ATTEMPTED SAFE ROBBERY.

J. J. Henck's Building Wrecked by Dynamite at Thompson's Last Night. Sheriff's men today had a good deal of trouble in getting the dynamite out of the explosion that shook the town. It was found that it was not the explosion that was the cause of the dynamite being thrown forward by the explosion and the robbers were unable to get it out. The front of the building was wrecked. Owing to the fact that there is no bank at Thompson, Mr. Henck usually carries a large sum of money in the safe. A clew is being followed by Sheriff Ekstrom and Ladies Agent Rose and the robbers will undoubtedly be captured.

PHIBERS ARE AFFIRMED.

Northwestern Cashmen's Association Holds a Meeting at Escanaba. A Marinette dispatch says: The Northwestern Cashmen's association held a meeting Tuesday afternoon at Escanaba. It was well attended, over sixty members being present. The most important action taken was to affirm the former association prices on shingles, posts and poles. Trade conditions were reported as good and the members reported a third best stock on hand than at the same time last year, which is very good indication the market is strong. The recent forest fires which destroyed several hundred thousand dollars' worth of stock have troubled them.

THE MYSTERY SOLVED.

Body of William G. Knuffman Found in Portage Lake. The Houghton Progress of Friday, May 18th says—On Saturday, April 14, William Knuffman, who was employed during the past winter as watchman on the bridge at Van Orin's, was found in a small boat, mysteriously disappeared, and no traces of the missing man were found until yesterday, when a small boy who was rowing under the dock discovered the body floating in the water. The boy immediately notified some men who were working near by, and Knuffman's body was recovered. A coroner's jury, who viewed the place and viewed the remains, after which they were removed to Krollitz's undertaking rooms. The body was badly decomposed, but letters found upon his person established his identity beyond question. Money to

 For Governor CHAS. S. OSBORN.

OUR BUSINESS AND OURS.
 As a general thing, your business is not out; but there are many times when newspapers must publish news to which some one is sure to object. The following is sure to be objectionable to N. Y. Herald editors, showing why a newspaper only does right in looking out for its own welfare.

If a man gets into court and airing of his private affairs becomes a matter of public interest, he can be reckoned as nothing but an intruder who intrudes into the newspaper which prints the court proceedings in relation to his case. And of how many people there are, who, getting into the newspaper, get into the newspaper, and the newspaper's editors and writers, if the people desire to be kept out of court and politics, they must keep out of court and politics. If they get into court and politics they might as well make up their minds beforehand that not all the newspapers will look upon them in just the light which they (the politicians) and the plaintiffs or the defendants, as the case may be, think they should.

Resolved further, That the delegates chosen by this convention to represent us at the national convention at Philadelphia, be and be are hereby authorized to cast the vote of Michigan for William McKinley for president of the United States.

Republican Convention.
 A Republican convention for Schenck county will be held at the Court House in the Village of Manistique on Wednesday June 20, 1900, at 10 o'clock p. m. to elect delegates to attend the following Republican convention yet to be held, viz:
 State Convention,
 22nd District Congressional Convention,
 30th District Senate Convention,
 11th District Representative Convention.
 The several townships will be entitled to delegates as follows, on a basis of one delegate for every 100 votes as ascertained ascertained at the last Congressional election.

Township	Total Vote	Delegates
DuBois	100	1
Genesee	100	1
Harrison	100	1
Manistique	100	1
Thompson	100	1

EDITORIAL COMMENT.

Always push a good thing along. There are but few bachelors in Manistique.

It costs more to keep a kodak than to keep a cow.

If some men were really as big as they feel somebody would have to live out doors.

This is a peculiar world; it puts thorns in a man's path and flowers over his grave.

Small pox reported at the Canadian Sea. Vaccination should be resorted to in this city.

Admiral Dewey has about decided that the presidency is not exactly what he was looking for anyway.

The Delta has started a boomlet for F. J. Merriam of Gladstone as a senatorial possibility. He would make an able senator.

Judge M. F. Tuley who has in years gone by spent the summer season here, will receive the Democratic nomination for the governorship in Illinois.

All men over estimate themselves, and as a result they think that they are not appreciated by their fellow citizens. People get all the appreciation they deserve.

Schoolcraft county will no doubt be represented in the state convention by two delegates that will remain loyal to Osborn until the next governor of Michigan is named.

The experience of many leads them to believe that the streets and yards of Manistique will never become beautiful through tree planting, as the village cows systematically kill nine-tenths of the trees annually planted.

The Democrats of the upper peninsula will have a candidate for place in the state ticket to present to the state convention. Mr. F. H. Peters of Manistique is willing to take the nomination for attorney general, we learn, and he will be backed in the convention by the solid delegation from this peninsula. Mr. Peters is a hustling vote-getter, and if the Democrats make him their nominee for the office of attorney general he will do his full share to make the campaign they will put up in this part of the state a lively one. He is popular, a good lawyer, and as full of good sense as one of Bryan's speeches in the convention of the Democrats. The Mining Journal hopes to see him walk off with the nomination, as he surely will unless he brings up too high a price for his catch. Mining Journal.

Constitution of Michigan. The following is sure to be objectionable to N. Y. Herald editors, showing why a newspaper only does right in looking out for its own welfare.

Young men do not need to go to the other side of the world to find opportunities. Plenty of chances are here, and in every other community. Most of the wealthy people have made their money here. They commenced as poor boys. Poor boys to-day who buckle down to hard work, for good habits and use ordinary judgment will be rich in 25 years. It doesn't make any difference what they go into, they will succeed. Young fellow, what are you going to be—a successful man or laborer? You may make your own choice.

Due to the indifference of our citizens the fact will go down in local history that Decoration day was not observed in the usual manner this year. There will be no speeches and the usual exercises at the opera house will be omitted. The old soldiers felt unequal to the task of taking charge of the details of placing the burden on young or shoulders. Two meetings were called to which citizens were invited, the object being the formulation of plans for the observance of the sacred day. Too few responded, and it was decided to cease striving. Although the day will not be generally observed we hope that all of citizens will feel it their duty to accompany the veterans to the cemetery and by so doing prove to them that their valiant services during the time of our nation's peril have not been forgotten.

"I look back over the history of your country and see if the party which opposed the vigorous prosecution of a war was not always regarded afterwards as unpatriotic. Did a man ever boast that he was Tory during the Revolution. Did a man in 1812 ever have a chance to be proud of a ballot cast in favor of "peace at any price"? Did you ever hear an old man brag of a ballot cast against the war with Mexico? Is there a Democrat in the North today who voted for McClellan in 1864, and is proud of the fact? Hundreds and thousands of men voted on these lines but they never dared tell it to their grandchildren, for the verdict of history was that the citizen who would not stand up for his country in time of war without equivocation or wavering, was unpatriotic. The Federalist party declined to factiously oppose the administration during the war of 1812. The Whig party never recovered from its attitude of indifference and hostility to the Mexican war. The Democratic party was out of power for a generation because it declared in 1864 that the Union could not be maintained and that peace should be made. Political cowards of all parties will be kept in retirement during the present generation because men will not forget that when armed enemies of the country were firing on the flag, there among were those who clamored for peace and gave aid and comfort to the enemy and not to the American Army. This is history and this is justice. The patriotic spirit in the breasts of men may slumber during years of peace, but when it comes to a question of their own country against another, they will never forget the political party which for partisan purposes, goes back on its own government and its own flag."—Hatchinson News.

FROM JOHN BRENNAN.

The following is an interesting letter from Mr. Brennan, who is well known in this county, but now a resident of St. Regis, Mont.

He says: "I am working most town for the St. Regis, Lambert, & Co. They are located by the western men in the west, and pay wages as good as any place from \$25 to \$45 per month and common labor is paid from \$2 to \$7.50 a day."

I spent some time over in Montana, in Idaho, on the St. Mary's river, and took up a timber claim that has 2,500,000 feet of white pine. It is nearly as good as Michigan pine and the claim is only three miles from a saw mill. The state holds 87 cents per board foot at \$1.25 stumpage and all the settlers are holding their pine for \$2.00. Mr. Dollar who has located at Delmar in Michigan is lumbering on the St. Mary's river and has a building mill at Coleraine, Idaho."

I consider it not only a pleasure but a duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was taken very badly with flux and procured a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to other sufferers from that dreadful disease.—J. W. Lynch, Dor. W. Va. This remedy is sold by E. N. Orr & Co., drugists.

What is claimed to be the greatest rapid-fire rifle of the age has just been invented by Captain John G. O'Connell of Delta county. The gun is no heavier than an ordinary hunting rifle, yet it has been fired 120 times in twenty-one seconds and 400 shots within the minute by its inventor. Twenty cartridges, held by the breech, and these may be fired in one continuous stream, the rapid blending into a "burst," so rapidly that they discharge. Twenty consecutive shots can be fired by ten pulls of the trigger, or all twenty may be fired with lightning rapidity by simply pulling the trigger once and holding it back.

Geo. H. Reeves of the Soo was a Manistique visitor Monday.

PEAK OF CHANDY.

Any adult suffering from a cold, cough, or lung troubles, bronchitis, throat or lung troubles of any nature, who will call at A. S. Putnam's will be presented with a sample bottle of Chamberlain's Cough Syrup, free of charge. Only one bottle given to each person, and none to children under ten years of age.

No throat or lung remedy ever had such a sale as Chamberlain's Cough Syrup in parts of the world.

Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only Throat and Lung Remedy generally known in Manistique.

A MUSHROOM TOWN.

Such is Lewis, and on the New Line. Hires of Interest Concerning Washburn's Success.

There were spring up around a small town, and in a night, too, but Lewis, on the New Line, six miles west of Grand Lake, Michigan, was known to all eyes and ears. There was a thick forest of birch, beech, and oak near Lewis, with great scattered holes and little trees with the juicy bark gnawed off by porcupines, and a few dead trees, but the forest as a whole and it is laid on very dead in the form of cord wood. Men with money, good men interested in Michigan who want more money, the forest and under the trees, charcoal and wood alcohol. This was only a year ago and since then more than 50,000 cords of wood have been cut. That is why Lewis was born so suddenly. And such a money center to Michigan, Pennsylvania, New York, New Jersey, New England, and elsewhere. You know anybody that can pull a cross-cut saw, swing an ax or wield a pitting sledge at a dollar a cord. Dick Daniloff and his partner cut forty-four and three-quarter cords of wood and piled it in six days week before last. That is the banner record and it would be hard to beat anywhere. The very pleasant Napoleon Venetis, of Whitfalls, has the contract for drawing the road and hauling it on the cars. Frank Stroughton has built a wood dock, high and strong, so the teams can haul the wood to a point higher than the cars, and it will be down work loading and no lifting. Billy Beck, Tom Benson, Al. Stroughton, George Wilson and Jack Durston, are the best asquaps of wood choppers and they haul from Michigan City, Norway, Kalkaska, Canada and through respectively. They are ready to play star parts as gentlemen, or fight at the drop of the hat, or work like tigers, or go fishing. Everything goes on at Lewis. Ed. Massey keeps a saloon in a log hut. One of his boys is shorter than the other and the boys call him "Stoop-and-a-half." Last Sunday, "Stoop-and-a-half" had \$104 stolen and as the money had been first earned by the sweat of the wood chopper's, so no money a day, there was no cry on the shanty doors. Foreman Cook, who is watchful and popular, is just now exercised right and day for fear of fire. There is a desert of inflammable brush and wood at Lewis and a fire would mean destruction, if not death.

Section Foreman F. E. Leslie, Postmaster Coffey, Will Barbeck and Mr. Stremlaker, all help to make Lewis an inhabitable place, and they are all good people to have in any community. Pete Dalbee, who really enjoys eating skunks and can tell in a mile off is rather the king of Lewis. In a typical mushroom town of the north woods and it is likely to go as fast as it came.

They Will Keep It Confidential.

The census enumerators are bound by their oath and by law to keep all information communicated to them strictly private. Also that the valuation of property will not and cannot be used for assessment for tax levy. Many questions in regard to farm statistics seen useless, because it will be impossible to give only a reasonable estimate. For instance: The number of dozen eggs, value of eggs sold or consumed; number of gallons milk; milk sold; milk sold or consumed. It is the number of everything raised and the value of same, and the value of everything sold.
