THE FOOT BALL GAME

Was won by the Gladstone Team After a Hard Struggle.

The most interesting game of foot ball ever played in Manistique was the one last Saturday afternoon between the Manistique and Gladstone eleven.

The local team was more than a match for the visitors during the first half and no points were made. In the last half of the game the local team plainly showed its lack of experience. Then, too, the visitors discovered Manistique's weak spot and played it hard and often thereby winning the game in the score of 3 to 0.

The playing of Jones, Pull Back, Pupper, Carter, Campbell, R. E. Eckert, Loh tackle, and Baker as a line and the opposition was unable to gain an inch when pitted against him. Baker's ability for assisting assisted the boys very materially. Jones, who is one of the very best players of the local team broke a finger during the game.

J. H. Van Tassel umpired the game to the entire satisfaction of the players and spectators.

Constant exercise and its unfailing results--staying power--is what our boys need most of all. Then, too, the line could be materially strengthened by one or two changes.

DEATH OF MRS. J. F. SIMMONS.

Her Death Occurred This Forenoon After a Short Illness.

May J., wife of Mr. J. F. Simmons died this forenoon at 11:30 o'clock. Although she has been practically an invalid during the past fifteen years her condition was not serious until a few days ago. The immediate cause of her death was cerebral hemorrhage. She was born in Sault Ste. Marie county March 10, 1830 and was married to Mr. J. F. Simmons on May 18, 1854, and with eight children, four sons and four daughters, mourn the loss of wife and mother. The children are: P. F. Corning, M. C., Mrs. Harriet B. Adkins of this city, William of Mt. Pleasant, Mich., Alfred J. of Hiram, Mich., Charles D. of Warren, Pa., Mrs. Cora Orr and Jennie M. of this city, and Mrs. Edith Thomas of Barclay, Mich.

She came to Manistique twenty years ago, and had a large circle of acquaintances and friends that mourn

her demise, and sympathize with the afflicted family.

The funeral services will quite likely be held from the home at 2:30 o'clock Monday afternoon.

The non resident children were all notified of her critical condition yesterday and will undoubtedly attend the funeral. Rev. Stannus preached from Luke this morning, but owing to the railroad schedule will be unable to arrive here until this evening.

THE SCOTTISH ENTERTAINMENT.

At Opera House Oct. 15th Promoters to be a Very Bare Treat.

Of the many novelties presented to the public in recent years, not one has created more enthusiasm and delight than the programme given by Gavin Spence and Flora MacDonald. The Scottish character has a reputation for dry wit and humor which is admirably portrayed by Gavin Spence in his songs and anecdotes, and for pungent pathos, nothing can excel his rendition of the "Death of Dr. McTear" from the "Bonnie Brier Bush."

Miss Flora MacDonald's modesty and grace are so charming that she captivates her audience as soon as she appears. Her dramatic ability,

combined with her remarkably sweet and clear voice and her skill as a pianist place her on a plane with Mr. Spence, so that you at once conclude them to be the most versatile geniuses you have ever seen. The blending of their voices in duets is in perfect accord, and each shows wonderful power, range and modulation. Their costume is especially pleasing, and to a large percentage very instructive. No audience can be too exacting for the gifts represented by them. Their endorsements are from the most trustworthy sources and are practically unlimited. At Star opera house, Tuesday, Oct. 15th.

An Increase in Manistique's Postoffice Receipts.

The receipts of the Manistique postoffice during the year ending June 30, 1901 were \$9,485.48 as against \$5,005 for the previous year. The office netted the government \$4,248, and the percentage of expense to gross receipts was 34 per cent. There are only three postoffices in the state that were more economically conducted than the Manistique office and their percentage of expense to gross receipts were but four per cent lower. The total receipts of all the offices in the state were \$2,857,407 and the net profits to the government were \$1,331,705. There was an increase of \$307,022 this year as compared to the previous year.

A. V. Freeman a well known lumberman and society leader of Marquette was arrested in Chicago, Monday of this week on the charge of embezzling \$20,000 and committing forgery. For years he had been district agent for the Baber & Watson cedar mills in Menominee, and last April he forged acceptance of inspection on \$20,000 worth of cedar poles this check for that amount were sent to Menominee by Baber & Watson, and Freeman received the money and kept it, there being no number to account for the expenditure.

ERIKSEN-KLAGSTAD.

Two of Manistique's Well Known Young People Failed in Marriage.

Mr. Magnus Klingstad and Miss Margrethe Eriksen, eldest daughter of Mr. and Mrs. Andrew Eriksen, were married at the Norwegian Lutheran church, last Friday evening by Rev. Hjermstad. The ceremony was witnessed by an audience which filled the church.

At the stipulated hour, the procession consisting of the bride and her father, the bridesmaid Miss Mary Eriksen, and flower girl, Miss Alene Eriksen, marched to the altar, to the strains of Houbloesha's wedding march, rendered by Mrs. Hjermstad, where they met the groom and his attendant Mr. Sophus Rood of Marquette. The bride was given away by her father.

The ceremony was pronounced under a bell of cedar and flowers suspended from an arch. At the conclusion of the ceremony the choir rendered an appropriate song.

Invited guests to the number of nearly 100 then repaired to the home of the bride's parents, where a reception and banquet was held. Those present report that no finer repast was ever served in the city. The waiters, Messrs. Adolph and Andrew Johnson and Christian Dredahl, wore the regulation waiters' uniforms.

The presents were costly and numerous, including a handsome side-board, table cases, cut glass, silverware, chairs, etc.

Mr. and Mrs. Klingstad are at home in the neat cottage on Manistique Ave., recently purchased by Mr. Klingstad. The contracting parties have been residents of Manistique for many years and are highly respected. Mr. Klingstad is at present the turnkey at the county jail.

The Rise and Fall.

There are many imitators of Mr. J. C. Lewis' novel and unique method of heralding the advent of the St. Plummer Co. in each city he appears, he presents the only and original County Board parade which is well worth going miles to see. This novel street parade will be seen here tomorrow night, Oct. 5, and is fatter than a circus. No doubt you have seen imitations for miles but see the original now. While we are flattered by imitations, we do not wish to be classed with these imitators of our success.

The case against the inmates of the Flynn house was dismissed this afternoon and the girls will leave the county at once. Mrs. Flynn will undoubtedly be bound over to the circuit court.

J. Leahy the optician, will soon visit Manistique again, for late service. As he has been here before and his work has proven satisfactory you should not hesitate to consult him, for an optician there is no better.

How does it happen so many reformers are dead beats.

No man will have a tobacco habit who smokes stogies; they kill too quick.

No man who willfully ignores an honest obligation will ever go to Heaven.

Manistique harbors two or three slot machines. They should be suppressed.

The portrait of the late president will be placed on the next series of \$10 bank notes.

The state fair at Pontiac was a great success, the management clearing about \$10,000.

There are still 600,000,000 million acres of uncultivated government land in the United States.

The first law in good morals, good citizenship, not to speak at all religion, is to pay honest debts.

This is Emma Goldman's creed: "I believe in no God; I believe in no hereafter; I believe in no civilization; I believe in no marriage; all property is robbery; all government is tyranny; right and wrong are mere prejudices. I believe in the red flag of anarchy; the rich and the rulers are the only proper food for gun powder; and dynamite. I am sworn to live and die by the articles of this creed." This woman was a blood and gunpowder, if she receives her just dues, she will yet white for the protection of the law she professes to despise. What a pity it is that she and her infamous brood should not be colonized somewhere, so they can enjoy the full benefits of the above creed. The race would soon be extinct and the world well rid of them.

OVERCOMING OF ENEMIES.
(Sheetman.)
There is evidently a scheme afoot in Europe to minimize the influence of the United States in the Pan-American congress soon to be held in the City of Mexico. This is in keeping with the spirit of other intrigues in Europe and South America within the last three or four years.

When it became evident, in 1898, that war between the United States and Spain was inevitable, efforts were made to form a coalition to save Spain from defeat. When the result of the war became assured, an attempt was made to array Latin America against the United States on the pretense of saving Cuba to the state that civilized it. These attempts failed utterly.

Efforts were then made to embarrass the United States by promoting German hostility in one direction and exploiting all Anglo-American alliance in another. All such intrigues were absolutely barren of results. Later attempts to compel the United States to withdraw from the Philippines, by stirring up rebellion among the Filipinos, bore as little fruit.

Then came, a few months ago, another scheme to attack the Latin-American republics in Europe. A Spanish-American congress was called to establish closer relations with Latin American and Latin Europe. This was an appeal to racial pride and prejudice against the United States. It was also an insidious attack on the principles of the Monroe doctrine. But the congress failed to attain any one of the objects aimed at, and the Monroe doctrine is stronger today than ever before.

The republics of Latin America, instead of drifting away from us, have drifted toward us. All are to be represented in the Pan-American congress in Mexico, and all have been represented in the Pan-American exposition at Buffalo. Our trade with Mexico and with Central and South America has greatly increased in two years. There is a general tendency in all the republics to the south of us to recognize safety for themselves in the primacy in this hemisphere of the United States. There is as clear a resolution in this country to avoid anything savoring of dictation, or any course that contemplates interference with the national policies of sister republics.

The Pan-American congress, therefore, should concern itself less with arbitration schemes than with measures to promote commerce and industrial development. The main purpose of the Pan-American congress is to promote American policies. Its attitude toward international affairs should be firm against European intrigues and influence. Its great business is to strengthen the conviction of the world that the Monroe doctrine means what it says and that "America for Americans" is a policy of vital force.

ON A SOUND BASIS.
No better evidence of the soundness of the basis upon which has been built the recent prosperity of the industries of the United States could be desired than the manner in which the markets have been held up under threatening conditions such as have sometimes produced panics.

The great strike in the steel trust, involving tens of thousands of workers, and reducing the ordinary circulation of money by millions of dollars, weekly, caused little more than a ripple even in the sensitive stock market. The assassination of President McKinley came as a sudden blow, even more portentous than the strike, for it threatened a change of administration; yet business was scarcely affected, and within a week the stock market, which had been only slightly affected, resumed its normal tone.

Then came, just as unexpectedly, a second shock; the President dying just as the country had settled down to the belief that he would recover from his wounds. That which appeared to be a probability, when he was stricken was now a certainty; there was an instant change of administration.

But the country without the shock, and no one could have learned from market quotations alone that anything unusual had happened.

If the country had been trading on inflated values, if there had not been substantial business prosperity back of the enterprises represented in the stock markets, the bubbles would burst. If not by the shock of the strike among the steel workers,

then by the double shock of the assassination of President McKinley and his sudden death.

The country is in a remarkably prosperous condition. Its crops are plentiful and there is a good market for them, and the iron and steel workers, now returning to their labors in the mills, are assured of steady employment for a year or more. The building trades are active, and the railroads are busy transporting the products of farms and mills to the seaboard or to distributing centers. Some branches of the textile industry are dull, but this condition cannot last very long in the face of general prosperity.—Philadelphia "Ledger."

INAUGURATION REMINISCENCES.
(Washington Post.)
Speaking again later in the day at memorial services held in the First Presbyterian church, Mr. Cleveland said in part:

"The death of our lamented president and the solemnities that followed it have especially touched me. Not only sustained my full share of the grief which is common to all my fellow-citizens, but seems to me that I have been brought within a more inner circle of relationship to these things, exclusively my own.

"I recall with a sharp distinctness when the man we today mourn came to his home to receive, on a surrender from my hands, the great office to which he had been elected, an incident which is interesting now, that occurred on my way to the capitol, where he was to take the oath of office. As we sat side by side and the cheers of many thousands of his rejoicing fellow-citizens and friends, while he acknowledged these greetings in the most friendly manner, he wore the sober expression which plainly showed his thought was on the solemn things that awaited him.

"I shall never forget his manner when he turned to me and said: 'What an impressive thing it is to assume tremendous responsibilities. I have always thought since that I was in possession of the key to this manner of administration. I recall our parting at the White House. As I held his hand and wished for him the greatest measure of success, I added, 'And I hope, Mr. President, when your term ends you will not have all the reasons that I now have to welcome retirement.'"

Mr. Cleveland then spoke touchingly of the scenes of the funeral service at Washington, appealed to his hearers to learn the lesson as found in the pure and upright life of the late president, and closed with the words: "God still lives and reigns and He will not turn His face from us who have always been objects of His kindness and care."

MACKINAC ISLAND NOT AVAILABLE.
The Mackinac Island correspondent of the St. Ignace Republican, while not regretting the decision of the state military board that the island is unavailable for holding encampments for state troops, says:

"It would be interesting perhaps to know how it is figured out that a place in the center of the state, reached by three lines of railway and five lines of steamboats, the home of the United States troops for two years, with barracks, parade ground, drill range, a hospital, officers' quarters, etc., the property of the state, is unavailable."

In another item, the correspondent says buildings on the island have on seven different occasions this season been struck by lightning which may be in a measure account for the military board's decision in not desiring to take the troops to such a dangerous locality.

Old People Have Their Troubles.
Mr. Francis Little of Benton Harbor, Mich., is over eighty years of age. Since 1860 he has been troubled more or less with indigestion and constipation and has tried almost everything in use for those ailments. Last August he began using Chamberlain's Stomach and Liver Tablets and is soon feeling much better. In a recent letter he says, "I have used three boxes of Tablets and now think I am well. These Tablets improve the appetite and invigorate the stomach, liver and bowels. For sale by A. S. Putnam & Co., Detroit, Mich."

NEW MUNISING BANK.
National Institution Capitalized at Fifty Thousand a Projected.

Munising also has to have a new financial institution. A gentleman from that town who visited the city yesterday informs the Mining Journal that for some time past the organization of a national bank has quietly been agitated, and that now definite steps in that direction are being taken. John Levy, acting as gentleman prominent in the promotion of the project, has purchased the Keyes lot and building at the corner of Manning and Elm avenues. He is also negotiating for the Rowe building, adjoining, and with this deal completed, will, it is said, begin the construction of a block which report says is to be completed by the present year. The structure is to be of brick and stone. The plans for the launching of the bank are said to provide for a corporation capitalized at \$50,000 and estimated that more than this amount has already been subscribed for.—Mining Journal.

A Typical South African Scene.
O. R. Larson, of Day Vista, Sandlaysia River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." The store is situated on a valley situated from the nearest railway station and about twenty-five miles from the nearest town. Mr. Larson says: "I am favored with the custom of farmers within a radius of thirty miles, to many of whom I have supplied Chamberlain's remedies. All testify to their value in household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy." This must surely be a record. For sale by A. S. Putnam & Co.

PETER SZYRUCO Co., Monticello, Ill.

gentlemen—I feel it my duty to express to you my gratitude for what your wonderful remedy has done for me. I was completely run down with a complication of stomach disorders. For ten months I could not work and was treated by three eminent physicians, when the last, despairing of success on me, declaring nothing short of an operation for appendicitis would cure me. A friend induced me to try Dr. Caldwell's Syrup Pepsin and from the first dose I began to improve, and have now had my trouble since I have gained 25 pounds in weight and am enjoying the very best of health. I never fail to say a good word for Dr. Caldwell's Syrup Pepsin for I know what it has done for me. It does for others. Gratefully yours,

Verdict With Waiver.
Henderson Grimm, of this place, was stricken with paralysis of the right arm and side. After being treated by an eminent physician for quite a while without relief, my wife recommended Chamberlain's Pain Balm, and after using two bottles of it he is almost entirely cured.—Geo. R. McDonald, Man, Logan county, W. Va. Several other very remarkable cures of partial paralysis have been effected by the use of our ointment. It is most widely known, however, as a cure for rheumatism, sprains and bruises. Sold by A. S. Putnam & Co.

PROSPECTS ARE BRIGHT.
Oil Fields at Rapid River Being Worked With Great Vigor.

That the Michigan Oil company, whose exploring operations are a few miles from Rapid River, on what is known as the Wm. Black property, means business cannot be doubted. A. A. McGee and M. D. Kelly of Milwaukee, who are officers of the newly organized company, visited the oil fields the first of the week and from the former gentlemen we learn that the prospects of getting oil in paying quantities are exceedingly bright. Considerable new and costly machinery has been taken to the location, and work has been commenced in earnest.

At a meeting of the company held at Green Bay Tuesday the following officers were elected. President, F. C. Eschewer, Milwaukee; vice-president, H. A. Barkhausen, Green Bay; secretary and treasurer, C. C. Phelps, Green Bay. The board of directors consists of M. D. Kelley, of Milwaukee and J. D. McFure, of Green Bay, with the other officers as members. Perry G. Hibbard, of Rapid River, was elected resident agent. Other Milwaukeeans present at the meeting were James McGee, C. L. Brown, C. A. McGee, T. Trowbridge and C. Buttle.

Good Advice.
The most miserable beings in the world are those suffering from dyspepsia and liver complaint. More than seventy-five per cent. of the people in the United States are afflicted with these two diseases and their effects, such as sour stomach, sick headache, habitual constiveness, palpitation of the heart, heart-burn, water-brash, gnawing and burning pains at the pit of the stomach, yellow skin, coated tongue and disagreeable taste in the mouth, coming up of food after eating, low spirits, etc. Go to your druggist, and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Price Almanac.
