EDITORIAL COMMENT.

Mr. Bryan's latest outburst... The people of this State are entitled to know the truth.

When a man in any business becomes a good fellow heaven help the men who hold his note.

Alger county elected delegates favorable to Representative McCullum—in fact he was invited by the convention to name his delegates.

King Oscar of Sweden thinks that too many of his subjects come to the United States—but Uncle Sam does not object to the class of immigrants he gets from Sweden and Norway and Denmark.

Wool growers are getting 400 per cent. more for wool than they got in the last Democratic administration.

When a person reaches that period that he does not eat more eggs than usual on Easter, when he doesn't shoot firecrackers on the Fourth, and play the guitar on Thanksgiving, his ideals are far behind his—never to be ahead of him again.

Nearly one-half of the Republican editors of the upper peninsula attended the Republican convention this week and of necessity edited their papers with the shears and paste pot.

The only piece of national legislation for which the Democratic party has been responsible, since the election of Abraham Lincoln, is the Wilson-Gorman Tariff bill, a measure despised by its authors, hated by its sponsors, and which won no support.

Mr. Bryan who will be nominated for the presidency by the Democratic aggregation, has announced his intention of remaining at home during the campaign and will refrain from speech making.

It is most satisfactory to observe that our manufacturers are making enormous headway in competition with those of other countries.

The foreign demand is after all a small percentage of the home consumption—Troy Times.

The trusts are not having things their own way by any means. Officers and directors of the Ice Trust, of New York, have been summoned to show why they should not be proceeded against criminally on the charge of conspiracy.

Never in the history of the party did a more representative and able political body assemble than the Philadelphia national convention of this year and never did a body of that kind perform its work in a more dignified and acceptable manner.

The convention and its results show that the grand old Republican party is still as virile as ever; that it is united and harmonious; that it possesses brilliant statesmen, and that it is imbued with honesty, intelligence, patriotism, and sound business sense.

The ticket is an "omen of victory" throughout where the ticket is cast and will be more popular where the ticket of 1896 was unpopular.

A SOLDIER'S LETTER

To the H. E. McKeown, these lines come from the
 soldiers of Army life in the Philippines.

St. Louis, P. L., May 10, 1900.

My Kind Friend:

I was very much pleased to receive your kind and welcome letter of March 11th, about two weeks ago. I would have answered it sooner if I had been in the Co. quarters but the same day that I received it I was sent out with 15 other men to guard an patrol the R. R. and I was out for five days but had no chance to write until today. We just came in yesterday. I had only received your letter a couple of days since I found I had my pack of several hundred letters to pack you that I never thought of you wanting me until I received your letter. I was down to Regimental Hdq. on a court martial case and while there I took a stroll over the battle grounds of Cebu and on Malabon up to Palo, and found skeletons in great abundance. If I had only known that I would have picked out one skull with a bullet hole through the top and sent it to you then I had a fine chance. But never mind, I will send you one the first chance I get if it takes from now until Christmas. I am very liable to go out almost any day on a hike and then again I may not go out for several weeks. I have some bullets and cartridges that I picked up on different battle fields and I will send you a sample of what kind the insurgents use now also our own kind. The insurgents use the Mauser and the Remington and we have the Krag Jorgensen rifle. There has been a few Winchester found with the insurgents. I don't know where they got them but perhaps they were sent to them by some of their patriotic aunts from the States. The insurgents say that the States had not been for the encouragement they received from some of our very good and patriotic Americans in America. I suppose they refer to some of those great American patriots at home that are praying for the defeat of the U. S. army in the Philippines that we have heard about so often for the last year. Many a good soldier's chest can be laid at their door. What would the nation come to if it was not for its brave lot of soldiers. We have heard about it that if they were by any chance placed on the firing line they would crawl into their hole and pull their hole in after them, for fear that they would get their valuable hides punctured. But I suppose there is money in it for them, and you know that money makes the mare go. It will even make some men go to—ll. Well I guess I have preached enough and I had better finish my letter now. The new peace commission is expected to arrive in Manila today and if they do as well as the others that came before them, there is no telling how soon they will be in the field. For my part I don't care how soon it is ended. If it was left to the soldiers they could put an end to it in a week. They would put all the insurgents under ground and I guess they would stay there. Every native Tagalog in the Philippines is an insurrectionist and he will hold an American every chance he gets.

The rainy season is coming on now and we can prepare for a lively time even in the heart of Manila itself. The natives will come around and be the best of friends with the soldiers and do anything for them during the day, and as soon as night comes they will come out and change their Amgo clothes for their uniform and get their gun from his hiding place and sneak up on our outposts which have been located through the day, and take the fight as it comes during the night. During the day they are in town again and are playing (Mucho Amago), which means (good and faithful friends).

The 3d Inf. was stationed in Balang on May 29, 1899 till Dec. 18, 1899 and were kept busy most of the time. We had 16 outposts around the town, and I Co. were on outpost every day and at night we couldn't tell at what minute a volley of Mausers and Remingtons would come tearing through our quarters. Gen. Pinar made several strong attacks on Balang but we repulsed him each time. The last and heaviest attack was on the night of Nov. 8th. There was about 1,700 in the attacking party. The attack opened up at 11:10 p. m. and lasted till about 1:30 a. m. There were only 4 companies of the 3d in the town and we had our hands full but the whole Filipino army couldn't have done us out. They only made two attacks in the daytime. The first one was on May 25th, just a couple of days after we took up quarters in the town, and the second attack was on August 14th. They were both pretty fierce attacks but from the Krag began to bark in good earnest. Mr. Gage, just made himself scarce. One Co. of the 3d could hold up about 100 men and each man had 100 rounds of ammunition in his belt, and he could empty his belt in 30 minutes. Some of the men had 100 rounds in 15 minutes. The Gun barrer gets pretty hot but it doesn't matter about that, it is soooof as of as soon as we stop shooting. The most I ever fired in one day was about 20 rounds, and that was on the 23d of last year. On that day 10 Co. of the 3d Inf. were attacked by a very large force of the enemy under command of Gen. Pinar. They were attacking from San Miguel to Balang, and we had some of the hardest fighting that

Winkelman's Busy Store, MANISTIQUE.

you have been on the island. We were outnumbered 4 to 1 but we were too much for them at that. We lost 14 out of 20 men and as near as we could find out the insurgents loss was about 100.

You can figure it up and see what a awful storm of steel that a regiment of well trained troops arranged to put on the hills after the next day as just as effective as one they the Marlin or Winchester is at 60 rods. As a rule we carry from 40 to 60 extra rounds in our haversacks when we are out on the hills after the insurgents. I got quite a nice relic near Somigui which I sent home. It was a fine saddle blanket all embroidered with gold been offered \$500 for it, but it is not for sale so she says. I have had several balos, which I took from dead or wounded Philippines but it was too much trouble too carry them, so I gave quite a lot of them into the first mudhole or river that I came to.

We have only 108 men on the Co. rolls now, but we expect 25 recruits soon on the transport Sumner which is due here in a few days from N. Y. I had a very nice passage across the Indian Ocean. As we were entering the Straits of Malacca we ran into one of the changeable and base that were to be found in those waters. We were stuck fast in the sand for several hours. While there we had a fine view of several water spouts at a distance

from about one-half mile to five miles. Singatros were our last stop before reaching Manila. We landed in Manila on March 23d and on the 25th we were on the line on our way to Mololo which was captured the 29th, and we have been pounding away at the insurgents ever since.

I don't think that I know any of the Manila boys that you say are here. Do you know what regiment and company they are in? Do you know where little Joe Mitchell is? I wrote to him but I don't think he got my letter or he would have answered it. If you see him tell him that I am all right and having lots of hunting and shooting now. But I have not run across any deer here yet, although there are deer in the mountains. I have seen several deer hides and also heads with the horns still on, and they look about the same as the deer of Michigan only a little smaller.

Well now Dr. I will bring my letter to close as you must be tired reading by this time. I will send you that skull as soon as I get my hands on one and I will send you some papers with a couple nice relics rolled up in them, with this same mail. I have got less than 18 months to serve now and then I want to go to God's country as soon as I can get there.

Hopeing this will find you well, as it leaves me, I remain,

PARRIC O. COYLE.

Animal Instinct.

One of the unexplainable things of the instinct of animals came to pass recently in Menominee. George McKinney has been lumbering at a place named Shingleton, on the D. S. & A. R. R. the past winter. Shingleton is about 175 miles from Menominee. At the time of breaking camp this spring a large striped colored cat, which the lumber boys of the camp called "Dewey," was boxed up in a cucker box and loaded on a box car together with other camp outfit and shipped via Marquette to Menominee. "Dewey," with the rest, arrived there in due time and taken to the home of Mr. McKinney, on Stephenson avenue, to make war on rats and mice. "Dewey" walked about for a few days, sitting up the lay of the land about his new home, and evidently concluded he was doing all right in his new quarters. He did not get into the car five days from the time he was missed in Menominee he turned up again at Shingleton, 175 miles away.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a super-coated globe of health, that changes weakness into strength, lifelessness into energy, braggadocio into mental power. They're wonderful in building up the body. Only 25c per box. Sold by E. N. Orr & Co., 43

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired listless run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, of Idaville, Ind. He says: "I'm a victim to Bitters. It's just the thing for a man when he is all run down and don't care whether he lives or dies. It did more to give me strength and good appetite than anything I could take. I can now eat anything and have new lease on life." Only one cent at E. N. Orr & Co.'s Drug Store. Every bottle guaranteed.

Four Logging Cars Run over Him.

Mr. Chas. Brabant a German, while engaged in making a camp at Friday on the P. & O.'s camps set Friday fell under the train and four empty logging cars passed over him. He was severely bruised and the top of one foot was badly mangled. One of his legs were also fractured. Dr. Green of Menistung was called to attend him and on Saturday the doctor took him to the Marquette hospital. The injured man was so fortunate as to have a ticket on the hospital in question.

Would Not Suffer Anymore Again for Fifty Years.

I woke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose freed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter, for I should not care to endure the sufferings of last night again for fifty times its price.—G. H. Wray, Livermore, Burgesstown, Washington Co., Pa. This remedy is for sale by A. S. Putnam & Co.
