**AN ELECTRICAL STORM**

Visited This City Last Saturday. Three Houses Struck by Lightning.  
A severe electrical storm passed over this city last Saturday evening. During its progress three residences were struck by lightning and more or less damage was done to the electric light system.  
The houses occupied by Messrs. Neville, Paetske and Schaud were slightly damaged. In every case the bolt entered the house through the chimney. At the Schaud home Mrs. Schaud and daughter were severely shocked.  
Just before the storm began to rage Mrs. Neville left the house and no one was in when the house was struck.  
At the Paetske residence the bolt reached the interior of the house by means of the chimney. The partitions near the chimney were shattered and the piano was slightly damaged. Rev. Dastice of Rapid River, was seated on the porch and was slightly shocked. A few seconds prior to the stroke he was seated near the chimney in question, and would no doubt have sustained serious if not fatal injuries had he not shifted his position. Mrs. Paetske, who was in the house, was so severely shocked that she was speechless for some time.

**HAS SECURED DEPOT GROUNDS AT ST. MINNAC.**  
The Northern Michigan Mill Company is negotiating in St. Minnac.

A St. Ignace dispatch says that the Northern Michigan railroad today closed negotiations with the Mackinac Lumber Co. and O. W. Johnson for depot grounds, shops and docks. The purchases amount to over \$12,000, and work will commence on the grade of the road in six weeks. The line will run from here to the Soo, connecting at this point with the Grand Rapids & Indiana railway by car ferry. Already real estate men from outside are here looking up property. A boom is anticipated. Senator Quarles, Milwaukee was counsel for the lumber company and Johnson.

Hans Klugstad returned from Norway last Saturday evening. He reports having spent a very pleasant vacation amid the scenes of his childhood, but that the pleasure was marred somewhat by the fact that he knew but few of the people now residing there. His brother Carl who accompanied him, stopped at Buffalo outside Jones.

**A BREWERY FINE.**

An Arm Found on the Brake Beam of the Dining Car in the Manistique.  
When the employees of the dining car were getting their car in readiness this morning they found an arm lying on the brake beam of the car. From appearances the unfortunate man was a laborer at the hotel, was calloused and stained by hard work.

This dining car people state that shortly after the train left the Soo last night the car received such a jolt that for a time they thought the car had left the track.  
The man was evidently riding on the tracks and was thrown under the wheels and the bolt to the car was caused by the wheels passing over him.

**A DEER RUN INTO A TRAIN.**  
A peculiar incident happened Wednesday afternoon as the Manistique R'y passenger train was proceeding from Seney to Grand Marais. At about fifteen miles out of Seney, when the train was edging off about thirty-five miles an hour, with Engineer John Guire at the throttle, a large buck deer leaped in sight abreast of the engine.

The deer seemed surprised and swayed in wild jumps underneath a car, was struck by the coach, taking a set of steps and was killed. It was without a doubt a very singular case. The engine or fireman did not see the deer until after the train had struck it. Many theories are given as to the cause of the animal's peculiar action.—Grand Marais Herald.

**Called Upon Old Time Friends.**  
Mr. Jerry Murphy of St. Paul, was in the city Monday. Mr. Murphy was a resident of this city at one time, having been here for the most part ten years ago. Since leaving here he engaged in millwrighting and is at present an engineer on the Northern Pacific between St. Paul and Staples. He spent a pleasant day, with old time friends and returned to Cooke in the evening where he is the guest of O'Brien's. Tuesday morning he left for Buffalo where he will spend a short time viewing the sights. Mr. Murphy is one of the Progress-Tribune's subscribers, and we acknowledge a very pleasant call.

County Clerk Ashford was at the Hiawatha colony looking after his real estate interests, yesterday.

**AN IDEAL CLIMATE.**

While the Balance of the World Suffers from the Heat of the Summer Months, Manistique is the Only Healthy Spot.  
From Jesse Randle's weather report for this week we glean the following information that may interest our subscribers that are residing on the sun-baked prairies of the central and western states.

"The highest temperature recorded by the government thermometer here during the past week was 85 and the lowest 51 degrees. The average temperature for the week was 69 1/2 degrees."  
This is in striking contrast with the records of Chicago, New York, Kansas City, St. Louis, and some of the upper prairie towns, where a wholesale death rate is reported because of heat prostrations.

If you wish to escape the torors of hot, come to Manistique, where old soil fails to get in his work in the dry climate and the air is very cool. The average temperature during the nights of the past week was fraction less than 60 degrees.

**Excursion Postponed.**  
The St. Fannie Hart met with an accident at Detroit last week and was out of commission nearly a week. Owing to this fact the excursion to the wreck of the William Home will not be given today as announced last week. Agent Wickwire is not able to announce the exact date this week but says that the excursion will be given before the wrecker Stock completes the task of raising the submerged pig iron.

**Friends Mourn With Them.**  
Mr. and Mrs. Guy M. Smith have the sympathy of many friends in the loss of their three-month-old son who died Sunday. The remains of the baby were taken to Detroit in Monday afternoon, accompanied by the parents and by the father's mother Mrs. M. Smith.—Munising News.

Mrs. Smith's Manistique friends sympathize with her in her bereavement.  
The county officers have had a great deal of trouble with diamonds in the vault in which the records are stored, ever since they moved in, but hope for good results from a system of ventilation inaugurated this week by which the electric fan that is in use during the night will keep up a circulation of air, and prevent mold from setting on the books.

**THE WRECK LOCATED.**

Wreck of the William Home. Some difficulty was experienced by the crew of the William Snook in locating the wreck of the William Home. A woman living along the shore, and who was the vessel's cook, finally gave the captain a shore range from which to commence operations and the wreck was quickly found by dragging a rope between two boats.

The gentleman that received some material from the fact that he possessed an instrument that would unfailingly locate the cargo, utterly failed in his attempt. The wreck lies in about ninety feet of water.

**NEW LAW FIRM.**  
Whitney & Peters to locate in Manistique. Margretta is shortly to have a new law firm, that of Whitney and Peters. The senior member comes from Marquette and Mr. Peters, who was formerly a resident of Marquette, has been located at Manistique lately. Mr. Whitney is a practitioner of thirty years experience and Mr. Peters is well known among the younger lawyers of this section. Mr. Whitney will be here about the first of August. The firm will have an office in the Savings Bank block, Room 107.—Mining Journal.

**Checks Must Report.**  
Comptroller of the Currency Davies today issued a call for a statement of the condition of national banks at the close of business Monday, July 15th.

**CITY COUNCIL PROCEEDINGS.**  
(OFFICIAL)  
At a regular meeting of council of the city of Manistique, held on Monday evening, July 22d, 1901, the following members were present: Mayor W. F. Crane, Clerk A. F. Dufstrom, Aldermen S. McNeil, G. Benson, E. Schuster, S. Shilton, E. E. Burrell, W. W. Parker and G. Wickwire. John Coffey was present as roll call, but went away shortly after the council was in session.

The minutes of last meeting were read and approved.  
Moved, supported and carried that the Fire committee be authorized to confer with city attorney and make contract with the Kinney Water Supply Co. for drilling three wells (or more if necessary) according to specifications.

Moved by Parker and supported by Shilton that the petition asking that an arc light be placed at the intersection of Mackinac Ave. and Wolf St. be granted, the following is the vote:  
Yeas—Schuster, Shilton and Parker.  
Nays—McNeil, Benson, Burrell and Wickwire. Motion lost.

Bills in the general fund to the amount of \$204.47 were read and on motion of Benson and supported by McNeil were allowed by unanimous vote. Similar bills to the amount of \$204.47 were read and on motion of McNeil and seconded by Parker were allowed by all members voting in the affirmative and referred to the Board of supervisors. This resolution was offered by Wickwire and supported by Burrell and adopted by all members voting in the affirmative.  
Resolved that the city attorney be instructed to amend section 2 of ordinance No. 2, granting permission to ride bicycles on the sidewalks of Houghton Ave. north of Dear St. and Riverside Addition, restricting riders to a speed of not more than six miles per hour and compelling them to dismount in meeting or passing pedestrians.  
Moved, supported and carried

### AGAINST THE CENSORSHIP.

South African Correspondents Unite in a Bitter Row.

New York, July 25.—The war correspondents in South Africa have united in a bitter row against the military censorship which the London correspondent of the Tribune, Mr. Bennett Darleigh, a veteran of many campaigns, describes, the censorship as "a blunder and a blunder" and declares that the sooner the whole matter of unofficial correspondence is put upon a definite basis conformable to the military position, the better it will be for everybody. Mr. Darleigh writes that the military position is concerned to justify the maintenance of censorship and that it is creating a bad precedent, since the only service which it can render is a political one, saving "somehows of Russia; it is Kroger's."

It is not easy to understand what are the political motives for the suppression of news from the seat of war. The government has a well drilled obedient majority in the commons and is supported by the great mass of opinion in the country. The condition in fact is not demoralized and wholly incapable of offering strenuous resistance to government policies and the war agitators have no more to impulsion upon public opinion.

#### PROCLAMATION ISSUED ESTABLISHING FREE TRADE WITH PORTO RICO.

ANNIVERSARY OF OCCUPATION

Island Set Free Commercially on the Same Day of the Year That the American Flag Was Planted on Its Soil—System of Local Taxation inaugurated to Meet the Necessities of the Government.

Washington, July 25.—The president has issued his proclamation establishing free trade between Porto Rico and the United States and declaring the organization of a civil government for the island. The proclamation is purely formal and only in the body of the resolutions adopted by the Porto Rican legislature does it appear that the island is set free, commercially, in commemoration of the anniversary of the planting of the American flag on the island. The proclamation is headed "Cession of Tariff—Porto Rico." It recites that the act of April 15, 1899 (otherwise known as the Foraker act) provided that when the Porto Rican legislature has enacted and put into operation a system of local taxation to meet the needs of the government and by resolution so notified the president, the latter shall issue a proclamation and all duties on goods passing between the United States and Porto Rico shall cease. As the legislature has complied with the requirement of the act in terms set out in full in the body of the proclamation, that document says:

"Therefore, I, William McKinley, president of the United States, in pursuance of the provisions of the law above quoted and upon the foregoing due notification, do hereby issue this my proclamation, and do declare and make known to the citizens of Porto Rico that the act of Congress heretofore cited is in full force and effect, and in accordance with the provisions of the said act of Congress."

"And I do further declare and make known that the legislative assembly of Porto Rico has enacted and put into operation a system of local taxation to meet the necessities of the government of Porto Rico."

### TO THE PUBLIC.

Art. 1794, Sec. 13 of Howell's statute says, that whenever any hotel-keeper, hotel keeper, keeper of boarding house, shall know, or have reason to believe, that any person in the family, hotel, or boarding house, is sick with any disease dangerous to public health he shall immediately give notice to the health officer, and if he shall refuse or willfully neglect to do so, he shall be deemed guilty of misdemeanor, and upon conviction thereof, shall be punished by a fine not exceeding \$100 and the costs of prosecution, or ninety days in the county jail.

Now, as the greatest cause of the spreading of scarletina and small-pox in this city, has been from willful neglect and refusal of some householders to either call a physician, or notify the health officer, and thereby give of quarantine, I am positively, at the next occurrence of the same, whether rich or poor, report the same to city attorney and prosecute to the full extent of the law.

FRANK RAINIE, Health Officer.
