfactory business in transporting passengers to and from the Spring.

Mr. Brown residing in Lakeside addition, is critically ill with a dropsical affection.

EDITORIAL COMMENT.

The Dewey boom had its reach of \$4,000.

Gov. Taylor's attitude Alger matter was a decided point.

If the state of Michigan was to be solved this Alger would be a great boon.

The power of the press was a democratic. The position of the state can only be in Detroit. It is for the sake of that city and the good of the state that we are asking for a result that will be a boon.

Manistique's claims as a great summer resort were badly shattered by the total weather during the early portion of the week.

An exchange treaty with Spain says the trust must go. There is one trust that has already gone, the trust of the people in the wisdom of the Democratic party.

If Michigan does not stand in the McKinley column during the next Republican national convention, the President's cowardly turn of Secretary Alger will be the cause.

A storm of righteous indignation has swept over the great middle west in the manner in which Secretary Alger was ridiculed out of the cabinet. Alger is more popular than ever among those knowing him.

If Alger was a good enough secretary of war during our embroilment with Spain he ought to be equal to the position now, when the only war we have on our hands is that against a ragged force of insurgents in the Philippines. The president has shown inchoate weakness in surrendering to the clamor against General Alger raised by a bunch of not very honest newspapers, in conjunction with politicians who have selfish plans to promote.—Mining Journal.

From lower peninsula papers we learn that Chase S. Osborn is thinking seriously of permitting his friends to put him forward as a candidate for the governorship. Mr. Osborn would make a hustling governor, and the party might go far before it would find a better candidate. If he should indicate his willingness to take the nomination the upper peninsula delegation would practically fold for him, though he might have something of a fight on his hands to get the delegates from Sam Stephenson's disgruntled block. Secretary of State Stearns is also spoken of as a gubernatorial possibility, but it is certain that he and Osborn will not be rival candidates for the nomination, as they are close political friends. Stearns is showing fine capacity for public affairs and would make an excellent governor. That the Republican nominee will be one of the two is easily within the bounds of possibility, and if it should be either there would be no doubt of the result of the polls.—Mining Journal.

The Democratic program for 1900 is substantially made up already. It will consist of all the imaginary horrors, woes and delirium of the Chicago platform, reinforced by the new specters of trust, militarism and anti-imperialism. The Democratic party is nothing but a ghost, gibbering vainly from the bushes at progress striding cheerily by. The Republican platform for 1900 will be a platform of achievement, of facts. It will be success and honor abroad, good times at home. It will be Cuba and Porto Rico and the Philippines. The Republicans will be able to continue in power because they have used power wisely and fortunately.

The Democrats, with their blue devils and their money devils, can do nothing against the party of victory and prosperity. To be a Democrat at present is a man must believe in many follies and many incredibilities, but the most incredible and foolish thing of all the articles which he must now subscribe is the assumption that these United States better and prouder and greater and richer than ever before, are a poor, oppressed, miserable, downtrodden, shiftless country. The Republican party knows how to rule. The Democratic party knows how to write platforms for incompetent and idiots.

The contemplated automobile trip across the country from New York to San Francisco is being hampered by vexatious delays caused by accidents. If the persons making the trip really wish to reach their destination before the end of the nineteenth century they should abandon the "mobe" and walk. Col. Ingersoll is dead. By this time he would be able to talk learnedly on the "mistakes of '98."

The administration papers that joined in the Democratic abuse of Alger will now have the pleasure of hearing President McKinley maligned as the responsible cause for all the mistakes of the war.—Detroit Journal.

Admiral Dewey is reported as saying that he has small claim to be regarded as a hero for "acronousness and bad coffee" made him seasick before the battle of Manila. The government ought to keep a large supply of that coffee on hand. What was the brand, admiral?—Detroit Journal.

Secretary Alger has made mistakes, but when the books are posted and the record made up, his management of the war department will not stand lowest in the list of those things that have given the administration prestige and the Republican party strength for future contests.—Inter Ocean.

Whatever may be said of Mr. Stephenson as a statesman it cannot be denied that he is a citizen of Menominee who never tires of working for its advancement, and much of the growth it has enjoyed of late years is due to his effort to push it along as a manufacturing and commercial center.—Mining Journal.

Some damage was done at various Lake Superior ports last Saturday by a tidal wave. At Ashland, Wis., the wave was three feet high. It is thought that the earthquake that shook up California was the cause of the wave. It has been demonstrated heretofore that seismic disturbances are of times wide spread, and affect bodies of water at a great distance from the scene of the disturbance.

The contemplated automobile trip across the country from New York to San Francisco is being hampered by vexatious delays caused by accidents. If the persons making the trip really wish to reach their destination before the end of the nineteenth century they should abandon the "mobe" and walk. Horseless carriages cannot be successfully used in this country until the roads are improved.

The states which are to elect governors this year are Ohio, Kentucky and Maryland, Iowa, Massachusetts and Mississippi. Rhode Island has already, at the April election, chosen its Governor. The six states to elect governors this year may be subdivided thus geographically: The two Western States, Ohio and Iowa, which elect in "off years" for two years' term; the three Southern or border states, Mississippi, Kentucky, and Maryland, which have a four years' term for Governor, terminating in the year preceding the Presidential election, and one New England State, Massachusetts, which adheres to the policy of an annual election for governor in November. In all the states where there is division among the Republicans, it concerns merely the candidates to be nominated; there is no contest over party principles. On the Democratic side, however, indifference is to be personally of candidates is displayed, and the division is in party principles.

NOT TO BE PRESSURE.

To the charge that the tariff has been the "mother of trusts" the response is that it has been the savior of our industries, the herald of advancing wages, the promoter of good prices, the good genius before whose magic wand depression and distrust have flown to the limbo of the damned, giving place to the brightening presence of confidence and enterprise. Satan isn't going to cast out Satan, in either church or State; and Democratic heretics, marshaled by Hoveymeyers, are not going to be entrusted with the government of the trust problem.—St. Paul Pioneer-Press.

DEWEY TURNS THE NEXT PRESIDENT
Reading, Wisconsin.

It has been understood all along by Republicans, while Democrats were talking of Admiral Dewey as a possible Democratic candidate for the presidency of the United States, that Admiral Dewey is a Republican. He has said so several times—though the hopeful Democrats do not seem to have heard him. At Trieste, yesterday, when Minister Harris, who was pouring out champagne, proposed the health of McKinley, Dewey heard the

toast, and lifting his glass said with enthusiasm: "Good health to him! I hope he will be our next president." Admiral Dewey has never taken an active part in politics. He is a broad American, and not at all the kind of man to "give up to party" but that probability is that he will be on shore and will cast a vote at the next presidential election. The hero of Manila is level-headed politically as to every other respect.

WHERE IS THAT CHINESE WALL?

It will be recalled that when Free-Trade, or at least a close approach to it, was advocated by the dominating faction of the Democracy, one of the Free-Traders' stock arguments was that a Protective Tariff was a hindrance to the development of the foreign commerce of this country. It was a favorite assertion of Democratic papers that a Protective Tariff was of the nature of a "Chinese wall" around the United States. Just how they figured it out that American manufacturers would not be able to compete with foreign manufacturers in their own countries, the advocates of Free-Trade never made very plain; but they made the assertion persistently and with emphasis. The Republican party, which has steadfastly stood for Protection for American industries, and opposed the reduction of American wages paid to the level of the wages paid in Free-Trade countries, declared that the Free-Traders were wrong, and the figures showing the phenomenal increase of our exports of manufactured goods are indisputable proof that the Republicans were right and the Democrats were wrong in this matter as they have regularly been in their attitude to ward any question of national importance.—Albany, (N. Y.) Journal.

GEN. ALGER'S RESIGNATION.
Detroit Journal.

Gen. Alger's tender of his resignation of the portfolio of the war department came as a surprise to most of his friends in Michigan, who had confidently anticipated that he would be able to stand the tremendous storm of abuse to serve out his term. His friends had been

strengthened in their hopes and belief by his many times repeated declaration that he would not surrender his post of duty while under fire unless requested to do so by his superior, and nobody in Michigan could be persuaded to believe that President McKinley would ever deem it expedient to have Gen. Alger retire from his official family.

The unexpected happened, however, and it is morally certain that while President McKinley did not directly say to Gen. Alger that his continuance in office would be a source of embarrassment to the administration, he did in a roundabout way convey the information to him, and Gen. Alger, who is a man of spirit and high sense of personal and political honor, promptly took the step required to relieve the administration and at the same time preserve his own dignity and self-respect. The condition on which he said he would base his resignation was brought about, and he surrendered as a matter of honor, not because he was compelled to do so.

There is no denying that President McKinley yielded to the pressures of the east, who have been leaning upon Gen. Alger ever since he made public the Santago letter of Col. Roosevelt, and ever before that time. The newspapers of the east, and a few publications in the west, placed no limit to their vilification of Gen. Alger. No other public man was ever so cruelly, so publicly and brutally maligned as he has been. His personal honesty was impugned; his every act misinterpreted to give provocation for bitter criticism; his every motive assumed to feed the hate of his enemies. Acts that others were entirely responsible for were ascribed to him. The storm of denunciation has been without justice and reason, and it is surprising that Gen. Alger gave it so little heed, and withstood it so long.

Gen. Alger is not the first secretary of war to feel the fangs of the "yellow journalism." Neither is he the first man in public life to suffer unjustly the outrageous fangs of demagogic destructionists. The

history of the country is filled with the wrongs done to noble-minded and patriotic-purposed public men. Washington did not escape calumny; Jackson was well-nigh overwhelmed by it; Grant felt the sting of it; Lincoln was a martyr because of it. Following the war of 1812 President Madison made three changes in the war department in that many years; Taylor made one change following the war with Mexico; Lincoln was obliged to let Cameron go in 1862 and Stanton was put in his place to be made the butt of ridicule and malice for six succeeding years.

The maliganders of Gen. Alger have never been able to make specific charges against either his integrity or his competency. The abuse of him has been based on malice, hate and partisan blindness only. When he took upon himself the duties of the office, he found confronting him conditions which had been established by the traditions of the department or by acts of congress and which he was powerless to modify or change. War came unexpectedly. The department was unprepared. It was necessary to put a big army in the field in a short space of time. The department had neither arms, equipment, ammunition nor supplies for so vast an army. Chaos reigned in the department, but with a clear mind and a steady hand Gen. Alger directed the mobilization of the troops, supplied them with necessities as rapidly as they could be produced and procured and won for the country the splendid triumph over Spain under difficulties and discouragements which would have utterly appalled a less resolute and patriotic.

He has been hounded out of office by the yellow journals of the east, but he will come back to his home neither discredited nor disgraced. The people of Michigan know Gen. Alger. They respect and love him for his broad and chivalrous manhood, for his unselfish love of country, for his spotless character and for his absolute integrity and purity of purpose.

A National Protective Legion has been organized at Gladstone, Mich. by P. R. Lutz, county commissioner of schools, is the president of same.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened itself upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed, incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose, that she slept all night, and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz," thus writes W. C. Hamrick & Co., of Shelby, N. C. Trial bottles free at E. N. Orr & Co.'s drug store.

Regular size 50c and \$1.00. Every bottle guaranteed.

Mr. B. D. Henson's new portable saw mill went into commission Tuesday. Everything is working very satisfactory.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, this was followed by pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. Let me say too much in its praise. This marvelous medicine is the surest and quickest ever in the world for all throat and lung trouble. Regular sizes 50 cents and \$1.00. Trial bottles free at E. N. Orr & Co.'s Drug Store; every bottle guaranteed."

The fight for the location of the proposed upper peninsula experiment station has narrowed down to Chippewa and Menominee. Both counties are making flattering offers.

SAID AT LUNCH

Government Leader in the House
Talks About the Transvaal
Situation.

If British Patience and Desire
for Peace Shall Avail
Anything

There Will Be No Conflict, but It
Is Folly to Say Peace Is
Assured.

LONDON, July 28.—In the course of a speech at a conservative luncheon, Mr. A. J. Balfour, first lord of the treasury and government leader in the house of commons, in discussing the Transvaal situation, said that if the government's endless patience and endless desire to prevent matters coming to a crisis, and if all the resources of diplomacy were ineffectual to untie the knot, other means must inevitably be found to loosen it. Mr. Balfour, however, said he took a more sanguine view of the situation. He understood that the Transvaal was prepared to grant substantial redress, although quite inadequate according to Great Britain's standard. It was manifestly impossible, Mr. Balfour said, that Great Britain should permanently submit to free born Englishmen being treated as of an inferior race. While he did not take a despairing view of the situation, it would be folly to pretend that all the difficulties had been solved, or to proclaim a peace which was not yet assured.

HANNA PROPERTIES IN.

Steel Trust Absorbs the Senator's Mining and Vessel Interests.

CLEVELAND, July 29.—The Iron Trade Review says: In a day or two papers will be signed by which the National Steel company acquires the well-known Chapin and Winthrop mines and the steel fleets of the Mutual Transportation company and the Menominee Transit company. All these properties are familiarly known in the trade as allied to the Hanna interests, and Mr. L. C. Hanna, who is the active head of M. A. Hanna & Co., has represented in the negotiations the various owners of both mining and vessel properties. On the part of the National Steel company the deal has been conducted by President W. E. Reis. It is a stipulation of the transaction just closed that M. A. Hanna & Co. shall handle the various properties involved.

CUT OFF TOBACCO.

Order of the Iowa Board of Control Causes Trouble in Penitentiaries.

DES MOINES, Ia., July 28.—The state board of control recently issued an order that the weekly tobacco ration of convicts in the penitentiaries should be reduced from four to two ounces and butter should be added to the regime. The order does not please the convicts. When it was first enforced the butter supply had not been received and about 800 men in the Anamosa penitentiary refused to work. The inauguration of the order was postponed until the butter should come. This was served for the first time last Saturday. Most of the men refused to touch it. Five hundred men refused to work and were taken to their cells. Monday only 18 of the regular force of 150 went to their work in the quarries. Most of the population was still in the cells.

WEDNESDAY VARDEN HUNTER... Anamosa to confer with the board. He is not in sympathy with the order and believes it will make further trouble unless rescinded. The board, however, refuses to withdraw the order and, on the other hand, proposes gradually to reduce the tobacco ration till it is no longer used.

TRAMPS CAUSED FIRE.

Believed to Have Started a Destructive Blaze at Donaldson, Minn.

HALLOCK, Minn., July 28.—A \$95,000 fire at Donaldson, the second station south of this place, destroyed the stores of Lund & Solum and A. Blomquist, also the hotel, furniture and barn of F. Hallberg, together with other smaller buildings. Lund & Solum carried a stock valued at \$30,000, with little or no insurance. The fire originated in a barn, but the cause is unknown. It is believed it was the work of tramps.

COLORED MEN TO CONFER.

Extraordinary Session of the National Federal on Called.

CHICAGO, July 28.—A call has been issued for an extraordinary session of the National Federation of Colored Men of the United States, to meet in Cleveland, O., Aug. 10, to consider questions of vital importance pertaining to the colored race. The call is signed by Rev. William Gray, president; James A. Ross, secretary, and John G. Jones, attorney.

Northwestern Flour Output.

MINNEAPOLIS, July 28.—According to The Northwestern Miller the mills at Minneapolis the past week ground 252,315 barrels of flour, against 247,745 the previous week, and 237,755 for the same week of 1898. The output at the Superior-Duluth mills was 2,960 barrels, compared with 62,010 barrels for the previous week and 25,815 in 1898. The flour market showed material improvement last week, more particularly as to volume of demand than in previous.

The Herald from Ottawa says: "Premier Laurier says his reference to war was misunderstood."

It Also Takes Occasion to Partially Outline the Canadian Position

And Mentions Points He Thinks Should Be Submitted to Arbitration.

New York, July 28.—A special to The Herald from Ottawa says: "Premier Laurier in the Canadian press this morning in qualifying his statement that his remarks were not intended to settle the Alaska boundary."

"As a member of the commission and a participant in the negotiations," he replied, "I am not at liberty to give to the public any more information than I have already given."

"Practically the whole question now is concerned in the dispute over the establishment of the boundary line in the region of the Lynn canal. The whole is to be decided by the Lynn canal."
