DR. O. C. BOWEN FOR SUPERVISOR.

R. C. McKesson for Clerk, Cornelius Klugstad for Treasurer and Wm. Clemens for Highway Commissioner.

Pursuant to call the Republicans of Manistique township met at the court house last Saturday afternoon for the purpose of placing a township ticket in nomination.

The caucus was called to order by R. C. McKesson, chairman of the township committee.

After reading the call, motion prevailed that the caucus adjourn to the opera house.

When the caucus reconvened a temporary organization was effected by the election of Ed. Ashford, as secretary and the appointment of W. P. Conne and V. P. Chappel as tellers.

Messrs. W. B. Thomas and W. L. Loranger were placed in nomination for chairman. The ballot resulted as follows: Loranger 107, Thomas 106, scattering 8. Loranger was declared the choice of the caucus.

Mr. Ashford was unanimously permanent secretary and the other appointed Messrs. Chappel and Holtheim as tellers.

The nomination of supervisor being next in order Mr. B. N. Gray placed Dr. O. C. Bowen in nomination. There being no other candidates, Mr. Bowen was nominated by acclamation.

For clerk the names of R. C. McKesson and Joseph Scott were presented. The result of the ballot follows:

McKesson..... 135

The township committee for the coming year consists of S. W. Fox, W. B. Thomas and Ed. Ashford.

Just as the caucus was called to order at the opera house an alarm of fire was sounded and many left the hall. The vote was undoubtedly reduced somewhat on account of this.

Despite the fact that the chairman read the law relative to the qualifications of voters in the caucus and the penalties for illegal voters, a resident of Haverhill township voted once and when he endeavored to vote the second time, was promptly stopped by challenger W. B. Thomas.

The best known of War's War's, War's

Today last week, Mr. Polley at Grand City received a telegram from War's War's, War's, stating that his son, Nicholas G. Polley had committed suicide by shooting himself. No particulars have been received and the reasons for the rash act are not known.

The deceased was well known in this vicinity. At one time he was in the employ of Ross Bros. as book-keeper at Parkington. Early in 1898 he left

for the state of Washington and enlisted for service in the Philippines in the First Washington Regt. His regiment sailed on October 18th, 1898 and reached the land of the Tugals in plenty of time to see plenty of fighting.

Mr. Polley was wounded ten or three times and participated in six battles. He was permanently crippled by falling through the ceiling of a church. He and several other soldiers volunteered to combat several sharpshooters that were located in the belfry of the church. In walking in the gutter of the church he broke through the ceiling and fell to the stone floor a distance of forty feet.

After spending some time in the hospital he was discharged and left Manila for San Francisco on July 18th and arrived in the latter city on August 17th. He remained in the hospital for several weeks and then returned to the upper peninsula, arriving in the city on Sept. 8th, 1899.

After spending some time here he returned to Washington.

He was a very exemplary young man, a first class book-keeper and of

The Best Place to Trade,

But it might be very confusing if people did not have a good test to apply and that is to judge a merchant not by what he says in his advertisements but by what he does in value-adding. That's just the basis upon which we ask people to judge this store. We like to have our advertisements read, because they are our store-ness, but we don't ask people to take them as proof that we give the best values, that proof awaits customers at our store. We are showing the largest and best selected stock of MEN'S, BOYS and CHILDREN'S CLOTHING ever brought to town, it comprises MEN'S, BOYS and Workmanship. We are also showing a well selected line of New Spring SHOES in all the prevailing shades and styles. THE TOWNSHIP TICKET.
 The Manistique township Republicans placed an excellent ticket in the field last Saturday afternoon.
 Dr. O. C. Bowen, although a Democrat, was placed in nomination for supervisor. His excellent record as an official has made him so popular that the Republicans evidently saw the folly of placing any one else on the ticket. As he is the choice of both political parties he will be elected.

Dr. McKesson, who has so faithfully and efficiently served the township in the capacity of clerk was re-nominated, although Joseph Scott so well and favorably known contested the honor. "Doc's" Republicanism has never been questioned and he will be elected by a large majority.

Mr. Cornelius Klagstad won out for the treasurer, and that he will be elected is conceded by the opposition as no one is pitted against him. Mr. Klagstad will make an honest, conscientious official—a fitting successor to Gust Anderson. He is well liked by all knowing him and deserves the support of every Republican.

William Clemens will be elected highway commissioner and we are frank in saying that he will give universal satisfaction to the farmers in the township, who by the way are most benefited by good roads. No mistake was made when Mr. Clemens was given the nomination.
 For the minor offices very good men were selected—men that had added strength to the ticket.
 No genuine Republican can offer a valid excuse for not voting the entire ticket this year.

DR. BOWEN HEADS THE REPUBLICAN TICKET.
 Dr. Bowen, who has served the township so acceptably as supervisor last year and whose invincibility and strength was so apparent, was honored by a unanimous nomination for the Republican party at the caucus held last Saturday afternoon.

The Doctor has, is, and we are sorry to state, will perhaps always be a Democrat, but the faculty of placing a candidate against him was so apparent that the Republicans extended him the courtesy and honor of placing him in nomination. No Republican could be found that was willing to sacrifice himself by accepting the nomination.
 Mr. Bowen appreciates the token of confidence expressed by his poli-

lumb animal. A month after you are dead, no one but your creditors will remember that you ever lived. You have nothing to be concerned about.

The only way to build up a town is for it to go hand in hand, every man to the wheel, says the Michigan Trade Union. Banish all feelings of discord, if any let harmony prevail and you are sure to prosper. Let about your town, write about it, publish it, speak well of it, come on a campaign, speak at the head of an important parade, choose any workers, designate the street in every way, don't let the state too high, to learn from sending outside to make, advertise in the newspapers, favor some enterprise always and if you can't say something good keep it up. Be courteous to strangers who come among you so they will go away with a good impression. Always cheer up the men who go in for improvements. Let all labor be in sympathy and harmony and you get to the front to stay.

FOR REPRESENTATIVE.
 Hon. Geo. P. McCallum Deserves a Re-nomination and a Re-election.
 Hon. Geo. P. McCallum, who so ably represented the Delta representative district, of which Alger county is a part in its last session of the legislature, is a candidate for re-nomination, and it is a pleasure for the Republican to give its unqualified endorsement of his candidacy. His record in the '99 legislature was such that it is stout and does, commend him to the people of this district and we believe that he will be honored with a re-nomination without opposition.
 After the close of the '99 legislature Mr. McCallum resigned to accept an appointment as deputy register of the eastern district of the upper peninsula, which position he has since held. In the discharge of his duties in this important position he has displayed to the same fairness, zeal and untiring energy which made him a conspicuous and influential member of the legislature. He is a fluent, forceful and logical speaker. He has every quality which makes him an honored and respected man—honesty, integrity and character that is above reproach.

Something Worth Thinking About.
 EVERY member of a party, whatever position he may occupy in that party, has a perfect right at any time to state what he favors, and he has the further and distinct right to use all fair means to persuade other members of his party to accept his views.
 But that person should give—must give—to every other man the same freedom of choice.
 A state of public sentiment which will permit a few people in any party to say months before the caucus is held, what candidates will be named, is unrepugnant and dangerous.
 On all public questions every American who is worthy of the name carries his vote under his own hat.
 It makes little difference to the welfare of the individual what Republican is nominated, but it is of vital importance that every member of the Republican party who desires shall have his voice in selecting a candidate.
 This county should be so stirred that every Republican within its limits will feel that it is his duty to always stand for fair play.
 If Republicans are true to the traditions of their party its past history will be but a prophecy of its future.

EDITORIAL COMMENT.
 Every man on the Republican township ticket deserves the vote of his Republican comrades.
 The tobacco and sugar trusts are greatly opposed to the Porto Rico tariff bill, which is another argument in its favor.
 Defend the stung man—no one ever has to take care of him; but the spendthrift is always imposing on his relatives and friends.
 James Harcourt, who has made a first-class supervisor for Seney township has been re-nominated and will undoubtedly be elected. There are two tickets in Seney township this year and the contest will be a bitter one.

SILVER ISSUE SHELVED.
 With the enactment of the new currency law the question of a single or double monetary standard is practically eliminated from the field of politics for the present. The sound money majority in the Senate is reasonably sure of continuing for the next six years and the confirmation of the present gold standard will not be in danger of being repealed while that majority exists. There has been nothing in the past three years to make the people regret that our financial system has been maintained upon a firm and equitable basis. Business is good, there is plenty of work in all parts of the country and but very few people would regret at least four years more of these happy conditions. The best way to insure a continuance of the prosperity we are now enjoying is to keep the Republican party in power. A vote against William McKinley next fall can do not one bit of good for the silver doctrine that was a vital issue for four years ago. W. J. Bryan, if elected president, would be unable to change the law of the land and his "greatest and most vital issue" must not be really dead, at least be shelved for future consideration. Every dollar will continue to be as good as every other dollar and there is really no good reason why business conditions should be threatened and unsettled by a change of the national administration.

HIGHEST WAGE RATE EVER KNOWN.
 An advance of 10 per cent in wages to more than 20,000 employees of the National Tube Company is to take effect April 1. This is the second increase of 10 per cent, granted by the same company within six months and makes the wages of common labor higher than at any time within the history of the works.

GERMSPARK ITEMS.

THE TEEMING WEST.

The Prairie-Land of Western Canada is being filled with teeming settlers.

The salient fact that presents itself in taking a bird's-eye view of the Canadian West, is that of intense activity in every department.

It was only four days after that initial meeting in the general's tent that the general's first visit to camp, both in city and in the tented field, had been several occasions on which the general had been in conference with Mr. Prime and in company with the young ladies.

It is a good place to invite their relatives and friends to come to. This is the spirit that seems to animate the west at the present time and its efforts are to be seen on every hand.

It is an inspiring and cheering spectacle, but it brings with it great responsibilities. The business men realize this, the banks realize it, and have spread their agencies through every smiling hillside.

It is a man who has not been in the army and who disliked him accordingly, were compelled to admit, to many a woman who had never before been acquainted with a man of that name.

WHY THEY WAIT

Times Correspondent at Bloemfontein Explains the British Delay.

Would Be Satisfied to Push on Without More Adequate Preparation.

Correspondent Julian Ralph gives the Boers a Very Bad Name.

London, March 29.—The first of the Boer forces in the north is likely to continue so, if the British commander-in-chief in South Africa, General Buller, has his way. He has been so successful in his past, 4,200 miles by various routes as the probable date of the departure of the main army from Bloemfontein. It is pointed out that there will be over a week's hard marching before Kromstad is reached, though there seems no certainty that Kromstad will entirely enclose Lord Roberts' situation. The advance, which it does occur, will probably be made by parallel columns, along a level front.

The movements of the cavalry force and part of the infantry towards Glen Coe can scarcely be construed as an actual advance, although they undoubtedly point to the imminent success of a step. But only a small part of the Boer force has yet arrived at Bloemfontein, and until that movement is completed it is not likely that Lord Roberts will start for Pretoria.

Recent Post the Mail. The latest news from Bloemfontein contained in a dispatch in the second edition of The Times, and dated March 28, again dwells upon the necessity for not making a premature advance. This correspondent, who on several occasions seemed to have been chosen as the mouthpiece of Lord Roberts, writes that he should be clearly understood that the present halt in the vicinity of Bloemfontein is absolutely necessary as a military precaution. It should be borne in mind that they are about to enter upon a new phase of the operations, with the main communications through a recently occupied hostile country, and that the recent successes necessitated a great expenditure of horse power. Here and there we shall find the commencement of the South African winter, and must be prepared to face the running of the snow from the animals, which may be affected with horse sickness. It would be unwise to push forward until they are equipped to meet the exposure of winter. Horses, clothing and food we must have.

The correspondent adds that the Boer forces, however, re-equipped and he is fully convinced that 100,000 foreign troops have been landed to suit the public.

HARD ON THE BOERS. Julian Ralph Makes Some Very Strong Statements.

London, March 30.—The most serious indictment of the Boer method of warfare which has yet appeared in England comes from Julian Ralph, the American war correspondent in a letter from Kimberley, published in The Daily Mail. It is in part as follows:—

"It is a war steadily and stealthily planned by the queen's Dutch subjects and the Dutch republics for fifty two years. For between four and six years they have been equipped for it. They began purchasing arms and planning defenses before the Jameson raid. Let no one fool you with a falsehood about that. Finally President Kruger begged President Steyn to declare war three years before President Steyn committed North river my mind of the notion that you are crushing two former republics. There is not a farmer in the two countries and only one, the Free State, was a republic in any way except nominating. These people are heretics of the cattle, sheep and goats, like the Israelites of old, and the Afrikaners, Turks and Balkan peoples of today. His (the Boer) peculiar farms are an nature made them, merely razed to level without their cattle graze. On each one has put up some hut and their surroundings are almost invariably more repellent and disorderly than any houses I ever saw, except the cabins of freed slaves in the United States. Their camps and strongholds from which we have routed them are the filthiest places I have known men of any sort to live in, and I have seen red Indian, Chinese and Turkish camps and the camps many sets of black men. At their bravery and honor, I have seen and heard sufficient to fill a page of The Daily Mail with accounts of their."

Cowardly and Dastardly Behavior before I came to Kimberley. But here I find that they have been guilty of dastardly and cowardly behavior. Here they killed our wounded and laid their bodies in a row after one of the forces out of town. Here they snared many blacks to fight against us, showing all the world how scandalously fraudulent were the exclamations of horror at the lies of the employing native Indian troops. There has hardly been a battle in which the Boers have not abandoned either the white flag or the Geneva cross or both. At Spion kop one people saw them leading Maxim in ambuscade in order to get them safely away. This we saw them do at Modder river also, and at Kimberley is where the Boers shelled the funeral carriage of General Buller and his Americans. At many places they fired on our ambulances. I saw them do it at the Modder river, and saw it at the Battle of the Tugela. When we battled them again, they were a city of doctors. Every man in the streets wore the red cross bandage on his arm. These were the men who had just been shooting us from behind garden walls. There was nothing novel or original about their snoring the cowardly behavior of the Boer's. It has become quite accustomed to. We were entered a little. Boer laager after a victory and found that they were a cowardly and dastardly people.

for their patients. They have not been content with looting the houses of the loyalists in the British colonies, but in Natal, in scores of instances they have looted the houses of the loyalists, and have carried off what they did not want or could not carry off. Worse yet, they have looted the houses of the loyalists, and have carried off what they did not want or could not carry off. They never knew the value of an inch of ground and have learned it since the war began."

MAKE SPLENDID SOLDIERS. Assistant Secretary Davis Has a Good Opinion of the Boers.

New York, March 29.—Among the most interesting of the war news which appeared during the day from Cape Town was the statement of Mr. Davis, assistant secretary of the war department, that he is very much impressed by the Boer soldiers. He said that he had seen a number of them, and that they were splendidly equipped, and that they were splendidly drilled. MRS. WM. GIBBY DEAD.

Her death occurred last Monday. Was buried at Toronto, Mich.
The sad news of the death of Mrs. Wm. Gibby which occurred at her home at Thompson on Monday, March 13, was a surprise to all, as she had only been sick a short time and her recovery seemed certain. Six weeks ago she returned from Washburn, Mich., where she had been with her mother who was not expected to live. One week later she was taken with an attack of La Grippe (then followed gastric fever and fever, nervous prostration of which she died. Her husband was George C. Gibby. Some fault is being found with the appointment of delegates to the state convention embodied in the call just issued by the state central committee. The basis of representation is one delegate for each 500 votes, or moiety of 500, cast for governor at the last preceding election. In all but eight counties the committee's computation is correct, but each of the counties of Delta, Jackson, Mason, Keweenaw, Gable, Washtenaw, Oceana, and Huron is given one vote less than it should have. The computation has been very carefully made here, and the committee's figures as to these counties are evidently erroneous.
