A. S. Putnam & Co.

Threshold, morning's assession opened with a discussion of "Potatto Growing in Dry Seasons." This subject was sivel and the series of the selection of seed potatoes and second, the subject was subject to constant tilings. Great care should be exercised in the selection of seed potatoes. He was not at all in favor of the old idea of taking the poorest potatoes for constant tilings. Great care should be exercised in the selection of the selection of the series o

cussion that followed was interesting, laboring links those present were devined some benefit from the counsiler action of the subject.

Mr. E. A. Comma then took up the subject of "How to Maintain Soil Pertility." This has discussed from the point of view of a chemic as a farmer. After having considerable expension of the point of view of a chemic as farmer. After having considerable expension of the point of view of a chemic as a farmer and the control of the contr

mer, by a careful study of his soil and crops, could fertilize his own soil matchesper. His discussion was relieved to with much interest, Bittened and with a bittened and wi

An entertainment was given more the tevening. The singing of the male chorus was especially pleasing. The program follows:
