THE SUPERVISORS MEETING.

The Board completed a three day session Wednesday evening.
The board of supervisors of Schoolcraft county convened in annual session last Monday.
As is usually the case at annual meetings, a large number of bills were audited.
As the official proceedings will appear in next week's issue we will publish a brief summary of the work done in this issue.

It was decided to insure the movable property of the county in the court houses in the sum of \$1,000.
Motion prevailed that the order on the poor fund shall draw 7 per cent. interest from date until January 15th, 1901.

Messrs. Crain, Bausher and Craver were appointed a committee to settle with the county treasurer.
It was decided to heat the poor house and jail with furnaces or stoves, also to light the poor house with electricity.

The estimates made for the conduct of the county during the coming year were fixed at \$26,000 of which amount \$6,000 will be utilized in caring for the poor of the county. This with the state appropriation of \$7896.16 aggregates \$33,896.16 to be raised by taxation. This amount was apportioned to the several townships.
Messrs. Crain, Craver and Jared H. Stauffer were elected county canvassers of election for a period of two years and their salaries fixed at \$4 a day and 10 cents per mile one way.

No changes were made in salaries of county officials and they are as follows:
Sheriff, \$1,000; clerk, \$1,200; treasurer, \$1,200; prosecuting attorney, \$1,000; probate judge, \$500; commissioner of schools, \$500; superintendents of the poor, \$500 each, Manistique number, \$300.
Mr. C. W. Dunton was elected school examiner and John Patterson poor commissioner.

The board adjourned Wednesday evening.

He Pleaded Guilty.
Wilson who robbed Emil Anderson of \$250.00, had his preliminary hearing before Justice Hill Monday. He pleaded guilty and was bound over to the January term of the circuit court in the sum of \$1,000 with two sureties. Being unable to furnish bonds he was remanded to jail.

WOMEN STAMP THE COUNTY.

At a meeting of the Republican county central committee held at the office of the secretary last Friday evening it was decided to hold meetings in various townships during the remainder of the campaign. Among the candidates are several good speakers, notably Messrs. Hissom, VanTassell, Carpenter, McCallum and Rogers. Meetings have been arranged thus far as follows:
South Manistique, tonight.
Whiteville, Monday, Oct. 15th.
Cooks, Wednesday, Oct. 17th.
It is to be hoped that these meetings will be largely attended.

Tenured a Reception.
A reception was tendered Dec. O'Brien and family at the Methodist church last Tuesday evening. The same was largely attended by members of the church and congregation. Mrs. Branch and Rooney, who were invited and present, delivered short addresses, welcoming Mr. O'Brien to Manistique. Refreshments were served.

The C. L. Co's Store Burglarized.

A MUTINY ABOARD.

One of the Deckhands of the Ste. Fancie C. Hart Muthy During a Heavy Squall. They Refused to Assist the Firemen.

Last Saturday night, the Ste. Fancie C. Hart, mounted heavy seas while enroute from the Straits to Manistique. When almost 800 miles out, Capt. H. W. Hart noticed that the firemen were unable to keep up sufficient steam and the boat was in grave danger of being wrecked by the force of the waves as she was commencing to drift. Realizing the danger, Capt. Hart, ordered the deckhands to assist the firemen. This they refused to do, and the boat was in danger of being wrecked. The first mate, sawed them by using force in getting the men to the coal bunkers. When the boat arrived here, nine of the deckhands deserted, and had Rollins arrested. The hearing was set for Monday and Rollins was left in custody of Agent Wickwire of the dock. The complainants were lodged in jail as they were penniless.

After being convinced by Mr. Wickwire that the local officers had no jurisdiction as the affair occurred on the high seas beyond the three mile limit, Rollins was released and the plaintiffs after having been collectively paid \$34.84, paid the cost amounting to about \$7.00.

It may not be generally understood but nevertheless it is true that a captain on the high seas has unlimited authority to impress his crew, or if necessary, his passengers, into active service of any nature if the gravity of the situation warrants.
The boat left port without the ballast.

A GOOD THING.

A Local Accident and Sick Benefit Association to be organized in Manistique.
An effort is being made to perfect the organization of an association that provides for indemnity in cases of disability, accident and death.

The organization will be known as the Northern Michigan Benefit Association and the headquarters of the association will be Manistique. The organization will be perfected at a meeting to be held at the law office of Peters & Jersey on Monday, November 12th, 1900 at which time trustees and officers will be elected.
We understand that a number of the large employers of labor, as well as prominent business men have given the plan their sanction and will be active in the conduct of its affairs. We are in hearty accord with the objects and plans of the association, thousands of dollars are annually spent from this county to swell the coffers of similar organizations. Why not organize one here and keep the money at home?
The adaptability of a wage earner carrying protection in case of accident, sickness or death is so generally conceded that it is unnecessary to urge the point. The company will be incorporated under the laws of the state of Michigan and will have ample capital.

Postponed.
The glove contest between Billy Stewart, the Soo Kid, and Mike Connors of Bay City, has been postponed to Wednesday evening of next week owing to the fact the opera house will be utilized for the Republican rally on Tuesday evening. The contest is for \$50 a side.

Went Ashore.
The Schooner Mary Collins, sent ashore at Little Harbor last Saturday night about midnight. The wind was blowing a gale and a fog made it well nigh impossible for the captain to keep on his course. The compass was at fault too. The tug Elmer went to her assistance but was unable to move her as she was out two feet. The wrecking tug Monarch of Escanaba succeeded in releasing her. The schooner was enroute to Manistique for lumber at the time the accident occurred.

Political Rally.
Hon. George Tucker, of Marquette, will discuss politics from the Republican standpoint, at the opera house next Tuesday evening. Mr. Tucker is a brilliant speaker and all persons irrespective of political belief are cordially invited to attend. The Manistique band has been engaged for the occasion.

Rough and Tumble Suits for boys are just the thing for school wear. See them at Winkelman's.

EDITORIAL COMMENT

Byran is advertised to be on his last tour. We sincerely hope so.

No Republican can present a valid excuse for not voting the straight Republican ticket next month.

Mayor Eli Brizette of St. Ignace has been nominated for representative by the Democrats of the Chippewa district.

The state tax rate will not exceed 1 1/2 per cent. This great reduction is the result of the painstaking work of the tax commission.

Democratic thugs assailed Roosevelt at Chicago last Sunday morning while waiting a church where he had attended services.

Mr. Bryan produces a decided novelty in argument when he declares that he will continue McKinley times to defeat McKinley.

Railroad Commissioner Osborn has been compelled to cancel his speaking dates until further notice on account of the calling of the extra session.

No man is capable of forecasting what may take place during the next few weeks; but there is every reason to believe that the victory has already been gained. The Republican managers have only to hold what they have won.—Detroit Free Press.

Six years ago Gen. Jacob Coxey was leading an army of the unemployed to Washington to protest against the hard times; now, he is advertising for men to work on the immense steel casting plant which he is erecting at Mount Vernon, Ohio, at a cost of \$50,000.

Before the Republican party came into power he had to lead men in search of jobs; now, he has a big job which is hunting for men.—St. Paul Dispatch.

If there's any man hereabouts who isn't better off now than he was four years ago he ought to vote for Bryan; but if he is better off now he had to lead men in search of jobs for McKinley. He can trace it out in history for himself. The most prosperous times have always been under Republican rule.

THE COUNTY TICKET.

For Probate Judge, JOSEPH H. VAN TASSIE.

For Clerk and Register of Deeds, EDMUND ASHFIELD.

For Sheriff, ELMER D. GARR.

For Treasurer, GEORGE G. BOGREN.

For Prosecuting Attorney, VIRGIL H. HARRON.

For Circuit Court Commissioner, JOHN C. MESSINGER.

For Coroner, SAMUEL MIX.

THE TICKET STRAIGHT.

The Iron Port truthfully says: There may be personal reasons why a voter of one political faith should wish to vote for a candidate of the opposite party, but this is at the best very poor politics. Every vote cast by a republican for a democratic candidate weakens his ticket in the same degree as it strengthens the opposition. The election of a candidate on the opposition ticket is but a step towards the defeat of the entire ticket; and the surrender of the principles of the party of which the same voter is supposed to be an integral part. In a presidential election especially it behooves the true republican to work and vote for the republican ticket in its entirety. The principles set forth at the convention in Philadelphia are

stroyed, but I also want silver restored at the ratio of 16 to 1, and want the national banks deprived of the power to issue paper money.

A WORD TO REPUBLICANS.

The Sturgeon Bay Advocate truthfully says:

The necessity of going to the polls and voting is one that must always be urged upon Republicans as a class. Republicans are the most careless and indifferent about turning out on election day. Especially sparsely settled districts. While Republicans in the rural districts neglect to vote on account of the distance of the polls and the inconvenience it may be, the Democrats of the cities are sure to turn out to a man. This natural Republican majority may be easily overcome, sometimes by the indifference of Republicans in the country coupled with activity of Democrats in the city. Nobody ever heard of the Democrats failing to poll their full or nearly their full vote. They go together, pull together, vote together, and turn out rain or shine. It is a statistical fact that except on special occasions, more than sixty-five per cent of the Republican vote has been polled in this state heretofore, except 1893. It is when Republicans are drowsy that the Democrats swarm to the polls and sometimes sweep the elections from their napping opponents. This year the circumstances will admit of no apathy on the part of Republicans. It is essential that every Republican get to the polls and vote. With nine or ten tickets in the field, it is difficult to tell what combinations may be sprung upon the voters. It is not safe for any Republicans to neglect to vote on the supposition that his vote will not affect the result. A hundred or more such Republicans taken together, will weaken the state. Let each Republican look to his own vote, and majorities will take care of themselves.

GEORGE IN HIS SHANE.

The fusion candidate for president meets the charge that he is giving aid and comfort to the Filipino insurgents with unabashed front. In fact, the tenor of his remarks upon this head, in his address to the Democratic clubs at Indianapolis, tend to convey the impression that he glories in having been the means of nerveing the arms of the Filipino strikers at the breasts of American soldiers. "They do me too much honor," he said, "when they say that I am responsible for the Filipino hatred of foreign domination."

Fernande Lobsters, nothing finer. C. L. Grocery Dept.

As Mr. Hruska, the Democratic candidate for county treasurer is compelled to hire a book-keeper to keep his books as proprietor of a meat market at Thompson's, the question naturally arises who would be elected, Rumer has it that a Republican has been selected.

A COUNTY FAIR.

A Number of Business Men Favor the Idea.

During the past week quite a number of business men have expressed their desire to assist in the preliminary steps toward organizing a fair association. They think that a fair would bring hundreds if not thousands of people to Manistique and while here they would undoubtedly expend much money among the merchants.

Of course it is too late to take active steps in the formation of an association, but we hope that the matter will be so thoroughly agitated the coming winter and spring that a strong organization may be the result.

There is a first-class field here for such an enterprise. The organization might include surrounding counties.

We have often advocated the question and hope that in the near future a county fair in Schoolcraft county may become a reality.

OFFICIAL CALL.
Pinger's Proclamation Calling the Session.
The following is the text of Gov. Pinger's proclamation, calling the legislators together in extraordinary session.

The full text of the governor's proclamation is as follows:
An extraordinary condition, and one which requires the immediate attention of the state, has arisen, the subject of taxation. It is the duty of the governor, under the provisions of the constitution, to call the legislature together in extraordinary session, when he deems it necessary for the public interest.

Partial session of the legislature through the law creating the commission on the subject of taxation. The commission has reported, and the legislature has passed a law, which is now in force. The law provides for the assessment of property, and the collection of taxes. It is the duty of the governor to see that the law is faithfully executed.

EXCESSIVE TAXATION.
The expense to the state of an extra session of the legislature is trivial as compared with the benefits to be derived from a proper solution of the question. The people are entitled to know that their servants, charged with the duty of solving the problem, are faithful to their trusts.

The action of the supreme court of this state upon the principle involved in the Atkinson bill makes it necessary to amend the constitution. It is, therefore, necessary to adopt an amendment to the constitution, so that property now paying specific taxation upon earnings, can be taxed at its true cash value.

PEOPLE CAN BE TRUSTED.
The people can be trusted to vote upon a constitutional amendment which shall make it possible to pass a proper tax law. They should be given the opportunity denied by the legislature at its regular session in 1890, and the special session of the same year.

NOT ONLY HAVE ALL THE RAILROADS OF THE STATE THIS ENJOYED SPECIAL PRIVILEGES AND EXTENSIONS UNDER THE LAWS, BUT SOME OF THEM POSSESS RIGHTS SECURED TO THEM BY SPECIAL CHARTER, NOT ENJOYED BY KING OR PEASANT.

ACTING UNDER AUTHORITY OF SECTION 7, OF ARTICLE 5, OF THE CONSTITUTION OF THE STATE OF MICHIGAN, I hereby call the legislature of the state of Michigan to meet in extraordinary session on Wednesday, the tenth day of October, A. D. 1900, at 12 o'clock noon of that day, to consider the question of the submission of an amendment or amendments to the constitution which will permit the enactment of laws that will provide for the equal taxation of all property by an assessment of the same at its cash value, and for the purpose of repealing or amending the special charters of railroads and other companies, and for the consideration of such other matters as may be submitted to you by special message.

PROSPECTS BRIGHT.
English Capitalists May Purchase the Golden Star and Island Falls Properties.
The following from the Evening Telegram, Vancouver, will not only interest local stockholders of companies mentioned.

For two years or more a mining enterprise, the Golden Star and Island Falls, has been devoting its attention to a quiet way to the Island Falls district, and the property of the Golden Star and Island Falls, and is now here negotiating the purchase of a group of claims in that district. The deal, however, is not yet consummated. The others are mentioned in Toronto, Montreal, Duluth and Vancouver. The transactions have been kept under cover and very little of the details are yet known. It is said, however, that the total amount involved in securing all the claims covered by the combination is several hundred thousand dollars, and that the owners hold out for an exorbitant sum. The entire group of properties will pass into the hands of a New York syndicate which will operate them upon an extensive scale.

Gentlemen—I feel it my duty to express to you my gratitude for your wonderful remedy has done for me. I was completely run down with a complication of stomach troubles. For ten months I could not work and was treated by three eminent physicians. One insisted upon operating on me, declaring nothing short of a cure for appendicitis would cure me. A friend induced me to try Dr. Caldwell's Syrup Pepsin and from the first dose I began to improve, and I have gained six months in weight and am enjoying the very best of health. The Troyes Jones debate through the columns of the News and Democrat as to who is the fastest sprinter, begins to leave a bad taste in the mouths of people. For however's sake gentlemen either run a foot-race or forget there is such a thing as a newspaper—50c Times.

PETER SVRBY CO, Monticello, Ill.
Gentlemen—I feel it my duty to express to you my gratitude for your wonderful remedy has done for me. I was completely run down with a complication of stomach troubles. For ten months I could not work and was treated by three eminent physicians. One insisted upon operating on me, declaring nothing short of a cure for appendicitis would cure me. A friend induced me to try Dr. Caldwell's Syrup Pepsin and from the first dose I began to improve, and I have gained six months in weight and am enjoying the very best of health. I never fail to say a good word for Dr. Caldwell's Syrup Pepsin for I know what it has done for me it will do for others—Gratefully yours,
Peter Svrby Co.

FAVOR McKinLEY AND CONTINUED PROSPERITY.

Peculiar Position of the Southern Business Men.

Empathic in Favor of Sound Money and Protection, and Are Satisfied to Let Well Enough Alone.

The South is becoming gradually convinced of the fact that the policy of the Republican party is one that will best promote the interests of that section of the country.

It is, Foster, vice-president of the Bank of Anderson County, Georgia, says: "What I was a Democrat and voted three times for Bryan for President, because he is their party member, but the business men in that country really prefer to see Mr. McKinley elected, believing that such a result would be to their advantage."

H. F. Sawyer, cashier First National Bank, Houston, Texas: "I have believed that Bryan's election would bring financial disaster over our beloved country, degradation to our flag and ruin to McKinley's election, continued prosperity and all nations honor our flag which ever it is thrown to the breeze."

W. W. Slaughter, assistant cashier, Wichita County Bank, Harrisville, W. Va.: "Democrats and Republicans both agree that times are better now than before the country's history. McKinley, protection and sound money is the cry from all lips."

Joseph S. Davis, cashier First National Bank, Albany, Ga.: "The conservative business men of the South, almost without exception, regard the doctrine of free trade as a menace to the country's prosperity. But what they really would like to see is a continuation of the present prosperity."

W. F. Satterfield, cashier People's National Bank, New Iberia, La.: "The country has never been so prosperous as since the election of Mr. McKinley. We want to see his good work continued."

G. V. Mason, president Capital City Bank, Tallahassee, Fla.: "The political party that maintains an honest, stable currency, with in my opinion, best protects the business interests of the country."

J. K. Hagadone, Blair, S. D.: "I believe the election of Mr. Bryan to the presidency of the United States would cause a money panic."

P. A. Piper & Co., bankers, Uvalde, Texas: "We are doing well; he satisfied and he is satisfied."

W. S. Wilson, cashier Deposit Bank, Eminence, Ky.: "It is my opinion that the election of Mr. McKinley will be for the business interests of the country. I am a Democrat, but I am contented it is to our interest to make no change in the President."

P. A. Ball, cashier American National Bank, Fort Smith, Ark.: "This election of a degree of prosperity as at present time. We are well satisfied with McKinley's administration, and for my part apprehend that a change would prove disastrous to every business enterprise."

A. E. Watson, president First National Bank, Martin, Texas: "The business outlook is good. In our opinion the election of Mr. Bryan to the presidency would give rise to serious business interest in the country."

William Powell, cashier Bank of Columbus, Columbus, Ga.: "I am a Northerner. While he (Mr. Bryan) might not be able to fold his free silver issue upon the country, it would be dangerous to give him the chance to do so, and only for the reason, that I believe that this would be the verdict of the voters of Georgia."

O. P. Luttrell, cashier Bank of Brownsville, Ala.: "I am contented with the consensus of opinion among the leading business men that the business and commercial interests of the country will be best subserved by the election of Mr. McKinley. No one denies that the election of Bryan would be adverse to all business."

J. B. Carter, president Grubbs-Carter Wholesale Grain Co., Shreveport, La.: "As far as presidential candidates I do not think it advisable to make a change at this particular time."

C. W. Arnett, Fairmont, W. Va.: "Bryan's election would mean disaster to the return of the policy of free trade, destruction of public credit, the reduction of work and wages, and the repetition of the scenes of hardship which filled the land during the late Democratic administration."

O. G. Bourman, National Bank, Houston, Texas: "I believe that the business interests of the country would be injured less by the election of President McKinley than by Mr. Bryan."

SIMON GREY'S FAMILY. A STORY OF COUNTRY LIFE. BY ALMA L. PARKER, GUIDE ROCK, NEB.

CHAPTER V.—Continued. "Well, don't worry, father. Do the best you can, and if you can't pay the mortgage, I'll pay it for you."

"You are a good girl, Vinnie. My best would be proud of you if you'd only let them Harrison men alone."

"Vinnie smiled, but she did not answer him. They had argued that subject so many times that she tried to avoid it."

"Well, Vinnie," he said finally, "must bid you good-by and hurry back to Boonville to get these cattle from Harrison gets them." So saying, he was gone.

The next day Vinnie received a postal card, stating that he had got his share on old man Harrison's stock. She presumed he had made his purchase.

ISSUE BOILED DOWN.

"Shall we run our mills full time, our mines and our factories full time and find a market for our surplus about, or shall we shut down one third of our producing capacity in order to oblige Mr. Bryan? There is the labor question boiled down, and that is the main issue in a part of it."

For centuries the nations have held along either gold and silver, or gold and copper, or gold and iron, or gold and tin, or gold and lead, or gold and zinc, or gold and nickel, or gold and platinum, or gold and any other metal, but they have never found a better standard than gold."

FARMERS NOT DECEIVED BY BRYAN'S ARGUMENTS.

The total increase of the value of farm animals between 1896 and 1899 was \$201,444,744. This and the increase in crop values represent an enormous gain to the farmer.

Table with 2 columns: Farm animal and value. Items include Cattle, Horses, Sheep, Pigs, etc.

The figure on farm animals included the value of horses, mules, cows, other cattle and sheep, but not swine. The farmers are not to be fooled by Mr. Bryan's statement made by all accepting the Populist and Free Silverite nominations. Mr. Bryan then said: "The prosperity argument which the Republicans bring forward will not deceive the farmer because the man-made dollar is the farmer's pocket piece."

More Free Carried. According to "Poor's Manual of Railroads," which is about to be issued, the quantity of freight carried by all railroads of the United States in 1890 was 129,891,000,000 ton-miles; that in 1891 was 134,000,000,000 ton-miles; and in 1892 was 138,000,000,000 ton-miles. This is the largest record in the history of the country, and is only another proof of the prosperity of the nation.

VITAL ISSUES of the Day Are Discussed on Prominent and Live Topics BY EXPERTS

HOAR. HORNBLOWER. SCOTT. EAMES. WARREN. BALDWIN.

MASSACHUSETTS SENATOR AGAINST BRYANISM.

No Confidence in a Party that Denies Self-Government.

The Real Issue is the Preservation of National Financial Honor and Not Whether Aguinaldo Shall Succeed.

(By Hon. George F. Hoar, United States Senator.)

I am asked to state briefly why I think anti-imperialists should vote for President McKinley this fall. There is in my judgment such a thing as imperialism. The imperialists say the Philippine Islands are ours. The anti-imperialists say the Philippine Islands belong to the Philippine people. We will establish for them the best government we think they are fit for. The anti-imperialists say they have a right to establish for themselves such a government as they think good and fit for themselves.

Now, President McKinley made the treaty, and Mr. Bryan, when his defeat was assured, came to Washington and saved it. These two great political opponents, between whom you are to take your choice, are equally responsible for everything that has happened since. For the treaty became the law of the land, the public faith was pledged to pay \$20,000,000 for sovereignty over the Philippine Islands, and the Congress, and not the people, should dispose of them hereafter. It became the constitutional duty of the President, until Congress should act, or declare otherwise, to refuse them to order and submission. The Supreme Court of the United States says so. The only difference up to this point between President McKinley and Mr. Bryan is that President McKinley believed he was doing right, belonged to a party which had always been, as he himself has said, the conservative and liberal, in the past, and in right on all of the other questions that are at stake in the coming election, and in fit to be trusted with all new questions that shall arise. On the other hand, Mr. Bryan thought the whole trouble was caused by some ill-advised and foolish action of his; and he is now, in the past, and in right on all of the other questions that are at stake in the coming election, and in fit to be trusted with all new questions that shall arise.

NATIONAL HONOR OVER COLONIAL QUESTIONS.

Why Judge Hornblower Declines to Support Bryan.

Opinion of a Leading New York Jurist Whose Elevation to the Supreme Bench Was Beaten by D. B. Hill.

(By Judge William B. Hornblower of New York.)

Judge William B. Hornblower of New York, who was nominated to the Supreme Bench of the United States by President Cleveland, and whose confirmation was beaten in the Senate for purely personal causes by David B. Hill, has made the following statement why he declines to support Bryan.

I have been repeatedly asked during the past few weeks what, in my judgment, is the duty of a Good Democrat who is also an anti-imperialist, in the pending presidential campaign. The question is by no means a simple one, and I can well understand and appreciate that it may be regarded by some men as Mr. Gehring, Mr. Shepley, and Mr. Okey. For my own part, however, I cannot see any clear or practical way out of the dilemma. In every branch of productive industry that can be named there has been

increased activity and increased profit during McKinley's administration as compared with the previous low tariff of Cleveland's administration. In these benefits the South has fully participated and shared equally with the North. All this progress, improvement and profit is due mainly to the Republican protective tariff, operating according to the fixed gold standard.

The change of opinion among the Southern business men in regard to the principle of the tariff and other fundamental business principles during the present campaign has been wonderful; in fact, it is a revolution. In West Virginia the feeling in favor of protection is very strong; in fact, the inhabitants regard it as the Republican tariff on coal and iron has been the making of the State. The farmers of the State are in the same line, and other kinds of farm products, which they sell are due not so much to beneficial crops as to the tariff on iron and steel. The real reason for the tremendous increase in the foreign demand for American coal is also appreciated at its full value by the West Virginia people, and they are fully aware that it has been rendered possible by the protection afforded to home products by the McKinley tariff.

The banking house of Hamilton & Co. of Baltimore, all of the members of which are prominent Democrats, have come out with a circular to their clients and correspondents all over the Southern States, in which they advocate the defeat of Bryan and the re-election of McKinley, on the account of the great benefits to the South which have accrued from the workings of the Republican tariff and commercial policy during the last four years.

SOUTHERN PROGRESS UNDER PROTECTION.

Improvement Directly Traceable to Protection.

Acknowledged and Understood by Southern Business Men and Planters, Whose Sympathies Are with the Republicans.

(By Hon. N. B. Scott, United States Senator, of West Virginia.)

The South is the citadel of Democracy in this country; it has also always been the citadel of free trade. Twenty-five years ago a protectionist Southerner was almost as rare as a white abolitionist. The overthrow of the old Whig party has practically eradicated that element of political activity in that section.

But since then a great change has been gradually going on. The growth of pro-tectionist sentiment in the South during the last quarter century is one of the most important developments of recent political history. It is a fact susceptible of simple proof that wherever we have had a protective tariff, the whole country, North and South, has prospered, and we have had a half a century, or practically free trade, the country has suffered from decline. In every branch of productive industry that can be named there has been

increased activity and increased profit during McKinley's administration as compared with the previous low tariff of Cleveland's administration. In these benefits the South has fully participated and shared equally with the North. All this progress, improvement and profit is due mainly to the Republican protective tariff, operating according to the fixed gold standard.

AMERICANS ARE NATURAL PIONEERS.

We Must Advance Commercially, Being Producers.

Must Seek Markets Elsewhere and Create New Openings for Our Goods—Expansion Natural in a Nation's Life.

(By John C. Eames, of the H. B. Claffin Co., of New York.)

How many men at all interested in the advancement and welfare of this great country can reach the outcome of the present campaign, without having been a State but a little over eight years, and of this period four years each of Democratic and Republican government have served to impress upon the minds of its people two distinct and opposite political lessons. The first period was during the Democratic administration from 1883 to 1891 inclusive, in which we suffered an average of nine and a half months when our material conditions were so generally so devoid of hope that we look back at it all seem like a hideous nightmare.

The second period of four years is that formed by the McKinley administration, under Democratic policy, have become prosperous, and our business ventures remunerative and self-reliant. The ranches, farms, cattle, sheep, mines and railroads of our State all give substantial returns to the capital and labor expended upon them, and our people, instead of being constant borrowers, are now paying their debts and becoming lenders. The entire campaign in Wyoming, this State is the result of expansion. Every foot of its area of 9,000 square miles was formed from territory acquired by treaties with these Indians. The Louisiana purchase, the seizure of the Oregon country, the Mexican treaty, and the Gadsden purchase, and all this without the consent of the governed.

Our opinion of Cuba and Porto Rico has assured us of the greater part of the country can reach the outcome of the present campaign, without having been a State but a little over eight years, and of this period four years each of Democratic and Republican government have served to impress upon the minds of its people two distinct and opposite political lessons.

Miners and Stockraisers Are Receiving Good Returns.

Senator Warren Tells Why the West Will Return Good Majorities for McKinley and Roosevelt This Year.

(By Hon. Francis E. Warren, United States Senator.)

The people of Wyoming are vitally and intensely interested in the outcome of the present campaign. Wyoming has been a State but a little over eight years, and of this period four years each of Democratic and Republican government have served to impress upon the minds of its people two distinct and opposite political lessons. The entire campaign in Wyoming, this State is the result of expansion. Every foot of its area of 9,000 square miles was formed from territory acquired by treaties with these Indians. The Louisiana purchase, the seizure of the Oregon country, the Mexican treaty, and the Gadsden purchase, and all this without the consent of the governed.

Our opinion of Cuba and Porto Rico has assured us of the greater part of the country can reach the outcome of the present campaign, without having been a State but a little over eight years, and of this period four years each of Democratic and Republican government have served to impress upon the minds of its people two distinct and opposite political lessons.

CONSOLIDATING ROADS ASSISTS THE EMPLOYEES.

Better Chance for Railroad Men than Ever Before.

A Return to the Old System of High Freights, High Fares and Jerky-water Railroads is an Impossibility.

(By William H. Baldwin, Jr., President of the Lone Star Railroad.)

To appreciate the significance of the value of railroad consolidation to the public, it is only necessary to attempt to conceive of a return to former conditions, and the small independent railroads, with their relatively small number of employees, each road with its own standards of equipment dependent upon the idiosyncrasies of its principal officers or directors; each road with responsibilities to the public as a carrier only to the extent of its own short line—all these limitations suggest a local impotence which would permit to the railroad the employment of labor on the basis of "supply" for its small demands.

On the other hand, the gradual growth of large systems composed of many such small lines produces a new and constantly growing responsibility to the public, until finally a point is reached where the law of supply and demand affects but remotely the skilled labor necessary in transportation service. The function performed by railroads has become too important to the body politic to permit of any solution of these serious labor and wage questions, except by intelligent consideration on the part of the representatives both of the management and of the employees.

The effect of consolidation has brought many good results to the employee. A increased ability on the part of the railroads to pay higher wages; to employ more men; an improvement in standards of tracks and equipment, which has reduced the hours for a day's work and has made the service less disagreeable. It has also made the employment of men in the service more regular throughout the year and thus less open to attacks of idleness, and has developed a code of standards and rules, governing the army of employees, which have dignified their positions.

The saying by consolidation is due to the ability to develop business economically. Conversely, the business of any trunk line today could not be handled by a series of independent lines with varying standards, at the present rates which are profitable to the larger lines. With the improved efficiency and economy of transportation, rates have constantly declined and traffic has been continually increased. With increased density of traffic, the number of employees has been increased in proportion and has been paid a higher wage. The improved facilities and higher speed of trains have made the day's work for a trainman, not one hundred miles as a maximum, but as a minimum, that is to say, with high speed travel, the same distance is covered in less than half the time that it would have taken in the past. The actual work of the trainman can physically be done in less than half the time that it would have taken in the past. The locomotive engines of to-day may average probably one hundred and seventy miles per day, and at an increased rate of pay over the one-hundred-mile day of the past.

In railroads, more than in any class of labor in this country, we have seen the results of the intelligent management of the trade unions. Both capital and labor aim at monopoly; the best result is obtained only when the intelligent management of the railroads are moving on toward greater consolidations and with constantly increasing benefit to their million employees and to the public. More and more each year the managements of railroads acknowledge their public duties, more and more each year the operation of railroads is becoming a governmental function, so that, as I see it, the best conditions will be reached when the relations between the government and the railroads are intelligently defined with the public interest and government left in the hands of private persons. The ideal condition is to so operate the railroads that they approach as nearly as possible to a public utility and yet to retain the ownership in private control.

W. H. BALDWIN, JR., President of the Lone Star Railroad.

"It Sort of Looks as if I'd Have to Expand."

increased activity and increased profit during McKinley's administration as compared with the previous low tariff of Cleveland's administration. In these benefits the South has fully participated and shared equally with the North. All this progress, improvement and profit is due mainly to the Republican protective tariff, operating according to the fixed gold standard.

The change of opinion among the Southern business men in regard to the principle of the tariff and other fundamental business principles during the present campaign has been wonderful; in fact, it is a revolution. In West Virginia the feeling in favor of protection is very strong; in fact, the inhabitants regard it as the Republican tariff on coal and iron has been the making of the State. The farmers of the State are in the same line, and other kinds of farm products, which they sell are due not so much to beneficial crops as to the tariff on iron and steel. The real reason for the tremendous increase in the foreign demand for American coal is also appreciated at its full value by the West Virginia people, and they are fully aware that it has been rendered possible by the protection afforded to home products by the McKinley tariff.

The banking house of Hamilton & Co. of Baltimore, all of the members of which are prominent Democrats, have come out with a circular to their clients and correspondents all over the Southern States, in which they advocate the defeat of Bryan and the re-election of McKinley, on the account of the great benefits to the South which have accrued from the workings of the Republican tariff and commercial policy during the last four years.

Our opinion of Cuba and Porto Rico has assured us of the greater part of the country can reach the outcome of the present campaign, without having been a State but a little over eight years, and of this period four years each of Democratic and Republican government have served to impress upon the minds of its people two distinct and opposite political lessons.

PECULIAR BRAND OF JUSTICE.

A. G. Carpenter Takes Issue With the "Peculiar" County Justice on Saturday.

"Schoolcraft county justice appears to be a peculiar brand. One man who fatally stabbed a fellow man was acquitted last week while another who pulled a knife and threatened to 'do' another but didn't get two months. The moral to be drawn is that if you have occasion to 'pull' a knife use it and you will be rewarded for so doing."

This editorial comment which appeared in THE POSTER-TIMES of October 5th is far removed from justice and respect for law and I deem it to be without good reason or excuse as the editor was not present to hear the evidence given in the circuit court in the first case mentioned.

Unhappily I was one of the jurors and when sworn had formed no opinion on the case and so far as affected by sympathy it was almost entirely with the family of the young man that was killed, and personally I have always had a horror of the use of a knife as a weapon of offence or defence.

This is a statement of my feelings when chosen to act as juror and I believe would apply to the majority of the jury.

During the time of trial of the case nothing pertaining to it in anyway was mentioned among the jurymen until we were sent to the jury room to find a verdict, and then until a ballot was taken to learn how we voted. This ballot revealed guilty 9, not guilty 0.

The jury were practically unanimous in their opinion based on all the evidence that the killing was entirely accidental in a struggle between the boys for the possession of the knife with no malice or intent to injure on the part of the accused. No other verdict than the one given was possible for honest jurors.

From what source and from what fountain of knowledge springs all this criticism of Schoolcraft's county justice?

The public prosecutor in his plea for conviction exaggerated every line of the evidence given for the prosecution as much as his ability to do so permitted and in his preparation for the benefit of the throng that crowded the courtroom made of all classes and conditions of men and women, he deliberately threatened the jury with exile from the county if they failed to convict this boy of wilfully slaying another.

Justice, thou blind goddess to what base uses is thy name sometimes put? When the Public Prosecutor of Schoolcraft county who should stand on the elevated plane with justice steps down from his lofty height to the level of a demagogue and, in

gifts of eloquence that God has given him in a way that tends to incite riot and possibly bloodshed to win a case, it is an act that ranks angels weep and devils laugh with glee.

Centuries have passed with their burdens of crimes and accidents that have carried innumerable thousands to their graves since the Mosaic law of an eye for an eye and a tooth for a tooth became obsolete. When walled cities of ruins of stone and mortar were built to which a man who accidentally killed another could flee for safety. When a man's guilt or innocence was established by his running qualities or the amount of wind he had at his disposal.

Does the public prosecutor and his friends propose to resurrect these many laws and customs of the early periods of the world's history rather than leave their case in the hands of Schoolcraft county justice.

Will the grand stand play indulged in by the public prosecutor re-elected him to this honorable position to again if he choose assume in addition to the prerogative of his office, that also of the jury?

If that time arrives, then surely will Schoolcraft county be of a peculiar brand.

IS SELLING MUCH STOCK.

Frank Hodson of the Lily Gold Mining Co. is meeting With Success.

Mr. Frank Hodson, vice president of the Lily Gold Mining Co., with headquarters at Spokane, Wash., is here for the purpose of selling stock in his company. He offers great inducements to purchasers of stock, and for his reliability as well as that of his company, refers all to the banks and business men of Spokane. The stock is being sold for the purpose of installing machinery. A very large stock pile has been accumulated during the development of the property and stock will advance rapidly in price shortly. He is selling the stock at present for 15 cents per share.

As soon as the machinery is installed the stock will advance to 50 cents and three months later, or when the first dividend is declared, the price will advance to \$1.00 a share.

As he will have shortly after pay day all prospective purchasers should call early. His headquarters are at Patterson & Parker's store where samples of ore may be seen.

In anemia and most women's ailments the digestion is weak, the making of color, flesh and strength out of food is imperfect so that the patient is weak, waxy, nervous and dyspeptic. This condition can be corrected by taking a course of Herbine. Price, 50 cents. A. S. Putnam & Co.

CONFIRMS ANDREW'S DEATH.

Newspaper Man Returns From Hudson Bay Country.

A Minneapolis dispatch dated Oct. 8th, says: Harry Knappen, a newspaper man, returned this morning from a perilous trip to the Hudson Bay country, in which while nine white men and eight Indians, he sailed 600 miles up the east shore of the great inland sea.

Knappen was assured by Eskimos whom he met that "a sky boat" had come into the region, on the extreme northeast shore of the bay two years before, that it came to the ground, and that savages who inhabit the country had killed the white men in it. This, he explained, was Andrew's ill-starred Polar expedition.

"I wish to express my thanks to the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy, for having put on the market such a wonderful medicine," says W. W. Massing, of Beaumont, Texas. There are many thousands of mothers whose children have been saved from attacks of dysentery and cholera infantum who must also feel thankful. It is for sale by A. S. Putnam & Co.

TO MAKE TOOTHPIICKS.

Twenty-five Car Loads a Year to be Made in Escanaba.

The Escanaba Woodware Company is about to install a machine in its factory for the manufacture of toothpicks. It is very expensive and complicated and has been at the factory ready for use for some time. The patents are used exclusively by the Escanaba Woodware company. Only the finest hardwood is used in the manufacture of toothpicks. This production of the Escanaba concern will be about twenty-five car loads a year.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for Indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart Failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad in headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied. There's nothing sorer the matter with you. Sample bottles at A. S. Putnam & Co.

PRICE OF CHANGE.

Any adult suffering from a cold settled on the breast, bronchitis, throat or lung troubles of any nature, who will call at A. S. Putnam's & Co., will be presented with a sample bottle of Boecher's German Syrup, free of charge. Only one bottle given to one person, and none to children without order from parents.

No throat or lung remedy ever had such a sale as Boecher's German Syrup in all parts of the world. Twenty years ago millions of bottles were given away, and your druggists will tell you the success was marvellous. It is really the only Throat and Lung Remedy generally endorsed by physicians. One 75 cent bottle will cure or prevent its value. Sold by all druggists in this city.

He has a hard enough time. Everything that the expectant mother can do to help her child she should do. Mother's Friend.

It will take her through the crisis easily and quickly. It is a stimulant which gives strength and vigor to the muscles. Common sense will show you that the stronger the muscles are, which bear the strain, the less pain there will be. A woman living in Fort Wayne, Ind., says: "Mother's Friend did wonders for me. Praise God for your liniment."

LABOR

TOBACCO TRUST.

It Will Pay Every Laboring Man to Read This

Are you a tobacco user? If so, what brand of plug have you in your pocket now? These questions are addressed to every laboring man in the United States. Was the tobacco you are using made by a trust? If you do not know you can find out by inquiring. Will you take the trouble? Do you know that you, the laboring man of the country, can kill the Trust inside of a year if you will be consistent? How? By thinking the next time you buy and smoking or getting a brand made by an independent concern. If you will buy one of the following brands of plug tobacco you will help kill the trust: Gold Rope, Kingbolt, Rice and Shine and Thrasher.

These tobaccos are made by Union Labor in a Union shop at Union prices. The makers, the Wilson-McCallay Tobacco Co., Middletown, Ohio, have never had a strike in their shop during 50 years of business. Is this a record worth supporting?

CALIFORNIA'S SPLENDID SHOW AT THE PARIS EXPOSITION.

Following is an extract from a letter recently written by Mr. Wm. H. Mills, of California, while in Paris in charge of the Southern States Company's exhibit at the Exposition. It is remarkable for two reasons, first, as evidence of the great interest which is everywhere manifested in the wonderful exhibit at Paris, and for which it is here reproduced.

Paris, July 10th, 1904.

Dear Sir: I have the pleasure to inform you that the exhibit of the Southern States Company at the Paris Exposition is being viewed with the greatest interest by the public and the press.
